Mr. BARKLEY. Mr. President, I do not like to object; but, as I have said, I think the resolution, before being voted on, should go to the Rules Committee and be considered. No Senator on the spur of the moment is in a position to decide intelligently whether or not a loud-speaking system ought to be installed in the Senate. When I was a Member of the body at the other end of the Capitol such a system was installed, and it was such a terrific nuisance that it was necessary to "disinstall" it after a little while.

I think the Senate ought to have further information on the subject before it adopts a resolution of this kind, and therefore I feel compelled to object.

Mr. GUFFEY. I object and demand the regular order.

The PRESIDENT pro tempore. The regular order is called for, which constitutes an objection to action on the resolution.

DEPORTATION OF ALIEN CRIMINALS

Mr. REYNOLDS. Now, Mr. President, insofar as the loud speakers are concerned, I am not interested. I recognize the fact that there are a number of us who would like to be heard better by those who occupy the galleries. [Laughter.] Fortunately, I can at all times be heard in the galleries, and I am particularly glad that I can be heard on this occasion, when I am discussing a subject of interest to all the American people.

Mr. GLASS. Mr. President, will the Senator yield to me a moment?

Mr. REYNOLDS. I am happy to recognize my distinguished and beloved friend, the senior Senator from the Commonwealth of Virginia.

Mr. GLASS. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Senate bill 4670, reported from the Committee on Banking and Currency.

The PRESIDENT pro tempore. The bill will be reported by title.

The bill was reported by its title, as follows:

A bill to authorize the coinage of 50-cent pieces in commemoration of the three hundredth anniversary of the original Norfolk (Va.) land grant and the two hundredth anniversary of the establishment of the city of Norfolk, Va., as a borough.

Mr. GUFFEY. Mr. President, I demand the regular order of business, and object.

The PRESIDENT pro tempore. Objection is heard.

Mr. REYNOLDS. Mr. President, the resolution which has been submitted in the House and in the Senate, and which we now have under discussion, proposes to permit more than 3,000 aliens who have violated the laws of this country, and who have come into this country in violation of the law, to remain in the United States. A large number of those 3,000 aliens have been permitted to remain here in violation of the law.

We do not need any more immigration laws at this time, and if this resolution should be adopted, it would merely be the granting of permission to the Secretary of Labor and to the Commissioner of Immigration and Naturalization to allow these aliens to remain in this country.

Why, therefore, do they desire to have this resolution agreed to? They want it agreed to so that they may say, "The great Congress of the United States has placed its stamp of approval upon that which we have been doing." And what has the Government been doing? It has been violating the laws of the United States by refusing for 3 long years—3 long years [laughter]—to deport these aliens who were mandatorially deportable under the law.

They have been described. They have been referred to as "hardship cases." Now, let us find out something about some of those hardship cases, and ascertain whether I am not sympathetic.

Mr. BARKLEY. Mr. President, will the Senator yield?

Mr. REYNOLDS. I yield.

Mr. BARKLEY. Does the Senator know when these aliens came into this country illegally?

Mr. REYNOLDS. I do.

Mr. BARKLEY. When did they come in?

Mr. REYNOLDS. I am glad the Senator asked me that, because I have so many cases here that it would take me from now almost to midnight to answer correctly. I have lists of them.

Mr. BARKLEY. I want to say to the Senator that the reason why I asked the question was that a couple of weeks ago in the city of Cleveland the distinguished Senator who gave currency to the "Three Long Years" song, which has become so amusing as well as popular, criticized the present administration because it had not deported these aliens, and he claimed that they were here illegally. I am wondering under whose administration they got in here illegally.

Mr. REYNOLDS. I will say for the benefit of the Senator that the hundreds of thousands who are here illegally have come in over a period of 20 years.

Mr. BARKLEY. The Senator has not the name of each one who came in each particular year?

Mr. REYNOLDS. Oh, no; of course not.

Mr. BARKLEY. What proportion of them have come in within the last 16 years?

Mr. REYNOLDS. A smaller proportion, no doubt, have come in within the past "three long years" [laughter] than in any other 3 years in the history of this country.

Mr. BARKLEY. Does the list of those to whom the Senator has made reference contain a reference to the aliens who came in within the last "3 long years"?

Mr. REYNOLDS. Oh, not at all. They are aliens who have been gathered from various and sundry parts of the country, who have come here over a period of many years past.

Mr. BARKLEY. I thank the Senator for the detailed information.

Mr. BORAH. Mr. President, we have permitted them to remain here during these "3 long years", have we not?

Mr. REYNOLDS. Well, many of them have remained, for that matter.

Mr. BARKLEY. But most of them came during the 12 long previous years.

Mr. REYNOLDS. That is my understanding.

Mr. BORAH. They came, but they have been subject to deportation during these "3 long years."

Mr. REYNOLDS. They have been subject to deportation likewise during the 12 long years. [Laughter.]

Mr. BORAH. Well, they have been here during 15 years.

Mr. REYNOLDS. Many of them have, sir.

Mr. BORAH. During the 12 long years, and during the 3 long years; so the long years have very little to do with it. [Laughter.]

Mr. BARKLEY. Mr. President, did the Senator mean the 3 long "years" or the three long "ears"? [Laughter.]

Mr. REYNOLDS. Mr. President, in regard to these so-called hardship cases, I wish to bring one particularly to the attention of the Senate. There is no reason to stay these deportations. There are laws on the books today which make it mandatory that these aliens be expelled from the country. We do not need any further laws to get rid of them. We now have the necessary laws on the statute books; but those cases are referred to as "hardship cases." Let us find out about them.

Here is a private bill which was introduced in the lower House.

Mr. LEWIS. Mr. President——

Mr. REYNOLDS. I am glad to yield to my friend from Illinois.

Mr. LEWIS. I have risen a number of times stating that I rose to a parliamentary inquiry. I really seek information and guidance. I say to my friend that a Member of the House from my State, sitting in our body as a guest, brings in a bill which has passed the House touching a matter which he regards as of great importance to a constituent of his. May I ask if it would be necessary, in order that the bill might pass the Senate, that it first go to the calendar; or is it necessary, if it is not on the calendar, that we have unanimous consent before it may be considered?

The PRESIDENT pro tempore. Unanimous consent would be required.

Mr. LEWIS. Then this matter would come under the ban of the objection of the able Senator from Oregon [Mr. McNARY]. Therefore, I tell the Member of the House, understanding the situation, that I shall not press the matter further.

I thank the Senator.

Mr. REYNOLDS. Mr. President, returning to House bill 12953, here is a "hardship case." This is a private bill introduced in the House of Representatives for the relief of an alien by the name of Adolph Lipschitz. [Laughter.] Let me read it:

That in the administration of the immigration and naturalization laws the Secretary of Labor is hereby authorized and directed to cancel the warrant of arrest.

He was already arrested, ready to be deported, and then this private bill was introduced for his relief, so that he would not have to be deported.

The Secretary of Labor is hereby authorized and directed to cancel the warrant of arrest and the order of deportation against Adolph Lipschitz heretofore issued on the grounds that on July 26, 1926, admission to the United States had been fraudulently gained pursuant to the commission of a passport or visa offense which, subsequent to such admission, has heretofore been held by the Attorney General of the United States to be within the purview of "crimes involving moral turpitude", and thereupon Adolph Lipschitz shall hereafter be deemed to have been lawfully admitted to the United States for permanent residence at the port of Buffalo on July 26, 1926. Any declaration of intention to become a citizen or any petition for citizenship heretofore filed by or any admission to citizenship ordered and certificate of naturalization heretofore issued to Adolph Lipschitz which were predicated upon the claim of lawful admission to the United States for permanent residence on July 26, 1926, shall hereafter be deemed valid unless the original 7-year period of validity of such declaration of intention has heretofore expired or Adolph Lipschitz has heretofore been found otherwise not eligible to such benefit under the naturalization laws.

Mr. CONNALLY. Mr. President, will the Senator yield for a question?

Mr. REYNOLDS. Yes.

Mr. CAREY. How many aliens are involved in this bill?

Mr. REYNOLDS. One.

Mr. CONNALLY. From the pronunciation of the Senator, I thought there were three or four. [Laughter.]

Mr. REYNOLDS. No; only one.

Mr. CAREY. Mr. President, will the Senator yield?

Mr. REYNOLDS. I gladly yield to my friend from Wyoming.

Mr. CAREY. I should like to ask the Senator to state the last name of the alien. I did not get it. [Laughter.]

Mr. REYNOLDS. His name is Adolph Lipschitz—L-i-p-s-c-h-i-t-z.

Mr. President, this is one of the so-called "hardship cases." It appears that this bill was introduced in the House of Representatives on June 3.

Mr. MINTON. Mr. President, a parliamentary inquiry.

The PRESIDENT pro tempore. The Senator from Indiana will state it.

Mr. MINTON. Is the Senator speaking under the Marquis of Queensbury rules? [Laughter.]

Mr. REYNOLDS. This bill was introduced on June 3 of the present year, 1936. The alien mentioned herein appeared before the House Committee on Immigration and Naturalization on the same day. That is quick work. He said his name was Abraham, and not Adolph. He said that he entered this country illegally in 1926, 10 years prior to the introduction of this bill for his relief. He had 10 years in which to take out citizenship papers. He said that he had bought a fraudulent passport, for which he paid $275. Those who sponsored his cause said that his was one of the "hardship cases"; but on further inquiry we learn that this man, classified as one of those upon whom we are now imposing, claiming to have paid $275 for a fraudulent passport, left in Europe a wife and three children, and for 10 long years he has not seen that wife or those children.

Yet he testified before the House committee that every year he has been here he has been employed regularly as a carpenter and has never been on relief. There is one of the hardship cases! This man stole into our country in violation of our laws 10 years ago. For 10 long years this man has usurped a job that should have gone to an American carpenter. For 10 long years this man has lived apart from his wife and his children, and it is said that it would be a hardship, it would be improper, it would be wrong for us to send him back to his wife and his children, for us to kick him out of his job and give it to one of the several million American citizens who are out of employment.

I think one of the greatest things that we should interest ourselves in is the unemployment question. I wish to discuss that question briefly. I wish to discuss it for the reason that we hear a great deal about the unemployment situation in this country today. Mr. President, I desire to say that so long as this Government lasts we are going to be bothered with the unemployment situation in this country, because since its creation we have been troubled with the unemployment situation. I wish now to answer charges made by some of our colleagues in reference to and in criticism of the administration not having been able to reduce by millions the unemployed within the confines of our great Nation.

What is the situation? Senators must remember that there are yearly coming into this country thousands upon thousands of aliens who are seeping in from the Canadian border to the north and likewise across the Rio Grande to the south.

Senators must remember further that under our present quota laws 153,000 persons from foreign shores are annually permitted to enter this country legally, and many thousands more outside of the quotas. Senators must remember that every single year there are millions upon millions of boys and girls arriving at the employable age of 18 years. Senators must further remember that in our country we make general utilization of labor-saving devices more than any other country upon the face of the earth, and taking into consideration thousands upon thousands who come here every year from foreign shores, legally and illegally, taking into consideration the fact that millions of boys and girls in America are arriving each year at the employable age of 18, it is not surprising that we have unemployment, and it would not be surprising to me if we should have it for many years to come. It would take a phenomena such as this country has never known and never will know to wipe out unemployment overnight. Unemployment cannot be charged to the present administration.

Mr. President, I have before me much data. In reference to what my good friend from Washington said a moment ago in regard to the original draft of Senate bill 2969, the Kerr-Coolidge bill, I will say that I prepared 18 amendments to the bill. I wish to say to the Members of this body that at every session of Congress and at every opportunity I am going to bring one of those amendments to the attention of the Senate. I think they are important legislation that ought to pass. One amendment is to the effect that no alien shall be permitted to enter this country so long as there is out of employment a single American who is capable of filling a job. Until the unemployment condition is relieved I think we should stop all immigration into this country.

I wish to say further, as I have said before upon the Senate floor, that I have made investigation and prepared a compilation of a great many of these so-called hardship cases, and I hope at a later date to be able somehow or other to bring about the printing of the distorted reports of those cases submitted by the Labor Department in comparison with the investigations made by myself, and to distribute them to the Members of this body in order that they may know that my opposition to the passage of this resolution is not doing an injustice to anybody.

Finally I wish to say to Senators that if the Labor Department sees fit further to stay these deportation cases, and if there are worthy ones among them, when private bills shall be introduced upon the floor of the Senate for passage in their behalf I shall be, I hope, the first one to arise and champion the cause of such persons and pass those bills to bring about relief if the petitioners are entitled to the relief for which they pray in private bills introduced in the Senate or in the other House of Congress.

I now yield the floor to my distinguished friend from West Virginia [Mr. NEELY].

REGULATION OF INTERSTATE COMMERCE IN BITUMINOUS COAL

The Senate resumed the consideration of the bill (H. R. 12800) to regulate interstate commerce in bitminous coal, and for other purposes.

The PRESIDENT pro tempore. The question is on the amendment of the Senator from West Virginia, on page 2, line 15.

The amendment was agreed to.

Mr. FRAZIER. Mr. President, when the so-called Guffey coal bill was introduced in the Senate and referred to the Committee on Interstate Commerce I told some of the members of the committee that I proposed, when the bill was reported out, to offer an amendment, and when the bill was reported to the calendar I offered and proposed as an amendment to the bill known as the Farm Refinancing Act. I wish to discuss that amendment briefly.

The amendment I am offering is to be offered at the end of the bill as title II, being what is known as the Frazier-Lemke refinancing bill. This bill is in the interest of the American farmer. Last night when the Senator from West Virginia made his very able remarks in regard to the Guffey coal bill he stated that any objectors to the measure were voting for the forced unemployment of the coal miners.

Undoubtedly, many coal operators need help. Many coal miners need employment. The coal operators need better prices and the miners need better wages. The same condition prevails with reference to the American farmer. Thousands of farmers are being foreclosed and put out of business. We have a Federal land bank that has been doing some good work, but it does not fully take care of the situation.

I have a statement from the Farm Credit Administration in which are given the foreclosures per thousand farms by the Federal land bank and by the farm-mortgage companies. In 1935 out of every thousand farms 19 were foreclosed by mortgage companies. Another table gives the list foreclosed upon by the Federal land bank from 1930 to 1935. In 1935 the Federal land bank had outright foreclosures to the number of 9,964. The number by acquisition by voluntary deed was 1,488. Other acquisitions were 1,576. The total number of properties acquired by the Federal land bank in 1935 was 13,028.

Mr. President, there is a crying need for legislation of this kind to save the American farmers from losing their homes and their farms. The present legislation is not sufficent to take care of the situation. We need some measure that will give the farmer a lower rate of interest and easier terms of payment.

A measure of this kind is not a new proposal. We have in other countries similar measures where they have taken care of the farmers. One such country is the nation of Denmark. It is called the land of homes. Through low rates of interest and easy terms of payment provided by the Government, more than 90 percent of the people of Denmark own their own homes and their own farms.

I have an article from a Canadian paper. The paper is published at Crystal City, Manitoba. This was sent to me by a farmer in the State of Washington. The article is headed "Debt Adjustment for Farmers in Brazil", and reads in part as follows:

> A little over 2 years ago a decree issued by the Government of Brazil provided that all debts of the farmers were to be reduced by 50 percent, the Government itself taking over the 50 percent and canceling the debts so far as the farmer is concerned, and issuing to the creditors Government bonds.

The Government of Brazil recognized the fact that because prices had gone down on land and on farm products it was impossible for the farmer to pay his indebtedness, so the government took the attitude that something must be done and enacted a law, according to this article, taking over one-half of the farm indebtedness. I was very much interested and had my secretary call the Brazilian embassy. We were informed that the statement was correct. Other nations are taking care of their farmers, their home owners and land owners. This Government should take care of our home owners and land owners.

The population of our farms in 1935, according to the best figures obtainable, was 32,779,000. This comprises 20 to 25 percent of the total population of the United States. The value of farm property in 1914 to 1935 had gone down practically 50 percent; that is to say, farm properties in 1914 were valued at more than twice as much as they are today. During the same period of years taxes on our American farm property had more than doubled. In other words, while the value of farm property has decreased 50 percent, taxes have increased more than 50 percent.

Mr. BORAH. Mr. President——

The PRESIDING OFFICER (Mr. LONERGAN in the chair). Does the Senator from North Dakota yield to the Senator from Idaho?

Mr. FRAZIER. I yield.

Mr. BORAH. May I ask the Senator if he has accurate figures as to the proportion of farms in the United States which are under mortgage?

Mr. FRAZIER. It is difficult to get accurate figures, but I have some figures which were submitted to the Committee

on Agriculture and Forestry. We believe they are approximately correct. The mortgage indebtedness, according to these figures, has gone down from $9,500,000,000 in 1934 to $8,000,000,000 in 1935.

Mr. BORAH. Is it not true that a number of those farms which are now not under mortgage are farms which were foreclosed and have passed to the ownership of insurance companies and similar classes of holders?

Mr. FRAZIER. That is absolutely correct. It is claimed that over 50 percent of the farms in the United States have either been foreclosed upon or else are under mortgage at the present time. I believe that is a very conservative estimate.

More than 50 percent of the farmers of the United States have either lost their land by foreclosure or have only a small equity in their land because of the mortgage pending and are in danger of foreclosure.

Mr. KING. Mr. President——

The PRESIDING OFFICER. Does the Senator from North Dakota yield to the Senator from Utah?

Mr. FRAZIER. I yield.

Mr. KING. The Senator, I understand, has offered a very important amendment, and is discussing it with great intelligence and great force as he usually discusses all matters. It seems to me we ought to have a quorum in order that Senators may hear his observations. Will he yield to enable me to suggest the absence of a quorum?

Mr. FRAZIER. I do not think that is at all necessary. I appreciate the interest of the Senator from Utah.

Mr. President, the farm population of the United States is between 20 and 25 percent of our total population. The value of the farm property is from 20 to 25 percent of the total value of property in the United States. The income of the American farmer comes nowhere near the 20 to 25 percent of the total income of the United States.

I have a table showing the agricultural income and the national income for several years. Beginning in 1929, the national income was $78,576,000,000. The agricultural income in the same year was $6,157,000,000, or 7.8 percent of the national income was farm income.

While our farm property consists of better than 20 percent of the total amount of property, and we have on the farms a quarter of the population of the United States, yet in the year which was the peak of prosperity for business interests—1929—the American farmers received only 7.8 percent of the net income produced that year in this country; and from that time the percentage began to go down. I shall not give all these years; but in 1934, which is the last year I have in this table, the national net income was $40,440,000,000. The agricultural net income for the same year was $3,299,000,000, and the percentage of agricultural net income to national income was 6.6 percent. In other words, 6.6 percent of the total income went to the American farmer!

Mr. CONNALLY. Mr. President, will the Senator yield?

The PRESIDING OFFICER. Does the Senator from North Dakota yield to the Senator from Texas?

Mr. FRAZIER. I yield.

Mr. CONNALLY. Without regard to the merits of the Senator's bill or anything of the kind, the Senator will admit, however, that the farm income has rapidly increased within the past 3 years, will he not?

Mr. FRAZIER. It has gone up to some extent, but it is not yet up anywhere near where it should be.

Mr. CONNALLY. No; but, in fairness, I think the Senator ought to state that during the past 3 years the farm income has been very substantially increased.

Mr. FRAZIER. In 1933, which was the year of low income of farmers, according to this table, their income was $2,998,000,000. In 1934, the last year I have in this table, the income of farmers was $3,299,000,000; and it has increased to some extent, I think, to somewhere around $5,000,000,000 during the past year. That is some help, of course, but it is still away below the percentage to which we are entitled.

Mr. President, according to the best figures we can obtain, in prosperous years the total income of the United States should be at least $75,000,000,000; and if our farm population has 20 percent of the total value of the property, it seems to me the farmers should be entitled to 20 percent of the $75,000,000,000; 20 percent would mean $15,000,000,000 to the farmers for their net income.

Mr. President, it has been frequently stated on the floor of the Senate that the platforms of the two old parties for years have had an agricultural plank stating in substance that they wished to put the farmer on a parity with industry. It has always been the record, as far back as I can remember, that the platforms of both these old parties were practically forgotten, especially so far as the farm program was concerned, after the election; and the farmers have never attained anywhere near parity with industry.

Mr. President, I know that the senior Senator from West Virginia [Mr. NEELY] and the junior Senator from Pennsylvania [Mr. GUFFEY] are very much interested in the pending coal bill. There are only about 6,000 coal miners, as I recall, in the United States.

Mr. NEELY. Mr. President, how many did the Senator say?

Mr. FRAZIER. About 6,000 per million of population.

Mr. NEELY. The Senator means 600,000; does he not? The number is much nearer 600,000. There are now employed in the United States, or have been employed, approximately 360,000.

Mr. FRAZIER. Yes; I stand corrected. The number is over 600,000, I believe.

Mr. NEELY. About 600,000 have been so employed.

Mr. FRAZIER. I thank the Senator for the correction; but, of course, even at that we have about 30,000,000 farm people; and, of course, those gainfully employed are much more numerous on the farms than in any other line of work.

The table I have before me sets forth the number gainfully employed. The importance of agriculture from the standpoint of gainful employment among the producers of the Nation is found in the following table, which lists the number employed per million of population:

Eighty-five thousand two hundred and ninety-four farm people are gainfully employed per 1,000,000 people in the United States; and the miners, as given in this table, per million, are 6,064. Next to farmers gainfully employed are clerks, who are 49,805 per million, and servants, 21,577 per million, and so forth. So the number of persons gainfully employed on the farm is practically twice as great as the number in any other one line of industry; and yet agriculture does not begin to get its share of the profits made by the business interests of the country.

The number of farms in the United States is generally considered to be about 6,800,000; and, according to the figures I have here, which were given before the Committee on Agriculture and Forestry, it is estimated that the number of mortgaged farms which are owned by the operators is 2,300,000, and the number of farm tenants is 2,865,000.

Mr. President, I wish to show from these tables, which were presented to the Agricultural Committee, some of the figures in regard to bank credits, and how these bank credits have gone down during the past several years.

According to this statement, the per capita allotment of bank credits in 1934 was $117.33—that is, the bank checking accounts. There were a few States that were above that average. New York, for instance, had a per capita average of bank credits of $406.60. The District of Columbia had a per capita average of over $200, Delaware an average of a little over $200, Massachusetts $170, Illinois $152, Missouri $138, Pennsylvania $134, California $123; and all the rest of the States are below the average per capita credit.

Mr. SCHWELLENBACH. Mr. President, will the Senator yield?

The PRESIDING OFFICER. Does the Senator from North Dakota yield to the Senator from Washington?

Mr. FRAZIER. Yes; gladly.

Mr. SCHWELLENBACH. I should like to ask the Senator from North Dakota whether, since this bill was reported out by the Committee, the Senator has attempted to have it

made the unfinished business. I do not remember that he has.

Mr. FRAZIER. Oh, yes; I have. The Senator from Washington knows, however, that in order to have a bill made the unfinished business it must have the O. K. of the so-called steering committee, including the majority leader.

Mr. SCHWELLENBACH. I should like to submit a question to the Senator. I feel very sympathetic toward his bill, and voted in the committee to bring it out.

Mr. FRAZIER. I know the Senator did.

Mr. SCHWELLENBACH. The bill has been defeated in the House, however; and I think we may logically assume that if it were attached to this bill it would again be defeated in the House, the House having once defeated it. From the standpoint of those of us who are anxious to help the coal-mining industry, and who believe that the Guffey coal bill will help the coal-mining industry, and who still are sympathetic toward the bill to which the Senator from North Dakota is referring, does not the Senator feel that it is improper to jeopardize and probably certainly defeat the Guffey coal bill if we attach this bill to the Guffey coal bill in the Senate and send it back to the House, even though we may wish to assist in the passage of the bill to which the Senator refers?

Mr. FRAZIER. Mr. President, judging from past experience in the Senate, probably we could not have this bill passed. I realize that; but I do feel that we should have a record vote on it, and I see no reason why any Senator should object to going on record in regard to this bill.

It has been on the calendar for over a year. It was reported unanimously, or without a dissenting vote, at least, from the Committee on Agriculture and Forestry of the Senate, and hearings have been held.

Mr. SCHWELLENBACH. Mr. President, if the Senator could just give to those of us who might want to vote for the bill an assurance that it could not be passed and would not defeat the coal bill, that would be entirely satisfactory; but to put us up against the proposition of voting against the coal bill, which would be the inevitable result if the Senate should adopt this bill, asking us to vote for or against this bill in connection with that legislation, I think is unfair.

Mr. FRAZIER. Mr. President, I feel that this bill is of just as much importance as the coal bill.

Mr. SCHWELLENBACH. I do, too.

Mr. FRAZIER. Furthermore, when the same bill was before the House a few weeks ago, a letter was written by the president of the American Federation of Labor which was read on the floor of the House, which stated that this bill was inflationary, and would increase the prices of farm products, and therefore increase the prices to the consumers; and that his people were against it. The Guffey coal bill will increase the price of coal to the consumer. I do not think it is fair that that should be stated as an argument against it. I think the miners are entitled to a living wage and the operators to the cost of production, and I know the Senator from Washington takes the same attitude. But the same argument, of course, can be used for this amendment that can be used for the coal bill exactly the same argument.

I intend to speak only a few minutes, and all I ask is a record vote on the amendment. I hope we can get it.

I was speaking of per-capita allotments and bank credits in the United States in 1934. I had read some of those in the high figures. I desire now to go down to the bottom of the list. At the bottom of the list is the State of Mississippi, a wonderfully rich agricultural State of the South. Their per-capita bank credits in 1934 averaged $21.10. There are undoubtedly a few businessmen and quite wealthy manufacturing concerns in the South which would have a much higher average than $21.10 in bank credits, but this is the average in Mississippi. This means that there are literally thousands and thousands of farmers in the State of Mississippi who have no bank credit at all, and did not have in 1934.

Next above that is the State of South Carolina, another agricultural State. Twenty-one dollars and fifty-six cents was the average bank credit in that State in 1934.

Next to that is Arkansas, another agricultural State, Twenty-three dollars and twenty-nine cents was the average per-capita bank credit in 1934 in that State.

Alabama is next above that, another agricultural State of the South, with an average of $26.61.

Then comes North Carolina, just above that, another agricultural State of the South, $28.75 being the average per-capita bank credit in 1934.

My own State of North Dakota, another agricultural State, showed an average of $31.05.

New Mexico, $31.36.

Georgia, $39.38.

Tennessee, $42.14.

South Dakota, $43.96.

West Virginia, $47.80. West Virginia is a little above what might be termed an "all-agricultural" State, but it is still very low.

Mr. President, I have a table here showing the decrease in the bank deposits by years, beginning with 1914 and going to 1934. They went down a great deal. This table shows the figures by years in the various States of check-book money in circulation.

In West Virginia the check-book circulation went down from the year 1919, which was a prosperous year, just after the close of the World War. There were at that time $187,-118,000 in checking accounts in the State of West Virginia. They went down in 1934 to $85,373,000, and the number of banks in the State of West Virginia went from 350 banks in 1929 to 181 in 1934, or a loss of 169 banks in the State. Some of the agricultural States during the period from 1919 to 1934 lost an amazingly large number of banks. The State of Iowa and other agricultural States from 1929 to 1934 lost 1,070 banks.

The State of Kansas, another agricultural State, from 1929 to 1934 lost 541 banks.

Minnesota lost 731 banks.

Missouri, another industrial and agricultural State, lost 910 banks.

Some of the States of the South lost a great many banks also. The great agricultural State of Texas lost 576 banks during that time.

Mr. President, the agricultural States have been the hardest hit, both in loss of banks and loss of their credit, and it seems to me they are entitled to some legislation to help save the American farmers, to put them on their feet, to help them retain the ownership of their land and homes, and to help reestablish their purchasing power, to get an opportunity to buy the products they need, which will mean opening the factories, and bringing better times in general.

Mr. President, I desire now to say just a few words about title II, which I have offered as an amendment to the bill. The same bill has been before the Congress for several years, and 32 State legislatures have gone on record favoring it. They have adopted memorials and petitions asking that the Congress of the United States pass the bill. I have a list of 32 State legislatures, and the dates of their resolutions, and the pages in the RECORD where the resolutions were filed with the United States Senate. I will not take the time to read the list, but it includes agricultural States from all over the United States.

Mr. President, this measure provides for refinancing the farm indebtedness at 1½-percent interest, and at 1½-percent interest on the amortization plan, which would pay off the loan in a period of 47 years.

There has been some criticism of the length of time allowed but, of course, if anyone has sufficient earnings to make payments within a shorter time, it is perfectly all right and it can be done. The money for this purpose is to be raised by the issue and the sale of farm-loan bonds drawing 1½ percent tax exempt, of course, and they are Government bonds. If they cannot be readily sold at 1½-percent interest, the bill provides that then they shall be turned over to the Board of Governors of the Federal Reserve Bank, and they in turn will issue paper money, Federal Reserve notes, for the face value of the bonds.

This is called by some inflation. In the bill the paper money so issued is limited so that there shall not be outstanding at any one time more than $3,000,000,000. We do not think that is inflation in any way. According to the table from which I was reading, the bank credits during the past 6 years have been reduced throughout the United States by $6,500,000,000. Think of it; $6,500,000,000 reduction of bank credits, checking accounts of the individuals of the United States. Three billion dollars, Mr. President, would be less than a 50-percent reflation of the amount deflated of our bank credits during the past 6 years. In 1929 when we were at the high point of our credit we did not think we had any great inflation. As the Senator from Oklahoma stated the other day in his very able address on the money question, every time we have had prosperity in the United States we have had plenty of money in circulation. In other words, our dollar was cheap, but commodity prices were high. On the other hand, the Senator from Oklahoma showed us by a graph placed on the wall that the prices of farm commodities and other commodities have followed an inverse course to the value of the dollar.

When we have had good times we have always had plenty of money. Cheap money it has been called; yes, but plenty of it, and prices have been high. On the other hand, in every period in the country's history when we have had hard times it has been when prices were low and money was scarce.

This measure would put $3,000,000,000 of new money into circulation. We believe it would bring about high commodity prices.

The president of the American federation sent a letter to the House, which was read on the floor of the House when the bill was before the House, in which he stated that this $3,000,000,000 of new money would bring better prices for farm commodities. That is what we want, to have the price of farm commodities brought up to a higher amount, brought up high enough to give the farmer cost of production plus a fair profit. He is entitled to that. The coal miners are entitled to a living wage. The farmers are also entitled to it, and they must have it if they are going to succeed.

The amendment provides for the valuation of farm property so as to determine the amount that can be loaned. Provision is also made for the election of an agricultural board to be elected by the farmers themselves, one from each State to look after their own business.

BLUE RIDGE PARKWAY

Mr. GLASS. Mr. President, will the Senator yield to me?

Mr. FRAZIER. I yield.

Mr. GLASS. I ask unanimous consent for the immediate consideration of a bill which has just passed the House and is now on the desk, being House bill 12455 relating to the Blue Ridge Parkway in Virginia. It is simply a local matter.

The PRESIDING OFFICER. The clerk will report the bill by title.

The LEGISLATIVE CLERK. A bill (H. R. 12455) to provide for the administration and maintenance of the Blue Ridge Parkway, in the States of Virginia and North Carolina, by the Secretary of the Interior, and for other purposes.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the bill was considered, ordered to a third reading, read the third time, and passed.

COINAGE OF 50-CENT PIECES, ANNIVERSARIES OF NORFOLK, VA.

Mr. GLASS. Mr. President, earlier in the day I endeavored to have Senate bill 4670 considered, and one of my colleagues objected to my unanimous consent request. Since then that Senator [Mr. GUFFEY], who made the objection, has told me that he would not further object. I ask unanimous consent for the immediate consideration of the bill.

There being no objection, the Senate proceeded to consider the bill (S. 4670) to authorize the coinage of 50-cent pieces in commemoration of the three hundredth anniversary of the original Norfolk (Va.) land grant and the two hundredth anniversary of the establishment of the city of Norfolk, Va., as a borough, which had been reported from the Committee on Banking and Currency with an amendment to strike out all after the enacting clause, and to insert:

That in commemoration of the three hundredth anniversary of the original Norfolk, Va., land grant, and the two hundredth anniversary of the establishment of the city of Norfolk, Va., as a borough, there shall be struck at a mint of the United States to be designated by the Director of the Mint 25,000 commemorative medals of a special appropriate single design, size, weight, and composition to be fixed by the Director of the Mint with the approval of the Secretary of the Treasury.

SEC. 2. Such commemorative medals shall be delivered to the duly authorized officers of the Norfolk Advertising Board, Inc., affiliated with the Norfolk Association of Commerce, upon payment to the Director of the Mint of an amount to be fixed by the Director of the Mint not less than the estimated cost of manufacture, including labor, materials, dies, use of machinery, and overhead expenses; and security satisfactory to the Director of the Mint shall be furnished to indemnify the United States for the full payment of such cost.

SEC. 3. Whoever shall falsely make, forge, or counterfeit or cause or procure to be falsely made, forged, or counterfeited, or shall aid in falsely making, forging, or counterfeiting any medal issued under the provisions of this act, or whoever shall sell or bring into the United States or any place subject to the jurisdiction thereof from any foreign place, or have in his possession any such false, forged, or counterfeited medal, shall be fined not more than $1,000 or imprisoned not more than 2 years, or both.

The amendment was agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

The title was amended so as to read: "A bill to authorize the striking of an appropriate medal in commemoration of the three hundredth anniversary of the original Norfolk, Va., land grant and the two hundredth anniversary of the establishment of the city of Norfolk, Va., as a borough."

CONTROL OF GRASSHOPPERS

Mr. NORRIS. Mr. President, I should like to ask the Senator from Kansas [Mr. MCGILL] to submit his unanimous consent request again to consider the so-called grasshopper joint resolution.

Mr. McGILL. Mr. President, will the Senator from North Dakota yield?

Mr. FRAZIER. I yield.

Mr. McGILL. Earlier in the day I presented to the Senate a unanimous-consent request to the effect that the Committee on Appropriations be discharged from further consideration of House Joint Resolution 642, and that it be considered. At this time I renew the request that the Committee on Appropriations be discharged from further consideration of that joint resolution.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and the Committee on Appropriations is discharged from further consideration of the joint resolution.

Mr. McGILL. I now ask unanimous consent for the immediate consideration of the joint resolution.

Mr. HALE. I object.

Mr. McGILL. Mr. President, did I understand the Senator to object?

Mr. HALE. In the absence of the minority leader, I object.

Mr. NORRIS. Mr. President, I took the matter up with the minority leader and he does not object to the consideration of the joint resolution. He has already said that he does not object. He has agreed to this particular proposition.

Mr. HALE. Under those circumstances, I shall withdraw my objection.

Mr. NORRIS. The Senator has withdrawn his objection.

Mr. McGILL. I ask for the immediate consideration of the joint resolution.

There being no objection the resolution (H. J. Res. 642) to enable the Secretary of Agriculture to apply such methods of control of grasshoppers as in his judgment may be necessary, was considered, ordered to a third reading, read the third time, and passed.

QUAPAW INDIANS OF OKLAHOMA

Mr. THOMAS of Oklahoma. Mr. President, there is on the desk an Indian bill which affects my State. It is for the Quapaws in northeastern Oklahoma. Heretofore the Congress has permitted the State of Oklahoma to tax revenue derived from their realty. Under the existing law in my State if the Indians do not pay the realty there is a lien attached to the land. The lands are restricted. These liens are a cloud upon the Indian title. Inasmuch as the Indians are wards of the Nation, these lands, so far as they are restricted, should not be covered by a cloud. So I ask for immediate consideration of House bill 11221, which provides a new provision that the taxes imposed by the State of Oklahoma shall not be a lien on the restricted lands of the Indians of the Quapaw Tribe.

The PRESIDING OFFICER. The bill will be reported by title.

The LEGISLATIVE CLERK. A bill (H. R. 11221), to amend the last two provisos, section 26, act of Congress approved March 3, 1921 (41 Stat. L. 1225–1248).

Mr. McNARY. Mr. President, what was the request?

Mr. THOMAS of Oklahoma. Mr. President, it is for the consideration of an Indian bill which exempts restricted lands in the Quapaw tribe from taxes imposed by the State of Oklahoma.

Mr. McNARY. Mr. President, I thought I had made my declaration clear. I am willing to proceed with bills on the calendar, but I do not like to have bills picked off the calendar, which always gives certain privileges to Senators who may be interested. I stated earlier in the afternoon that I should object to any further legislation.

Mr. THOMAS of Oklahoma. I understood that obtained to claim bills. This is not a claim bill. This is for the protection of Indians.

Mr. McNARY. I objected to claim bills because they came up in that form. I really must adhere to my former declaration and object to any further legislation.

The PRESIDING OFFICER. Objection is heard.

REGULATION OF INTERSTATE COMMERCE IN BITUMINOUS COAL

The Senate resumed the consideration of the bill (H. R. 12800) to regulate interstate commerce in bituminous coal, and for other purposes.

Mr. BYRNES. Mr. President, will the Senator from North Dakota yield?

Mr. FRAZIER. I yield.

Mr. BYRNES. Has the Senator offered an amendment to the pending bill?

Mr. FRAZIER. Yes; I have.

Mr. BYRNES. What is the nature of the amendment?

Mr. FRAZIER. I have offered what is known as the Frazier-Lemke farm refinancing bill as an amendment to the pending measure.

Mr. BYRNES. Is the Senator opposed to the bill which is now before the Senate, known as the Guffey coal bill?

Mr. FRAZIER. On general principles I am not opposed to the bill. I have had a great many protests from North Dakota against it, however. Our lignite coal has been eliminated from the bill, I understand. We felt it was not fair to include lignite coal, although I voted for the original Guffey coal bill when it was passed. It was more of a labor bill at that time than it is at the present time.

Mr. BYRNES. Did the Senator vote to take up the bill today?

Mr. FRAZIER. No; I did not. I voted against it.

Mr. BYRNES. If the Senator was opposed to taking the bill up for consideration, is he also opposed to the passage of the bill?

Mr. FRAZIER. If my amendment could be adopted I certainly would vote for it.

Mr. BYRNES. And if the Senator's amendment should not be adopted, would he vote against the bill?

Mr. FRAZIER. Yes; that is probably the case. I explained, when the Senator from South Carolina was out of the Chamber, that the president of the American Federation of Labor wrote a letter which was read on the floor of the House when the farm bill was being considered there. He made the statement that it would raise the price of farm commodities and therefore cost the consumers more money, and he was opposed to it. The Guffey coal bill would raise the price of coal and thus coal would cost the farmers more money. I think I have a logical argument in view of the attitude of the president of the American Federation of Labor at that time.

Under the terms of my amendment the new money to be issued would be limited to $3,000,000,000. In a table submitted to the Senate Committee on Agriculture and Forestry is set forth the credit curtailment from 1929 up to 1935 and also the proportionate share of each of the States in the $3,000,000,000 proposed under the farm mortgage amendment, provided that all the money should be issued or in circulation at one time, and based upon the amount of farm mortgages to be refinanced.

In Wyoming, for instance, there was a $29,000,000 curtailment of bank credits. The amount under the Frazier-Lemke measure would be $9,000,000 for that State.

In West Virginia the amount of bank curtailment was $55,000,000. The share of that State, which is not so much of an agricultural State, of the $3,000,000,000 would be only $12,000,000.

In Oklahoma there was a curtailment of bank credit in 1929 of $41,000,000. Their share under the farm-mortgage amendment would be $48,000,000.

In North Carolina the curtailment was $41,000,000, and under the farm-mortgage bill their share would be $47,000,000.

In the State of Arkansas the curtailment was $44,000,000, and their share under the bill would be $9,000,000.

In California the curtailment of bank credit was $266,000,000. Their share under the proposal I have submitted would be $223,000,000.

In Kansas, a great agricultural State, the curtailment was $133,000,000, and their share under my amendment would be $340,000,000; and so on down the list. The agricultural States would get just about as much as their share of the $3,000,000,000 as their curtailment of bank credits amounted to since 1929.

Mr. President, the bill provides for the election by the farmers of an agricultural board, one from each State, to look after the making of loans and the refinancing of the indebtedness of the farmers. It also provides for an agricultural board of three members, who would be on full-time payment with headquarters in Washington. Their duty would be to cooperate with the Farm Credit Administration and the Federal Reserve Board and the farm land bank in order that the farmers' business would be looked after faithfully and well. One criticism of the administration of our farm legislation has been that it was too lax. There has been altogether too much of a lack of interest among those whose duty it was to enforce the legislation in the interest of the farmer.

We have reports from land-bank districts where farmers have given notes with no consideration at all, and where loans were turned down with practically no consideration in many instances. The land bank was organized as a cooperative proposition originally and the farmers were to have a say in the working of it, but the law has been amended until now the farmer has practically nothing to say about the operation of the land bank, although the banks are still called Federal land banks.

Mr. President, the interest on the farm-loan bonds would go to the Government of the United States and the bonds would be held as security for the Federal Reserve notes issued, to the face value of the bonds. That is nothing new under the Federal Reserve System. The Federal Reserve banks issue paper money based on Government bonds. In some instances there is gold back of them. We have plenty of gold in the Treasury as reported by the Senator from Oklahoma [Mr. THOMAS] in his discussion of the currency situation the other day. There is plenty of gold back of the

bonds and the money that would be necessary as a revolving fund to refinance the farmers of the United States.

Mr. President, I am not going to take further time on the amendment. I have offered the amendment and I suggest that time be not taken to have it read because it has been on the calendar in the form of an original measure for over a year. It has been discussed on the floor of the Senate several times and I believe most Senators are more or less familiar with it.

I offer the amendment which I send to the desk to title II of the pending bill.

The amendment offered by Mr. FRAZIER is, at the end of the bill insert the following new title:

TITLE II

SECTION 1. That this title shall be known by the title the Farmers' Farm Relief Act.

SEC. 2. That the Government now perform its solemn promise and duty and place American agriculture on a basis of equality with other industries by providing an adequate system of credit, through which farm indebtedness and farm mortgages now existing may be liquidated and refinanced, through real-estate mortgages on the amortization plan, at 1½-percent interest and 1½-percent principal per annum, and through mortgages on livestock used for breeding or agricultural purposes at 3-percent interest per annum through the use of the machinery of the Farm Credit Administration and the Federal Reserve banking system.

SEC. 3. The Farm Credit Administration is hereby authorized and directed to liquidate, refinance, and take up farm mortgages and other farm indebtedness, existing at the date this title takes effect, by making real-estate loans, secured by first mortgages on farms, to an amount equal to the fair value of such farms and 75 percent of the value of insurable buildings and improvements thereon, through the use of the machinery of the Federal land banks and national farm-loan associations, and to make all necessary rules and regulations for the carrying out of the purposes of this title with expedition. In case such farm mortgages and other farm indebtedness to be liquidated and refinanced exceed the fair value of any farm and 75 percent of the value of insurable buildings and improvements thereon, then such farm mortgages and indebtedness shall be scaled down in accordance with the provisions of the act entitled "An act to establish a uniform system of bankruptcy throughout the United States", approved July 1, 1898, and acts amendatory thereof and supplementary thereto. Such loans shall be made at a rate of 1½-percent interest and 1½-percent principal per annum, payable in any lawful money in the United States.

SEC. 4. The Farm Credit Administration is further authorized and directed to liquidate, refinance, and take up chattel mortgages and other farm indebtedness, existing at the date of enactment of this title, by making loans at the rate of 3-percent interest per annum, secured by first mortgages on livestock, to an amount equal to 65 percent of the fair market value thereof, such loans to run for a period of 1 year, with right of renewal from year to year for a term of 10 years: *Provided*, That any depreciation in the value of such livestock is replaced by additional livestock, and the amount of the loan is reduced 10 percent each year.

SEC. 5. There is hereby authorized to be appropriated, out of any money not otherwise appropriated, $100,000 for the use of the Farm Credit Administration to carry out the provisions of this title. The necessary and actual expenses incurred in carrying out the provisions in this title shall be apportioned and prorated and added to each individual mortgage and such sums so added shall be paid to the Farm Credit Administration for administrative purposes.

SEC. 6. The funds with which to liquidate and refinance existing farm mortgages and other farm indebtedness shall be provided by the issuing of farm-loan bonds by the Farm Credit Administration, through the Land Bank Commissioner and the Federal land banks, as now provided by law, which bonds shall bear interest at the rate of 1½ percent per annum, if secured by mortgages on farms, and 3 percent per annum if secured by chattel mortgages on livestock. These bonds, after delivery to the Farm Credit Administration, may, by it, be sold at not less than par to any individual or corporation, or to any State, National, or Federal Reserve bank, or to the Treasurer of the United States. And it shall be the duty of the Federal Reserve and national banks to invest their available surplus and net profits after the dividends are paid to their stockholders, in such farm-loan bonds.

SEC. 7. In case all of said farm-loan bonds are not readily purchased, then the Land Bank Commissioner shall present the remainder to the Federal Reserve Board, and the Board shall forthwith cause to be issued and delivered to the Land Bank Commissioner Federal Reserve notes to an amount equal to the par value of such bonds as are presented to it. Such farm-loan bonds to be held by the Federal Reserve Board as security in lieu of any other security or reserve. The outstanding Federal Reserve notes issued under this title shall at no time exceed $3,000,000,000.

SEC. 8. The Farm Credit Administration and the Federal land banks shall turn over all payments of interest and principal on such farm-loan bonds, for which the Federal Reserve Board issues Federal Reserve notes, to the Treasurer of the United States, and shall be by him kept for the purpose of redeeming said Federal Reserve notes and shall be reinvested by him as a sinking fund in farm-loan bonds issued under the provision of this title.

SEC. 9. Whenever the amount of money issued under this title shall exceed $25 per capita, then the Treasurer of the United States, by and with the approval of the Federal Reserve Board and the President of the United States, may retire Federal Reserve notes in an amount equal to the principal paid on farm-loan bonds, for which Federal Reserve notes were issued, not to exceed 2 percent in any one year, of the amount of Federal Reserve notes so issued.

SEC. 10. There is hereby created a Board of Agriculture consisting of one member from each State, elected by the farmers of such State, who shall be elected by delegates selected by a mass convention of farmers in each county or parish within the United States, who are indebted and declare it to be their intention to take advantage of this title, such county of parish convention to be its own judge as to who are bona-fide farmers and otherwise eligible to participate in its proceedings.

SEC. 11. The Farm Credit Administration is hereby authorized and directed to give public notice, through the Federal land banks, to the farmers of each county or parish of the time and place of holding the first county or parish convention, which shall be held at the seat of government of each county or parish; and it shall at the same time give notice of the first convention of the State delegates, to be held at the State capital of each State, notice of such convention to be given within 60 days after the enactment of this title.

SEC. 12. The farmers attending such county or parish convention and the State delegates attending such State convention shall organize and make such rules and regulations for their procedure as they deem necessary or convenient, and shall elect a president and a secretary and make arrangements for such other and future conventions as they may deem necessary to carry out the purposes of this title, and they shall at all times cooperate and assist the Board of Agriculture, the Farm Credit Administration, the Federal land banks, and national farm-loan associations to liquidate and refinance farm mortgages and farm indebtedness.

SEC. 13. The State delegates so elected shall meet at the State capitals of their respective States and elect a member of the Board of Agriculture, who shall hold his office from the date of such election and for a period of 2 years from January 20 following, and who shall receive $15 per diem and necessary traveling expenses while on official business, to be paid by the Farm Credit Administration out of any funds set apart by section 5 of this title.

SEC. 14. Immediately after their election the members of the Board of Agriculture, upon call of the Farm Credit Administration, shall meet at Washington in the District of Columbia and organize by electing a chairman and a secretary, and they shall make such rules and regulations as they deem necessary and expedient to carry out the purposes of this title. They shall elect an executive committee of three, none of whom shall be members of the Board of Agriculture, who shall hold their office at the will of said Board and who shall receive a salary of $7,500 per annum and 5 cents per mile for necessary traveling expenses while on official business, to be paid by the Farm Credit Administration out of any funds set apart by section 5 of this title.

SEC. 15. The members of the Board of Agriculture shall keep in touch with and report to the executive committee the progress of liquidating and refinancing farm mortgages and farm indebtedness in their respective States. They shall cooperate with county or parish and State governments and with all farms and cooperative organizations within their respective States, to speedily bring about the liquidation and refinancing of farm mortgages and farm indebtedness.

SEC. 16. The executive committee of the Board of Agriculture shall advise with and supervise the work of liquidating and refinancing farm mortgages and farm indebtedness by the Farm Credit Administration and the Federal Reserve Board, and they shall cooperate with said Boards and with county or parish and State governments and with the various farm organizations, and with the agricultural colleges of the Nation, in order to bring about a just and speedy liquidation and refinancing of farm mortgages and farm indebtedness. They shall report to the President of the United States any member of the Farm Credit Administration or the Federal Reserve Board who neglects, hinders, or delays the carrying out of the provisions of this title, and it shall be the duty of the President, upon cause shown, to remove any such officer and to appoint some other suitable person in his place with the advice and consent of the Senate.

SEC. 17. The benefits of this title shall also extend to any farmer or member of his family who lost his or her farm through indebtedness or mortgage foreclosure since 1921 and who desires to purchase part or all of the farm lost or another like farm. It shall also extend to any tenant, or member of his or her family, who desires to purchase an encumbered farm, provided he has lived on and operated a farm as a tenant for at least 2 years prior to the enactment of this title.

SEC. 18. The executive committee of the Board of Agriculture shall have power in case of crop failures, and in other meritorious cases, to extend the time payments due on loans made under this title from time to time for a period not exceeding 3 years, provided the mortgagor keeps up the payment of all taxes on the mortgaged property.

SEC. 19. This title shall be liberally construed, and no technicalities or limitations shall be imposed or permitted to interfere with the speedy carrying out of its purposes; and the provisions of the

Federal farm-loan system and the Federal Reserve banking system shall apply as far as applicable in the carrying out of the provisions of this title; and all laws or parts of laws in conflict herewith are for the purpose of this title repealed. The persons charged with the duty of carrying out the provisions of this title are authorized and directed to do all things necessary or convenient to accomplish its purposes with expedition.

The PRESIDING OFFICER. The question is on agreeing to the amendment offered by the Senator from North Dakota [Mr. FRAZIER].

Mr. HOLT. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk called the roll, and the following Senators answered to their names:

Adams	Caraway	Holt	O'Mahoney
Ashurst	Carey	King	Pittman
Bachman	Connally	La Follette	Radcliffe
Bailey	Copeland	Lewis	Robinson
Barkley	Davis	Lonergan	Russell
Benson	Dieterich	McGill	Schwellenbach
Bilbo	Duffy	McKellar	Sheppard
Black	Frazier	McNary	Thomas, Okla.
Borah	George	Metcalf	Thomas, Utah
Brown	Gibson	Minton	Truman
Bulow	Guffey	Murray	Van Nuys
Burke	Hale	Neely	Wagner
Byrnes	Hayden	Norris	Walsh

The PRESIDING OFFICER. Fifty-two Senators having answered to their names, a quorum is present.

Mr. HOLT obtained the floor.

Mr. KING. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator from Utah will state it.

Mr. KING. Is the question now before the Senate the amendment offered by the senior Senator from North Dakota, the so-called Frazier-Lemke bill?

The PRESIDING OFFICER. It is. The Senator from West Virginia [Mr. HOLT] has the floor.

Mr. FRAZIER. Mr. President, I suggest that we vote on this amendment, if it is agreeable; and I ask for the yeas and nays.

The PRESIDING OFFICER. Is that agreeable to the Senator from West Virginia?

Mr. HOLT. That is perfectly agreeable.

The PRESIDING OFFICER. Is the demand for the yeas and nays seconded?

The yeas and nays were ordered.

Mr. BILBO. Mr. President, a parliamentary question. What is the vote to be upon?

The PRESIDING OFFICER. Upon the amendment offered by the Senator from North Dakota [Mr. FRAZIER] to the so-called Guffey coal bill.

The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BILBO (when his name was called). I have a general pair with the senior Senator from Iowa [Mr. DICKINSON]. Not knowing how he would vote, I transfer that pair to the junior Senator from Alabama [Mr. BANKHEAD]. I do not know how the Senator from Alabama would vote, but I am ready to vote. I vote "yea."

Mr. CAREY (when his name was called). I have a general pair with the senior Senator from Ohio [Mr. BULKLEY]. Not knowing how he would vote, I withhold my vote.

Mr. LA FOLLETTE (when his name was called). I have a pair with the senior Senator from Maryland [Mr. TYDINGS]. If I were at liberty to vote, I should vote "yea."

Mr. McKELLAR (when his name was called). I have a general pair with the junior Senator from Delaware [Mr. TOWNSEND]. I transfer that pair to the junior Senator from New Jersey [Mr. MOORE] and vote "nay." I am not advised how either Senator would vote if present.

Mr. McNARY (when his name was called). I have a pair with the senior Senator from Mississippi [Mr. HARRISON], which I transfer to the senior Senator from South Dakota [Mr. NORBECK], and vote "yea." If the Senator from South Dakota [Mr. NORBECK] were present and voting, he would vote "yea."

The roll call was concluded.

Mr. LEWIS. I announce that the Senator from Alabama [Mr. BANKHEAD], the Senator from Colorado [Mr. COSTIGAN], and the Senator from Nevada [Mr. McCARRAN] are detained from the Senate on account of illness.

The Senator from Alabama [Mr. BLACK], the Senators from Virginia [Mr. BYRD] and [Mr. GLASS], the Senator from Missouri [Mr. CLARK], the Senator from Massachusetts [Mr. COOLIDGE], the Senator from Ohio [Mr. DONAHEY], the Senator from Rhode Island [Mr. GERRY], the Senator from Oklahoma [Mr. GORE], the Senator from Mississippi [Mr. HARRISON], the Senator from New Mexico [Mr. HATCH], the Senator from Kentucky [Mr. LOGAN], the junior Senator from Louisiana [Mrs. LONG], the senior Senator from Louisiana [Mr. OVERTON], the Senator from Connecticut [Mr. MALONEY], the Senator from California [Mr. McADOO], the Senator from New Jersey [Mr. MOORE], the Senator from Iowa [Mr. MURPHY], the Senator from North Carolina [Mr. REYNOLDS], the Senator from Maryland [Mr. TYDINGS], and the Senator from Montana [Mr. WHEELER] are unavoidably detained.

The Senator from Florida [Mr. LOFTIN], the Senator from Ohio [Mr. BULKLEY], the Senator from South Carolina [Mr. SMITH], and the Senator from New Mexico [Mr. CHAVEZ] are absent in attendance of the funeral of the late Senator Fletcher.

I announce the following general pairs: The Senator from Colorado [Mr. COSTIGAN] with the Senator from New Hampshire [Mr. KEYES]; the Senator from Ohio [Mr. DONAHEY] with the Senator from Vermont [Mr. AUSTIN]; the Senator from North Carolina [Mr. REYNOLDS] with the Senator from New Jersey [Mr. BARBOUR]; the Senator from California [Mr. McADOO] with the Senator from North Dakota [Mr. NYE]; and the Senator from Virginia [Mr. GLASS] with the Senator from Minnesota [Mr. SHIPSTEAD].

Mr. DAVIS. I have a general pair with the Senator from Kentucky [Mr. LOGAN], which I transfer to the junior Senator from Maine [Mr. WHITE], and vote "nay." If the junior Senator from Maine were present and voting, he would vote "nay." I do not know how the junior Senator from Kentucky would vote if present.

Mr. McNARY. My colleague the junior Senator from Oregon [Mr. STEIWER] has a general pair with the senior Senator from Montana [Mr. WHEELER].

Mr. FRAZIER. My colleague [Mr. NYE] is necessarily absent. If present, he would vote "yea."

The result was announced—yeas 17, nays 34, as follows:

YEAS—17

Bachman	Bulow	Gibson	Sheppard
Benson	Capper	Holt	Thomas, Okla.
Bilbo	Caraway	McGill	
Bone	Frazier	McNary	
Borah	George	Murray	

NAYS—34

Adams	Davis	Lonergan	Robinson
Ashurst	Dieterich	McKellar	Schwellenbach
Bailey	Duffy	Metcalf	Thomas, Utah
Barkley	Guffey	Minton	Truman
Brown	Hale	Neely	Van Nuys
Burke	Hastings	Norris	Wagner
Byrnes	Hayden	O'Mahoney	Walsh
Connally	King	Pittman	
Copeland	Lewis	Radcliffe	

NOT VOTING—44

Austin	Couzens	Loftin	Pope
Bankhead	Dickinson	Logan	Reynolds
Barbour	Donahey	Long	Russell
Black	Gerry	McAdoo	Shipstead
Bulkley	Glass	McCarran	Smith
Byrd	Gore	Maloney	Steiwer
Carey	Harrison	Moore	Townsend
Chavez	Hatch	Murphy	Tydings
Clark	Johnson	Norbeck	Vandenberg
Coolidge	Keyes	Nye	Wheeler
Costigan	La Follette	Overton	White

So Mr. FRAZIER's amendment was rejected.

INTERNAL-REVENUE TAXATION

Mr. STEIWER. Mr. President——

The PRESIDING OFFICER. Does the Senator from West Virginia yield to the Senator from Oregon?

Mr. HOLT. I yield.

Mr. STEIWER. Mr. President, I desire to address the Senate briefly on the question of the revenue bill, the conference report on which was agreed to by the Senate today.

The bill was a most remarkable one in a number of respects. It was remarkable, first, in that it was not clearly a revenue bill, but had as one of its purposes the coercion of the corporations of the country with respect to the distribution of their earnings. I was much impressed by the statements made by the Senator from Massachusetts [Mr. WALSH] and the Senator from Georgia [Mr. GEORGE] on that particular feature of the bill. I will not, however, detain the Senate to speak about that matter, as I have no desire to thrash over old straw.

The bill is most remarkable in a second respect in that it calls for a stupendous sum of money. It is estimated to yield approximately $800,000,000. In a very substantial sense it is wrong to say that a bill will yield any particular amount. No piece of legislation yields revenue; it takes revenue, and takes the revenue from the people.

The third respect in which this bill is noteworthy is that it is based upon an exaggerated claim as to its necessity. Senators will recall that in the President's message there were two main reasons assigned as to the necessity for this legislation. One was the enactment of the bill for the prepayment of the bonus, and with respect to that the message recited that it added to the interest charge to the extent of $120,000,000 per annum.

It will readily be seen that if the bonus reserves had been built up as was contemplated by the act of 1924, within the Budget, by the accruals which had been made and were to have been made, the process would have gone on without this increased interest charge; and if that course had been taken, the final result in cost to the Treasury of the United States would have been exactly what it is now, except that prepayment entails the necessity of paying interest upon a sum of substantially $2,000,000,000. At 3 percent the increased cost is something like $60,000,000 a year and not $120,000,000.

The other item of increased cost to the Treasury as assigned in the message was the Soil Conservation Act, which was estimated to cost something like $500,000,000 a year.

Mr. President, I think every Member of this body knows that if the Soil Conservation Act is administered as a soil conservation act it cannot by any possibility cost this Nation $500,000,000 per year. It may very well attain a cost of this proportion if its administration is for purposes similar to the purposes of the Triple A.

I desire for a minute to discuss this phase of the legislation. The country, in my opinion, is entitled to know just what to expect in the way of the distribution of this revenue under the Department of Agriculture in furtherance of the plan, or the alleged plan, to bring about a better system of soil conservation.

I have said that under any reasonable administration of the Soil Conservation Act the cost cannot be $500,000,000 per year.

I might add that if the act is held to be unconstitutional, such holding will immediately save the Treasury the entire cost. I may add also, Mr. President, that if the money is to be expended for general farm-relief and price-fixing purposes the money, to whatever extent expended, will be to a large part wested. The history of the Triple A discloses that in certain portions of the country money expended under the guise of farm relief did not reach the farmers for whom it was intended, and in the Cotton Belt particularly those who produced cotton received but meager benefits and those who were in position to head off the payments were the ones who were substantially benefited.

The proof of this is found in the administration of the act as disclosed up to this date. I think that no adequate survey has been made of the administration under the Triple A. No investigation has been undertaken by the Congress. No report has disclosed to the country as to the full nature of the effort which was made and of the substantial failure which was met in the attempt to do something for the cotton growers of the country.

Illustrations of the substantial failure of the Triple A to confer benefits upon those who were the actual producers of the cotton are reflected in a recent study which has been made by private agencies and to some extent in the numerous reports that have been made by the field offices of the Department of Agriculture in their effort to bring order out of chaos in the Cotton Belt. These investigations, private and public, show that in the administration of the Triple A there have been wholesale frauds and wholesale misrepresentations. They show also that there have been a veritable series of widespread conspiracies, some of which had for their object to plunder the United States Treasury and others—and I think in the greater number of cases—have had for their object an effort to deprive the sharecroppers and the tenants of the benefits that had been intended for them.

Mr. BYRNES. Mr. President, will the Senator yield?

Mr. STEIWER. I yield.

Mr. BYRNES. Will the Senator state from what he is reading? Will he give the source of his information?

Mr. STEIWER. I will as I proceed if the Senator will indulge me. I am reading now from my own statement.

Mr. BYRNES. Does the Senator mean to say that he states on his authority that these things have occurred?

Mr. STEIWER. Oh, yes. I shall develop that as I proceed if the Senator will be patient for just a minute.

Mr. BYRNES. I know; but does the Senator mean to say of his personal knowledge that he, representing the State of Oregon, says that these things have occurred in the Cotton Belt, in the Cotton States?

Mr. STEIWER. I have not personally been down in the South. As the Senator knows, I have been here.

Mr. BYRNES. I know the Senator has not been there. Therefore, I ask him on whose authority he is making the statement?

Mr. STEIWER. The Senator has not been paying attention to my statement. I am sorry.

Mr. BYRNES. I have been listening intently.

Mr. STEIWER. What I say is based upon the reports received by the Triple A from their own investigators and based upon the supplemental investigation of private agencies.

Mr. BYRNES. What private agencies?

Mr. STEIWER. Will not the Senator let me make my speech in my own way?

Mr. BYRNES. I will let the Senator make his speech. I have listened to him before. When he gets through I shall have something to say.

Mr. STEIWER. I expect to show to the Senator very clearly as I proceed the exact nature of my information and also the significance of the information.

Mr. BYRNES. If the Senator will just state the source of the information I do not care about his statement and the significance of it.

Mr. STEIWER. I was saying at the time I was interrupted, Mr. President, that these investigations disclosed wholesale forgeries and numerous other crimes including the theft of significant papers.

The information that has been brought to my attention has come partly from southeastern Missouri, a little from Arkansas, some little from Alabama, but chiefly from conditions in 16 counties in Texas, and I shall endeavor as I proceed to describe a part of the information which has been derived as to those 16 counties in Texas.

The frauds which have been uncovered may be classified, for convenience, into three groups: The first group, and the least of importance, is the fraud against the Government. This fraud has been perpetrated by Government employees and agents, by cotton ginners, in some cases by the farmers themselves, and in many cases by the combinations made up of groups of the foregoing to which I have just referred.

The second great group of frauds might well be designated as frauds against the farmers. This represents the largest category of frauds which have been uncovered. They have been committed in some cases by Government employees and agents, in some cases by the landowners who imposed upon the sharecroppers, in some cases by the speculators, and in some cases by conspiracies made up of combinations of all of the foregoing.

The third class of fraud are those against both the Government and the farmers. They have been undertaken and accomplished in many cases by speculators who were Government agents and by speculators who were not Government agents, but who were connected with local institutions, all these speculations being largely in the tax-exempt certificates which have been provided for in the administration of the act.

I wish to say to my friend from South Carolina that I would not undertake to make charges of this kind if I had not been provided with a very considerable amount of information, a part of which I desired to submit to the Senate.

The Triple A in its effort to deal with the situation has had investigators in the State of Texas since the beginning of 1935. I am advised that there have been times during that period when they have employed as high as 150 investigators. At other times the number of investigators has not been so large. At all times I think investigators have attained some success in arriving at the methods of operation, but they have not been able to head off these various impositions, and particularly they have been unable to shield the sharecroppers against the assaults made upon them by the landowners or the speculators and by the others who seek to try to deprive them of the benefits intended by the Government for them.

With the indulgence of the Senate, I wish to read briefly from certain affidavits which have been placed in my hands. I shall not read them in full, because it would detain the Senate unduly, but I shall read certain excerpts which seem to throw a particularly clear light upon the situation.

The first is an affidavit subscribed by Hazel Morgan. From that affidavit I read the following:

About the 29th of January 1935 I was employed as notary public and stenographer to assist Mr. V. W. Pryor. * * *

During the 5 months that I worked in this investigation we found numerous irregularities, such as certificates being stolen from producers, forgeries, false statements, buying and selling of certificates by clerks in the county agent's office, illegal buying and selling of certificates by farmers, and many others.

From another place in the same affidavit I read the following:

Because of false statements and forgeries in his contract Mr. C. M. Westmoreland, producer in Nacogdoches County, had asked that his contract be canceled, but when Mr. Harvey returned to Nacogdoches to collect these refunds Mr. Westmoreland refused to pay. The last morning that Mr. Anderson was there Mr. S. M. Adams, local attorney, called Mr. Anderson and asked him to see Mr. Westmoreland and give him all consideration. Mr. Anderson agreed, and looked over Mr. Westmoreland's contract, in which there were admitted false evidence and forgeries. Mr. Anderson told Mr. Westmoreland that his contract was in the best shape of any he had seen.

Mr. COPELAND. Mr. President, will the Senator from Oregon yield to enable me to submit a conference report?

The PRESIDING OFFICER (Mr. MINTON in the chair). Does the Senator from Oregon yield to the Senator from New York for that purpose?

Mr. STEIWER. I do.

PREVENTION OF FOOD, DRUG, ETC., ADULTERATION—CONFERENCE REPORT

Mr. COPELAND. Mr. President, the conferees on the food and drug bill have been in session all day, since 9 o'clock this morning. We find ourselves unable to agree. We are in full agreement on all the items of the bill save one, and that is on the question of enforcement, whether it should be in the Federal Trade Commission or the Food and Drug Administration.

The House made 39 major amendments in the bill which we passed at the last session. We were willing to concede practically all of them. There were four or five upon which there were disagreements, but where we were able to choose language we did so and came to an agreement. However, when it came to the matter of enforcement, the House conferees were divided. So far as I am personally concerned, I said last year that I would rather have the bill die than to take the enforcement out of the Food and Drug Administration.

During the day today there seemed to be a desire to compromise on that particular matter. As a matter of fact, we called in the legislative counsel of the Senate and of the House, and together they worked out what on our side of the table we considered to be a very happy compromise, leaving all matters relating to health to the administration of the Food and Drug Administration and all matters having to do with economic problems with the family budget, and practically all matters relating to food and cosmetics to be administered by the Federal Trade Commission.

Mr. Rayburn, who was good enough to attend our conference, said he thought we had gone 75 percent of the way. I do not think we went quite that far, but we did go 50 percent of the way.

I move that the Senate recede from its disagreement to the amendment of the House and agree to the same with an amendment, in lieu of the language inserted by the House amendment to insert the amendment which I send to the desk.

The motion was agreed to.

The amendment proposed by Mr. COPELAND to the amendment of the House is as follows:

CHAPTER I

SECTION 1. That this act may be cited as the "Federal Food, Drug, and Cosmetic Act."

CHAPTER II

DEFINITION OF TERMS

SECTION 201. As used in this act, unless the context otherwise indicates—

(a) The term "food" includes all substances and preparations used for, or entering into the composition of, food, drink, confectionery, chewing gum, or condiment for man or other animals.

(b) The term "drug", for the purposes of this act, includes (1) all substances and preparations recognized in the official United States Pharmacopoeia, official Homoeopathic Pharmacopoeia of the United States, or official National Formulary, or any supplement to any of them; and (2) all substances and preparations intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or other animals; and (3) all substances and preparations, other than food and cosmetics intended to affect the structure or any function of the body.

(c) The term "device", for the purposes of this act, includes all devices intended (1) for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or other animals; and (2) to affect the structure or any function of the body.

(d) The term "cosmetic" includes all substances and preparations intended for cleansing or altering the appearance of or promoting the attractiveness of the person, except that such term shall include soaps only when medicinal or curative qualities are claimed therefor.

(e) The term "Territory" means any Territory or possession of the United States, including the District of Columbia and excluding the Canal Zone.

(f) The term "interstate commerce" means (1) commerce between any State or Territory and any place outside thereof, and (2) commerce or manufacture within the District of Columbia or within any other Territory not organized with a legislative body.

(g) The term "person" includes individual, partnership, corporation, and association.

(h) The term "Secretary" means the Secretary of Agriculture.

(i) The term "label" means the principal display or displays of written, printed, or graphic matter (1) upon any food, drug, device, or cosmetic, or the immediate container thereof, and (2) upon the outside container or wrapper, if any there be, of the retail package of any food, drug, device, or cosmetic.

(j) The term "labeling" includes all labels and other written, printed, and graphic matter, in any form whatsoever, accompanying any food, drug, device, or cosmetic.

(k) The term "advertisement" includes all representations of fact or opinion disseminated to the public in any manner or by any means, other than by the labeling, for the purpose of inducing, directly or indirectly, the purchase of foods, drugs, devices, or cosmetics.

(l) The term "medical profession" means the legalized professions of the healing art; and the term "medical opinion" means the opinion, within their respective fields, of the practitioners of any branch of the medical profession, the practice of which is licensed by law in the State or Territory where any drug or device, to which such opinion relates, is held, sold, or distributed; and the term "scientific opinion" means the opinion, within their respective fields, of competent pharmacologists, physiologists, or toxicologists.

(m) The term "official compendium" means the United States Pharmacopœia, Homeopathic Pharmacopœia of the United States, National Formulary, or any supplement to any of them, official at the time any drug, to which the provisions thereof relate, is introduced into interstate commerce.

(n) The term "Department" means the Department of Agriculture of the United States.

(o) The term "Administration" means the Food and Drug Administration of the Department.

CHAPTER III

ADULTERATED FOOD

SECTION 301. A food shall be deemed to be adulterated—

(a) (1) If it bears or contains any poisonous or deleterious substance which may render it dangerous to health; or (2) if it bears or contains any added poisonous or added deleterious substance which may render it injurious to health, or which is unsafe within the meaning of section 305, or in excess of the limits of tolerance prescribed by regulations as provided by section 305; or (3) if it consists in whole or in part of any filthy, putrid, or decomposed substance, or if it is otherwise unfit for food; or (4) if it has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health; or (5) if it is, in whole or in part, the product of a diseased animal or of an animal which has died otherwise than by slaughter; or (6) if its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

(b) (1) If any valuable constituent has been in whole or in part abstracted therefrom; or (2) if any substance has been substituted wholly or in part therefor; or (3) if damage or inferiority has been concealed in any manner; or (4) if any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, or create a deceptive appearance.

(c) If it contains a coal-tar color other than one from a batch that has been certified in accordance with regulations as provided by section 305.

(d) If it is confectionery or ice cream, it shall also be deemed to be adulterated if it bears or contains any alcohol, harmful resinous glaze, or nonnutritive substance except harmless coloring, harmless flavoring, natural gum, and pectin: *Provided*, That this paragraph shall not apply to any confectionery or ice cream by reason of its containing less than one-half of 1 percent by volume of alcohol derived solely from the use of flavoring extracts, or to any chewing gum by reason of its containing harmless nonnutritive masticatory substances.

MISBRANDED FOOD

SEC. 302. A food shall be deemed to be misbranded—

(a) If its labeling is false or misleading in any particular.

(b) If it is offered for sale under the name of another food.

(c) If it is an imitation of another food, and its label fails to bear, in type of uniform size and prominence, the word "imitation" and, immediately thereafter, the name of the food imitated.

(d) If its container is so made, formed, or filled as to mislead the purchaser.

(e) If in package form unless it bears a label containing (1) the name and place of business of the manufacturer, packer, seller, or distributor; and (2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count: *Provided*, That under subdivision (2) of this paragraph reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the Secretary.

(f) If any word, statement, or other information required on the label under any provision of this act is not prominently placed thereon in such a manner as to be easily seen and in such terms as to be readily understood by purchasers and users of such articles under customary conditions of purchase and use, due consideration being given to the size of the package.

(g) If it purports to be or is represented as a food for which a definition and standard of identity has been prescribed by regulations as provided by section 304, and (1) it fails to conform to such definition and standard, or (2) its label fails to bear the name of the food prescribed in the definition and standard, or if so required by such regulations when such definition and standard permits optional ingredients other than spices, flavors, and coloring, the common names of such optional ingredients as are present in such food.

(h) If it purports to be or is represented as a food for which a standard of quality or fill of container has been prescribed by regulations as provided by section 304 and its quality or fill falls below such standard of quality or fill of container and its label fails to bear a statement, in such manner as the regulations specify, showing that it falls below such standard of quality or fill of container.

(i) If it is not subject to the provisions of paragraph (g) of this section and its label fails to bear (1) the common or usual name of the food, if any there be, or (2) in case it is fabricated from two or more ingredients, the common or usual name of each such ingredient; except that spices, flavors, and colorings, other than those sold as such, may be designated as spices, flavors, and colorings without naming each: *Provided*, That, to the extent that compliance with the requirements of subdivision (2) of this paragraph is impracticable because of variations in ingredients usual to good manufacturing or packing practice, or is impracticable for any other reason, exemptions shall be established by regulations promulgated by the Secretary. Such subdivision (2) shall not apply to any proprietary food the ingredients of which have been fully and correctly disclosed to the Secretary if compliance with such subdivision would give to competitors information they could not otherwise obtain.

(j) If it purports to be or is represented for special dietary uses, such as by infants, or invalids, or for other special nutritional requirements, and its label fails to bear, if so required by such regulations as may be prescribed by the Secretary as necessary for the protection of the public health, statements concerning its vitamin, mineral, and other dietary properties which fully inform the purchaser as to its nutritional value.

(k) If it bears or contains any artificial flavor, artificial color, or chemical preservative, and it fails to bear a label stating that fact: *Provided*, That to the extent that compliance with the requirements of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the Secretary.

REGULATIONS MAKING EXEMPTIONS

SEC. 303. The Secretary is hereby directed to promulgate regulations exempting from any labeling requirement of this act (1) small open containers of fresh fruits and fresh vegetables and (2) food which is, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed, on condition that such food is not adulterated or misbranded under the provisions of this act upon removal from such processing, labeling, or repacking establishment.

DEFINITIONS AND STANDARDS FOR FOOD

SEC. 304. For the effectuation of the purposes of this act the Secretary is hereby authorized to promulgate regulations fixing and establishing for any food a definition and standard of identity, and a reasonable standard of quality and/or fill of container: *Provided*, That no standard of quality shall be established for fresh fruits and fresh vegetables and no standard of identity for fresh apples and fresh pears: *And provided further*, That in any regulation pertaining to fill of container the Secretary shall give due consideration to the natural shrinkage in storage and in transit of fresh natural food and to need for the necessary packing and protective material. In the fixing and establishing of any standard of quality for any canned fruit or canned vegetable, consideration shall be given and due allowance made for the differing characteristics of the several varieties of such fruit or vegetable.

TOLERANCES FOR POISONOUS INGREDIENTS IN FOOD AND CERTIFICATION OF COAL-TAR COLORS FOR FOOD

SEC. 305 (a) Any poisonous, contaminating, or deleterious substance added to any food, except where such substance is required in the production thereof or cannot be avoided by good manufacturing practice, shall be deemed to be unsafe for purposes of the application of section 301 (a); but when such substance is so required or cannot be so avoided, the Secretary is authorized to promulgate regulations limiting the quantity therein or thereon to such extent as he finds necessary for the protection of public health. In determining the quantity of such added substance to be tolerated in or on different articles of food, the Secretary shall take into account the extent to which the use of such substance is required or cannot be avoided in the production of each such article, and the other ways in which the consumer may be affected by the same or other poisonous or deleterious substances.

(b) The Secretary is hereby authorized to promulgate regulations for the certification of coal-tar colors which are harmless and suitable for use in food.

EMERGENCY PERMIT CONTROL

SEC. 306. (a) Whenever the Secretary finds after investigation that the distribution in interstate commerce of any class of food may, by reason of contamination with micro-organisms during the manufacture, processing, or packing thereof in any locality, be injurious to health, and that such injurious nature cannot be adequately determined after such articles have entered interstate commerce, he is then, and in such case only, authorized to promulgate regulations providing for the issuance, to manufacturers, processors, or packers of such class of food in such locality, of permits to which shall be attached such conditions governing the manufacture, processing, or packing of such class of food, for such temporary period of time, as may be necessary to protect the public health, and after the effective date of such regulations, and during such temporary period, no person shall introduce into interstate commerce any such food manufactured, processed, or packed by any such manufacturer, processor, or packer unless such manufacturer, processor, or packer holds a permit issued by the Secretary as provided by such regulations.

(b) The Secretary is authorized to suspend immediately upon notice any permit issued under authority of this section if it is found that any of the conditions of the permit have been violated. The holder of a permit so suspended shall be privileged at any time to apply for the reinstatement of such permit, and the Secretary shall immediately after prompt hearing and an inspection of the establishment, reinstate such permit if it is found that adequate measures have been taken to comply with and maintain the conditions of the permit, as originally issued or as amended.

(c) Any officer or employee duly designated by the Secretary shall have access to any factory or establishment, the operator of which holds a permit from the Secretary, for the purpose of ascertaining whether or not the conditions of the permit are being complied with, and denial of access for such inspection shall be ground for suspension of the permit until such access is freely given by the operator.

CHAPTER IV

ADULTERATED DRUGS

SECTION 401. A drug shall be deemed to be adulterated—

(a) (1) If it consists in whole or in part of any filthy, putrid, or decomposed substance; or (2) if it has been prepared, packed, or held under insanitary conditions whereby it may have been

contaminated with filth, or whereby it may have been rendered injurious to health; or (3) if its container is composed, in whole or in part, of any poisonous or deleterious substance which may render it injurious to health; or (4) if it contains, for purposes of coloring only, a coal-tar color other than one from a batch that has been certified in accordance with regulations as provided by section 404.

(b) If its name is recognized in an official compendium, or if it purports to be a drug the name of which is so recognized, and it differs from the standard of strength, quality, or purity as determined by the tests or methods of assay set forth therein; except that whenever tests or methods of assay have not been prescribed therein, or such tests or methods of assay as are prescribed are insufficient, for determining whether or not such drug complies with such standard, the Secretary is hereby authorized to bring such fact to the attention of the appropriate body charged with the revision of such compendium and if such body fails within a reasonable time to prescribe tests or methods of assay which are sufficient, then the Secretary may by regulations prescribe for the purposes of this act such tests or methods of assay. No drug shall be deemed to be adulterated under this paragraph because it differs from the standard of strength, quality, or purity therefor set forth in an official compendium, if its standard of strength, quality, or purity be plainly stated on its label. Whenever a drug is recognized in both the United States Pharmacopoeia and the Homeopathic Pharmacopoeia of the United States it shall be subject to the requirements of the United States Pharmacopoeia unless it is labeled and offered for sale as a homeopathic drug, in which case it shall be subject to the provisions of the Homeopathic Pharmacopoeia of the United States and not to those of the United States Pharmacopoeia.

(c) If it is not subject to the provisions of paragraph (b) of this section and its identity or strength differs from, or its purity or quality falls below, that which it purports or is represented to possess.

(d) If any substance has been (1) mixed or packed therewith so as to reduce its quality or strength or (2) substituted wholly or in part therefor.

MISBRANDED DRUGS AND DEVICES

SEC. 402. A drug or device shall be deemed to be misbranded—

(a) If its labeling is false or misleading in any particular. Any representation concerning any effect of a drug or device shall be deemed to be false under this paragraph if such representation is not supported by scientific facts or substantial and reliable medical or scientific opinion.

(b) If it is dangerous to health when used in the dosage, or with the frequency or duration, prescribed or recommended in the labeling or advertisement thereof.

(c) If in package form unless it bears a label containing (1) the name and place of business of the manufacturer, packer, seller, or distributor; and (2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count: *Provided*, That under subdivision (2) of this paragraph reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the Secretary.

(d) If any word, statement, or other information required on the label under any provision of this act is not prominently placed thereon in such a manner as to be easily seen and in such terms as to be readily understood by purchasers and users of such articles under customary conditions of purchase and use, due consideration being given to the size of the package.

(e) If it is for use by man and contains any quantity of any of the following narcotic or hypnotic substances: Alpha eucaine, barbituric acid, beta eucaine, bromal, cannabis, carbromal, chloral, coca, cocaine, codeine, heroin, marihuana, morphine, opium paraldehyde, peyote, sulphonmethane, or any substance chemically derived therefrom or any other narcotic or hypnotic substance, which derivative or other narcotic or hypnotic substance has been designated as habit forming by regulations prescribed by the Secretary, and, except when dispensed on the written order of a member of the medical profession, its label fails to bear the name and quantity or proportion of such substance or derivative and in juxtaposition therewith the statement "Warning—May be habit forming."

(f) If it is a drug and is not designated solely by a name recognized in an official compendium and its label fails to bear (1) a common or usual name of the drug, if such there be; or (2), in case it is fabricated from two or more ingredients, the name of each active ingredient, including the quantity, kind, and proportion of any alcohol: *Provided*, That to the extent that compliance with the requirements of subdivision (2) of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the Secretary. Such subdivision (2) shall not (except the requirements as to alcohol) apply to any drug the ingredients of which are fully and correctly disclosed to the Secretary.

(g) If its labeling fails to bear plainly and conspicuously (1) adequate directions for use, or (2) such warnings, in such manner and form, as are required by regulations prescribed by the Secretary, against use in those pathological conditions or by children where its use may be dangerous to health, or against unsafe dosage or methods or duration of administration or application: *Provided*, That where any requirement of subdivision (1) of this paragraph, as applied to any drug or device, is not necessary for the protection of the public health, the Secretary shall promulgate regulations exempting such drug or device from such requirement.

(h) If its name is recognized in an official compendium, or if it purports to be a drug the name of which is so recognized, and it is not packaged and labeled as prescribed therein. Whenever a drug is recognized in both the United States Pharmacopoeia and the Homeopathic Pharmacopoeia of the United States, it shall be subject to the requirements of the United States Pharmacopœia with respect to packaging and labeling, unless it is labeled and offered for sale as a homeopathic drug, in which case it shall be subject to the provisions of the Homeopathic Pharmacopoeia of the United States, and not to those of the United States Pharmacopoeia.

(i) If it has been designated by regulations prescribed by the Secretary as a drug liable to deterioration, and is not packaged in such form and manner, or its label fails to bear a statement of such precautions, as such regulations require for the protection of public health. No such regulation shall be established for any drug recognized in an official compendium until the Secretary shall have informed the appropriate body charged with the revision of such compendium of the need for such packaging or labeling requirements and such body shall have failed within a reasonable time to prescribe such requirements.

(j) (1) If it is a drug and its container is so made, formed, or filled as to mislead the purchaser; or (2) if it is an imitation of another drug; or (3) if it is offered for sale under the name of another drug.

MEANING OF "ANTISEPTIC"; REGULATIONS MAKING EXEMPTIONS

SEC. 403. (a) When construing and enforcing the provisions of this act with respect to labeling and advertisements, the term "antiseptic" shall be deemed to have the same meaning as the word "germicide", except, however, in the case of a drug purporting to be, or represented as, an antiseptic for inhibitory use as a wet dressing, ointment, dusting powder, or such other use as involves prolonged contact with the body.

(b) The Secretary is hereby directed to promulgate regulations exempting from any labeling or packaging requirement of this act drugs and devices which are, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed, on condition that such drugs and devices are not adulterated or misbranded under the provisions of this act upon removal from such processing, labeling, or repacking establishment.

CERTIFICATION OF COAL-TAR COLORS FOR DRUGS

SEC. 404. The Secretary is hereby authorized to promulgate regulations for the certification of coal-tar colors which are harmless and suitable for use in drugs for purposes of coloring only.

CHAPTER V

ADULTERATED COSMETICS

SECTION 501. A cosmetic shall be deemed to be adulterated—

(a) If it bears or contains any poisonous or deletrious substance which renders or will render it injurious to users under the conditions of use prescribed in the labeling or advertisement thereof, or under such conditions of use as are customary or usual.

(b) If it consists in whole or in part of any filthy, putrid, or decomposed substance.

(c) If it has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health.

(d) If its container is composed, in whole or in part, of any poisonous or deleterious substance which renders or will render it injurious to health.

(e) If it contains a coal-tar color other than one from a batch that has been certified in accordance with regulations as provided by section 504.

MISBRANDED COSMETICS

SEC. 502. A cosmetic shall be deemed to be misbranded—

(a) If its labeling is false or misleading in any particular.

(b) If in package form unless it bears a label containing (1) the name and place of business of the manufacturer, packer, seller, or distributor; and (2) an accurate statement of the quantity of the contents in terms of weight, measures, or numerical count: *Provided*, That under subdivision (2) of this paragraph reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the Secretary.

(c) If any word, statement, or other information required on the label under any provision of this act is not prominently placed thereon in such a manner as to be easily seen and in such terms as to be readily understood by the purchasers and users of such articles under customary conditions of purchase and use, due consideration being given to the size of the package.

REGULATIONS MAKING EXEMPTIONS

SEC. 503. The Secretary is hereby directed to promulgate regulations exempting from any labeling requirement of this act cosmetics which are, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed, on condition that such cosmetics are not adulterated or misbranded under the provisions of this act upon removal from such processing, labeling, or repacking establishment.

CERTIFICATION OF COAL-TAR COLORS FOR COSMETICS

SEC. 504. The Secretary is hereby authorized to promulgate regulations for the certification of coal-tar colors which are harmless and suitable for use in cosmetics.

CHAPTER VI

FALSE ADVERTISEMENT

DEFINITION OF FALSE ADVERTISEMENT

SECTION 601. (a) An advertisement of a food, drug, device, or cosmetic shall be deemed to be false if it is false or misleading in any particular regarding such food, drug, device, or cosmetic. Any representation concerning any effect of a drug or device shall be deemed to be false under this paragraph if such representation is not supported by scientific facts or substantial and reliable medical or scientific opinion.

(b) The advertisement of a drug or device representing it to have any therapeutic effect in the treatment of Bright's disease, cancer, tuberculosis, poliomyelitis (infantile paralysis), venereal diseases, heart or vascular diseases shall be deemed to be false: *Provided*, That the Secretary shall establish exemptions from the provisions of this subsection in the case of drugs and devices with respect to which such a representation as to therapeutic effect would not, in his opinion, be a violation of subsection (a).

(c) Notwithstanding any provision of this section, no advertisement of a drug shall be deemed to be false or misleading under this section if it is disseminated only to members of the medical profession and/or appears only in the scientific periodicals of that profession.

POWERS AND DUTIES OF THE FEDERAL TRADE COMMISSION

SEC. 602. (a) The Federal Trade Commission is hereby empowered and directed to prevent (1) the dissemination, or the causing of the dissemination, of any false advertisement (except an advertisement to which subdivision (4) or (5) of section 706 (a) applies) by United States mails, or in interstate commerce by radio broadcast or otherwise, for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics; (2) the dissemination, or the causing of the dissemination, of any false advertisement (except an advertisement to which subdivision (4) or (5) of section 706 (a) applies) by any means for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics in interstate commerce.

(b) Whenever the Commission shall have reason to believe that any person has disseminated, or is disseminating, or has caused or is causing the dissemination of, any false advertisement (except an advertisement to which subdivision (4) or (5) of section 706 (a) applies) by any of the means and for the purposes specified in subdivision (a) of this section, and it shall appear to the Commission that a proceeding by it in respect thereof would be to the interest of the public, it shall proceed to prevent the same in the same manner and by the same procedure as provided by section 5 of an act of Congress approved September 26, 1914, entitled "An act to create a Federal Trade Commission, to define its powers and duties, and for other purposes", as amended. The provisions of said section 5 and of sections 6, 9, and 10 of said act, as amended, shall apply, for purposes of enforcement of the provisions of this section, insofar as they may be applicable. The circuit court of appeals shall have the same jurisdiction to review the orders of the Commission and to enforce the same, and shall review and enforce the same, as provided by section 5.

(c) The Secretary shall report to the Federal Trade Commission on all cases of false advertising, to which subsection (a) may apply, that may come to his knowledge and submit therewith any evidence he may have together with any reports and scientific opinions of his Department relative thereto.

CHAPTER VII

GENERAL ADMINISTRATIVE PROVISIONS

PROVISIONS AS TO REGULATIONS

SECTION 701. (a) The authority to promulgate regulations for the efficient enforcement of this act, except as otherwise provided in this section and except those provisions which are to be enforced by the Federal Trade Commission, is hereby vested in the Secretary.

(b) The Secretary of the Treasury and the Secretary of Agriculture shall jointly prescribe regulations for the efficient enforcement of the provisions of section 712, except as otherwise provided therein. Such regulations shall be promulgated in such manner and take effect at such time, after due notice, as the Secretary of Agriculture shall determine.

(c) Hearings authorized or required by this act, except those provisions which are to be enforced by the Federal Trade Commission, shall be conducted by the Secretary or such officer or employee as he may designate for the purpose.

(d) The definitions and standards of identity promulgated by or in accordance with the provisions of this act shall be effective for the purposes of the enforcement of this act, notwithstanding such definitions and standards as may be contained in other laws of the United States and regulations promulgated thereunder.

PROCEDURE IN CASE OF CERTAIN REGULATIONS—COURT REVIEW OF REGULATIONS AND ADMINISTRATIVE ACTIONS

SEC. 702. (a) Whenever the Secretary deems that there should be established any regulation contemplated by section 301, paragraph (a) or (c); section 302, paragraph (g), (h), or (j); section 304; section 305, paragraph (a) or (b); section 306, paragraph (a); section 401, paragarph (a) or (b); section 402, paragraph (e), (g), or (i); section 404; section 501, paragraph (e); or section 504, he shall give appropriate notice of the proposal and of the time and place for a public hearing to be held thereon not less than 30 days after the date of such notice. After such hearing the Secretary is authorized to formulate and promulgate such regulation as he shall find to be necessary to effectuate the purposes of such provision. The regulation so promulgated shall become effective on a date fixed by the Secretary, which date shall not be prior to 90 days after its promulgation, and may be amended or repealed in the same manner as is provided for its adoption; except that (1) regulations setting up exemptions pursuant to section 402, paragraph (g), may be promulgated without notice or hearing and shall become effective at such time as the Secretary determines, and (2) public hearing on regulations under section 306 (a) may be held within a reasonable time after notice thereof, and the Secretary may fix the effective date of such regulations at any reasonable time after promulgation thereof.

(b) The district courts of the United States are hereby vested with jurisdiction, on petition by any interested person, (1) to restraint by injunction, temporary or permanent, the enforcement by any officer, representative, or employee of the Department of any regulation promulgated in accordance with subsection (a) if it is found as a fact or conclusion of law by the judge of such court that the regulation is unreasonable, arbitrary, or capricious, or not in accordance with law, and that the petitioner may suffer substantial damage by reason of its enforcement; and (2) to grant appropriate injunctive relief from any act or ommission of any officer, representative, or employee of the Department in the administration of this act, if it has been shown that such act or omission is unreasonable, arbitrary, or capricious, or not in accordance with law, and that the petitioner may suffer substantial damage thereby: *Provided*, That nothing in this section shall be deemed to abridge the right of any person against whom a criminal prosecution or suit for injunction shall have been brought under this act, or who shall intervene as claimant in any proceeding of libel for condemnation, to plead that the regulation, the violation of which is alleged as the ground for such prosecution, suit, or libel is invalid on any of the grounds set forth above.

EXAMINATIONS AND INVESTIGATIONS

SEC. 703. (a) The Secretary is authorized to conduct examinations and investigations for the purposes of this act through officers and employees of the Department or through any health, food, or drug officer or employee of any State, Territory, or political subdivision thereof, duly commissioned by the Secretary as an officer of the Department. In the case of food packed in a Territory or possession of the United States the Secretary shall attempt to make inspection of such food at the first point of entry within the territorial limits of the United States when, in his opinion and with due regard to the enforcement of all the provisions of this act, the facilities at his disposal will permit of such inspection.

(b) Where a sample of a food, drug, or cosmetic is collected for analysis under this act the Secretary shall, upon request, provide a part of such official sample for examination or analysis by any person named on the label of the article; except that the Secretary is authorized, by regulations, to make such reasonable exceptions from, and impose such terms and conditions relating to, the operation of this sentence as he deems necessary for the effectuation of the purposes of this act.

(c) For the purposes of enforcement of this act, records kept by the Treasury Department in accordance with laws, and regulations thereunder, relating to alcoholic beverages and medicinal liquors shall be open to inspection by any official of the Department of Agriculture duly authorized by the Secretary of Agriculture to make such inspection.

RECORDS OF INTERSTATE SHIPMENT

SEC. 704. For the purpose of enforcing the provisions of this act, carriers engaged in interstate commerce, and persons receiving food, drugs, devices, or cosmetics in interstate commerce, shall, upon the request of an officer or employee duly designated by the Secretary, permit such officer or employee, at reasonable times, to have access to and to copy all records showing the movement in interstate commerce of any food, drug, device, or cosmetic, and the quantity, shipper, and consignee thereof; and it shall be unlawful for any such carrier or person to fail to permit such access to and copying of any such record so requested when such request is accompanied by a statement in writing specifying the nature or kind of food, drug, device, or cosmetic to which such request relates: *Provided*, That evidence obtained under this section shall not be used in a criminal prosecution of the person from whom obtained: *Provided further*, That carriers shall not be subject to the other provisions of this act by reason of their receipt, carriage, or delivery of food, drugs, devices, cosmetics, or advertising matter in the usual course of business as carriers.

FACTORY INSPECTION

SEC. 705. For purposes of enforcement of this act, officers or employees duly designated by the Secretary, after first making request and obtaining permission of the owner, operator, or custodian thereof, are authorized (1) to enter, at reasonable times, any factory, warehouse, or establishment in which food, drugs, devices, or cosmetics are manufactured, processed, packed, or held for shipment in interstate commerce or are held after such shipment, or to enter any vehicle being used to transport such food, drugs, devices, or cosmetics in interstate commerce; and (2) to inspect, at reasonable times, such factory, warehouse, establishment, or vehicle and all pertinent equipment, finished and unfinished materials, containers, and labeling therein. Any such owner, operator, or custodian who refuses such request shall be guilty of a misdemeanor and shall on conviction thereof be subject to the penalties prescribed by section 706 (b) of this act.

PROHIBITED ACTS AND PENALTIES

SEC. 706. (a) The following acts and the causing thereof are hereby prohibited:

(1) The introduction or delivery for introduction into interstate commerce of any food, drug, device, or cosmetic that is adulterated or misbranded.

(2) The adulteration or misbranding of any food, drug, device, or cosmetic in interstate commerce.

(3) The receipt in interstate commerce of any food, drug, device, or cosmetic that is adulterated or misbranded, and the delivery or proffered delivery thereof in the original unbroken package for pay or otherwise.

(4) The dissemination of any false advertisement (the falsity or misleading character of which involves health) by United States mails, or in interstate commerce by radio broadcast or otherwise, for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics.

(5) The dissemination of a false advertisement (the falsity or misleading character of which involves health) by any means for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics, in interstate commerce.

(6) The introduction into interstate commerce of any food in violation of section 306.

(7) The refusal to permit access to or copying of any record as required by section 704.

(8) Forging, counterfeiting, simulating, or falsely representing, or without proper authority using, any mark, stamp, tag, label, or other identification device authorized or required by regulations promulgated under the provisions of section 306.

(9) The using by any person to his own advantage, or revealing, other than to the Secretary or officers or employees of the Department, or to the courts when relevant in any judicial proceeding under this act, any information acquired under authority of section 306 or 705 concerning any method or process which as a trade secret is entitled to protection.

(10) The dissemination of any false advertisement not covered by subdivision (4), by United States mails, or in interstate commerce by radio broadcast, or otherwise, for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics.

(11) The dissemination of a false advertisement not covered by subdivision (5), by any means, for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics, in interstate commerce.

(b) Any person who violates any of the provisions of subdivisions (1) to (7), inclusive, of paragraph (a) of this section shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than 1 year, or a fine of not more than $1,000, or both such imprisonment and fine; and for a second or subsequent offense imprisonment for not more than 2 years, or a fine of not more than $5,000, or both such imprisonment and fine: *Provided, however,* That any person who violates any of the provisions of subdivision (4) or (5) of paragraph (a) of this section shall only be liable for and forfeit and pay a civil penalty of not more than $1,000 to be recovered by civil action in the district court within the district where the person resides or carries on business if (1) the violation does not involve danger to health or gross deception, and (2) the violation is established by opinion evidence only; except that for a second or subsequent violation to which this proviso applies such civil penalty shall be in an amount not to exceed $5,000.

(c) Notwithstanding the provision of paragraph (b) of this section, in case of a willful violation of any of the provisions of subdivisions (1) to (7), inclusive, of paragraph (a) of this section the penalty shall be imprisonment for not more than 3 years, or a fine of not more than $10,000, or both such imprisonment and fine.

(d) No publisher, radio-broadcast licensee, advertising agency, or other agency or medium for the dissemination of advertising shall be deemed to have violated the provisions of subdivision (4) or (5) of paragraph (a) of this section by reason of the dissemination of any false advertisement when such dissemination is caused by the manufacturer, packer, distributor, or seller, residing in the United States, of the article so advertised. It shall be unlawful for any publisher, radio-broadcast licensee, advertising agency, or other agency or medium for the dissemination of advertising willfully to refuse, on reasonable request of an officer or employee duly designated by the Secretary, to furnish to such officer or employee the name and post-office address of the manufacturer, packer, distributor, or seller, residing in the United States, who caused him to disseminate any such advertisement; and any publisher, radio-broadcast licensee, advertising agency, or other agency or medium for the dissemination of advertising who so refuses shall be guilty of a misdemeanor and shall on conviction thereof be subject to the penalties prescribed by paragraph (b) of this section.

(e) No dealer shall be subject to the penalties of paragraph (b) of this section (1) for having received in interstate commerce any article of food, drug, device, or cosmetic and delivered it or proffered delivery of it as received, if such delivery or proffer was made in good faith, unless he refuses to furnish on request of an officer or employee duly designated by the Secretary the name and address of the person from whom he purchased or received such article and copies of all documents, if any there be, pertaining to the delivery of the article to him, or (2) if he establishes a guaranty or undertaking signed by the person residing in the United States from whom he received in good faith the article of food, drug, device, or cosmetic, or the advertising copy therefor, as the case may be, to the effect that such article is not adulterated or misbranded, and such copy is not false, within the meaning of this act, designating this act. To afford protection, such guaranty or undertaking shall contain the name and address of the person furnishing such guaranty or undertaking, and such person shall be amenable to the prosecution and penalties which would attach in due course to the dealer under the provision of this act. No retail dealer shall be prosecuted under this section for the dissemination, if in good faith, of any advertisement offering for sale at his place of business any article which he does not distribute or sell in interstate commerce.

((f) Any person who violates any of the provisions of subdivision (8) of paragraph (a) of this section shall be guilty of a misdemeanor and shall on conviction thereof be subject to imprisonment for not more than 1 year or a fine of not more than $5,000, or both such imprisonment and fine.

(g) Any person who violates any of the provisions of subdivision (9) of paragraph (a) of this section shall be guilty of a felony and shall on conviction thereof be subject to imprisonment for not more than 2 years or a fine of not more than $5,000, or both such imprisonment and fine.

LIABILITY OF CORPORATIONS AND THEIR OFFICERS

SEC. 707. (a) When construing and enforcing the provisions of this act, unless otherwise provided, the act, omission, or failure of any officer, employee, or agent acting for or employed by any person, within the scope of his employment or office, shall in every case be deemed to be the act, omission, or failure of such person, as well as that of the officer, employee, or agent.

(b) Whenever a corporation or association violates any of the provisions of this act, unless otherwise provided, such violation shall also be deemed to be a violation by the individual directors, officers, or agents of such corporation or association who personally ordered, or did any of the acts constituting in whole or in part, such violation.

INSTITUTION OF CRIMINAL AND CIVIL PENALTY PROCEEDINGS

SEC. 708. Before reporting any violation of this act to any United States attorney for institution of criminal proceedings thereunder, or for the institution of civil penalty action under section 706 (b), the Secretary shall, in accordance with regulations prescribed by him, afford appropriate notice and opportunity for hearing to the person against whom the proceedings are contemplated (1) upon the question of such violation; and (2) to review his tentative decision to make such report, upon cause shown satisfactory to the Secretary. The report shall be accompanied by findings of the appropriate officers and employees, duly authenticated under their oaths. Nothing in this act shall be construed as requiring the Secretary to report for prosecution or for the institution of libel, or injunction proceedings, or civil penalty action, minor violations of this act whenever he believes that the purposes of the act can best be accomplished by a suitable written notice or warning.

SEIZURE

SEC. 709. (a) Any article of food, drug, device, or cosmetic that is adulterated or misbranded when introduced into or while in interstate commerce, or which may not, under the provisions of section 306, be introduced into interstate commerce, shall be liable to be proceeded against while in interstate commerce, or at any time thereafter, on libel of information and condemned in any district court of the United States within the jurisdiction of which the article is found: *Provided, however,* That no libel for condemnation shall be instituted under this act for any alleged misbranding if there is pending in any court a libel for condemnation proceeding under this act based upon the same alleged misbranding, and not more than one such proceeding shall be instituted if no such proceeding is so pending, except that such limitations shall not apply (1) when such misbranding has been the basis of a prior judgment in favor of the United States, in a criminal injunction or libel for condemnation proceeding under this act, or (2) when the Secretary has probable cause to believe from facts found by him that such misbranding of the article renders it imminently dangerous to health or is, in a material respect, false, grossly misleading, or fraudulent; and in any case where the number of libel for condemnation proceedings is limited as above provided the proceeding pending or instituted shall, on application of the claimant, seasonably made, be removed for trial to any district which may be agreed upon by stipulation between the parties to the proceeding.

(b) The article shall be liable to seizure by process pursuant to the libel, and the procedure in cases under this section shall conform, as nearly as may be, to the procedure in admiralty; except that either party may demand trial by jury of any issue of fact joined in any such case. In cases of articles of food, drugs, devices, or cosmetics seized under the provisions of this section when the same issues of adulteration or misbranding under the provisions of this act, raised by the same claimant, are pending in various jurisdictions, the United States district court for any district where one of such seizures is pending, or for any other district which may be agreed upon by stipulation between the parties to the proceeding, is hereby vested with jurisdiction to consolidate and try such cases; and on application of the claimant, seasonably made, such cases may be tried in any such jurisdiction or in the district so stipulated.

(c) The court at any time after seizure up to a reasonable time before trial, shall by order allow any party to a condemnation proceeding, his attorney or agent, to obtain a representative sample

of the article seized, and as regards fresh apples and fresh pears, a true copy of the analysis on which the proceeding is based.

(d) Any food, drug, device, or cosmetic condemned under this section shall, after entry of the decree, be disposed of by destruction or sale, as the court may, in accordance with the provisions of this section, direct, and the proceeds thereof, if sold, less the legal costs and charges, shall be paid into the Treasury of the United States; but such article shall not be sold under such decree contrary to the provisions of this act or the laws of the jurisdiction in which sold: *Provided*, That after entry of the decree and upon the payment of the costs of such proceedings and the execution of a good and sufficient bond conditioned that such article shall not be sold or disposed of contrary to the provisions of this act or the laws of any State or Territory in which sold, the court may by order direct that such article be delivered to the owner thereof to be destroyed or brought into compliance with the provisions of this act under the supervision of an officer or employee duly designated by the Secretary, and the expenses of such supervision shall be paid by the party obtaining release of the article under bond. Any article condemned by reason of its being an article which may not, under section 306, be introduced into interstate commerce, shall be disposed of by destruction.

(e) When a decree of condemnation is entered against the article, court costs and fees and storage and other proper expenses shall be awarded against the person, if any, intervening as claimant of the article.

INJUNCTION PROCEEDINGS

SEC. 710. (a) In order to avoid multiplicity of criminal prosecutions, or libel for condemnation proceedings, the district courts of the United States are hereby vested with jurisdiction for cause shown, to restrain by injunction, temporary or permanent, any person from the repetitious (1) introduction or causing to be introduced into interstate commerce of any adulterated or misbranded food, drug, device, or cosmetic; or (2) dissemination of or causing to be disseminated any false advertisement by United States mails, or in interstate commerce by radio broadcast or otherwise, for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics; or (3) dissemination of or causing to be disseminated a false advertisement by any means for the purpose of inducing, directly or indirectly, the purchase of food, drugs, devices, or cosmetics in interstate commerce. In such injunction proceedings it shall not be necessary to show on the part of such person an intent to continue the offense.

(b) Violation of any injunction issued pursuant to this section may be summarily tried and punished by the court as a contempt. Such contempt proceedings may be instituted by order of the court or by the filing of an information by the United States attorney; and process of the court for the arrest of the violator may be served at any place in the United States or subject to its jurisdiction. No person shall be deemed to have violated an injunction, issued pursuant to this section, by reason of the dissemination, subsequent to such injunction, of the false advertisement which was the basis of the injunction, if such dissemination was beyond the control of such person.

DUTIES OF UNITED STATES ATTORNEY

SEC. 711. It shall be the duty of each United States attorney to whom the Secretary, consistently with the provisions of sections 708 and 709, reports any violation for institution of criminal, libel of information for condemnation, or other proceedings under this act, to cause appropriate proceedings to be instituted in the proper courts of the United States without delay. All suits instituted under this act, except those relating to the functions of the Federal Trade Commission, shall be by and in the name of the United States. Notwithstanding the provisions of section 876 of the Revised Statutes, subpenas for witnesses who are required to attend a court of the United States, in any district, may run into any other district in any proceeding under this act.

IMPORTS AND EXPORTS

SEC. 712. (a) The Secretary of the Treasury shall deliver to the Secretary of Agriculture upon his request, samples of food, drugs, devices, and cosmetics which are being imported or offered for import into the United States, giving notice thereof to the owner or consignee, who may appear before the Secretary of Agriculture and have the right to introduce testimony. If it appears from the examination of such samples or otherwise that (1) any false advertisement of such article has been disseminated in the United States by the importer or exporter thereof, or any person in privity with him, within 3 months prior to the date such article is offered for import, or (2) such article has been manufactured, processed, or packed under insanitary conditions, or (3) such article is forbidden or restricted in sale in the country in which it was produced or from which it was exported, or (4) such article is adulterated or misbranded, then such article shall be refused admission.

(b) The Secretary of the Treasury shall refuse delivery to the consignee and shall cause the destruction of any such article refused admission, unless such article is exported by the consignee within three months from the date of notice of such refusal, under such regulations as the Secretary of the Treasury may prescribe: *Provided*, That the Secretary of the Treasury may deliver to the consignee any such article pending examination and decision in the matter on execution of a bond as liquidated damages for the amount of the full invoice value thereof together with the duty thereon, and on refusing for any cause to return such article or any part thereof to the custody of the Secretary of the Treasury when demanded for the purpose of excluding it from the country or for any other purpose, such consignee shall forfeit the full amount of the bond as liquidated damages.

(c) All charges for storage, cartage, and labor on any article which is refused admission or delivery shall be paid by the owner or consignee and in default of such payment shall constitute a lien against any future importations made by such owner or consignee.

(d) A food, drug, device, or cosmetic intended for export shall not be deemed to be adulterated or misbranded under this act if it (1) accords to the specifications of the foreign purchaser, (2) complies with the laws of the country to which it is intended for export, and (3) is labeled on the outside of the shipping package with the words "For export." But if such article is sold or offered for sale in domestic commerce, this paragraph shall not exempt it from any of the provisions of this act.

PUBLICITY

SEC. 713. (a) The Secretary shall cause to be published from time to time reports summarizing all judgments, decrees, and court orders which have been rendered, including the nature of the charge and the disposition thereof.

(b) The Secretary may also cause to be disseminated information regarding food, drugs, devices, or cosmetics in situations involving, in the opinion of the Secretary, imminent danger to health or gross deception of the consumer. Nothing in this section shall be construed to prohibit the Secretary from collecting, reporting, and illustrating the results of the investigations of the Department.

SEPARABILITY CLAUSE

SEC. 714. If any provision of this act is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the constitutionality of the remainder of the act and the applicability thereof to other persons and circumstances shall not be affected thereby.

EFFECTIVE DATE AND APPEALS

SEC. 715. (a) This act shall take effect 12 months after the date of its enactment. The Federal Food and Drugs Act of June 30, 1906, as amended (U. S. C., 1934 ed., title 21, secs. 1–15), shall remain in force until such effective date, and, except as otherwise provided in this paragraph, is hereby repealed effective upon such date: *Provided*, That the provisions of sections 701 and 702 shall become effective on the enactment of this act, and thereafter, the Secretary is authorized hereby to (1) conduct hearings and to promulgate regulations which shall become effective on or after the effective date of this act as the Secretary shall direct, and (2) designate prior to the effective date of this act food having common or usual names and exempt such food from the requirements of subdivision (2) of paragraph (i) of section 302 for a reasonable time to permit the formulation, promulgation, and effective application of definitions and standards of identity therefor as provided by section 304: *Provided further*, That the act of March 4, 1923 (U. S. C., 1934 ed., title 21, sec. 6; 42 Stat. 1500, ch. 268), defining butter and providing a standard therefor, and the provisions of the act of July 24, 1919 (U. S. C., 1934 ed., title 21, sec. 10; 41 Stat. 271, ch. 26), defining wrapped meats as in package form, shall remain in force and effect and be applicable to the provisions of this act: *And provided further*, That amendment to the Food and Drugs Act, section 10A, approved August 27, 1935 (U. S. C., 1934 ed., Supp. I, title 21, sec. 14a), shall remain in force and effect and be applicable to the provisions of this act: *And provided further*, That nothing in this act shall impair or be construed to impair or diminish the powers of the Federal Trade Commission under existing law.

(b) The provisions of this act shall not be held to modify or repeal any of the existing laws of the United States except as provided by paragraph (a) of this section.

(c) Meats and meat-food products shall be exempt from the provisions of this act to the extent of the application or the extension thereto of the Meat Inspection Act, approved March 4, 1907, as amended (U. S. C., 1934 ed., title 21, secs. 71–91; 34 Stat. 1260 et seq.).

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from New York [Mr. COPELAND].

Mr. KING. Mr. President, I have just entered the Chamber. Perhaps the Senator from New York has covered the point concerning which I am about to make inquiry. The Senate will recall that when the so-called liquor bill was under consideration by the Finance Committee—and it was pending before that committee for weeks—the question was urgently argued with respect to the utilization of nothing but grain for the manufacture of distilled spirits. After very full consideration of the subject the proposed amendment was eliminated.

I should like to know what the attitude of the conference committee was with respect to that matter. I move that it all be eliminated in order to conform to the action of the Senate. We cannot repudiate the action of the Senate after a full discussion covering a very long period of time.

Mr. BAILEY. Mr. President, I stated to the Senator from Utah that the amendment to which he refers had not been put in the bill. If it is there, it is there by inadvertence

and the Senator from New York [Mr. COPELAND] will agree to strike it out, I am sure. We will have no trouble about it.

Mr. ASHURST. Mr. President, I have just entered the chamber to find that the conference report on Senate bill no. 5 is before the Senate. I remember the able speech of the Senator from Utah [Mr. KING], and of the Senator from Kentucky [Mr. BARKLEY], pointing out that alcohol is alcohol, whether it be made from beets or grain or potatoes. Personally, I am not interested; but it would be most unfair and ungenerous and unworthy of the Senate at this late hour, by inadvertence or carelessness or in any other way, to permit a provision of the bill to become law which would deny the sugar-beet growers or the cane growers the right to distill alcohol from their products or which would prohibit or restrict the use of such alcohol for any lawful purpose whatsoever.

Mr. KING. I may say to the Senator that it would be manifestly unfair in view of the fact that the two Senators from Louisiana were very much interested, particularly the senior Senator from Louisiana [Mr. OVERTON] who is ill and unable to be here to protect his interests and to advocate upon the floor of the Senate, as he did when he was well, the position which he then took.

Mr. ASHURST. I should feel a sort of guilt if I were to permit a bill to pass containing such a provision because one of the Senators from Louisiana paid me the compliment to ask my opinion, and I said:

> You may go home; you are at liberty to go, because the Senate of the United States keeps faith. The Senate has voted, and by an overwhelming majority has decided that the same alcohol may be distilled from sugar beets or from cane, as well as from grain; and you may rest assured that the Senate will not reverse that action by any direct action or any indirect action.

Mr. President, before there is a vote on the conference report I wish to have assurances from the Senators. I wish that provision stricken out if it can be done.

Mr. BAILEY. We are agreeing upon a motion to have it stricken out.

Mr. ASHURST. Then I have overspoken myself. I know I may depend upon the fairness and the generosity of our Senate conferees; but in these closing hours, when important matters are being poured over like a cataract, even the best-informed Senators frequently do not know precisely what is in a bill; and if the able Senator from North Carolina [Mr. BAILEY], and likewise the able Senator from New York [Mr. COPELAND], assure me that the provision inserted by the House, reading as follows:

> A food shall be deemed to be misbranded * * * if it purports to be or is represented as any kind of whisky, and it contains alcohol derived from any source other than grain.

If these two Senators assure me that that has gone out, I am willing to take my seat.

Mr. BAILEY. We will move to strike from the bill as reported the language to which the Senator is objecting.

Mr. ASHURST. I have nothing more to say.

Mr. KING. That language is found on pages 53 and 54, under subdivisions (l) and (m). I move to delete those subdivisions, which are as follows:

> (l) If it is a distilled liquor, or if it is a beverage (other than fortified wine) containing any distilled liquor, unless its label states (1) the percentage by volume of alcohol therein; (2) in case it contains two or more whiskies or other alcoholic beverages, the percentage by volume of each distilled liquor present and the source of sources from which each is derived; (3) in case of any kind of whisky stored in wood, or any mixture of whiskies of which one or more has been stored in wood, the length of time, if any, each such whisky has been so stored; and (4) in the case of any mixture of any kind of whisky or whiskies with neutral spirits, the length of time, if any, each such whisky has been stored in wood: *Provided*, That the provisions of this paragraph shall not apply insofar as they impose any requirement imposed by or under authority of the Federal Alcohol Administration Act.
>
> (m) If it purports to be or is represented as any kind of whisky, and it contains alcohol derived from any source other than grain.

Mr. ASHURST. Mr. President, how may a conference report be amended?

Mr. COPELAND. May I answer the Senator? We are in a very peculiar position. The conferees have disagreed. We came so near to an agreement that we had the legislative counsel draw up a compromise bill, and it is that which I am offering. Therefore, the Senator is entirely within his rights in moving that it be amended as he has said.

Mr. ASHURST. I know that we may depend upon the good faith of our conferees. I am not challenging their good faith. Even the most diligent Senator in times like these may not know, however, what is included in a conference report. I have nothing more to say, except that I hope that by no accident or inadvertence will such a provision be incorporated in any legislation. Surely there should not be any discrimination by reason of a difference in the raw material used in the production of the same product; so far as alcohol is concerned that principle was confirmed by a law enacted by Congress in 1917 and reenacted in 1918.

Mr. KING. I ask to have the question put on my motion to eliminate paragraphs (l) and (m) on pages 53 and 54.

The PRESIDING OFFICER. The question is on the motion of the Senator from Utah to amend the amendment proposed by the Senator from New York to the amendment of the House by striking out paragraphs (l) and (m).

The amendment to the amendment was agreed to.

The PRESIDING OFFICER. The question is on agreeing to the amendment, as amended, to the amendment of the House.

The amendment, as amended, to the amendment of the House was agreed to.

ENROLLED BILLS AND JOINT RESOLUTIONS PRESENTED

Mrs. CARAWAY, from the Committee on Enrolled Bills, reported that on today, June 20, 1936, that committee presented to the President of the United States the following enrolled bills and joint resolutions:

S. 81. An act to provide for the collection and publication of statistics of peanuts by the Department of Agriculture;

S. 1896. An act to provide for interest payments on American Embassy drafts:

S. 2039. An act making it a felony to transport in interstate or foreign commerce persons to be employed to obstruct or interfere with the right of peaceful picketing during labor controversies;

S. 2293. An act for the retirement of employees of the Alaska Railroad, Territory of Alaska, who are citizens of the United States;

S. 3247. An act to waive any exclusive jurisdiction over premises of Public Works Administration slum-clearance and low-cost housing projects, to authorize payments to States and political subdivisions in lieu of taxes on such premises, and for other purposes;

S. 4268. An act to authorize the Secretary of War to set apart as a national cemetery certain lands of the Fort Snelling Military Reservation, Minn.;

S. 4390. An act to amend the National Defense Act relating to the Medical Administrative Corps;

S. 4567. An act to authorize the Secretary of Agriculture to extend and renew for the term of 10 years a lease to the Chicago, Milwaukee & St. Paul Railway Co. of a tract of land in the United States Department of Agriculture Range Livestock Experiment Station, in the State of Montana, and for a right-of-way to said tract, for the removal of gravel and ballast material, executed under the authority of the act of Congress approved June 9, 1926;

S. 4699. An act to provide a commissioned strength for the Corps of Engineers, United States Army, for the efficient performance of military and other statutory duties assigned to that corps;

S. 4784. An act to permit mining within the Glacier Bay National Monument;

S. 4786. An act to authorize the Secretary of Agriculture to make such adjustments and revisions found to be due on contracts entered into by the Government with crop producers under the Agricultural Adjustment Act;

S. J. Res. 251. Joint resolution granting the consent of Congress to the city and county of San Francisco to construct a causeway and highways on Yerba Buena Island in San Francisco Bay, and for other purposes;

S. J. Res. 277. Joint resolution to investigate corporations engaged in the manufacture, sale, or distribution of agricultural implements and machinery; and

S. J. Res. 291. Joint resolution amending section 11 of the Soil Conservation and Domestic Allotment Act.

INTERNAL-REVENUE TAXATION

Mr. STEIWER. Mr. President, I had just concluded reading an affidavit subscribed by Hazel Morgan. In order to answer the question asked a few minutes ago by the Senator from South Carolina, I think I ought to say that the Mr. Pryor referred to in that affidavit is Mr. V. W. Pryor; and he is, or was, a special investigator of the Department of Justice. Mr. Anderson, referred to therein, is Mr. Victor Anderson, who is also an investigator of the Department of Justice, and, I believe, a very responsible man.

In order to illustrate further what I have intended to develop in the earlier portion of my statement to the Senate, I wish to read briefly from an affidavit signed by R. H. Carroll. I read as follows:

During the latter part of the year 1933, my daughter, Marcell Carroll, was employed in the county agent's office of Shelby County, Tex., while I was employed as community committeeman in Shelby County, Tex. I was notified from the county agent's office that my check was there in settlement with my daughter and myself for the work that we had done in connection with the county agent's office. I then called at the county agent's office for this check, and a lady employed in the county agent's office delivered the check to me (the amount I do not remember), but I do know that it was more than enough to reimburse my daughter and myself for the amount of work that we had done. I then called Mr. Scurlock's attention to this error in the amount of the check, Mr. Scurlock requested that he and I go to the Farmers State Bank together and we would arrange for the difference. When we arrived at the Farmers State Bank, the correct amount that was due my daughter and myself was counted out to me in money, the banker then asked me what to do with the balance, and I referred him to Mr. Scurlock, who told the banker to place it to Mr. Scurlock's credit.

This is of but little importance, except that it fairly well typifies the procedure of certain of the local officials in some of these 16 counties of Texas, and shows how, by padding the accounts and by increasing the remittances, and by diverting the funds, they found a way to enrich themselves, and in most cases, but not in this one, they found a way to deprive the tenant farmers of that which had been intended for them.

In the case of a lady named Hamblen, to which I now call attention, no cotton had been planted for the year 1934, and the committeeman so stated on the papers that are referred to in this series of affidavits as the Bankhead papers, and, of course, she should not have been issued a permit; but after her compliance papers were turned in to the county agent's office, according to the affidavit from which I now read, the paper was changed to show that she had a certain area planted to cotton, and she was paid money upon this basis. In this case it appears that a local agent, a clerk in the county agent's office, named Moss, in one way or another, had to do with changing these papers so as to make it possible to collect this money. As I proceed with the affidavits it will be noted that in very many cases—I think my attention has been called to not less than 20 or 30—the people of that area are making affidavit that this clerk was a party to irregularities, and it is said that he is a party to forgeries, all for the purpose of getting money for himself, and in most cases for the purpose of depriving the tenant farmers of their money.

Let me read briefly from Mrs. Hamblen's affidavit:

When I signed the 1934 cotton-reduction contract, I intended to plant what cotton I was permitted on my farm, known as the O. W. Randell place. I had additional cotton farm land besides this place and felt that, if the Government desired a reduction, I would do my part by decreasing my yield as much as possible. I did have two tenants on another farm I own. These tenants' names were F. A. Stevens and Jesse Randell, Appleby, Tex. F. A. Stevens was permitted to plant 16 acres of cotton; Jesse Randell 17 acres. These tenants were share croppers and were on the basis of third and fourth. The tenants were given their proportion of tax-exemption certificates and I was given for my part a total of 1,320 pounds of certificates for these two farms.

I used about 750 pounds of certificates to gin my portion of cotton. I sold about 300 pounds of certificates for 2 cents per pound and sent to the national cotton pool in Washington about 35 pounds of certificates.

I interrupt the reading of the affidavit at this point to state that the Secretary of Agriculture has fixed an upset price of 4 cents per pound upon these tax-exemption certificates. They were guaranteed by the faith of the United States Government to be worth that amount. In fact, I think they were worth more, but that was their trading price.

Here is an affiant who makes affidavit that she sold her certificates to the speculators for 2 cents a pound. This is a practice which obtained throughout these 16 counties, a practice which has been identified in several thousand cases. I am not prepared, from the meager information which has been furnished me, to state the exact number of thousands of cases in which this practice has been followed, but wherever it was followed, the grower failed to receive the benefit intended and the speculator received the difference between the price paid and the 4 cents a pound which the Secretary of Agriculture paid in the redemption of the certificates.

I quote further from this affidavit:

I received a card from the county agent's office saying I was entitled to some cotton certificates for the farm I live on, which I had signed a contract but had no cotton planted. I called at the county agent's office and was informed that I was not entitled to any additional certificates. I returned home and a few days later I received another card. I called at the office with the card and, upon presenting the notice (after a wide search), the certificates could not be located. After this search I gave up hopes. Mr. Hyde, assistant in cotton adjustment, told me that he could not find them. Then a Mr. Burroughs, working for Sam Stripling, Nacogdoches, Tex., came to my house and told me that I had 755 pounds of certificates in the county agent's office; that Sam Stripling, owner of Stripling Drug Store, had gone to the county agent's office and saw on the records that 755 pounds were in my name and that Mr. Stripling sent him out to buy them from me. He offered me 2 cents, and I sold them to him. I went to the bank to cash the check he gave me and the bank turned it down. Then I asked Mr. Stripling why the check was turned down, and he said that when he went to the county agent's office to get the certificates they were gone, and the name Mary A. Hamblen was signed on the B. A. 105.

I skip some portion of the affidavit, and read further as follows:

When John Weatherly, Jr., came to measure my cotton land he wrote down that I had no cotton planted.

I heard nothing more about the matter until I was contacted by Mr. V. W. Pryor, investigator for the United States Department of Agriculture, during the first part of February 1935. Mr. Pryor showed me the records, in which my 755 pounds of stolen certificates had been used at the Knous Gin, Chireno, Tex. I did not know there was any such gin in existence.

This affidavit, like all the others, discloses irregularities, first, in the issuance of the certificates, irregularities in the possession of the certificate, the acquisition by speculators of the certificates, and the deprivation of the farmer of the benefit which had been intended.

Let me read briefly now from an affidavit subscribed by Mr. George Lewis, as follows:

I am a tenant on the farm of R. N. Wilson, Nacogdoches, Tex.

On or about March 20, 1935, I was taken to the Redland Hotel, Nacogdoches, Tex., and interviewed by Mr. Victor Anderson, chief of field investigators, and was told that I had pooled some tax exemption certificates issued in the name of Miss Dora Price.

I told Mr. Anderson that I knew nothing about the matter; that I had pooled no certificates; I did not know Miss Dora Price and did not buy any certificates from anybody. Mr. Anderson showed me a paper with my name on it, and also Mr. R. N. Wilson's, but I did not understand what it was.

Up to the present date, I have never pooled any certificates, mine or any one else's, in the national pool and I do not know who pooled those belonging to Miss Dora Price in my name.

A good illustration of one means by which the speculators enriched themselves, and by which the farmers were deprived of their share, is disclosed in an affidavit signed by Mr. A. L. Little. From that affidavit I read the following:

During the month of July 1933 we had an awful flood in our section of the county which practically destroyed my cotton crop. After the destruction of the cotton by the flood I made a supplemental contract which, in addition to the original contract, totaled 50 percent of my cotton acreage.

I did not receive a notice to plow the cotton up and did not know whether or not my contract would be accepted, so when the cotton opened I picked it and sold it.

After I had sold the cotton my Government check came, which, as well as I remember, amounted to about $20. I did not want to

take the check because I had sold the cotton. Mr. Rhodes, community committeeman, and Mr. T. F. Powers, Attoyac, Tex., were present, and they told me that it was given on the basis of the flood and would be absolutely all right to accept the check, so I did.

I bought about 100 pounds of seed cotton at about 5 cents per pound, totaling $5, and the check I received from the Government was for about $20, from Aster Langford, Attoyac, Tex., and plowed it under in my own field in the presence of Eugene Rhodes, local committeeman.

I had no intention of defrauding the Government when I accepted the check and followed the instructions of our community committeeman, who we thought knew the rules and regulations of the program. My intention was to cooperate with the Government programs to the best of my knowledge.

I think I should state at this point that I have been furnished with some dozen or 20 affidavits, all relating in general to the same kind of a situation, where a portion of the crop had been destroyed by flood, and that portion destroyed by flood or by storm was regarded as a reduction in area, and for that supposed reduction in area the tax-exemption certificates were issued.

In some of these cases the benefit set up by this kind of transaction went to the tenant farmer, and in other cases it is disclosed that either the landlord or some speculator first obtained possession of the certificates; and the money, or at least a greater part of the money, did not go to the tenant farmer.

Mr. BLACK. Mr. President, will the Senator yield?

Mr. STEIWER. I yield.

Mr. BLACK. The Senator has read quite a number of affidavits apparently coming from somewhere in the State of Texas. I was not in the Chamber when the Senator began his remarks, and he may have stated where he got them. He has stated several times since I came into the Chamber that he was furnished these affidavits. Does the Senator object, if he has already stated, to repeating where he got the affidavits?

Mr. STEIWER. Not at all. They came into my hands very recently. They have been gathered, I think, in the last 2 weeks, chiefly in 16 counties in Texas. They were prompted by investigations which the Department of Agriculture itself had made, but they were secured by private investigators.

Mr. BLACK. May I ask the Senator whom the private investigator represented?

Mr. STEIWER. I do not know myself.

Mr. BLACK. Did he represent the Republican national committee?

Mr. STEIWER. I think not. I do not know, myself.

Mr. BLACK. The Senator does not know whom he represented?

Mr. STEIWER. I will say to the Senator that I have information concerning some of the reports made to the Department of Agriculture by its own agents, and find that every charge in the affidavits is indicated in whole or in part by charges in those reports.

Mr. BLACK. The Senator is not now, I understand, reading from any report by the Department of Agriculture.

Mr. STEIWER. No.

Mr. BLACK. But from private reports which purport to be affidavits which make very serious personal charges and reflections on numerous individuals in the State of Texas.

Mr. STEIWER. That is true.

Mr. BLACK. I should think it would certainly be proper and fair for the record to show at whose instance these purported affidavits were secured.

Mr. STEIWER. The name of the notary in every case, of course, is on the affidavit. The name of the signer is on the affidavit. Those are all disclosed. These affidavits, I will say to the Senator, were brought to my attention by a gentleman of my acquaintance who told me that they had been procured in the South by a former investigator of the Department and by one other man who had been employed to go with him to help draw the affidavits. I do not know the name of that person.

Mr. BLACK. Mr. President, may I ask the Senator if he knows the name of the person who supplied him with the affidavit, and for whom he works?

Mr. STEIWER. That gentleman's name is Judge.

Mr. BLACK. Judge?

Mr. STEIWER. Yes.

Mr. BLACK. What does he do? What is his business?

Mr. STEIWER. His chief interest just now is an inquiry into this situation in Texas.

Mr. BLACK. Does the Senator know whom he represents?

Mr. STEIWER. No; I do not. I think he represents himself.

Mr. BLACK. Does the Senator know for whom he is working in getting the affidavits?

Mr. STEIWER. No; I do not know. He, personally, is not getting the affidavits. I think they are being gotten by the other two gentlemen whose identity I have just disclosed, and he brought them to me.

Mr. BLACK. Then we are to understand that the Senator does not know and has no information as to who it is that is paying the persons who get the affidavits reflecting upon people in the State of Texas?

Mr. STEIWER. I have said to the Senator that they were handed to me by Mr. Judge. Mr. Judge is interested in arriving at the facts of the administration of the Triple A in this particular section of the Cotton Belt in the State of Texas. I will say also to the Senator that I have discussed this matter with one former employee of the Department of Agriculture and also with the Comptroller General. I am not going to quote the Comptroller General with respect to it, because the Senator can inquire of him if he desires to do so, but the Comptroller General has had access to most of these affidavits; he has had them examined. His agent made an examination, and he told me it was consistent with the information already in his office, and asked if I would return the material to him when I had concluded with it, because there were some features to it that he was to investigate on behalf of the United States.

He called to my attention, however, the fact that many of these irregularities in the State of Texas amount only to a violation of State law. I think I ought to say in fairness to the Department of Agriculture that the Comptroller General tells me that in the main these irregularities do not result in loss to the Federal Treasury. There is some loss in taxes and in some incidental respects. But the Comptroller General assured me, and of course I accept his assurance, that he has endeavored to protect the Treasury, and thinks that he has protected the Treasury by seeing to it that no more than the proper amount was paid in the aggregate to the claimants in the various counties. I understand that this system, when boiled down, is chiefly the diversion or conversion of certain portions of this benefit money from the sharecroppers and small farmers to the barons and speculators.

Mr. BLACK. I am sure the Senator would agree that it would be fair to these people for him to state the name of the investigator who was formerly with the Department of Agriculture and whether or not he had been discharged; also what were his initials, so that both the initials of this gentleman and Mr. Judge would be available.

Mr. STEIWER. I shall be glad to state that. The name of the agent, or former agent, as the case may be, is Pryor. I stated his name earlier and stated his initials—V. W.

Mr. BLACK. P-r-y-o-r?

Mr. STEIWER. Pryor; yes. Before I conclude I am going to read a short excerpt from a report made by this man. I am told by the Comptroller General, and I think it is not divulging a secret to relate here, that this matter is known to Mr. Wallace; that he discussed it with Mr. Wallace; that Mr. Wallace deplored the situation, had made some effort through investigations to hold the situation in hand, but had felt that there was nothing more he could do.

Mr. BLACK. Would the Senator mind stating who are the people to whom Mr. Pryor reported?

Mr. STEIWER. In the Department I think it is the head of the pool whose name I do not know, unless it be Mr. Johnson. Another employee of the Department was Mr.

Deal. They are all in the employ now of the Triple A and all accessible to the Senator.

Mr. BLACK. The Senator is referring now to the report made while this gentleman was in the Department of Agriculture?

Mr. STEIWER. Yes.

Mr. BLACK. The Senator stated that he did not know whether the Republican National Committee had anything to do with procuring these affidavits. May I ask whether he knows whether or not the Republican Party's national committee's twin organization, the Liberty League, employed this gentleman?

Mr. STEIWER. I should not think so, Mr. President.

Mr. BLACK. The Senator would not know whether or not the Liberty League employed him. Of course he did not know who employed him.

Mr. STEIWER. I should be greatly surprised if the Liberty League had knowledge of this situation, but I do not know anything about that. I might say that one of these men was sent to me by Mr. Hurley.

Mr. BLACK. Mr. Hurley

Mr. STEIWER. Mr. Hurley. The Senator knows who he is. The former Secretary of War.

Mr. BLACK. Oh, yes; the Honorable Patrick Hurley.

Mr. STEIWER. Yes. And he advised me that this man appealed to him professionally.

Mr. BLACK. The investigator had appealed to him professionally?

Mr. STEIWER. Yes; that is my understanding. All these facts to which I refer are known, I am sure, to the Department of Agriculture and possibly also to the Department of Justice.

Mr. CONNALLY. Mr. President, will the Senator yield to me?

Mr. STEIWER. I yield.

Mr. CONNALLY. I beg the Senator's pardon but I was detained in the House of Representatives and was not here when the Senator made his opening remarks. I understand the Senator is reading certain affidavits relating to transactions or rather supposed transactions in the State of Texas?

Mr. STEIWER. Yes.

Mr. CONNALLY. Sixteen counties in the State?

Mr. STEIWER. Yes. I do not think I will undertake to read affidavits from all 16 counties. The investigations were made in the 16 counties. I am reading a limited number of affidavits. I think they apply only to three or four counties.

Mr. CONNALLY. The Senator says the notary public's name was attached to the affidavits. Was it the same notary public in each case? Does the same notary take all the affidavits?

Mr. STEIWER. No; I think not.

Mr. CONNALLY. I want to ask the Senator in all fairness, since he seems to select Texas as the object of the attack, how did he become interested in this matter? Did some discharged employee, anxious for funds, betray in a sense his own employers who had discharged him? Did he seek financial employment by the Republican National Committee or somebody else to get this information?

Mr. STEIWER. I do not think so, Mr. President. One of the men I talked to was a former employee. I do not know whether or not he was discharged. He said he resigned. He told me he resigned. However, I am not necessarily vouching for him. I do not know whether it makes any difference whether he was discharged or resigned or whether he is disinterested or interested. The affidavits must stand on their own merits, of course, and the facts must be squared with the record.

Mr. CONNALLY. There is no record except the record that the Senator is making. He says he does not vouch for these affidavits, and yet without naming individuals, without naming the counties, he comes here and puts in the RECORD material which according to his statement is slanderous.

Mr. STEIWER. Mr. President, I have named each affiant and I will be glad to disclose to the Senator the name of each notary. The affidavit in each case contains the name of the county, of course, and there is not any secret about it. I am endeavoring to make a complete disclosure.

Mr. CONNALLY. Is Mr. Patrick Hurley, former Secretary of War, a sort of volunteer aid to Mr. Hoover, of the G-men, or how is it that he becomes interested?

Mr. STEIWER. I would not undertake to answer that question. Let me go just a little further. I read these affidavits not for the purpose of charging particular crime against anyone but to illustrate the methods or the manner in which these things were accomplished.

I read briefly from an affidavit signed by Mr. Renfro Washington, who, according to the information here noted, is a colored man.

I read as follows:

> During the year of 1933 I was a third and fourth tenant on the farm of L. A. Moss, Chireno, Tex. I made and signed a contract to plow up 10 acres of cotton acreage. I do not know what I was to receive per acre; therefore, I don't know the amount of my check.
>
> I was not allowed to go to the county agent's office and get my check and I never received any notices nor information regarding the same through the mail. Mr. Moss got the check and allowed me about $75 on my account.
>
> I never saw the check and never endorsed it, neither have I ever given anyone authority to sign my name for me. Mr. Moss was a community committeeman.

It is disclosed in numerous affidavits in my possession that Mr. Moss was one of those employed at the county agent's office, and throughout all these transactions had much to do with the issuance of the tax-exemption certificates, the signing of the contracts, and the issuance of the checks.

Mr. CONNALLY. Mr. President, will the Senator yield to me?

Mr. STEIWER. I yield to the Senator from Texas.

Mr. CONNALLY. The Senator has read an affidavit about Mr. Moss. What does the Senator imply by reading it? What harm has been done? What is the crime charged? The affiant says he got $75; that the landlord turned over to him $75. Does the Senator charge that the landlord withheld part of it?

Mr. STEIWER. That was not the purpose of reading this particular affidavit.

Mr. CONNALLY. I know; but what is the crime charged in the affidavit?

Mr. STEIWER. I have just said to the Senator that I read this affidavit to show the method. If the Senator had listened to my explanation he would not be so perturbed.

Mr. CONNALLY. I am somewhat concerned with the method of the Senator from Oregon in bringing in charges of this character.

Mr. STEIWER. I can see that the Senator is. He will be more perturbed as I proceed. [Laughter.] I read this affidavit merely to show that this particular agent in the county agent's office was carrying on these transactions without turning over the check or the substantiating papers to the person for whom the money was intended. It will be disclosed, as I proceed, that in very many cases in this office and in other offices the tenants at no time had possession of the contracts, the certificates, or the checks, and that by a system of endorsements to which the people of the office resorted they found a way to handle the money and to pay the tenants apparently what they wanted to pay them; that the tax-exemption certificates were sold, and came into the hands of speculators at as low as a cent and a half per pound, in most cases I think at 2 cents per pound, in some cases at 3 cents per pound, and were redeemed at 4 cents per pound.

Now I wish to read briefly from one other affidavit, supplied by Mr. G. W. Alders, which was made in Texas, in the county of Nacogdoches:

> During the month of November 1934 I received my tax-exemption certificates from the county agent's office. After I ginned my cotton I had about 500 pounds of surplus certificates left. I had no use for them, so I sold them to J. O. Perry, cotton buyer, Nacogdoches, Tex., for 2 cents per pound. He paid me with a personal check. Mr. Perry bought the certificates from me in the county agent's office and paid me for them in his office. Mr. Perry did not tell me what he intended doing with the certificates I sold him.

This affidavit, I think, has no significance except that it is another affidavit which illustrates the method by which those who desired to speculate in these certificates did speculate, and did deprive the farmer of the benefit which a generous Government intended the farmer to receive.

Mr. LEWIS. Mr. President, will the Senator from Oregon allow me to ask his judgment? To whom did the possessor of those checks present them for payment?

Mr. STEIWER. This particular check was a personal check by the person who bought the tax-exemption certificates.

Mr. LEWIS. Whence are these tax-exemption certificates issued?

Mr. STEIWER. They are issued, I think, from Washington, and were supposed to reach the hands of the producer. In many cases they did reach the hands of the producer, but in most numerous other cases the tax-exemption certificates never reached the hands of the producer but were handled by someone along the line before they got to the producer, either by someone in the county agent's office or in many cases by the landlord, who handled the certificates both for himself and for his tenant.

Mr. LEWIS. Does the Senator assume that there was some method by which that kind of fraud upon the farmer might have been avoided?

Mr. STEIWER. I am not so sure about that, Mr. President. I think possibly so; but at no time have I criticized the officers of the Triple A for what they have done in this connection. Apparently the thing that was contemplated under the law was one which lent itself to imposition.

Mr. LEWIS. We are both anxious to prevent that kind of robbery upon the innocent farmer; and I was wondering whether, in examining the subject, the Senator had come to a conclusion as to what system might protect the farmer against similar frauds in the future, if they should be attempted.

Mr. STEIWER. If I were to criticize the procedure resorted to, I should say that too much authority was vested in persons who were not regular employees of the Government, who were not regularly identified with the Department of Agriculture or with the Triple A.

Mr. LEWIS. Who does the Senator assume vested such unwarranted authority?

Mr. STEIWER. The Triple A. Mr. President, if I were doing it I should not attempt this sort of thing at all; but if it were to be done over again, certainly we could find means of providing better safeguards than were provided in these cases; and, of course, they ought to be provided.

Now, I wish to read one or two further short affidavits.

Mr. BLACK. Mr. President, will the Senator yield for a question.

Mr. STEIWER. Yes.

Mr. BLACK. I note, in looking over the affidavits, that apparently they are all sworn to before the same notary public, Hazel Morgan. I also note that there is an affidavit from Hazel Morgan stating that she was employed for 5 months for that purpose, going around over the State of Texas; and apparently all of them were written on the same typewriter.

Mr. STEIWER. She was employed during those 5 months by the Department of Agriculture, and these affidavits have all been made since she was separated from the Department, so she did not spend 5 months in obtaining the affidavits. I think these affidavits were gathered in the short space of 10 days, or possibly 2 weeks.

Mr. BLACK. I think, if the Senator will look, he will see that she states that she was employed by Mr. V. W. Pryor for some months as a notary public to go around and obtain affidavits.

Mr. STEIWER. He was a regular investigator of the Department. She was a Government employee at that time.

Mr. BLACK. May I ask the Senator whether these affidavits were sent up to him by Mr. Hurley?

Mr. STEIWER. Oh, no.

Mr. BLACK. Or did they send up a synopsis of the statement?

Mr. STEIWER. Oh, no. I merely meant to say that I got in touch with Mr. Pryor through Mr. Hurley. Mr. Hurley thought I would be interested.

Mr. BLACK. May I ask if they also gave out a statement to the press containing these charges, which is typewritten also?

Mr. STEIWER. I do not know anything about that. I have never seen any publication in the press concerning the matter.

Mr. BLACK. Was not one given out to the press this afternoon?

Mr. STEIWER. I do not know of it. If there was, I am not advised of it. I wish to say to the Senator that I have affidavits here which were notarized by Mr. J. A. Phillips, and I think by other persons. It just happens that those which the Senator from Alabama examined were all notarized before Hazel Morgan, and those that I have read I think were all notarized before Hazel Morgan.

Now let me read briefly from the short affidavit by Mr. R. F. Black. This is also from Nacogdoches County, Tex. He subscribes himself as living at Martinsville, Tex.

About the month of November 1934 I received my second issue of tax-exemption certificates from the county agent's office. As I had already ginned my cotton, I had no use for the certificates.

I went to the county agent's office and asked about pooling my certificates. Forest Gee, clerk in the county agent's office, told me that I might never get anything out of them if I pooled them and he offered me 2 cents per pound, but I did not sell them to him. Later I went to the county agent's office again to pool them but I was unable to get any information, so I was sent to Max Hart, Nacogdoches, Tex., who was buying certificates. I sold Mr. Hart 95 pounds of certificates for 2 cents per pound and he paid me $1.90 in cash.

Of course that is a very trifling transaction, but this gentleman, whose name is Mr. Max Hart, is referred to in a number of affidavits and has been referred to on a number of occasions by those making reports to the Agricultural Department.

I read briefly from the affidavit of Ellis Black as follows:

During the month of November 1934 I received my second issue of cotton tax exemption certificates of about 130 pounds from the county agent's office.

I asked at the office about pooling them in the national pool, but I was told by Forest Gee, clerk in the county agent's office, that if I pooled them, I might never get anything out of them. He offered me 2 cents per pound but I did not sell them to him.

I was contacted on the street by a man who said Max Hart, Nacogdoches, Tex., was buying certificates. I went to Max Hart and sold him the 130 pounds for 2 cents per pound. Mr. Hart did not tell me what he wanted the certificates for.

Senators will note that is substantially the same form of affidavit from which I just read. There follows a statement that the certificates were sold to Mr. Max Hart.

The next affidavit is subscribed to by Mr. G. W. Martin, who also lives in the same county in Texas. In his affidavit he said he received certain tax-exemption certificates and that after ginning his cotton he sold about 200 pounds of those certificates.

I think it is unnecessary to proceed further with the recitals. They all illustrate substantially the same thing, namely, that in a very wide range of territory and in a very great number of cases the tenant farmer, and in some cases the landlord farmer, did not keep his certificates but sold his certificates to some speculator. It is disclosed that in some cases the transaction was a perfectly honorable transaction. The owner of the certificate sold because he desired to part with it and was willing to take the 2 cents per pound instead of the 4 cents per pound which he would have received had he kept the certificates. In numerous other cases, however, it is disclosed by the affidavits that it was not an aboveboard transaction; that the certificates never reached the person for whom they were intended; that they were diverted at the offices or by the landlord and that the tenant received only part of the money intended for him; and that the rest was converted to the use of persons in some cases identified and in other cases to persons not identified by the documents.

I want to read very briefly from a report or a memorandum made by Mr. Pryor. He furnished this to me personally. I read only a short excerpt and I omit some words which seem to have no significance:

We discovered numerous forgeries and thefts of certificates, and we also found that numerous contracts had been made and executed with nonexistent cotton producers whose names had been forged to the records. Certificates had been issued to these nonexistent persons and converted by one of the clerks in the county agent's office, a Mr. Moss.

I digress to say that is the same Mr. Moss who is a clerk in one of the offices and who has been referred to in a number of the affidavits from which I have read and in numerous other affidavits from which I have not read.

We further found that the entire county was completely demoralized. The county committee was dominated by a group of speculators and they in turn dominated those who were openly buying and selling certificates inside the county agent's office. Several other clerks in the county agent's office had openly bought and sold certificates and acted as agents for other buyers and sellers. Among the speculators was one T. E. Baker, who was president of the First National Bank, and who controlled in this and adjoining counties a great number of cotton gins. There was also a druggist in this town by the name of Sam Stripling. In addition to these two large speculators, there were four or five others who had bought and controlled approximately 80 percent of all certificates that had been pooled or illegally used.

Mr. Sam Stripling, here referred to, is the same person referred to in one or two affidavits from which I have read.

Mr. BLACK. Mr. President, before the Senator leaves that affidavit will he tell me——

Mr. STEIWER. It is not an affidavit. I am reading from a statement made by Mr. Pryor himself.

Mr. BLACK. Does he have at the beginning of his statement any facts relating to his employment and what he has been doing?

Mr. STEIWER. I have stated two or three times that Mr. Pryor was for some time in the employ of the Agricultural Adjustment Administration, so I did not read that part of the statement.

Mr. BLACK. Does it state in whose employ he is now?

Mr. STEIWER. I will read from the first part of the statement where he says:

I began work for the Agricultural Adjustment Administration on October 9, 1934, and was classified as assistant audit clerk.

I think it is developed that at a later time that rating was changed and his pay was advanced. He was in the employment of the Adjustment Administration for some little time. I cannot say in whose employ he is at this time. I asked if he was willing to make a trip through the South in connection with this matter, and he said he was. He was receiving no compensation that I know of.

Mr. BLACK. Of course, it is a very expensive trip from here to Texas and I am sure the Senator therefore knows, if he actually went down there, who paid his expenses.

Mr. STEIWER. I think his expenses are paid by Mr. Judge, the man I named a while ago.

Mr. BLACK. But the Senator is the man who asked him to go.

Mr. STEIWER. I said I asked him, but I think I merely suggested it. He expressed himself willing to go.

Mr. BLACK. Where did Mr. Judge get the funds and from what association?

Mr. STEIWER. I cannot advise the Senator. I assume Judge had his own funds. It may be the Liberty League, for all I know, but I have no information that would even hint in that direction.

Mr. BLACK. Perhaps the Senator is right—that it may have been the Liberty League.

Mr. STEIWER. The Senator from Alabama suggested that a little while ago and that is the reason I suggest it now.

Mr. SCHWELLENBACH. Mr. President, will the Senator yield?

Mr. STEIWER. Certainly.

Mr. SCHWELLENBACH. May I ask the Senator who it was that paid the expenses of Mr. Pryor's trip to Texas?

Mr. STEIWER. Mr. Judge, as I have just explained.

Mr. SCHWELLENBACH. It was the Senator's idea that Mr. Judge would pay the expenses?

Mr. STEIWER. He told me he would undertake to see they were defrayed.

Mr. CONNALLY. Mr. President, who is this strange Mr. Judge?

Mr. STEIWER. I do not think he is strange. Why does the Senator say he is strange?

Mr. CONNALLY. We cannot find out who he is. Who is he and with what organization is he connected and who is paying him and what is he doing now?

Mr. STEIWER. Mr. Judge is a man I have known for some months. He was himself an investigator at one time. I do not know that I know his history.

Mr. CONNALLY. What is he doing now?

Mr. STEIWER. He was commended to me by a number of gentlemen of my acquaintance.

Mr. CONNALLY. If the Senator knows him so well, will he not please tell us in whose employ he is?

Mr. STEIWER. I do not know him so well. I do not know in whose employ he is.

Mr. CONNALLY. If the Senator wants us to be frank with him, he ought to be frank with us. I would not want to associate with a man and accept his statements and take him into my confidence, and neither would the Senator from Oregon, I am sure, if I did not know something about who he is and where he is from and who is paying him and what he is doing. Will the Senator tell us?

Mr. STEIWER. Mr. Judge has not anything to do with these affidavits except to defray the expenses of Mr. Pryor and another man to get these affidavits. Because I did not have full knowledge of the persons getting the affidavits, I went confidentially to an employee of the Agricultural Adjustment Administration to find out if they had reports on irregularities in Texas, and I was told that they did have such reports. I then went to the Comptroller General of the United States, I took the information to him, and the Comptroller General told me the information was consistent with information which he already had respecting very many areas in the cotton-producing section of the South.

Mr. BLACK. Mr. President, did the Senator state that he does not know who was paying the money to Mr. Judge or for Mr. Judge?

Mr. STEIWER. I do not know. I could guess at it.

Mr. BLACK. Who was it?

Mr. STEIWER. The Senator has not asked me to submit a guess.

Mr. BLACK. Why not tell us? Who was it?

Mr. STEIWER. He has asked me to say whether I knew, and I told him very truthfully that I do not know.

Mr. BLACK. The Senator has no judgment on it?

Mr. STEIWER. The Senator did not ask me that. If the Senator wants me to speculate upon it, I have no doubt that Mr. Judge is financed in this matter by people who want to disclose the facts——

Mr. BLACK. By what people?

Mr. STEIWER. In connection with this matter.

Mr. BLACK. Who are the people?

Mr. STEIWER. I have no doubt people interested in the campaign.

Mr. BLACK. Is it the Republican National Committee?

Mr. STEIWER. I do not know that.

Mr. BLACK. Is that the Senator's judgment?

Mr. STEIWER. I believe Mr. Judge is identified in some way with the Republican National Committee.

Mr. BLACK. It is not the Lemke committee, is it, the Union Party committee? The Senator knows that?

Mr. STEIWER. I would not think that.

Mr. BLACK. May I ask the Senator in all fairness if they did not send up to him with those affidavits a statement which he has right there now, on yellow paper, giving a summary of the remarks——

Mr. STEIWER. No.

Mr. BLACK. With a statement as to the number of the cases of fraud, and so forth, and if that did not come from the Republican National Committee publicity headquarters.

Mr. STEIWER. No; it did not. That came from Texas, by mail, from the investigator, and the yellow paper I made myself in my own office, based upon the information that was disclosed to me.

Mr. SCHWELLENBACH. Mr. President, will the Senator state whether or not Mr. Kirby, of the Save the Constitution for the South committee, had anything to do with it?

Mr. STEIWER. I do not think so. I do not know Mr. Kirby, have had no dealings with him, and have no reason to believe he has any interest in the matter at all.

Mr. BILBO. Mr. President, will the Senator yield?

Mr. STEIWER. I yield.

Mr. BILBO. Will the Senator give me the initials of Mr. Pryor, whom he is quoting so freely?

Mr. STEIWER. I have stated them three or four times. The initials are V. W. Pryor.

Mr. BILBO. He was formerly employed by the Agricultural Administration?

Mr. STEIWER. I have stated that also; yes.

Mr. BILBO. And he served the Department in Texas?

Mr. STEIWER. Yes, he did; and elsewhere, I think, also.

Mr. BILBO. This same Pryor came to my office last year and gave me a personal report of some irregularities in Texas in the administration of the agricultural service department and asked me my advice as to what he should do. I told him to report it to his chief. A few days after that I got a notice from him, or a telephone call. He was in jail in Washington and wanted me to go on his bond, and he was indicted by the grand jury of Missouri for embezzlement in handling money for the Government in connection with the Federal land bank. That is your man.

Mr. STEIWER. I am very much indebted to the Senator for that contribution. [Laughter.] That brings me to something which I ought to say in connection with this matter. I said a little while ago that I was not disposed to be critical of the Agricultural Department for their failure to stop these irregularities in certain parts of the South.

I say that yet. But there is one phase of this matter for which the Department of Agriculture may very well be criticized, and the contribution of the Senator from Mississippi makes it necessary for me to relate that phase.

After this investigator had made most numerous reports, and after a large number of investigators had examined the alleged irregularities in Texas, he was told that he must not continue. He claims that at that time he was not discharged. I do not know whether he was or not. He was told he must not continue, but elected to continue in what he was doing. Whereupon an indictment was brought against him. It was in connection with that indictment that he appealed to Mr. Hurley.

Mr. SCHWELLENBACH. Mr. President, will the Senator yield?

Mr. STEIWER. Yes.

Mr. SCHWELLENBACH. Is that Mr. Pat Hurley, who testified before our committee that he got $25,000 from the Associated Gas & Electric Co. for one telephone call?

Mr. STEIWER. I have related——

Mr. SCHWELLENBACH. Is that the same Pat Hurley who got $25,000 from the Associated Gas & Electric Co. for one telephone call?

Mr. STEIWER. The Senator cannot disconcert me with that kind of an interruption.

Mr. SCHWELLENBACH. Does the——

Mr. STEIWER. I will not yield. I ask for order. I want to say to my friend from Washington that in response to questions propounded before the Senator from Washington came into the Chamber I identified Mr. Hurley as the former Secretary of War.

Mr. SCHWELLENBACH. I should just like to say——

Mr. STEIWER. I will not yield to the Senator. I have identified Mr. Hurley. The Senator from Washington can ask me again, if he wants to, if this is Mr. Pat Hurley, former Secretary of War, and I shall be happy to answer the question, but when the Senator starts in, "Is that the Mr. Hurley who testified he got $25,000", of course, he is not seeking information, he is merely trying to arouse prejudice against Mr. Hurley. I am not going to deal with the Senator on that basis. When I sit down, of course, he can say whatever he chooses to say, but in my time I will not yield to the Senator for that kind of questioning.

Mr. SCHWELLENBACH. Mr. President, is the Senator willing to yield to me for just a little calm observation?

Mr. STEIWER. Certainly; I can do that.

Mr. SCHWELLENBACH. I should like to say to the Senator that I have the highest respect for the Senator from Oregon, and when the Senator from Oregon brings in serious charges about the conduct of the Agricultural Adjustment Administration, I am inclined to look with a serious viewpoint on them, but when I find that the source of the Senator's information comes from Mr. Patrick Hurley, who, since severing his connection with the Hoover administration, has been a lobbyist here representing those interests in this country which are most opposed to the welfare of the people of this country, I am rather surprised that the Senator from Oregon would have anything to do with anybody who was sent to him by Patrick Hurley.

Mr. STEIWER. Does the Senator think Mr. Hurley had anything to do with the preparation of these affidavits, or with their truth or falsity?

Mr. SCHWELLENBACH. Having heard his testimony, and having seen his conduct since he left the Hoover administration, I would say that if he had anything to do with it, it is not worthy of consideration by anybody, let alone the United States Senate.

Mr. STEIWER. At this hour I am not going to defend Mr. Hurley, though a great deal could be said in his defense. But so far as the affidavits are concerned, I am sure he has never seen them. His whole connection with the matter was to send Mr. Pryor to me.

I desire to state, in fairness to Mr. Pryor, the facts in connection with his relations with the Department of Agriculture. I had said at the time when I was last interrupted that he was told not to go further with his investigation. He apparently was not a thoroughly disciplined employee, and his disposition was to go much further than somebody wanted him to go. Whereupon an indictment was returned against him in the State of Missouri and I am informed by him, and by Mr. Hurley, and I think by one other, that this matter was referred to the Department of Justice, by Mr. Pryor himself, and that the Department of Justice investigated the situation in connection with this indictment, and after they made their investigation, they reached the conclusion that there was no justification for the indictment against this man, and it has been nolle prossed. I saw the telegram from the United States attorney advising that the indictment had been nolle-prossed.

Mr. BLACK. Mr. President, may I ask the Senator a question?

Mr. STEIWER. Yes.

Mr. BLACK. I must be mistaken. Is that the same man about whom I asked the Senator so much in the beginning? Do I understand that he knew he was indicted before the Senator from Mississippi so stated?

Mr. STEIWER. Yes; I knew he was indicted and that the Department of Justice nolle-prossed the indictment. It appears that some sinister influence caused his indictment, and I will say, in justice to the Department of Justice, that when the Department of Justice learned the facts, they promptly brought about the dismissal of the indictment.

I am not ready to condemn this man merely because some influence brought about an indictment in an unfair case. I plead with Senators not to try to exculpate the Agricultural Administration or this particular part of it merely by making charges against Mr. Pryor or against anybody else.

Mr. BLACK. Mr. President, will the Senator yield?

Mr. STEIWER. Just a moment and I shall yield. I desire to finish what I was saying. The charges which I bring to the bar of the Senate can all be investigated. Most of them have already been investigated by the Department of Agriculture. They may all be investigated. If they are false, the

Department of Agriculture has every facility for disproving the charges and to condemn me for making them. I pray my friends that they not seek to answer serious charges of this nature by seeking to discredit Mr. Pryor or anyone else, but that they do the thing that ought to be done, namely, urge the Department of Agriculture to make a full investigation and a full disclosure of the facts.

Mr. BYRNES. Mr. President, will the Senator yield?

Mr. STEIWER. I yield.

Mr. BYRNES. I never heard of Mr. Pryor before, but the Senator says he was indicted in Missouri. He was indicted, then, by a grand jury. Now the Senator says some sinister force caused that. What does the Senator mean?

Mr. STEIWER. I am unable to say more than I have said.

Mr. BYRNES. Then why does the Senator say it? When a grand jury composed of the citizens of a sovereign State indict a man, does the Senator from Oregon say that some sinister force caused the indictment without knowing anything about it or having any information about it?

Mr. STEIWER. Yes; because when the Department of Justice made their investigation—and they made a broad investigation, sending several investigators into the field—when they investigated it they almost immediately brought about the dismissal of the case.

Mr. BYRNES. That might be true, but the Senator from Oregon is not living up to the role in which we have known him when he says that a grand jury of a sovereign State indicted a man and afterward the case might have been nolle prossed by the district attorney; but the Senator from Oregon says some sinister influence caused it. Who caused it? Who does the Senator from Oregon want us to believe caused it?

Mr. STEIWER. I do not want to identify anyone in that connection. I do not know.

Mr. HASTINGS. Mr. President, will the Senator yield?

Mr. STEIWER. I yield.

Mr. HASTINGS. It is a perfectly simple proposition. If you are willing to lie, to go before a grand jury and make up a fabricated case against a respectable citizen, it can be done, and that, I suppose, is the sinister motive to which the Senator from Oregon refers.

Mr. STEIWER. I was not charging the grand jury with anything.

Mr. BYRNES. I knew the Senator from Oregon could not answer whenever it came to that, so it was necessary for the Senator from Delaware to step in.

Mr. HASTINGS. Mr. President, has the Senator from Oregon yielded to me?

Mr. STEIWER. Yes.

Mr. HASTINGS. I am wondering whether we are going to have order here. Will the Senator yield further to me for a moment?

Mr. STEIWER. Yes; I yield to the Senator.

Mr. HASTINGS. Will the Senator from South Carolina sit down until I shall say what I desire to say?

Mr. BYRNES. I am sitting down. Does not the Senator from Delaware see that I am sitting down?

Mr. HASTINGS. Mr. President, as I said, this is a very simple proposition, and I just wanted to make the suggestion to the Senator from Oregon if it had not occurred to him that if some person wants to prosecute another person and he is willing to go before the grand jury and make a false statement it is not difficult to secure an indictment. I agree with the Senator from Oregon that it is to the credit of the Department of Justice that they dismissed the case when they discovered there was no foundation for the indictment.

Mr. SCHWELLENBACH. Mr. President, will the Senator yield that I may ask the Senator from Delaware a question?

Mr. STEIWER. I yield.

Mr. SCHWELLENBACH. I should like to ask the Senator from Delaware if he knows anything, to his own personal knowledge, about the facts in this case?

Mr. HASTINGS. Do not ask me a foolish question.

Mr. SCHWELLENBACH. Well, if the Senator from Delaware has no personal knowledge about the facts in the case, and yet comes to the assistance of a Senator not being able to answer the question, I think there is only one conclusion we can draw in reference to the method of conducting grand juries in the State of Delaware.

Mr. STEIWER. Mr. President, I have brought to my friends across the aisle all the concern that I want to bring to them about this matter; but I wish to say—and I hope they will take seriously the suggestion which I make to them—that a charge of this character cannot be laughed off or dissipated merely by criticism of Mr. Pryor. He happens to be the person who made it possible to get a lead into the facts of these cases. I say, in conclusion, that these affidavits tie in with each other. They support and corroborate each other. They support and corroborate certain reports that have been made to the Department of Agriculture, and support and corroborate the reports made by Mr. Pryor himself, all to such extent that I think, upon my responsibility as a Senator, they ought to be brought to the attention of this body. Because I learned of them only in the last 2 days I was not permitted to do what I should like to have done.

I think it would have been in order to have asked for an investigation. It would yet be in order, if time and the temper and patience of Senators would permit, for the Senate to adopt a resolution asking the Secretary of Agriculture to transmit to the Senate all these reports, and requesting him to make the necessary investigation and report to the Senate.

We have a responsibility to those who pay the taxes and to those who raise the funds. We have a responsibility when we embark upon a program of farm relief to see that the money goes to the people for whom it is intended. It is not worthy of us nor in keeping with that responsibility to attempt to dodge the facts alleged in this case by making criticism either of Mr. Pryor or of the very humble junior Senator from Oregon.

Mr. CONNALLY. Mr. President, will the Senator from Oregon let me have his affidavits and papers so that I may inspect them?

Mr. STEIWER. I will be glad to let the Senator have those from which I read. I think I will keep those which I did not read.

Mr. CONNALLY. Does the Senator have something he wants to conceal from the Senate?

Mr. STEIWER. Oh, no.

Mr. CONNALLY. He wants an investigation. He wants the Senate to know everything. Yet he does not want to give the Senator from Texas all the affidavits.

Mr. HASTINGS. Does the Senator from Texas promise to support a request for an investigation if the Senator gives him all the affidavits?

Mr. CONNALLY. I have not yielded to the Senator from Delaware. I request him to take his seat until I do.

Mr. HASTINGS. I beg the Senator's pardon.

Mr. CONNALLY. I would not have made that remark except that the Senator from Delaware was so anxious to have the Senator from South Carolina take his seat after he had taken the floor to make some remarks.

Mr. BYRNES. The Senator from Texas will remember that the Senator from South Carolina was seated. The Senator from Delaware could not see him.

Mr. CONNALLY. Mr. President, if the Senator from Oregon will be good enough to give me those affidavits, I shall be very happy to have them.

Mr. STEIWER. I am not going to give them to my friend from Texas, but I will be happy to let him see them. I will send over most of those I read and others. They are all attached together.

Mr. CONNALLY. I should like to have also the yellow sheet which the Senator has there. I think the yellow sheet is an advance press report of the Senator's speech. I cannot read it until morning and I should like to see it now.

Mr. President, some nights ago, with a very palpitating heart and stimulated intellect, I listened over the radio to the great keynote speech out at Cleveland by the junior Senator from Oregon. I suppose that this is the second edition, the second chapter, of the great Republican attack on the Democratic administration. What does it consist of, so far as we can tell? It consists of certain affidavits submitted by the junior Senator from Oregon, procured how? By a discredited and discharged employee—I think I am warranted in saying that, because the Senator from Oregon said it was a former employee—a discharged and discredited former employee going around to the Republican National Committee, or one of its minions—Mr. Judge—I do not know who Mr. Judge is.

Mr. BLACK. Mr. Jones.

Mr. CONNALLY. I thought he said Judge. I am getting to Jones in a minute. I do not know who Mr. Judge is, but the Senator from Oregon does know who he is. If he does not know who he is, he ought not to stand up here in the Senate and quote him before Senators and thereby vouch for him.

Mr. STEIWER. Mr. President, I did not quote him. He had nothing to do with these affidavits. He was not even there when they were made. He transmitted them to me.

Mr. CONNALLY. But Mr. Judge is the man who defrayed the expenses for getting them.

Mr. STEIWER. I think he will defray the expenses.

Mr. CONNALLY. He is not interested; he is just simply a patriot, desirous of getting information, and now he is going down in the South and paying money for that information. This snooper trying to snoop around over my State, trying to discredit the people of Texas and the administration of the A. A. A. Act.

That is a sample of the great statesmanship we are going to see exhibited by the keynote speaker of the Republican convention at Cleveland. He said these affidavits all tied into each other. I think he is correct. I think they do. Whenever I find a dozen affidavits all subscribed and sworn to before the same notary public, written on the same typewriter, dictated by the same dictator, I know they are all going to tie in very beautifully and very properly. That is what we have here.

Who is the notary public?

Hazel Morgan, notary public in and for Nacogdoches County, Tex.

They switch off and get a Mr. Phillips over in St. Augustine County, but all the affidavits in Nacogdoches County are made, so far as I can tell from the affidavits, before Miss Hazel Morgan—Hazel Morgan, Hazel Morgan, Hazel Morgan, J. A. Phillips—whenever they cross a county line in my State they have to get a new notary public—Hazel Morgan, J. A. Phillips, Hazel Morgan. In Shelby County they had D. M. Alvord.

The burden of this complaint seems to be that there is some objection to the cotton-exemption certificates being sold by one farmer to another. As a matter of fact the Department of Agriculture expressly authorized and directed the sale of the exemption certificates from one farmer to another. In other words, if I had exemption certificates for 10 bales of cotton and I needed but two or three, I was permitted to sell the remainder to another farmer who had raised more cotton than he had exemption certificates for, and the Department of Agriculture expressly approved such sales in all cases.

Mr. HATCH. Mr. President, will the Senator yield?

Mr. CONNALLY. I yield.

Mr. HATCH. Out in west Texas in the panhandle country, during the time the Bankhead Cotton Act was in effect, is it not true there was quite a drought all over that part of Texas?

Mr. CONNALLY. To be sure there was.

Mr. HATCH. Is it not also true that about the only money those cotton farmers got in that part of Texas was what they received from the sale of their exemption certificates?

Mr. CONNALLY. To be sure. A farmer might have certificates for 10 bales of cotton and only raise 2 bales, so he would have eight certificates for sale. The Department of Agriculture, in order to adjust the equities, would permit him to sell those eight certificates to some other farmer who needed them.

Mr. SCHWELLENBACH. Mr. President, will the Senator yield?

Mr. CONNALLY. I yield.

Mr. SCHWELLENBACH. I wonder if the Senator knows who "F. S." is. Apparently there is somebody who had to approve the various affidavits before the junior Senator from Oregon was permitted to use them.

Mr. STEIWER. Is my friend from Washington seriously disturbed about that? "F. S." are my own initials. Some of those affidavits I expected to read and some I did not, and on these I expected to read I placed my initials.

Mr. SCHWELLENBACH. I notice the list runs to 110–C, and the Senator only approved a few. Did they run all the way from 1 up to 110? What became of the ones the Senator did not read?

Mr. STEIWER. I do not think I read them. I just put my initials on them.

Mr. CONNALLY. Did the Senator from Oregon send over the yellow sheet?

Mr. STEIWER. That is my own memorandum, but I have no objection to sending it to the Senator.

Mr. CONNALLY. I thank the Senator from Oregon. I really believe that if the witnesses he seeks to quote and Mr. Judge and Mr. Jones were as frank and open as the Senator from Oregon has been we would get at the truth of this matter.

(At this point Mr. STEIWER sent a paper by a page to Mr. CONNALLY.)

Mr. CONNALLY. Mr. President, the Senator from Oregon has done me the kindness to send to my desk a yellow sheet—just a yellow sheet—entitled "Summary of Charges Contained in Statement by Senator STEIWER, United States Senate, June 20, 1936." It reads as follows:

The true conditions assigned by the President (see message to Congress, Mar. 3, 1936) are both overstatements.

Mr. STEIWER. Mr. President, will the Senator permit an interruption at that point?

Mr. CONNALLY. Certainly.

Mr. STEIWER. I read most of that into the RECORD just at the beginning of my remarks. I departed from a little of it, and part of it I read from literally. It is all in the RECORD.

Mr. CONNALLY. Mr. President, it is very difficult to ascertain just what the Senator from Oregon proposes to charge in these affidavits. They are very voluminous and I shall not weary the Senate by reading them.

The Senator from Oregon himself, as I understood him, said the Comptroller General had advised him that most of the cases involved no fraud whatever upon the Government. Is that correct?

Mr. STEIWER. The fraud on the Government was incidentally due to loss of taxes, and in some few cases, where there was a nonexistent farm or a non-existent farmer, then the claim became a fraudulent claim against the Government. Where the claim was valid and where the certificate was issued to a farmer and was a valid certificate, there was no fraud upon the Government.

Mr. CONNALLY. Mr. President, we have here the spectacle of the Senator from Oregon making a big disturbance and big complaint about the administration of the A. A. A. Act when he admits that, so far as he knows, it involves no fraud on the Government of the United States. I suppose his contention is that there were fraudulent transactions between the landlord and the tenant which are the subject of State jurisdiction and, I assume, of State prosecution. I know, however, the Federal Government did send to the State of Alabama, I believe it was, a year or two ago, investigators who brought about several indictments involving the administration of the Agricultural Adjustment Act, and those people were prosecuted. If there is no fraud on the Federal Government, what business is it of the Federal

Government to go out and try to make a disturbance and make a row here about this matter? Where is there any Federal responsibility? If the Government of the United States had not been defrauded, it is not the business of the Federal Government to undertake to prosecute private transactions.

The whole plot and plan as revealed by the Senator from Oregon proves that this is an agitation which has been manufactured. Why did he select certain counties in Texas? Why did he not select some counties in Oregon? Why did he not select some counties in Kansas? He selected a group of counties in Texas and states he got the information through procuring the services of so-called former investigators, one of whom was indicted, as it is now revealed, in Missouri for a criminal offense. The Senator from Oregon knew that when he made these charges. He knew that his witness had been indicted, but he did not reveal that fact to the Senate until the corkscrewing operation of the Senator from Mississippi.

Now, let us see. I want to see one of these affidavits. Here is the affidavit of A. V. Little. I will just take one at random:

STATE *of* TEXAS,
County of Nacogdoches:
Personally appeared before me, the undersigned, A. V. Little, who, first being duly sworn, deposes and says—

I may observe that this affidavit has the letters "O. K." on the top of it. That has passed the censor. This affidavit will do. [Laughter.] This affidavit is good politics for the Republican organization. This affidavit has the approval of the high command in this campaign.

Now, what is the great crime?

During the month of July 1933 we had an awful flood in our section of the county—

Well, up to that point I think the affidavit probably is true. [Laughter.]

which practically destroyed my cotton crop. After the destruction of the cotton by the flood, I made a supplemental contract which, in addition to the original contract, totaled 50 percent of my cotton acreage. I did not receive a notice to plow the cotton up—

Well, if he did not make any cotton, what was the sense in plowing it up? He says he did not make any cotton—

and did not know whether or not my contract would be accepted, so when the cotton opened I picked it and sold it. After I had sold the cotton my Government check came, which, as well as I remember, amounted to about $20.

Twenty dollars! Why, that would not have paid the fees of this notary public for taking these affidavits. It would not have paid the cigar bill of Mr. Pryor while he was securing these affidavits. It would not have paid the help for one dinner party given by Mr. Patrick J. Hurley, former Secretary of War, and late lobbyist for the utilities. If what the Senator from Alabama says is true, Mr. Hurley ought to come under the excess-profits tax. [Laughter.] We are told he got $25,000 for one telephone call in connection with the utilities. Now he is complaining because some little tenant down in Texas got $20. [Laughter.]

After I had sold the cotton, my Government check came, which, as well as I remember, amounted to about $20. I did not want to take the check, because I had sold the cotton.

The Senator implies that these checks were not tendered to these people; that they had no opportunity to get them.

I did not want to take the check, because I had sold the cotton. Mr. Rhodes, community committeeman, and Mr. T. F. Powers, Altoyac, Tex., were present, and they told me that it was given on the basis of the flood and would be absolutely all right to accept the check, so I did.

I bought about 100 pounds of seed cotton at about 5 cents per pound, totaling $5, and the check I received from the Government was for about $20, from Aster Langford, Altoyac, Tex., and I plowed it under in my own field in the presence of Eugene Rhodes, local committeeman.

I had no intention of defrauding the Government when I accepted the check and followed the instructions of our community committeeman, who, we thought, knew the rules and regulations of the program. My intention was to cooperate with the Government program to the best of my knowledge.

Mr. President, if that is a fair sample of these affidavits, who has committed a crime? Here is a poor tenant farmer. He gets a little Government check for $20 after the floods had come and destroyed his crop. Twenty dollars was the contribution of the Government. He goes to the committeeman who is the official administrator of the act in the county and says, "I do not know that I am entitled to this $20. I do not want it." The committeeman says, "Yes; you are entitled to it." He finally takes it, and he spends $5 for cottonseed to plant another crop, I suppose, and he gets $15 of the Government's money. That is this affidavit. That is this serious charge which the Senator from Oregon brings against the A. A. A. These are the indictments that the keynoter of the Republican Party lays at the door of the Democratic administration.

Mr. President, they are childish. Think about it. The party of Mr. Fall, carrying $100,000 in a black bag from New York down to Washington, finding lodgment in the precincts of the Government itself, finding lodgment in the Cabinet—the party of Mr. Fall is outraged because a poor, humble tenant down in Texas gets $20 from the Government in the open for carrying out the A. A. A. Act, with the county committee approving it, with all the world knowing it. The acceptance of that $20 is a fraud and a crime, but taking $100,000 in a black bag in the dark, behind the door, where no one sees it, is a great act of statesmanship. [Laughter.]

Talk about enforcing the law, complaining of the Department of Agriculture because it does not prosecute some little, humble tenant who got $20 in broad daylight in the county courthouse from the public administrator of the act, who told him he was entitled to it, and who spent it for some food and perhaps for some humble clothing! That is a crime on the part of the Department of Agriculture; but a Department of Justice presided over by a malodorous Attorney General in the person of Harry Daugherty can forgive crooks, he can vacate offenses, he can pardon before trial the infractions of the criminal and civil laws of the United States; yet this, this, is a great crime! A great crime because some tenant got $20 and did not give part of it to the Republican National Committee! [Laughter.]

Now, Mr. President, I desire to lay down some interrogatories. I am going to find out who this man Judge is. I want to know, and I ask the newspapermen to take out their pencils and help us get some information. Find out who this man Judge is, and who is paying him. For whom is he working? Where is this man Pryor tonight? Who is paying him?

The Senator from Oregon says Pryor was getting $1,620 in the Department of Agriculture—$1,620—and after he lost his job the Senator from Oregon says it is his impression and belief that this man made the trip down to Texas to investigate these cases at his own expense. At his own expense! A $1,620 clerk, with his job gone, reaches down in his pocket and gets out the money he has saved over the years at $1,620, and goes down to Texas as a patriot and as a public benefactor!

Ah! We know who paid his expenses. I do not know the individual. I do not know the particular dollar. We did not mark the money; but we know that somebody in the pay of those particular interests now busy in this campaign, particularly concerned with discrediting the administration and getting back once more into power themselves, furnished the money and supplied the sinews.

The Senator from Oregon did not have the boldness to deny that. He admitted a while ago, in answering the Senator from Alabama, that he suspected that this matter would get into the campaign. He "suspected" it would get into the campaign! Well, if it does not get into the campaign any more effectively than the speech of the Senator from Oregon out at Cleveland did, it will not get very far in the campaign. [Laughter.]

Now, let us see about the position of the Senator from Oregon on this farm situation.

Pryor is under indictment. I wonder who got the indictment dismissed. I wonder who quashed it. The Senator

from Oregon says that certain sinister influences got him indicted. The Senator must know all about the case, or he would not make a charge that sinister influences had him indicted.

What were those sinister influences? Who were they? It is a great crime in the eyes of the Senator from Oregon for this little tenant to openly accept $20 with the approval of the committee and the approval of the Government; but because somebody who is doing the dirty work for the Republican national committee gets indicted, his indictment was brought about by "sinister influences", just as Fall's indictment was brought about by sinister influences.

Let us see about this. The Senator from Oregon is not in sympathy, anyway, with the agricultural program. He never has been in sympathy with it. The Senator from Oregon has been an enemy of the Agricultural Adjustment Act.

Mr. STEIWER. Mr. President——

The PRESIDING OFFICER (Mr. LA FOLLETTE in the chair). Does the Senator from Texas yield to the Senator from Oregon?

Mr. CONNALLY. I yield.

Mr. STEIWER. The Senator has probably forgotten that I have been for many years a supporter of agricultural relief. I was a supporter of the McNary-Haugen bill. I voted to pass it over the veto of a Republican President. I supported agricultural relief in still other respects. If the Senator knew the record, he would not say I was an enemy of agricultural relief.

Mr. CONNALLY. I did not say the Senator was an enemy; I said he was not in sympathy with the A. A. A. Act, and I repeat it.

The Senator says he voted for the McNary-Haugen bill. Yes; he voted to pass it over the President's veto. It is easy to vote for something one knew the President is going to veto, and easy to vote to pass it over his veto, when one knows there are not enough votes to pass it over his veto.

Mr. STEIWER. Will the Senator yield again?

Mr. CONNALLY. I yield.

Mr. STEIWER. Incidentally, I voted for the Triple A also.

Mr. CONNALLY. The Senator from Oregon voted for the Triple A?

Mr. STEIWER. Indeed I did, and when I know what I do now about its administration, I am not so proud of the vote.

Mr. CONNALLY. I would like to verify that report. I cannot believe that the Senator from Oregon voted for this nefarious, this unconstitutional, this outrageous A. A. A. Act.

Mr. BYRNES. Mr. President, will the Senator yield?

Mr. CONNALLY. I yield.

Mr. BYRNES. That was last year.

Mr. CONNALLY. Oh, it was 2 years ago.

Mr. BYRNES. Two years ago. It was not an election year. In an election year the Senator could not vote for the agricultural program.

Mr. CONNALLY. Mr. President, we have marvelous conversions. Men who grow intellectually change their views. A man who never develops any gets a little idea in his early youth. It never burgeons into a great plant, but he just grows along thinking the same thing. Anybody can do that. But it takes a broad-minded man to develop and change his views and grow.

There is a little bee that buzzes around the heads of statesmen. I have seen it ruin many a good Senator. [Laughter.] When that little bee, with its seductive buzz, with its seductive voice, and a rather caressing stroke, the little bee of the Vice Presidency or the Presidency, begins to tickle the ear of a Senator, he may from then on be a great statesman, but as a Senator "he ain't worth a damn." [Laughter.]

When the Senator from Oregon was just a plain Senator, when he was content to serve the people of Oregon primarily, and the people of the Nation only incidentally, when he was devoted, as he has been through the years, to the interests of the farmer, voting for the McNary-Haugen bill every time he thought it had no chance to pass, making strong speeches to the farmers out in Oregon, when he had a chance in 1933 to redeem the pledges he had made, simply a Senator from Oregon, he walked up to the bar of the Senate and voted for the A. A. A. But that was in 1933. Time moves rapidly in these modern days. We are no longer in the "horse and buggy" period. We are living in the period of the airplane. Men travel rapidly. Their careers expand rapidly.

In 1936, with bees buzzing all around [laughter], a statesman's vision must expand as his opportunities to serve expand. So I understand the mental processes by which the Senator from Oregon, representing a little ranch State, a little agricultural State, comes to the conclusion that America is not made up of just ranches and farms, that it is made up of great industries, made up of great cities, made up of world commerce. A man fit to be President or Vice President of this Nation must rise above provincialism, and must not represent one industry alone, that of farming and agriculture. So he condemns the act.

Here are his words out at Cleveland:

> What has the administration done to agriculture?

This is the friend of the farmer speaking, this is the man who voted for the act, who knew it was unconstitutional, of course, all the time. The Senator from Oregon did. But his zeal for the farmer and his desire to go along with the new administration were so overwhelming that he disregarded the fact that it was unconstitutional.

The only fault I have to find with the Senator from Oregon is that he ought to have told some of us that it was unconstitutional. Out at Cleveland it was unconstitutional. When he voted for it in 1933 it was not unconstitutional. Out at Cleveland in 1936 it was unconstitutional.

This is what he said:

> They made worse—

And this, I suppose, is what he is talking about tonight, in connection with these affidavits.

> They made worse the Triple A program by maladministration, by making food costly and scarce.

Whenever you tell me how you are going to help the farmer get more for his corn and his wheat and his hogs and not make them cost more to the man who eats them, the consumer, then I will subscribe to the doctrine of the Senator from Oregon. He is complaining in 1936 that the A. A. A. did work, that it made what the farmer raised cost more, and he is now complaining that the consumer had to pay a little more for it. This is the friend of the farmer speaking, speaking as the mouthpiece of the Republican Party.

If the Senator from Oregon knew that this was a destructive act in 1933, why did he vote for it? He would not vote for it for political reasons, he would not vote for it because he feared the wrath of the farmers of Oregon; oh, no. He is a statesman. He rises above these petty issues. But if it was destructive in 1933, why did the Senator from Oregon vote for it then and denounce it at Cleveland in 1936. I suspect the Senator from Oregon, like this fellow judge, had been talking to Patrick J. Hurley, and some of the other Republican influential figures.

The Senator from Oregon voted for the N. R. A. in 1933—voted for the National Recovery Act. I did not even have courage to vote for the N. R. A. I am over on this side of the aisle, and I had to vote against that, but the Senator from Oregon in 1933 voted for the National Recovery Act—the N. R. A.—and in 1936, out at Cleveland, the same Senator from Oregon, but with a different voice and with a different outlook and with a different pair of ears, denounced the N. R. A. as unconstitutional and as a terrible measure.

Is that all? If I am not correct in these references to votes, I shall be glad to be interrupted by the Senator from Oregon. By what sort of magic does the N. R. A. in 1933 prove itself a great agency for the rehabilitation of America and industry and in 1936, when cold winds begin to blow through the political trees out in Oregon, it becomes an

object of anathema and scorn and denunciation and repudiation by the Senator from Oregon?

Mr. STEIWER. Mr. President, will the Senator yield?

The PRESIDING OFFICER. Does the Senator from Texas yield to the Senator from Oregon?

Mr. CONNALLY. I yield.

Mr. STEIWER. I think the Senator is not fair in suggesting that it is magic that changed the attitude of the country toward some of these things. Many of us attribute it to the decision of the Supreme Court of the United States which we hold in respect and which we do not characterize in terms of magic.

Mr. CONNALLY. Is the Senator still for the N. R. A.? Suppose it were constitutional, would he still be for it?

Mr. STEIWER. No.

Mr. CONNALLY. No; not since the decision of the Supreme Court?

Mr. President, the Senator from Oregon said that he attributed the change in attitude to the decision of the Supreme Court. Then, I asked him was it that which changed him and did he still believe in the N. R. A., and he has said that he does not believe in it now even though it were constitutional. So it was not the Court that changed the attitude of the Senator from Oregon. What changed his views from 1933 to 1936 except this great broadening expansion of the statesman's viewpoint when the bees begin to buzz around political ears. [Laughter.]

Mr. President, I have a memorandum here—and if I am in error I want the Senator from Oregon to correct me—showing that the Senator from Oregon voted for the Banking Act of 1933. The Banking Act of 1933 was sponsored by the administration, and enacted in an effort to resurrect the crumbling and shattered and broken financial structure of America; but after it had worked for 3 years, after it had survived all the strain and stress of emergency administration, after it had proven a success and saved the banks of America, then at Cleveland the Senator from Oregon denounces the administration's financial operations.

What wrought this wondrous change? If it is not magic, by what kind of intellectual alchemy did this transformation of the mental processes of the junior Senator from Oregon take place since they present a totally different aspect in 1936?

I am told that the Senator from Oregon voted for the Municipal Bankruptcy Act. If I am in error, I desire to be corrected. The Municipal Bankruptcy Act was also declared to be unconstitutional. Is that another case where the decision of the Court changed the mind of the Senator from Oregon? I suppose he would still be for it if it were constitutional, but at Cleveland he denounced the Roosevelt administration for practically everything that has been done by it since 1933.

I am informed that the Senator from Oregon voted for the social-security bill, and if I am in error as to that I shall be glad to be corrected. The social-security bill was a measure sponsored by the administration designed to take care of the aged, and to provide unemployment insurance for the unemployed. It was great in conception, noble in its vision, and, I believe, in realization it will be one of the most outstanding achievements in social legislation; and yet the Senator from Oregon, at Cleveland, turned his hand against the achievements and accomplishments of this administration, though, so far, he has voted for practically all the outstanding acts of the administration.

Oh, but, Mr. President, if these acts were vicious, if they were unconstitutional, if they were unsound, if they were destructive of the fundamentals of American liberty, if they were destructive of our institutions, why did not the Senator from Oregon rise in his place here, and with only a fraction of the vehemence and eloquence and zeal and frenzy that he showed at Cleveland, advise the Senate as to the obnoxious and destructive qualities of these enactments?

Mr. President, here is what the Senator confesses: The Senator from Oregon knew that somebody in that convention was aware of his record; the Senator knew that he could not get away with that broadside against the administration without somebody's digging up some part of his record. Here is what he said:

The failure of the New Deal cannot be attributed to Republican obstruction. In the beginning of its administration, Republicans in Congress forgot politics in their desire to cooperate.

Mr. President, if it was patriotic in 1933 for Republicans to forget politics in order to help put over a program to rehabilitate America, when did it become patriotic to vote for those measures and lie in wait behind the corner and seek to assassinate the administration which brought them into being? It was patriotic, so the Senator says, in 1933 to forget politics. They did not forget it long—not the Senator from Oregon. Some of them did, but the Senator from Oregon forgot it no longer than he could begin to perceive a certain rising feeling among the disaffected and among those who oppose the administration. When he saw a little flicker of light, a little ray coming up over the horizon, that offered political victory against the New Deal, against the present administration, then he began to think of politics again when he heard that little bee buzzing around and whispering in his ear.

Mr. CLARK. What bee?

Mr. CONNALLY. The Senator from Missouri wishes to know what bee? The Vice Presidential bee. [Laughter.]

Here is what the Senator from Oregon said:

In the beginning of its administration—

Yes; just "in the beginning", but as we were well started, as soon as we did the necessary work, as soon as we put our program pretty well over, then they quit us, and so did the Senator from Oregon. Here is what he says:

The suffering caused by depression affected all in authority regardless of party.

Think of it! The Senator from Oregon in 1933 was thinking of those who were suffering; he was thinking of those who were crushed, bruised, and broken by the depression; he was thinking of the fortunes that had been wiped out; he was thinking of the ruined banks; he was thinking of the deflated farmer; he was thinking of the unemployed; and his heart was bleeding for the suffering—

The suffering caused by depression affected all in authority regardless of party—

Including the Senator from Oregon. Now, think of it! Here is his personal confession, and it is "good for the soul", so we are told, to confess now and then.

In my own case—

Listen to these solemn words of the Senator from Oregon, standing in the very sanctuary of his party, standing before the great microphone of his party; standing where the floodlights of that great convention hall played upon him, with the chairman of the national committee not far away, catching his words, listening to his intonations, searching out his language, like the father confessor in the private booth, to see if he was sincere. What does the Senator say?

In my own case, I threw aside partisan considerations and voted for some—

"Voted for some"—

of the temporary measures to meet the emergency. In varying degrees we subordinated our personal and partisan views to support the national program.

That is a splendid confession; that is a marvelous admission; that so long as his heart was bleeding for the suffering, so long as he was thinking of the farmer, so long as he was worried about the unemployed, he was big enough and brave enough and good enough to forget politics, but as soon as millions of the unemployed are reemployed, as soon as the farm prices rise again, as soon as the banks reopen, then he revives his politics and comes out and assaults the program which he helped to establish.

What kind of political morality is that? The Senator is talking about a little tenant farmer who got $20 from the A. A. A. with the sanction of his county committee and with the sanction of the Government, in broad daylight. I

would compare the morality of that transaction with the political morality of those who espouse a program and vote for it on the ground that to do so is patriotic and statesmanlike, and forgetful of party consideration, and then after the program is put over, for the sake of politics, for the hope of a little office, because of ambition to climb up another round on the ladder, turn against the program they had embraced, forget their patriotic desire to rise above partisanship, and go to sniping the forces of the administration and the forces who put over the program. I will compare my little, humble, obscure, tenant farmer down in Texas with the mighty political figure that makes a solemn admission of that kind of political conduct and political morality.

I wish I had the speech of the Senator from Oregon that he made at Cleveland. He was the man who charged that President Roosevelt, now in the White House, had no political conscience. I was surprised. I was shocked. If someone can resurrect from the wastebasket the speech of the Senator from Oregon I should be glad to have it handed to me. I should like to quote the language used by the Senator from Oregon with regard to the President of the United States. He said the President was without conscience. I shall compare the conscience of the President of the United States, who has stood for these measures, who believes in them, who is sincere in his belief, with the kind of political morality of those who voted for the measures because they were afraid not to vote for them, and then when the danger was past and when they listened and thought they could come out of the woods into the open, turned around and assaulted the program and the leader under whose banner they were marching 3 years ago.

Mr. President, those of us who have lived in the West remember when a drought came and the water holes all dried up. The cattle became poor for lack of grass and the little water that was left was insufficient. The old emaciated cattle would crowd in and frequently become bogged. I remember as a boy that I aided my father, with a span of mules, by going down to the old water hole and putting a rope around an old cow's horn, hitched a pair of mules, and pulling her out of the bog hole. Of course, she was a wild cow on the range. Almost without exception as soon as she got out on a smooth piece of ground again and back to safety, instead of showing appreciation for the saving of her life, she turned her horns upon her rescuer and sought to gore him to death. [Laughter.]

That is the situation of the Senator from Oregon. He and his party, along with some other Americans, were in complete collapse in March 1933. They were suffering more than we were, because they had more to lose than we had. They had most of the money. They were suffering. The reign of their leader had come to an end. Like Joe Louis in last night's engagement, after the first 4 months of the Hoover administration he never remembered anything else until March of 1933. [Laughter.]

Mr. Hoover was in a fog. He was in a maze. He knew not what to do. He wandered aimlessly in the great confusing, complex, amazing mass of problems which pressed upon him. The Republican Party was leaderless and nearly all of them ruined financially. Many of them had just been defeated for office in November 1932. They were glad to grasp Roosevelt's coattails. They were glad to have a leader, and so they embraced the program—or many of them did. There was none closer to the coattails of the President than the Senator from Oregon. He got just as close to the President's coattails as he could, and some say he got under the President's coattails. [Laughter.]

Mr. President, that was the attitude of many of the Republicans. They supported the President. They were great men. They were not puny little politicians. Anybody can be a puny little pale-faced anaemic politician. Anybody can be that kind of a creature, but it takes a great man to be a statesman, to rise above party, and to look out over the broad horizon that reaches from the morning to twilight. They followed the President, and when we put over the program, when we saved the farmer and put him back into some degree of prosperity, when we increased the value of corporate stocks from $19,000,000,000 to $51,000,000,000 in 3 years, when we added values to the quoted stock sufficient to pay the entire public debt, when we saved the homes and the farms of the people of America, when we opened the closed banks and put them on their feet, when we gave their depositors a program of insurance of their deposits so that whenever a man puts money in the bank he knows he will get it back, when we regulated the stock exchanges, when we provided securities supervision to protect the orphans and widows from the blue-sky manipulators and robbers, when we got the country back on its feet, the Republican senior Senator from Oregon then emerged. Many Republicans were sincere. Most of them are pretty good people. Most of them meant what they said. The Senator from Oregon came out of his shell hole when the storm had passed and when the program was over. He came out of his shell hole and then began to snipe and assault and attack the President and his administration in the rear.

Mr. President, I cannot read all of these affidavits. I denounce them as being the product of a conspiracy, a conspiracy by certain interests here in Washington, a conspiracy that has fructified into a plan whereby a former discredited and, I hope, despised employee betrayed his employer—if there is anything I despise it is a man who in a confidential relationship secures information by reason of that relationship and then when he is discharged, when he loses his job for disloyalty or inefficiency, goes around for the sake of money, like a cringing beggar to interested parties, and offers to sell for gold the sacred information that he received in a confidential relationship. That avowedly is the kind of witness the Senator from Oregon brings here, a discharged employee, paid by sinister interests—and that is the term used by the Senator from Oregon—sinister interests, paid by sinister political interests, to snoop around and get a little political ammunition for use in the pending Presidential campaign.

Let me say to the Senator from Oregon in closing, wherever you find one case of wrongdoing in the Agricultural Adjustment Act, you will find 100 poor farmers who have been benefited and lifted up from the very dregs of poverty, where they had lost hope. You will find a hundred of them that praise the Administration and lift up their voices in praise of the results of the actions of the Administration. Wherever you find one little sneaking, disloyal employee, you will find a thousand ranchmen and bankers and businessmen ready to testify that the Administration and the Government and the President have rendered them outstanding service.

Mr. President, I apologize to the Senate for consuming so much of its time, but I thought it was warranted in resenting this attack by the Senator from Oregon—this childish, puny, pale-faced, discredited attack because some little tenant farmer got $20 to which he was entitled, with the approval of the Government and with the approval of his committee.

MESSAGE FROM THE HOUSE

A message from the House of Representatives by Mr. Chaffee, one of its reading clerks, announced that the House had passed without amendment the following bills of the Senate:

S. 1146. An act for the relief of Michael Dalton;

S. 2268. An act for the relief of Bausch & Lomb Optical Co.;

S. 3143. An act for the relief of the Passaic Valley Sewerage Commissioners;

S. 3879. An act for the relief of James W. Grist;

S. 4241. An act to provide for the sale of a certain isolated tract of the public domain in the State of Oregon;

S. 4432. An act authorizing and directing the Secretary of War to lease land on the Fort Moultrie (S. C.) Military Reservation to the owners of certain cottages thereon;

S. 4608. An act to authorize the coinage of 50-cent pieces in commemoration of the three hundredth anniversary of the founding of York County, Maine;

S. 4633. An act to provide for the selection of certain lands in the State of California for the use of the California State park system;

S. 4648. An act to promote safety at sea in the neighborhood of ice and derelicts, and for other purposes; and

S. 4773. An act to confer jurisdiction on the Court of Claims to hear and determine certain claims against the United States on the part of owners of certain vessels.

The message also announced that the House had passed the bill (S. 1790) for the relief of Margaret Murphy, with an amendment, in which it requested the concurrence of the Senate.

ENROLLED BILLS SIGNED

The message further announced that the Speaker had affixed his signature to the following enrolled bills, and they were signed by the President pro tempore:

S. 1567. An act to amend section 5 of the act of March 2, 1919, generally known as the War Minerals Relief Act;

S. 1793. An act to amend the act entitled "An act authorizing the attorney general of the State of California to bring suit in the Court of Claims on behalf of the Indians of California", approved May 18, 1928 (45 Stat. L. 602);

S. 2460. An act to amend the act of June 6, 1924, entitled "An act to amend in certain particulars the National Defense Act of June 3, 1916, as amended, and for other purposes";

S. 2647. An act authorizing the Comptroller General of the United States to settle and adjust the claims of subcontractors, materialmen, and laborers for material and labor furnished in the construction of a post-office building at Hempstead, N. Y.;

S. 3405. An act for the relief of Capt. James W. Darr;

S. 3843. An act to provide for the entry under bond of exhibits of arts, sciences, and industries, and products of the soil, mine, and sea, and all other exhibits for exposition purposes;

S. 4727. An act to quiet title and possession with respect to certain lands in Lawrence County, Ala.;

S. 4780. An act to extend the laws governing inspection of vessels, and for other purposes;

H. R. 2435. An act for the relief of the Citizens State Bank of Marianna, Fla.;

H. R. 8316. An act to modify section 20 of the Permanent Appropriation Repeal Act, 1934, with reference to individual Indian money;

H. R. 8368. An act to enforce the twenty-first amendment; and

H. R. 12490. An act authorizing a preliminary examination of the Levisa Fork of Big Sandy River in the vicinity of the Breaks of Sandy.

EXECUTIVE SESSION

Mr. ROBINSON. I move that the Senate proceed to the consideration of executive business.

Mr. STEIWER. Mr. President, will the Senator withhold that motion for just a minute?

Mr. ROBINSON. I should like to do so. We will return to legislative session later.

The PRESIDING OFFICER (Mr. LA FOLLETTE in the chair). The question is on the motion of the Senator from Arkansas.

The motion was agreed to; and the Senate proceeded to the consideration of executive business.

EXECUTIVE MESSAGES REFERRED

The PRESIDING OFFICER laid before the Senate messages from the President of the United States submitting sundry nominations of postmasters, which were referred to the Committee on Post Offices and Post Roads.

(For nominations this day received, see the end of Senate proceedings.)

REPORTS OF A COMMITTEE—POSTMASTERS

The PRESIDING OFFICER. Reports of committees are in order.

Mr. McKELLAR. Mr. President, I have in my hand a large number of post-office nominations, some of them having been sent in some time ago, and some of them just an hour or two ago. They have all been submitted to the Senators from the various States, and they have been submitted to Senators without regard to party. They have been approved by Senators, and I ask unanimous consent that they may be reported and may be acted on at this time and confirmed, and the President notified of the confirmations.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered.

If there be no further reports of committees, the clerk will state the first nomination in order on the calendar.

THE JUDICIARY

The legislative clerk read the nomination of John W. Clancy to be United States district judge, southern district of New York.

Mr. COPELAND. Mr. President, I am not here to oppose this nomination or any other judicial nomination so far as the personalities are concerned.

The PRESIDING OFFICER. The Senator from New York will please suspend until the Senate is in order. The Chair requests Senators kindly to take their seats. Those entitled to the privilege of the floor are requested to refrain from conversation.

The Senator from New York is recognized.

Mr. COPELAND. Mr. President, as I said, I have no inclination to oppose the gentlemen who have been nominated for the judgeships in my State. I have in mind a much larger question than the confirmation of certain nominations sent to us by the President. It is my judgment that we do not need more judges in the southern district of New York.

I am in a very unhappy position, because of the fact that these judges' names are sent here tonight because of a measure which I introduced and had passed through the Senate. That was a long time ago. If I remember correctly, it was last year. A great many Senators are advised by persons in whom they have confidence about this, that, or the other thing. I suppose, in a sense, all the friends one has ought to be registered under the Black bill; but the fact is that every man in public life is more or less influenced by the lovely and charming friends he has, and persons in whom he has great confidence.

It was represented to me, of course in good faith, that there was a great need for judges in the southern district of New York. Indeed, the judicial council has recommended that there should be two additional judges for the southern district of New York.

I have been in a conference all day, since 9 o'clock this morning. I was not aware until just now that this matter would come up; so if my statements are more or less disconnected it is because I have had no opportunity to assemble my material.

Let me call the attention of the Senate to various matters. We have in the southern district of New York, I believe, seven judges. I ask the able Senator from Arizona, the chairman of the Judiciary Committee, if I am right.

Mr. ASHURST. There are seven. One was appointed as a result of a bill which passed recently. There were six before, and that made seven. These two would make nine, of course.

Mr. COPELAND. Yes; in the southern district.

Mr. President, we were up until 2 o'clock this morning, and I have been in conference since 9 o'clock this morning steadily until now; and if I am somewhat sensitive to noise and confusion, I desire my friends here to realize that it is not my normal condition. Ordinarily, I am quite insensitive to these matters; but if I may have quiet, it will help me.

The PRESIDING OFFICER. The Chair is attempting to obtain order, but the Senator realizes that the galleries are very crowded, and the floor is crowded.

Mr. COPELAND. I realize that.

The PRESIDING OFFICER. Once more the Chair requests that the Senate will please be in order.

Mr. COPELAND. I think I may say, in all truth, that I never saw a finer looking group of visitors than we have in the gallery tonight; and I shall be very much obliged to them if they will help me by being as quiet as possible. I

know I shall not edify them; and yet, after all, there is not anything more important to every citizen in America than to be sure that the judges are well chosen and that we have a judiciary of the very highest type.

I have been more impressed than ever by that fact because of a recent experience in this Chamber, where for 2 weeks we set aside all of our usual activities in the Senate to find reasons why a district judge in Florida might be taken from the bench. Judges ought never to be chosen lightly, or recklessly, or hastily.

They ought always to be chosen with reference to their fitness, their qualifications, with reference to their qualities of mind and soul, which will make them upon the bench the fair, honest, forthright, upright judges whom our people are entitled to have to pass judgment upon the matters which are taken before the courts.

There are in this country 152 Federal district court judges. You are very generous with us, Senators, when you seek to give us in the one district of New York nine judges, when there are in the city itself across the River, Brooklyn, a number of Federal judges. In the northern district and in the western district of New York it might well be that we have more than our share of district judges. But let us take the southern district of New York, the one with which we are dealing tonight.

There can be no doubt that there has been a delay in the progress of cases, a delay in the completion of cases, but let me state why that is. As the distinguished Senator from Arizona has said, we have six judges. We are entitled to seven. For several years the seventh judgeship has not been filled. By act of Congress it was decided that the vacancy could not be filled until last year, when it was determined that it might be filled. So for a year we have been deprived of the services of one judge who might have been appointed by the President at any time within the past year. Unfortunately another judge, one of our able judges upon the Federal bench in the southern district, was ill all last year, so that reduced the number to five.

Here is another matter which I am glad has been rectified by the wisdom of my distinguished colleague the junior Senator from New York [Mr. WAGNER]. He has succeeded, as he is so capable of succeeding in legislative matters, in having a law passed providing that the subsistence of judges shall be $10 a day instead of $5.

Mr. ASHURST. Mr. President, will the Senator yield to me?

Mr. COPELAND. I yield.

Mr. ASHURST. The increase in the subsistence allowance was simply a restoration to what it had been for many, many years.

Mr. COPELAND. I understand that.

Mr. ASHURST. For example, I should say that for 30 or 40 years the subsistence of a judge when holding court away from his residence was $10 per diem, but at the time the compensation of Representatives and Senators in Congress was reduced, the subsistence per diem of the Federal judges was reduced to $5, and the recent act did not provide an increase but a restoration to what the subsistence had been for many years. I thank the Senator for yielding.

Mr. COPELAND. Mr. President; I have not been on the floor of the Senate for some little time, and, perhaps, I should inquire what the legislative situation is. I have no desire to prolong the session. What is pending before the Senate?

The PRESIDING OFFICER. The Senate is in executive session, and the pending nomination——

Mr. COPELAND. I beg the pardon of the Chair; I mean the legislative situation.

The PRESIDING OFFICER. The so-called Guffey coal bill is the pending business, and it is open to further amendment.

Mr. COPELAND. Mr. President, let it be understood, then, that I am not desirous of delaying the proceedings, but I do desire to complete my statement before I leave the floor.

As a matter of economy, as the able Senator from Arizona has said, the subsistence was cut from $10 a day to $5. A decent room in a hotel in New York cannot be hired for $5 a day. It was not possible for a judge to come to New York City from Texas, or from some other point in the South, because they could not afford to live in New York on the subsistence allowance.

New York has the most delightful summer climate in the world. Not in Oregon or anywhere else can there be found a more delightful place to spend the summer; but $10,000 a year is a salary of a Federal judge, and a Federal judge could not afford to go to New York and take his wife on a pittance of $5 a day for subsistence. Now the $10 rate has been restored.

The significance of that is that we will now be able to call upon other courts for aid when there is pressure in New York. I am thankful to high heaven that my friend the judge who has been ill is now restored to health. I am very happy that Judge Hightower, who was recommended by my colleague and heartily endorsed by me, has been added to the court. So now we have a full court, under the previous law, and we have a subsistence arrangement which will make it possible for us to call in visiting judges.

Mr. President, that is not all. We used to have many of our naturalization cases attended to in the State court. I well remember a battle I had in this Chamber when I first came into the Senate, 12 or 14 years ago, a battle with my then colleague, the distinguished Senator WADSWORTH, now a Member of the House of Representatives.

The State court judges in New York are usually Democrats. Our Republican friends did not like to have naturalization take place in courts presided over by Democratic judges, and so they passed a law providing that naturalization cases could not be taken any more to the State courts, but must be taken care of in Federal courts. So, for a few years the Federal courts in New York were crowded with naturalization cases.

Let me call attention to the fact that in 1928 there were 38,298 naturalization cases passed on in the Federal courts of New York. We do not have any such numbers any more. The Senator from North Carolina and the Senator from Georgia, or at least their predecessors, have seen to it that not so many people come to the United States.

Mr. President, one who is away from the floor of the Senate for a day quite loses track of things. Early this morning or yesterday I was urged to come and talk for a long period of time, and now I am warned to speak a very brief time. Just exactly what should I do?

However, as I said, the number of naturalization cases has been reduced from 38,000 a year to 13,000—25,000 fewer naturalization cases brought before our Federal courts.

In the next place, our Federal courts have been congested with business because of the bankruptcy laws. I suppose we have had more bankruptcies in New York City than all the rest of the country put together. That is an epidemic. It will soon disappear.

As regards the report of the judicial council, I suppose it is lese majesty or something or other even to hint that a Supreme Court judge might be mistaken, and still it is not so great a crime now as it was formerly, because I think I have heard more criticism of the Supreme Court judges during the last 5 or 6 months than I have ever previously heard. The distinguished Chief Justice in a speech said within a month that the admiralty cases in New York, because of the choked calendars, required 27 months to be disposed of. How is it possible for a judge to be so wrong? As a matter of fact, one of the judges writes me:

> Trials may be had as soon as desired in admiralty cases.

That is not 27 months. Another judge—Judge Patterson—writes me:

> Admiralty cases up to date.

The point of all this is that we do not need two more judges in the southern district of New York any more than the most beautiful woman in the gallery tonight needs two noses. It is an outrage to think that we should impose upon the taxpayers of the country two $10,000 salaries—that is $20,000—with clerks and bailiffs and stenographers; probably a total cost of $50,000 a year for ever and ever. Talk about balancing the Budget and about economy! We are

proposing here tonight to impose a burden of $50,000 a year upon the taxpayers of the country that will be paid every year from now to the end of time, because we never abolish any offices.

Mr. President, I have tried honestly and conscientiously to make clear to the Senate that these judges are not needed. Now, having failed to impress the Senate, as, of course, I have failed, I wish to say of the men who are recommended that from the advices I have had in the last 3 or 4 days I know of no reason why either one of these men should not be an acceptable member of the court. I think they are upstanding, fine gentleman. The letters and telegrams I have had from distinguished lawyers in New York have made it clear to me that they are worthy men.

There is resentment on the part of the Bar Association and on the part of the New York Chamber of Commerce that these names were sent here without due consideration by the Bar Association without an opportunity to measure the worth and the ability of the candidates, but I must say in all candor that, so far as I know, they are worthy men. If we need judges in the southern district, these are good men. However, it is my contention and my conviction that these judges are not needed, and I think it is quite unworthy of us to impose a continuous burden of hardship upon the taxpayers of the country. Everybody is a taxpayer, whether or not his name is upon the assessor's roll, and every time we add $50,000 here and $50,000 there it means that there is added to the cost of the dresses and the clothing and the shoes and the rent and all the necessities of all the citizens of our country just that much increase in the taxes, and that much more must be added to the family budget.

I have done the best I can, and I leave it with the Senate to determine what shall be done.

Mr. BORAH. Mr. President, I wish to ask the Senators from New York, who undoubtedly know these gentlemen, if it is their opinion that they are capable of filling the positions to the credit of the judiciary of the country if their nominations shall be confirmed.

Mr. WAGNER. Mr. President, if the Senator is directing his question to me, I unhesitatingly answer that, in my opinion, they are both highly qualified to fill the office of Federal judge. I happen to have known both of them for a long while. I served with Senator Mandelbaum in the legislature. It so happened that when he was admitted to the bar under the laws of New York it was necessary that lawyers pass a test conducted by a character committee, and I certified at that time to his good character, and I have never regretted it since.

Mr. Clancy is a scholarly gentleman. He is a very successful lawyer. He is not what is termed a corporation lawyer. He has not had large clients, but he has been a successful lawyer. He is very scholarly. He is a man of very high character and ideally fitted for a judicial post. He has acted as a referee in some cases, and I have communications from attorneys who appeared before him as referee who say that he showed not only exceptional legal acumen, but a sense of impartiality that fitted him for judicial service.

As to Mr. Mandelbaum, he, too, is very highly esteemed in New York. He served in the legislature for a number of years. He was one of the leaders in the enactment of progressive laws in the State of New York.

I have here somewhere the reports of the Citizens' Union, which is an organization, as perhaps the Senator knows, of independent citizens supported by citizens interested in the civic welfare of our city, who each year pass on what they regard as the records of the legislators. They are not very friendly, as has been evidenced on several occasions, to the Democratic organization in New York, but in all their reports they highly praise Senator Mandelbaum for his work in the legislature.

Mr. COPELAND. Mr. President, so far as I am concerned, I do not know these gentlemen. My experience has been in the operating room and not in courts, so I do not know many lawyers, and often I have been glad that I have not known any more than I have met. [Laughter.] However, I cannot contribute anything of my personal knowledge regarding these gentlemen.

Mr. WAGNER. The Citizens' Union said with reference to Senator Mandelbaum that he is a conscientious and able legislator of long experience, actively interested in improving the living conditions of the common people, and has sponsored effectively the most important housing bills of the session and presided over the civics committee with notable fairness.

Another statement made with reference to him is that he is one of the most useful public servants in the legislature, that, as chairman of his committee, he blocked nearly all objectionable bills, and piloted a number of much-needed improvements in the housing line through the senate, and that his voting record is one of the best.

Mr. BORAH. The reason why I asked the question is, first, because of my very great respect for the Senator from New York, and, secondly, because it has been represented to me that neither of the gentlemen has been actively engaged in practice and that neither is a lawyer of standing in the profession.

Mr. WAGNER. I think that is a mistaken estimate. That probably came from members of the State judiciary committee, and I say nothing in criticism of the members of that committee because I was a member of it for a number of years. They are not always in a position to know. They are busy lawyers. Most of them have very large practices and do not always come in contact with other members of the bar and are not always in a position to know who is active at the bar.

I know that both Mr. Clancy and Mr. Mandelbaum are active members of the bar, successful lawyers, and possess what I, as a former occupant of the bench, regard as the most important qualification of all—they are men of high character and unquestioned integrity.

The PRESIDENT pro tempore. The question is, Will the Senate advise and consent to the nomination of John W. Clancy to be United States district judge, for the southern district of New York?

Without objection, the nomination is confirmed.

The legislative clerk read the nomination of Samuel Mandelbaum to be United States district judge for the southern district of New York.

The PRESIDENT pro tempore. Without objection, the nomination is confirmed.

The legislative clerk read the nomination of Albert Branson Maris, of Pennsylvania, to be United States district judge for the eastern district of Pennsylvania.

The PRESIDENT pro tempore. Without objection, the nomination is confirmed.

BOARD OF TAX APPEALS

The legislative clerk read the nomiantion of Richard L. Disney, of Oklahoma, to be a member of the Board of Tax Appeals for a term of 12 years from June 2, 1936.

The PRESIDENT pro tempore. Without objection, the nomination is confirmed.

POSTMASTERS

The legislative clerk proceeded to read sundry nominations of postmasters.

Mr. McKELLAR. Mr. President, I ask that the nomination of Delia G. Guay, to be postmaster at Peshtigo, Wis., may be recommitted to the Committee on Post Offices and Post Roads.

The PRESIDENT pro tempore. Without objection, the nomination is recommitted to the Committee on Post Offices and Post Roads.

Mr. McKELLAR. I now ask unanimous consent that all other nominations of postmasters on the calendar be confirmed en bloc.

The PRESIDENT pro tempore. Without objection, the nominations of postmasters, with the exception noted, are confirmed en bloc.

IN THE NAVY

The legislative clerk proceeded to read sundry nominations in the Navy.

Mr. WALSH. I ask unanimous consent that nominations in the Navy be confirmed en bloc.

The PRESIDENT pro tempore. Without objection, the nominations in the Navy are confirmed en bloc.

IN THE MARINE CORPS

The legislative clerk proceeded to read sundry nominations in the Marine Corps.

Mr. WALSH. I ask unanimous consent that nominations in the Marine Corps be confirmed en bloc.

The PRESIDENT pro tempore. Without objection, the nominations in the Marine Corps are confirmed en bloc. That completes the calendar.

Mr. ROBINSON. Mr. President, I inquire whether there are other nominations on the Vice President's desk to be disposed of?

The PRESIDENT pro tempore. The Chair is informed that there are no others.

RESUMPTION OF LEGISLATIVE SESSION

Mr. ROBINSON. I move that the Senate resume legislative session.

The motion was agreed to; and the Senate resumed the consideration of legislative business.

MESSAGE FROM THE HOUSE

A message from the House of Representatives, by Mr. Haltigan, one of its reading clerks, announced that the House had passed without amendment the following bills of the Senate:

S. 3175. An act for the relief of Jesse Ashby;

S. 4152. An act validating certain conveyances by Kickapoo Indians of Oklahoma made prior to February 17, 1933, providing for actions in partitition in certain cases; and

S. 4457. An act authorizing the appointment of an additional circuit judge for the third circuit.

The message also announced that the House had passed the bill (S. 4490) for the relief of F. W. Elmer with an amendment, in which it requested the concurrence of the Senate.

The message further announced that the House had passed the joint resolution (S. J. Res. 196) to correct errors in the enrollment of Private Act No. 349, Seventy-fourth Congress, approved August 29, 1935, and to clarify the duties of the Comptroller General in connection with said act, with an amendment, in which it requested the concurrence of the Senate.

The message also announced that the House had passed the following bill and joint resolution of the Senate, each with amendments, in which it requested the concurrence of the Senate:

S. 3505. An act for the improvement and protection of the beaches along the shores of the United States; and

S. J. Res. 38. Joint resolution for the adjustment and settlement of losses sustained by the cooperative marketing associations.

The message further announced that the House had agreed to the amendment of the Senate to each of the following bills of the House:

H. R. 3866. An act to confer jurisdiction upon the Court of Claims to hear, determine, and render judgment upon the claim of Emanuel Bratses; and

H. R. 6773. An act to deepen the irrigation channel between Clear Lake and Lost River, in the State of California, and for other purposes.

The message also announced that the House had severally agreed to the amendments of the Senate to the following bills of the House:

H. R. 6719. An act to amend the Canal Zone Code;

H. R. 8107. An act to authorize the coinage of 50-cent pieces in connection with the celebration of the one hundredth anniversary of the opening of the tri-State Territory of east Texas, north Louisiana, and south Arkansas by Capt. Henry Miller Shreve, to be held in Shreveport, La., and surrounding territory in 1935 and 1936;

H. R. 10094. An act to amend section 1 of the act entitled "An act to stop injury to the public grazing lands by preventing overgrazing and soil deterioration; to provide for their orderly use, improvement, and development; to stabilize the livestock industry dependent upon the public range; and for other purposes", approved June 28, 1934 (48 Stat. 1269); and

H. R. 11688. An act providing for a change in the design of the 50-cent pieces authorized to be coined in commemoration of the one hundredth anniversary of the admission of the State of Arkansas into the Union.

ENROLLED BILLS AND JOINT RESOLUTION SIGNED

The message further announced that the Speaker had affixed his signature to the following enrolled bills and joint resolution, and they were signed by the President pro tempore:

S. 4719. An act for the relief of the Bridgeport Irrigation District;

H. R. 3866. An act to confer jurisdiction upon the Court of Claims to hear, determine, and render judgment upon the claim of Emanuel Bratses;

H. R. 6719. An act to amend the Canal Zone Code;

H. R. 12395. An act to provide revenue, equalize taxation, and for other purposes; and

S. J. Res. 115. Joint resolution designating the last Sunday in September as "Gold Star Mother's Day", and for other purposes.

ADJUSTMENT OF LOSSES OF COOPERATIVE MARKETING ASSOCIATIONS

Mr. ROBINSON. I understand there are a number of communications from the House on the desk. I request that they be laid before the Senate.

The PRESIDENT pro tempore laid before the Senate the amendments of the House of Representatives to the joint resolution (S. J. Res. 38) for the adjustment and settlement of losses sustained by the cooperative marketing associations, which were to strike out all after the enacting clause and insert:

That the Court of Claims, in accordance with such rules as it may adopt, shall investigate losses sustained during the stabilization operations of the Federal Farm Board in 1929 and 1930, by cooperative associations to which loans were made, either directly or indirectly, by the Federal Farm Board, through withholding grain from the market and making advances to their members in order to stabilize prices, for the purpose of determining—

(1) The amount of loss, if any, in the case of each such association and the facts and circumstances relating to such loss; and

(2) Whether, because of any agreement or understanding between such associations, or any of them, and the Federal Farm Board (or any member, officer, or employee thereof) or because of any other facts or circumstances, there is any legal, equitable, or moral obligation on the part of the United States to reimburse such associations, or any of them, for the whole or any part of any such loss.

The court shall report to Congress, at the earliest practicable date, the results of its investigation and determinations, together with such recommendations as it deems appropriate.

And to amend the title so as to read: "Joint resolution to provide for an inquiry by the Court of Claims with respect to losses sustained by cooperative marketing associations in connection with stabilization activities in grain."

Mr. FRAZIER. I move that the Senate concur in the amendments of the House.

Mr. McKELLAR. Mr. President, I want it distinctly understood that this joint resolution applies solely to grain and does not apply to cotton. I want to know if that is the understanding of the Senator from North Dakota.

Mr. FRAZIER. That is correct. The joint resolution as amended applies only to grain. I move that the Senate concur in the amendment of the House.

The motion was agreed to.

MARGARET MURPHY

The PRESIDENT pro tempore laid before the Senate the amendment of the House of Representatives to the bill (S. 1790) for the relief of Margaret Murphy, which was, on page 1, line 8, to strike out "$80" and insert "$60."

Mr. WHEELER. I move that the Senate concur in the amendment of the House.

The motion was agreed to.

F. W. ELMER

The PRESIDENT pro tempore laid before the Senate the amendment of the House of Representatives to the bill (S. 4490) for the relief of F. W. Elmer, which was, on page 1, line 5, to strike out "$2,500" and insert "$1,500."

Mr. BILBO. I move that the Senate concur in the amendment of the House.

The motion was agreed to.

IMPROVEMENT AND PROTECTION OF COASTAL BEACHES

The PRESIDENT pro tempore laid before the Senate the amendments of the House of Representatives to the bill (S. 3505) for the improvement and protection of the beaches along the shores of the United States, which were, on page 1, line 4, after the word "construction" to insert "where Federal interests are involved"; on page 2, line 14, to strike out the period at the end of the line, and insert a colon and the following proviso: "*Provided*, That not more than 75 percent of the cost of any specific investigation shall be borne by the United States", and on page 3, after line 6, to add a new section, as follows:

SEC. A. Any expenses incident and necessary in the undertaking of the investigations and studies authorized herein may be paid from funds hitherto or hereafter appropriated for examinations, surveys, and contingencies for rivers and harbors.

Mr. BURKE. I move that the Senate concur in the amendments of the House.

The motion was agreed to.

CORRECTION IN ENROLLMENT OF A PRIVATE ACT

The PRESIDENT pro tempore laid before the Senate the amendment of the House of Representatives to the joint resolution (S. J. Res. 196) to correct errors in the enrollment of Private Act No. 349, Seventy-fourth Congress, approved August 29, 1935, and to clarify the duties of the Comptroller General in connection with said act, which was, on page 1, line 12, after "DeKnight" to insert:

For services rendered before the committees of Congress and executive officers of the Government during the period of 20 years prior to and including the date of approval of said act, in connection with securing authority for payment of the findings of the Court of Claims therein enumerated: *Provided*, That such payment of 10 percent shall be participated in by such other attorney or attorneys, of any, who, in addition to having appeared in the Court of Claims, shall have rendered services as above described during said period, such participation to be in proportion to the value and extent of services so rendered as determined by the Comptroller General of the United States, to whom all claims for participation in said 10 percent shall be presented within 30 days from the date of approval of this act.

Mr. WALSH. I move that the Senate agree to the amendment of the House.

The motion was agreed to.

PURCHASE OF SUPPLIES AND MAKING OF CONTRACTS, ETC., BY THE UNITED STATES

The PRESIDENT pro tempore laid before the Senate the amendments of the House of Representatives to the bill (S. 3055) to provide conditions for the purchase of supplies and the making of contracts, loans, or grants by the United States, and for other purposes, which were to strike out all after the enacting clause and insert:

That in any contract made and entered into by any executive department, independent establishment, or other agency or instrumentality of the United States, or by the District of Columbia, or by any corporation all the stock of which is beneficially owned by the United States (all of the foregoing being hereinafter designated as agencies of the United States), for the manufacture or furnishing of materials, supplies, articles, and equipment in any amount exceeding $10,000, there shall be included the following representations and stipulations:

(a) That the contractor is the manufacturer of or a regular dealer in the materials, supplies, articles, or equipment to be manufactured or used in the performance of the contract;

(b) That all persons employed by the contractor in the manufacture or furnishing of the materials, supplies, articles, or equipment used in the performance of the contract will be paid, without subsequent deduction or rebate on any account, not less than the minimum wages as determined by the Secretary of Labor to be the prevailing minimum wages for persons employed on similar work or in the particular or similar industries or groups of industries currently operating in the locality in which the materials, supplies, articles, or equipment are to be manufactured or furnished under said contract;

(c) That no person employed by the contractor in the manufacture or furnishing of the materials, supplies, articles, or equipment used in the performance of the contract shall be permitted to work in excess of 8 hours in any one day or in excess of 40 hours in any one week;

(d) That no male person under 16 years of age and no female person under 18 years of age and no convict labor will be employed by the contractor in the manufacture or production or furnishing of any of the materials, supplies, articles, or equipment included in such contract; and

(e) That no part of such contract will be performed nor will any of the materials, supplies, articles, or equipment to be manufactured or furnished under said contract be manufactured or fabricated in any plants, factories, buildings, or surroundings or under working conditions which are unsanitary or hazardous or dangerous to the health and safety of employees engaged in the performance of said contract. Compliance with the safety, sanitary, and factory inspection laws of the State in which the work or part thereof is to be performed shall be prima-facie evidence of compliance with this subsection.

SEC. 2. That any breach or violation of any of the representations and stipulations in any contract for the purposes set forth in section 1 hereof shall render the party responsible therefor liable to the United States of America for liquidated damages, in addition to damages for any other breach of such contract, the sum of $10 per day for each male person under 16 years of age or each female person under 18 years of age, or each convict laborer knowingly employed in the performance of such contract, and a sum equal to the amount of any deductions, rebates, refunds, or underpayment of wages due to any employee engaged in the performance of such contract; and, in addition, the agency of the United States entering into such contract shall have the right to cancel same and to make open-market purchases or enter into other contracts for the completion of the original contract, charging any additional cost to the original contractor. Any sums of money due to the United States of America by reason of any violation of any of the representations and stipulations of said contract set forth in section 1 hereof may be withheld from any amounts due on any such contracts or may be recovered in suits brought in the name of the United States of America by the Attorney General thereof. All sums withheld or recovered as deductions, rebates, refunds, or underpayments of wages shall be held in a special deposit account and shall be paid, on order of the Secretary of Labor, directly to the employees who have been paid less than minimum rates of pay as set forth in such contracts and on whose account such sums were withheld or recovered: *Provided*, That no claims by employees for such payments shall be entertained unless made within 1 year from the date of actual notice to the contractor of the withholding or recovery of such sums by the United States of America.

SEC. 3. The Comptroller General is authorized and directed to distribute a list to all agencies of the United States containing the names of persons or firms found by the Secretary of Labor to have breached any of the agreements or representations required by this act. Unless the Secretary of Labor otherwise recommends, no contracts shall be awarded to such persons or firms or to any firm, corporation, partnership, or association in which such persons or firms have a controlling interest until 3 years have elapsed from the date the Secretary of Labor determines such breach to have occurred.

SEC. 4. The Secretary of Labor is hereby authorized and directed to administer the provisions of this act and to utilize such Federal officers and employees and, with the consent of the State, such State and local officers and employees as he may find necessary to assist in the administration of this act and to prescribe rules and regulations with respect thereto. The Secretary shall appoint, without regard to the provisions of the civil-service laws but subject to the Classification Act of 1923, an administrative officer, and such attorneys and experts, and shall appoint such other employees with regard to existing laws applicable to the employment and compensation of officers and employees of the United States, as he may from time to time find necessary for the administration of this act. The Secretary of Labor or his authorized representatives shall have power to make investigations and findings as herein provided, and prosecute any inquiry necessary to his functions in any part of the United States. The Secretary of Labor shall have authority from time to time to make, amend, and rescind such rules and regulations as may be necessary to carry out the provisions of this act.

SEC. 5. Upon his own motion or on application of any person affected by any ruling of any agency of the United States in relation to any proposal or contract involving any of the provisions of this act, and on complaint of a breach or violation of any representation or stipulation as herein provided, the Secretary of Labor, or an impartial representative designated by him, shall have the power to hold hearings and to issue orders requiring the attendance and testimony of witnesses and the production of evidence under oath. Witnesses shall be paid the same fees and mileage that are paid witnesses in the courts of the United States. In case of contumacy, failure, or refusal of any person to obey such an order, any District Court of the United States or of any Territory or possession, or the Supreme Court of the District of Columbia, within the jurisdiction of which the inquiry is carried on, or within the jurisdiction of which said person who is guilty of contumacy, failure, or refusal is found, or resides or transacts business, upon the application by the Secretary of Labor or representative designated by him, shall have jurisdiction to issue to such person an order requiring such person to appear before him or representative designated by him, to produce evidence if, as, and when so ordered, and to give testimony relating to the matter under investigation or in question; and any failure to obey such order of the court may be punished by said court as a contempt

thereof; and shall make findings of fact after notice and hearing, which findings shall be conclusive upon all agencies of the United States, and if supported by the preponderance of the evidence, shall be conclusive in any court of the United States; and the Secretary of Labor or authorized representative shall have the power, and is hereby authorized, to make such decisions, based upon findings of fact, as are deemed to be necessary to enforce the provisions of this act.

SEC. 6. Upon a written finding by the head of the contracting agency or department that the inclusion in the proposal or contract of the representations or stipulations set forth in section 1 will seriously impair the conduct of Government business, the Secretary of Labor shall make exceptions in specific cases or otherwise when justice or public interest will be served thereby. Upon the joint recommendation of the contracting agency and the contractor, the Secretary of Labor may modify the terms of an existing contract respecting minimum rates of pay and maximum hours of labor as he may find necessary and proper in the public interest or to prevent injustice and undue hardship. The Secretary of Labor may provide reasonable limitations and may make rules and regulations allowing reasonable variations, tolerances, and exemptions to and from any or all provisions of this act respecting minimum rates of pay and maximum hours of labor or the extent of the application of this act to contractors, as hereinbefore described. Whenever the Secretary of Labor shall permit an increase in the maximum hours of labor stipulated in the contract, he shall set a rate of pay for any overtime, which rate shall be not less than one and one-half times the basic hourly rate received by any employee affected.

SEC. 7. Whenever used in this act, the word "person" includes one or more individuals, partnerships, associations, corporations, legal representatives, trustees, trustees in bankruptcy, or receivers.

SEC. 8. The provisions of this act shall not be construed to modify or amend title III of the act entitled "An act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved May 3, 1933 (commonly known as the Buy American Act), nor shall the provisions of this act be construed to modify or amend the act entitled "An act relating to the rate of wages for laborers and mechanics employed on public buildings of the United States and the District of Columbia by contractors and subcontractors, and for other purposes", approved March 3, 1931 (commonly known as the Bacon-Davis Act), as amended from time to time, nor the labor provisions of title II of the National Industrial Recovery Act, approved June 16, 1933, as extended, or of section 7 of the Emergency Relief Appropriation Act, approved April 8, 1935; nor shall the provisions of this act be construed to modify or amend the act entitled "An act to provide for the diversification of employment of Federal prisoners, for their training and schooling in trades and occupations, and for other purposes", approved May 27, 1930, as amended and supplemented by the act approved June 23, 1934.

SEC. 9. This act shall not apply to purchases of such materials, supplies, articles, or equipment as may usually be bought in the open market; nor shall this act apply to perishables, including dairy, livestock, and nursery products, or to agricultural or farm products processed for first sale by the original producers; nor to any contracts made by the Secretary of Agriculture for the purchase of agricultural commodities or the products thereof. Nothing in this act shall be construed to apply to carriage of freight or personnel by vessel, airplane, bus, truck, express, or railway line where published tariff rates are in effect or to common carriers subject to the Communications Act of 1934.

SEPARABILITY CLAUSE

SEC. 10. If any provision of this act, or the application thereof to any persons or circumstances, is held invalid, the remainder of the act, and the application of such provisions to other persons or circumstances, shall not be affected thereby.

SEC. 11. This act shall apply to all contracts entered into pursuant to invitations for bids issued on or after 90 days from the effective date of this act: *Provided, however,* That the provisions requiring the inclusion of representations with respect to minimum wages shall apply only to purchases or contracts relating to such industries as have been the subject matter of a determination by the Secretary of Labor.

And to amend the title so as to read: "An act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes."

Mr. WALSH. I move that the Senate concur in the amendments of the House.

The motion was agreed to.

REPORT OF COMMITTEE TO NOTIFY THE PRESIDENT

Mr. ROBINSON, from the committee appointed to join a similar committee of the House of Representatives to inform the President of the United States that the Congress is ready to adjourn, and to ask him if he has any further communication to make, reported that they had performed that duty, and that the President had stated that he had no further communicaion to make to the Congress.

REGULATION OF INTERSTATE COMMERCE IN BITUMINOUS COAL

The Senate resumed the consideration of the bill (H. R. 12800) to regulate interstate commerce in bituminous coal, and for other purposes.

The PRESIDENT pro tempore. The bill is before the Senate and open to amendment.

Mr. COPELAND. Mr. President, I ask unanimous consent for the consideration of Calendar No. 2561, House bill 8482.

The PRESIDENT pro tempore. The clerk will state the title of the bill.

The LEGISLATIVE CLERK. A bill (H. R. 8482) for the relief of Jacob G. Ackerman.

The PRESIDENT pro tempore. Is there objection to the present consideration of the bill?

Mr. GUFFEY. I object. I call for the regular order.

The PRESIDENT pro tempore. The Senator from Pennsylvania objects.

Mr. BAILEY. Mr. President, I ask unanimous consent for the consideration of House bill 12522, for the relief of Grier-Lowrance Construction Co., Inc. It is simply a bill which refers a case for trial to the Court of Claims, and is a perfectly just measure.

Mr. GUFFEY. I object.

The PRESIDENT pro tempore. Objection is made.

Mr. ROBINSON. I call for the regular order.

The PRESIDENT pro tempore. The bill is before the Senate and open to amendment. If there be no further amendment to be proposed——

Mr. HOLT. Mr. President, I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk called the roll, and the following Senators answered to their names:

Adams	Carey	King	Pope
Ashurst	Clark	La Follette	Radcliffe
Bachman	Connally	Lewis	Reynolds
Bailey	Copeland	Lonergan	Robinson
Barkley	Davis	McGill	Russell
Benson	Dieterich	McKellar	Schwellenbach
Bilbo	Duffy	McNary	Sheppard
Black	Frazier	Maloney	Steiwer
Bone	George	Metcalf	Thomas, Okla.
Borah	Gerry	Minton	Thomas, Utah
Brown	Gibson	Moore	Truman
Bulow	Guffey	Murphy	Van Nuys
Burke	Hale	Murray	Wagner
Byrd	Hastings	Neely	Walsh
Byrnes	Hatch	Norris	Wheeler
Capper	Hayden	O'Mahoney	
Caraway	Holt	Pittman	

The PRESIDENT pro tempore. Sixty-six Senators having answered to their names, a quorum is present.

Mr. HOLT and Mr. CLARK addressed the Chair.

The PRESIDENT pro tempore. The Senator from West Virginia.

Mr. ROBINSON. I call for the regular order.

The PRESIDENT pro tempore. The Senator from West Virginia is recognized.

Mr. HOLT. I yield to the Senator from Missouri, but I do not wish to lose the floor.

Mr. ROBINSON. I make the point of order that the Senator cannot yield for the transaction of business, and I call for the regular order. I serve notice now that if the Senator yields for the transaction of business he will lose the floor.

The PRESIDENT pro tempore. That is true.

Mr. HOLT. Mr. President, I realize that many Senators have stayed late tonight to hear the discussion on the coal bill, and I appreciate that consideration; but I wish to read to them tonight from the volume called Aesop's Fables. I shall proceed to do so in a few moments; but before going to that volume I wish to place in the RECORD an excerpt from the New York Times of the 18th day of October 1928—a year which the Senator from Arkansas [Mr. ROBINSON] so well remembers:

John L. Lewis, president of the United Mine Workers of America, urged the election of Herbert Hoover as President in an address

broadcast over 21 stations of the Columbia Broadcasting System network last night as part of the program of the Republican National Committee's radio hour.

On the Democratic ticket that year were the Honorable Alfred E. Smith, of New York, and the senior Senator from Arkansas, Mr. ROBINSON. John L. Lewis, who is now becoming such a factor in the Halls of the United States Congress, requested that Herbert Hoover should be elected.

I quote further from the article:

Speaking in the studio of station WOR—

Which is located in New Jersey—

Mr. Lewis said that from the viewpoint of organized labor, as well as of business and industry, unprecedented conditions made it imperative that Mr. Hoover be elected.

That is the same Mr. Lewis who desires the passage of the famous revamped Guffey coal bill. Here is an exact quotation from him.

"We are in the midst of a new industrial revolution which has become the marvel of the civilized world," he said. "The astounding basis of procedure underlying this new development has been that prices should be lowered to the consumer and at the same time the wages of labor should be indeterminately increased in accordance with the principle of increased productive efficiency."

After discussing conditions during and after the war, Mr. Lewis said: "The vital need of Mr. Hoover's election to the Presidency becomes clearly apparent." He continued: "Labor and industry require his services and genius for constructive industrial statesmanship, so that the unprecedented industrial and business prosperity which he inaugurated may be properly developed and stabilized"——

Mr. CLARK. Mr. President, will the Senator yield?

Mr. HOLT. I shall be glad to yield to the Senator for a question.

Mr. CLARK. Mr. Lewis, by that course, put himself somewhat in the same situation as the famous tenderfoot who went out to hunt bears, and upon whose tombstone it was written: "He whistled for the grizzly, and the grizzly came." [Laughter.]

Mr. HOLT. Mr. President, John L. Lewis then wanted the country stabilized, just the same as he wants the coal industry stabilized today—

"and in order further that the way which he has opened to human and social betterment may be widened and made certain for coming generations of our people."

(At this point a message was received from the House of Representatives, which appears elsewhere in today's RECORD.)

Mr. HOLT. Mr. President, a parliamentary inquiry before I proceed.

The PRESIDENT pro tempore. The Senator will state it.

Mr. HOLT. If I yield for a quorum call, I understand that I do not lose the floor. Is that correct?

The PRESIDENT pro tempore. The Senator will not lose the floor; but he will have to be recognized again, and make his second speech.

Mr. HOLT. On the question of business being transacted?

The PRESIDENT pro tempore. The Senator cannot hold the floor while a quorum call is proceeding.

Mr. HOLT. Mr. Lewis wanted to stabilize the country by the election of Herbert Hoover, and it must have been stabilized in good shape, because we saw the condition during the 4 years of Hoover.

Now Mr. Lewis comes to us and requests us to pass a coal bill to stabilize the industry. If this coal bill would not stabilize the coal industry any better than Herbert Hoover stabilized the country, I am sure we do not want such stabilization.

Now I desire to read a little further. I realize that Senators wanted my opinion on this bill before they adjourned, and I appreciate that compliment, and I am just going to quote from John Lewis, who sat in the gallery and was very efficient today in his activities. Now I desire to read from John L. Lewis' book a little further. This is what is said on page 16 of a book called "The Miners' Fight for American Standards", by John L. Lewis.

Mr. MINTON. Mr. President, will the Senator yield?

Mr. HOLT. If I do not lose the floor, because I realize that is what is trying to be brought about.

The PRESIDENT pro tempore. The Senator may yield for a question, and nothing else.

Mr. MINTON. I desire only to ask the Senator a question.

Mr. HOLT. Mr. President, is the Senator from Indiana going to ask me a question?

Mr. MINTON. I had that in mind; yes. [Laughter.] If I get the drift of the Senator's argument——

Mr. HOLT. I have not really started to argue.

Mr. MINTON. I admit it is not much of an argument up to now. [Laughter.] What I had in mind was this, if I get the drift of what the Senator is saying, that Mr. Lewis is in an inconsistent position today, having backed Hoover in 1928, and being in the campaign for Roosevelt, or for this administration, in the year 1936. Is that correct?

Mr. HOLT. Mr. Lewis has been inconsistent in most everything he has done.

Mr. MINTON. At least the Senator assumes that Mr. Lewis is now inconsistent in that position?

Mr. HOLT. I do not believe anyone knows where Mr. Lewis is on most anything.

Mr. MINTON. Then he is very inconsistent?

Mr. BARKLEY. Mr. President, will the Senator yield?

Mr. HOLT. I yield for a question.

The PRESIDENT pro tempore. The Senator may yield for a question.

Mr. BARKLEY. Did the Senator know that Mr. Lewis had supported Mr. Hoover when he voted for the coal bill in the last session of Congress?

Mr. HOLT. No; I did not.

Mr. BARKLEY. If he had known it, would he have voted against it?

Mr. HOLT. I would not have voted against the bill, but it certainly would have weakened my idea of Mr. Lewis' judgment. It actually did that.

Mr. MINTON. The question I wanted to ask——

Mr. HOLT. Does the Senator from Indiana desire to ask me a question?

Mr. MINTON. Yes.

Mr. HOLT. Very well.

Mr. MINTON. The question I wanted to ask the Senator from West Virginia was this: Being on the subcommittee which had in charge the hearing on the Guffey bill in the last session, I remember very distinctly the junior Senator from West Virginia appearing before the subcommittee and telling us how important it was to the State of West Virginia that the Guffey coal bill be passed, and that we need not be fooled by the propaganda of certain coal producers. Now I find the junior Senator from West Virginia on the other side of the case. Does the Senator feel that his position today is consistent with his position in 1935?

Mr. HOLT. Absolutely. I will tell the Senator from Indiana very clearly something about the Supreme Court, about which he has talked so much.

I was in favor of the original Guffey bill because it contained a number of provisions in behalf of the man who works—the miner. It had in it provision for regulation of wages; it had in it provision for regulation of hours; it had in it provision for better working conditions. The pending Guffey coal bill does not have any of those labor provisions in it. Does that answer the Senator from Indiana?

Mr. MINTON. Not quite; because I find upon the second hearing on the pending bill, which the Senator is discussing, that the same labor men, the same mine workers, in whom the Senator was interested in the first instance were here in the interest of this bill, because they believe it would be in their interest to have this bill passed; and the same coal producers for whom the Senator spoke in the first hearing and for whom he vouched in the first hearing are here today asking for the passage of this bill.

Mr. HOLT. The Senator may look at that with the idea of realizing that this bill is nothing but a price-fixing statute, and whether Mr. Lewis wants it or not Mr. Lewis is not going to get it. Mr. Lewis is not particularly interested, in my opinion, in the miners in my State and in the miners in the

Senator's States as much as he is interested in building himself up with the idea that he may be President in 1940.

Mr. MINTON. Mr. President, will the Senator yield?

Mr. HOLT. For a question.

Mr. MINTON. I merely desire to bring to the Senator's attention the fact that the same people for whom he spoke and whose cause he espoused in 1935 were the same people from West Virginia who are espousing this bill which is now before the Senate, and I merely wanted to know whether or not the Senator from West Virginia repudiates the people in 1936 for whom he spoke in 1935.

Mr. HOLT. I shall be glad to answer the Senator in this way. They questioned me during the recent campaign in West Virginia, when 250,000 Democrats stayed away from the polls. They questioned me about that and said, "Why do you fight these people you used to be with?" My only answer was that I admitted that I did go to bed with certain labor leaders, but when I woke up in the morning and found out whom I was in bed with, I guarantee that I never went back again. When I found I was in bed with John Lewis, I could not get around his bulldozing and got out of bed as quickly as I rolled over and found out who was there. I am proud of the fact that I am not a bedmate of John Lewis or any of his bulldozers. I am not a bit afraid of his political power. John Lewis was sitting in the gallery today and was very much interested in the bill. I am not his bedmate any more. [Laughter.]

Mr. MINTON. The Senator has consorted with him some in days gone by.

Mr. HOLT. I may have in the past, but that was in my young days before I was educated in the United States Senate.

Now I desire to go ahead with the reading of the book by John L. Lewis, whom I think we have discussed a little tonight. It is said on page 16 of the book called The Miners' Fight for American Standards what I shall read. I will quote this because I feel Senators ought to understand it. Speaking of the United Mine Workers, he said:

It has a right to ask not only the moral but the political support of every real American in the effort it is making, especially in its endeavor to restore the status of citizenship to many thousands who are now deprived of the elemental rights and privileges of American manhood and womanhood.

Here is something else he says on page 15. I skipped a page:

The policy of the United Mine Workers of America at this time is neither new nor revolutionary. It does not command the admiration of visionaries and utopians. It ought to have the support of every thinking businessman in the United States, because it proposes to allow natural economic laws free play in the production and distribution of coal.

Listen to that. Here is John L. Lewis himself speaking:

It ought to have the support of every thinking businessman in the United States, because it proposes to allow natural economic laws free play in the production and distribution of coal.

That is John Lewis. "Natural economic laws", which he says we cannot use now. Let me go a little bit further and see something else on page 17 of this book. There are only 189 pages in it, so I am sure the Senator from Indiana would like to read it:

Undoubtedly there will be many who will say that the United Mine Workers of America betrays a lack of foresight and ability in trusting merely to the operation of natural economic laws to bring about a permanent improvement.

That is John Lewis. He says:

Undoubtedly there will be many who will say that the United Mine Workers of America betrays a lack of foresight and ability in trusting merely to the operation of natural economic laws to bring about a permanent improvement. The union must confess that it has no patent cure-all in its pantry. The American people have become so accustomed to the proffer of sure cures by politicians and economic quacks that many of them are disappointed when any man or organization fails to promise a removal of any ill by short-cut, easy way, or magic formula.

I wish Senators to realize that this is not RUSH HOLT talking. That is John Lewis talking. I realize that the Senate desires to know what I think of the bill, but I wish the Senate to know what John Lewis thinks of it. He says:

The Union must confess that it has no patent cure-all in its pantry. The American people have become so accustomed to the proffer of sure cures by politicians and economic quacks that many of them are disappointed when any man or organization fails to promise a removal of any ill by short-cut, easy way, or magic formula.

However, many of the newspaper-reading public undoubtedly will recall that governmental commissions, manned by the best that America can muster in engineering skill, economic acumen, political and legal knowledge, backed by every resource of research and statistical analysis, have in recent years studied the coal problem from mine to cook stove, and failed to find any other remedy except the free play of the same economic laws which brought the coal industry into being.

Let me quote again from John Lewis. He says:

That governmental commissions, manned by the best that America can muster in engineering skill, economic acumen, political and legal knowledge, backed by every resource of research and statistical analysis, have in recent years studied the coal problem from mine to cook stove, and failed to find any other remedy except the free play of the same economic laws which brought the coal industry into being.

That was John Lewis in the past. Today is John Lewis saying something else? I would like to refer this to my good friend from Indiana.

There has been a great output of literature on coal in recent times, which has condemned the industry as planless, wasteful, and destructive of fuel resources, which our great-great-grandchildren may sadly miss in 2025 A. D.

For a winter's night in front of a good coal fire, burning some of this wastefully and planlessly mined coal, these books offer real entertainment.

It is interesting to probe the mythology of various peoples and explore the haunts of the cave men in an effort to find out when our ancestors learned to make a fire, and discovered how coal would burn. It is fascinating to speculate on how the capture of the sun's heat now wasted on the Sahara Desert may eventually close the world's mines. However, this knowledge will never fill a 10-ounce coal pail for a single New York tenement dweller during a shortage, nor ever determine what should be a fair price for the pail, in the opinion of all the parties to the complicated processes and transactions, which brought that coal to the buyer.

Let us admit at the outset, that the coal industry was not conceived, planned, and blue printed by scientific supermen or young critics just out of Harvard.

That reminds me of something about these critics out of Harvard, that they have so much to say, these brain trusters you know, that draw up these bills. Here is what John Lewis thinks of them:

Let us admit at the outset that the coal industry was not conceived, planned, and blue printed by scientific supermen or young critics just out of Harvard, who are fully equipped to tell us of all the mistakes our granddads made.

The Senator from Indiana told me about my mistakes in being with John Lewis. I admit it.

Coal, like all other minerals, was discovered, its uses learned, and as the demand for it grew, men with capital prospected for it, found it, opened mines, and employed miners. In time the industry, like others, was overdeveloped and overproduction became chronic. This overdevelopment and overproduction would have been checked as in most other industries, if economic law had been given free play.

Listen to that. That is John Lewis.

This overdevelopment and overproduction would have been checked as in most other industries, if economic law had been given free play.

That is the law of demand and supply that he is trying to change.

It is in these obstructions to the operation of fair competition in the industry and its ills, that the industry is economically most peculiar today.

The charge of planlessness and waste can be laid with equal justice at the door of nearly every American industry—lumbering, oil, and farming, for instance. However regrettable planlessness and waste may be from an idealistic standpoint, many of us are so hard-headed as to suspect that America would never have been settled, and American industries would never have been developed to a point where it was possible or worth while to economize, if it had not been possible to exploit our natural resources under free conditions in the beginning.

In other words, John Lewis at that time said that we should have a right to exploit that under free conditions.

It is said that we have skimmed the cream off our country. But it is also true that it is from the use of that cream that we acquired the capital and equipment with which later to develop the vast resources of lower grade, the use of which now maintains a nation of 114,000,000 people.

The bituminous-coal resources of the United States are so enormous and have been so lightly touched that any discussion of past waste is now scarcely of academic interest.

The charge of monopoly in the bituminous-coal industry must have been made somewhere by somebody, because signs of such an impression can be detected in popular discussion. From the nature of the bituminous-coal resources of the country, their distribution, and the modes of production employed, there has never been and cannot be any such control over the soft-coal supply.

That is John Lewis. Listen again to this:

From the nature of the bituminous-coal resources of the country, their distribution and the modes of production employed, there has never been and cannot be any such control over the soft-coal supply.

It may be worth while to quote at this point the United States Coal Commission:

"There is no evidence of any combination or monopoly among producers and shippers of bituminous coal now or at any time, to control production or influence prices."

When did they start it?

"In fact the mines are so numerous, the control so diversified, and the competition so keen that such a combination even to influence the price is inherently impossible."

Private control of a monopolistic nature which could limit production according to any plan or formula being impossible, it may be worth while to consider in passing the possibility of Government control of this industry.

May I repeat that, because I realize the Senate wants to hear it?

Private control of a monopolistic nature which could limit production according to any plan or formula being impossible, it may be worth while to consider in passing the possibility of Government control of this industry.

It is difficult to conceive how any such control through political agencies could function without putting straight jackets upon the supply of industrial energy that would bring paralysis of initiative and enterprise in all other business lines.

Let me read that again:

It is difficult to conceive how any such control through political agencies could function without putting strait jackets upon the supply of industrial energy that would bring paralysis of initiative and enterprise in all other business lines. The quantity of coal needed for the factories and homes of America cannot be determined in advance, simply is not subject to exact forecast, because it varies from day to day with the ebb and flow of business not only in America but around the world. The writer is convinced that such an indeterminate quantity cannot be regulated artificially in a manner even to promote stability, much less insure it.

Before I go back to that I want again to refer to this point. He uses the word "stability" again. He said:

The writer is convinced that such an indeterminate quantity cannot be regulated in a manner even to promote stability.

I look at the title of the pending bill and I find that it is desired to "stabilize" the coal industry. That is my understanding. Mr. Lewis says it cannot be done. I realize Mr. Lewis wants to know how I stand on the bill, but during the next hour and 10 minutes I want to tell Mr. Lewis how he stands on the bill. I read further:

Coal is so intimately related to every other industrial activity that the only manner in which we can hope to have the coal industry function in tune with the rest of the industrial system is to see that coal remains at all times subject to the same economic laws which are simultaneously determining the volume of all production and distribution of commodities.

I want to repeat that because I am sure the Senate wants to understand it. I am sure Senators are interested in John Lewis, and here is what he said:

Coal is so intimately related to every other industrial activity, that the only manner in which we can hope to have the coal industry function in tune with the rest of the industrial system, is to see that coal remains at all times subject to the same economic laws which are simultaneously determining the volume of all production and distribution of commodities.

Despite its handicaps and fundamental evils, that must be corrected within the industry before coal can claim to be keeping step with more advanced industries, America reaps the benefits of the cheapest coal in the world, due primarily to the productivity of the American miner, which is more than three times that of the British mine worker.

I will go now to page 70, because that is another important part I want the Senate to hear before I repeat it:

During the war period, and as late as 1920, when huge profits were being reaped by operators, the mine workers expected the coal companies to put their affairs in order. They had a right to expect and anticipate that the large earnings of this period would enable the operators to improve their equipment and roll up large surpluses to meet the nonunion competition of lean years which were sure to come.

During the war period, when they got all these increased prices for coal, did they give the increases to the miner? Let me repeat what Mr. Lewis said, because I want the Senate to hear it.

During the war period, and as late as 1920, when huge profits were being reaped by operators, the mine workers expected the coal companies to put their affairs in order. They had a right to expect companies to put their affairs in order. They had a right to expect and anticipate that the large earnings of this period would enable the operators to improve their equipment and roll up large surpluses to meet the nonunion competition of lean years which were sure to come.

And now, after the operators have neglected their opportunity, when the earnings of the boom period have been dissipated in needless land purchases and unwise investments in other fields of industrial endeavor, the mine worker says to the operators, "You passed up your opportunity; you cannot take from me now the earnings that rightly should accrue from my labor to pay the costs of your business stupidity."

That is what he said with reference to that particular point.

I now turn to page 93 of the book. May I inform Senators that there are only 188 pages in the book. I read:

On the other hand, certain economic laws like that of demand and supply are universal in their application, and many of the local ills of the industry, on examination, turn out to be merely variations of the general malady. This will be discussed later in dealing with some concrete examples of friction between management and men caused by the different conditions of mining and the productive capacity of properties.

It would seem that in regard to an industry which is admitted on all sides to be suffering from chronic overproduction that the stock charge against organized labor that it restricts the output would be omitted. But the enemies of the miners' union have overlooked the inherent comedy of such a charge and their faith in the credulity of the public appears to be one of those things so sublime that it borders on the ridiculous.

That is what John Lewis thought about the bill.

Now, I want to read from the CONGRESSIONAL RECORD from a speech inserted by my colleague from West Virginia, who is sponsoring the pending bill, to show what he thought about the coal bill when the coal miners were not organized, and did not have the votes that they now claim to have. I have heard several reasons assigned for the desire for the passage of the bill. One of them is that it means 300,000 votes in Pennsylvania; and, secondly, that it means a lot of votes in different States of the Union. I read from the CONGRESSIONAL RECORD:

PROPOSED COAL LEGISLATION

Mr. NEELY. Mr. President——

Mr. ROBINSON of Indiana. I yield to the Senator from West Virginia if he simply wants to present something at the desk.

Mr. NEELY. Mr. President, I ask unanimous consent to read for the benefit of the Senate a brief article entitled "No Coal Legislation", which appeared in the Boston Herald on the 29th day of May 1926. It sufficiently answers the querulous and paternalistic editorial in today's New York World which the distinguished Senator from New York [Mr. COPELAND] has read into the record.

Mr. ROBINSON of Indiana. Mr. President, I think I shall have to decline to yield.

Mr. NEELY. I assure my friend from Indiana that I shall consume but a few minutes of his time.

Mr. ROBINSON of Indiana. I understood that the Senator simply wanted to present something at the desk.

Mr. NEELY. No; I do not want to embalm it; I desire to read it.

Mr. ROBINSON of Indiana. Very well.

Mr. NEELY. The article is as follows:

"NO COAL LEGISLATION"

This is my colleague speaking, who is supporting the pending bill, and who says he is for regulation, that we should have regulation. Here is what he said before he went out

of the Senate the last time. He went out the last time that he ran for reelection, and here is what he said:

Mr. NEELY. The article is as follows:

"NO COAL LEGISLATION

"Our idea is that Congress would do well to adjourn without passing any coal legislation. Any business which is open to so wide competition as coal mining will take care of itself, just as does the textile manufacturer and countless others. When governments get into the game, as the British Government did with the coal industry in Great Britain, the long-distance results are unhappy. If we have legislation giving the President authority to act in an 'emergency', who is to judge when that arises? We might have a socialistic President who would see an emergency, for political or other purposes, long in advance of its arising. We have had a coal strike. It led to undoubted inconvenience, but to no real suffering. Had the Government been a partner in the enterprise we should, as American consumers, be far less happily situated than we are today. Let economic law work its way out."

That was my colleague from West Virginia speaking.

Let economic law work its way out.

And I suggest to the Senate that that was when the United Mine Workers did not have many members voting in West Virginia. That was when they had only a few votes; and, of course, you may surmise what I mean by that.

Let individual enterprise rather than bureaucratic oversight determine our industrial future with coal as with other things.

I wish to read that again:

Let individual enterprise rather than bureaucratic oversight determine our industrial future with coal as with other things.

I anticipate that the World may demur to the sufficiency of the foregoing as a reply to its editorial, and I therefore venture, with supreme confidence, to inform this truly great newspaper that there will be no communistic coal legislation enacted by the Congress during the present session unless the date of our proposed adjournment be postponed from the 26th day of June until after the autumnal equinox.

May I read that paragraph again? This is my colleague, who now says we should regulate the coal industry.

I anticipate that the World may demur to the sufficiency of the foregoing as a reply to its editorial, and I therefore venture, with supreme confidence, to inform this truly great newspaper that there will be no communistic coal legislation enacted by the Congress during the present session unless the date of our proposed adjournment be postponed from the 26th day of June until after the autumnal equinox.

It is a matter of rather common knowledge that the New York World and a large proportion of the people of the city in which it is published are bitterly opposed to the Federal Government interfering with the illegitimate liquor business that flourishes in a certain Eastern State, which, because of my respect for the rules of the Senate, I refrain from naming.

That was the State of Mr. COPELAND, who was sponsoring the bill that was being fought at that particular time.

The Representatives in this body of the States of West Virginia, Virginia, Pennsylvania, Ohio, Indiana, Illinois, Kentucky, and Tennessee protest against the Federal Government interfering with the legitimate business of producing coal.

Now I desire to quote from my colleague again, and tell you what he thought about coal legislation. I have not yet told you what I think about it. I am just reading from the proponents of the bill, Mr. John L. Lewis and my colleague from West Virginia. Here is what he said: Let me quote it again. I think the Senator from New York recalls that famous fight over the coal legislation proposed at that particular time.

The Representatives in this body of the States of West Virginia, Virginia, Pennsylvania, Ohio, Indiana, Illinois, Kentucky, and Tennessee protest against the Federal Government interfering with the legitimate business of producing coal.

Mr. BRUCE. Mr. President, will the Senator yield to me?

Mr. ROBINSON of Indiana. I cannot yield for any extended discussion.

Mr. BRUCE. I simply wish to say to the Senator that he may add Maryland.

Mr. NEELY. I am delighted to hear that Maryland, as usual, opposes an extension of bureaucratic government—

That was when they were trying to put this bureau on top of it.

Mr. NEELY. I am delighted to hear that Maryland, as usual, opposes an extension of bureaucratic government, and I am greatly heartened to know that those of us who are opposing this latest paternalistic proposal are to have the valuable assistance of the able Senator from Maryland [Mr. BRUCE].

Let me again say that this statement was made when the United Mine Workers did not have many votes in West Virginia. That was after the Jacksonville agreement had been broken, and my colleague said this; and I wish to repeat it for the third time, so that you may hear it. Here is my colleague speaking about this matter:

Mr. NEELY. I am delighted to hear that Maryland, as usual, opposes an extension of bureaucratic government, and I am greatly heartened to know that those of us who are opposing this latest paternalistic proposal are to have the valuable assistance of the able Senator from Maryland [Mr. Bruce].

Every Member of Congress knows—or, at least, ought to know—that there has not been a time during the last 5 years when the coal operators of the country were not able and anxious to furnish millions of tons of bituminous coal in excess of all demands at bargain-counter prices.

That is not RUSH HOLT speaking. That is MANSFIELD NEELY speaking about the bill which he is now sponsoring before the Senate.

Even during the recent anthracite strike the operators of West Virginia alone offered an unlimited supply of run-of-mine high-volatile coal, delivered on railroad cars at the mouth of the mine, at an average price of less than $1.60 a ton. There never has been, and there is not now, a single reason, or a shadow of a reason, for governmental interference with the coal industry of the United States.

That is the floor leader of the present bill. Here is what he said when that bill was up, and again I say, when the United Mine Workers did not have many votes in West Virginia. Here is what he said:

Even during the recent anthracite strike the operators of West Virginia alone offered an unlimited supply of run-of-mine high-volatile coal, delivered on railroad cars at the mouth of the mine, at an evarage price of less than $1.60 a ton. There never has been, and there is not now, a single reason, or a shadow of a reason, for governmental interference with the coal industry of the United States.

I did not make that statement. That was my colleague. I want you all to understand that. That was my colleague, who is so strongly in favor of this bill. He said:

There never has been, and there is not now, a single reason, or a shadow of a reason, for governmental interference with the coal industry of the United States.

Again I say that was when the United Mine Workers were not well organized.

Let me very respectfully warn a number of my colleagues who have apparently determined to support the always industrious, persistent, and able Senator from New York [Mr. COPELAND] in his effort to pass the communistic coal bill, with which he has for months been bedeviling the Senate, that before this measure reaches a final vote a vigorous effort will have been made to amend it by providing for Federal supervision of the textile industry of New England; the manufacturing business of the East; the gold, silver, lead, and copper mining of the Northwest; and the agricultural and stock-raising industries of the rest of the country.

My colleague said he was afraid that if the Senate passed the bill to regulate the coal industry, what would be the result of it? Let me again quote from my colleague, who speaks so strongly for this bill. Here is what he said:

Let me very respectfully warn a number of my colleagues who have apparently determined to support the always industrious, persistent, and able Senator from New York [Mr. COPELAND] in his effort to pass the communistic coal bill, with which he has for months been bedeviling the Senate, that before this measure reaches a final vote a vigorous effort will have been made to amend it by providing for Federal supervision of the textile industry of New England; the manufacturing business of the East; the gold, silver, lead, and copper mining of the Northwest; and the agricultural and stock-raising industries of the rest of the country.

If Federal supervision of bituminous coal, which for many years has been the cheapest of all necessaries of life is a good thing, those of us who represent coal-producing States are not selfish enough to desire a monopoly of this governmental benefaction.

Again I quote from my colleague about bureaucracy controlling the coal industry:

If Federal supervision of bituminous coal, which for many years has been the cheapest of all necessaries of life, is a good thing, those of us who represent coal-producing States are not selfish enough to desire a monopoly of this governmental benefaction.

He was willing, if Congress was going to put the bureaucracy in West Virginia, to give it to all the rest of the country.

We are determined that the boon of Federal supervision shall be extended to every other article of commerce in the country at the

same time that it is forced upon those who are engaged in the production of coal.

Here is what my colleague said, I wish to repeat that again. My colleague, who has said that we should have Federal supervision then said:

We are determined that the boon of Federal supervision shall be extended to every other article of commerce in the country at the same time that it is forced upon those who are engaged in the production of coal.

I do not know how much longer I have to speak, because I do not think there is any particular limit on debate tonight. But I desire now to jump from the coal bill temporarily to the Works Progress Administration.

I desire to talk on the W. P. A. because I realize it was desired to keep Senators here to listen to what I say about the coal industry, so that they can take it back to West Virginia and distort it in such a way to try to mislead the people. That is why the Senate is in session.

(At this point Mr. HOLT yielded to Mr. GEORGE to report, as in executive session, the nomination of Marion J. Harron, which was confirmed.)

WORKS PROGRESS ADMINISTRATION

Mr. HOLT. Mr. President, now I shall discuss the Works Progress Administration, because it is said that it affects employment, and I am interested in employment.

In the first place, I should like to know from the Chair—and I do not want to lose the floor—what has become of the resolution to investigate the W. P. A.? Propounding that parliamentary inquiry will not cause me to lose the floor, will it?

The PRESIDENT pro tempore. It is not a parliamentary inquiry, because the Chair is not presumed to know what has happened to these matters.

Mr. HOLT. I am asking if it is on the desk at the present time.

The PRESIDENT pro tempore. It is not on the desk, so far as the Chair knows.

Mr. HOLT. Sometime ago a resolution was introduced to investigate the Works Progress Administration of the United States. I was very much in favor of investigating the W. P. A. I think I have talked about the W. P. A. on this floor, and I desire to talk some more about it tonight.

In West Virginia we have a W. P. A. which is supposed to be a part of the W. P. A. of the whole United States, and in charge of the W. P. A. in West Virginia is a man by the name of F. W. McCullough, who is the administrator in our State. Mr. McCullough at one time was on the State Board of Control of West Virginia, and due to some bad financial transactions relative to the Huntington State Hospital, Mr. McCullough was required to resign as a member of the State Board of Control. He was given a Federal job, and is on the Government pay roll at the present time drawing a $6,000 salary.

At the head of the W. P. A. in West Virginia is a State organization with a director, and under it there are six divisions of the W. P. A. There is one located in Fairmont, there is one located in Huntington, there is one located in Parkersburg, there is one located in Elkins, there is one located in Lewisburg, and there is one located in Charleston. There are six divisions of the W. P. A. in West Virginia.

A few days ago I wanted to find out who was on the W. P. A. pay roll in West Virginia. I had the information some time back, but I wanted to find out who was on the pay roll on the 1st day of May. It was said there was no need of investigating the W. P. A. It will be remembered it was said, "You have no need of investigating it, because if you write to the State office you can get all the information you want." I took that advice and wrote, and here is their reply to me:

DEAR SENATOR HOLT: In reply to your letter of May 27 requesting a list of administrative and supervisory employees, together with their respective salaries as of May 1, 1936.

Under existing rules and regulations we respectfully refer you to the Federal Administrator's office in the Walker-Johnson Building, 1734 New York Avenue NW., Washington, D. C.

Very truly yours,

DISTRICT DIRECTOR.

I just wanted to get a list of all those on the pay roll.

Mr. MINTON. Mr. President, will the Senator yield?

Mr. HOLT. I will, with the understanding that I do not lose the floor.

Mr. MINTON. I am only going to ask the Senator a question.

Mr. HOLT. I shall be glad to yield for a question.

Mr. MINTON. I think the Senator is interested in what is going to happen in November. I was just wondering whether he is going to support President Roosevelt in November.

Mr. HOLT. I would like to say to the Senator from Indiana that if he will come around when the time comes I will be glad to tell him whom I will support.

Mr. MINTON. The Senator does not want to go on record. Will the Senator tell us now whether he expects to support the Democratic nominee for Senator in West Virginia?

Mr. HOLT. Does the Senator mean the Democratic nominee who is my colleague?

Mr. MINTON. Yes.

Mr. HOLT. Mr. President, if I should say what I thought of him I would be violating the rules of the Senate, because I am not allowed to talk about my colleagues in that way. Nevertheless, I shall be glad to ask the Senator from Indiana if he will discuss with me the fact that my colleague is running for office. He is not running for Governor; he may not be defeated for Governor, as the Senator's sponsored candidate was defeated in the State of Indiana in the last week or so. Nevertheless, I am now talking about the W. P. A. That is one of the alphabetical agencies known as the Works Progress Administration.

There are all kinds of alphabets here in Washington. I learned them when I was 3 years old, and I knew them all. There is the A. A. A., and there is the N. E. C. Then there is the P. W. A. and then the W. P. A. and then there is the S. E. C. There are so many alphabetical agencies in Washington I cannot think of all of them, but I do know of the W. P. A. I will have to tell Senators a story, because I know the Senate wants to hear it. Two weeks ago they had a picnic 5 miles from my home. They told all the W. P. A. employees to come to Jacksons Mill, which is the birthplace of Stonewall Jackson. They told them to come and have a great time. Their expenses were not to be paid, but they would be paid for 4 hours' work. In other words, they could come and have a picnic.

The first name of the head of W. P. A. was Witcher. So I decided to change the name of that organization to "Witcher's Picnic Association" as W. P. A. In other words, he wanted to have a picnic, and I was perfectly willing to have him have it; but at the same time he was having a picnic in the State of West Virginia, paying thousands of dollars, while there were thousands of my fellow citizens begging for an opportunity to get a job to feed their families, and they told them that they had no jobs because of lack of funds. There were thousands of others who were going to be thrown off because they have this tremendous overhead of the W. P. A. in the State of West Virginia.

First they have the State department. Then on top of that are all the district departments. Then on top of all the district departments are the area departments. On top of the area departments are the county departments. On top of the county departments are the project offices. Just think of that. We have a State W. P. A., we have a district W. P. A., we have an area W. P. A., we have a county W. P. A., and we have a project W. P. A., and all those men have offices. Every one of them gets a salary. In some way or other all those people on the W. P. A. have to be paid before the man down in the ditch gets anything.

As soon as they start cutting the pay roll on the W. P. A. they start at the bottom. They do not start at the top. They start tearing down here and throwing out of employment the hundreds and hundreds of fellows down at the bottom who are begging for a day's work.

Maybe those men were the "right boys" that they talked about in the affidavit I showed the Senate sometime back, and maybe they are O. K.'d by the right political advisers. I do not know about that. Nevertheless, I realize that the

W. P. A. in my State, as the same is true all over the United States, is the most wasteful and extravagant spender of public money that has ever been known. The W. P. A. has wasted more money, in my opinion, than all the administrations before the present. There is reckless extravagance under Harry Hopkins. Harry Hopkins is the head of the W. P. A. He says there is no politics in the W. P. A. He says there is no politics in the W. P. A., and if politics does get into the W. P. A. it is because of some dumb politician, or because there had been a slip up in his office through some other means that I do not know of.

That is the W. P. A. in the State of West Virginia. That W. P. A., as I say, has 55,000 employees, or did have that many. I do not think it has over 40,000 now. Of those 55,000 employees we find that the number was reduced day after day and day after day, and the high salaries of these people at the top kept on going and going and going on.

I shall refer again to the W. P. A. after awhile, but I promised the Senate that I would review some of Aesop's Fables. I desire to read certain of Aesop's Fables to the United States Senate, because they are all very important and have morals which the Senate could follow. Here is the story of the wolf and the shepherd:

A wolf followed a flock of sheep for a long time, and did not attempt to injure one of them. The shepherd at first stood on his guard against him, as against an enemy, and kept a strict watch over his movements. But when the wolf, day after day, kept in the company of the sheep and did not make the slightest effort to seize them, the shepherd began to look upon him as a guardian of his flock rather than as a plotter of evil against it; and when occasion called him one day into the city, he left the sheep entirely in his charge. The wolf, now that he had the opportunity, fell upon the sheep and destroyed the greater part of the flock. The shepherd on his return finding his flock destroyed, explained: "I have been rightly served; why did I trust my sheep to a wolf?"

The motto is:

Honest enemy cannot do the harm that false friends will do.

Here is another one the motto of which is: "Truth hurts whom it should."

The name of it is "The Elephant and the Assembly of Animals."

The wise elephant saw among the beasts many abuses which called loudly for reform. He therefore assembled them, and, with all due respect and humility, began a long harangue—

Like my own right now—

remarking all their vices, particularly their unworthy idleness, their rapacious selfishness, their wanton cruelty and frightful envy. To many of his auditors this speech appeared extremely delightful and judicious, and they listened with open-mouthed attention, especially the innocent dove, the faithful dog, the obedient camel, the harmless sheep, and even the little, industrious ant. Another part of the audience were extremely offended, and could scarcely endure so long an oration; the tiger, for instance, and the rapacious wolf were exceedingly tired—

I expect many Members of the Senate are tired—

while a murmur of disapprobation burst from the wasp, the drone, the hornet, and the fly. The grasshopper hopped disdainfully away from the assembly. The elephant concluded his discourse with these words: "My advice is addressed equally to all, but remember that those who feel hurt by any remarks of mine acknowledge their guilt. The innocent are unmoved."

The motto of that is "Truth hurts whom it should."

That is very interesting to John Lewis and Senator NEELY whose previous remarks I have read.

I am now going to read the fable of the dog, the cock, and the fox:

A dog and a cock, being great friends, agreed to travel together. At nightfall they took shelter in a thick wood. The cock, flying up, perched himself on the branches of a tree, while the dog found a bed beneath in the hollow trunk. When the morning dawned, the cock, as usual, crowed very loudly several times. A fox hearing the sound, and wishing to make a breakfast on him, came and stood under the branches, saying how earnestly he desired to make the acquaintance of the owner of so magnificent a voice. The cock, suspecting his civilities, said, "Sir, I wish you would do me the favor to go around to the hollow trunk below me and wake up my porter, that he may open the door and let you in." On the fox approaching the tree, the dog sprung out and caught him and tore him in pieces.

The motto of that fable is, "While setting one trap you may step into another."

I now read another one, and I think it is a very important one at this time. The name of it is "The North Wind and the Sun."

The North Wind and the Sun disputed which was the most powerful and agreed that he should be declared the victor who could first strip a wayfaring man of his clothes. The North Wind first tried his power and blew with all his might; but the keener became his blasts, the closer the traveler wrapped his cloak around him; till at last, resigning all hope of victory, he called upon the Sun to see what he could do. The Sun suddenly shone out with all his warmth. The traveler no sooner felt his genial rays than he took off one garment after another, and at last, fairly overcome with heat, undressed and bathed in a stream that lay in his path.

The motto of that is "Persuasion is better than force."

I say that to the Senator from Arkansas.

(At this point Mr. HOLT yielded to Mr. ROBINSON for the consideration of the final adjournment resolution.)

Mr. HOLT. Mr. President, I continue my reading. This is the fable of the eagle, the cat, and the wild sow, as follows:

An eagle had made her nest at the top of a lofty oak. A cat, having found a convenient hole, kittened in the middle of the trunk; and the wild sow, with her young, had taken shelter in a hollow at its foot. The cat climbed to the nest of the eagle and said, "Destruction is preparing for us. The wild sow wishes to uproot the oak, that she may on its fall seize our family as food." Having thus deprived the eagle of her senses through terror, she crept down to the cave of the sow, and said, "Your children are in great danger; for as soon as you shall go out to find food, the eagle is prepared to pounce upon one of your little pigs." Having instilled these fears into the sow, she pretended to hide herself in the hollow of the tree. When night came she obtained food for herself and her kittens. Meanwhile, the eagle, full of fear of the sow, sat still on the branches, and the sow did not dare to go out from her cave, and thus they each, with their families, perished from hunger, and afforded an ample provision to the cat and her kittens.

Here is another fable I want to read to the Senate at this time.

(At this point Mr. REYNOLDS requested consideration of a bill to which objection was made.)

Mr. HOLT. Mr. President, I desire to read a fable about the crow and the pitcher. The moral of it is, "Necessity is the mother of invention." The fable reads as follows:

A crow perishing with thirst saw a pitcher, and, hoping to find water, flew to it with great delight. When he reached it, he discovered to his grief that it contained so little water that he could not possibly get at it. He tried everything he could think of to reach the water, but all his efforts were in vain. At last he collected as many stones as he could carry, and dropped them one by one with his beak into the pitcher, until he brought the water within his reach, and thus saved his life.

The moral of that fable is "Necessity is the mother of invention."

Here is one about the wolf and the lamb. The moral is, "A tyrant will always find a pretext for his tyranny." The fable reads as follows:

A wolf meeting a lamb astray from the fold, resolved not to lay violent hands on him, but to find some plea, which should justify to the lamb himself his right to eat him. He thus addressed him: "Sirrah, last year you grossly insulted me." "Indeed," bleated the lamb in a mournful tone of voice, "I was not then born." Then said the wolf, "You feed in my pasture." "No, good sir," replied the lamb, "I have not yet tasted grass." Again said the wolf, "You drink of my well." "No," exclaimed the lamb, "I never yet drank water, for as yet my mother's milk is both food and drink to me." On which the wolf seized him and ate him up, saying, "Well, I won't remain supperless, even though you refute every one of my imputations."

The moral of that is "The tyrant will always find a pretext for his tyranny." Shades of John Lewis!

Here is another of Aesop's fables I want to read. The next one is entitled "The Bird Catcher, the Partridge, and the Cock", and reads:

A bird catcher was about to sit down to a dinner of herbs, when a friend unexpectedly came in. The bird trap was quite empty, as he had caught nothing. He proceeded to kill a pied partridge, which he obtained for a decoy. The partridge entreated thus earnestly for his life: "What would you do without me when next you spread your nets? Who would chirp you to sleep, or call for

you the covey of answering birds?" The bird catcher spared his life and determined to pick out a fine young cock just attaining to his comb. The cock thus expostulated in piteous tones from his perch: "If you kill me, who will announce to you the appearance of dawn? Who will wake you to your daily tasks or tell you when it is time to visit the bird trap in the morning?" The bird catcher replied, "What you say is true. You are a capital bird at telling the time of day. But I and the friend who has come in must have our dinners."

The moral of that is, "Necessity knows no law."

Here is a story about the ass that carried the image. The story of that is:

An ass once carried through the streets of a city a famous wooden image, to be placed in one of its temples. The crowd, as he passed along, made lowly prostration before the image. The ass, thinking that they bowed their heads in token of respect for himself, bristled up with pride and gave himself airs, and refused to move another step. The driver seeing him thus stop, laid his whip lustily about his shoulders, and said, "O you perverse bull-head! it is not yet come to this, that men pay worship to an ass."

(At this point Mr. HOLT yielded to Mr. LA FOLLETTE, and debate ensued.)

MESSAGE FROM THE HOUSE

During the delivery of Mr. HOLT's speech,

A message from the House of Representatives, by Mr. Haltigan, one of its reading clerks, announced that the House had passed without amendment the following bills of the Senate:

S. 3107. An act to exempt publicly owned interstate highway bridges from State, municipal, and local taxation;

S. 3733. An act authorizing the issuance of a patent to certain lands in the State of Montana to Florence Kerr Facey;

S. 3808. An act for the relief of R. D. Stephens and Vera Stephens;

S. 3976. An act to amend the act approved February 27, 1931, known as the District of Columbia Traffic Act;

S. 4581. An act authorizing the payment of certain salaries and expenses of employees of the General Land Office;

S. 4670. An act to authorize the striking of an appropriate medal in commemoration of the three hundredth anniversary of the original Norfolk (Va.) land grant and the two hundredth anniversary of the establishment of the city of Norfolk, Va., as a borough; and

S. 4684. An act for the relief of the First, Second, and Third National Steamship Cos.

ENROLLED BILLS AND JOINT RESOLUTION SIGNED

The message also announced that the Speaker had affixed his signature to the following enrolled bills and joint resolution, and they were signed by the President pro tempore:

S. 1146. An act for the relief of Michael Dalton;

S. 2268. An act for the relief of Bausch & Lomb Optical Co.;

S. 2953. An act to provide for the inspection, control, and regulation of steam boilers and unfired pressure vessels in the District of Columbia;

S. 3143. An act for the relief of the Passaic Valley Sewerage Commissioners;

S. 3879. An act for the relief of James W. Grist;

S. 4241. An act to provide for the sale of a certain isolated tract of the public domain in the State of Oregon;

S. 4432. An act authorizing and directing the Secretary of War to lease land on the Fort Moultrie (S. C.) Military Reservation to the owners of certain cottages thereon;

S. 4608. An act to authorize the coinage of 50-cent pieces in commemoration of the three hundredth anniversary of the founding of York County, Maine;

S. 4633. An act to provide for the selection of certain lands in the State of California for the use of the California State park system;

S. 4634. An act to provide for the selection of certain lands in the State of California for the use of the California State park system;

S. 4648. An act to promote safety at sea in the neighborhood of ice and derelicts, and for other purposes;

H. R. 2335. An act for the relief of Cora Akins;

H. R. 3777. An act for the relief of the Herald Publishing Co.;

H. R. 7736. An act to provide for the establishment of the Whitman National Monument;

H. R. 8107. An act to authorize the coinage of 50-cent pieces in connection with the celebration of the one hundredth anniversary of the opening of the tri-State Territory of east Texas, north Louisiana, and south Arkansas by Capt. Henry Miller Shreve, to be held in Shreveport, La., and surrounding territory, in 1935 and 1936;

H. R. 9191. An act for the relief of dependents of James B. Kiley;

H. R. 11688. An act providing for a change in the design of the 50-cent pieces authorized to be coined in commemoration of the one hundredth anniversary of the admission of the State of Arkansas into the Union;

H. R. 12257. An act to extend the jurisdiction of the United States Court for China to offenses committed on the high seas;

H. R. 12324. An act to amend section 723 (a) of the Revenue Act of 1932, as amended;

H. R. 12410. An act to amend section 8 of the act entitled "An act to establish a National Archives of the United States Government, and for other purposes", approved June 19, 1934;

H. R. 12455. An act to provide for the administration and maintenance of the Blue Ridge Parkway, in the States of Virginia and North Carolina, by the Secretary of the Interior, and for other purposes;

H. R. 12876. An act to waive any exclusive jurisdiction over premises of resettlement or rural-rehabilitation projects; to authorize payments to States, political subdivisions, and local taxing units in lieu of taxes on such premises; and for other purposes; and

S. J. Res. 177. Joint Resolution to define the term of certain contracts with Indian tribes.

MARION J. HARRON

During the delivery of Mr. HOLT's speech,

Mr. GEORGE. Mr. President, will the Senator yield to me, not for a question, but to ask unanimous consent that by yielding he will not lose the floor, and will not be considered as having spoken more than once on this matter?

Mr. HOLT. Mr. President, with the understanding that I do not yield the floor, with the understanding that I will not be considered as having spoken more than once on the amendment I am to offer—I am not speaking on the bill; I intend to offer an amendment to the bill, with that understanding, I will yield to the Senator from Georgia.

The PRESIDENT pro tempore. It may be done by unanimous consent.

Mr. GEORGE. Mr. President, I ask that the Senator who now occupies the floor may yield for the purpose of permitting a report from the Finance Committee and the consideration of the report, and I ask that by so yielding he will not be considered as having lost the floor, but may resume his one continuous speech after the report shall be acted on.

The PRESIDENT pro tempore. Is there objection to the request of the Senator from Georgia? The Chair hears none, and it is so ordered.

Mr. GEORGE. Mr. President, I am directed by the Committee on Finance to report favorably the nomination of Marian J. Harron, of California, to be a member of the Board of Tax Appeals for a term of 12 years from June 2, 1936, vice Annabel Matthews, whose term has expired.

As in executive session, I ask unanimous consent that the nomination be confirmed, and the President notified.

The PRESIDENT pro tempore. Without objection, the nomination is confirmed, and the President will be notified.

DISTRICT COURT, EASTERN DISTRICT, NORTH CAROLINA

During the delivery of Mr. HOLT's speech,

Mr. REYNOLDS. Mr. President——

The PRESIDENT pro tempore. Does the Senator from West Virginia yield to the Senator from North Carolina?

Mr. HOLT. I yield, with the understanding that I do not lose the floor.

The PRESIDENT pro tempore. The Senator can yield for a question, and for nothing else, without unanimous consent.

Mr. REYNOLDS. Mr. President, I should like to state my position. I have before me——

Mr. HOLT. I am perfectly willing to yield to the Senator, but I do not want to lose the floor.

Mr. REYNOLDS. I should like to make a statement.

Mr. HOLT. If I yielded, would I lose the floor?

The PRESIDENT pro tempore. The Senator can yield only for a question, except by unanimous consent. The Senator may yield for the purpose of having unanimous consent requested, and if the Senator from North Carolina will state his unanimous-consent request, then the Chair can determine whether it will be granted or not.

Mr. HOLT. Then I will not lose the floor?

The PRESIDENT pro tempore. The Senator will not while the Senator from North Carolina is asking unanimous consent.

Mr. HOLT. Then I will yield with that understanding.

Mr. REYNOLDS. I should like to ask unanimous consent for the passage of House bill 12796. The only interest I have in the measure is that it has passed the House; relates to the holding of court in the eastern Federal district of North Carolina, and I have been requested by those interested in the court to bring about the passage of the bill giving to New Hanover County 1 week less of the Federal court.

The PRESIDENT pro tempore. The Senator from North Carolina asks unanimous consent that the Senator from West Virginia may yield for the purpose of having the measure to which he has referred taken up and acted upon, and he asks that by so yielding he shall not lose the floor or be considered as having spoken more than once. Is there objection? The Chair hears none.

Mr. REYNOLDS. I ask unanimous consent for the present consideration of the bill to which I have referred.

The PRESIDENT pro tempore. Is there objection?

There being no objection, the bill (H. R. 12796) to amend the act entitled "An act to provide for the times and places for holding court for the eastern district of North Carolina", approved May 10, 1928, as amended (U. S. C., 1934 ed., title 28, sec. 179; U. S. C., Supp. I, title 28, sec. 179), was considered, ordered to a third reading, read the third time, and passed.

REPORTS OF COMMITTEES

Mr. SHEPPARD, from the Committee on Commerce, to which was referred the bill (H. R. 11960) to extend the times for commencing and completing the construction of a bridge across the Missouri River at or near Rulo, Nebr., reported it without amendment and submitted a report (No. 2456) thereon.

Mr. DIETERICH, from the Committee on the Judiciary, to which was referred the bill (H. R. 12557) to provide for a term of court at Benton, Ill., reported it without amendment.

FINAL ADJOURNMENT RESOLUTION

During the delivery of Mr. HOLT's speech,

Mr. ROBINSON. Mr. President——

Mr. HOLT. I am not yielding now.

The PRESIDENT pro tempore. Does the Senator from West Virginia yield to the Senator from Arkansas?

Mr. HOLT. For what purpose? If I do so, do I lose the floor?

Mr. ROBINSON. I wish to ask the Senator a question.

Mr. HOLT. I will yield with the understanding that I do not lose the floor.

Mr. ROBINSON. Certainly.

Mr. HOLT. All right.

Mr. ROBINSON. Is it the Senator's intention to continue his address?

Mr. HOLT. I have a great many of Æsop's Fables to read.

Mr. ROBINSON. The Senator would not be willing to yield for a vote on the bill?

Mr. HOLT. Oh, I would have to read all these fables. I desire to read them.

Mr. ROBINSON. Very well. Will the Senator yield so that I may ask the Chair to lay down a concurrent resolution?

Mr. HOLT. Mr. President, if the motion should fail, would I then lose the floor?

Mr. ROBINSON. No.

Mr. HOLT. I will yield with the understanding that if the motion for adjournment fails I do not lose the floor.

The PRESIDENT pro tempore. Is that agreeable and acceptable to the Senator from Arkansas?

Mr. ROBINSON. It is.

Mr. GUFFEY. Mr. President, will the Senator yield?

Mr. ROBINSON. I yield to the Senator from Pennsylvania.

Mr. GUFFEY. I understand we are now about to take up the concurrent resolution for adjournment. I should like my colleagues to know that I am opposed to that resolution. We have worked long and hard here to try to enact this conservation coal bill. I think it is unfortunate to adjourn without getting some action on it. I know the hardships that will be entailed on two and one-half million people, the 500,000 miners and their dependents, as well as those engaged in the operating side of the industry. I desire to go on record as saying that I will vote against the resolution, and in that statement I am joined by the senior Senator from West Virginia [Mr. NEELY].

Mr. CLARK. Mr. President, will the Senator yield to me for one moment?

Mr. HOLT. If I do not lose the floor. Does the Senator desire to make a motion?

Mr. CLARK. Will the Senator yield to me?

The PRESIDENT pro tempore. It is understood that if the unanimous-consent request for adoption of the resolution shall not be agreed to the Senator from West Virginia will retain the floor.

Mr. ROBINSON. Mr. President, will the Senator from West Virginia yield to me with the understanding that he shall not lose the floor?

Mr. HOLT. Very well; I yield with that understanding.

Mr. ROBINSON. Mr. President, I ask the Chair to lay before the Senate the concurrent resolution of the House providing for final adjournment of the session.

The PRESIDENT pro tempore. The concurrent resolution will be read.

The legislative clerk read the concurrent resolution (H. Con. Res. 63), as follows:

Resolved by the House of Representatives (the Senate concurring), That the two Houses of Congress shall adjourn on Saturday, the 20th day of June 1936, and that when they adjourn on said day they stand adjourned sine die.

Mr. ROBINSON. I move the adoption of the concurrent resolution.

The PRESIDENT pro tempore. The question is on agreeing to the concurrent resolution.

The concurrent resolution was agreed to.

GRIER LOWRANCE CONSTRUCTION CO.

During the delivery of Mr. HOLT's speech,

Mr. REYNOLDS. Mr. President, will the Senator yield if he does not lose the floor?

Mr. HOLT. I yield only with the understanding that I do not lose the floor under any circumstances.

The PRESIDENT pro tempore. The Senator cannot yield for any purpose except a question unless by unanimous consent.

Mr. REYNOLDS. My colleague and I are interested in a measure on the calendar, a bill (H. R. 12522) for the relief of Grier Lowrance Construction Co., Inc. This is a North Carolina corporation. The bill does not carry or involve an appropriation, but merely gives the company the right to try their case in court.

Mr. McNARY. Mr. President, I shall have to object.

Mr. REYNOLDS. Will not my friend withdraw the objection?

Mr. McNARY. No, Mr. President, I insist upon the objection.

Mr. KING. I call for the regular order.

The PRESIDENT pro tempore. The Senator from West Virginia has the floor.

CONTRACTS WITH THE GOVERNMENT

Mr. CLARK. Mr. President, I ask unanimous consent that the Senator from West Virginia [Mr. HOLT] be permitted to yield to me, without losing the floor, for the purpose of entering a motion to reconsider.

The PRESIDENT pro tempore. The Senator from Missouri asks unanimous consent that the Senator from West Virginia may yield to him, without losing the floor, for the purpose of enabling the Senator from Missouri to enter a motion, and that the Senator from West Virginia shall be considered as having made but one speech. Is there objection?

Mr. CLARK. I desire to enter a motion to reconsider the vote by which the Senate concurred in the amendment of the House to Senate bill 3055.

Mr. ROBINSON. Mr. President, may I inquire of the Senator from Missouri whether the author of the bill has been notified of this motion?

Mr. CLARK. He has not. I was not notified the bill was to be taken up. It was taken up during my temporary absence from the Senate. Let me say to the Senator from Arkansas that I am not undertaking to call up the motion. I am simply entering the motion to reconsider.

Mr. ROBINSON. The entry of the motion would have the effect of tying up the bill. The Senator from Massachusetts [Mr. WALSH] is absent. In that view of the matter I move to reconsider the vote by which the Senate concurred in the amendment of the House and to lay that motion on the table.

Mr. CLARK. On that I ask for the yeas and nays, but I first suggest the absence of a quorum.

Mr. ROBINSON. I ask the Senator to withhold his motion until the author of the bill may arrive on the floor.

Mr. CLARK. I have no desire to take advantage of the absence of the Senator from Massachusetts. I simply desire to preserve my rights in the matter.

Mr. ROBINSON. I ask unanimous consent that proceedings on the motion of the Senator from Missouri be suspended for the present.

Mr. CLARK. I am entirely agreeable.

Mr. GUFFEY. Mr. President, will the Senator yield for a moment?

Mr. HOLT. I do not desire to yield to the Senator from Pennsylvania.

Mr. GUFFEY. I merely desire to be recorded in opposition to the motion.

Mr. HOLT resumed his speech. After speaking for some minutes——

Mr. LA FOLLETTE. Mr. President, I desire to ascertain whether or not unanimous consent was given for entering a motion to reconsider the Walsh bill.

The PRESIDENT pro tempore. The Senator is referring now to the request made by the Senator from Missouri [Mr. CLARK]?

Mr. LA FOLLETTE. I am.

The PRESIDENT pro tempore. It is the opinion of the Chair that the request was made, and that the Senator from Arkansas interrupted at that time, and then——

Mr. HOLT. Mr. President, I am not losing the floor, am I?

The PRESIDENT pro tempore. No; not at all.

Mr. CLARK. Mr. President, I call the attention of the Chair to the fact that I asked unanimous consent that I be permitted to take the floor for the purpose of making a motion to reconsider without the Senator from West Virginia losing the floor; that that unanimous consent was granted——

The PRESIDENT pro tempore. That is the question.

Mr. CLARK. And that after I had entered the motion to reconsider, the Senator from Arkansas asked unanimous consent that the matter be suspended.

The PRESIDENT pro tempore. The Chair will state that the Chair is in doubt; and he has therefore requested the Official Reporter to state what took place, as to whether or not the Chair said there was no objection before the Senator from Arkansas took the floor and made his statement. The Chair is uncertain.

Mr. LA FOLLETTE. I ask for a reading of the reporter's notes.

Mr. CLARK. Mr. President, may I say this: Not only had the Chair said there was no objection, but I had entered my motion to reconsider, and was about to take my seat, before the Senator from Arkansas rose and asked on what subject the motion to reconsider had been offered.

The PRESIDENT pro tempore. The Chair is in doubt, and has already sent for the notes of the Official Reporter, so that the doubt may be absolutely resolved.

Will the reporter read that portion, to see what was said?

The Official Reporter read as follows:

Mr. CLARK, Mr. President, I ask unanimous consent that the Senator from West Virginia [Mr. HOLT] be permitted to yield to me, without losing the floor, for the purpose of entering a motion to reconsider.

The PRESIDENT pro tempore. The Senator from Missouri asks unanimous consent that the Senator from West Virginia may yield to him, without losing the floor, for the purpose of enabling the Senator from Missouri to enter a motion, and that the Senator from West Virginia shall be considered as having made but one speech. Is there objection?

Mr. CLARK. I desire to enter a motion to reconsider the vote by which the Senate concurred in the amendment of the House to Senate bill 3055.

Mr. ROBINSON. Mr. President, may I inquire of the Senator from Missouri whether the author of the bill has been notified of this motion?

Mr. CLARK. He was not. I was not notified the bill was to be taken up. It was taken up during my temporary absence from the Senate. Let me say to the Senator from Arkansas that I am not undertaking to call up the motion. I am simply entering the motion to reconsider.

Mr. ROBINSON. The entry of the motion would have the effect of tying up the bill. The Senator from Massachusetts [Mr. WALSH] is absent. In that view of the matter I move to reconsider the vote by which the Senate concurred in the amendment of the House, and to lay that motion on the table.

Mr. CLARK. On that I ask for the yeas and nays, but I first suggest the absence of a quorum.

Mr. ROBINSON. I ask the Senator to withhold his motion until the author of the bill may arrive on the floor.

Mr. CLARK. I have no desire to take advantage of the absence of the Senator from Massachusetts. I simply desire to preserve my rights in the matter.

Mr. ROBINSON. I ask unanimous consent that proceedings on the motion of the Senator from Missouri be suspended for the present.

Mr. CLARK. I am entirely agreeable.

Mr. CLARK. Mr. President, I insist that the unanimous-consent request of the Senator from Arkansas to suspend action on the motion to reconsider which I had entered simply amounted to a suspension, and did not involve any denial of my right to make the motion to reconsider.

Mr. LA FOLLETTE. Mr. President, I point out that the unanimous-consent request submitted by the Senator from Arkansas was that the proceedings be suspended; and I ask for a ruling of the Chair on whether or not the motion of the Senator from Missouri has been entered.

The PRESIDENT pro tempore. It is the opinion of the Chair that the Chair did not pass on the question as to whether there was an objection, because the RECORD shows that the Chair made no statement as to that. The Chair had asked if there was objection. At that time the Senator from Missouri interrupted, and, as the Chair thought, was explaining what he wished to do. Further action by the Senate or the Chair on the request was prevented by a motion to reconsider the vote by which the bill was passed and a second motion to table the motion to reconsider. It was then, in that confused parliamentary state, that the Senator from Arkansas asked unanimous consent that the matter remain in status quo until the Senator from Massachusetts could be informed.

Mr. CLARK. May I be heard for just a moment on that subject?

I cannot believe that when a request for unanimous consent is made and not objected to, and then a motion to reconsider is entered, the present occupant of the chair is now going to take the position that because he did not

express any opinion on the merits of the motion the matter is still in suspension.

Mr. President, I asked unanimous consent that the Senator from West Virginia yield to me for the purpose of entering a motion to reconsider a particular bill. There was no objection. I then entered the motion to reconsider; and as I was about to take my seat, after entering the motion to reconsider, the Senator from Arkansas rose and asked me what the bill was; and when I explained it to him, he said that he would like to wait until the Senator from Massachusetts returned, with which I was in entire agreement. I do not believe the present occupant of the Chair, with his high sense of honor and his long service in this body, could possibly make such a ruling as to say——

The PRESIDENT pro tempore. The Chair has some rights.

Mr. CLARK. Well, Mr. President, I have some rights as a Senator, too.

The PRESIDENT pro tempore. The Chair is rather at a disadvantage, of course, being the Presiding Officer and not permitted to debate. In this case the RECORD has been read. There is no doubt that the Chair would have ruled that consent was given except for the interruption of the Senator from Missouri, who did not wait for a ruling, but started to explain what he wished to do. The Chair so understood, that he was explaining, so as to have no objection made.

The Chair has no interest at all in the matter. He is construing the RECORD; but the Chair does not desire to be in the position in which the Senator from Missouri attempts to place him. He will be very glad to escape a ruling; but the evidence is here.

The Chair submits to the Senate the question as to whether or not consent was given. The Chair will be very pleased to have the Senate decide the question.

Mr. KING. Mr. President, a parliamentary inquiry.

The PRESIDENT pro tempore. The Senator will state it.

Mr. KING. When a request is made to enter a motion to reconsider a given bill, and that is followed by "I do enter the motion to reconsider", is any duty resting upon the Chair to give consent or not consent?

The PRESIDENT pro tempore. The Chair has nothing to do with that. He only decides whether consent is given.

Mr. KING. Of course not.

The PRESIDENT pro tempore. The question involved is that the Senator from West Virginia [Mr. HOLT] had the floor, and unless he yielded the floor the request could not be made by the Senator from Missouri or the motion entered. The question was on the request for unanimous consent, as to whether or not there was objection. That was not ruled on, as the RECORD proves.

Mr. CLARK. Mr. President, may I make one suggestion to the Chair?

The PRESIDENT pro tempore. Yes.

Mr. CLARK. It seems to me conclusive as to whether or not unanimous consent had been given that the distinguished and able majority leader regarded unanimous consent as having been given, and regarded the motion as having been entered, by himself making the motion to reconsider, and moving to lay that motion on the table.

The PRESIDENT pro tempore. The Chair does not know what was in the mind of any Senator. That question is now immaterial, as the Senator from Arkansas has moved to reconsider, and that is what the Senator from Missouri sought. He has not ruled on the question. The Chair now asks the question, Is there objection now?

Mr. CLARK. Well, Mr. President——

Mr. LA FOLLETTE. I object.

Mr. CLARK. Mr. President, I insist that it is too late to make an objection at this time.

The PRESIDENT pro tempore. Will the Senator allow the Chair, then, to do this: The Chair has had the RECORD read, in which he made no ruling. What the intention was is another thing. There was no ruling that consent was given. The RECORD shows that. However, so that the Chair may have the opinion of the Senate, the Chair asks the Senate as to whether or not, in their opinion, consent was given by what took place.

Mr. CLARK. Before that question is put, I desire to call attention again to the fact that the Senator from Arkansas himself made a motion to reconsider, and moved to lay that motion on the table.

Mr. ROBINSON. I ask that we vote on the motion to lay on the table.

The PRESIDENT pro tempore. That, of course, is the pending question. All in favor——

Mr. CLARK. I suggest the absence of a quorum.

Mr. ROBINSON. Does the Senator from West Virginia yield for that purpose? I made the motion to reconsider.

The PRESIDENT pro tempore. And then the Senator moved to table the motion.

Mr. ROBINSON. Yes; and I ask that the Senate vote on that motion.

The PRESIDENT pro tempore. Then the Senator from Missouri suggested the absence of a quorum.

Mr. CLARK. I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

Mr. HOLT. Mr. President, I will not lose the floor?

The PRESIDENT pro tempore. The Senator will not lose the floor, of course. It will all have to come under this arrangement.

The legislative clerk called the roll, and the following Senators answered to their names:

Adams	Carey	King	Pope
Ashurst	Clark	La Follette	Radcliffe
Bachman	Connally	Lewis	Reynolds
Bailey	Copeland	Lonergan	Robinson
Barkley	Davis	McGill	Russell
Benson	Dieterich	McKellar	Schwellenbach
Bilbo	Duffy	McNary	Sheppard
Black	Frazier	Maloney	Steiwer
Bone	George	Metcalf	Thomas, Okla.
Borah	Gerry	Minton	Thomas, Utah
Brown	Gibson	Moore	Truman
Bulow	Guffey	Murphy	Van Nuys
Burke	Hale	Murray	Wagner
Byrd	Hastings	Neely	Walsh
Byrnes	Hatch	Norris	Wheeler
Capper	Hayden	O'Mahoney	
Caraway	Holt	Pittman	

The PRESIDENT pro tempore. Sixty-six Senators having answered to their names, a quorum is present.

The question is on the motion of the Senator from Arkansas [Mr. ROBINSON] to lay on the table the motion to reconsider.

Mr. CLARK. On that I ask for the yeas and nays.

The yeas and nays were not ordered.

Mr. CLARK. I ask for a division.

On a division the motion was agreed to.

Mr. CLARK. Mr. President, let me renew my request for the yeas and nays. I think that on a matter of this importance the Senate is entitled to have every Senator go on record.

Mr. LA FOLLETTE. I make the point of order that the Senator's request comes too late, that the decision of the Chair has been announced.

Mr. CLARK. May I say that I have often heard the distinguished Senator from Wisconsin, when he has been defeated on a division, make a personal appeal to the Senate for a record vote, and I am now making a personal appeal to the Senate not to fail to go on record.

Mr. ROBINSON. I make the point of order that the Senator from Missouri is not in order.

The PRESIDENT pro tempore. The point of order is well taken, the decision having been announced.

The Senator from West Virginia has the floor.

Mr. ROBINSON. Mr. President, if the Senator having the floor will yield for that purpose, I will submit a privileged motion.

The PRESIDENT pro tempore. Does the Senator from West Virginia yield under that consideration?

Mr. HOLT. With what understanding?

The PRESIDENT pro tempore. With the understanding that the Senator will not lose the floor.

Mr. ROBINSON. The Senator will have no use for the floor after I make this privileged motion. [Laughter.]

GREETINGS FROM THE PRESIDENT

The PRESIDENT pro tempore. The Chair desires, before the Senator makes his motion, to submit to the Senate a communication he has just received from the President of the United States, which the clerk will read.

The legislative clerk read as follows:

THE WHITE HOUSE,
Washington, June 20, 1936.

MY DEAR MR. VICE PRESIDENT: As the Seventy-fourth Congress comes to a close, will you not accept for yourself and extend to the Members of the Senate my greetings and cordial good wishes?

Very sincerely yours,

FRANKLIN D. ROOSEVELT.

The honorable the VICE PRESIDENT.

ADDITIONAL ENROLLED BILLS AND JOINT RESOLUTION PRESENTED

Mrs. CARAWAY, from the Committee on Enrolled Bills, reported that on June 20, 1936, that committee presented to the President of the United States the following enrolled bills and joint resolution:

S. 1146. An act for the relief of Michael Dalton;

S. 1567. An act to amend section 5 of the act of March 2, 1919, generally known as the War Minerals Relief Act;

S. 1793. An act to amend the act entitled "An act authorizing the attorney general of the State of California to bring suit in the Court of Claims on behalf of the Indians of California", approved May 18, 1928 (45 Stat. L. 602);

S. 2268. An act for the relief of Bausch & Lomb Optical Co.;

S. 2460. An act to amend the act of June 6, 1924, entitled "An act to amend in certain particulars the National Defense Act of June 3, 1916", as amended, and for other purposes;

S. 2647. An act authorizing the Comptroller General of the United States to settle and adjust the claims of subcontractors, materialmen, and laborers for material and labor furnished in the construction of a post-office building at Hempstead, N. Y.;

S. 3143. An act for the relief of the Passaic Valley Sewerage Commissioners;

S. 3405. An act for the relief of Capt. James W. Darr;

S. 3843. An act to provide for the entry under bond of exhibits of arts, sciences, and industries, and products of the soil, mine, and sea, and all other exhibits for exposition purposes;

S. 3879. An act for the relief of James W. Grist;

S. 4020. An act to authorize the acquisition of lands in the city of Alameda, county of Alameda, State of California, as a site for a naval air station and to authorize the construction and installation of a naval air station thereon;

S. 4719. An act for the relief of the Bridgeport irrigation district;

S. 4727. An act to quiet title and possession with respect to certain lands in Lawrence County, Ala.;

S. 4780. An act to extend the laws governing inspection of vessels, and for other purposes; and

S. J. Res. 115. Joint resolution designating the last Sunday in September as "Gold Star Mother's Day", and for other purposes.

ADJOURNMENT SINE DIE

Mr. ROBINSON. I move, in accordance with the terms of Concurrent Resolution 63, that the Senate do now adjourn sine die.

The motion was agreed to; and (at 11 o'clock and 55 minutes p. m.) the Senate adjourned sine die.

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

The Vice President, under the authority of House Concurrent Resolution 54, signed the following enrolled bills and joint resolutions which had been previously signed by the Speaker of the House of Representatives;

S. 1790. An act for the relief of Margaret Murphy;

S. 3055. An act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes;

S. 3107. An act to exempt publicly owned interstate highway bridges from State, municipal, and local taxation;

S. 3175. An act for the relief of Jesse Ashby;

S. 3505. An act for the improvement and protection of the beaches along the shores of the United States;

S. 3733. An act authorizing the issuance of a patent to certain lands in the State of Montana to Florence Kerr Facey;

S. 3808. An act for the relief of R. D. Stephens and Vera Stephens;

S. 3976. An act to amend the act approved February 27, 1931, known as the District of Columbia Traffic Act;

S. 4152. An act validating certain conveyances by Kickapoo Indians of Oklahoma made prior to February 17, 1933, providing for actions in partition in certain cases;

S. 4457. An act authorizing the appointment of an additional circuit judge for the third circuit;

S. 4490. An act for the relief of F. W. Elmer;

S. 4581. An act authorizing the payment of certain salaries and expenses of employees of the General Land Office;

S. 4670. An act to authorize the striking of an appropriate medal in commemoration of the three hundredth anniversary of the original Norfolk (Va.) land grant and the two hundredth anniversary of the establishment of the city of Norfolk, Va., as a borough;

S. 4684. An act for the relief of the First, Second, and Third National Steamship Companies;

S. 4773. An act to confer jurisdiction on the Court of Claims to hear and determine certain claims against the United States on the part of owners of certain vessels;

H. R. 6773. An act to provide for an investigation to determine whether the water rights of the United States have been violated in the Clear Lake watershed, California, and for other purposes;

H. R. 8555. To further the development and maintenance of an adequate and well-balanced American merchant marine, to promote the commerce of the United States, to aid in the national defense, to repeal certain former legislation, and for other purposes;

H. R. 8875. An act to clarify section 104 of the Revised Statutes (U. S. C., title II, sec. 194);

H. R. 10094. An act to amend section 1 of the act entitled "An act to stop injury to the public grazing lands by preventing overgrazing and soil deterioration; to provide for their orderly use, improvement, and development; to stabilize the livestock industry dependent upon the public range; and for other purposes", approved June 28, 1934 (48 Stat. 1269);

H. R. 12458. An act authorizing a preliminary examination of the Intracoastal Waterway throughout Broward County, Fla.;

H. R. 12796. An act to amend the act entitled "An act to provide for the times and places for holding court for the eastern district of North Carolina", approved May 10, 1928, as amended (U. S. C., 1934 edition, title 28, sec. 179; U. S. C., Supp. I, title 28, sec. 179);

S. J. Res. 38. Joint resolution to provide for an inquiry by the Court of Claims with respect to losses sustained by cooperative marketing associations in connection with stabilization activities in grain;

S. J. Res. 196. Joint resolution to correct errors in the enrollment of Private Act No. 349, Seventy-fourth Congress, approved August 29, 1935, and to clarify the duties of the Comptroller General in connection with said act;

S. J. Res. 255. Joint resolution to provide for the participation of the United States in the commemoration of the seventy-fifth anniversary of the Battle of Antietam; and

H. J. Res. 642. Joint resolution to enable the Secretary of Agriculture to apply such methods of control of grasshoppers as in his judgment may be necessary.

ENROLLED BILLS AND JOINT RESOLUTIONS PRESENTED

The following enrolled bills and joint resolutions, heretofore duly signed by the Presiding Officers of the two Houses, were presented to the President of the United States by the Committee on Enrolled Bills:

On June 22, 1936:

S. 2953. An act to provide for the inspection, control, and regulation of steam boilers and unfired pressure vessels in the District of Columbia;

S. 4241. An act to provide for the sale of a certain isolated tract of the public domain in the State of Washington;

S. 4432. An act authorizing and directing the Secretary of War to lease land on the Fort Moultrie (S. C.) Military Reservation to the owners of certain cottages thereon;

S. 4608. An act to authorize the coinage of 50-cent pieces in commemoration of the three hundredth anniversary of the founding of York County, Maine;

S. 4633. An act to provide for the selection of certain lands in the State of California for the use of the California State park system;

S. 4634. An act to provide for the selection of certain lands in the State of California for the use of the California State park system;

S. 4648. An act to promote safety at sea in the neighborhood of ice and derelicts, and for other purposes; and

S. J. Res. 177. Joint resolution to define the term of certain contracts with Indian tribes.

On June 23, 1936:

S. 1790. An act for the relief of Margaret Murphy;

S. 3055. An act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes;

S. 3107. An act to exempt publicly owned interstate highway bridges from State, municipal, and local taxation;

S. 3175. An act for the relief of Jesse Ashby;

S. 3505. An act for the improvement and protection of the beaches along the shores of the United States;

S. 3733. An act authorizing the issuance of a patent to certain lands in the State of Montana to Florence Kerr Facey;

S. 3808. An act for the relief of R. D. Stephens and Vera Stephens;

S. 3976. An act to amend the act approved February 27, 1931, known as the District of Columbia Traffic Act;

S. 4152. An act validating certain conveyances by Kickapoo Indians of Oklahoma made prior to February 17, 1933, providing for actions in partition in certain cases;

S. 4457. An act authorizing the appointment of an additional circuit judge for the third circuit;

S. 4490. An act for the relief of F. W. Elmer;

S. 4581. An act authorizing the payment of certain salaries and expenses of employees of the General Land Office;

S. 4670. An act to authorize the striking of an appropriate medal in commemoration of the three hundredth anniversary of the original Norfolk (Va.) land grant and the two hundredth anniversary of the establishment of the city of Norfolk, Va., as a borough;

S. 4684. An act for the relief of the First, Second, and Third National Steamship Companies;

S. 4773. An act to confer jurisdiction on the Court of Claims to hear and determine certain claims against the United States on the part of owners of certain vessels;

S. J. Res. 38. Joint resolution to provide for an inquiry by the Court of Claims with respect to losses sustained by cooperative marketing associations in connection with stabilization activities in grain;

S. J. Res. 196. Joint resolution to correct errors in the enrollment of Private Act No. 349, Seventy-fourth Congress, approved August 29, 1935, and to clarify the duties of the Comptroller General in connection with said act; and

S. J. Res. 255. Joint resolution to provide for the participation of the United States in the commemoration of the seventy-fifth anniversary of the Battle of Antietam.

PRESIDENTIAL APPROVALS

The President of the United States, subsequent to the final adjournment of the second session of the Seventy-fourth Congress, notified the Secretary of the Senate that he had approved acts and joint resolutions, as follows:

On June 19, 1936:

S. 1795. An act to effectuate certain provisions of the International Convention for the Protection of Industrial Property as revised at The Hague on November 6, 1925;

S. 3371. An act for the relief of John Walker;

S. 4461. An act to extend the times for commencing and completing the construction of a bridge across the Missouri River at or near Brownville, Nebr.;

S. 4462. An act to extend the times for commencing and completing the construction of a bridge across the Missouri River between the towns of Decatur, Nebr., and Onawa, Iowa;

S. 4463. An act to extend the times for commencing and completing the construction of a bridge across the Missouri River at or near the cities of South Sioux City, Nebr., and Sioux City, Iowa;

S. 4618. An act granting the consent of Congress to the Louisiana Highway Commission to construct, maintain, and operate a free or toll highway bridge, or a railway bridge in combination with a free or toll highway bridge, and approaches thereto, across the Mississippi River at or near Baton Rouge, La.;

S. 4680. An act authorizing the State of Wisconsin to construct, maintain, and operate a free highway bridge across the Mississippi River at or near La Crosse, La Crosse County, Wis.;

S. 4709. An act authorizing the Interstate Bridge Commission of the State of New York and the Commonwealth of Pennsylvania to reconstruct, maintain, and operate a free highway bridge across the Delaware River between points in the village of Barryville, Sullivan County, N. Y., and the village of Shohola, Pike County, Pa.;

S. 4710. An act authorizing the Interstate Bridge Commission of the State of New York and the Commonwealth of Pennsylvania to reconstruct, maintain, and operate a free highway bridge across the West Branch of the Delaware River between a point in the vicinity of the village of Hancock, Delaware County, N. Y., and a point in the town of Buckingham, Wayne County, Pa.; and

S. J. Res. 278. Joint resolution to modify and extend the act entitled "An act to include sugar beets and sugar cane as basic agricultural commodities under the Agricultural Adjustment Act, and for other purposes", approved May 9, 1934, as amended, and for other purposes.

On June 20, 1936:

S. 1794. An act to effectuate certain provisions of the International Convention for the Protection of Industrial Property as revised at The Hague on November 6, 1925;

S. 1976. An act to amend the act entitled "An act making appropriations for the military and nonmilitary activities of the War Department for the fiscal year ending June 30, 1927, and for other purposes", approved April 15, 1926, so as to equalize the allowances for quarters and subsistence of enlisted men of the Army, Navy, and Marine Corps;

S. 2127. An act to amend section 4471 of the Revised Statutes of the United States, as amended;

S. 3440. An act to amend certain acts relating to public printing and binding and the distribution of public documents and acts amendatory thereof;

S. 3784. An act to extend the benefits of the Adams Act, the Purnell Act, and the Capper-Ketcham Act to the Territory of Alaska, and for other purposes;

S. 3956. An act for the relief of Jacob Kaiser;

S. 3997. An act to authorize the Secretary of War to lend War Department equipment for use at the Eighteenth National Convention of the American Legion at Cleveland, Ohio, during the month of September 1936;

S. 4132. An act to amend section 4b of the National Defense Act, as amended, relating to certain enlisted men of the Army;

S. 4252. An act to provide for the modification of the contract of lease entered into on June 12, 1922, between the United States and the Board of Commissioners of the Port of New Orleans;

S. 4568. An act to permit construction, maintenance, and use of certain pipe lines for petroleum and petroleum products in the District of Columbia;

S. 4584. An act to amend the Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755), to extend and adapt its provisions to the convention between the United States and the

United Mexican States for the protection of migratory birds and game mammals concluded at the city of Mexico February 7, 1936, and for other purposes;

S. 4622. An act to amend section 2 of the act entitled "An act granting the consent of Congress to the Alabama State Bridge Corporation to construct, maintain, and operate bridges across the Tennessee, Tombigbee, Warrior, Alabama, and Coosa Rivers, within the State of Alabama", approved May 26, 1928;

S. 4667. An act to prohibit the commercial use of the coat of arms of the Swiss Confederation pursuant to the obligation of the Government of the United States under article 28 of the Red Cross Convention signed at Geneva July 27, 1929;

S. 4737. An act to provide for the sale of the Port Newark Army Base to the city of Newark, N. J., and for other purposes;

S. J. Res. 187. Joint resolution authorizing the President of the United States of America to proclaim October 11, 1936, General Pulaski's Memorial Day for the observance and commemoration of the death of Brig. Gen. Casimir Pulaski;

S. J. Res. 235. Joint resolution authorizing the Secretary of Agriculture to expend funds of the Agricultural Adjustment Administration for participation by the United States in the 1936 Sixth World's Poultry Congress;

S. J. Res. 241. Joint resolution to declare December 26, 1936, a legal holiday in the District of Columbia;

S. J. Res. 243. Joint resolution authorizing distribution to the Indians of the Blackfeet Indian Reservation, Mont., of the judgment rendered by the Court of Claims in their favor;

S. J. Res. 245. Joint resolution authorizing distribution to the Gros Ventre Indians of the Fort Belknap Reservation, Mont., of the judgment rendered by the Court of Claims in their favor; and

S. J. Res. 280. Joint resolution to ratify and confirm the appointment of Isaac Gans as a member of the Alcoholic Beverage Control Board of the District of Columbia.

On June 22, 1936:

S. 1318. An act to authorize the Secretary of the Interior to investigate and adjust irrigation charges on irrigation lands within projects on Indian reservations, and for other purposes;

S. 2075. An act to provide for the appointment of additional district judges for the eastern and western districts of Missouri;

S. 2137. An act to provide for the appointment of one additional district judge for the eastern, northern, and western districts of Oklahoma;

S. 2456. An act to provide for the appointment of an additional district judge for the northern and southern districts of West Virginia;

S. 3344. An act to appoint one additional judge of the district court of the United States for the eastern and western districts of Kentucky;

S. 3488. An act to provide for an examination and survey to determine the best utilization of the surplus waters of the San Juan River and the Animas River and to determine the feasibility and cost of storing such waters and of diverting them to the Rio Chama and Rio Grande;

S. 3805. An act to authorize the Secretary of the Interior to reserve certain lands on the public domain in Nevada for addition to the Walker River Indian Reservation;

S. 4524. An act to provide a civil government for the Virgin Islands of the United States;

S. 4784. An act to permit mining within the Glacier Bay National Monument;

S. J. Res. 272. Joint resolution to provide for the maintenance of public order and the protection of life and property in connection with the Presidential inaugural ceremonies in 1937;

S. J. Res. 273. Joint resolution authorizing the granting of permits to the Committee on Inaugural Ceremonies on the occasion of the inauguration of the President-elect in January 1937, and for other purposes; and

S. J. Res. 286. Joint resolution fixing the date of meeting of the Seventy-fifth Congress.

On June 23, 1936:

S. 4268. An act to authorize the Secretary of War to set apart as a national cemetery certain lands of the Fort Snelling Military Reservation, Minn.;

S. 4552. An act to extend the retirement privilege to the Director, Assistant Directors, inspectors, and special agents of the Bureau of Investigation;

S. 4780. An act to extend the laws governing the inspection of vessels, and for other purposes; and

S. J. Res. 115. Joint resolution designating the last Sunday in September as "Gold Star Mother's Day", and for other purposes.

On June 24, 1936:

S. 81. An act to provide for the collection and publication of statistics of peanuts by the Department of Agriculture;

S. 283. An act for the relief of Beatrice I. Manges;

S. 1896. An act to provide for interest payments on American Embassy drafts;

S. 2039. An act making it a felony to transport in interstate or foreign commerce persons to be employed to obstruct or interfere with the right of peaceful picketing during labor controversies;

S. 3879. An act for the relief of James W. Grist;

S. 3907. An act for the relief of the State of Nevada;

S. 3976. An act to amend the act approved February 27, 1931, known as the District of Columbia Traffic Act;

S. 4020. An act to authorize the acquisition of lands in the city of Alameda, county of Alameda, State of California, as a site for a naval air station, and to authorize the construction and installation of a naval air station thereon;

S. 2460. An act to amend the act of June 6, 1924, entitled "An act to amend in certain particulars the National Defense Act of June 3, 1916, as amended, and for other purposes";

S. 4390. An act to amend the National Defense Act relating to the Medical Administrative Corps;

S. 4432. An act authorizing and directing the Secretary of War to lease land on the Fort Moultrie (S. C.) Military Reservation to the owners of certain cottages thereon;

S. 4457. An act authorizing the appointment of an additional circuit judge for the third circuit;

S. 4512. An Act to amend section 641 of the Code of Laws for the District of Columbia;

S. 4719. An act for the relief of the Bridgeport Irrigation District;

S. J. Res. 251. Joint resolution granting the consent of Congress to the city and county of San Francisco to construct a causeway and highways on Yerba Buena Island, in San Francisco Bay, and for other purposes;

S. J. Res. 255. Joint resolution to provide for the participation of the United States in the commemoration of the seventy-fifth anniversary of the Battle of Antietam;

S. J. Res. 277. Joint resolution to investigate corporations engaged in the manufacture, sale, or distribution of agricultural implements and machinery; and

S. J. Res. 291. Joint resolution amending section 11 of the Soil Conservation and Domestic Allotment Act.

On June 25, 1936:

S. 2912. An act to repatriate native-born women who have heretofore lost their citizenship by marriage to an alien, and for other purposes;

S. 2953. An act to provide for the inspection, control, and regulation of steam boilers and unfired pressure vessels in the District of Columbia;

S. 3843. An act to provide for the entry under bond of exhibits of arts, sciences, and industries, and products of the soil, mine, and sea, and all other exhibits for exposition purposes;

S. 4038. An act to amend an act of Congress approved March 3, 1863, entitled "An act to reorganize the courts in the District of Columbia, and for other purposes";

S. 4105. An act authorizing the Secretary of Agriculture to convey certain lands to the Maryland-National Capital Park and Planning Commission, of Maryland, for park, parkway, and playground purposes;

S. 4567. An act to authorize the Secretary of Agriculture to extend and renew for the term of 10 years a lease to the Chicago, Milwaukee & St. Paul Railway Co. of a tract of land in the United States Department of Agriculture range livestock experiment station in the State of Montana, and for a right-of-way to said tract, for the removal of gravel and ballast material, executed under the authority of the act of Congress approved June 9, 1926;

S. 4648. An act to promote safety at sea in the neighborhood of ice and derelicts, and for other purposes;

S. 4654. An act to amend an act entitled "An act to distribute the commissioned line and engineer officers of the Coast Guard in grades, and for other purposes", approved January 12, 1923;

S. 4727. An act to quiet title and possession with respect to certain lands in Lawrence County, Ala.; and

S. 4786. An act to authorize the Secretary of Agriculture to make such adjustments and revisions found to be due on contracts entered into by the Government with crop producers under the Agricultural Adjustment Act.

On June 26, 1936:

S. 1146. An act for the relief of Michael Dalton;

S. 2047. An act to promote the general welfare of the Indians of the State of Oklahoma, and for other purposes;

S. 2268. An act for the relief of Bausch & Lomb Optical Co.;

S. 2712. An act to amend section 23 of the Independent Offices Appropriation Act, 1935;

S. 3505. An act for the improvement and protection of the beaches along the shores of the United States;

S. 3808. An act for the relief of R. D. Stephens and Vera Stephens;

S. 3841. An act to amend an act entitled "An act to establish a uniform system of bankruptcy throughout the United States", approved July 1, 1898, and acts amendatory thereof and supplementary thereto;

S. 4241. An act to provide for the sale of a certain isolated tract of the public domain in the State of Oregon;

S. 4581. An act authorizing the payment of certain salaries and expenses of employees of the General Land Office;

S. 4464. An act to authorize the coinage of 50-cent pieces in celebration of the opening of the San Francisco-Oakland Bay Bridge;

S. 4490. An act for the relief of F. W. Elmer;

S. 4608. An act to authorize the coinage of 50-cent pieces in commemoration of the three hundredth anniversary of the founding of York County, Maine;

S. 4670. An act to authorize the striking of an appropriate medal in commemoration of the three hundredth anniversary of the original Norfolk (Va.) land grant and the two hundredth anniversary of the establishment of the city of Norfolk, Va., as a borough;

S. 4699. An act to provide a commissioned strength for the Corps of Engineers, United States Army, for the efficient performance of military and other statutory duties assigned to that corps;

S. J. Res. 38. Joint resolution to provide for an inquiry by the Court of Claims with respect to losses sustained by cooperative marketing associations in connection with stabilization activities in grain; and

S. J. Res. 177. Joint resolution to define the term of certain contracts with Indian tribes.

On June 29, 1936:

S. 2119. An act for the relief of Amos D. Carver, S. E. Turner, Clifford M. Carver, Scott Blanchard, P. S. Blanchard, James B. Parse, A. N. Blanchard, and W. A. Blanchard, and/or the widows of such of them as may be deceased;

S. 2293. An act for the retirement of employees of the Alaska Railroad, Territory of Alaska, who are citizens of the United States;

S. 3247. An act to waive any exclusive jurisdiction over premises of Public Works Administration slum-clearance and low-cost-housing projects, to authorize payments to States and political subdivisions in lieu of taxes on such premises, and for other purposes;

S. 3733. An act authorizing the issuance of a patent to certain lands in the State of Montana to Florence Kerr Facey;

S. 4152. An act validating certain conveyances by Kickapoo Indians of Oklahoma made prior to February 17, 1933, providing for actions in partition in certain cases;

S. 4633. An act to provide for the selection of certain lands in the State of California for the use of the California State park system;

S. 4773. An act to confer jurisdiction on the Court of Claims to hear and determine certain claims against the United States on the part of owners of certain vessels; and

S. J. Res. 196. Joint resolution to correct errors in the enrollment of Private Act No. 349, Seventy-fourth Congress, approved August 29, 1935, and to clarify the duties of the Comptroller General in connection with said act.

On June 30, 1936:

S. 1567. An act to amend section 5 of the act of March 2, 1919, generally known as the War Minerals Relief Act; and

S. 3055. An act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes.

PRESIDENTIAL DISAPPROVALS

The President of the United States, subsequent to the final adjournment of the second session of the Seventy-fourth Congress, transmitted to the Secretary of the Senate lists of bills disapproved by him, with his reasons for such action, as follows:

JUNE 22, 1936.

S. 1464. An act for the relief of Frank P. Hoyt.

"I have withheld my approval of S. 1464, entitled 'An act for the relief of Frank P. Hoyt.'

"The bill provides that in the administration of any laws conferring rights, privileges, or benefits upon honorably discharged soldiers Frank P. Hoyt, who was a member of Troop D, Eighth United States Cavalry, shall hereafter be held and considered to have served for more than 90 days during the Philippine Insurrection and to have been honorably discharged June 1, 1900, and that the rights, privileges, and benefits conferred upon Frank P. Hoyt by reason of this enactment shall be limited to admission to a soldiers' home under the regulations governing such admissions.

"The official record reveals that Mr. Hoyt enlisted December 28, 1898, and was discharged without honor on March 22, 1899, as a private, Company A, Seventeenth United States Infantry, by reason of disability on account of misconduct; that he again enlisted September 9, 1899, stating he had no prior service, and was honorably discharged February 24, 1900, as a private, Company E, Forty-sixth United States Volunteer Infantry, his active service having been broken by 9 days' absence without leave and 60 days in the hospital because of his misconduct disability; and that he again enlisted April 10, 1900, stating that he had served in Company E, Forty-sixth United States Volunteer Infantry, but alleged no other service, and was dishonorably discharged on June 1, 1900, as a private, Troop D, Eighth United States Cavalry, following conviction and sentence by general court martial for fraudulent enlistment, in deliberately and wilfully concealing from the recruiting officer the fact of his previous discharge without honor on March 22, 1899.

"Enactment of this legislation would place the beneficiary thereof on a par with all those receiving honorable discharges, but the residual benefits accruing thereby are 'limited to admission to a soldiers' home under the regulations governing such admission.' An offense, similar to the one for which this man was dishonorably discharged, if committed in the Army now, still subjects the offender to trial and punishment. The inconsistency of granting a legislative pardon in this case and partially restoring certain residual privileges by special act, while at the same time continuing to punish men for such offenses against the law and regulations, is readily apparent. Nothing appears in the record of this man to indicate that any injustice has been done him or to justify the relief which this bill proposes to grant.

"Both the Secretary of War and the Administrator of Veterans' Affairs recommend that this bill be not favorably considered, and close scrutiny of the facts in this case constrains me to concur in their findings."

S. 1769. An act for the relief of Percy C. Wright.

"I have withheld my approval of Senate bill No. 1769, entitled 'An act for the relief of Percy C. Wright.'

"The bill, in effect, would place former First Lieutenant Wright, Air Corps Reserve, on the retired list of the Regular Army for disability from injuries received while on an active-duty status as a Reserve officer.

"The laws providing for retirement for physical disability relate only to officers of the Regular Army. It appears that Lieutenant Wright had had no service as an officer of the Regular Army, nor was he, at the time he was injured, eligible for appointment as an officer in the Regular Army, since he had passed the statutory age limit for such an appointment.

"Relief in cases of Reserve officers of the Army is provided for under laws administered by the Veterans' Administration, and I am advised that Lieutenant Wright is now receiving benefits available to him from that agency totaling $100.57 per month. In this connection it may be noted that, on July 24, 1935, I returned to the Congress, without my approval, H. R. 2566, an act for the relief of Lieutenant Wright. That act would have provided for Lieutenant Wright a rate of pension different from the rate provided for other persons in his class similarly disabled. In the absence of very exceptional or unusual circumstances, such action could not have been justified.

"The bill now before me similarly would provide for Lieutenant Wright benefits not provided other Army Reserve officers disabled while on active duty.

"It is a regular practice of the War Department to place Reserve officers on active duty. These officers habitually are attached to units of the Regular Army for duty, and the circumstances in Lieutenant Wright's case are not exceptional in this regard.

"As I have pointed out in other veto messages, the retirement system of the Regular Army was provided for the two-fold purpose of attracting desirable permanent personnel to the service and of vitalizing the active list. Its maintenance for such purpose is vital to the national defense and should not be jeopardized by utilizing it as a means of relief or for placing upon the regular retired list persons other than the permanent personnel of the military service.

"In withholding my approval of this measure I have not overlooked the fact, referred to by the Senate Committee on Military Affairs in its report no. 2153, that on June 14, 1934, I approved a similar bill for the relief of a Naval Reserve officer, Ensign Warren Burke, the effect of which was to place him upon the Regular Navy retired list. My action in that case followed the recommendation of the Navy Department that the bill be approved, which recommendation reflected the views of that Department contained in a report of the Acting Secretary of the Navy on the bill while it was under consideration in Congress, to the effect that the status of Ensign Burke at the time of his injury was materially different from that usually occupied by Reserves. If this bill were before me now, I would withold approval of it. I have satisfied myself that the cases of Ensign Burke and Lieutenant Wright are identical in that both were Reserve officers and were injured while on extended duty, rather than for training, but I do not feel justified, for the reasons which I have outlined, in giving my approval to the bill for the relief of Lieutenant Wright merely because I approved a similar bill for the relief of Ensign Burke."

S. 3992. An act for the relief of Capt. Laurence V. Houston, retired.

"I have withheld my approval of S. 3992, authorizing me to transfer Capt. Laurence V. Houston from the retired to the active list of the United States Army, and to place him on the promotion list in the position he would have occupied had he not been involuntarily transferred to the retired list on December 9, 1929. This measure further provides that no back pay or allowances shall accrue to this officer by reason of this transfer.

"From the facts in this case of record in the War Department it appears that this officer, who was born September 10, 1891, accepted a commission as provisional second lieutenant, Field Artillery, March 23, 1917, continued on active duty until December 9, 1929, when he was retired from active service under the provisions of section 24b of the act of June 4, 1920. Proper authority having determined that his separation was not due to his neglect, misconduct, or avoidable habits, he receives compensation from the United States Government at the rate of $900 per annum.

"Briefly stated, the ultimate purpose of this measure is to completely restore this officer to the active list of the Army and thus, by special legislation, reverse the findings of legally constituted courts and boards and other administrative agencies of the War Department.

"Before reaching the decision to withhold my approval of this act, a thorough and complete investigation was ordered to determine if this officer had been unfairly treated or if his record of accomplishment in the United States Army indicated that he is of the caliber and has the capacity to be restored to active duty in the higher rank which this measure provides.

"After mature consideration of the facts presented, I can find no evidence of injustice or error in the proceedings of the War Department. It is also clear and unquestionable that this officer does not measure up to the standard required of officers of the Regular Army today. Therefore, I can see no reason why this individual should be singled out and placed in a position of seniority in the Army which today is even more exacting than before in its demands upon the skill and capacity of its personnel."

S. 4444. An act directing the Court of Claims to reopen certain cases and to correct the errors therein, if any, by additional judgments against the United States.

"I have withheld my approval of S. 4444, Seventy-fourth Congress, entitled 'An act directing the Court of Claims to reopen certain cases and to correct the errors therein, if any, by additional judgments against the United States.'

"The bill proposes to direct the Court of Claims of the United States to reopen six cases decided by it in 1920, 1921, and 1922, involving claims for just compensation for the taking of property by the Government in the vicinity of Norfolk, Va., in 1917 and 1918. It further proposes to direct the court to make an award to the plaintiffs in those cases for interest at 6 percent upon the value of the property heretofore found and paid to the plaintiffs, such interest to run from the date of the taking of the property until March 5, 1925. It has been computed that such additional interest would amount to approximately $308,000.

"Prior to 1923 the rule invoked in proceedings to ascertain just compensation for property taken by the Government for public use was that interest on the value thereof should not be included in the award. Sometime subsequent to the entry of the judgments in the cases involved in this legislation the Supreme Court, on March 5, 1923, in the case of *Seaboard Air Line Railway Co.* v. *United States* (261 U. S. 299), changed the rule of law theretofore prevailing and enunciated the principle that interest on the value of the property from the date of taking to the date of judgment should constitute a part of just compensation.

"The judgments heretofore rendered in favor of these plaintiffs awarded just compensation to them in accordance with the rule prevailing at the time. The fact that at a later date the Supreme Court adopted a principle that is more liberal to property owners than had been in force theretofore does not seem to require as a matter of justice a reopening of all of the cases previously decided and the award of additional compensation in such instances. Moreover, no reason appears why preferential treatment should be extended to six of the numerous property owners whose claims had been adjudicated prior to the decision of the Supreme Court in the Seaboard Air Line case.

"For the foregoing reasons I have felt constrained to withhold my approval of this measure."

S. 4734. An act to provide for hurricane patrol in the Gulf of Mexico and environs during the hurricane season.

"I have withheld my approval from S. 4734, an act to provide for hurricane patrol in the Gulf of Mexico and environs during the hurricane season. The bill provides that to the extent the vessels of the Coast Guard will permit, and within the limits of such appropriations as may be made for that purpose, the Secretary of the Treasury, when the Coast Guard is under the Treasury Department, and the Secretary of the Navy, when the Coast Guard is a part of the Navy, are requested to patrol the Gulf of Mexico and environs for the purpose of cooperating with the Secretary of Agriculture in furnishing the Weather Bureau data to enable such Bureau to forecast with greater accuracy and speed the size and course of tropical hurricanes. For the past few years the question of the feasibility of establishing a hurricane patrol by Coast Guard vessels in the Gulf of Mexico has been the subject of consideration and discussion. A joint board of Coast Guard and Weather Bureau officers made a careful study of the proposal and reached the conclusion that although in some instances valuable reports might be secured, the practicability of the project was decidedly questionable and its cost would be totally disproportionate to the value of the reports which might be anticipated. The assignment of several vessels exclusively to the patrol during the hurricane season would require additional ships of the largest and most expensive type of Coast Guard cutters since only vessels of this character could be expected to withstand the force of a tropical hurricane. This would involve large operating costs, since the hurricane season lasts for 5 or 6 months and such a patrol would therefore necessitate assigning large ships with a personnel of several hundred officers and men to do exclusively weather patrol work for almost half of each year. These boats would be available for no other duty during that period.

"Coast Guard vessels already regularly patrol the Gulf of Mexico in connection with their duties of saving life and property at sea and preventing smuggling. Incident to their regular duties, these boats collect weather information from merchant boats of all nationalities in the Gulf in addition to making their own personal observations. This information is radioed to shore every few hours and in times of storm even more often. These boats will obtain a great deal of weather information in the regular course of their duties, but to change their principal objective from saving life and property at sea to the collection of weather data would mean that in many instances when they were needed for life-saving work they would be unavailable for that purpose by reason of the fact that their weather information collecting duties had led them into other parts of the Gulf. Past experience has shown that weather reports may be expected to be received from over 60 vessels during the course of a hurricane and up to distances of 500 miles away. To assign three Coast Guard vessels exclusively to hurricane patrol work (which is the plan envisaged by the proponents of the bill) would be merely to add three more reporting stations at a very large cost.

"The Coast Guard has in the past, and will continue in the future, to cooperate very closely with the Weather Bureau and the Department of Agriculture in securing information with which that Bureau can forecast, as accurately as it is humanly possible to do, the points on the coast and the times at which approaching hurricanes will strike. During the past 3 years this system of cooperation has become steadily more effective, as a result of the arrangements made between the Coast Guard and Weather Bureau to obtain an ever-increasing number of ship weather reports during the course of hurricanes. In addition, a Weather Bureau forecaster is now stationed on the Gulf during the hurricane season. This is quite a recent innovation and has materially increased the speed and efficiency of forecasts. Previously, all weather information was relayed to Washington, and the forecasts were made from there.

"As originally introduced, legislation contemplating hurricane patrols of the Gulf was mandatory in character making it the duty of the Coast Guard to furnish such patrol. The present bill is permissive in the sense that it merely requests that the Coast Guard patrol the Gulf for the purpose of collecting hurricane data, instead of making it the duty of the Service to do so. As indicated by the report of the House Committee on Merchant Marine and Fisheries on H. R. 10313, the Treasury Department, the Department of Agriculture, and the Navy Department were all opposed to the enactment of that bill which as introduced was in the mandatory form described above. That bill was, therefore, reported out in amended form so as to be merely permissive in character, and as reported out is identical with the present bill. The change from mandatory to permissive form does not alter my belief that the legislation is unnecessary, unsound, and impracticable. Existing statutory authority is entirely sufficient to authorize such measures as are desirable and practicable, and I cannot, therefore, approve the enactment of further legislation in this regard."

H. R. 2213. An act for the relief of Charles P. Shipley Saddlery & Mercantile Co.

"I have withheld my approval of H. R. 2213, entitled 'An act for the relief of Charles P. Shipley Saddlery & Mercantile Co.'

"This act authorizes and directs the Secretary of the Treasury to pay to the Charles P. Shipley Saddlery & Mercantile Co. the sum of $11,902.15 in full settlement of all claims of that company arising out of cancelation of its lease, dated October 19, 1917, for a site on the zone of camp activities and amusements at Camp Funston, Kans.

"The claim which this act seeks to settle and pay grows out of the following facts:

"In order to preserve the health and morale of the troops during the World War the camp commander of Camp Funston, Kans., established there a 'zone of camp activities and amusements' and acting under authority of the War Department, granted concessions and permission to erect buildings on the reservation under leases for terms of 5 years, revocable at the will of the Secretary of War on 10 days' notice to the lessees, under which claimant, whose principal store and home office were in Kansas City, Mo., erected a store and sales room and operated the same until on the abandonment of Camp Funston the lease of the claimant, in accordance with similar action in the cases of all other leases, was revoked on December 11, 1919.

"Subsequently, Congress decided to permit a measure of relief for the hardships suffered by a number of the lessees and passed the act of February 26, 1923 (42 Stat. 1774), authorizing the Secretary of War to make such settlement as he thought just and proper for the actual losses sustained by lessees on account of the cancelation of their leases before the expiration dates. It is clear that the relief bill limited reimbursement to those losses, if any, due directly to the expense of erecting buildings under leases canceled before the expiration dates and did not include operating losses or loss of profits. It was so interpreted by the Secretary of War in the consideration and settlement of numerous other claims submitted under the authority of the act.

"On April 10, 1923, the Secretary of War convened a board of officers which examined into and reported on 24 claims, including that of claimant, submitted under the act, and failure at that time to take final action on the present claim was due entirely to the delay by claimant's duly constituted representatives from Octber 16, 1923, to May 5, 1924, a period of over 6½ months, in furnishing material and necessary information requested by the board.

"The figures finally submitted and subsequently considered on numerous occasions by the War Department show that merchandise costing $55,305.17 was delivered to and sold at the Camp Funston concession for $84,973.08, from which was properly deducted expenditures incurred at Camp Funston amounting to $19,576.25, leaving a net operating profit of $10,091.66. In an effort to convert the apparent profit into a loss the claimant lists as losses the net cost of the building and proportionate share of the heating plant, together amounting to $14,485.92, less rentals received of $4,100, or a net loss of $10,385.92, loss on equip-

ment at $1,516.23, a total claimed actual loss of $11,902.15, and the following deductions as operating charges—

(a) 10 percent handling charge	$5,383.86
(b) Salary of purchasing agent	4,800.00
(c) Proportionate share of overhead, home office	5,492.72
Total	15,676.58

"amounting in all to $27,578.73 and leaving a claimed net loss, after deducting operating profits of $10,091.66, of $17,487.07.

"These figures have been carefully examined and analyzed on numerous occasions by the War Department and the operating expenses under (a), (b), and (c) were rejected as unjustified by the facts. Likewise, it is pointed out that, although the store building was actually occupied for at least 20 of the 60 months the lease was to run, no allowance was made for the use and enjoyment of the premises during that period nor any corresponding deduction made from the expense item of $14,485.92, the cost of the building and proportionate share of heating plant. According to the method and principles adopted in settling other similar claims, a deduction of at least one-third of such cost; that is to say, $4,828.64; should have been made from the amount claimed as loss on that account.

"It cannot be denied that the Government under the terms of the leases had the right to cancel all or any of them at will after 10 days' notice, or that the claimants were charged with full notice that the camp would be abandoned and all concessions canceled at or shortly after the termination of the war. There is, therefore, no legal basis for the present claim and the only ground for any remedial action is that of providing a measure of relief for hardships suffered under such circumstances by the lessees. Certainly the present claimant is entitled to no greater relief than that afforded to other similar claimants under the provisions of the act of Congress referred to, and applying the same principles and methods employed in the administration of that act in the cases of other claimants; conceding the position apparently taken by the Congress that the stores of the claimant at Kansas City and at Camp Funston were operated as a joint enterprise; and without attempting to repeat the careful analysis of the claimant's figures previously made by the War Department, contained in The Assistant Secretary of War's letter, dated January 23, 1932, as exhibit A in the report on the bill, I have come to the conclusion that the claimant has incurred no losses and suffered no hardships entitling it to the relief provided for in the present bill.

"For these reasons I am impelled to withhold my approval of the act for the relief of the Charles P. Shipley Saddlery & Mercantile Co."

H. R. 3694. An act for the relief of Florence Byvank.

"I have withheld my approval from H. R. 3694, an act for the relief of Florence Byvank. I do so on the report and recommendation of the Acting Director of the Budget.

"This measure would authorize and direct the Administrator of Veterans' Affairs to pay the amount of insurance under the Government life-insurance policy (numbered K–720604) of Clarence A. Byvank to Florence Byvank, his widow and designated beneficiary, in accordance with the terms of such policy beginning with the first calendar month following the month during which this measure is enacted, notwithstanding the lapse of such policy in December 1931. The amount of the policy is $10,000.

"The records of the Veterans' Administration disclose that the insurance policy lapsed for nonpayment of premiums and that the reinstatement requirements were not met. The United States Government Life Insurance Fund, from which the payments authorized by this bill would be paid, is a trust fund and must be administered by the Government in accordance with the law and regulations for the benefit of the policyholders. The enactment of special bills requiring the disbursement of funds from this trust fund for the relief of beneficiaries of policyholders who have not complied with the provisions of the law and regulations applicable in equal measure to all persons coming under the provisions cannot, in my judgment, be justified.

"A review of the facts indicates that this is not an unusual case and I can see no reason for singling it out for preferential treatment.

"For these reasons I am withholding my approval of this bill."

H. R. 12329. An act to reenact section 259 of the Judicial Code, relating to the traveling and subsistence expenses of circuit and district judges.

"I have withheld my approval of H. R. 12329, Seventy-fourth Congress, entitled 'An act to reenact section 259 of the Judicial Code, relating to the traveling and subsistence expenses of circuit and district judges.'

"The bill proposes to reenact section 259 of the Judicial Code, which allowed United States judges their necessary expenses of travel, and reasonable expenses not to exceed $10 per day actually incurred for maintenance, consequent upon their attending court or transacting other official business in pursuance of law at any place other than their official place of residence, said expenses to be paid upon the written certificate of the judge.

"Section 207 of the act entitled 'An act making appropriations for the legislative branch of the Government for the fiscal year ending June 30, 1933, and for other purposes', approved June 30, 1932, provides that civilian officers and employees of the departments and establishments, while traveling on official business and away from their designated posts of duty, shall be allowed in lieu of their actual expenses for subsistence a per diem not to exceed the rate of $5 within the limits of continental United States and not to exceed an average of $6 beyond the limits of continental United States, which the Comptroller General held in a decision to the Attorney General dated August 5, 1932 (12 Comp. Gen. 190) applied to the subsistence expenses of judges.

"I am withholding my approval of this measure because I feel that the proposed allowance to United States judges for actual subsistence expenses of not to exceed $10 per day is too high when compared with subsistence allowances to personnel in other branches of the Federal service."

JUNE 23, 1936.

S. 4026. An act to amend the National Defense Act of June 3, 1916, as amended.

"I have withheld my approval of Senate bill 4026, entitled 'An act to amend the National Defense Act of June 3, 1916, as amended.'

"The bill in its original form, as passed in the Senate on March 26, 1936, and as reported out by the committee of the House of Representatives on June 12, 1936, would have restored those pension benefits to members of the Officers' Reserve Corps and the Enlisted Reserve Corps which were withdrawn from them by the act of June 15, 1933 (48 Stat. 161). Thus, it provided appropriate benefits to a deserving group of the Federal military forces at a nominal expense to the Government.

"The National Guard, except when called or ordered into the active service of the United States in case of emergency, is essentially a State force.

"As amended on the floor of the House of Representatives and passed by the Congress, the bill would have the effect of placing the National Guard in an active Federal duty status while undergoing training in State service. It would thus place upon the Federal pension roll persons not in the Federal service at the incidence of their incapacity. This would constitute such a radical innovation in the policy which has been generally followed since the beginning of our Government that I must withhold my approval of the bill. In my opinion, no such legislation should be enacted until it has received an extended study in respect of its administration, expense, and possible far-reaching effect."

H. R. 796. An act for the relief of A. E. Clark.

"I have withheld my approval from H. R. 796, an act for the relief of A. E. Clark, the reasons for such disapproval being stated in letter of the Acting Director of the Budget under date of June 20, 1936.

* * * * * * *

"This bill would authorize and direct the Secretary of the Treasury to pay to A. E. Clark the sum of $566.09 in full settlement of all claims against the Government on account of money expended by him between March 1, 1930, and July 10, 1930, while employed by the Government as an assistant supervisor of census in the State of Washington.

"I have requested the views of the Department of Commerce on this bill, and I am transmitting herewith a letter from Assistant Secretary Draper in which he states the Department perceives no objection to approval of the bill.

"The papers in this case and the records of the Census Bureau show that Mr. Clark was a temporary employee of the Government from February 7, 1930, to July 10, 1930, and from August 15, 1930, to September 15, 1930, in connection with the taking of the 1930 census. The period here involved is March 1, 1930, to July 10, 1930, both dates inclusive, while Mr. Clark was serving as assistant supervisor of census of the Sixth District of Washington. During this period Mr. Clark's official station was the district headquarters at Longview, Wash., and his home was about 50 miles away at Camas, Wash. This bill proposes to reimburse Mr. Clark for expenditures made by him in the period March 1, 1930, to July 10, 1930, for subsistence while at his station in Longview and for travel from and to his home in Camas, notwithstanding that such allowances are not authorized by official travel regulations.

"It is said Mr. Clark before and after his appointment had pointed out to the district supervisor at Longview that it would be difficult for him to make a satisfactory return if he were required to pay board, room, and operation of his car out of the salary offered him while on duty in Longview, and the two men discussed fully the necessity of Clark's moving to Longview during the census period. However, no authorization was or could have been issued which would legally have provided for payment of a subsistence allowance to Mr. Clark while in Longview or for travel by him between Longview and his home at Camas.

"Instead, on March 13, 1930, Mr. Clark was issued an authorization to visit such points as might be necessary in the State of Washington, and during his necessary absence from Longview he was to receive the usual travel expenses, including a per diem in lieu of subsistence while engaged pursuant to the authorization. A copy of the official travel regulations accompanied this authorization. Mr. Clark was duly paid travel and subsistence when absent from Longview on official business.

"Following receipt by Mr. Clark of this authorization former Congressman Albert Johnson is said to have contacted by telephone Assistant Director of the Census Hill, in the absence of Director Stuart, and Mr. Hill, apparently under the impression that Longview was Mr. Clark's home, is said to have assured Mr. Johnson that Clark would receive a subsistence allowance of $6 per diem and travel expenses when away from his home.

"Notwithstanding Mr. Hill's verbal assurance, Mr. Clark should have been aware that he could not be given a subsistence allowance while in Longview, as indicated in the travel authorization sent him on March 13, 1930, and as set forth in the official travel regulations which accompanied it, yet the greater part of the period, March 1, 1930, to July 10, 1930, to which his claim for allowances pertains, is subsequent to March 13, 1930.

"The payment contemplated by this bill would be a discrimination against the many other temporary employees engaged in the taking of the 1930 census who served in status similar to that of Mr. Clark, none of whom received travel and subsistence allowance for service in like conditions.

"I recommend that the above-mentioned bill, which is hereby returned, be not approved."

JUNE 25, 1936.

H. R. 8055. An act to provide for economic studies of the fishery industry, market news service, and orderly marketing of fishery products, and for other purposes.

"I have withheld approval of H. R. 8055, an act to provide for economic studies of the fishery industry, market news service, and orderly marketing of fishery products, and for other purposes, for the following reasons:

"The appropriations of the Department of Agriculture now specifically provide authority for part of the services contemplated in this bill. The provisions of the bill would vest in the Department of Commerce authority for the performance of similar functions, and thereby establish duplicate authority for the prosecution of like duties in different departments of the Government. Considerable work of the character of other services specifically authorized by the bill is now carried on by the Bureau of Fisheries, and such further enlargement of this work as may be satisfactorily justified can be accomplished under general authorization of existing law."

JUNE 26, 1936.

S. 3143. An act for the relief of the Passaic Valley Sewerage Commissioners.

"I have withheld approval of S. 3143, an act for the relief of the Passaic Valley Sewerage Commissioners, for the following reasons:

"The damage to the sewer, for which this bill authorizes and directs payment of $109,088.03, was caused by an accident that cannot in any respect be charged to negligence on the part of the Federal Government or its agents, and the payment contemplated would be in the nature of a gratuity for which there appears to be no justification."

S. 3257. An act to amend the World War Adjusted Compensation Act.

"I have withheld approval of S. 3257, an act to amend the World War Adjusted Compensation Act, for the following reasons:

"This bill would amend section 202 (b) of the World War Adjusted Compensation Act, as amended, so as to include for adjusted-compensation benefits provisional, probationary, or temporary officers of the military or naval forces under the grade of major or lieutenant commander honorably separated from the military or naval service prior to January 1, 1922, with a limitation that applications under the act must be made within 1 year from the date of enactment.

"Section 202 of the World War Adjusted Compensation Act, as amended, provides for the exclusion from entitlement to adjusted-service credit of nine different types of service, among which is service as a provisional or temporary officer, to wit:

"'(b) Any individual holding a *permanent* or *provisional commission* or *permanent or acting warrant* in any branch of the military or naval forces, or (while holding such commission or warrant) *serving under a temporary commission in a higher grade*—in each case for the period of service under such commission or warrant or in such higher grade after the accrual of the right to pay thereunder. This subdivision shall not apply to any noncommissioned officers'. (Italics supplied.)

"The legislative history of the World War Adjusted Compensation Act, as amended, indicates that in the framing of the original measure in 1924 the Congress gave careful consideration to this particular subsection of the act, provisional and temporary officers being considered precisely the same as Regular Army or Navy officers from the standpoint of enjoying the privileges and emoluments of the regular commissioned service and therefore not entitled to be beneficiaries of adjusted-service credit. The view which the Congress apparently took in this connection was that persons who held commissions in the Regular Army, Navy, or Marine Corps, as was the case with provisional and temporary officers, may be said to have adopted service in the Regular Establishment as their life work, that being an officer of the Regular Establishment they would not return to a civil vocation at the conclusion of the war, and that therefore there was no reason for paying them adjusted compensation, the purpose of which was, in large part, to compensate civilians serving for the duration of the war for the loss they suffered during the period of military or naval service, which, in fact, was an interruption to their ordinary vocation in private life.

"Of the nine groups excluded under the present law, the provisional-officer group would be the first to be brought in should this bill become law. Moreover, each adjusted-service

compensation proposal submitted to date for Executive approval has been vetoed both by myself and by my predecessors in office. It would, therefore, not be consistent now to extend approval to this liberalizing amendment."

S. 3405. An act for the relief of Capt. James W. Darr.

"I have withheld my approval of S. 3405, an act for the relief of James W. Darr.

"This bill authorizes me to appoint James W. Darr as a captain of Infantry, United States Army, and to place him upon the retired list of the Army with the retired pay of that grade.

"From the facts in this case of record in the War Department, it appears that James W. Darr served in the Army for more than 21 years, including nearly 5 years as an enlisted man and the remainder as a commissioned officer. He was dismissed from the service October 1, 1934, for violation of the ninety-third, ninety-fifth, ninety-sixth, and sixty-first articles of war, pursuant to General Court-Martial Order No. 13, War Department, September 29, 1934.

"Captain Darr was tried by general court martial at Fort Snelling, Minn., during November and December 1933, on charges involving embezzlement; removal of a letter addressed to his commanding officer from the official mail with intent to conceal the contents from his commanding officer; making a false official report to his commanding officer; wrongful misappropriation of an automobile by trading it in as part payment for a new automobile; and absence without leave. He was convicted and sentenced to be confined at hard labor at such place as the reviewing authority might direct for 1 year. The sentence was approved by the convening authority and the case considered by the board of review and the Judge Advocate General, as a result of which it was found that the record warranted confirmation of the sentence. The Secretary of War concurred in these views, and after mature consideration the sentence was confirmed by me and accordingly carried into effect. In view of the length of time required for this case, his sentence of confinement expired October 10, 1934, and he remained at Fort Snelling for the short remaining period.

"It has been brought to my attention that former Captain Darr has been confined in the State Hospital at St. Peter, Minn., since April 1935. In this connection, the question of whether or not the existence of mental defects or derangement was an issue in the case was taken up at the trial, and after deliberation the court announced that the question of sanity of the accused had not become an issue. After Captain Darr's trial he was examined by two neuropsychiatrists of the Veterans' Administration at Fort Snelling, and before the board of review completed its study of the case Captain Darr was sent to Walter Reed General Hospital, where, after 3 months' observation from the point of view of mental disease, the board found him fit for duty and stated that a study of all evidence as well as his conduct while in the hospital did not reveal the existence of a psychosis at any time. Upon reviewing this board, the Surgeon General expressed the following views: '* * * This officer is regarded as being responsible for his acts and statements and as having the normal ability to distinguish between right and wrong and the normal ability to control himself from wrongful actions.'

"From the facts in this case as disclosed by the records of the War Department, it appears that this former officer's dismissal from the military service was strictly in conformity with the law and that the question of his mental condition was carefully considered before final action was taken in connection with the sentence of court martial.

"In view of the foregoing, I am unable to approve this measure."

S. 3441. An act for the relief of C. T. Hird.

"I have withheld my approval of S. 3441, an act for the relief of C. T. Hird, for the following reasons:

"This bill authorizes and directs the Secretary of the Treasury to pay, out of any money in the Treasury not otherwise appropriated, to C. T. Hird, of Dubuque, Iowa, the sum of $839.22 in full satisfaction of his claim against the United States for a refund of an overpayment of income taxes erroneously assessed against him for the year 1920. The bill would authorize and direct the refund notwithstanding the fact that the taxpayer failed to institute suit for the recovery of such taxes, thus neglecting to avail himself of the remedy provided by law, and the period within which suit might be filed has long since expired.

"On several occasions there have been submitted to me other bills which proposed to except certain taxpayers from the operation of the statutes of limitations pertaining to the revenue laws by extending the time for the recovery of amounts paid by such taxpayers. On those occasions I expressed my accord with the enacted policy of Congress that it is sound to include in all revenue acts statutes of limitations, by the operation of which, after a fixed period of time, it becomes impossible for the Government to collect additional taxes or for the taxpayer to recover an overpayment of taxes. I pointed out in each instance that such legislation selects a small class of taxpayers for special treatment by excepting them from that policy, thus discriminating against the whole body of Federal taxpayers and establishing a precedent which would open the door to relief in all cases in which the statute operates to the prejudice of a particular taxpayer, while leaving the door closed to the Government in those cases in which the statute operates to the disadvantage of the Government.

"In this regard the instant measure, S. 3441, does not differ in principle from the bills which were under consideration on those prior occasions. There appears to be no valid reason why the claimant in this case should not be bound by the provisions of the law, as are other taxpayers and the Government. I know of no circumstance which would justify the exception made by S. 3441 to the long-continued policy of Congress. Again I must express my belief that the field of special legislation should not be opened to relieve special classes of taxpayers from the consequences of their failure to invoke, within the prescribed period, the remedies provided by the law."

H. R. 2259. An act for the relief of Addie I. Tryon and Lorin H. Tryon.

"I am withholding my approval of H. R. 2259, an act for the relief of Addie I. Tryon and Lorin H. Tryon, for the following reasons:

"This bill would confer jurisdiction on the District Court of the United States for the Southern Division of the Northern District of California over the claim of Addie I. Tryon and Lorin H. Tryon for the recovery and repayment of the sum of $23,149.63 paid to the United States on or about April 24, 1923, as excess profits on certain contracts for the sale of wool to the Government. The bill further proposes to waive the defenses that the payment was voluntarily made, that there had been a settlement res adjudicata, and the statute of limitations.

"In 1918 the Quartermaster Corps of the Army entered into a series of contracts with wool dealers for the purchase of the entire domestic wool clip of that year for military purposes. The contracts were subject to the regulations promulgated by the War Industries Board. The regulations contained a provision that all profits realized by the contractors over a certain specified percentage should be disposed of as the Government might decide. The claimants named in the bill under consideration are the heirs of E. H. Tryon, who was one of the dealers that entered into a contract to sell and deliver wool to the Government on the foregoing terms. After an audit of his transactions by the Government, the administrator of his estate, on April 30, 1923, paid to the United States the sum of $23,149.63 as profits in excess of the percentages specified in the contract. The purpose of the bill under consideration is to permit his heirs to sue the Government for a return of the money so paid, it apparently being their theory that the Government had no authority to impose on the contractors any limitation as to their profits, even though they had agreed to sell wool to the Government on such terms.

"It is not disputed, however, that the contractor was not under any compulsion to sell the wool to the Government and voluntarily agreed to the terms imposed by it. Similarly the payment of the excess profits was also made voluntarily. No reason appears why the contractor's heirs should

be permitted to sue the Government for a refund of the money.

"Moreover, even if the contractor were to be granted his day in court, no reason appears why the Government should waive substantive defenses directed to the merits of the claim.

"In view of the foregoing, I do not feel justified in giving my approval to this measure."

H. R. 3952. An act for the relief of Mr. and Mrs. Bruce Lee.

"I have withheld my approval of H. R. 3952, Seventy-fourth Congress, second session, entitled 'An act for the relief of Mr. and Mrs. Bruce Lee', for the following reasons:

"This bill would authorize and direct the Secretary of the Treasury to pay out of any moneys in the Treasury allocated by the President for the maintenance and operation of the Civilian Conservation Corps, the sum of $2,500 to Mr. and Mrs. Bruce Lee, parents of an 11-year-old boy who was killed January 14, 1934, by a Government-owned truck negligently driven by an enrollee of the Civilian Conservation Corps, who, without authority, was using the truck for a personal trip. This bill authorizes and directs payment notwithstanding the fact that the truck was not being operated on business of the United States Government but, on the contrary, was being used without authority on a purely personal trip.

"Acceptance of responsibility for this accident would place upon the Federal Government a responsibility that does not attach to the mere ownership of a vehicle operated without authority of the owner.

"Although appreciating the strong sympathetic appeal, it is my judgment that the Government should not be called upon to pay for losses or damages that might result from the unlawful use of its equipment for personal purposes. For the reasons herein set forth I do not feel that approval of this legislation is justified."

H. R. 7463. An act for the relief of Lawrence R. Lennon.

"I have withheld approval of H. R. 7463, an act for the relief of Lawrence R. Lennon, for the following reason:

"The provisions of this bill are discriminatory in that it would single out one individual and confer upon him benefits not accorded to other students injured while in training at similar citizens' military training camps."

JUNE 27, 1936.

S. 4684. An act for the relief of the First, Second, and Third National Steamship Companies.

"I am withholding approval of S. 4684 for the following reasons:

"This bill confers jurisdiction on the Court of Claims to hear and determine in any suits instituted in said court, jointly or severally, by the First, Second, and Third National Steamship Companies, corporations organized and existing under the laws of the State of New Jersey, the claims of such companies on account of (1) certain sums deposited by the said companies with the United States Shipping Board in 1920; (2) certain disbursements made by the companies for and on behalf of the United States in 1920 for other than physical operation costs in connection with the vessels *Independence, Hoxie,* and *Scottsburg,* owned by the Government; and (3) certain permanent improvements and equipment placed aboard the vessels and not removed therefrom when they were returned to the custody of the United States; and to enter such decrees or judgments against the United States as will provide full reimbursement and just compensation to such companies on the said claims, notwithstanding the bars or defenses of res judicata or of any alleged settlement or adjustment heretofore made or any release heretofore given by the said companies, their agents or attorneys to the United States and notwithstanding any statute of limitations.

"In the spring of 1920 H. O. Schundler, of Madison, N. J., who financed the First, Second, and Third Steamship Companies and has controlled them since their organization, entered into an informal agreement with the United States Shipping Board whereby he took over the custody and management of three of the Shipping Board's vessels, viz, the *Independence,* the *Hoxie,* and the *Scottsburg,* and deposited certain sums of money as security for the fulfillment of his agreement to hold the Shipping Board harmless from the expense of physical operation.

"The terms of the agreements under which these vessels were delivered and the deposits made later became a subject of dispute, and the vessels were then retaken by the Shipping Board, whereupon the companies demanded the return of the deposits, but this demand was refused, and in 1925 suits were instituted by the companies in the Court of Claims. In 1935 court proceedings were suspended, and as the result of negotiations between the parties a compromise agreement was reached by the terms of which the Government paid to the companies the sum of $250,000 in full settlement of all claims arising out of these transactions. On October 7, 1935, Mr. Schundler, on behalf of the companies, formally released the United States from any and all claims, demands, and causes of action, at law or in equity, pertaining to or arising out of any and all transactions, the subject of suits pending in the Court of Claims, and on November 4, 1935, the suits in the Court of Claims and the Government's counterclaims were dismissed.

"In view of the fact that the claimants have had every opportunity to prove their cases in the Court of Claims, that they have entered into a firm and binding agreement of settlement, and that under the terms of the bill the United States would be deprived of the defenses of res judicata and the statute of limitations, I am constrained to withhold my approval of this measure."

JUNE 29, 1936.

H. R. 1362. An act conferring jurisdiction upon the United States District Court for the Western District of Texas to hear, determine, and render judgment upon the claim of R. A. Ramey, doing business as Ramey Bros.

"I am withholding approval of H. R. 1362 for the following reasons:

"The bill authorizes the payment of $8,432.22 in settlement of a claim against the United States arising in connection with contract no. T2sa–2930 for reconditioning the water-pipe line at the Fort Stanton (N. Mex.) Marine Hospital.

"The claim was not allowed by the Treasury Department but was referred to the Comptroller General on October 17, 1932, in connection with direct settlement of the contract by that officer. On December 20, 1932, the Comptroller General issued settlement certificate no. 0292610 (claim no. 0366636), certifying the balance due the contractor under the contract and denying the claim of $8,432.22 for the reason that the claim was one for damages for delay, for the payment of which the appropriation was not available. The position of the Comptroller General was further amplified in a letter dated April 7, 1933 (A–48271), addressed to the Honorable R. E. Thomason, House of Representatives.

"The Treasury Department's advertised specification for the work in question dated August 7, 1931, stated, at paragraph 31, that about 2 miles of line had frozen during the previous winter and fixed the time for completion at not later than November 1, 1931. This contractor was found to be low bidder at the time of opening bids, September 1, 1931. On September 3 the bidder wired requesting advice as to whether he had been awarded the contract. The contract was awarded on September 11, 1931. On September 16 the contractor wired that it would be impossible to complete the work by November 1 and requested an extension of 15 days. The Department replied on September 17 instructing the contractor to proceed and stating that the matter of delay would be considered at final settlement. No claim for additional compensation was made at this time. About November 16, 1931, a freeze occurred. At that time the work was not, as stated in the contractor's claim of June 8, 1932, and at page 2 of House Report 1455, completed except for back filling. At that time about three-quarters of a mile of line remained to be reconditioned, no valve boxes were in place, no clamps had been affixed, and many timber bridges over various arroyos had not been completed.

"Work was completed in April 1932, and on June 8, 1932, the claim covered by the present bill was filed. Liquidated

damages for delay were waived by the Government on October 14, 1932, when final settlement was authorized.

"Under date of March 14, 1935, the Treasury Department advised the chairman, Committee on Claims, House of Representatives, that passage of the present bill was not recommended. It is the position of the Department that, assuming the delay in accepting the contractor's bid to have been unreasonable, the contractor might have declined to proceed, but that having elected to proceed, he was not excused from performance at the contract price by the occurrence of extraordinary difficulties due to bad weather conditions. Since none of the work had been accepted at the time the freezing occurred there is no ground for holding that the risk of loss had shifted to the Government.

"The Treasury Department also advised the House committee that the statement of expenditure was considered insufficiently supported by proper evidence connecting the items with the bad weather conditions and further pointed out that the contractor's statement of expenditure was not accompanied by supporting vouchers of any kind. The fact that the degree of completion alleged had not in fact been reached at the time of the freezing raises a question as to whether the contractor's statement of expenditures includes any items for uncompleted work which he was required to perform in any event. Doubts as to proof of loss are not removed by the general allegations contained in the affidavits of the contractor's foremen set forth in House Report No. 1455.

"The question of the ordering of a test by the Government representative was not mentioned in the contractor's claim of June 8, 1932, filed with the Treasury Department but was raised for the first time by the affidavits set forth in House Report No. 1455. Investigation has been made of the statements appearing in those affidavits to the effect that the line was frozen solid about November 16, 1931, and that this was due to the fact that the Government representative ordered a test of the line. The damage to the pipe line was not caused by a single freezing but by various declines in temperature damaging different parts of the line at different times, not connected with any test at that date. Testing of the line was required by the contract and had to be done before backfilling. The contract did not specify whether the procedure to be followed was to recondition the entire line, test, and then backfill, or to recondition, test, and backfill the line in sections, and the Government representative did not enter into any agreement with the contractor as to the method to be pursued. It is my opinion that when the contractor realized that the work could not be completed by November 1, due regard for the possibility of hazardous weather conditions, of which he had notice, indicated the advisability of adopting the second method. If that had been done, far less damage to the line would have occurred because of the protection of the backfill. The second method would have been more expensive because it would have required the contractor to hold his cleaners idle while the tests were being made. It appears that the contractor adopted the second method at the beginning of the work but soon abandoned it in favor of the cheaper method, and I feel that he must bear the consequences of his election."

H. R. 2435. An act for the relief of the Citizens State Bank of Marianna, Fla.

"I am withholding approval of H. R. 2435 for the following reasons:

"This bill proposes to relieve the Citizens State Bank of Marianna, Fla., from all liability to the United States as endorser of the following five checks, amounting in all to $692.09, and all negotiated on forged endorsements of the respective payees:

Check	Date	Amount	Symbol	Payee
No. 35862	Apr. 30, 1930	$97.91	79-004	Jack Wynn.
No. 37109	May 2, 1930	97.93	79-004	J. W. Freeman.
No. 41815	May 13, 1930	98.08	79-004	George Calhoun.
No. 5829	Mar. 6, 1931	48.17	70-004	B. W. Washington.
No. 28808	Apr. 1, 1931	350.00	70-004	James McNeally.

"There is no dispute as to the forgeries. The first three checks were issued on applications for seed loans which were fraudulently prepared by one Sam Rountree, county agent for Jackson County, Fla. Two of the payees were nonexistent. The third payee was an actual person but has no connection with the transaction whatever. The parcels of land on which the loans were made were owned by various persons not connected in any way with Rountree, who converted the proceeds of the three checks to his own use. Rountree was indicted, pleaded guilty, and was sentenced to pay a $200 fine and to serve 14 months in the penitentiary at Atlanta.

"The fourth check represented an actual seed loan to B. W. Washington, but investigation discloses that the check was received, endorsed, and negotiated by Rountree. He was indicted and sentenced for these offenses at the same time as in the previous cases.

"The fifth check also represented an actual seed loan, but was received, endorsed, and negotiated by Rountree.

"The approval of this bill would create a dangerous precedent. There appears to be no question of the legal liability of the Citizens State Bank of Marianna, since the endorsements were in all cases actually forged. It is well established that the Government is not liable for unauthorized acts of its agents, and to approve this bill would set a precedent and encourage the presentation of similar claims for which there is no legal basis."

H. R. 4059. An act for the relief of Ella B. Kimball, daughter and only heir of Jeremiah Simonson.

"I am withholding approval of H. R. 4059 for the following reasons:

"The bill provides for the payment to Ella B. Kimball, daughter and only heir of Jeremiah Simonson, the sum of $16,441.81, being the amount found due by the Court of Claims, as reported to Congress in Senate Document No. 320, Fifty-ninth Congress, second session, and also contained in Court of Claims Congressional Cases, volume 16, page 703.

"On September 9, 1862, Jeremiah Simonson entered into a contract with the Navy Department to construct a wooden hull for the U. S. S. *Chenango* for $75,000 within a period of 126 days from the date of contract, said contract price to include equipments and outfits. Upon completion of the vessel in 1863 the contractor was paid the full contract price of $75,000 for the vessel and equipments, and also the sum of $3,528.17 for extra work on the hull of the vessel.

"By virtue of a resolution of the United States Senate adopted March 9, 1865, the Secretary of the Navy appointed a board of naval officers, known as the Selfridge Board, to inquire into the cost of the vessel and machinery to the contractor, and the board reported that the cost was $16,441.81 in excess of the contract price, not including the $3,528.17 allowed for extra work.

"The case was referred to the Court of Claims on June 23, 1902, by a resolution of the United States Senate dated June 17, 1902, under the Tucker Act of March 3, 1887, with accompanying Senate bill no. 4104. The amount claimed was $16,441.81 for work and material furnished in the construction of the U. S. S. *Chenango*. On February 11, 1907, the court filed its findings of fact, and on February 13, 1907, the findings were certified to the President of the United States Senate.

"In its findings the court stated that without any fault on the part of the Government the vessel was not completed until 65 days after the date fixed therefor in the contract; that during the progress of the work on the vessel the price of labor and materials greatly increased, and the contractor was paid the full contract price for said vessel and equipments and also the sum of $3,528.17 for extra work on the hull of said vessel; that the items of expenditure were submitted to the board of naval officers, afterward known as the Selfridge Board, and the cost of the *Chenango* was shown to that board (according to their report) to be $16,441.81 in excess of the contract price and allowance for extra work; and that no evidence had been offered by the Government to disprove the findings of the Selfridge Board, nor had any

sufficient competent evidence been offered by the claimant to affirm or approve the findings of said Selfridge Board.

"It also appears that subsequent to the report of the Selfridge Board the Secretary of the Navy convened another board, known as the Marchand Board, to investigate the cost of certain war vessels built between 1862 and 1865 and that this board made a report (which was not offered in evidence before the Court of Claims) in which it affirmatively found that Mr. Simonson did not incur any increased cost as the result of any delay or action on the part of the Government.

"As it is not conclusively shown that the increased cost to the contractor was due to any fault on the part of the Government, and in view of the conflicting reports of the two naval boards which investigated the case, I am constrained to withhold my approval of this measure."

H. R. 5635. An act conferring jurisdiction upon the Court of Claims to hear, determine, and render judgment upon the claim of the mayor and aldermen of Jersey City, Hudson County, N. J., a municipal corporation.

"I am withholding approval of H. R. 5635 for the following reasons:

"If approved, this bill, which would have the effect of waiving a statute of limitation, would constitute a precedent for similar bills for relief in connection with a large number of claims against the Railroad Administration which have been denied because suits were not filed within the period prescribed by law. Moreover, due to the lapse of time since the termination of Federal control of the railroads, and the loss or legal destruction of records, the Government would be at a distinct disadvantage in endeavoring to prevent excessive allowances."

H. R. 5368. An act to provide for the addition of certain lands to the Chalmette National Monument in the State of Louisiana, and for other purposes.

"I am withholding approval of H. R. 5368 for the following reasons:

"This bill is not in keeping with the well-established policy, which has been departed from in but very few instances, that land for national monuments shall be acquired without cost to the Federal Government. The existing monument comprises 17 acres, and I believe that an addition thereto of so large a tract as 250 acres, at a cost of $275,000, cannot be sufficiently justified to warrant this proposed departure from the established policy."

H. R. 8220. An act for the relief of Helen Mahar Johnson.

"I have withheld approval of H. R. 8220, Seventy-fourth Congress, second session, entitled 'A bill for the relief of Helen Mahar Johnson', which reads as follows:

" 'That the Secretary of the Treasury be, and he is hereby, authorized and directed to pay, out of any money in the Treasury not otherwise appropriated, to Helen Mahar Johnson, of Gilboa, New York, the remarried widow of James P. Mahar, the sum of $5,000 in full satisfaction of any and all claims of the estate of James P. Mahar for United States Government life-insurance benefits under policy numbered K-812772.'

"The yearly renewable term insurance in the amount of $10,000 lapsed for nonpayment of premium in 1919. On July 1, 1927, the veteran applied for reinstatement and conversion of $5,000 insurance. His application was approved and the policy was issued in September 1927. The policy lapsed for nonpayment of premium for the month of September 1927. The veteran died on December 24, 1927. Claim for insurance was disallowed because it was in a state of lapse at the time of the veteran's death and it was held that permanent and total disability did not exist while the insurance was in force. Suit for the insurance was filed by the administrator of the veteran's estate. The decisions of the circuit court of appeals and the Supreme Court of the United States held that the Government was without liability. It does not appear that the judgments were based upon purely technical grounds and there exist no sufficiently extenuating circumstances which would warrant the enactment of special legislation for relief in this case. Had the insurance been payable the veteran's estate would have been the beneficiary of the insurance while the proposed bill is otherwise. It appears that the veteran left surviving him, in addition to the remarried widow, three children for whom no provision is made in the bill.

"I do not believe this case is unusual with reference to the outstanding facts involved, and that to make an exception in this case would establish an unwise precedent."

H. R. 10504. An act for the relief of Booth & Co., Inc., a Delaware corporation.

"I am withholding my approval of H. R. 10504, for the relief of Booth & Co., Inc., for the following reasons:

"During the World War Booth & Co., Inc., was a lessee of certain premises at Bush Terminal, N. Y. The premises were requisitioned by the War Department on December 31, 1917. The United States retained possession of the premises until April 30, 1919. The Government was not able to reach an agreement with Booth & Co., Inc., as to the amount of just compensation which the latter should receive, and accordingly, Booth & Co., Inc., brought suit in the Court of Claims. Judgment was rendered for the plaintiff in March 1926 for the sum of $88,735.10 (*Booth & Co.* v. *United States*, 61 C. Cls. 805).

"The plaintiff requested the court to award interest on the authority of the decision of the Supreme Court in *Seaboard Air Line Co.* v. *United States* (261 U. S. 299), which held that interest was an item of just compensation. The Court of Claims held that the ruling of the Supreme Court did not apply in view of the fact that the suit brought by Booth & Co., Inc., was on an implied contract, and not to recover just compensation for the taking of property by eminent domain. The plaintiff made no effort to secure a review by the Supreme Court, but acquiesced in the decision and received and accepted payment of the judgment.

"Subsequently, in another similar case instituted by the lessee of another portion of Bush Terminal, whose premises had been requisitioned in the same manner, the Supreme Court held that interest was recoverable (*Phelps* v. *United States*, 274 U. S. 328).

"The bill under consideration proposes to provide for the payment of the interest amounting to $42,856.10, which it is contended Booth & Co., Inc., would have recovered had it appealed to the Supreme Court from the judgment of the Court of Claims, in view of the fact that the situation presented in this case is the same as that involved in the Phelps case.

"The claimant was accorded a judicial remedy, which it failed to exhaust. It acquiesced in the decision of compensation awarded by the Court of Claims, and accepted payment of the amount awarded. No reason appears for granting preferential consideration to this claimant by legislative action. In view of the foregoing circumstances, it does not seem that the matter should be reopened for the purpose of awarding interest."

H. R. 12062. An act to authorize the Secretary of the Interior to accept unsurveyed lands in numbered school sections in the State of Arizona in exchange for certain other lands, and for other purposes.

"I am withholding approval of H. R. 12062, which would authorize the Secretary of the Interior to accept unsurveyed lands in numbered school sections in the State of Arizona in exchange for certain other lands, for the reason that its enactment would leave the law authorizing land exchanges in Arizona between the State and Federal Government in a state of doubt, due to the fact that section 3 of H. R. 10094, which I approved on June 26, 1936, provides a broader exchange authority than is permitted under H. R. 12062."

JUNE 30, 1936.

S. 1790. An act for the relief of Margaret Murphy.

"I have withheld approval of S. 1790, an act for the relief of Margaret Murphy, for the following reasons:

"Both the Employees' Compensation Act and the Civil Service Retirement Act provide generally for relief in all cases of this character.

"This bill is discriminatory in that it grants special privileges with respect to this particular individual not accorded by general legislation to other employees of the Government under similar conditions.

"Mrs. Murphy is now receiving a salary of $1,260 per annum and an additional $120 per annum from the Employees' Compensation Commission."

S. 1793. An act to amend the act entitled "An act authorizing the attorney general of the State of California to bring suit in the Court of Claims on behalf of the Indians of California", approved May 18, 1928 (45 Stat. L. 602).

"I am withholding approval of S. 1793 for the following reasons:

"The bill authorizes the Indians of California to bring suit in the Court of Claims for compensation for lands in that State of which they were dispossessed by the United States, and directs the court to compute the value of said lands at $1.25 per acre and to render judgment therefor.

"It appears from the report of the Senate Committee on Indian Affairs relative to this bill (S. Rept. 709, 74th Cong., 1st sess.) that the total area for which an award might probably be made under the terms of this legislation would be not less than 90,000,000 acres. Thus the bill involves a liability of at least $100,000,000.

"In addition to having the effect of imposing a very heavy financial burden on the Government, the bill would create a dangerous and undesirable precedent for similar endeavors on the part of the present descendants of other aborigines to secure payment for lands occupied by their ancestors at the time of the original settlements in the United States or the acquisition of territory by this country. Not only would such a course of action result in an incalculable financial burden to the government, but justice to the Indians of today does not seem to require this type of reparation."

S. 2647. An act authorizing the Comptroller General of the United States to settle and adjust the claims of subcontractors, materialmen, and laborers for material and labor furnished in the construction of a post-office building at Hempstead, N. Y.

"I am withholding approval of S. 2647 for the following reasons:

"This bill, if approved, would operate to deprive the United States of its right to priority and set-off in this case, and would thus be regarded as a precedent for like surrender in similar cases. Also, it might operate to deprive the other creditors of the surety company of their just right to a pro-rata share in the distribution of the surety's assets."

S. 3107. An act to exempt publicly owned interstate highway bridges from State, municipal, and local taxation.

"I am withholding my approval of S. 3107, to exempt publicly owned interstate highway bridges from State, municipal, and local taxation, for the following reasons:

"The effect of this bill would be that, by declaring publicly owned interstate highway bridges to be Federal instrumentalities, such bridges would thereby be exempt from all State and local taxation. I cannot give my approval to this bill, first, because I can find no compelling reason for making publicly owned interstate highway bridges Federal instrumentalities, and secondly, because relieving such bridges of all State and local taxation would, in the majority of cases, result in loss of revenue by States and their political subdivisions, necessitating material curtailment of necessary activities, or the imposition of increased tax burdens upon other taxpayers to make up the deficit."

S. 3175. An act for the relief of Jesse Ashby.

"I am withholding approval of S. 3175 for the following reasons:

"The bill confers upon the United States Court of Claims jurisdiction to hear and adjudicate a claim of Mr. Ashby growing out of losses suffered under his contract dated April 28, 1931, for painting plaster walls in the Department of Commerce Building, Washington, D. C. The claim is related to four separate proposals, each dated April 9, 1932, covering the following items of alleged additional work:

(1) For additional labor and material supplied because certain of the ceilings and walls became porous and chalky	$11,154.96
(2) For repainting surfaces where cracks were replastered	1,983.80
(3) For refinishing walls and ceilings where partition changes were made	1,675.20
(4) For expenses incurred in the substitution of Wall Hide for the size coat specified	665.00

"These claims were never brought to the attention of the Treasury Department until after the work had been entirely completed. As a result of this failure on the part of the contractor to abide by contract provisions requiring that extra work be authorized in advance by the contracting officer, no record of the contractor's alleged additional expenses was ever kept by the Government representatives supervising the work, and the Department has failed, after thorough investigation, to find any evidence which may be used to check the correctness of such alleged additional expenses. For these reasons there would not be a fair opportunity to see to the protection of the Government's interests in proceedings before the Court of Claims.

"The Treasury Department advanced the above objection in its unfavorable report to the Committee on Claims of the House of Representatives under date of March 28, 1935. The committee report concluded with the following statement:

" 'Your committee is of the opinion that the claimant cannot be charged with the Government's failure to keep an account of the additional cost to which he was put, and inasmuch as the bill merely proposes that the matter be referred to the Court of Claims with jurisdiction to hear and adjudicate the claim upon the basis of the loss and damages suffered, in which court said losses and damages will be subject to proof, passage of it is recommended.'

"While this view is not without force, the Treasury Department's objection to the bill is more fundamental than the committee appears to have appreciated. It was pointed out in the report of March 28, 1935, that the Department regards it as extremely important that claims for additional work under Government contracts be made prior to the time when the work is done, and the Department felt an undesirable precedent would be created if the bill received favorable action. Government contracts are carefully drawn with a view to obviating the exact situation now presented, provisions being included therein as to the procedure to be followed in ordering changes and extra work, and to the effect that no charge for any extra work or material will be allowed unless so ordered. While there may be cases of extreme hardship in which it would be appropriate to disregard these provisions, I do not feel that this is such a case, since the claim is clearly the result of afterthought, and the Government would be at a distinct disadvantage in endeavoring to prevent an excessive allowance."

S. 4658. An act to aid the several States in making certain toll bridges on the system of Federal-aid highways free bridges, and for other purposes.

"I am withholding my approval of S. 4658, an act to aid the several States in making certain toll bridges on the system of Federal-aid highways free bridges, and for other purposes, for the following reasons:

"This bill provides that if any State which, subsequent to March 3, 1927, constructed toll bridges on the Federal-aid highway system, will, prior to July 1, 1938, make such bridges free bridges, the Secretary of Agriculture would be authorized to pay to such State, from Federal-aid road funds apportioned thereto, not to exceed 50 percent of such sum as the Secretary may approve as being the reasonable construction cost of any such toll bridge.

"The effect of this bill would be to divert funds appropriated for carrying forward our system of Federal-aid highways through the construction of new roads and new bridges to the payment of one-half of the construction cost of bridges already built. The bridges in question were constructed by the States as toll bridges and were to be operated as such until the revenue from their tolls should liquidate the cost of construction, when they were to become free bridges. This is the general theory upon which public toll bridges are constructed, and I can find no justification for diverting Federal road funds for the purpose of making such toll bridges free bridges at an earlier date."

H. R. 237. An act for the relief of the Rowesville Oil Co.

"I am withholding approval of H. R. 237 for the following reasons:

"This bill authorizes and directs the Secretary of the Treasury to pay to the Rowesville Oil Co., of Rowesville,

S. C., out of any money in the Treasury not otherwise appropriated, the sum of $4,991.74 in full settlement of all claims against the Government for the balance due and unpaid on 300 bales of linters purchased under contract by the United States Government through its agents on or about September 28, 1918.

"During the World War several hundred contracts were made with cotton mills by the Ordnance Department of the Army for the sale and delivery to it of cotton linters, and the claimant named in this bill was one of the contractors. Subsequent to the armistice all the contracts were canceled, and on December 30, 1918, a settlement of the claims of the various contractors was reached between representatives of the Ordnance Department and a committee representing the claimants. As the basis of settlement agreed upon was less favorable to the contractors than that provided in the cancelation clause of the contracts, the contractors brought suit for the balances claimed to be due them on the theory that their assent to the settlement had been procured by duress, and the contentions of the claimants in this regard were upheld by the Court of Claims and the Supreme Court in test cases, so that all that remained to be done in the cases pending in the Court of Claims was the ascertainment of the amount of damages due.

"As the bill singles out this company for preferential treatment, whereas other companies engaged in the production of cotton linters during the World War have sought their remedy in the Court of Claims, where they have been required to prove the amount of damages and the Government has had opportunity to present its evidence in defense, I am constrained to withhold my approval of this measure."

H. R. 254. An act for the relief of the Farmers' Storage & Fertilizer Co., of Aiken, S. C.

"I am withholding approval of H. R. 254 for the following reasons:

"This bill authorizes and directs the Secretary of the Treasury to pay to the Farmers' Storage & Fertilizer Co., of Aiken, S. C., out of any money in the Treasury not otherwise appropriated, the sum of $3,725.98, in full settlement of all claims against the Government for the balance due and unpaid on 123 bales of linters purchased under contract by the United States Government through its agents on December 31, 1918.

"During the World War several hundred contracts were made with cotton mills by the Ordnance Department of the Army for the sale and delivery to it of cotton linters, and the claimant named in this bill was one of the contractors. Subsequent to the armistice all the contracts were canceled, and on December 30, 1918, a settlement of the claims of the various contractors was reached between representatives of the Ordnance Department and a committee representing the claimants. As the basis of settlement agreed upon was less favorable to the contractors than that provided in the cancelation clause of the contracts, the contractors brought suit for the balances claimed to be due them on the theory that their assent to the settlement had been procured by duress, and the contentions of the claimants in this regard were upheld by the Court of Claims and the Supreme Court in test cases, so that all that remained to be done in the cases pending in the Court of Claims was the ascertainment of the amount of damages due.

"As the bill singles out this company for preferential treatment, whereas other companies engaged in the production of cotton linters during the World War have sought their remedy in the Court of Claims, where they have been required to prove the amount of damages and the Government has had opportunity to present its evidence in defense, I am constrained to withhold my approval of this measure."

H. R. 2932. An act to confer jurisdiction on the Court of Claims to hear, determine, and render judgment upon the claim of the International-Great Northern Railroad Co. against the United States.

"I am withholding approval of H. R. 2932 for the following reasons:

"The bill proposes to confer upon the United States Court of Claims jurisdiction to hear and determine the question of whether the International-Great Northern Railroad Co. has a legal claim against the United States for all or any portion of the several items referred to in the bill. It also proposes to waive the running of the statute of limitations against the right of the railroad company to prosecute its claim through the United States Court of Claims for a period of 1 year from the date of the enactment of the bill. An examination of the items composing the total claim, $43,187.54, indicates that two such are of interest to the Treasury Department, namely, customs inspection, $18,600.63, and Health Department (U. S. Public Health Service), $3,515.74, and one of interest to the Department of Labor, $3,541.13. The remainder of the amount claimed, namely, $17,603.04, is for services rendered to the State of Texas (Department of Agriculture) and does not concern the Federal Government.

"The major portion of the customs inspection item consists of overtime compensation paid customs inspectors in connection with examination of passengers' baggage. In view of the fact that this overtime compensation was in strict accordance with the provisions of section 5 of the act approved February 13, 1911, as amended by the act of February 7, 1925 (19 U. S. C. 267), and section 451 of the Tariff Act of 1930, it would seem that the railroad has no legal claim for the refund of any moneys paid to the United States Government for those services. In this connection attention is invited to the case of *Mellon* v. *Minneapolis, St. P. & S. S. M. Ry. Co.* (11 Fed. (2d) 332; certiorari denied, 46 Sup. Ct. 630), which holds that under the above sections, railroads crossing international boundaries are liable for the payment of extra compensation for overtime service of customs inspectors.

"Six thousand three hundred dollars of the item of $18,600.63 referred to in the bill as 'customs inspections, $18,600.63', paid during the period from September 1929 to June 30, 1932, covers the salaries of customs officers who were assigned outside of their official stations at the request of the railroad company to examine passengers' baggage arriving in the United States from Mexico, and the item referred to in the bill as 'Health Department, $3,515.74', was allegedly paid to employees of the United States Public Health Service in connection with the arrival of the Sunshine Special from Mexico. This latter item appears to represent the alleged total amount paid Public Health Service inspectors for the performance of special services at the request of the railroad company. The services were performed by the Public Health Service employees at hours and places other than those prescribed by the quarantine laws and regulations for such inspections.

"Inasmuch as the services in question were performed at the special request of the railroad company and took the officers and employees away from their official stations, it would seem that the Government was fully justified in requiring reimbursement of the company for extra expense incurred in customs inspection including the officers' salaries and in requiring the company to reimburse the cost of or furnish in kind the necessary travel and transportation expenses incurred by Public Health Service employees. It further appears that the claimant company prior to such arrangement specifically agreed to such reimbursement and should not be allowed to repudiate that agreement.

"With reference to the item United States Department of Labor, $3,541.13, it appears that that sum of money was paid by the claimant company for overtime services rendered it by immigrant inspectors under the provisions of the act of March 2, 1931 (46 Stat. 1467).

"The question of the liability of the claimant company to pay for the overtime services rendered by immigrant inspectors under similar circumstances was passed upon by the United States District Court for the District of Vermont in *United States* v. *Central Vermont Railway, Inc.* (at law No. 961). In that case the court decided that the Government was legally entitled to compensation for the services rendered by immigrant inspectors and entered judgment in favor of the United States."

NOMINATIONS

Executive nominations received by the Senate June 20 (legislative day of June 15), 1936

POSTMASTERS

CALIFORNIA

Louis H. Hoskins to be postmaster at Anaheim, Calif., in place of J. H. Whitaker, deceased.

IDAHO

Ralph Waldo Cope to be postmaster at Harrison, Idaho, in place of J. E. McBurney, deceased.

ILLINOIS

George N. Taylor to be postmaster at Evanston, Ill., in place of W. J. Hamilton. Incumbent's commission expired December 18, 1933.

IOWA

Forest Davis to be postmaster at Moulton, Iowa, in place of J. M. Garrett. Incumbent's commission expired February 19, 1936.

Hazel F. Patterson to be postmaster at Minden, Iowa, in place of B. A. Thies. Incumbent's commission expired February 24, 1936.

LOUISIANA

Hugh J. Stodghill to be postmaster at Rayville, La., in place of C. C. Heinemann. Incumbent's commission expired April 27, 1936.

Nannie H. Rogillio to be postmaster at Water Proof, La., in place of N. H. Rogillio. Incumbent's commission expired April 27, 1936.

MARYLAND

Elizabeth Fyle Provost to be postmaster at Aberdeen Proving Ground, Md., in place of H. E. Pyle. Incumbent's commission expired March 17, 1936.

MASSACHUSETTS

John W. Lynch to be postmaster at Medfield, Mass., in place of T. R. Bailey. Incumbent's commission expired January 27, 1936.

William W. Dooling to be postmaster at North Adams, Mass., in place of J. T. Potter. Incumbent's commission expired January 27, 1936.

NEW YORK

William H. Lozone to be postmaster at Helmuth, N. Y., in place of G. V. Lawson, resigned.

PENNSYLVANIA

Ramsey P. Williamson to be postmaster at Liverpool, Pa., in place of M. A. Grubb. Incumbent's commission expired March 17, 1936.

Benjamin Shaute to be postmaster at Peckville, Pa., in place of N. L. Pickering. Incumbent's commission expired February 24, 1936.

Alexander Alexander to be postmaster at Sellersville, Pa., in place of E. D. Smith. Incumbent's commission expired February 10, 1936 (removed w. o. p.).

Florence J. McMahon to be postmaster at Wesleyville, Pa., in place of H. L. Chaffee, deceased.

TEXAS

Llanos M. Laird to be postmaster at Lorenzo, Tex., in place of M. W. Hoople. Incumbent's commission expired February 19, 1936.

UTAH

Hyrum A. White to be postmaster at Beaver, Utah, in place of W. S. Joseph. Incumbent's commission expired March 31, 1936.

VERMONT

Charles F. Mann to be postmaster at Brattlebore, Vt., in place of S. A. Daniels. Incumbent's commission expired March 22, 1936.

WISCONSIN

Henry John O'Brien to be postmaster at Montfort, Wis., in place of William Frankland. Incumbent's commission expired May 19, 1936.

CONFIRMATIONS

Executive nominations confirmed by the Senate June 20 (legislative day of June 15), 1936

UNITED STATES DISTRICT JUDGES

John W. Clancy, to be United States district judge, southern district of New York.

Samuel Mandelbaum, to be United States district judge, southern district of New York.

Albert Branson Maris, to be United States district judge, eastern district of Pennsylvania.

BOARD OF TAX APPEALS

Richard L. Disney, to be a member of the Board of Tax Appeals.

Marian J. Harron, to be a member of the Board of Tax Appeals.

PROMOTIONS IN THE NAVY

Harry B. Hird, to be captain.
James H. McKay, to be lieutenant commander.
Alfred J. Benz, to be lieutenant.
Robert H. Solier, to be lieutenant (junior grade).
Paul L. Stahl, to be lieutenant (junior grade).
Ward F. Hardman, to be lieutenant (junior grade).
Norman W. Gambling, to be lieutenant (junior grade).
Willard R. Laughon, to be lieutenant (junior grade).
John A. Tyree, Jr., to be lieutenant (junior grade).
Roy M. Davenport, to be lieutenant (junior grade).
Martin A. Shellabarger, to be lieutenant (junior grade).
Thomas H. Ward, to be lieutenant (junior grade).
Merrill K. Clementson, to be lieutenant (junior grade).
Charles C. Morgan to be lieutenant (junior grade).
Richard G. Copeland to be lieutenant (junior grade).
Ralph E. Styles to be lieuenant (junior grade).
Everett E. Seagroves to be lieutenant (junior grade).
William V. Pratt, 2d, to be lieutenant (junior grade).

MARINE CORPS

David M. Randall to be colonel.
Graves B. Erskine to be lieutenant colonel.
Joseph H. Fellows to be major.
Louis G. DeHaven to be major.
Lester A. Dessez to be major.
Lionel C. Goudeau to be captain.
Alfred R. Pefley to be captain.
John H. Stillman to be captain.
Hawley C. Waterman to be captain.
James O. Brauer to be captain.
Thomas C. Green to be captain.
Andrew J. Mathiesen to be captain.
Joseph C. Burger to be captain.
Calvin R. Freeman to be captain.
Verne J. McCaul to be captain.
Leslie F. Narum to be captain.
Sidney S. Wade to be first lieutenant.
Guy M. Morrow to be first lieutenant.
Paul E. Wallace to be first lieutenant.
James F. Climie to be first lieutenant.
Edward E. Authier to be first lieutenant.
David S. McDougal to be first lieutenant.
Nixon L. Ballard to be first lieutenant.
Marshall A. Tyler to be first lieutenant.
Theodore C. Turnage, Jr., to be first lieutenant.
James M. Masters, Jr., to be first lieutenant.
William A. Kengla to be first lieutenant.
Wilbur J. McNenny to be first lieutenant.
Robert O. Bowen to be first lieutenant.
James L. Beam to be first lieutenant.
James Rockwell to be first lieutenant.
Joslyn R. Bailey to be first lieutenant.
Ethridge C. Best to be first lieutenant.

POSTMASTERS

ALABAMA

William H. Gandy, Fairfield.
James C. Jones, Sweet Water.
Gladys W. Deramus, Verbena.

ARIZONA

Minnie V. Van Deren, Tombstone.
Ruth L. Streett, Warren.

ARKANSAS

Lewis F. Strickland, Trumann.

CALIFORNIA

Louis H. Hoskins, Anaheim.
Walter I. Ricketts, Biggs.
Fred J. Darby, Lemoncove.

CONNECTICUT

George E. Barton, Salisbury.
Cornelius P. McGuinness, Stamford.
Wallace M. Hart, West Cornwall.

FLORIDA

Esther M. Stewart, Graceville.
Otis Padgett, Marianna.
William T. Murrell, Miami Springs.

IDAHO

Ralph Waldo Cope, Harrison.

ILLINOIS

Clinton S. Warrick, Donovan.
George N. Taylor, Evanston.

INDIANA

James L. Kennedy, Mishawaka.
Bernard J. McCaffery, South Bend.
Gordon N. Stockdale, Wingate.

IOWA

William A. Greenwood, Farley.
Henry Dahl, Hull.
Walter J. Leslie, Lakota.
Hazel F. Patterson, Minden.
Forest Davis, Moulton.
James P. Dorothy, Ute.

KANSAS

Edward Grauerholz, Esbon.
Jessie M. Grimes, Eudora.
George F. Colwell, Glasco.
Mary Marceline Gallagher, Jewell.
Loraine Champlin, Long Island.
Walter E. Moore, Manhattan.
Ernest F. Gerber, Meriden.

HOUSE OF REPRESENTATIVES

SATURDAY, JUNE 20, 1936

(Legislative day of Friday, June 19, 1936)

The recess having expired, the House was called to order by the Speaker at 10:30 a. m.

MESSAGE FROM THE SENATE

A message from the Senate, by Mr. Crockett, its Chief Clerk, announced that the Senate had passed without amendment bills and joint resolutions of the House of the following titles:

H. R. 3943. An act for the relief of D. E. Wooldridge;

H. R. 10504. An act for the relief of Booth & Co., Inc., a Delaware corporation;

H. R. 11331. An act to authorize the sale and conveyance by the Department of the Interior to the State of Minnesota of the SW¼NW¼ sec. 3, T. 159 N., R. 35 W., fifth principal meridian, in the State of Minnesota;

H. R. 12971. An act to amend the act of Congress approved May 27, 1935 (Public, No. 73, 74th Cong.), authorizing the Secretary of Commerce to convey to the city of Grand Haven, Mich., certain portions of the Grand Haven Lighthouse Reservation, Mich.;

H. J. Res. 388. Joint resolution to authorize the issuance of a reentry permit to Tomio Mori Moto and his readmission upon application while such permit remains valid;

H. J. Res. 608. Joint resolution extending for 2 years the time within which American claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the Mixed Claims Commission and the Tripartite Claims Commission, and extending until March 10, 1938, the time within which Hungarian claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the War Claims Arbiter; and

H. J. Res. 641. Joint resolution making appropriations for the payment of expenses incurred in an election contest for a seat in the House of Representatives from the Twentieth Congressional District of the State of New York.

The message also announced that the Senate agrees to the amendments of the House to bills of the Senate of the following titles:

S. 81. An act to provide for the collection and publication of statistics of peanuts by the Department of Agriculture; and

S. 4020. An act to authorize the acquisition of lands in the city of Alameda, county of Alameda, State of California, as a site for a naval air station and to authorize the construction and installation of a naval air station thereon.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 3247) entitled "An act to waive any exclusive jurisdiction over premises of Public Works Administration slum-clearance and low-cost-housing projects, to authorize payments to State and political subdivisions in lieu of taxes on such premises, and for other purposes."

PORTRAIT OF THE LATE SPEAKER RAINEY

The SPEAKER. Under the special order the Chair recognizes the gentleman from Illinois [Mr. LUCAS] for 12 minutes.

Mr. LUCAS. Mr. Speaker and Members of the House, I rise in these closing moments of the Seventy-fourth Congress to bring to your attention a matter involving the selection of the portrait of the late Henry T. Rainey, who was my Representative in this historic Hall for a period of 30 years. It is with some reluctance that I am compelled to discuss the subject matter at hand because it involves my colleague from Illinois [Mr. KELLER]. However, I should be recreant to a sacred impulse if I did not at this particular time enter a protest to what I feel has been inexcusable and unexplainable delay in the selection of an appropriate portrait of the late Speaker Rainey.

On July 8, 1935, there was enacted into law under the item, "Contingent expenses of the House", an appropriation which reads as follows:

> For the purchase of a portrait of Hon. Henry T. Rainey, late Speaker of the House of Representatives, $2,500, to be immediately available and to be expended under the direction of the Committee on the Library.

The chairman of the Committee on the Library is the gentleman from Illinois [Mr. KELLER]. Obviously, the responsibility for making effective the spirit and letter of such a law rests upon his shoulders. No one should underestimate the importance of the duties succinctly set forth in the appropriation measure, and under no circumstances should they be considered lightly or frivolously by any member of the committee.

After the power was vested in this committee by law, artists were invited to paint the portrait of the late Speaker, and I am advised that nine portraits are hanging in the committee room today for examination and inspection. I am further informed that most of them have been there since January 1 of this year.

Mr. Speaker, I am in no way interested in the portrait to be selected. That is the function of the committee. However, I am interested, and have been for months, in stirring the committee to action in order that a portrait might hang in the Speaker's lobby before the adjournment of the Seventy-fourth Congress.

On April 28 I wrote a letter to the distinguished gentleman from Illinois in which I said, among other things, the following:

> The Honorable Henry T. Rainey departed this life in August 1934. When the Seventy-fourth Congress convened, a resolution was adopted charging your committee with the duty of selecting a proper painting of the late Speaker, the same to be hung in the Speaker's lobby, along with portraits of other former Speakers of the House.
>
> I am again calling your attention to the advisability of an early selection of one of the many paintings that you have of Mr. Rainey. I have discussed this matter with some members of the Library Committee, and they advise me that no meeting has ever been called by you for the purpose of determining this very important matter.
>
> The widow of the late Speaker and some of my other constituents are very much interested in having the selection made immediately. I join with them in that request. Certainly, the por-

trait of Henry T. Rainey should be selected and hung in the Speaker's lobby before the Seventy-fourth Congress adjourns. The Members of this Congress are entitled to view that portrait.

Unless a selection is made at once from the various paintings which are now in your office, I shall be compelled to call up this matter on the floor of the House.

On April 29 I received a reply to my letter of the previous day which is as follows:

I have your letter of yesterday. We expect to make the selection of the painting of the late Speaker before the close of this session. It is the plan to invite in three or four of the best art critics in the country to give their judgment to the committee and the selection will be made soon after their visit.

Certain members of the committee advise me that art critics mentioned in the letter have been discussed at various times by the chairman, but their identity and their activities remain unknown. The so-called artists have failed to give to certain members of the committee the benefit of their artistic judgment in passing upon the selection of a proper portrait. I am further advised by members that the question of calling the committee together for making a final decision has been discussed at various times, but today the RECORD discloses that the chairman remains adamant and refuses to do anything about it.

I ask, in all sincerity, why all the uncertainty, the vacillation, and the indecision? Will the gentleman from Illinois please explain such dilatory tactics and the mystery surrounding this selection? Why all of this supine indolence? Why has the chairman loitered upon this important matter as the precious days of the Seventy-fourth Congress passed by? Why should the chairman through such artistic quibbling cause the widow of the late Speaker to become, as she wrote me recently, "weary and heartsick over it"? Why has not the selection been made so that Members of the Seventy-fourth Congress might have had the privilege of viewing the portrait? Even the late Speaker Byrns expressed such a desire. The gentleman from Illinois has been notified by leaders and Members of this House that his duties in this regard should be performed; and yet, like the Rock of Ages, he moveth not. Can it be that the gentleman from Illinois dislikes to give up his private art gallery, or is there some other mysterious reason which only the gentleman can explain?

Ladies and gentlemen of the House, I absolve the remaining members of this committee for this delay. Various Members have advised me that they have been ready and willing for weeks to select one of the many portraits in the committee room, but for some unexplainable reason the chairman just cannot find time to do it. I can well appreciate from reading the press that he is an unusually busy man, but no duty during his entire service in Congress has carried with it such an exacting and sacred tie; and if the distinguished gentleman from Illinois wants to do the decent and honorable and proper thing he will call the committee together immediately and without equivocation make a selection. With the utmost sincerity and with some feeling, I say that the delay in hanging the portrait of Speaker Rainey, who in life was a great and good man, is a shame and a disgrace. Yes; it is an insult to his precious memory.

In conclusion, I express the hope that when the appropriation is made for the portrait of the late Speaker, the Honorable Joe Byrns, that we may profit by this dilatory experience by placing a limitation of time as to when the committee work may be finished, or that a special committee be appointed with a chairman who will have a sympathetic interest in the wishes and desires of those who are near and dear to the deceased. [Applause.]

EXTENSION OF REMARKS

Mr. BEITER. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD and include therein an address made by Capt. E. H. Walter, assistant district engineer of the War Department, delivered before the Propeller Club of Buffalo on June 3.

The SPEAKER. Is there objection to the request of the gentleman from New York?

Mr. RICH. Mr. Speaker, I object.

THE SUPPRESSION OF MOB VIOLENCE

Mr. MITCHELL of Illinois. Mr. Speaker, I ask unanimous consent to extend my own remarks in the RECORD and include a telegram which I sent to the Governor of Texas and his reply thereto.

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. MITCHELL of Illinois. Mr. Speaker, this administration has accomplished wonders for the advancement of the people along many lines. As important and far reaching as has been its work in saving millions of good citizens from starvation and providing employment for the unemployed, it is my opinion that the work of the Department of Justice in stamping out crime, and especially organized gangs of criminals, takes first rank among the outstanding achievements.

While lawless gangs of robbers and murderers have been chased down, brought into court, and convicted, or driven into inactivity, there still remain the Black Legion and mobs of lynchers who commit murder and destroy the peace of our country.

It is my fondest hope and expectation that the horrible crime of lynching will receive the attention of our highest lawmaking body and that this crime, like that of kidnaping, will soon disappear from the records of our country. I am especially interested in the passage and enforcement of a law that will punish the perpetrators of this crime, because the Negro citizens of this country are the victims who suffer most and are largely helpless in our State courts.

However, I am conscious of the fact that there is an awakening in this country against this crime, which is expressing itself more and more. Some time ago President Roosevelt spoke of lynching as being collective murder. Since I have been in Congress I have had occasion to communicate with various Governors when mob violence was threatened or after mobs had done their bloody and shameful work. Some of these officials have been outspoken in favor of law and order. Only yesterday, when it was reported through the Associated Press of the country that 10 colored men in the State of Texas were in danger of being lynched, I sent the following telegram to Governor Allred of Texas and received a most encouraging reply from him:

JUNE 18, 1936.

GOV. JAMES ALLRED,
Executive Mansion, Austin, Tex.:

From press reports we learn that the lives of 10 colored citizens of your State are in grave danger of being snuffed out by a mob. In conversation on the floor of the House a few moments ago with a colleague from Texas, I learn that the temper and passion of the mob is such that the only possible manner in which the lives of these men can be saved is through immediate action of the Governor. Will you not please act at once to give these prisoners such protection as will safeguard their lives against a mob and insure a fair trial in the courts to which all citizens are entitled?

ARTHUR W. MITCHELL,
Member of Congress, First Illinois District.

AUSTIN, TEX., *June 19, 1936.*

HON. ARTHUR W. MITCHELL,
Member of Congress:

Answering your wire statement that the only possible manner in which the lives of Negro citizens of this State charged with crime could be saved was through immediate action on my part was incorrect. Am happy to report to you that Sheriff Koehl and other local officers of Wharton County had already acted in very timely fashion and none of these men were in danger. Two State Rangers have been assigned the sheriff. The sheriff advises me there has been no real danger at any time, since there was only natural resentment on part of some of our citizens at brutal murder of one of our officers. You may be assured these men will be given every protection, and if any of them are charged with crime of murder they will certainly be given a fair trial under the constitution and laws of this State.

JAMES V. ALLRED,
Governor of Texas.

I wish to take this occasion, first, of commending Sheriff Koehl, of Wharton County, and his deputies for the exercise of judgment and courage in safeguarding the lives of these prisoners; second, I want to commend Governor Allred

for not only doing his duty by informing himself of the serious situation and keeping in touch with the law-enforcement officers of Wharton County, but for the assurance he gives the public that these prisoners, if charged with crime, will be given a fair trial under the laws of the State. It is my opinion that if this example was followed in all our States lynching, which is the blackest crime on our record today, would cease at once.

JOSEPH W. BYRNS

Mr. SMITH of Virginia. Mr. Speaker, I ask unanimous consent to revise and extend my remarks in the RECORD and to include therein a resolution passed by the Young Democratic Club of Alexandria, Va., on the death of the late Speaker Byrns.

The SPEAKER. Is there objection to the request of the gentleman from Virginia?

There was no objection.

Mr. SMITH of Virginia. Mr. Speaker, under leave to extend my remarks, I desire to read the following resolution adopted by the Young Democratic Club of Alexandria, Va.:

Be it resolved, That the Young Democratic Club of Alexandria wishes to express its sorrow upon learning of the death of the beloved Speaker of the House of Representatives, Hon. JOSEPH BYRNS, and the club desires to extend to Mrs. Joseph Byrns and the colleagues of Speaker BYRNS its sincere sympathy in their great loss.

BRIDGEPORT IRRIGATION DISTRICT

Mr. COFFEE. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4719) for the relief of the Bridgeport irrigation district.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the immediate consideration of the bill?

Mr. SNELL. Mr. Speaker, reserving the right to object, will the gentleman tell us what this bill covers? As I understand, it adds no expense to the Government.

Mr. COFFEE. It adds no expense to the Government and no appropriation is authorized. It is purely a local matter and provides a means of compromising a situation that exists as between the Bureau of Reclamation and the Bridgeport irrigation district. The Secretary of the Interior recommends the bill, as well as the Bureau of Reclamation.

The SPEAKER. Is there objection to the immediate consideration of the bill?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That the Secretary of the Interior is hereby authorized to enter into a contract with the Bridgeport Irrigation District, North Platte reclamation project, by which (a) the United States, in consideration of $23,286 heretofore paid under the contract of June 14, 1915, between the United States and the district, shall grant to the district a permanent right to the use of water from the North Platte Federal reclamation project under the act of June 17, 1902 (32 Stat. 388), as amended and supplemented, which permanent water right shall entitle the district to divert from the North Platte River a quantity of water equal to three-tenths part of the quantity of water for which provision is made in article 1 of said contract of June 14, 1915, such total quantity of water for diversion by the district to be delivered by the United States under a schedule of delivery reduced in accordance with the provisions of this act; (b) the district shall agree to pay the United States the amount of $5,628.55; the operation and maintenance charges delinquent under said contract of June 14, 1915, for the years 1926 to 1935, both inclusive, upon the execution of said contract herein authorized; (c) the Secretary shall agree, upon the execution of said contract and its confirmation by the State courts, to cancel the judgment entered on July 30, 1929, against the district and in favor of the United States; (d) the district shall agree to pay to the United States in advance of the delivery of water under said contract one one-hundredth part of such amounts as shall be fixed by the Secretary as operation and maintenance charges in connection with the irrigation works from which said water supply is made available by the United States, such charges to be payable for the year 1936 and thereafter with interest from the due date at the rate of 6 percent per annum if not paid when due; (e) the Secretary shall be authorized to refuse the delivery of water under said contract to the district at any time when any installment in whole or in part (including any interest due thereon) of operation and maintenance charges shall not have been paid at the date provided in subdivision (d) hereof and shall remain unpaid at the date delivery of water is requested under said contract; and (f) the contract of June 14, 1915, shall otherwise remain in full force and effect.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

Mr. McCORMACK. Mr. Speaker, I have a Senate joint resolution on the Speaker's table. May I inquire whether the Speaker is recognizing unanimous-consent requests to take such matters from the Speaker's desk.

The SPEAKER. Not at the present time.

AMENDMENT OF SECTION 76 OF THE JUDICIAL CODE WITH RESPECT TO TERMS OF FEDERAL DISTRICT COURT AT TALLAHASSEE, FLA.

Mr. WALTER. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (H. R. 11217), to amend section 76 of the Judicial Code, as amended, with respect to the terms of the Federal district court held at Tallahassee, Fla.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania?

Mr. SNELL. Mr. Speaker, reserving the right to object, as I understand the situation, this is purely a local matter with reference to the term of court in this one district?

Mr. WALTER. This permits the holding of court for 2 weeks during the year instead of 1 week as is provided under the present law.

Mr. RICH. The Judiciary Committee has approved this bill?

Mr. WALTER. It has been unanimously reported by that committee.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The Clerk read the bill as follows:

Be it enacted, etc., That section 76 of the Judicial Code, as amended, is amended by striking out, after the word "Tallahassee", the words "on the second Monday in January" and inserting in lieu thereof the words "on the second Monday in February and on the first Monday in September.

With the following committee amendment:

Strike out all of lines 3 to 7, page 1, and insert the following:

"That section 76 of the Judicial Code, as amended, is amended to read as follows:

" 'The State of Florida is divided into two districts, to be known as the northern and southern districts of Florida. The southern district shall include the territory embraced on the 1st day of July 1910 in the counties of Baker, Bradford, Brevard, Citrus, Clay, Columbia, Dade, De Soto, Duval, Hamilton, Hernando, Hillsboro, Lake, Lee, Madison, Manatee, Marion, Monroe, Nassau, Orange, Osceola, Palm Beach, Pasco, Polk, Putnam, St. John, Sumter, Suwanee, St. Lucie, and Volusia. Terms of the district court for the southern district shall be held at Ocala on the third Monday in January; at Tampa on the second Monday in February; at Key West on the first Mondays in May and November; at Jacksonville on the first Monday in December; at Fernandina on the first Monday in April; at Miami on the fourth Monday in April; and a term shall be held annually at Orlando, Fla., on the first Monday in October: *Provided*, That suitable rooms and accommodations for holding court at Orlando are furnished without expense to the United States. The district court for the southern district shall be open at all times for the purpose of hearing and deciding causes of admiralty and maritime jurisdiction. The northern district shall include the territory embraced on the 1st day of July 1910 in the counties of Alachua, Calhoun, Escambia, Franklin, Gadsden, Holmes, Jackson, Jefferson, Lafayette, Leon, Levy, Liberty, Santa Rosa, Taylor, Wakulla, Walton, and Washington. Terms of the district court for the northern district shall be held at Tallahassee on the second Monday in February and on the first Monday in September; at Pensacola on the first Mondays in May and November; at Marianna on the first Monday in April; and at Gainesville on the second Mondays in June and December.' "

The committee amendment was agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

MERCHANT MARINE BILL

Mr. O'CONNOR, from the Committee on Rules, submitted the following privileged resolution, which was referred to the House Calendar and ordered printed:

House Resolution 557

Resolved, That immediately upon the adoption of this resolution the bill H. R. 8555, with the Senate amendments thereto, be, and the same is hereby, taken from the Speaker's table to the end that the Senate amendment to the title of the bill be, and the

same is hereby, agreed to; and Senate amendment no. 1 be, and the same is hereby, agreed to with the following amendment: Strike out section 303 of title III of the said Senate amendment.

Mr. O'CONNOR. Mr. Speaker, I call up House Resolution 557 and ask for its immediate consideration.

Mr. RANSLEY. Mr. Speaker, I rise to call attention to the fact that a quorum is not present, and I make the point of order there is not a quorum present.

The SPEAKER. Evidently there is not a quorum present.

Mr. O'CONNOR. Mr. Speaker, I move a call of the House.

A call of the House was ordered.

The Clerk called the roll, and the following Members failed to answer to their names:

[Roll No. 129]

Amlie	Doutrich	Kennedy, Md.	Reed, N. Y.
Andrews	Drewry	Kleberg	Richardson
Ayers	Duffey, Ohio	Kloeb	Robsion, Ky.
Bacharach	Duffy, N. Y.	Kniffin	Sadowski
Bacon	Dunn, Miss.	Kocialkowski	Sanders, La.
Barden	Eagle	Lanham	Sandlin
Berlin	Eaton	Larrabee	Sauthoff
Binderup	Englebright	Lee, Okla.	Schneider, Wis.
Bolton	Ferguson	Lemke	Schuetz
Brennan	Fernandez	Lesinski	Srugham
Brewster	Fiesinger	McClellan	Sears
Brown, Mich.	Fitzpatrick	McFarlane	Secrest
Buckley, N. Y.	Gasque	McGroarty	Sumners, Tex.
Bulwinkle	Gassaway	McLeod	Sweeney
Cannon, Wis.	Gifford	Mahon	Taylor, Colo.
Cary	Green	Maloney	Taylor, S. C.
Claiborne	Greenway	Martin, Mass.	Tobey
Clark, N. C.	Greenwood	Maverick	Tolan
Collins	Hamlin	Meeks	Turpin
Cooley	Hancock, N. Y.	Monaghan	Wearin
Cox	Hess	Montague	Weaver
Creal	Higgins, Mass.	Montet	Withrow
Crowther	Hill, Knute	Nelson	Wolfenden
Dear	Hobbs	Nichols	Wood
Deen	Hoeppel	Norton	Zioncheck
Dies	Hollister	O'Connell	
Dirksen	Imhoff	Parks	
Ditter	Kee	Pierce	

The SPEAKER. Three hundred and thirteen Members have answered to their names. A quorum is present.

On motion of Mr. O'CONNOR, further proceedings under the call were dispensed with.

Mr. O'CONNOR. Mr. Speaker, I yield 30 minutes to the gentleman from New Jersey [Mr. LEHLBACH].

Mr. Speaker, this is a rule covering consideration of the bill H. R. 8555, the ship subsidy bill. The Rules Committee felt it was necessary to bring it in and have the matter considered in this way in order to expedite adjournment.

Mr. Speaker, I now yield 5 minutes to the gentleman from Virginia [Mr. BLAND].

Mr. BLAND. Mr. Speaker, it is said that this is a ship-subsidy bill. It is not. It is a bill to provide employment for American people and American seamen.

Mr. BIERMANN. Mr. Speaker, will the gentleman yield?

Mr. BLAND. Yes.

Mr. BIERMANN. Will the gentleman explain to us the difference between this bill and the ship-subsidy bill?

Mr. BLAND. Neither bill was strictly a ship-subsidy bill.

Mr. BIERMANN. If the gentleman will permit——

Mr. BLAND. I hope the gentleman will pardon me, as I have only 5 minutes.

A subsidy might be termed a gift. In every provision in the House bill and in every provision in the Senate bill there is only provision to take care of a differential between foreign construction and American construction and American cost of operation and foreign cost of operation. It is necessary to do this to have an American merchant marine for national defense and for the protection of commerce.

This is the greatest problem before the President of the United States today, and I am authorized by the Secretary of Commerce to say that he wants this bill. He wants the bill that has passed the Senate, with the resolution that we are presenting today, in order that we may get away from the ocean-mail contracts and bring the situation down strictly to the differential which carries employment to every State in the American Union.

The essential differences between the House bill and the Senate bill may be briefly analyzed as follows: We cannot go into a detailed analysis, but in the House bill the shipowner was required to make an initial payment of 25 percent of the foreign construction cost in building a new ship. The amended bill requires 25 percent initial payment based on the American construction cost.

The determination of the construction differential in the House bill was left to the discretion of the authority, while in the amended bill the amount of the construction differential is fixed at 33⅓ percent of the American cost, with the possibility of increasing it to 50 percent, if necessary, to take care of the differential between American and foreign construction.

In the House bill there were no limitations on profits placed upon the shipbuilder or shipowner and operator. In the amended bill there are provisions for the recapture of the shipbuilders' profits in excess of 10 percent net. Also in the case of the shipowner and operator profits may be recaptured in the operating subsidy.

The House bill did not provide for the Government building ships for its own account, while in the amended bill, if the plan and program that is determined upon by the maritime commission cannot be otherwise carried out, the Government may build such ships and operate them or offer them for sale or charter to private industry.

You complain of the ocean-mail contracts; I offer the only solution that will be presented for the preservation of an American merchant marine and will take it away from the evils and abuses that have been complained of in connection with ocean-mail contracts. [Applause.]

[Here the gavel fell.]

Mr. O'CONNOR. Mr. Speaker, I yield the gentleman 5 additional minutes.

Mr. BOYLAN. Mr. Speaker, will the gentleman yield for a question?

Mr. BLAND. Yes.

Mr. BOYLAN. Has the gentleman a copy of this bill?

Mr. BLAND. I have one copy here that was given me yesterday. I do not know whether there are copies available in the document room or not.

Mr. BOYLAN. I may inform the gentleman that they are not now available. I have sent for a copy of the bill, but could not obtain it.

Mr. BLAND. I wish I could give one to the gentleman. There is a gentleman present over there who has one and states he will lend it to the gentleman from New York.

All I can say is that the people charged with the responsibility, the people in authority, the Secretary of Commerce and the President, need this measure in order to work out the problems that are confronting the American merchant marine.

Mr. BOYLAN. Mr. Speaker, will the gentleman yield further?

Mr. BLAND. I yield.

Mr. BOYLAN. I supported the gentleman in keeping in the Post Office and Treasury Department bill the provision to pay the subsidy for these shipowners. I am in favor of a subsidy and I have not the least doubt that many Members in this House are also in favor of that, but here we are asked this morning, under a rule, to vote for a bill when we do not know what the provisions of the bill are. I have just received a copy now.

Mr. JOHNSON of Texas. The bill is available.

Mr. BLAND. I am advised that copies of the bill are now available.

Mr. BOYLAN. How can we intelligently vote on a matter of this kind when we have not even read the bill?

Mr. CUMMINGS. Here is a copy of the bill.

Mr. BLAND. The only answer is that the provisions and the general principles for the preservation and continuance of the American merchant marine are continued in this bill. A merchant marine commission is to be appointed.

Mr. LUDLOW. Mr. Speaker, will the gentleman yield?

Mr. BLAND. Yes.

Mr. LUDLOW. Will the gentleman give us some idea of how much this bill will cost the taxpayers of the country? What sort of a charge does it place on the taxpayers and

what demands are to be made? Give us some detailed information.

Mr. BLAND. The detailed information as to that will depend on the construction plan worked out by the commission, which will be submitted and considered; but let me say that the $22,000,000 that we are now paying for subsidies could be reduced $5,000,000 if we had modern ships upon the seas carrying our goods, because that excess $5,000,000 is every day going up through the smokestack because our ships are obsolete.

Mr. LUDLOW. Does not the gentleman think the House ought to have some information about how much this bill carries? The gentleman does not know. It might carry $100,000,000 per annum.

Mr. BLAND. It could not possibly carry that. It is only that which is necessary for the construction and operation of the ships.

Mr. CONNERY. Mr. Speaker, will the gentleman yield?

Mr. BLAND. Yes.

Mr. CONNERY. We must have a merchant marine for our national defense for a starter.

Mr. BLAND. Yes.

Mr. CONNERY. There is only one thing I want to make sure of, because I am in favor of this legislation. This takes care of these fraudulent mail contracts, where, for instance, 1 pound of mail costs $110,000 to carry, in that young Roosevelt proposition—a son of former President Theodore Roosevelt. We have not anything like that in this bill, have we?

Mr. BLAND. All of these plans are to be considered by the maritime commission and worked out. A new provision will be worked out based entirely upon the foreign differential and the American differential. American seamen today are walking the streets, and those that are now employed will be added to those that are walking the streets if we defeat this measure.

Mr. CONNERY. And the gentleman from Virginia has been a good friend of the American seamen, I will testify.

Mr. BLAND. I have tried to be.

The SPEAKER. The time of the gentleman from Virginia has expired.

Mr. LEHLBACH. Mr. Speaker, I yield 10 minutes to the gentleman from New York [Mr. CULKIN].

Mr. CULKIN. Mr. Speaker, I do not live on the seaboard, but I am vigorously for an adequate merchant marine. In passing, may I state that I have been much impressed by the patriotic attitude of the gentleman from Maine [Mr. MORAN] and the gentleman from Iowa [Mr. WEARIN], who, in the first instance, seemed to be hostile to a proper subsidy bill. In the first session of this Congress this House passed a subsidy bill, for which I voted. A merchant marine is just as essential to the future of America and to its permanence as is agriculture and the continued existence of industry. That fact cannot be stressed too strongly, and, of course, I am unable to dilate on that at this time. The bill that originally passed the House was an unsatisfactory bill in one respect, as I stated at the time. It did not make adequate provision for the protection and development of personnel. Trained men are just as necessary as ships. This bill, which represents the best thought on this question, the most patriotic thought on the question, makes ample provision for the development and protection of an American personnel.

Mr. LEHLBACH. Mr. Speaker, will the gentleman yield?

Mr. CULKIN. In just a moment. This bill which is proposed here came over my desk about May 14, and on it came the imprimatur and approval of Senator COPELAND, a true friend of the merchant marine; also Senator GUFFEY, who, although inland, has shown an interest in the proposition, and Senator GIBSON, of Vermont. Senator GIBSON, of Vermont, always stressed the issue of personnel. This bill, I repeat, provides for personnel, and thus far under the existing auspices we have had nothing but confusion and confusion worse confounded, not only in the upbuilding of our merchant marine but in the upbuilding of a personnel. The creation of a maritime authority gets the whole matter out of the ruck in which it has been thus far in this administration as well as former administrations. We have spent several billions, and they have been wasted.

Mr. LEHLBACH. Mr. Speaker, will the gentleman yield?

Mr. CULKIN. In just a moment. There must be a subsidy if we are to have ships. Japan gives a liberal subsidy, England gives a liberal subsidy, more than is provided in this bill, as is instanced in the case of the *Queen Mary;* Italy gives a liberal subsidy. In fact, under stress of modern conditions, no nation can have a merchant marine on the seas without adequate government contribution. I yield to the gentleman from New Jersey.

Mr. LEHLBACH. Has the gentleman read the resolution that he is discussing? Because, if he has he will know——

Mr. CULKIN. I do not yield for an insult. I ask the gentleman to be mannerly, if he can be.

Mr. LEHLBACH. I call the gentleman's attention to the fact that the resolution provides that title III be stricken from the bill, and title III is the only thing that deals with personnel. It is obvious that the gentleman does not know what is in the bill.

Mr. CULKIN. The gentleman has made many flagrant misstatements with reference to this legislation, and his statement just now is the most flagrant misstatement of all. Section 3 of the bill is now law, and is stricken out for that reason. Is not that true, I ask the chairman of my committee, the gentleman from Virginia [Mr. BLAND]?

Mr. BLAND. That is correct.

Mr. CULKIN. Page after page of this bill—and I do not have time to discuss them now—makes provision for personnel and for the protection and development of a merchant marine.

Mr. BLAND. And it has minimum man and wage scales.

Mr. CULKIN. Every statutory protection, every protection for the advancement of the personnel both before the mast and on the quarter-deck is provided for in this bill, and that is why we find opposition to the bill from certain quarters. I have no quarrel with anyone who honestly favors a merchant marine by a different procedure, but I say to you that if America is to keep its place among the nations of the earth, if she is to provide adequate transportation for agricultural exports when the tide turns, as it is bound to turn, then we must have American bottoms, and this is the procedure which does it. It gets us out of the rut of officialdom, out of the incompetency and greed of certain groups who have not been patriotic, but who have gained great benefits from the Federal Treasury. These groups who have become accustomed to writing their own ticket are opposing this bill because it speaks emphatically in terms of America and calls the turn on disloyalty and privilege. It puts the whole situation in the hands of a maritime authority who, if they are selected with a view to their experience and background, augurs well and happily for the future of America's merchant marine. I wish I had time to discuss this bill in detail. I say that this bill is the best thought in America of men who believe in a merchant marine—not a merchant marine for the benefit of the operators, but a merchant marine for the benefit of America, for the development of personnel and for the purpose of restoring the American flag to the seas.

Today Japan is outstripping us. England is outstripping us. We have spent hundreds of millions of dollars and all we have now is obsolescence in ships and incompetency in personnel. This bill, if enacted into law, in my judgment, will call a halt upon that type of procedure. This bill, if enacted into law, will be a start to place the American merchant marine on the seas, highly developed as to personnel and highly developed as to ships.

Mr. MORAN. Mr. Speaker, will the gentleman yield?

Mr. CULKIN. I yield.

Mr. MORAN. Will the gentleman point out that if the bill were passed we would have a 100-percent American merchant marine?

Mr. CULKIN. That is true. Of course, that fact has been overlooked. America has spent these hundreds of millions and our ships are in part manned by Chinamen in the

steward division, foreigners in other divisions. This Senate bill, administered by proper maritime authority, insures an American merchant marine, which will be available in times of stress or in the hour of national defense.

Mr. WEARIN. Mr. Speaker, will the gentleman yield?

Mr. CULKIN. I yield.

Mr. WEARIN. It is also true, is it not, that a vote against this particular bill would not be a vote against subsidies which already exist, but the defeat of this measure would simply insure a continuation of what has been proved to be a worse system by far than that proposed here, which is an improvement and which we hope will get the results desired in building up a merchant marine.

Mr. CULKIN. I will say to the gentleman that under present auspices the result has been most unhappy. It is one of the blackest chapters in American history. I cannot discuss that in detail, but under this legislation a real American merchant marine will come into being and American personnel will have its place in the sun, respected and upstanding. [Applause.]

The SPEAKER pro tempore (Mr. PARSONS). The time of the gentleman from New York his expired.

Mr. O'CONNOR. Mr. Speaker, I yield 3 minutes to the gentleman from Maine [Mr. MORAN].

Mr. MORAN. Mr. Speaker, I am sure the Members of the House recall the controversy last year in regard to this type of legislation. My position is exactly the same as it has been ever since I have been interested in this legislation. I believe first in the absolute necessity of an adequate merchant marine. I think it is absolutely essential to handle our export business. I think it is absolutely essential in time of war. Without going into details at all, let me start with that fundamental basis, the necessity of an American merchant marine. I want to see the American flag all over the world carrying our exports. I want to see these American ships with American sailors, American seamen, and American officers. I want those seamen and officers to have decent working conditions. Those things are provided for in the unusual labor provisions in this particular bill.

Mr. CONNERY. Mr. Speaker, will the gentleman yield?

Mr. MORAN. I yield.

Mr. CONNERY. We had to pay Great Britain a pretty good sum of money for every American soldier that was transported to France during the war.

Mr. MORAN. I am sure the Members will remember that is entirely accurate, and in addition to that millions of dollars' worth of our goods were piled up at the docks on the seaboard and could not be transported overseas during the World War, except at a tremendous overcharge in their cost.

Mr. SCOTT. Mr. Speaker, will the gentleman yield?

Mr. MORAN. I yield.

Mr. SCOTT. Would not even those who are opposed to any subsidy do better to vote for this bill than to vote against it and maintain the present condition?

Mr. MORAN. Yes. I am opposed to the present situation. I voted against it, and I would vote against it today. I advocated certain amendments last year. Those amendments which I asked for are in this bill. Every important amendment which I fought for last year is in this bill now before the House. I do not mean for a moment that this bill is 100-percent satisfactory to everybody. It is not 100-percent satisfactory to me. I should like to make a few changes in it, but compromise in legislation is what we face at all times. I believe it is the best merchant-marine bill that has been presented to either House of Congress.

Mr. DUNN of Pennsylvania. Mr. Speaker, will the gentleman yield?

Mr. MORAN. I yield.

Mr. DUNN of Pennsylvania. Will the sailors and other working people be benefited by this bill?

Mr. MORAN. Yes; they will. This bill provides an amendment which I presented on the floor of the House which provides for minimum wages and manning scales. No more will we have ships going out with about two able-bodied seamen, the rest to be picked up around the waterfront at starvation wages, who have no conception of the important work they are to perform.

The gentleman from New Jersey [Mr. LEHLBACH] criticizes this bill because, as he says, no one knows what is in it. He does himself an injustice, as I am sure he is fully acquainted with all the features of this bill and knows full well its many safeguarding features. Of course, I understand fully that certain shipping interests oppose this bill; I have seen their lobbyists running around here. I have so much confidence in the ability of the gentleman from New Jersey [Mr. LEHLBACH] that I am convinced that his real trouble is not that he does not know what is in the bill; instead, his trouble is that he does know.

We who are advocating this bill on the floor today have studied this proposition most carefully and are fully informed as to its provisions. Chairman BLAND is certainly as well informed on this subject as any man in either branch of Congress. The gentleman from Georgia [Mr. RAMSPECK], the gentleman from New York [Mr. SIROVICH], and the gentleman from New York [Mr. CULKIN] are all members of the House Committee on Merchant Marine and Fisheries; all three of these men are numbered among the ablest Members of the House. Certainly, I do not need to call attention to the marked ability of the gentleman from Iowa [Mr. WEARIN], another member of the Committee on Merchant Marine and Fisheries, who is not only an extremely able member but one who has always devoted his talents to fight for the public interest. Men like OTHA WEARIN renew our confidence in our system of government: Iowa will not only serve itself best but perform a signal service to the country by returning OTHA WEARIN to the next Congress.

In view of the fact that I am retiring from Congress, this is the last opportunity I will have to address my colleagues. I leave Congress with two thoughts uppermost. First, I will always remember the friendships I have made here; they are my priceless possession. There are no finer men and women on earth than there are in the Congress of the United States. I appreciate, far beyond my ability to express, the many kindnesses, the consideration, and the wise counsel I have received from such men as the late Speaker Byrns and Speaker BANKHEAD. Second, this merchant marine legislation has been my greater interest; as I see this bill passing today and realize that it contains every single principle for which I have fought for over 2 years, I feel that I have performed some slight service to my country and to the good people of Maine.

I also take this opportunity to thank the good people whom I have the honor to represent—the citizens of the Second Congressional District of Maine. I am proud of my native State and of its people. I am thinking today of the many Democrats in our party organization in Maine who have worked so generously and so unselfishly for my elections; to them I owe a great debt of gratitude. I am thinking, too, of the many Republicans and independents who placed their confidence in me and aided materially in my election campaigns; my appreciation is immeasurable. In return I have tried to merit that confidence; I have given my best in serving them. While my activity in Congress ends, my interest in public service continues. As I survey the many problems facing our people today, it is my hope that the vast majority of the people of Maine realize the need of honest, able, and patriotic men in the public service, and that Maine will elect to high public office only men who measure up to those standards, men who will look upon public office as a trust and as an opportunity to serve.

[Here the gavel fell.]

Mr. LEHLBACH. Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. MARCANTONIO].

Mr. MARCANTONIO. Mr. Speaker, I understand that the personnel feature of this bill will be stricken out in that it is contained in another bill which was passed last August, the conference report on which was adopted the night before last.

I simply want to take this time to point out that in the personnel feature, now no longer in this bill but in other

legislation, there is contained a provision for continuous discharge books. In other words, every seaman who is to be employed in the American merchant marine must carry a continuous discharge book, which will contain a record of the manner in which he has conducted himself in the past. So that if a seaman goes out on strike——

Mr. BEITER. Mr. Speaker, I make the point of order that there is no quorum present.

The SPEAKER pro tempore (Mr. PARSONS). The Chair will count. (After counting.) Two hundred and twenty Members are present, a quorum.

Mr. MARCANTONIO. Mr. Speaker, the real purpose behind these continuous discharge books is to establish an effective system of blacklisting of seamen who have exercised their rights as Americans by having gone out on strike for decent living conditions.

Mr. BLAND. Mr. Speaker, will the gentleman yield?

Mr. MARCANTONIO. I yield.

Mr. BLAND. The discharge-book feature is not in this bill.

Mr. MARCANTONIO. That is exactly what I have said. However, it is contained in other legislation, and my only regret is that the parliamentary situation was such the other night that I could not oppose this antilabor feature.

Mr. BLAND. The manning and wage scales are in here, but the discharge legislation that we set up provides only for nationality, age, and record, but without a record as to character.

Mr. MARCANTONIO. It also provides for a record of his employment.

Mr. BLAND. His ships.

Mr. MARCANTONIO. Exactly.

Mr. BLAND. But his rating is able seamen, seamen, cook, steward, or in some other capacity.

Mr. MARCANTONIO. But under that rating and by a record of his ships you have made a striking seaman a marked man. On the basis of that, if a seaman has been out on strike he will be carrying with him a notice to every shipping company to the effect that he has been out on strike and the result is going to be that that seaman is going to be discriminated against when he applies for a job. I regret exceedingly that we cannot take up this issue at this time because this feature is eliminated from this bill.

However, the legislation passed last August and accepted the other night, contains this vicious feature. I have only this opportunity to voice my protest. Not only do I protest, but I warn my colleagues that the American seamen are not going to take this legalized blacklisting lying down. They are going to fight, and I pledge myself to help them in that fight.

As to the bill itself, I am going to vote for it. While it is not a perfect bill, while it is not a Government-owned and operated American merchant marine, it is better than the present condition which permits shipowners to receive the benefit of Government money and do with it as they please without any control or regulation and without regard to the passenger or worker. [Applause.]

[Here the gavel fell.]

Mr. O'CONNOR. Mr. Speaker, I yield 1 minute to the gentleman from Michigan [Mr. CRAWFORD].

Mr. CRAWFORD. Mr. Speaker, I have followed the development of this legislation with a great deal of interest since the first of the year. I favor many provisions in the bill. I think we have paid for enough merchant marines without having one. This bill charts a new course. I hope the bill will pass. I regret we have not more time in which to discuss it. However, this is probably the closing day of the Seventy-fourth Congress. Under such circumstances it is not the custom of this House to allow time of great length for the consideration of any bill, irrespective of its importance. For approximately 18 months the House and Senate have had time in which to consider a proper merchant marine bill. We know our Navy is virtually helpless if we must depend upon other countries for the auxiliary ships required to support a navy. We know that if our goods moving out and coming in must be carried in foreign bottoms that the interests of the American people must suffer in many ways. We know that our export plans cannot succeed without an adequate merchant marine. We know that too many of our ships flying our flag are now too nearly manned by foreign subjects not citizens of the United States and that just as soon as trouble develops between our country and other countries those very employees leave our ships like rats and go to the support of their own country's flag, leaving us helpless and without an adequate force to man such ships as we may have. We also know that under present laws it has been the custom and privilege for ship operators to exploit the funds of the United States Treasury, to launch ships unsafe for "safe travel", to sail ships with insufficient crews and untrained employees, to be unfair to their crews in the way of safety and pay. This bill moves in a direction to correct many of these evils. In the coming Congress the bill can be further perfected in the interest of the American people. I hope the bill will pass.

Mr. O'CONNOR. Mr. Speaker, I yield 2 minutes to the gentleman from Indiana [Mr. LUDLOW].

Mr. LUDLOW. Mr. Speaker, my sentiments in regard to this bill are identical with the sentiments so well expressed by my friend and colleague the gentleman from New York [Mr. BOYLAN]. As associates on the subcommittee which had charge of the Post Office and Treasury Department appropriation bill, we fought with all our vigor, energy, and resourcefulness to secure payment under the ocean-mail contracts, not that we believed in that law which hung a subsidy on the fiction of ocean mail but because we did have a high and ethical regard for the sanctity and the obligation of contracts, and we believed that the United States Government ought to be honorable enough to live up to its obligations. Having said this, I agree with my friend and colleague that this is a different proposition. I do not believe in buying a pig in a poke, and that is what we shall be doing if we pass this bill. No one in this House has a higher regard than I have for the able gentleman from Virginia [Mr. BLAND]. He certainly looks after his constituents with great fidelity and success; but even that gentleman, familiar as he is with the merchant marine, was utterly unable when I questioned him to give any details of this bill or to tell me even in the roughest terms as to the obligations it will impose on the Treasury. I do not think we should buy a pig in a poke. I think we ought to vote this bill down.

Mr. Speaker, I wish to call attention to the fact that if by our action here today we commit the Democratic Party to the principle of direct subsidy we will reverse all of the precedents of history.

Our Democratic policy on this subject was fixed when Thomas Jefferson, the founder of our party, wrote into the great Declaration the precious doctrine that "all men are created equal", and later when he enunciated the immortal principle of "equal rights to all, special privileges to none."

Others may answer to their own judgments and consciences, but I stand today where I always have stood, and that is on the Jefferson platform. I do not believe, and I never will believe, that it is just or right or in harmony with the philosophy on which the great Democratic Party was founded that we should pass laws imposing taxes on all of the people of the country to insure profits to a favored few, whether those favored few be shipowners or anybody else. Such a doctrine is utterly repugnant to my sense of justice.

The platforms of the Democratic Party for more than a hundred years—National, State, and local—have committed the Democratic Party in the most positive and emphatic way against subsidies of all kinds. Quadrennium after quadrennium our national conventions invoked all of the vigor of the English language in inveighing against subsidies. A Democratic platform without some sort of an antisubsidy declaration was considered unthinkable. Even our last national platform—the platform of 1932—wound up with a splendid finish by reiterating the Democratic philosophy as follows:

> In conclusion, to accomplish these purposes and to recover economic liberty we pledge the nominees of this convention the best efforts of a great party whose founder announced the doctrine which guides us now in the hour of our country's need—equal rights to all, special privileges to none.

When this subsidy bill is passed today it will be a historic event. The Democratic Party will junk one of its favorite tenets which has been a cardinal policy of the party for more than a hundred years and that is the policy that has heretofore kept it squarely on record in opposition to subsidies as being un-American and undemocratic. This will be the first time in all of its history, from Thomas Jefferson down to the present, that the party has been committed by legislative action to direct subsidies. It distresses me, and makes me feel very sad, indeed, to see the popular branch of Congress, to which I belong, abandon this just and cherished Democratic principle. I cannot believe that this surrender to favoritism and special privilege will be received with any satisfaction and joy by the masses of the people throughout the country, but on the contrary I believe they will be greatly saddened and disappointed by it.

Mr. LEHLBACH. Mr. Speaker, I yield to the gentleman from New York 4 minutes to use as he may wish.

Mr. O'CONNOR. Mr. Speaker, I yield 4 minutes to the gentleman from Georgia [Mr. RAMSPECK].

Mr. RAMSPECK. Mr. Speaker, I shall support this resolution because I think it will make the present situation better.

Mr. Speaker, I find that quite a number of Members are inclined to vote against this bill because they think that by voting "no" they are voting against a subsidy. The truth of the matter is that voting "no" is not voting against a subsidy, because a vote against this resolution is a vote to continue subsidy under the fiction of ocean-mail contracts. This bill provides for the cancelation of the ocean-mail contracts not later than June 30, 1937, and for negotiations of settlements; and if they do not agree, they go into the Court of Claims. So we shall get rid of that sore spot that has been so much criticized throughout this Nation by so many persons—the giving of thousands of dollars to carry a few ounces of mail a few hundred miles.

Mr. CONNERY. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. I yield.

Mr. CONNERY. And we have something in this bill which was never included in any other legislation. We have a provision that 90 percent of the crews must be American citizens, and this commission is to set a minimum wage, which we have never had for American seamen.

Mr. RAMSPECK. Yes; it is of advantage to American working people engaged in shipbuilding and in the operation of ships.

The bill has been so amended in the Senate as more nearly to safeguard the funds that are used by this commission. I think it is an improvement over the bill we passed last year, and it certainly will do away with this outrageous ocean-mail contract system, to which we are all opposed.

I hope the membership of the House will not be confused and vote "no", thinking they are voting against a subsidy, because that is not the effect of your vote.

Mr. CONNERY. Will the gentleman yield?

Mr. RAMSPECK. I yield to the gentleman from Massachusetts.

Mr. CONNERY. We have instances of men like John Holleran, who refuse to employ anybody except American citizens, and he is put in competition with other lines unless we pass this kind of a bill.

Mr. RAMSPECK. That is true. We cannot have a merchant marine in this country unless we have this or a similar plan. If we want to wipe our ships off the seas, we can do it by simply destroying this system. We cannot build up a merchant marine without some sort of subsidy, and I think it is much better to have an open and aboveboard plan, such as will be initiated under this bill, than to have this fiction which exists under the ocean-mail contracts by which we charge to the Post Office Department twenty-odd million dollars a year for a service which is not a mail service but simply a fiction and a subsidy.

Mr. LUDLOW. Will the gentleman yield?

Mr. RAMSPECK. I yield to the gentleman from Indiana.

Mr. LUDLOW. Why is it necessary to pass this bill in order to repeal the ocean-mail contracts? Why can we not repeal those contracts without inflicting the burden of a heavy subsidy on the people of this country? One is not dependent upon the other.

Mr. RAMSPECK. We could do that, but we would be subject to suit in the Court of Claims on those contracts, and the gentleman knows they could recover in the Court of Claims. We would not get anything. In this bill we are giving the Commission the right to negotiate adjustments and reach a voluntary settlement, which is better than canceling them and getting into a court fight.

Mr. LUDLOW. Of course, I do not advocate the repudiation of existing contracts.

[Here the gavel fell.]

Mr. O'CONNOR. Mr. Speaker, I yield 3 minutes to the gentleman from Iowa [Mr. WEARIN].

Mr. WEARIN. Mr. Speaker, I think the gentleman from Georgia has made a most excellent statement with reference to this situation and has described it in an able manner. A few Members of the House perhaps are aware of the fact I have been consistently opposed to most subsidies and especially to the ship-subsidy bill which passed this House during the last session. I am in a position now of subscribing to this particular measure in view of the fact I think by so doing I am not necessarily supporting a subsidy as a permanent policy for the Democratic Party, which I would most certainly oppose, but as a preferable situation to the one that prevails under the 1928 act and the corrupt features and contracts we are faced with under the terms of that 1928 act.

Unfortunately, we have an unsatisfactory ship-subsidy law on our statutes. This administration has put up with it thus far despite the fact that we have proved it to be corrupt, at least in its application. Evidently it is going to continue in force over the consistent protest of the able gentleman from Maine [Mr. MORAN], who has proved himself an authority upon this subject, and myself, unless we pass the pending bill; and of the two, the latter is as much preferable as good weather to bad weather. I am frank to say that I think subsidies are dangerous, but honest systems of subsidy are certainly superior to dishonest systems of subsidy. I trust that neither will ever become a permanent principle of the party of the common people for reasons that I do not have the time to enumerate, not the least of which is the possibility of subsidy wars between nations which have not been discussed before the House, but which carry almost as great a load of dangerous consequences as tariff wars. In this connection it would be well for us to study some recent debates in the British House of Commons, where the possibility of such a situation has been discussed in considerable detail.

Frankly, if I thought it was possible to defeat the appropriation in the Post Office and Treasury appropriation bill—and I say this for the benefit of my distinguished friend from Indiana, whose sentiments I can understand—defeat the pending legislation, and at the same time place the American merchant marine on a self-sustaining basis without subsidy, I should prefer that above all things.

Mr. LUDLOW. Will the gentleman yield?

Mr. WEARIN. I yield to the gentleman from Indiana.

Mr. LUDLOW. The gentleman does not believe in the principle of subsidy, does he?

Mr. WEARIN. No; I certainly do not; and I do not think anyone who votes for this bill is necessarily voting for a subsidy. In my judgment, he is voting to put a stop to the present corrupt program of ship subsidies to which I have been and still am opposed. The pending bill safeguards the public interest better than has ever been done in any legislation of that character with which I am familiar.

[Here the gavel fell.]

Mr. LEHLBACH. Mr. Speaker, I will use the remainder of my time.

Mr. Speaker, in the long years I have been a Member of this House I have never seen the stage set for so humiliating and degrading a spectacle as we are about to witness. We

are told we must pass this bill without the opportunity of reading it. When the debate started, printed copies of the bill were not available. That the membership do not understand what is in the bill and what is not in this bill is evident from the fact that gentlemen have discussed features concerning seamen personnel, nationality of seamen on the ships, and so forth, not one word of which will be in this bill when it passes.

Those provisions were passed in this House sometime ago, and the bill containing them is now on the President's desk for his signature. With the exception of two or three Members of the House who have had an opportunity to read the provisions of this bill, partly in print, partly in lead pencil, and partly in typewriting, nobody knows anything about it. No one has had an opportunity to sit down and compare these provisions with the provisions of the bill which the House passed and study the effect of such provisions. We have to pass this bill because we are threatened.

Little children years ago were threatened by what the bogeyman would do "if you don't watch out." Since James Whitcomb Riley's time the bogeyman is now the official scorekeeper for the Government, and in his place the children have the "little Black man." So, as if we were immature, we are threatened by a mythical "little Black man", who is elsewhere than in this Chamber. We are told that unless we pass this bill he will close all the post offices of the country on the 1st of July. That is a threat that is worthy to make to little children, but not to Members of the House of Representatives.

Mr. LUCKEY. Will the gentleman yield for a brief question?

Mr. LEHLBACH. I yield to the gentleman from Nebraska.

Mr. LUCKEY. How much of a merchant marine have we today?

Mr. LEHLBACH. We have, I should say, 63 trade routes.

Mr. LUCKEY. Is it not a fact that since the so-called Shipping Board has been established this Government has paid over $2,000,000,000 in ship subsidies and we still have no merchant marine today?

Mr. LEHLBACH. I presume we have paid out over $2,000,000,000, taking it from the time that the Shipping Board was created, or since the Merchant Marine Act of 1920 was passed, but a lot of that money was not paid in subsidies. The bulk of that money was lost by Government operations.

We have lost a little money under private operation, but the bulk of the $2,000,000,000 was lost under Government operation, which is provided for in this bill as an alternative. It has never worked, and after years we have gotten away from it, and from $100,000,000 a year we have reduced the cost of supporting the merchant marine by the Government to $22,000,000 a year and we have a merchant marine carrying a substantial portion of our commerce.

Mr. LUCKEY. There is another provision in this proposed measure setting up a commission. How does this commission compare with the old Shipping Board?

Mr. LEHLBACH. It depends entirely upon the choice of personnel for the commission. A shipping board would be a good shipping board if it were composed of good men who understood their business. A maritime commission would be a good commission if it were composed of men who are capable, competent, and understand their business. The set-up of the commission has little to do with the effectiveness of its functioning; it is the men who compose it.

Mr. LUCKEY. In setting up a new commission to take care of this matter, does not the gentleman think we should have more time to study the proposition than we have now?

Mr. LEHLBACH. Certainly. Nobody would dream of passing this bill under the circumstances under which it comes to us, except those who yield to the threats of the "little Black man"—and who is this "little Black man"? He has repeatedly expressed his contempt of the House of Representatives. He has scoffed and tried to set aside a process issued under the authority of the House of Representatives by a committee thereof. A perversion of facts has been used by his committee in order, wantonly and wrongfully, to bring innocent Members of this House to the number of 70 into apparent disrepute—wantonly and wrongfully—men who were absolutely innocent of anything that could be considered culpable. This is the "little Black man", under whose lash we are going to pass this bill; and, great God, I wish this House had guts enough to stand up against these threats by the "little Black man"—threats that are worthy of only being applied to children. [Applause.]

Mr. O'CONNOR. Mr. Speaker, I yield 10 minutes to the gentleman from New York [Mr. SIROVICH].

Mr. SIROVICH. Mr. Speaker, the barometer of the civilization of any nation, of ancient, medieval, or modern times, is dependent upon the progress and development it extends to its merchant marine in times of peace as well as in times of war. The ancient Phoenicians were the Yankees of the east, and their biremes and triremes carried their commerce to all the then known civilizations of the world. Venice built upon the lagoons townships high up on the Adriatic and spread its commerce across the Mediterranean, up the Dardanelles, through the Black Sea, and across the southeastern Mediterranean to Egypt and the Red Sea and thence to the Orient. Because of its powerful merchant marine, Venice prospered through her eastern trade until she became the greatest maritime nation of her time. Her supremacy was challenged by Genoa, Pisa, and Naples, who divided the commerce of the Mediterranean with her. These nations became great because of their merchant marine. In 1497 from the city of Lisbon sailed Vasco de Gama with four vessels around the Cape of Good Hope until he reached Calicut in India. The discovery of an easterly all-sea route to the Orient by the Portuguese crippled the caravan-vessel routes—partly overland, part seaway—of the Venetians and Genoese. The all-water route was cheaper than a mixed land and sea route. Lisbon prospered while Genoa and Venice declined as maritime powers. Spain, through the discoveries of Columbus, then became the mightiest nation of her day because of her merchant marine. Queen Elizabeth, the pride of England, fostered merchant-marine commerce by instigating navigation acts for the protection of English mariners by giving new charters to merchant adventurers and organizing and financing new companies. Through the power of her great merchant marine, she began to carry exports and imports from all the four corners of the globe.

Portugal had found Brazil and the route around the Cape of Good Hope to the Indian and west and south Pacific Oceans. Francis Drake, for England, had entered the Pafic around the Horn. The Hollanders had found the route to the Orient. Spain was busy with the looting of Mexico, Central and South America, and under Philip had taken the Philippines. Trade was the base of all these exploits. The Spice Islands were in the thoughts of every mariner skipper. The famous Spice Islands were sought because there was to be obtained the condiments that would preserve and make palatable the stale and often putrid meat of the times, and that had marvelous medicinal powers, according to the beliefs of that day.

In time England, through the efforts of Drake, Hawkins, and Frobisher destroyed the Spanish Armada, and England became the "mistress of the seas."

From 1789, the foundation of our Government, up to 1860, American built, manned, and owned ships carried the products of our Nation to all ports of the world. There was a steady growth in our sailing merchant marine, mostly vessels of wood, of which we had ample supplies in our abundant forests. Oak, hickory, pine—and nothing devised by man in metal could equal the suitability of Maine pine for masts and spars. England had few forests, but ample coal and iron. Iron for ships and coal for fuel. Naturally, therefore, the British turned to the steamship as their means of carrying the ocean-borne commerce.

The reason the American merchant marine grew so greatly was because of a subsidy given by the Federal Government through its mail contracts.

In the year 1856 the total tonnage of the Great Britain ships amounted to 5,900,000 tons. The total tonnage of all the other nations of the world except the United States at

that time was 5,600,000 tons. And, mark you, my colleagues, the tonnage of the United States in 1856 was 5,600,000 tons, equal to that of all the nations of the world, and second only to that of Great Britain. It was in the year 1856 that the Congress of the United States withdrew its mail subsidies to the Collins Lines and other lines. That was the death knell of the development of the American merchant marine. At that time we carried 80 percent of the exports and imports of our own country to all ports of the world, and when the subsidies were withdrawn, up to the year 1914, the United States merchant marine was almost wiped off the face of the earth. In 1914 we carried only 8 percent of the imports and exports of our agricultural, commercial, and industrial products.

During all these years European governments were not idle. There is not a civilized nation in the world today, and I challenge any Member of Congress to contradict me, that has not built up its merchant marine through aid given, directly or indirectly, by the government to its own nationals for the development of their respective merchant marine. The heavily settled nations on the northwest of Europe have clung to the sea. It was their route to world commerce. They had no great interiors to develop, and the only export market for their surplus goods was by way of the sea, and to the sea they held tenaciously. Each new European vessel that was launched on the Continent was larger and better than those that preceded her, and today foreign moneys that we had given to European countries they have not paid back to us. They have built their great liners, such as the *Queen Mary* of England, the *Normandie* of France, the *Bremen* and *Europa* of Germany, and the *Rex* and *Conte di Savoia* of Italy.

When the World War broke out the United States had only four vessels plying to South America regularly. Most of our American goods, manufactured, developed, and prepared in our country, had to be shipped on foreign vessels, and the foreigners saw to it that deliveries were slow and freight charges high for Americans, while their own national goods were expedited at a lower freight rate.

Mr. Speaker, we have paid hundreds of millions of dollars of American money to the nations of foreign countries in carrying American products in European bottoms. The time has come to put a stop to the situation. When the World War broke out we had no merchant marine to transport our own soldiers and to carry ammunition and other materials necessary to win the war.

Then Congress appropriated the sum of $3,500,000,000 to build ships to meet the contingencies of the moment. We perfected wooden ships, which are today rotting in the different ports of our country, worthless and useless. Had we contributed from 1856, when we stopped mail subsidies to our American lines, and continued to subsidize our merchant marine as we should have up to the present time we could never have reached the sum of $3,500,000,000 which we had to appropriate for ships to win the war.

Mr. Speaker, if any Member of Congress wants to cripple our Nation in times of peace as well as in times of war, let him vote against this bill; but if you believe in the welfare, the happiness, and the contentment of our American Republic, vote for this bill, because it contains the following provisions that will make the American merchant marine the greatest in all the world. [Applause.]

First, this bill provides a construction differential subsidy of 33⅓ percent of the foreign cost of construction. In exceptional cases the maritime authority will have the privilege of going up to 50 percent when four of its members agree. In other words Mr. Chairman, it is 33⅓ percent cheaper to construct a ship in England than it is in the United States. How can American ships therefore compete with British ships unless we put them upon a basis of parity so far as construction is concerned. Eighty-five percent of this money goes to pay for American labor in the construction of ships by our shipyard companies. Fifteen percent of the money goes to buy material that goes into the construction of ships which is taken from 44 States of the Union.

Second, we grant to the owners and operators of shipping companies an operating differential subsidy which will equalize the difference in the foreign costs of insurance, repairs, wages, and subsistence, which will be spent upon American seamen, and its personnel, who will secure minimum wages and maximum hours of labor to enhance the welfare of our merchant marine. This operating differential will place the American merchant marine on a parity with operating expenses of foreign shipping interests.

Third, if lines do not build ships, then the maritime authority may build and charter them on competitive bids when trade requires and opening of new routes is necessary.

Fourth, the bill further provides for the recapture of profits in excess of 10 percent. One-half would go to the Government and one-half to the reserve fund so as to enable shipping operators to rebuild their ships when they become old and obsolete.

Fifth, this meritorious measure provides for limitation of salaries to only $25,000 a year. It prevents the siphoning out of profits by holding companies and it prevents these organizations from doing repairs or stevedoring except for themselves.

Sixth, this measure takes the profits out of war by making it mandatory for the Government of the United States to take over ships in emergencies or in times of war and only gives its owner back the actual money that he put in.

Seventh, it provides for a bipartisan board of five members, whose duties shall consist of establishing a long-range program of construction and reconstruction of our merchant marine until it is equal, if not superior, to any nation of the globe. [Applause.]

Eighth, many of the Members of Congress are opposed to ship subsidies because of the abuse that has crept into mail contracts, in which millions have been diverted to improper channels. This bill provides that 90 days after the bill becomes a law the holder of any mail contracts may apply for a change and settlement of his contract to subsidies. If any act of injustice may be directly or indirectly perpetrated against these holders of subsidy contracts, the bill provides that they may sue the Government in the Court of Claims if they are not satisfied with the decision of the maritime authorities.

Mr. Speaker, these regulations are the high spots in the new shipping bill which you are now called upon to vote for. If you vote for this bill and put it across, I am convinced it will place the merchant marine of the United States of America on a parity with the shipping of the world and bring the American flag back to be seen floating high in the air in all the ports of the world, where it was in the past on clipper ships. [Applause.]

Mr. Speaker, many Members of Congress have opposed this bill on the floor because they contend it grants subsidies. Let me be frank with you. I have repeatedly voted for subsidies through the medium of the protective tariff to protect the great industries of our Nation. I have continuously been voting for bounties for agriculture and farming interests in our country. Year in and year out we have been voting for indirect subsidies to the bankers of this country through the operation of the Federal Reserve banking system. For the past decade we have given to labor and to the American Federation of Labor, indirectly, subsidies through restricted immigration so they would not have to compete with cheap foreign labor that is constantly seeking admission into our country. Where is there a Member in this House who comes from the South, the Middle West, the Far West, the Northwest, who has not had his particular State enriched through bounties that have been voted in the form of subsidies for flood control—Muscle Shoals, Boulder Dam—and countless other measures too numerous to mention. The time has come when we courageously, fearlessly, and patriotically should vote to develop the merchant marine upon which the prosperity, the happiness, and the future of our Nation is dependent in war as well as in peace. [Applause.]

Mr. Speaker, the total of the world's merchant-marine tonnage today is 36,000,000 tons. Of this tonnage Great

Britain has about 14,000,000; Japan, slightly over 3,000,000; Germany, 2,700,000; France, 2,250,000; Italy, 2,100,000; while the United States has only 600,000 tons of shipping that is less than 10 years old—the smallest of any nation in the world. If you pass this bill, which I sincerely hope you will, it will enable the maritime shipping board to encourage ship construction, ship operation, and help within a decade to make America the foremost merchant-marine nation in all the world. Mr. Speaker, we must have ships. New ships. We must have American ships built by Americans, manned by Americans, and flying the American flag. [Applause.]

Mr. LEHLBACH. Mr. Speaker, I have 5 minutes remaining, but I shall not occupy them.

Mr. O'CONNOR. Mr. Speaker, I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER. The question is on the adoption of the resolution.

The question was taken; and on a division (demanded by Mr. LUDLOW) there were—ayes 225, noes 21.

So the resolution was agreed to.

A motion to reconsider the vote by which the resolution was agreed to was laid on the table.

ADDITIONAL COMPENSATION FOR CERTAIN EMPLOYEES OF THE HOUSE

Mr. STARNES. Mr. Speaker, by direction of the Committee on Accounts, I submit a privileged resolution (H. Res. 482) and ask for its immediate consideration.

The Clerk read as follows:

House Resolution 482

Resolved, That until otherwise provided by law, the Clerk of the House be, and he is hereby, authorized and directed to pay, out of the contingent fund of the House, additional compensation per annum, payable monthly, to certain employees of the House as follows:

To the clerk to the official reporters of debates, the sum of $640.

To each of the expert transcribers in the office of the official reporters of debates, $660.

SEC. 2. The position of janitor in the office of the official reporters of debates is hereby abolished.

SEC. 3. That until otherwise provided by law, the Clerk of the House be, and he is hereby, authorized and directed to pay, out of the contingent fund of the House, compensation at the rate of $2,000 per annum, payable monthly, for the services of an assistant clerk in the office of the official reporters of debates, said assistant clerk to be appointed by the official reporters of debates.

With the following committee amendments:

In line 9, strike out the figures "$660" and insert the figures "$260."

At the end of the resolution add the following:

"SEC. 4. That this resolution shall take effect as of January 1, 1937."

Mr. SNELL. Mr. Speaker, I should like to ask the gentleman from Alabama a question. Do I understand this is a resolution to put into effect the new rate of salary that was passed the other day in regard to these employees?

Mr. STARNES. I am just now calling up the resolution of authorization.

Mr. SNELL. I thought we passed that the other day.

The amendments were agreed to.

The resolution as amended was agreed to.

A motion to reconsider was laid on the table.

CLERK TO STENOGRAPHERS TO COMMITTEES

Mr. STARNES. Mr. Speaker, by direction of the Committee on Accounts, I submit a privileged resolution (H. Res. 518) from the Committee on Accounts, and ask for its immediate consideration.

The Clerk read as follows:

House Resolution 518

Resolved, That there shall be a clerk to the stenographers to committees, to be appointed by the Speaker of the House and to receive compensation at the rate of $3,360 per annum, payable from the contingent fund of the House until otherwise provided by law.

That upon the appointment of such clerk the position of janitor to such stenographers to committees shall be vacated and no appointment shall be made to such position.

Mr. STARNES. On behalf of the committee, I offer the following amendment.

The Clerk read as follows:

Committee amendment offered by Mr. STARNES: After the last word in the resolution insert "That this resolution shall take effect as of January 1, 1937."

Mr. STARNES. Mr. Speaker, I move the previous question.

The previous question was ordered.

The SPEAKER. The question is on agreeing to the amendment.

The amendment was agreed to.

The resolution as amended was agreed to.

A motion to reconsider was laid on the table.

DISPENSING WITH UNNECESSARY RENEWALS OF OATH OF OFFICE BY CIVILIAN EMPLOYEES

Mr. MILLER. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4519) to dispense with unnecessary renewals of oaths of office by civilian employees of the executive departments and independent establishments, and for other purposes.

The SPEAKER. Is there objection?

Mr. WOLCOTT. Mr. Speaker, I object.

Mr. MILLER. Will the gentleman reserve his objection?

Mr. WOLCOTT. I will withhold it if the gentleman desires to make a statement.

Mr. MILLER. I just want to say to the gentleman that this bill is asked for by the various departments. The Department of Agriculture and the Veterans' Administration now have a law which saves those departments a great deal of money in the administration of their departmental affairs. It merely makes the same rule applicable to the other departments; that is, where a man working for the Government in a department is demoted or promoted or transferred from one status to another or from one division to another, the necessity of filing an additional oath is obviated.

Mr. WOLCOTT. I realize the purpose of the bill, but the situation, as I see it, is this: We are being criticized here for breaking down the effectiveness of our public officials, and decreasing the obligation of those officials to the people whom they indirectly represent. At the present time, as I recall it, the code provides that everyone in the capacity of an employee or official shall take an oath to perform well and truly the duties of the office. I do not attemp to quote it correctly. If the gentleman will recommend that the code be changed to include all offices to which the individual might be appointed, I think I can go along with him.

The regular order was demanded.

The SPEAKER. Is there objection?

Mr. WOLCOTT. Mr. Speaker, I object.

TWENTY-FIRST AMENDMENT

Mr. CELLER. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 8368) to enforce the twenty-first amendment, with Senate amendments, and concur in the Senate amendments.

The Clerk read the amendments, as follows:

Page 1, line 4, strike out "1935" and insert "1936."

Page 2, line 10, strike out "attempts" and insert "attempt."

Page 2, strike out lines 18 to 23, inclusive, and insert:

"(b) In order to determine whether anyone importing, bringing, or transporting intoxicating liquor into any State, or anyone attempting so to do, or assisting in so doing, is acting in violation of the provisions of this act, the definition of intoxicating liquor contained in the laws of such State shall be applied, but only to the extent that sales of such intoxicating liquor (except for scientific, sacramental, medicinal, and mechanical purposes) are prohibited in such State."

Page 3, strike out lines 9 to 15, inclusive.

Page 3, line 16, strike out "6" and insert "5."

Page 3, line 18, strike out "18 U. S. C." and insert "U. S. C., 1934 ed., title 18."

Page 3, strike out lines 20 to 25, inclusive, and lines 1 to 9, inclusive, on page 4, and insert:

"The Secretary of the Treasury is authorized to confer and impose upon the Commissioner of Internal Revenue and any of his assistants, agents, or employees, and upon any other officer, employee, or agent of the Treasury Department, any of the rights, privileges, powers, duties, and protection conferred or imposed upon

the Secretary of the Treasury, or any officer or employee of the Treasury Department, by this act, or by any law now or hereafter in force relating to the taxation, importation, exportation, transportation, manufacture, possession, or use of, or traffic in, distilled spirits, wine, fermented liquors, or denatured alcohol.

Page 4, line 13, strike out "7" and insert "6."

Page 4, lines 13 and 14, strike out "18 U. S. C." and insert "U. S. C., 1934 ed., title 18."

Page 5, line 9, strike out "8" and insert "7."

Page 5, line 9, strike out "18 U. S. C." and insert "U. S. C., 1934 ed., title 18."

Page 6, line 7, strike out "9" and insert "8."

Page 6, line 7, strike out "18 U. S. C." and insert "U. S. C., 1934 ed., title 18."

Page 6, line 22, strike out all after "contents" down to and including "compound" in line 24, and insert "and the quantity contained therein."

Page 7, line 6, strike out "10" and insert "9."

Page 7, lines 8 and 9, strike out "(39 Stat. 1069; 18 U. S. C., sec. 341)" and insert ", approved March 3, 1917, as amended (U. S. C., 1934 ed., title 27, sec. 123)."

Page 7, line 10, strike out "11" and insert "10."

Page 7, line 12, after "Act", insert "and nothing in this act shall apply to the Canal Zone."

Page 7, line 13, strike out "12" and insert "11."

Page 7, line 18, strike out "13" and insert "12."

Mr. CELLER. Mr. Speaker, none of the amendments made by the Senate involves a change in policy. They are all either clerical or clarifying amendments.

First. The amendment to subsection (b) of section 3 is for the purpose of meeting objections made to section 3 that it would require the Federal Government to aid in possible discrimination by a State against the product of another State. Subsection (a) of section 3 provides for Federal regulation of the importation of liquor into a State in which all sales of intoxicating liquor containing more than 4 percent of alcohol by volume are prohibited. Subsection (b), however, makes the State definition of intoxicating liquor apply in determining whether liquor is being brought into a State in violation of the act. Presumably it might be possible for a State to define intoxicating liquor as liquor containing one-half of 1 percent of alcohol by volume, and at the same time prohibit sales of such liquor only if it contains more than 4 percent of alcohol by volume. In such a situation a State would receive Federal aid in keeping out beer containing a percentage of alcohol between one-half of 1 percent and 4 percent, although such beer of its own production would be permitted to be sold within the State. The Federal Government thus would be lending its aid in a discrimination by one State against the product of another State. The Senate amendment corrects this situation by making the State definition of intoxicating liquor apply only to the extent that a State prohibits the sale within its borders of the intoxicating liquor which it desires Federal aid in keeping out.

Second. Section 5 is omitted from the bill because section 9 of the Federal Alcohol Administration Act, passed last year, deals with the disposal of any forfeited liquor and prevents the sale of such liquor. The provisions of section 5 dealing with the manner of sale of forfeited liquor are, therefore, useless.

Third. The amendment to section 6 is for the purpose of bringing about a conformity with existing law relating to the power of the Secretary to delegate to his subordinates his rights and duties relating to the liquor laws. Section 6, as passed by the House, placed the responsibility of enforcing the provisions of H. R. 8368 and sections 238, 239, and 240 of the Criminal Code—relating to the interstate shipment of intoxicating liquor—in the Secretary of the Treasury, through the established machinery of the Bureau of Internal Revenue, and conferred upon the Secretary of the Treasury, the Commissioner of Internal Revenue, and his subordinates, while engaged in the enforcement of any law relating to intoxicating liquor, the rights, privileges, powers, and protection relating to intoxicating liquor conferred upon the Secretary of the Treasury by the act of March 3, 1927. It was thought that this section continued in the Secretary of the Treasury the authority conferred upon him under that act, which permitted him to delegate such rights, privileges, powers, and duties to his subordinates. However, since it was felt that section 6 might be construed to confer and impose such rights, privileges, powers, and duties directly upon the subordinates of the Secretary of the Treasury, and would thus deprive the Secretary of his authority to delegate those rights and duties, the Senate amended section 6 so as to clarify it and remove any possibility of such construction by employing language similar to that now contained in section 4 of the act of March 3, 1927.

Fourth. The amendment to section 9 of the House bill eliminates the necessity of stating the percentage of alcoholic content on containers of liquors shipped in interstate commerce. Since H. R. 8368 was introduced the Federal Alcohol Administration Act has been passed. Section 5 (e) (2) of that act prohibits statements of alcoholic content on labels placed on containers of malt beverages. The requirement of a statement of alcoholic content, therefore, in section 9 of the House bill runs counter to the prohibition in the Federal Alcohol Administration Act. In order that there may be consistency with the policy adopted by Congress last year in that act, the Senate amendment dispensing with a statement of alcoholic content is desirable.

The SPEAKER. Is there objection to the request of the gentleman from New York [Mr. CELLER]?

There was no objection.

The Senate amendments were agreed to.

A motion to reconsider was laid on the table.

ENROLLMENT OF PRIVATE ACT NO. 349

Mr. McCORMACK. Mr. Speaker, I ask unanimous consent for the present consideration of Senate Joint Resolution 196, to correct errors in the enrollment of Private Act No. 349, Seventy-fourth Congress, approved August 29, 1935, and to clarify the duties of the Comptroller General in connection with said act.

The Clerk read the title of the Senate joint resolution.

The SPEAKER. Is there objection to the present consideration of the resolution?

There being no objection, the Clerk read the joint resolution, as follows:

Resolved, etc., That section 3 of Private Act No. 349, Seventy-fourth Congress, approved August 29, 1935, be, and the same is hereby, amended by striking out the numerals "10" wherever they appear therein and inserting in lieu thereof the numerals "20."

SEC. 2. That the payments authorized in section 3 of the said act to be made to the "attorney or attorneys who performed services toward securing provision for the payment herein of the amounts so found" shall be made to Clarence W. DeKnight.

The joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

INDIAN SERVICE

Mr. ROGERS of Oklahoma. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 8316) to exempt the Indian Service from the requirements of section 4 of the Executive Order No. 6166, dated June 10, 1933, with Senate amendments and concur in the Senate amendments.

The Clerk read the title of the bill.

Mr. JENKINS of Ohio. Mr. Speaker, reserving the right to object, what is the effect of these amendments?

Mr. ROGERS of Oklahoma. The Permanent Appropriation Repeal Act of 1934 authorizing the President to transfer disbursements of all funds to central agencies. We introduced a resolution in the House exempting the Indian Service from the order issued by the President, but the Senate amended the resolution so that it does not exempt anything from the Executive order but exempts certain funds from the Appropriation Repeal Act. It excludes private Indian funds from the act. The Treasury Department and the Interior Department both have approved the amended resolution. It will save the Government money if the private Indian funds are kept in the local agencies so that if an Indian wants a pair of shoes at $2.50 he does not

have to send 1,000 miles to get approval for the purchase but can get it from the local agency.

Mr. JENKINS of Ohio. As I understand it we passed the bill and these are Senate amendments?

Mr. ROGERS of Oklahoma. Yes; but the bill we passed did not provide that.

Mr. JENKINS of Ohio. Has the gentleman taken up this matter with the committee?

Mr. ROGERS of Oklahoma. The gentleman means the Senate amendments?

Mr. JENKINS of Ohio. Yes.

Mr. ROGERS of Oklahoma. We had hearings on it originally.

Mr. JENKINS of Ohio. And what the gentleman now is asking is that the House concur in the Senate amendments.

Mr. ROGERS of Oklahoma. Yes.

Mr. JENKINS of Ohio. Has the gentleman had it up for consideration before his committee?

Mr. ROGERS of Oklahoma. Yes; I have discussed it with members of the committee and they agree to it. While we prefer the House bill, since it was objected to by the Treasury Department we have agreed to the Senate amendments.

Mr. JENKINS of Ohio. Has the gentleman talked with the minority members of the committee?

Mr. ROGERS of Oklahoma. Oh, yes. There is no objection to it from the committee.

Mr. JENKINS of Ohio. Mr. Speaker, I withdraw my objection.

The SPEAKER. Is there objection to the request of the gentleman from Oklahoma?

There being no objection, the Clerk read the Senate amendments, as follows:

Strike out all after the enacting clause and insert:

"That section 20 of the Permanent Appropriation Repeal Act, approved June 26, 1934 (48 Stat. 1233), shall not be applicable to funds held in trust for individual Indians, assocations of individual Indians, or for Indian corporations chartered under the act of June 18, 1934 (48 Stat. 984)."

The committee amendments were agreed to.

A motion to reconsider was laid on the table.

Amend title so as to read: "An act to modify section 20 of the Permanent Appropriation Repeal Act, 1934, with reference to individual Indian money."

TO DEFINE THE TERM OF CERTAIN CONTRACTS WITH INDIAN TRIBES

Mr. ROGERS of Oklahoma. Mr. Speaker, I ask unanimous consent for the immediate consideration of Senate Joint Resolution 177, to define the term of certain contracts with Indian tribes.

The Clerk read the title of the joint resolution.

Mr. JENKINS of Ohio. Mr. Speaker, reserving the right to object, I do so merely for the purpose of getting information on this bill. Will the gentleman from Oklahoma explain the bill?

Mr. ROGERS of Oklahoma. This bill merely makes it possible for the Secretary of the Interior, in his discretion, to extend contracts that were entered into some years ago, where the contracts had a definite time limit. A number of the cases involved are in the courts, and it has taken 8 or 10 years to settle them. There is a question as to whether those contracts are valid. This bill would make it discretionary with the Secretary of the Interior to continue them in force.

Mr. JENKINS of Ohio. As I understand from the calendar, this bill was referred to the gentleman's committee and acted on by his committee.

Mr. ROGERS of Oklahoma. Yes.

Mr. JENKINS of Ohio. What kind of report came from the committee?

Mr. ROGERS of Oklahoma. It was reported unanimously by the committee.

Mr. TABER. Mr. Speaker, reserving the right to object, how much is involved in these contracts?

Mr. ROGERS of Oklahoma. There is nothing involved. It will not cost the Government anything. These cases are already in the Court of Claims. Even if this resolution did not pass it would not make a bit of difference as to the cost to the Government, so far as these contracts are concerned, except new contracts would have to be entered into. It is just a question of continuing these contracts rather than entering into new contracts. The Secretary will have discretionary power over these contracts.

Mr. JENKINS of Ohio. As I understand, then, the claims referred to in this resolution are to be adjudicated in the Court of Claims.

Mr. ROGERS of Oklahoma. Oh, yes; they are already there and they will be adjudicated anyway.

Mr. CHRISTIANSON. Mr. Speaker, reserving the right to object, these are lawyers' contracts, contracts for the continuation of lawyers' services?

Mr. ROGERS of Oklahoma. That is right.

The SPEAKER. Is there objection to the consideration of the resolution?

There being no objection, the Clerk read the joint resolution, as follows:

Resolved, etc., That any contracts or agreements heretofore approved by the Secretary of the Interior between the authorities of any tribe, band, or group of Indians and their attorneys for the prosecution of claims against the United States, which provide that such contracts or agreements shall run for a period of years therein specified, and as long thereafter as may be required to complete the business therein provided for, or words of like import, or which provide that compensation for services rendered shall be on a quantum-meruit basis not to exceed a specified percentage, shall be deemed a sufficient compliance with section 2103 of the Revised Statutes (or sec. 81, title 25, U. S. Code): *Provided, however*, That nothing herein contained shall limit the power of the Secretary of the Interior, after due notice and hearing and for proper cause shown, to cancel any such contract or agreement: *Provided further*, That the provisions of this act shall not be construed to revive any contract which has been terminated heretofore by lapse of time, operation of law, or by acts of the parties thereto.

With the following committee amendment:

Page 2, after line 9, add a new section, as follows:

"SEC. 2. Any existing valid contract heretofore made and approved pursuant to any act of Congress by any tribe, band, or group of Indians with an attorney or attorneys for the rendition of services in the prosecution of claims against the United States under authority of which suit or suits have been filed, and which contains a limitation of time for the completion of the services to be performed may be continued in full force unless a subsequent contract dealing with the same subject matter has been made and approved."

Mr. JENKINS of Ohio. Mr. Speaker, I rise in opposition to the amendment.

We agreed that this bill should be permitted to be brought up for consideration at this time and withdrew all objections that we may have had, assuming it was a bill that had been regularly passed by the Senate and regularly considered by a House committee. Now, then, there is an amendment offered which may be absolutely contrary to the previous bill. I should like to know what the amendment is about. I think this practice is somewhat improper.

Mr. ROGERS of Oklahoma. Will the gentleman yield?

Mr. JENKINS of Ohio. I yield to the gentleman from Oklahoma.

Mr. ROGERS of Oklahoma. This amendment is a committee amendment and was added with approval of the Department of the Interior. After the resolution had passed the Senate, on investigation the Department found that an injustice would be done to two tribes, namely, the Creeks and the Seminoles, unless this amendment is added to the bill. The original resolution in the Senate did not take care of those two tribes.

Mr. JENKINS of Ohio. Has the amendment been submitted to the House committee?

Mr. ROGERS of Oklahoma. Yes; and it has the unanimouse approval of that committee.

The amendment was agreed to.

The resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

ENROLLMENT OF PRIVATE ACT NO. 349

Mr. McCORMACK. Mr. Speaker, I ask unanimous consent to vacate the action recently taken by the House in passing Senate Joint Resolution 196, to correct errors in the

enrollment of Private Act No. 349, Seventy-fourth Congress, approved August 29, 1935, and to clarify the duties of the Comptroller General in connection with said act, in order that a committee amendment, which was inadvertently overlooked, may be agreed to.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. McCORMACK. Mr. Speaker, I ask unanimous consent for the immediate consideration of Senate Joint Resolution 196.

The Clerk read the title of the Senate joint resolution.

The SPEAKER. Is there objection to the present consideration of the Senate joint resolution?

There being no objection, the Clerk read the Senate joint resolution, as follows:

Resolved, etc., That section 3 of Private Act No. 349, Seventy-fourth Congress, approved August 29, 1935, be, and the same is hereby, amended by striking out the numerals "10" wherever they appear therein and inserting in lieu thereof the numerals "20."

SEC. 2. That the payments authorized in section 3 of the said act to be made to the "attorney or attorneys who performed services toward securing provision for the payment herein of the amounts so found" shall be made to Clarence W. DeKnight.

With the following committee amendment:

Page 2, line 3, after the word "DeKnight", insert the following: "For services rendered before the committees of Congress and executive officers of the Government during the period of 20 years prior to and including the date of approval of said act, in connection with securing authority for payment of the findings of the Court of Claims therein enumerated: *Provided*, That such payment of 10 percent shall be participated in by such other attorney or attorneys, if any, who, in addition to having appeared in the Court of Claims, shall have rendered services as above described during said period, such participation to be in proportion to the value and extent of services so rendered as determined by the Comptroller General of the United States, to whom all claims for participation in said 10 percent shall be presented within 30 days from the date of approval of this act."

The committee amendment was agreed to.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

COMPILATION OF LIST OF LABOR-SAVING DEVICES, MECHANICAL AND OTHERWISE

Mr. CONNERY. Mr. Speaker, I call up House Resolution 49 and ask unanimous consent for its immediate consideration.

The Clerk read the resolution, as follows:

House Resolution 49

Resolved, That the Secretary of Labor is requested (1) to compile a list of the labor-saving devices, mechanical and otherwise, put in operation in the United States after December 31, 1912, which are still in use; (2) to estimate the number of persons in the United States now unemployed by reason of the use of each kind or type of such devices; (3) to estimate the number of persons who would be employed in the United States in each of the various divisions of industry, commerce, and agriculture, but are not so employed by reason of the use of such devices; and (4) to report his findings in detail in the House of Representatives (or to the Clerk of the House if the House is not in session) during the present Congress, together with such observations and recommendations as the Secretary deems pertinent and useful. Every officer or employee of the United States is requested to supply the Secretary with such information relating to any matter under investigation or study pursuant to this resolution and contained in the records of the office of such officer or employee as the Secretary may request. For the purposes of this resolution, the term "labor-saving devices" includes any improvement, made after December 31, 1912, of a labor-saving device put into operation on or before such date, and the term "United States" means the United States and all territory subject to the jurisdiction thereof.

With the following committee amendments:

Page 1, line 1, strike out the words "is requested" and insert "be required."

Page 1, line 3, after "otherwise", insert "such as automatic machinery, machinery in general, conveyors, speed-ups, efficiency methods eliminating loss of time and repetition of motions, monopolies, mergers of industries, and all other means adopted toward reducing the cost of production under our competitive system."

Page 1, line 9, strike out "1912" and insert "1920."

Page 1, line 10, after the word "use", insert "and being constantly improved."

Page 1, line 11, strike out "now."

Page 1, line 12, insert "at the time of completion of such a list."

Page 2, beginning in line 1, after the word "devices", strike out all down to and including the word "thereof" in line 20 and insert the following: "or methods in each of the various divisions of industry, commerce, and agriculture in the United States; and (3) to report the findings in properly digested and coordinated detail to the House of Representatives (or to the Clerk of the House if the House is not in session) during the present or the next following Congress, together with such observations and recommendations as the Secretary deems pertinent and useful. Every officer or employee of the United States shall be required to cooperate and to supply the Secretary with such information relating to any matter under investigation or study pursuant to this resolution and contained in the records of the office of such officer or employee as the Secretary may request. Such a list of labor-saving devices are to be kept up to date from year to year, with such additions and revisions as may be dictated by progress and changes in industry, commerce, and agriculture. For the purpose of this resolution the term 'labor-saving devices' includes any improvements, made after December 31, 1920, of a labor-saving device or method put into operation on or before such date, and the term 'United States' means the United States and all the territory subject to the jurisdiction thereof."

The SPEAKER. Is there objection to the present consideration of the resolution?

Mr. TABER. If the Secretary of Labor is required to do these things, it will cost two or three million dollars. I cannot figure anything else out of this except that we are getting started on a set-up in that Department that will be absolutely uncontrollable as far as future costs are concerned.

Mr. CONNERY. Will the gentleman withhold his objection?

Mr. TABER. I withhold my objection.

Mr. CONNERY. They have $12,000,000 available now under the W. P. A., and the Department of Labor is making this investigation.

In this bill we are asking them to furnish us with certain data that we want transmitted to the Congress. In the next session we are bound to have legislation in connection with labor-saving devices which are throwing people out of employment. As I previously stated, they have $12,000,000 now.

Mr. TABER. Why does not the gentleman offer a resolution requesting the Secretary of Labor to furnish such data as is being compiled by the Secretary of Labor under these allotments from the W. P. A. instead of making this sort of request? It looks like a permanent set-up, and I know from my previous experience that the Secretary of Labor will come before the Congress and ask for additional money. I shall be forced to object unless the resolution is modified along these lines.

Mr. CONNERY. Will the gentleman offer an amendment along the lines of his suggestion?

Mr. TABER. If the gentleman will withhold his request for consideration of this bill until I can prepare the amendment, I shall do so.

The SPEAKER. Is there objection to the present consideration of the resolution?

Mr. TABER. Mr. Speaker, for the moment I shall object.

WHITMAN NATIONAL MONUMENT

Mr. DEROUEN. Mr. Speaker I call up the conference report on the bill (H. R. 7736) to provide for the establishment of the Whitman National Monument.

The Clerk read the conference report and statement.

The conference report and statement are as follows:

CONFERENCE REPORT

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 7736) to provide for the establishment of the Whitman National Monument, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendment.

RENÉ L. DEROUEN,
KNUTE HILL,
HARRY L. ENGLEBRIGHT,
Managers on the part of the House.

JAMES E. MURRAY,
ELMER A. BENSON,
GERALD P. NYE,
Managers on the part of the Senate.

STATEMENT

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to H. R. 7736, providing for the establishment of the Whitman National Monument, submit the following written statement explaining the effect of the action agreed upon:

The Senate receded from its amendment to the bill, H. R. 7736, as passed by the House, which authorizes the appropriation to carry out the provisions of the act and agrees to the bill as passed by the House.

RENÉ L. DEROUEN,
KNUTE HILL,
HARRY L. ENGLEBRIGHT,
Managers on the part of the House.

The conference report was agreed to.

A motion to reconsider was laid on the table.

IN RE ADJUSTMENT OF CLAIMS IN CONSTRUCTION OF POST-OFFICE BUILDING AT HEMPSTEAD, N. Y.

Mr. CROWE. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 2647) authorizing the Comptroller General of the United States to settle and adjust the claims of subcontractors, materialmen, and laborers for material and labor furnished in the construction of a post-office building at Hempstead, N. Y.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Indiana?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That the Comptroller General of the United States be, and he is hereby, authorized and directed to settle and adjust on a pro-rata basis in an amount not exceeding in the aggregate the unpaid balance due from the United States under the contract no. T1SA-3050, dated March 30, 1932, between the United States and the Brooklyn & Queens Screen Manufacturing Co., Inc., the unpaid claims of subcontractors, materialmen, and laborers for materials or labor furnished at any time in the construction of the post-office building at Hempstead, N. Y., under said contract, which work was completed by the National Surety Co., as surety on the performance bond, before said surety company was placed in the hands of a rehabilitator or liquidator appointed by the Insurance Department of the State of New York, and after the United States had terminated the right of the Brooklyn & Queens Screen Manufacturing Co., Inc., to proceed under said contract. The Comptroller General of the United States is authorized and directed to settle and adjust the said claims which may be filed and established hereunder without regard to the Government's right of set-off against any indebtedness of the National Surety Co. to the United States in other cases and without regard to the Government's right to priority in the payment of its claim: *Provided*, That no settlement shall issue hereunder until 6 months after the enactment of this act, and no claimant who shall have failed, neglected, or refused to submit his claim to the Comptroller General of the United States within the said period shall share in the benefits of this act. Such allowance as may be made by the Comptroller General as herein provided shall be paid from the appropriations heretofore made for the construction of the building in question. Payments so made shall be charged to the National Surety Co. in the adjustment of the accounts between said company and the United States: *Provided*, That no allowance shall be made pursuant to the terms of this act, unless and until the rehabilitator or liquidator of the National Surety Co. shall file with the Comptroller General written consent thereto.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

CONTROL OF STEAM BOILERS IN THE DISTRICT OF COLUMBIA

Mr. PALMISANO submitted the following conference report and statement on the bill (S. 2953) to provide for the inspection, control, and regulation of steam boilers and unfired pressure vessels in the District of Columbia:

CONFERENCE REPORT

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2953) to provide for the inspection, control, and regulation of steam boilers and unfired pressure vessels in the District of Columbia, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its amendment numbered 1.

That the Senate recede from its disagreement to the amendments of the House numbered 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, and 12, and agree to the same.

VINCENT L. PALMISANO,
WRIGHT PATMAN,
EVERETT M. DIRKSEN,
Managers on the part of the House.

WILLIAM H. KING,
ARTHUR CAPPER,
ROBT. R. REYNOLDS,
Managers on the part of the Senate.

STATEMENT

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2953) to provide for the inspection, control, and regulation of steam boilers and unfired pressure vessels in the District of Columbia submit the following statement in explanation of the effect of the action agreed upon by the conference and recommended in the accompanying conference report:

On amendment no. 1: Section 3 of the Senate bill establishes a boiler inspection service in the engineer department of the District of Columbia, to be composed of a boiler inspector, assistant boiler inspectors, and such other employees as may be necessary for the proper performance of the work. The House amendment struck out "boiler inspector" and inserted "the present inspector and necessary assistant inspectors." The House recedes.

On amendment no. 2: This is a clarifying amendment striking out surplus language; and the Senate recedes.

On amendment no. 3: The Senate bill provided that all such officials and employees constituting the boiler inspection service shall be appointed by the Commissioners of the District of Columbia, and their compensation shall be fixed in accordance with the Classification Act of 1923, as amended. The House amendment strikes out that part providing that their compensation shall be fixed in accordance with the Classification Act of 1923. The Senate recedes.

On amendments nos. 4 and 5: Section 6 of the Senate bill provides for an annual inspection by the boiler inspector of all boilers and unfired pressure vessels for which a certificate of inspection is required, except that in the case of a steam boiler or unfired pressure vessel which is regularly inspected at least once a year by an insurance company duly licensed in the District of Columbia, such annual inspection by the boiler inspector may be dispensed with where a report of such inspection by the insurance company shows any such boiler or unfired pressure vessel to be in a safe and insurable condition. Amendment no. 4 provides that where such inspections are made by an insurance company that such steam boiler or unfired pressure vessel must be regularly insured, as well as inspected, at least once a year. Amendment no. 5 provides that the inspection and report by the insurance company shall take the place of inspection by the boiler inspector, instead of leaving it merely permissive, as in the Senate bill. The Senate recedes.

On amendment no. 6: This amendment is added at the end of section 6 of the Senate bill. It provides that insurance companies shall report to the inspectors the cancelation of insurance of any certificate holder. The Senate recedes.

On amendments nos. 7 and 8: Section 8 of the Senate bill provided, among other things, that steam boilers and unfired pressure vessels located in or upon self-propelled boats or vessels operated under the regulations of any Federal agency or the Public Utility Commission of the District of Columbia shall be exempt from the provisions of this act. Amendment no. 7 struck out the word "self-propelled", and amendment no. 8 inserted after the word "vessels" the words "or other floating equipment", so that such exemption will apply on all such boats, vessels, or other floating equipment, whether or not self-propelled. The Senate recedes.

On amendment no. 9: This is a clarifying amendment providing that the owner or user shall pay the fee required by this act.

On amendments nos. 10, 11, and 12: The last sentence of section 9 of the Senate bill provided that when an inspection report is filed by an insurance company with the boiler inspector, showing that a boiler or unfired pressure vessel has been inspected and found to be in a safe and insurable condition as provided in section 6, there shall be paid to the collector of taxes of the District of Columbia a fee of $1 prior to the issuance of the certificate of inspection. Amendment no. 10 provides that the owner or user of such insured and inspected boiler or unfired vessel shall be exempt from the payment of all fees except the said $1 fee. Amendment no. 11 is a clarifying amendment providing that the owner or user shall pay the said $1 fee. Amendment no. 12 provides that no such certificate shall be valid after the boiler or unfired pressure vessel shall cease to be insured by an insurance company authorized as provided in section 6 of this act. The Senate recedes.

VINCENT L. PALMISANO,
WRIGHT PATMAN,
EVERETT M. DIRKSEN,
Managers on the part of the House.

Mr. PALMISANO. Mr. Speaker, I call up the conference report on the bill (S. 2953) to provide for the inspection, control and regulation of steam boilers and unfired pressure vessels in the District of Columbia and ask unanimous consent that the statement may be read in lieu of the report.

The Clerk read the statement.

The conference report was agreed to.

INSPECTION OF VESSELS

Mr. BLAND. Mr. Speaker, I ask unanimous consent for the present consideration of the bill (S. 4780) to extend the laws governing inspection of vessels and for other purposes. An identical House bill has been reported by the committee.

The Clerk read the title of the bill.

Mr. BLAND. Mr. Speaker, there was passed last year a bill regulating the transportation of dangerous combustibles in harbors. The ports of New York, Philadelphia, and others are very seriously interested. These regulations have been prepared, but the Solicitor of the Department held that under that bill they could not carry them into effect. This measure has been considered by the committee and a unanimous report has been made on an identical House bill.

Mr. JENKINS of Ohio. Mr. Speaker, will the gentleman yield for a question?

Mr. BLAND. Yes.

Mr. JENKINS of Ohio. When was it considered by the committee?

Mr. BLAND. A similar bill (H. R. 12951) was considered by the committee and reported to the House on June 8.

Mr. JENKINS of Ohio. It is not on the calendar apparently.

Mr. BLAND. I have the report here.

Mr. HOLMES. Mr. Speaker, reserving the right to object, will the gentleman yield for a question?

Mr. BLAND. Yes.

Mr. HOLMES. Does this affect in any way the colliers that travel between Virginia and the New England ports carrying coal on deadline, and so forth?

Mr. BLAND. No; it does not affect coal. It affects combustible liquids, gasoline and things of that kind.

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That title 52 of the Revised Statutes is amended by inserting after section 4417 thereof a new section designated section 4417a, to read as follows:

"SEC. 4417a. (1) All vessels, regardless of tonnage, size, or manner of propulsion, and whether self-propelled or not, and whether carrying freight or passengers for hire or not, that shall have on board any inflammable or combustible liquid cargo in bulk, except public vessels owned by the United States, other than those engaged in commercial service, shall be considered steam vessels for the purposes of this title and shall be subject to the provisions thereof: *Provided*, That this section shall not apply to vessels having on board only inflammable or cumbustible liquid for use as fuel or stores or to vessels carrying liquid cargo only in drums, barrels, or other packages.

"(2) In order to secure effective provision against the hazards of life and property created by the vessels to which this section applies, the Board of Supervising Inspectors, with the approval of the Secretary of Commerce, shall establish such additional rules and regulations as may be necessary with respect to the design and construction, alteration, or repair of such vessels, including the superstructures, hulls, places of stowing and carrying such liquid cargo, fittings, equipment, appliances, propulsive machinery, auxiliary machinery, and boilers thereof; and with respect to all materials used in such construction, alteration, or repair; and with respect to the handling and stowage of such liquid cargo; the manner of such handling or stowage, and the machinery and appliances used in such handling and stowage; and with respect to equipment and appliances for lifesaving and fire protection; and with respect to the operation of such vessels; and with respect to the requirements of the manning of such vessels and the duties and qualifications of the officers and crews thereof; and with respect to the inspection of all the foregoing: *Provided*, That the provisions of this section shall not apply to common carriers engaged in interstate or foreign commerce which transport such liquid cargo by water insofar only as such common carriers are subject to the regulations formulated by the Interstate Commerce Commission under the provisions of section 233 of the act of March 4, 1909 (ch. 321, 35 Stat. 1135), as amended (U. S. C., 1934 ed., title 18, sec. 383). In establishing such rules and regulations the Board of Supervising Inspectors may, with the approval of the Secretary of Commerce, adopt rules of the American Bureau of Shipping or similar American classification society for classed vessels insofar as such rules pertain to the efficiency of hulls and the reliability of machinery of vessels to which this section applies. In establishing such rules and regulations the Board of Supervising Inspectors shall give due consideration to the kinds and grades of such liquid cargo permitted to be on board such vessel.

"(3) Before any rules and regulations, or any alteration, amendment, or repeal thereof, are approved by the Secretary of Commerce under the provisions of this section, except in an emergency, the said Secretary shall publish such rules and regulations and hold hearings with respect thereto on such notice as he deems advisable under the circumstances.

"(4) No vessel subject to the provisions of this section shall, after the effective date of the rules and regulations established hereunder, have on board such liquid cargo, until a certificate of inspection has been issued to such vessel in accordance with the provisions of this title and until a permit has been endorsed on such certificate of inspection by a board of local inspectors, indicating that such vessel is in compliance with the provisions of this section and the rules and regulations established hereunder, and showing the kinds and grades of such liquid cargo that such vessel may have on board or transport. Such permit shall not be endorsed by a board of local inspectors on such certificate of inspection until such vessel has been inspected by such board of local inspectors, or by any other board or officer of the Bureau of Marine Inspection and Navigation designated by the Director thereof, and found to be in compliance with the provisions of this section and the rules and regulations established hereunder. For the purpose of any such inspection approved plans and certificates of class of the American Bureau of Shipping or other recognized classification society for classed vessels may be accepted as evidence of the structural efficiency of the hull and the reliability of the machinery of such classed vessels except as far as existing law places definite responsibility on the Bureau of Marine Inspection and Navigation. A permit issued under the provisions of this section shall be valid for a period of time not to exceed the duration of the certificate of inspection on which such permit is endorsed, and shall be subject to revocation by a board of local inspectors whenever such a board shall find that the vessel concerned does not comply with the conditions upon which such permit was issued: *Provided*, That the provisions of this subsection shall not apply to vessels of a foreign nation having on board a valid certificate of inspection recognized under law or treaty by the United States: *And provided further*, That no permit shall be issued under the provisions of this section authorizing to be on board any vessel, described in the provisions of sections 4472 and 4278 of the Revised Statutes, section 234 of the act of March 4, 1909 (ch. 321, 35 Stat. 1135), as amended (U. S. C., 1934 ed., title 18, sec. 384), and section 8 of the act of August 2, 1882 (ch. 374, 22 Stat. 189; U. S. C., 1934 ed., title 46, sec. 171), any of the materials expressly prohibited to be carried on such vessels by the afore-mentioned provisions.

"(5) Vessels subject to the provisions of this section shall have on board such shipping documents as may be prescribed by the Board of Supervising Inspectors with the approval of the Secretary of Commerce indicating the kinds, grades, and approximate quantities of such liquid cargo, on board such vessel, the shippers and consignees thereof, and the location of the shipping and destination points.

"(6) (a) In all cases where the certificate of inspection does not require at least two licensed officers, a board of local inspectors shall enter in the permit issued to any vessel under the provisions of this section the number of the crew required to be certificated as tankermen.

"(b) A board of local inspectors shall issue to applicants certificates as tankerman, stating the kinds of liquid cargo the holder of such certificate is, in the judgment of such board, qualified to handle aboard vessels with safety, upon satisfactory proof and examination, in form and manner prescribed by the Board of Supervising Inspectors with the approval of the Secretary of Commerce, that the applicant is in good physical condition, that such applicant is trained in and capable efficiently to perform the necessary operations aboard vessels having such liquid cargo on board, and that the applicant fulfills the qualifications of tankerman as prescribed by the Board of Supervising Inspectors under the provisions of this section. Such certificates shall be subject to suspension or revocation on the same grounds and in the same manner and with like procedure as is provided in the case of suspension or revocation of licenses of officers under the provisions of section 4450 of this title.

"(7) The owner, master, or person in charge of any vessel subject to the provisions of this section, or any or all of them, who shall violate the provisions of this section, or of the rules and regulations established hereunder, shall be subject to a fine of not more than $1,000 or imprisonment for not more than 1 year, or both such fine and imprisonment.

"(8) The rules and regulations to be established pursuant to this section shall become effective 90 days after their promulgation unless the Secretary of Commerce shall for good cause fix a different time."

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

CAPT. JAMES W. DARR

Mr. CHRISTIANSON. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 3405) for the relief of Capt. James W. Darr.

The Clerk read the bill, as follows:

Be it enacted, etc., That the President be, and he is hereby, authorized to appoint James W. Darr, formerly a captain, Infantry, United States Army, a captain of Infantry, United States Army, and to place him upon the retired list of the Army as a captain, with the retired pay of that grade: *Provided*, That no back pay, allowance, or emoluments shall become due because of the passage of this act.

Mr. RANKIN. Mr. Speaker, reserving the right to object, the gentleman states this man was a captain in the Regular Army?

Mr. CHRISTIANSON. He was; yes.

Mr. RANKIN. During what period of time?

Mr. CHRISTIANSON. He was a captain in the Regular Army and had a dishonorable discharge for some offenses which he committed. It has since been determined he was insane at the time he committed the offenses and he is confined at the present time in a hospital for the insane in the State of Minnesota. This bill has passed the Senate and has been favorably reported by the Committee on Military Affairs.

The SPEAKER. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

LOTS IN HARDING TOWN SITE, FLORIDA, ETC.

Mr. WILCOX. Mr. Speaker, I ask unanimous consent for the immediate consideration of Senate 4707, for the relief of certain purchasers of lots in Harding town site, Florida, and for the relief of the heirs of Lewis G. Norton.

Mr. SNELL. Mr. Speaker, reserving the right to object, I am doing so on account of the absence from the Chamber at the moment of the gentleman from Pennsylvania [Mr. RICH], who has asked that this matter be held up until he returns.

Mr. FISH. Mr. Speaker, will the gentleman yield?

Mr. SNELL. Yes.

Mr. FISH. I believe Mr. RICH will not be back.

Mr. SNELL. I agreed to object to it, and for the present I do object.

STREAM-POLLUTION CONTROL

Mr. MANSFIELD. Mr. Speaker, I ask unanimous consent for the present consideration of the bill (H. R. 12764) to create a division of stream-pollution control in the Bureau of the Public Health Service, and for other purposes, which I send to the desk.

The Clerk read the title of the bill.

The SPEAKER. Is there objection?

Mr. SNELL. Mr. Speaker, I reserve the right to object. This is quite an important measure, and I should like to have some explanation made by the chairman of the Committee on Rivers and Harbors before unanimous consent is granted.

Mr. MANSFIELD. If the gentleman will permit, I yield to the gentleman from Kentucky [Mr. VINSON].

Mr. SNELL. That is quite satisfactory.

Mr. VINSON of Kentucky. Mr. Speaker, this bill has the wholehearted approval of the Public Health Service of the United States. It is a forward looking piece of legislation, and national in its scope. It provides for a comprehensive plan on a national scale in respect to the water-pollution menace that confronts the entire Union. In addition to that, after that national plan has been worked out, and surveys made in conjunction with the States and the public health departments of the States, then it authorizes grants or loans after the Surgeon General, the Secretary of the Treasury, and the Budget submits those estimates to the Congress and the Congress agrees thereto. I feel certain that every Member of the House recognizes the imminent danger, unseen, until epidemic arises, that hovers over stream pollution.

Mr. SNELL. I agree with the gentleman this is a serious question, but whether that should be all done from Washington and go so far as to grant loans, and so forth, without more careful consideration, I have some doubt.

Mr. VINSON of Kentucky. When it comes to the point of granting aid or a loan, that is done only when such grant or loan has been approved by the State authority.

Mr. SNELL. Yes; of course, that is so, but we are laying the foundation for all this and concentrating this authority to govern this pollution matter entirely in Washington.

Mr. VINSON of Kentucky. In a way that is true, but it is done under the same philosophy that the Public Health Service work throughout all the States of the Union in respect to rural rehabilitation, and under the Social Security Act.

Mr. SNELL. As I understand it this starts out with a set-up of a million dollars to begin with.

Mr. VINSON of Kentucky. Three hundred thousand dollars annually for 10 years is authorized for the Public Health Service for investigation, and $700,000 annually for 10 years is authorized to be divided among all the States for a survey and a study upon which the remedial work will be founded.

Mr. MANSFIELD. For the term of 10 years.

Mr. VINSON of Kentucky. I yield to the gentleman from Ohio [Mr. JENKINS].

Mr. MANSFIELD. Just one moment. All the industries presumed to be affected by this have agreed to this bill, particularly the paper and pulp industry.

Mr. SNELL. This is establishing such a broad policy, covering the whole country, that I am rather opposed to letting this kind of bill go through without careful attention. I don't know that I am opposed to the principle of the bill, but I think it is a mistake to legislate on such important matters in the closing days of the session by unanimous consent.

Mr. JENKINS of Ohio. Mr. Speaker, to allay the fears of my good friend the minority leader, is it not true that the Public Health cannot operate and would not assume to operate under this bill unless it could have the cooperation of all the States? In other words, the successful operation of this cannot result in the building up of a bureau in Washington, because it has to reach out to all of the States and ramify into all parts of the country.

Mr. VINSON of Kentucky. May I say that the States cannot meet this as a State proposition. It is an interstate problem, national in scope.

Mr. DONDERO. Mr. Speaker, will the gentleman yield?

Mr. VINSON of Kentucky. Yes.

Mr. DONDERO. The bill is restricted to meet a situation covering only the waters over which the Federal Government may have jurisdiction.

Mr. VINSON of Kentucky. Yes; the navigable streams of the United States and the tributaries thereof.

Mr. ROBERTSON. Mr. Speaker, will the gentleman yield?

Mr. JENKINS of Ohio. Yes.

Mr. ROBERTSON. To call attention to the fact that a special House Committee on Conservation conducted hearings in the session on several other bills, and that it reached the conclusion that there is very little that the Federal Government could do in the matter of legislating, and that what is needed is the development of the scientific facts relative to pollution and how it could be eliminated and then work through the States. This bill contemplates that form of procedure.

Mr. SNELL. That is a matter that ought to be brought out and fully developed.

Mr. HOLMES. Mr. Speaker, I object.

The SPEAKER. Objection is heard.

DEFINING JURISDICTION OF COURT OF CLAIMS ON CERTAIN INDIAN CLAIMS

Mr. CARTWRIGHT. Mr. Speaker, I ask unanimous consent for the immediate consideration of the resolution (S. J. Res. 213) defining the jurisdiction of the Court of Claims under the act approved April 25, 1932 (47 Stat. L. 137), and for other purposes.

The SPEAKER. Is there objection to the request of the gentleman from Oklahoma?

Mr. COCHRAN. I reserve the right to object. For the information of the House I desire to state I have gone into this measure with extreme care. Numerous people have come to me and given their reasons why they felt the bill should be allowed to pass. The resolution seeks to construe the original jurisdictional act permitting the Eastern and Emigrant Cherokees and the Western or Old Settler Cherokees to sue the United States in the Court of Claims. My objection is found in that part of the resolution which, while giving the United States the right to receive full credit for all sums advanced in the form of gratuities, and so forth, provides that it must be shown the gratuities, and so forth, must have been paid to them per capita. It is absolutely impossible for the United States to show per capita payments. You will note the report shows the Bureau of the Budget before advancing an opinion on the resolution consulted the Attorney General who calls specific attention to this language. The Bureau of the Budget is opposed to the resolution. I refer briefly to the letter of the Acting Secretary of the Interior which quotes the Court of Claims:

> It thus appears not only that plaintiffs' claim has heretofore been determined and adjudicated on the merits by this court and the Supreme Court and paid in full but that such determination and adjudication was made on a correct statement of the account. * * *

In another case the court said:

> This case has already been before this court and the Supreme Court and the identical questions have been considered and decided by both courts. The matters for the determination of the court in the original case (40 C. Cls. 252; 202 U. S. 101) were the amounts, principal and interest, due the Cherokee Nation and the Eastern or Emigrant Cherokees under the Slade and Bender account, and those matters were finally settled and determined on March 15, 1910, by payment.

Mr. Speaker, millions have already been paid to these Indians; and if this resolution is passed, I repeat, the United States will be helpless, and the court will be compelled to render judgment in their favor for an amount which no one can now predict, but which will go into the millions.

I reserve my objection for the purpose of giving the gentleman from Oklahoma an opportunity to make a statement, but in the end I will insist upon and renew the objection.

Mr. CARTWRIGHT. Mr. Speaker, the resolution is intended to correct an error in the Jurisdictional Act passed in 1932, which authorized suits to bring the affairs of the Cherokees to final settlement.

The Indian Committee of the House unanimously reported House Joint Resolution 457, in terms identical with this resolution, Senate Joint Resolution 213, Union Calendar, 1185. The Indian Committee of the Senate reported it unanimously and it passed the Senate without opposition yesterday. I do not see how anyone could object to it.

It is of importance to the State of Oklahoma and involves no appropriation. I regret that the gentleman from Missouri sees fit to insist on his objection.

The SPEAKER. Objection is heard.

ADMINISTRATION OF BLUE RIDGE PARKWAY IN VIRGINIA AND NORTH CAROLINA

Mr. DOUGHTON. Mr. Speaker, I move to suspend the rules and pass the bill (H. R. 12455) to provide for the administration and maintenance of the Blue Ridge Parkway, in the States of Virginia and North Carolina, by the Secretary of the Interior, and for other purposes.

The Clerk read the bill, as follows:

> *Be it enacted, etc.*, That hereafter all lands and easements conveyed or to be conveyed to the United States by the States of Virginia and North Carolina for the right-of-way for the projected parkway between the Shenandoah and Great Smoky Mountains National Parks, together with sites acquired or to be acquired for recreational areas in connection therewith, and a right-of-way for said parkway of a width sufficient to include the highway and all bridges, ditches, cuts, and fills appurtenant thereto, but not exceeding a maximum of 200 feet through Government-owned lands as designated on maps heretofore or hereafter approved by the Secretary of the Interior, shall be known as the Blue Ridge Parkway and shall be administered and maintained by the Secretary of the Interior through the National Park Service, subject to the provisions of the act of Congress approved August 25, 1916 (39 Stat. 535), entitled "An act to establish a National Park Service, and for other purposes", the provisions of which act, as amended and supplemented, are hereby extended over and made applicable to said parkway: *Provided*, That the Secretary of Agriculture is hereby authorized, with the concurrence of the Secretary of the Interior, to connect with the parkway such roads and trails as may be necessary for the protection, administration, or utilization of adjacent and nearby national forests and the resources thereof: *And provided further*, That the Forest Service and the National Park Service shall, insofar as practicable, coordinate and correlate such recreational development as each may plan, construct, or permit to be constructed, on lands within their respective jurisdictions which, by mutual agreement, should be given special treatment for recreational purposes.

The SPEAKER. Is a second demanded?

Mr. WOLCOTT. Mr. Speaker, I demand a second.

Mr. DOUGHTON. Mr. Speaker, I ask unanimous consent that a second be considered as ordered.

The SPEAKER. Without objection a second will be considered as ordered.

There was no objection.

The SPEAKER. The gentleman from North Carolina [Mr. DOUGHTON] is recognized for 20 minutes, and the gentleman from Michigan [Mr. WOLCOTT] is recognized for 20 minutes.

Mr. WOLCOTT. Mr. Speaker, I make the point of order that a quorum is not present.

The SPEAKER. The Chair will count. [After counting.] One hundred and thirty-one Members are present, not a quorum.

Mr. O'CONNOR. Mr. Speaker, I move a call of the House.

A call of the House was ordered.

The Clerk called the roll, and the following Members failed to answer to their names:

[Roll No. 130]

Amlie	Englebright	Lee, Okla.	Sanders, La.
Andrews	Ferguson	Lehlbach	Sandlin
Ayers	Fernandez	Lemke	Sauthoff
Bacharach	Fiesinger	Lesinski	Schneider, Wis.
Bacon	Fitzpatrick	McClellan	Schuetz

Duffey, Ohio	Kleberg	Richardson	Zioncheck
Dunn, Miss.	Kocialkowski	Robsion, Ky.	
Eagle	Lanham	Romjue	
Eaton	Larrabee	Sadowski	

The SPEAKER pro tempore (Mr. WARREN). Two hundred and ninety-six Members are present, a quorum.

Mr. DOUGHTON. Mr. Speaker, I move to dispense with further proceedings under the call.

The motion was agreed to.

The SPEAKER pro tempore. The gentleman from North Carolina is recognized for 20 minutes.

Mr. DOUGHTON. Mr. Speaker, H. R. 12455 provides for the administration, and maintenance of the Blue Ridge Parkway, connecting the Shenandoah National Park in Virginia and the Great Smoky Mountains National Park in North Carolina and Tennessee.

There might have been some justification for opposing the appropriation of the money with which to construct this parkway. I do not believe there was sufficient justification for that opposition, but now that the money has been authorized and the parkway is under construction, with more than 100 miles of it let to contract and the parkway certain

to be built, any attempt to prevent the maintenance of that parkway by proper governmental authorities seems to me the most unreasonable, absurd, unjustifiable, and untenable position that I have ever known anyone to take.

Mr. SNELL. Mr. Speaker, will the gentleman yield?

Mr. DOUGHTON. I yield.

Mr. SNELL. The gentleman just said that this had already been authorized and that they were building it. Will the gentleman give us a little more information in regard to that? That is news to me.

Mr. DOUGHTON. The road was authorized under the National Industrial Recovery Act, title II, section 202, and there are about 100 miles of it now let to contract and perhaps 40 or 50 miles already graded. The money was recently provided in the highway bill for the further construction of the parkway.

Mr. SNELL. Will the gentleman tell me, if the money has been provided and already authorized, why any additional legislation is required?

Mr. DOUGHTON. Yes. Somebody must administer and maintain the road when it is constructed, as a considerable part of this highway goes through forest lands under control of the Department of Agriculture. This parkway should be under the control of the Park Service, which is in the Department of the Interior. The purpose of this bill is simply to give the right of maintenance and administration of the road after it is constructed to the proper governmental agency. It does not provide for a dollar in money. That has already been taken care of. It is simply to take care of the maintenance and administration of it. Suppose we should go ahead and build the road, which we will do, and then do not provide for its maintenance, everyone knows that every dollar of the money would be wasted. It would not be worth a cent to build the highway and then not provide for its maintenance.

Mr. SNELL. Where did the money come from?

Mr. DOUGHTON. First, from the P. W. A. fund.

Mr. SNELL. From the regular highway fund?

Mr. DOUGHTON. As I understand, the money was authorized from the regular highway fund.

Mr. SNELL. I supposed that this had been started with W. P. A. funds. Am I right or wrong?

Mr. DOUGHTON. No. The first money that was expended was an allocation of $6,000,000 from P. W. A. This last authorization, as I understand it, comes from the regular highway fund.

Mr. SNELL. I did not understand that any money out of the regular highway fund had been used for this specific purpose.

Mr. DOUGHTON. I will say it matters not what fund it comes from. It is Government money, of course, and in the construction of the road they are employing relief labor. I know that the contractors are required to give preference and employ, as far as possible, relief labor.

Mr. SNELL. One of the points I want to know is whether these funds have come from regular highway funds, as the gentleman from North Carolina stated, or from W. P. A. funds.

Mr. DOUGHTON. I understand that the funds to be used in the future will come from the highway funds. At first $6,000,000 was set aside from P. W. A. funds. That is my understanding; but, regardless of where the funds come from, the road is under construction and is certain to be built. The only issue before us in the pending bill is the question of its maintenance under proper administration.

Mr. SNELL. You want to be absolutely sure it is going to be built. Is there doubt of that unless it is recognized by some such law as is being proposed at the present time?

Mr. DOUGHTON. This does not have a thing to do with the building of it. I am as absolutely certain of that as I am of standing here.

Mr. SNELL. If the gentleman says he is sure about it, I know he thinks that way, for he says what he thinks.

Mr. DOUGHTON. The only reason I can see for any opposition to this bill is that it comes from those who are sore or disappointed over the construction of the road and who feel that in the last hours of Congress, by dilatory tactics, by filibustering, they can prevent giving the Department of the Interior and the Park Service the right to maintain this road. It is the most absurd position I have ever known anyone to take.

Mr. ROBERTSON. Mr. Speaker, will the gentleman yield?

Mr. DOUGHTON. I yield.

Mr. ROBERTSON. The original appropriation, I may say to the gentleman from New York, came from P. W. A., not from W. P. A.

Mr. SNELL. Has anything ever been taken out of the regular road fund for this project?

Mr. ROBERTSON. Last week we passed a special appropriation to build this road.

Mr. SNELL. I should like to have some more information on that point, that there was a special appropriation made last week to take care of this road.

Mr. ROBERTSON. I did not mean an appropriation; I meant an authorization.

Mr. SNELL. There may be some general authorization, but when it gets down to the proposition of the money having been appropriated, as the gentleman from North Carolina thinks, and I know he thinks it if he says it, we are in disagreement as to that; there is a difference of opinion as to that matter.

Mr. ROBERTSON. P. W. A. started it, and there has been some W. P. A. labor used in improvements in the park as local relief projects and some C. C. C. camps were built. There was an authorization of $10,000,000 to finish the highway between the two parks. This bill provides for the administration of the road when built by an appropriate agency of the Department of the Interior. This bill carries no appropriation or authorization for appropriation.

Mr. SNELL. If this bill is just to provide for maintenance of the road after it is built, why not wait until the road is farther along? It seems to me then would be time enough to pass this authorization.

Mr. ROBERTSON. Jurisdiction over the road must be vested in the proper department.

Mr. DOUGHTON. What would be the use or justification of building a road like this if there is no authority to administer and maintain the road after it is built? I know my good friend from New York would not follow such a policy with his good common sense.

Mr. SNELL. That may be true, but it is a long way between beginning and completing such an immense project as this. The gentleman is looking a long way ahead.

Mr. DEMPSEY. Mr. Speaker, will the gentleman yield?

Mr. DOUGHTON. I yield.

Mr. DEMPSEY. Some portions of the road are being used, are they not?

Mr. DOUGHTON. Yes.

Mr. DEMPSEY. It will be a long time before it is all completed?

Mr. DOUGHTON. It will be perhaps 2 years, but a very fine section of the road has been completed and a great many people from Washington and other towns and cities drive out there to avail themselves of it. It is one of the finest recreational areas in the East. The climate is salubrious and the scenic beauty is unsurpassed. It has no parallel in this part of the country.

Mr. DEMPSEY. Is it not true that now two different departments are involved in the administration of the road?

Mr. DOUGHTON. Absolutely.

Mr. DEMPSEY. This bill simply puts the maintenance in the Interior Department.

Mr. DOUGHTON. Yes; that is correct.

If this bill should be defeated, the only difference it would make would be that the money expended for the construction of this great parkway would be wasted until some future time when Congress was wise enough to provide for its maintenance.

Mr. RICH. Mr. Speaker, will the gentleman yield?

Mr. DOUGHTON. I yield.

Mr. RICH. Nobody in this House has higher regard for the gentleman from North Carolina than I. The only thing he has done that did not please me was that awful tax bill we passed last night; but that has nothing to do with this bill.

Mr. DOUGHTON. Not a thing.

Mr. RICH. This involves a roadway between two parks, 477 miles long, at $50,000 a mile. The cost of this parkway will be over $20,000,000. There are now parallel roads down that valley where people can go back and forth from one of these parks to the other, and I cannot see why we should build a parkway at this time. The former bill called for a parkway 800 feet wide, but in this bill it is cut down to 200 feet. I do not know why the change in width.

Mr. DOUGHTON. The right-of-way is 200 feet wide. The State of North Carolina, the State of Virginia, and the State of Tennessee bought this land and deeded it to the Government of the United States in the same way that parks are deeded. There was expended $12,000,000 by the States of Virginia and North Carolina. I do not have the figure for the State of Tennessee for the purchase of this land which was given to the United States Government.

Mr. RICH. But 800 feet was provided in the previous bill.

Mr. DOUGHTON. That was only for an easement whereby they might control the situation so as to conform to the purposes of the project.

Mr. RICH. There are these two great parks. Now, why should the taxpayers of this country be asked to keep up a road 477 miles in length between the park in Virginia and the park in North Carolina, when the people of those two States will get the benefit of it?

Mr. DOUGHTON. Why should the taxpayers keep up the national parks and recreational grounds anywhere?

Mr. RICH. Why put them all down there in Virginia and North Carolina? You have already had the lion's share.

Mr. DOUGHTON. There is only the one.

Mr. RICH. The gentleman has never been up in Pennsylvania. I want him to come up there and see what we have in Pennsylvania. We have the finest scenery in the world, Switzerland included.

Mr. DOUGHTON. It is one of our great assets, which nature has bestowed upon that section. My good friend from Pennsylvania and the people from the other congested districts of this country will get the benefit of this recreational parkway. They will travel up and down this road and get the benefits that will come from it. I invite my friend from Pennsylvania to fall in line with this project rather than endeavor to throw something in its way.

Mr. TAYLOR of Tennessee. Will the gentleman yield?

Mr. DOUGHTON. I yield to the gentleman from Tennessee.

Mr. TAYLOR of Tennessee. This is the same parkway that was formerly known as the Sky Line Highway a year or so ago?

Mr. DOUGHTON. Yes; it has been changed to the Blue Ridge Parkway.

Mr. TAYLOR of Tennessee. Which you North Carolinians took away from us Tennesseeans. Notwithstanding that, I recognize the merit in this bill and I am going to support it, because it connects two of the finest and most picturesque parks in the United States.

Mr. DOUGHTON. We are proud of it, and if Tennessee had been as fair as she is beautiful she would not have opposed North Carolina in the locating of the trail.

Mr. CRAWFORD. Will the gentleman yield?

Mr. DOUGHTON. I yield to the gentleman from Michigan.

Mr. CRAWFORD. Is it not true this bill does nothing in the world but place the entire parkway in the hands of one given governmental agency? That is the whole purpose of the bill?

Mr. DOUGHTON. That is the whole purpose of the bill; yes.

Mr. CRAWFORD. It carries no appropriation?

Mr. DOUGHTON. Not at all.

Mr. KNUTSON. That will come later.

Mr. DOUGHTON. That has been authorized already.

Mr. CRAWFORD. Is it not true there will be inefficiency and much additional cost if we permit this road to be left under the administration of two separate departments of the Government?

Mr. DOUGHTON. Yes; there will be more or less discord and trouble, as there always is when you have two separate agencies of the Government administer any law.

Mr. McCORMACK. Will the gentleman yield?

Mr. DOUGHTON. I yield to the gentleman from Massachusetts.

Mr. McCORMACK. I was interested in the gentleman's remark about Tennessee being the daughter of North Carolina. I wonder if the gentleman could give us a little more information in this respect?

Mr. DOUGHTON. I may say to the gentleman that I would not have time to do that; however, we are very proud of our daughter.

Mr. STEFAN. Will the gentleman yield?

Mr. DOUGHTON. I yield to the gentleman from Nebraska.

Mr. STEFAN. Is it true this road will cost approximately $40,000,000 and that the money is coming out of the regular farm-to-market road fund?

Mr. DOUGHTON. I do not think it will cost anything like $40,000,000.

Mr. STEFAN. Is this designated as a farm-to-market road?

Mr. DOUGHTON. No, not at all; we already have business roads and farm-to-market roads.

My good friend from Pennsylvania asked why we could not utilize the roads that were already constructed. This road is being constructed as a recreational road.

Mr. RICH. Why does not the gentleman offer a bill prohibiting a lot of these trucks from being on the roads?

Mr. DOUGHTON. Why do I not suspend the law of gravitation? I cannot do all of these things like the gentleman from Pennsylvania. I have not the power.

Mr. RICH. The gentleman is the leader, and we try to follow him when he is right.

Mr. DOUGHTON. But the gentleman follows, like Peter, a long way off most of the time.

Mr. STEFAN. Will the gentleman yield? I want to clarify one question.

Mr. DOUGHTON. I am sorry, I have not the time.

Mr. Speaker, I reserve the balance of my time.

Mr. WOLCOTT. Mr. Speaker, I yield myself 7 minutes.

Mr. Speaker, I think this is the most ridiculous undertaking that has ever been presented to the Congress of the United States. We have fought this thing from the time it came out on the Consent Calendar, through the conference report on the Hayden-Cartwright bill, and now it bobs up here under suspension of the rules within a few hours of what we hope to be the adjourning hour of the Seventy-fourth Congress.

If it is true, as the gentleman from North Carolina [Mr. DOUGHTON] has said, that this work is already being done and that 100 miles of this parkway has already been let, then why are we asking the Congress today for an authorization for this purpose?

Mr. DOUGHTON. An authorization?

Mr. WOLCOTT. Or asking that these activities be coordinated under one head. The gentleman knows, and he knows just as well as he knows he is a Member of the Congress of the United States, that not one cent of the $10,000,000 which we authorized under the Hayden-Cartwright Act 2 weeks ago can be used for the carrying out of this fantastic scheme until the House puts its stamp of approval on the bill which he has brought up here today.

This creates a parkway 477 miles long——

Mr. DOUGHTON. Mr. Speaker, will the gentleman yield?

Mr. WOLCOTT. Not just now. I am afraid the gentleman might get personal just as he did the other day.

Mr. DOUGHTON. The gentleman has said that I know certain things.

Mr. WOLCOTT. The gentleman refused to yield to me when I asked him to yield a few moments ago, when the gentleman was making statements derogatory of my efforts to save the people of the Nation $48,000,000.

Mr. DOUGHTON. I hope the gentleman will not misrepresent me.

Mr. WOLCOTT. The gentleman has time and can represent himself.

The gentleman cannot deny the fact that this parkway is 477 miles long and 800 feet wide except where it goes through national-forest lands.

Mr. DOUGHTON. Eight hundred feet wide?

Mr. WOLCOTT. Yes.

Mr. DOUGHTON. The road?

Mr. WOLCOTT. No; not the road, the parkway; and if there is any question——

Mr. JENKINS of Ohio. Mr. Speaker, this is a very important matter, and I make the point of order there is not a quorum present.

The SPEAKER pro tempore (Mr. WARREN). The Chair will count. [After counting.] Two hundred and twenty-seven Members present, a quorum.

Mr. WOLCOTT. And if there is any question about the length and width of this parkway, let me read from the committee report, which states as follows:

> The purpose of the Blue Ridge Parkway is to provide a connecting scenic highway and adjacent roadside recreational area between the Shenandoah National Park in Virginia and the Great Smoky Mountains National Park in North Carolina and Tennessee. The parkway will be 477 miles long and will be located on a right-of-way averaging 800 feet in width—which is being acquired by the States involved and donated to the United States, except where the location is through national-forest areas.

Under the bill, where it goes through national-forest areas, there is a limitation that it shall not exceed 200 feet in width. The distance involved is 477 miles, further than from the city of Washington through New York City——

Mr. MILLARD. And up to Boston.

Mr. WOLCOTT. Yes; on up to Boston.

This is seven-eighths of the distance from the city of Washington to the city of Detroit.

And I charge, and I charge without fear of successful contradiction, that this is a movement to get the Congress of the United States to put its stamp of approval on one of the most colossal steals that has ever been perpetrated upon this House, in that it gives a free highway through Government property connecting these two national parks for the benefit of these States, without any contribution by the States themselves.

The purpose of this act is to give a free highway down through Virginia and North Carolina, and, perhaps, part of Tennessee, without any donation by the States involved.

A companion bill to this is the Natchez Trace bill, which is to be 500 miles long across the State of Mississippi and is to cost $25,000,000.

[Here the gavel fell.]

Mr. WOLCOTT. Mr. Speaker, I yield myself 1 additional minute.

This represents a total of $48,000,000. This is the most visionary thing that has ever been presented to the Congress since the days of Passamaquoddy and the Florida ship canal, and I entreat the House to consider this bill with the same logic and the same reasoning that it considered those two visionary projects.

Mr. JENKINS of Ohio. Mr. Speaker, I make the point of order that there is no quorum present.

The SPEAKER pro tempore. The gentleman from Ohio makes the point of order that there is no quorum present. The Chair will count. [After counting.] One hundred and seventy-two Members present, not a quorum.

Mr. DOUGHTON. Mr. Speaker, I move a call of the House.

The motion was agreed to.

The Clerk called the roll, and the following Members failed to answer to their names:

[Roll No. 131]

Amlie	Duffey, Ohio	Kleberg	Peterson, Fla.
Andrews	Dunn, Miss.	Kniffin	Pettengill
Ayers	Eagle	Kocialkowski	Quinn
Bacharach	Eaton	Lambeth	Reed, N. Y.
Bacon	Ekwall	Lanham	Reilly

Dirksen	Jones	Palmisano	Wolfenden
Ditter	Kee	Parks	Wood
Doutrich	Kennedy, Md.	Patton	Zioncheck
Drewry			

The SPEAKER pro tempore. Three hundred and two Members have answered to their names, a quorum.

Mr. DOUGHTON. Mr. Speaker, I move to dispense with further proceedings under the call.

The motion was agreed to.

The SPEAKER pro tempore. The House will be in order. The Chair makes an earnest appeal to the membership of the House. The Chair has just been informed by the Speaker of the House that final adjournment of this Congress may take place early tonight, provided the membership of the House will cooperate in dispatching certain business that is necessary to be considered. Unless the membership desires to remain on the floor so as to avoid constant points of no quorum being raised, it is going to be impossible for the House to dispose of this business. Many Members here have meritorious measures that are entitled to final consideration. If they are considered, the House has the privilege of voting them down. The Chair, therefore, urges Members to stay on the floor and maintain a quorum during the rest of the afternoon.

Mr. WOLCOTT. Mr. Speaker, I yield 5 minutes to the gentleman from New York [Mr. TABER].

Mr. TABER. Mr. Speaker, according to my understanding the P. W. A. or something of that kind made an allotment to start the construction of this highway free of cost to the States of Virginia and North Carolina, between two parks, the Shenandoah and the Great Smokies. That allotment, according to the gentleman from North Carolina [Mr. DOUGHTON] has been made and over 100 miles of road contracted for. The gentleman from North Carolina wondered why anyone could possibly oppose this bill even if they opposed the other bill. I say to the gentleman and I say to the House that if the Government of the United States came up into my State and voluntarily spent $30,000,000 or forty or fifty million dollars upon a highway for us, we ourselves would be very glad to maintain it and we would not ask the Federal Government to do it. Is not that a fair statement and is not that a fair proposition? Federal maintenance of this highway will cost four or five times as much as State maintenance.

Mr. ROBERTSON. Mr. Speaker, will the gentleman yield?

Mr. TABER. Yes.

Mr. ROBERTSON. Does the gentleman maintain the roads in the national parks in New York State?

Mr. TABER. There are no national parks in New York State.

Mr. ROBERTSON. The people of New York State maintain the national parks in the national forests in New York State?

Mr. TABER. We have not any national forests.

Mr. ROBERTSON. No national forests?

Mr. TABER. No.

Mr. ROBERTSON. None at all?

Mr. TABER. No. That is a terrible situation, is it not?

Mr. MILLARD. Does not the gentleman feel that we should spend some Federal money in New York State and not so much in the South?

Mr. TABER. Oh, the State of New York went into this forest business and we found it was a failure, and based on that failure the present administration has proceeded along lines in that direction. They have to have a proposition develop into a failure before they go into it. That is the history of the present administration, that is their record. There is not anything more ridiculous than these States coming here today and asking the Federal Government to undertake to maintain these highways forever at a cost of four or five times what it costs the States themselves to maintain them. I thought it was going a very long way, because nothing of that kind is ever done in any of the States whose operations I am familiar with, for the Congress the other day to pass that highway bill with a provision for authorization and for an appropriation. Frankly I think it was an absolute infringement upon any principle of State integrity. We can have no such thing as State integrity unless the States take care of their own activities, and we can have no such thing unless we stop this ridiculous Federal spending.

Mr. WOLCOTT. Mr. Speaker, I yield 5 minutes to the gentleman from New York [Mr. LORD].

Mr. LORD. Mr. Speaker, this bill provides for a connection between parks or parkways some 477 miles in length in the States of Virginia and North Carolina. There is also the Natchez Trace, which does not seem to be mentioned in this, but will come in, too, in the States of Mississippi, Alabama, and Louisiana, amounting to something over 500 miles, a total of 1,000 miles in all. This has been started by the Public Works Administration, and now they come to us this year and ask for an appropriation of $20,000,000 from the highway funds to carry this work on.

This right-of-way is to be 200 feet wide through the parks, 800 feet wide through the other part of the States. The States are to furnish the right-of-way where they have control over the 800 feet. The Government is asked to build this road in its entirety, and now you are trying to pass legislation for Government maintenance. In our State counties furnish the right-of-way for all roads. State roads are constructed at State expense. County roads are paid for by counties.

We furnish the maintenance entirely ourselves, but here we are asked not only to furnish Federal funds for construction of the parkways, but we are also asked to furnish the maintenance after they are constructed. There will be 1,000 miles of parkway that all of the States must contribute for these four or five States, and furnish the maintenance. As we have constructed highways in the past, this does not seem fair to me. This does not seem a fair proposition. Our Committee on Highways in the House turned down this proposition unanimously. There was another proposition to give money to Arkansas for their highways without having it matched by them, something that is not done with any other State in the Union; yet we are giving to that one State their quota of highway money without their matching it. These are propositions that were turned down by our committee.

This bill to furnish the right-of-way and furnish the money for this road was turned down flat by our committee, but when it went to the Senate it was put back in and they overruled us in conference. This is starting a precedent for those States that all the rest must pay for. In the past our highway moneys have been fairly distributed between States on an area, population, and mileage basis, and it should continue that way. We are going into a new form now.

We are furnishing for the few States the entire amount of money to build their roads, and then we furnish the entire amount of money to maintain them after they are constructed. If we are to build these roads, certainly the States ought to maintain them. They should not ask the Federal Government to do it. If this legislation is not passed, the Park Commission will have to take care of those roads that are in the park, and those that are outside the park the States will take care of.

This superhighway will cost at least $100,000,000, and all for five States. While all of the States will have to contribute to the expense, New York State will pay 30 percent of the cost and get no return.

We have thousands of miles of farmers' roads throughout the States that need constructing, and what it will cost to construct this road would construct a farm-to-market road such as we construct in New York State once and one-half around the world.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. DOUGHTON. Mr. Speaker, I yield the remainder of my time to the gentleman from Virginia [Mr. ROBERTSON].

Mr. ROBERTSON. Mr. Speaker, it has been a source of satisfaction to me during my service in the House that very seldom is a sectional issue raised when a matter of legislation is under consideration. I am glad that to most of the Members of this House the stars in the flag that hangs above the Speaker symbolizes to them, as to me, 48 united States. with a united Nation.

My colleague from Michigan says that Virginia and North Carolina are trying to get something free. He is the legislative ambassador for his Michigan automobiles. We sell our cotton abroad. We sell our tobacco and apples abroad. We buy your Michigan automobiles. If the South stopped buying your automobiles, your factories would close and your men would be out of employment.

You say this costs $48,000,000 and we are trying to get something free. I tell you that the average cost so far has been about $30,000 a mile; and, if you will multiply 477 by 300, you will find it is less than $18,000,000.

This bill does not involve any appropriation. Construction will go forward whether we pass this bill or not. We are not trying to get something free. The distinguished economist from New York knows how Virginia and North Carolina contribute to the Federal Treasury. We are no longer paupers. We are in the first seven States of the Nation in contributing to the Federal Treasury.

I call attention again to the gentleman from Michigan that the Manufacturers Record shows that in the last year, in the balance of trade between the North and the South, we, shipping our goods abroad and buying from the North, you had $1,000,000,000 of advantage in trade relations; yet you tell us that we want to get something free when we want this park for you, for our friends from every State to come and enjoy.

The SPEAKER pro tempore. The time of the gentleman from Virginia has expired. All time has expired.

Mr. WOLCOTT. Mr. Speaker, I understand I have 2 minutes remaining.

The SPEAKER pro tempore. The Chair distinctly asked the gentleman if he desired to use the remainder of his time. The gentleman from Michigan knows that the gentleman who moves to suspend the rules, under the uniform practice of the House, has a right to close the debate.

Mr. WOLCOTT. The uniform practice of the House and possibly the rules may conflict in this particular instance, due to the fact that the rules provide there may be 40 minutes' debate, equally divided between those in favor of and those opposing the motion. I have not used my 20 minutes.

The SPEAKER pro tempore. The Chair, on his own initiative, contrary to the rules of the House, is going to recognize the gentleman from Michigan for 2 minutes.

Mr. WOLCOTT. Mr. Speaker, I will try to be as courteous in the use of the 2 minutes as the Chair was in granting them to me.

I want to assure the gentlemen from Virginia and North Carolina that there is nothing sectional in this bill. We want you to use our automobiles and we want to buy your cotton, but we want you to build your highways on the same basis that the State of Michigan, the State of New York, or any other State in this Nation has to build their highways. We do not object to giving you, as you do not object to giving us, a Federal grant if you will match the money. We can construct our highways. We, in every other State of this Nation, object to the States of Virginia and North Carolina getting a highway for nothing that they would have to pay for otherwise. There is nothing more to this bill, as I have said than to give these two States 477 miles of highway without a cent of cost to those States. Now, is this in accordance with the spirit of the highway act?

Mr. ROBERTSON. Mr. Speaker, will the gentleman yield?

Mr. WOLCOTT. I am sorry; I have not time to yield.

The SPEAKER pro tempore. All time has expired.

The question is on the motion to suspend the rules and pass the bill.

The question was taken; and on a division (demanded by Mr. SNELL) there were—ayes 123, noes 47.

Mr. SNELL. Mr. Speaker, I make the point of order that a quorum is not present and object to the vote on the ground that a quorum is not present.

The SPEAKER pro tempore. The Chair will count. [After counting.] Two hundred and twenty-one Members are present, a quorum.

Mr. SNELL. Mr. Speaker, I ask for the yeas and nays on the passage of the bill.

The yeas and nays were ordered.

The question was taken; and there were—yeas 175, nays 125, not voting 124, as follows:

[Roll No. 132]

The SPEAKER. The Clerk will call my name.

The Clerk called the name of Mr. BANKHEAD, and he voted "yea."

So (two-thirds not having voted in favor thereof) the motion was rejected.

The Clerk announced the following additional pairs:

On the vote:

Mr. Drewry and Mr. Montague (for) with Mr. Gilchrist (against).

Mr. Monaghan and Mr. Weaver (for) with Mr. Reed of New York (against).

Mr. Woodrum and Mr. Bulwinkle (for) with Mr. Ditter (against).

Until further notice:

Mr. Corning with Mr. Martin of Massachusetts.
Mr. Dies with Mr. Bacharach.
Mr. Fernandez with Mr. Dirksen.
Mr. Maverick with Mr. Gifford.
Mr. Taylor of Colorado with Mr. McLeod.
Mr. Sears with Mr. Tobey.
Mr. Maloney with Mr. Bolton.
Mr. Green with Mr. Eaton.
Mr. Lanham with Mr. Hess.
Mr. Gavagan with Mr. Bacon.
Mr. Wilcox with Mr. Reece.
Mr. McFarlane with Mr. Wadsworth.
Mr. Nelson with Mr. Robsion of Kentucky.
Mr. McClellan with Mr. Andrews.
Mrs. Norton with Mr. Brewster.
Mr. Kleberg with Mr. Doutrich.
Mr. Boykin with Mr. Hollister.
Mr. Gasque with Mr. Burnham.
Mr. Greenwood with Mr. Englebright.
Mr. Kennedy of Maryland with Mr. Knutson.
Mr. Granfield with Mr. Powers.
Mr. Celler with Mr. Wilson of Pennsylvania.
Mr. Dockweiler with Mr. Cavicchia.
Mr. Fitzpatrick with Mr. Turpin.
Mr. Nichols with Mr. Wolfenden.
Mr. Hobbs with Mr. Collins.
Mr. Larrabee with Mr. Burdick.
Mr. Schuetz with Mr. Amlie.
Mr. Pettengill with Mr. Sauthoff.
Mr. Taylor of South Carolina with Mr. Withrow.
Mr. Wood with Mr. Schneider of Wisconsin.

Mr. Ferguson with Mr. Dobbins.
Mr. Sullivan with Mr. McGroarty.
Mr. Dear with Mr. Lee of Oklahoma.
Mr. Tolan with Mr. Sumners of Texas.
Mr. Kee with Mr. Claiborne.
Mr. Secrest with Mr. Quinn.
Mr. Caldwell with Mr. Gassaway.
Mr. O'Malley with Mr. Scrugham.
Mr. Lesinski with Mr. Deen.
Mr. Owen with Mr. Haines.
Mr. Buck with Mr. Peterson of Florida.
Mr. Hook with Mr. Creal.
Mr. Sandlin with Mr. Lewis of Maryland.
Mr. Imhoff with Mr. Carmichael.
Mr. Buckley of New York with Mr. Mitchell of Illinois.
Mr. Peyser with Mr. Sadowski.
Mr. Cannon of Wisconsin with Mr. McGrath.
Mr. Kocialkowski with Mr. Jacobsen.
Mr. Knute Hill with Mr. Hamlin.
Mr. Ayers with Mr. Fiesinger.
Mr. Berlin with Mr. Parks.
Mrs. Greenway with Mr. Brooks.
Mr. Eagle with Mr. Duffey of Ohio.
Mr. Brennan with Mr. Cummings.
Mr. Montet with Mr. Dunn of Mississippi.

Mr. HART, Mr. DICKSTEIN, and Mr. GRISWOLD changed their vote from "nay" to "yea."

Mr. KNUTSON. Mr. Speaker, I vote "yea."

The SPEAKER. Does the gentleman qualify?

Mr. KNUTSON. I think I do.

The SPEAKER. Was the gentleman present and listening?

Mr. KNUTSON. I was present part of the time.

The SPEAKER. The gentleman does not qualify.

The result of the vote was announced as above recorded.

GOLD STAR MOTHERS' DAY

Mr. PFEIFER. Mr. Speaker, I ask unanimous consent for the immediate consideration of Senate Joint Resolution 115, designating the last Sunday in September as "Gold Star Mother's Day", and for other purposes.

Mr. SNELL. Mr. Speaker, reserving the right to object, will the gentleman explain the bill? Does this mean another holiday?

Mr. PFEIFER. No; it simply designates a day to be set aside in which the Gold Star Mothers of America can be recognized. This bill has already passed the Senate and a similar bill was introduced in the House by the late Honorable Stephen A. Rudd and is pending before the Committee on the Judiciary.

Mr. MEAD. Mr. Speaker, will the gentleman yield?

Mr. PFEIFER. I yield.

Mr. MEAD. It is merely a proclamation that calls for the use of the flag and other display methods in honor of the Gold Star Mothers.

Mr. PFEIFER. Yes.

Mr. SNELL. Has this bill been reported out by the Committee on the Judiciary?

Mr. PFEIFER. It is pending in the committee.

Mr. SNELL. It never has been reported out?

Mr. PFEIFER. Not yet.

Mr. BOYLAN. If the gentleman will yield, the bill does not carry any appropriation.

Mr. SNELL. Then, tell us just what it does. There are a lot of whereases in the resolution.

Mr. BOYLAN. Mr. Speaker, will the gentleman yield?

Mr. SNELL. I yield.

Mr. BOYLAN. I may say to the gentleman from New York that this is the outgrowth of a bill we passed providing for the trip by Gold Star Mothers to visit the graves of their sons buried in France, which bill was introduced by the late Representative O'Connell from New York. That has been followed up by this beautiful idea. No appropriation is involved. It merely authorizes the President to designate the last Sunday in September as a date to be observed in honor of the Gold Star Mothers.

Mr. SNELL. We do not need all these whereases in the resolution.

Mr. BOYLAN. They are there just to dress it up; the gentleman understands.

Mr. SNELL. I understand.

Mr. BOYLAN. The gentleman was chairman of the great convention in Cleveland and has handled many whereases.

Mr. SNELL. I did not have them in resolutions, though.

Mr. CONNERY. Mr. Speaker, will the gentleman yield?

Mr. SNELL. I yield.

Mr. CONNERY. This bill was introduced by the late Congressman O'Connell.

Mr. BOYLAN. It was; it was his thought.

Mr. SNELL. I think the bill should be amended to strike out all these whereases.

The SPEAKER. Is there objection to the consideration of the joint resolution?

There being no objection, the Clerk read the joint resolution, as follows:

Joint resolution designating the last Sunday in September as "Gold Star Mothers' Day", and for other purposes

Whereas the service rendered the United States by the American mother is the greatest source of the country's strength and inspiration; and

Whereas we honor ourselves and the mothers of America when we revere and give emphasis to the home as the fountainhead of the state; and

Whereas the American mother is doing so much for the home and for the moral and spiritual uplift of the people of the United States and hence so much for good government and humanity; and

Whereas the American Gold Star Mothers suffered the supreme sacrifice of motherhood in the loss of their sons and daughters in the World War: Therefore be it

Resolved, etc., That the President of the United States is hereby authorized and requested to issue a proclamation calling upon the Government officials to display the United States flag on all Government buildings, and the people of the United States to display the flag and to hold appropriate meetings at their homes, churches, or other suitable places, on the last Sunday in September, as a public expression of the love, sorrow, and reverence of the people of the United States for the American Gold Star Mothers.

SEC. 2. That the last Sunday in September shall hereafter be designated and known as "Gold Star Mothers' Day", and it shall be the duty of the President to request its observance as provided for in this resolution.

The joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL ARCHIVES OF UNITED STATES GOVERNMENT

Mr. BLOOM. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (H. R. 12410) to amend section 8 of the act entitled "An act to establish a National Archives of the United States Government, and for other purposes."

The SPEAKER. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That section 8 of the act entitled "An act to establish a National Archives of the United States Government, and for other purposes", approved June 19, 1934 (48 Stat. 1123; U. S. C., title 40, ch. 2A, sec. 238) be, and the same is hereby, amended to read as follows:

"The National Archives shall have an official seal, which shall be judicially noticed.

"The Archivist of the United States may furnish authenticated or unauthenticated copies or reproductions of any of the archives or records in his custody that are not exempt from examination as confidential; of any film or sound record made by The National Archives; and of any film or sound record donated to The National Archives that is not protected by a subsisting copyright, and may charge therefor a fee sufficient to cover the cost or expenses thereof. There shall be no charge for the making or authentication of copies or reproductions furnished to any department or other agency of the Government for official use. When any copy or reproduction furnished under the terms hereof is authenticated by the official seal of The National Archives and certified by the Archivist of the United States, or in his name attested by the head of any office or the chief of any division of The National Archives designated by the Archivist with such authority, it shall be admitted in evidence equally with the original from which it was made."

With the following committee amendments:

Page 2, beginning in line 1, strike out all down to and including line 9, and insert:

"The Archivist of the United States may make or reproduce and furnish authenticated or unauthenticated copies of any of the documentary, photographic, or other archives or records in his custody that are not exempt from examination as confidential or protected by subsisting copyrights, and may charge therefor a fee sufficient to cover the cost or expense thereof. There shall be no charge for the making or."

Page 2, line 10, insert the word "such" after the words "authentication of."

Page 2, line 12, insert the word "such" after the words "when in."

The committee amendments were agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

PERMISSION TO ADDRESS THE HOUSE

Mr. SABATH. Mr. Speaker, I ask unanimous consent to address the House for 10 minutes in connection with a report I have filed.

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

Mr. SNELL. Mr. Speaker, reserving the right to object, does the gentleman mean he wishes to address the House at the present time?

Mr. SABATH. Yes.

Mr. SNELL. Mr. Speaker, I think we ought to clean up the business first, although I am not going to object to the gentleman's request.

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. SABATH. Mr. Speaker, ladies and gentlemen of the House, yesterday I filed a supplemental report of a select committee of the House, and by this evening copies should be ready for distribution to the Members. The report contains 120 pages. Your committee sought to hold the report down to as few pages as possible, but to even bring it down to its present size required the elimination of many important facts and much information which I had hoped to place before you at this time. The open hearings conducted by this committee consumed over 6,000 pages, and those hearings, which were not public, will total over 10,000 pages.

For nearly 2 years now our committee has worked to bring about the elimination of the abuses and the greatest evil now existing in the United States. These evils are even found to extend to the courts. They have cost investors from fifteen to twenty billion dollars and over 5,000,000 people are directly interested.

The committee has made strenuous efforts to secure favorable legislation to remedy this situation, but the bill was reported at too late a date, as I have pointed out, and it now appears impossible to have it enacted this session. The Judiciary Committee reported the bill unanimously.

Mr. WALTER. Will the gentleman yield?

Mr. SABATH. I yield to the gentleman from Pennsylvania.

Mr. WALTER. If the gentleman has been informed the Judiciary Committee reported the bill unanimously, he has been misinformed. I may say the bill was passed by the committee with a bare majority of 1.

Mr. SABATH. I was informed the bill was reported unanimously. No minority report has been filed on the bill. I have talked to nearly all of the Members and each of them indicated he had voted in favor of the bill.

Mr. Speaker, this bill will eliminate the abuses which exist under the fee system of our courts. The demand for relief is Nation-wide. I realize that the attorneys for the receivers and trustees of these committees and the beneficiaries that are bound to reap millions and millions of dollars, and who will eventually obtain possession, control, and ownership of the best structures and the best buildings in the United States, do not desire this legislation. Oh, yes; their lobbying has been intense and very bitter.

In desperation, in view of the fact that I saw no chance of the legislation being passed at this late hour, I introduced a resolution asking for an additional small appropriation. I admit that the committee has received $115,000, but I say that every dollar has been expended in the interest of these unfortunate millions of people. Not a dollar has been wasted. I have worked for 2 long years with this committee. We have had many lawyers, many accountants, and many examiners aiding the committee, a large majority of whom served without compensation. Our work has been lauded by nearly every newspaper in the country. It has been approved of by magazines and the various legal papers, such as the legal bulletins and law journals of Yale, Harvard, Columbia, and other colleges. Our work has been endorsed by real-estate boards and by various other organizations.

I repeat, the only ones who oppose our investigations and this legislation are the few sharpers and the few crooks who desire to reap great benefit and profit at the expense of unfortunate men and women, widows, and orphans. I say it is an outrage and shame that this legislation should not have been reported before, so that action could have been had.

I know that some members of the Accounts Committee, including its chairman, are opposed to an additional appropriation being granted, and some Members have said that we should not ask for one. I had hoped we would not be obliged to do so. Rather, I wished that the work could have been concluded; and if this bill had been passed, as we anticipated, we would not have made this request. I regret that the chairman of the Accounts Committee has not seen fit to grant our request for an additional appropriation.

Our request, remember, is made on behalf of millions of stricken people, on behalf of justice and righteousness. For every dollar this committee has expended there has been at least three to five dollars brought into the Treasury of the United States from income taxes that would not have otherwise been collected. [Applause.]

I am not going to take advantage of the fact that I now have the floor to move to suspend the rules, because I do not act that way. But I appeal to the House, and I appeal to the chairman of the Committee on Accounts, and to the members of that committee, and ask that they appropriate a small additional sum so that we can go on with this work.

There is one thing I want to bring out at this time. Let it not be thought that if the additional appropriation we now request is not granted the committee will cease to function. The committee has the promise of many attorneys, accountants, and others, to continue the investigations without compensation. They feel, as the committee does, that it is a patriotic duty. Our work will continue, our investigations will go on, until such time as legislation along the lines of the committee's resolution, H. R. 12064, is enacted. [Applause.]

In addition to what I have said, may I present at this point a résumé, including excerpts from reports and articles showing the need for remedial legislation, which I believe will be enlightening.

The many abuses and evils which have been and are now prevalent in the administration of Federal receivership and bankruptcy proceedings are not all of recent origin. Nearly 30 years ago I introduced a resolution to investigate bankruptcy and receivership proceedings and the bankruptcy rings then existent. I recollect that shortly thereafter Judge Peter Grosscup, of Chicago, who appointed his clerk as receiver in most of the bankruptcy proceedings before him, allowed one John M. Harlan, a practicing attorney, a $200,000 fee as adviser, to which I called attention and which brought about his resignation.

The Bankruptcy Act of 1898 was amended from time to time. Many amendments were introduced to eliminate vicious bankruptcy and receivership rings, but only a few have been enacted. A probable reason for the failure to enact this much-needed legislation in the past is doubtless due to the era of prosperity this country enjoyed, during which period bankruptcy and foreclosure proceedings were reduced to a minimum. However, when financial readjustment became necessary in 1920 and 1921, bankruptcy and receivership proceedings began increasing in volume, with attendant evils.

I called attention to these conditions to the then Attorney General, the Honorable William D. Mitchell, who caused an investigation to be made. Shortly thereafter, the State of New York ordered an investigation which was made by Col. William J. Donovan, and due to the general crash in 1929, and even before that time, hundreds upon hundreds of real estate and other bond issues began to default, and abuses increased so that the district judges of the southern district of New York ordered another investigation. The Irving Trust Co. was recommended as official receiver in all

bankruptcy and Federal receivership proceedings, giving to that company and its own attorneys monopoly over the thousands of equity receiverships and bankruptcy proceedings. To this monopoly, there was a general complaint by the New York bar. A resolution was introduced in this House by the gentleman from New York, [Mr. CELLER], to investigate these newly developed vicious practices and upon the recommendation of the Rules Committee of the House, the Judiciary Committee made it general. The passage of this resolution and the investigation thereunder brought about a change in the conditions in the southern district of New York.

About the same time very serious charges were made against conditions in Chicago, and the Subcommittee of the Judiciary, upon a complaint from the bar association, investigated conditions there. In the original report of that subcommittee it pointed out many outrageous practices, and I wish that each and every Member of this House had the opportunity to obtain and study their report, which brought about the enactment of article VIII of the Bankruptcy Act. This article includes sections 74 and 77B, with which we are presently concerned.

The enactment of sections 74 and 77B, unfortunately, did not stop, as was intended, the deplorable activities and abuses. New and additional evils arose as a result of the passage of section 77B, partly being due to the failure to limit the allowances of fees to receivers, trustees, committees, and other similar groups as otherwise provided in the Bankruptcy Act. Unheard of increases in foreclosure proceedings were commenced, many of which were collusive, unnecessary, and primarily for the purpose of giving the former houses of issue and their self-appointed committees control and possession of these properties, to the misfortune and loss of bondholders and security holders.

Investigations were ordered by the various States that attempted to enact legislation to prevent and eliminate and correct these evils, but it is conceded that the States are unable to cope with this Nation-wide situation.

Upon a petition signed by over 500,000 bondholders requesting relief, this House appointed a select committee to investigate these deplorable conditions for the purpose of recommending legislation that would put a stop to this wholesale fraud and collusion against the millions of investors, who did not look for enrichment in investing their money but sought and wanted a safe investment for the protection of themselves and their families. Now, who are these people? They are the most deserving and frugal citizens of America, who, upon the recommendations of their bankers, probate courts, and so forth, invested their all in these securities.

Yes; they included the benevolent, fraternal, and labor organizations, many of whom invested not only their capital but their reserves as well in these bonds. There are over 5,000,000 individuals, to say nothing of the hundreds of thousands of members of these organizations which I have mentioned, who have appealed to Congress for relief as they became helpless against the racket of the so-called protective committee, committees organized by unscrupulous houses of issue with the aid of many of the outstanding trust, guaranty mortgage, and investment companies, who appointed their own clerks or members to serve on these committees, none of whom had a penny of their own invested, and adding a few outstanding names for "window dressing" purposes so as to inveigle the early deposit of bonds with them. Instead of these committees being protective committess, in the majority of cases they might properly be designated as "racketeering" committees, as no sooner had they obtained these bonds from the unfortunate and uninformed investors, in most cases their bonds were used as collateral security for loans from their own bankers for the purpose of defraying their own expenses, such as the costly propaganda for the solicitation of bonds, lawyers' fees, appraisal fees, trustees' fees, and many other fees. In fact, in some instances nine different fees were being charged to bondholders. In many instances these committees failed and refused to make any report to bondholders for 2, 3, and 4 years. The reports they finally did make were of such a nature as to deliberately discourage the unfortunate bondholders and to destroy their last vestige of hope and confidence in their investments.

Through various manipulations and agencies and devices, many of these protective committees, directly or indirectly, obtained and acquired the bonds at the outrageously low prices of 3, 4, and 5 cents on the dollar. In many instances, where the committees made loans against the bonds in lieu of distributing any dividend or making any payment whatsoever to the bondholders, they frequently would receive a notification or certification that the bonds were worthless and had been cremated, there being an amount realized sufficient only to pay their own self-imposed and arbitrarily high fees and expenses. Please remember that many of these bonds were against some of the finest and best properties in the United States, many of which were almost fully occupied, and there could and should have been some reasonable interest paid to the stockholders, but instead of using the revenue to aid these unfortunate bondholders the money was used for committee and lawyers' fees and charges. Taxes remained unpaid, and yet not a single cent was paid to the bondholders. Even in cases where loans were made by the Reconstruction Finance Corporation, the money, in the majority of cases, was used for similar purposes.

Our committee within a few months was able to penetrate at least some of these many collusions and ramifications. We found most of these committees, as stated before, were designated and controlled by the bankers, mortgage companies, trust companies, guaranty companies, houses of issue, and their law firms. This committee found that the bondholders were utterly helpless; they were unable to obtain the list of other bondholders, and they themselves were not in a position to combat these shrewd and conniving committees and their influential attorneys.

Even the courts were helpless, as under section 77B the judges themselves were not in a position to investigate or penetrate or analyze these reports filed by the thieving committees and their attorneys and they were dependent upon, and had to rely upon, the fraudulent, conniving and collusive reports, so that many sales of properties were approved by courts where less than one-fifth of their actual value was realized. Yes; in some instances, one-twentieth of their true value or from 4 to 5 cents on the dollar, based on appraisals made by the very houses of issue, as indicated in their prospectus when offering these bonds for sale.

To bring to light and arouse public opinion, our committee held hearings in Chicago, New York, Detroit, Milwaukee, St. Louis, San Francisco, Los Angeles, Miami, Boston, Washington, and, a few weeks ago, in Philadelphia. In some of these cities a great deal of publicity was given to the evidence and the frauds that have been practiced on the public.

It is unfortunate that the bar associations and the outstanding members of the bar have not seen fit to aid or cooperate with the committee. However, the committee has obtained the cooperation of many splendid, able, and unselfish lawyers and accountants to aid it in its tremendous task to bring to light the existing unbelievable conditions.

I actually believe that if all the evidence were brought home to the American people, the confidence in our courts, reputed bankers and banking and investment institutions, and leaders of the bar would be shattered.

The bill which our committee has agreed upon creates a conservator, with deputy conservators in each judicial district. It will eliminate excessive fees. It will protect the security holders without cost to the Government, and will not permit of unconscionable sales and/or plans of reorganizations to be perpetrated. In my last speech I called attention to a few companies and committees, such as the Chicago Title & Trust Co., the Roosevelt Committee, the Straus Committee, the Pounds Committee, the Fisk Tire Co., and so forth. Many others will be cited in our final report.

Our committee endeavored to obtain action before the Banking and Currency Committee in the last Congress and the first session of this Congress, but in order to eliminate any constitutional question we have redrafted the bill as an

amendment to the National Bankruptcy Act so that the bill could be referred to the Judiciary Committee, which is familiar with the abuses, in the hope that the Judiciary Committee would give early and favorable consideration to our bill. Unfortunately, although we urgently appealed in the matter, the bill was not acted upon until Wednesday, June 3.

ABUSES IN REORGANIZATION AND RECEIVERSHIP PROCEEDINGS AND NECESSITY FOR REMEDIAL LEGISLATION

To show some of these abuses arising from receivership proceedings and the necessity for remedial legislation, we quote from a report by the subcommittee of the Committee on the Judiciary of the House of Representatives investigating receiverships and bankruptcies, appointed pursuant to House resolution of June 12, 1933, which held hearings at Chicago during week ended March 23, 1934:

Not knowing how far-reaching or widespread conditions similar to that exposed in Chicago may prevail in the United States, we hesitate at this time to recommend legislation to take care of all of the evils apparent in the northern district of Illinois, but we do feel that we should recommend at least the following for the consideration of the committee:

If the receiver and trustee of a bankruptcy estate are one and the same person, the amount of fees at present allowed by the Bankruptcy Act for both services should be reduced in some manner, because at the present time it results in the payment of duplicate fees for practically the same services, or they may even result in a dissipation of the assets of the estate. It is recommended that the question of the appointment of permanent receivers, to be paid a definite salary with the authority in the court to appoint special receivers in cases where special ability or experience is necessary, the basis of compensation for the same could be determined by the court at the time of the appointment, be seriously considered. If legislation can be enacted to this end, it would result in the saving throughout the country of many millions of dollars every year to the creditors of bankrupt estates, in the saving of costs and expenses in the administration of such estates.

The line of demarcation in these cases between what constitutes collusion and what is merely perfectly proper friendly relationship in order to conserve the debtor's interest is very fine and hard to determine, but the practice is so open to evils that in cases of this character the court should scrutinize very closely the arrangement and be assured that there is absolutely no element indicating collusion in any form at all. Of course, this evil would be remedied were there permanent receivers and were the court to guard carefully the selection of any special assistant receiver. Then, too, it appears to us that in some of these cases this conservation receivership procedure was followed in order to avoid receiverships in the State court.

In all of these cases it is the solemn duty of the court to see that the interests of the creditors are thoroughly safeguarded. That duty should extend to a careful scrutiny of the original arrangement by which the matter is brought within the jurisdiction of the court and a real determination of the fact of the necessity of seeking the jurisdiction of the court. It should extend to the selection of a receiver or a trustee or attorney not based upon any custom in the district and not based upon a friendship or any other influence of a like character. It should be based entirely upon the character and the ability of the person so selected in order that the estate may be most efficiently administered for the benefit of the creditors. That duty should then extend beyond that—it should be the duty of the court to carefully scrutinize the manner of the administration of the estate and not merely to perfunctorily sign orders upon application of the receiver. And, lastly, it certainly is the duty of the court to determine what is proper compensation in matters of this kind, having in view not his friendship for the receiver or the attorney but rather his duty to see that the creditors realize as much as possible from the assets of the estate.

Our investigation discloses a condition in Chicago that amounts to almost criminal negligence in the failure on the part of the courts to properly conserve the property in litigation and in some instances an apparent willing assent to the plundering and sacking of the estate committed to the care and custody of the court, because in many of these cases apparently the whole arrangement was simply to use up the assets in the payment of receiver and attorney fees, with an absolutely utter disregard for the rights of the creditors. Receivers are the trustees of a sacred trust and are called the arm of the court and the attorneys acting for the receivers occupy a position of equal trust. The services of the receiver and of the receiver's attorney should be used to conserve the estate and should not be used to enrich themselves beyond proper compensation.

Your committee feels that any judge that permits such a practice violates the trust which has been imposed on him by the Government and the people and that it is because of this fact that so many of our courts have been brought into disrepute.

During the last 5 years more than $4,000,000,000 have been lost to creditors throughout the United States in bankruptcy and receivership matters. If, by reason of legislation which the Congress might enact, correcting the present-day evils in our bankruptcy and Federal receivership practice, this loss to creditors could be materially reduced, it will be seen what a wonderful work the Congress will have done; and this can be done. Equity receiverships and bankruptcy matters have degenerated into nothing more or less than a pure, simple racket which should be stopped by congressional legislation and congressional action.

OPINIONS OF JUDGES REGARDING FEES

A brief review of a few of the opinions as recently expressed by Federal courts on this subject may prove of interest.

United States District Judge Caffey, southern district of New York, in the matter of the New Rochelle Coal & Lumber Co., debtor (28 Am. B. Reports, 209), held:

It is the duty of the court to keep expenses to the debtor or to a debtor's estate carefully within rather narrow limits.

United States District Judge Nields, district of Delaware, in the matter of National Department Stores, Inc., debtor (11 F. Supp. 633), in an opinion filed July 1, 1935, said:

The court is not without instruction in making allowances. Last April the Supreme Court declared:

"Extravagant costs of administration in the winding up of estates in bankruptcy have been denounced as crying evils."

Recently our own circuit court of appeals adopted language of the Supreme Court:

"We were desirous of making it clear by your action that the judges of the courts, in fixing allowances for services to court officers, should be most careful, and that vicarious generosity in such a matter could receive no countenance."

The circuit court of appeals followed with the words:

"This warning of the Supreme Court against 'vicarious generosity' has also been sounded by other Federal courts."

Formerly the idea prevailed that attorneys were entitled to greater compensation when employed in a receivership or bankruptcy case than when serving private interest. In reality, receivers and attorneys are officers of the court. As public servants, their compensation should never be as large as the compensation of those engaged in private employment. By such considerations debtors may be relieved and creditors and stockholders served.

Where numerous persons participate in rendering one service susceptible of being rendered by one person needless duplication results, which should not form the basis of compensation.

United States District Judge Hamilton, in re Kentucky Power Corporation (11 Fed. Supp. 528), in an opinion rendered August 12, 1935, in part, said:

Exorbitant fees cause the people to set up bureaus in the executive branch of the Government to pass on their rights and to formally approve and supervise corporate reorganizations and the issue of securities. Much is said by members of the legal profession about bureaucracy and the intrusion of the executive branch of the Government into the judicial fields. If the courts were more prompt in disposing of matters brought before them, and attorneys were less eager to receive exorbitant fees, the cry against bureaucracy would not be so blatant and the legislatures would not be so often importuned by members of the bar to pass acts defining the practice of law and prohibiting the laymen from invading the legal field.

The exorbitant fees allowed by courts to lawyers and excessive allowances to receivers in the Federal courts have so aroused litigants as to cause the Congress to appoint a committee to investigate the courts of the land. Section 77B provides a simple and convenient method for the reorganization of financially distressed corporations. The salutary benefit of this act will be destroyed, and it will become a disused statute, unless the judges of the Federal courts carefully scrutinize the claims of attorneys and committees for allowances for services and allow only reasonable fees based on services rendered.

In the matter of the Paramount-Publix Corporation, Judge Coxe, United States district judge for the Southern District of New York, in an opinion rendered October 23, 1935, said, in part:

There is no warrant under the statute for the granting of allowances for unnecessary services or expenses.

An editorial in the New York American of December 26, 1935, states the point well:

It permits lawyers retained by nobody, bankers, who are themselves responsible for overcapitalization ending in collapse, and all kinds of self-appointed and nondescript committees to "muscle in" on distressed properties and, as "preferred creditors", literally to run away with money belonging to somebody else.

PLANS OF REORGANIZATION

Conniving and scheming in reorganizations may best be illustrated in the language used by Judge Holley, in the matter of Rosenbaum Grain Co., debtor (28 Am. R. Repts., N. S. 451), wherein the debtor filed a petition requesting the court to appoint, first, a committee to represent the

creditors and, second, a committee to represent the stockholders in a reorganization proceeding:

In a great majority of the cases presented to the court the creditors of the corporation are widely scattered, bonds having been sold to the public generally, and very frequently large numbers of persons of small means hold bonds in quite small amounts. These creditors have great difficulty in protecting their interests, and the holder of a thousand-dollar bond cannot afford to employ counsel to represent him in the proceedings. As a result, bondholder and creditor committees have been organized which have solicited the deposit of bonds or other evidence of indebtedness with power of attorney to represent the holder in all proceedings. In a great majority of cases, probably, these bondholders' committees are composed of men of integrity and ability, who, in the performance of their duty, have but one object in view, the protection of those whose interests they represent. In a great many cases, however, the bondholders' committee is set up by the debtor itself, or by individuals who promoted the organization of the debtor and the sale of its securities. Many of these committees have been extravagant and wasteful. They request the court sometimes to appoint a trustee nominated by the committee and at other times to continue the debtor in possession. If the debtor remains in possession, it is frequently unwise in its management of the property, expends money, and incurs liability far beyond the necessities of the business. The trustees recommended by the committee often charge excessive fees in connivance with the members of the committee and contract bills far out of proportion to the services rendered. In some cases the property has been deliberately mismanaged for the purpose of enabling the debtor to secure a better settlement with its creditors.

As a result of such practices great public scandal has arisen, and there has been much newspaper publicity and many legislative investigations. The public has come to distrust all committees, lumping the good with the bad, though there is no doubt that a very large proportion of the committees are honestly and faithfully performing the duties imposed upon them.

The court is generally in the dark as to the method of the organization of the committees and of the manner in which the committee conducts the affairs of the debtor. Likewise it can know little of the real merit of the plan of reorganization presented. A plan which appears perfectly fair on its face may, as a matter of fact, be outrageously unjust. The court has to rely on the statements of the interested parties, on the reports made to it by creditor or stockholder committees, and the statements of creditors in open court when the plan is presented. The individual creditors, those holding small amounts of the securities of the debtor, cannot afford to be represented in court. If the creditors' committee has done its word honestly and capably, the court can rely upon the reports presented by the committee. If, however, the work of the committee has been of a different character, the court may be very easily misled and confirm a plan which should have been rejected.

It is exceedingly important, therefore, that the court have its own representative on the stockholders' and creditors' committees. Further, it is necessary that the court have control of the committee and have the right to remove any member who, either through negligence or dishonesty, fails to perform the duties of his office. In this case the court has such a representative on each committee, and by the terms of the draft order presented the creditors' committee as a whole is under the jurisdiction of the court.

To illustrate the interest of the Bureau of Internal Revenue in the work of your committee we quote excerpts from letters of the Honorable Guy T. Helvering, Commissioner of Internal Revenue Bureau:

TREASURY DEPARTMENT, *Washington, D. C.*

Hon. A. J. SABATH,
Chairman, Select Committee to Investigate
Real Estate Bondholders' Reorganizations,
House Office Building, Washington, D. C.

MY DEAR MR. CHAIRMAN: * * * There has been referred to me a letter from the Chicago office of your committee stating that during your investigation of defaulted real-estate bonds there has been uncovered what are believed to be several evasions of income tax, particularly insofar as members of bondholders' protective committees are concerned.

The letter states that there has also been uncovered what is believed to be an act of fraudulent representation which resulted in a refund of approximately $85,000 to the Chicago Title & Trust Co. as receiver for H. O. Stone & Co.

I wish to assure you that this Bureau will give your committee its utmost cooperation and will be highly appreciative if your committee will refer additional information which it feels should be investigated by this Bureau.

The Attorney General has been requested to file an action for the recovery for the refund previously made ($85,000).

The continued cooperation of your committee and its representatives is greatly appreciated.

A subsequent letter stated:

I wish to take this opportunity to express to you my appreciation of the spirit of cooperation displayed by the committee and members of its staff in making available to the Bureau information pending to the question of income-tax liability not only in the case of this particular individual matter but also in numerous instances.

COOPERATION OF JUDGES OF UNITED STATES DISTRICT COURTS

To illustrate, we quote from a letter received recently from the Honorable Ernest A. O'Brien, of the Federal court at Detroit, Mich.:

UNITED STATES DISTRICT COURT FOR THE
EASTERN DISTRICT OF MICHIGAN,
Detroit.

ADOLPH J. SABATH,
House Office Building, Washington, D. C.

DEAR CONGRESSMAN: I desire to acknowledge my debt of gratitude for the services that your representatives of the House Special Investigating Committee in this city has rendered to me.

I trust that I will be able to have the facilities of your committee in other matters now pending, as I am convinced they will be of great help to the court.

I wish to compliment you on the work already accomplished and with your continued success in your endeavors.

Very truly yours,

ERNEST A. O'BRIEN,
United States District Judge.

In the case of the Pierrepont Hotel matter, Federal Judge Moskowitz, of Brooklyn, sent the following:

I'd like a brief report on this particular reorganization case from the Sabath committee.

The court wants to extend its thanks for the fine cooperation and the splendid results obtained. The Sabath committee has done a fine job.

Federal Judge Mack, of New York, in commenting about activities of this select committee in connection with the Fox Metropolitan case, stated:

The fine work being done by the Sabath committee unfortunately may never be known to the bondholders.

Some of the other letters are:

UNITED STATES DISTRICT COURT,
DISTRICT OF NEW JERSEY,
Newark, N. J., September 3, 1935.

Hon. ADOLPH J. SABATH,
House Office Building, Washington, D. C.

SIR: Your letter of the 16th ultimo relating to the activities of your committee and enclosing a copy of Judge O'Brien's letter was received.

I am glad to know that your objects are in full conformity with my own views. You may rest assured that you and your associates will have my full and unstinted cooperation in the work which is being undertaken in this district.

Thanking you for writing me and trusting you will feel free to call upon me for any service you may desire, I remain

Very truly yours,

GUY L. FAKE.

UNITED STATES DISTRICT COURT,
EASTERN DISTRICT OF MISSOURI,
St. Louis, September 4, 1935.

Hon. ADOLPH J. SABATH,
1136 House Office Building, Washington, D. C.

DEAR SIR: Your letter of recent date, tendering the service of your committee, was received. We will be glad to have the assistance of your committee in the difficult and trying matter of these corporate reorganizations.

Thanking you for your kindness in writing me, I am,

Yours sincerely,

CHARLES B. DAVIS,
United States District Judge.

A number of judges of the United States district courts are now including in their orders that notices of hearings as well as copies of pleadings be provided this select committee. A copy of such order reads as follows:

Ordered, that a notice of such hearing shall be given to the Secretary of the Treasury of the United States and to the Sabath committee, by the debtor, by causing a copy of this order to be mailed to them on or before the ——— day of ———.

COMMITTEE, IN CAPACITY OF MEDIATOR, SAVES MILLIONS TO BONDHOLDERS

OCTOBER 4, 1935.

Hon. A. J. SABATH,
Chairman, Select Committee to Investigate
Real Estate Bondholders' Reorganizations:

Congratulations and thanks for the splendid service rendered by your committee in the matter of the National Press Building Corporation reorganization. Due in great part to you and your committee's forceful and fair persuasion, agreement was reached by all parties in interest several days ago, and the plan of reorganization was approved yesterday of Judge Luhring. Again may

we thank you, and will you please extend these thanks to Messrs. Blaustein, Comer, and Thomas for the intelligent handling of this difficult matter?

BASCOM N. TIMMONS,
Chairman, Building Reorganization Committee,
National Press Club.

LEGISLATION

In a report on the administration of bankruptcy estates submitted by counsel, Col. William J. Donovan, in the matter of an inquiry into the administration of bankrupt estates, conducted before Hon. Thomas D. Thacher, judge of the United States District Court of the Southern District of New York, under order of said court and under date of March 6, 1929, he, in part, states:

The investigation, although prior to the enactment of section 77B, developed the many abuses existing in reorganizations, and in this report radical changes were recommended for the administration of bankruptcy estates. There were even at that time thrust upon the courts administrative duties which they were not equipped to meet, nor competent to perform and which they should not be expected to discharge. They sought to eliminate this condition, and as a result of their report and recommendations, radical changes were made in the State of New York.

As a result of the recommendations made by Colonel Donovan to the district judges of the southern district of New York, the Irving Trust Co. was selected as an official receiver and trustee in bankruptcy and Federal receivership proceedings. But shortly thereafter nearly the entire bar of the State of New York protested this monopoly of the Irving Trust Co. Hon. EMANUEL CELLER then introduced a resolution to investigate these conditions in New York; but upon the request of the Rules Committee of the House, the Judiciary Committee of the House broadened its investigation to include all districts throughout the country. This investigation was made, and resulted in many changes being brought about.

Colonel Donovan in this report further stated:

These responsibilities should be centralized in the executive branch of the Government. The creditors will not exercise these responsibilities; their admitted exercise by the courts has been ineffective, burdensome, and generally inefficient; has produced a multitude of rules and legalistic formalities; and has resulted in the criticism of the bench itself. Trustees should be supervised and licensed or subject to approval by the executive branch of the Federal Government. The Bankruptcy Act contemplated an orderly and economical liquidation of the estate of a bankrupt and not the performance of administrative duties by highly paid attorneys.

In the President's message to the Senate and House of Representatives on February 29, 1932, he stated:

The Federal Government is charged under the Constitution with the responsibility of providing the country with an adequate system of administration of bankruptcy estates. The importance of such a system to the possible life of the community is apparent.

A sound bankruptcy system should operate, first, to relieve honest but unfortunate debtors of an overwhelming burden of debt; second, to effect a prompt and economical liquidation and distribution of insolvent estates; and, third, to discourage fraud and needless waste of assets by withholding relief from debtors in proper cases.

For some time the prevailing opinion has been that our present Bankruptcy Act has failed in its purpose and needs thorough revision.

The present Bankruptcy Act is defective in that it holds out every inducement for waste of assets long after business failure has become inevitable. It permits exploitation of its own process and wasteful administration by those who are neither truly representative of the creditors nor the bankrupt.

May I not say that important as these recommendations are we must all keep before us the thought that effective administration of the law in a republic requires not only adequate and proper machinery, honest and capable officials, but above all a citizenry imbued with a spirit and respect of law.

H. R. 12064—SUMMARY OF PROVISIONS, CONSERVATOR IN BANKRUPTCY ACT INTRODUCED BY HON. A. J. SABATH

A bill to amend the Bankruptcy Act, to aid the courts in the administration thereof, protect bondholders in reorganizations, compositions, and extensions, and prevent excessive charges and loss of assets

(a) (1) The Comptroller of the Currency is designated as the conservator in bankruptcy.

(2) The conservator is authorized to act as trustee, custodian, or receiver. The conservator is empowered to conduct investigations in such matters as he may deem necessary or as the court may request in proceedings under 74 or 77B.

The conservator is given sufficient powers to enable him to have full knowledge and a check on the entire proceedings and administration of estates in 74 and 77B so as to make available to the district courts complete facts and to relieve district courts of unnecessary administrative burdens.

(3) The conservator is authorized to prescribe and publish rules and regulations.

(4) The conservator is empowered to administer oaths, take evidence, and require attendance of witnesses and production of books by subpena. The court may upon application of conservator, issue an order to produce books, papers, documents, and give evidence, and any failure to obey such order may be punished by the court as a contempt.

(b) In any proceeding under section 74 or 77B commenced after the effective date of this act, in the event the judge does not determine to continue the debtor in possession, the judge shall appoint as trustee, custodian, or receiver—

(1) The conservator; or

(2) An authorized trustee from a panel of trustees qualified for such service to be selected and designated in advance by the conservator; or

(3) In any particular case, if it shall be shown to the satisfaction of the court that the conservator or the panel cannot properly or adequately function because of unusual circumstances peculiar to the case, then some person not authorized may be appointed. This also applies to any vacancy in pending proceedings.

(c) Pursuant to appropriate orders or rules of procedure which shall be prescribed by the court the conservator shall be given due notice of all proceedings. The conservator shall have the right to be heard upon all questions with respect to which the debtor, any creditor, any stockholder, or any intervening party in such proceeding may be heard.

(d) No composition, extension proposal, or reorganization plan under section 74 or 77B shall be confirmed unless the conservator has either approved plan or, if disapproved, has been given an opportunity to be heard on his objections. The conservator shall approve plan or proposal if he finds it to be fair and equitable after thorough study.

(e) The conservator shall have the right to propose a plan or amendments to a plan of reorganization.

(f), (g), and (h) The conservator may approve or disapprove the provisions and limitations of—

(1) Deposit agreement.

(2) Protective committees and their personnel.

(3) Solicitation of proxies, assents, deposits, consents.

Provision for fine of $5,000 and imprisonment of 2 years may be imposed for willful violation of any solicitation of proxies, consents, authorizations, dissents in respect of any composition, proposal, or reorganization plan without—

(1) Prior submission of plan to conservator.

(2) Full disclosure of material facts.

(3) Approval of personnel and deposit agreement by conservator.

No court of bankruptcy shall have jurisdiction to permit protective committee to intervene or to make allowances for remuneration to protective committee unless the petition is accompanied by certificate of conservator approving its personnel and committee agreement under which such committee is acting. Section (g) also provides conditions under which conservator may disapprove of either committee personnel or agreement. Such disapproval is made subject to review or appeal to circuit court.

(i) (1) No allowance for fees, expenses, or other remuneration to be paid to anyone in reorganization proceedings unless petition is first submitted to conservator and is accompanied by conservator's report either approving or disapproving and conservator is given an opportunity to be heard with respect to objections.

(j) No petition to institute a proceeding under section 74 or 77B may be approved if debtor is under receivership in any other court unless opportunity is given for conservator to be heard on question of good faith.

(k) The conservator shall be entitled to costs of administration of services to be paid out of debtor's estate under plan of reorganization of the estate in accordance with rules and regulations of conservator.

(l) The conservator may examine any proceedings where reorganization plan has been confirmed since January 1, 1935, and report his findings and recommendations to court.

(m) Provides for appeals by any committee or member thereof aggrieved by an order of the conservator disapproving the provisions, limitations, or membership of such committee.

The conservator shall certify and file in court a transcript of the record on which the order complained of was entered. Upon filing of such transcript, court shall have exclusive jurisdiction to affirm, modify, or set aside such order in whole or in part. Also provides that any findings of fact or other orders of the conservator may be reviewed in the same manner as provided in the case of a report of a referee or special master.

(n) Bill applies generally to proceedings which involve liabilities of over $50,000 evidenced by at least 10 credit instruments owned by at least 10 persons.

SEC. 2. The Reconstruction Finance Corporation is authorized to make loans to finance such reorganizations, compositions, or extensions if approved by the Conservator.

SEC. 3. Amend Bankruptcy Act to include in the definition of "equity receivership" any proceeding to foreclose a lien on property.

The Subcommittee of the Judiciary, in its report herein referred to, said:

We are of the opinion that legislation be enacted to prevent collusive receiverships (and similarly other collusive suits and acts) * * *. If by reason of legislation which the Congress might enact correcting the present-day evils in our bankruptcy and Federal receivership proceedings, this loss to creditors could be materially reduced, and it will be seen what a wonderful work that Congress would have done, and this can be done. Equity receiverships in bankruptcy matters have degenerated into nothing more or less than a pure and simple racket which should be stopped by congressional legislation and congressional action.

In a report of the counsel to the chairman of the special committee to investigate receivership proceedings and administration of justice in the United States courts, he (Mr. Percival Jackson) again reiterates the various abuses prevalent in reorganizations, and he likewise recognizes the necessity for governmental supervision. In further substantiation of our contentions, we quote from this report as follows:

Whether it be in an equity receivership proceeding, or be entitled in proceedings under section 77B, if from the outset the debtor and the committee are colluding in the interests of the debtor, if there has been no attempt at an honest and complete investigation, if in the preparation of a plan, there has been no honest representation of security holders, the task of the honest judge in seeking to protect the security holders becomes an impossible one. There is no inherent virtue in section 77B that avoids these abuses. Nothing is furnished to the judge by section 77B to supply him with means, facility, training, or experience for independent investigation, understanding, and correct determination of the numerous, intricate, and technical details of stock and bond issuance and exchange, or the many accounting and appraisal details necessary for correct determination of the technical and administrative matters visited upon him by plans of reorganization.

Following an investigation under section 21A of acts preceding the reorganization, the veil of collusion and fraud which has marked the adoption of plans in equity receivership proceedings can readily be pierced by an independent and intelligent investigation of a plan of reorganization offered in a 77B proceeding, provided such investigation is made by a competent and honest agency that has the confidence of the court and adequate means for making a comprehensive and searching scrutiny of the plan and the factors behind it.

Such an investigation should be factual, not legal or judicial. It must be thorough, and for that purpose requires the judicial power of subpena and examination of witnesses. The investigating function is administrative rather than judicial. It should be preparatory to and supplemented by the judicial hearing provided for in section 77B. Properly and fully made it will largely render unnecessary considerations of intervention and questions of adequacy or honesty of representation of security holders. Adequately reported to the court and aided by the later exercise of the judicial function it will enable the judge, trained to consider factual and legal problems placed before him and to determine controversies arising therefrom, to determine the fairness of the plan, to consider and protect the interests of the minority, independently of any interested or influenced opinion of the majority, in a substantial and effective and not in a perfunctory or formal way. This method will furnish an agency to which the judge may, in the first instance, transmit the subjects which occur to him for investigation in connection with the plan, to which interested parties may convey their suggestions and objections and should meet with the approval of the numerous judges and lawyers who feel that the referees should play a part in the administration of section 77B.

The suggestions herein contained, however, will be futile unless the agency selected exercises its own skill and initative in making such investigation and particularly will be rendered useless in given cases unless the scrutiny is made by investigators skilled in the intricacies of stock and security issuance and exchange and of security markets.

If, in addition, we establish a permanent agency, such as hereinbefore suggested, to supplement the efforts of the judges and to punish violations of the act, we may reasonably expect surcease from the existing abuses.

EXCERPTS FROM REPORTS, LAW REVIEWS, MAGAZINES, EDITORIALS, AND NEWSPAPER ITEMS

In an article appearing in the Columbia Law Review, volume 34, no. 7, November 1934, Mr. Joseph L. Weiner said:

Specifically, no consideration was given to the broader question, whether the reorganization machinery should be left where it was, subject only to a certain amount of judicial scrutiny. The increasing volume of business in the Federal courts makes it extremely difficult to believe that the Federal judges will be able to carry out with thoroughness the duties imposed upon them by the act. Nor was sufficient consideration given to the possibility, suggested long ago by Chief Justice Taft, of eliminating the present provisions for the appointment of receivers or trustees and substituting a paid official at either a salary or statutory rate of compensation.

In an article in the Harvard Law Review, volume 47, no. 4, January 1934, by William O. Douglas, professor of Yale School of Law, he said with respect to protective committees:

Speaking generally, there has long been a need for reform and regulation of the practices of protective committees. This need has not been peculiar to railroads—in fact, it has probably been less acute there than in other types of reorganizations. The need for increased regulation has not been due primarily to the incompetent or to the fraudulent proclivities of committee members. Rather, the need has arisen because the committee has been constituted by the inside groups, those affiliated with or drawn from the old management or financial interests associated with it. Often the interests of these members have been clearly those of speculative equity groups, not motivated solely or dominated by the urge to protect the interest of the securities which they represent.

Through the use of security holder lists, peculiarly or solely available to them, they have in effect employed the committee as a device to perpetuate their own control, to protect themselves from attack by the security holders, and to enhance their own opportunities for further profit. Under these circumstances, the small security holder stood little chance to gain the real protection which any local system should afford him. * * * It is clear that his real protection was to be found in a fraudulent organization composed of others like himself * * *. But the usual result was that these widely diffused and disorganized minority never mobilized * * *. Or, if an organization did result, it was too often effectuated by incompetent and piratical group of the legal profession who as often as not did the security holders even more disservice than would the old management or financial group. Though the demand was insistent, there has never emerged in this country any permanent agency rendering a continuous service to these widely scattered minorities. We have had to date no private organization comparable to the Shareholders' Protection Association in England, permanently organized for respectable and competent patrol duty.

[From an article in the Harvard Business Review, vol. II, 1932-33]

By Philip G. Phillips

Committee work is costly, obscure, blocked by selfishness and unfairness, and in most instances there is a lack of relationship between result and intelligent planning. The individual bondholder is dissatisfied with the result and feels that there is a satisfactory and assured method neither for the open investigation of all the facts nor for a hearing of individual protests.

To add to his difficulties the individual investor now has to deal with not only one committee, but in many instances there are three or four in the field acting as rivals and accusing each other of selfish motives. It is not the fault of the committees; it is the fault of an antiquated makeshift method of reorganization.

THE PROPOSED SOLUTION

It is proposed that the present machinery for the rehabilitation of corporate securities be so amended that no reorganization plan be finally adopted, and no fees paid to committee or counsel, unless the plan has been approved by a board of impartial "arbitrators" before whom all the relevant facts shall be disclosed and before whom the individual bondholders and all other interested parties shall have the right to appear in order to protect their interests. Such a scheme was tried out in the reorganization of the securities of G. L. Miller & Co., and Judge Julian Mack sat as arbitrator with marked success.

The plan would not be difficult to carry out. Every deposit agreement need but contain a clause providing that before a plan of

reorganization or fees of committee or counsel could become final they would have to be approved by a board of arbitrators. Bondholders would be given notice of the hearing date and of the plan and fees proposed. The arbitrators would have full power to modify or amend the plan, and the hearing would be so conducted that all the facts would be presented. Incidentally, a further check might be given the bondholder by providing that disputes between bondholder and committee, concerning such matters as the right to withdraw, etc., be also submitted to a board of arbitrators, while the "horse trading" elements could be brought more into the open by the committee submitting to arbitration any disputes with creditors, etc., whenever possible.

But we should not stop there. It is further proposed not only that the arbitration check should be used after plans of reorganization are proposed but also that a similar check be provided by business as soon as a default occurs, thereby eliminating the need for committees in many instances.

There are many instances today in which reorganizations are put through and new loans procured at the prohibitive rates prevailing merely because the bondholders cry for action. If the committees could but obtain the consent of an impartial board to delay—could only communicate to all the interested parties that an impartial board had found, for example, that reorganization on the particular property at the present time was the height of folly—the bondholders should be satisfied. And if only there had been a board in the first place on such properties, there would have been no committees in many instances.

BENEFITS OF THE PLAN AND OBJECTIONS ANSWERED

It is not submitted that this plan will furnish a final panacea to our reorganization difficulties. Undoubtedly there is a tremendous need for changes in the terms of securities and for legislation which will prevent delays and waste incident to modern reorganization. The problem, however, is one of the present; we must deal with the securities at present outstanding and we cannot tarry until remedial legislation finds its slow way into our statutes.

The process proposed will at the very outset restore the confidence of the public in reorganization plans, eliminate the controversies arising through suspicion of ulterior purposes and unfair enrichment, assure endorsement for any fair and equitable plan of readjustment or reorganization, eliminate huge and unnecessary fees, and thereby convince the bondholders that they are receiving the full measure of their just rights. There should be no difficulty in having the bondholders accept the process.

It would undoubtedly test the sincerity and disinterestedness of committees and houses of issue, but honest committees and houses of issue have been trying to find help from the dilemma and should welcome the change. The dishonest ones might object that it was but an unnecessary adjunct to the committee process, but that objection can easily be met. Committees may still confine their activities to "horse trading", but they are furnished with a judicial adjunct entirely distinct and apart from anything now in existence. The obscure elements entering into a reorganization are brought into view and a method for finding a relationship between result and intelligent planning is obtained.

[From American Bar Association Journal, February 1935]

(By John Hanna, member of the District of Columbia Bar and New York Bar)

It is a question whether the Bankruptcy Act as a whole does not remain seriously defective because nothing has been done to set up new administrative machinery in the various districts and to provide for its supervision. The failure of those concerned to agree upon methods for the choice of trustees, its authority, and compensation of referees, and Federal inspection and regulation has thus far prevented new legislation upon these topics. The present situation in these respects cannot be regarded as satisfactory.

In a letter from the county of New York district attorney's office, dated New York, May 26, 1936, to your committee, Re People against Commonwealth Bond Corporation, Clark G. Kuney and Edward A. Sauter, who were convicted for grand larceny, in the first degree, there was stated as follows:

It is hoped that your committee will include the above-mentioned activity in its report to the Congress, for had it not been for your investigation and our prosecution, these defendants might still be unpunished. When such report is made please be good enough to send a copy to the writer.

Quoting from the Philadelphia Record of Monday, May 25, 1936:

NEW MORTGAGE QUIZ BY BAR ASSOCIATION IS URGED BY STONEY—COMPLETE PUBLIC PROBE OF LAWYERS' ACTIVITIES IS DEMANDED

A demand that the Philadelphia Bar Association launch a complete public inquiry into the affairs of the Philadelphia Co. for Guaranteeing Mortgages was made here yesterday by Michael J. Stoney.

The Sabath committee held hearings here 3 days last week. At the hearings officials of the Philadelphia Co. were accused of plundering the savings of 100,000 investors, who put $132,000,000 into bonds guaranteed by the company. A $35-a-week clerk admitted he was the straw man in the signing of $40,000,000 of personal surety bonds. Officials of the company admitted they guaranteed as gilt-edged securities, bonds on properties already in default on taxes.

Quoting from the Philadelphia Record of Tuesday, May 26, 1936:

UNITED STATES GRAND JURY TO INVESTIGATE MORTGAGE CASE—PANEL EXPECTED TO BE DRAWN AT ONCE TO STUDY RECEIVERSHIP—WASHINGTON TO AID—MCAVOY PROMISED HELP IN PROBE OF DATA BARED IN SABATH QUIZ

United States District Attorney Charles D. McAvoy will launch a special Federal grand-jury investigation of the Philadelphia Co. for Guaranteeing Mortgages, he announced last night.

He will appear in the United States district court here today to ask for appointment of the grand jury.

The court is expected to order it impaneled immediately.

PROMPT ACTION PLANNED

"The jury will begin investigation of the $132,000,000 company as soon as possible", McAvoy declared. "Procedure for empaneling a special grand jury is the same as that for a regular grand jury", he pointed out. "The grand jury will be asked to act on disclosures at last week's hearings of the Sabath congressional committee concerning the company's bankruptcy, receivership, and reorganization which", McAvoy said, "would seem to indicate a continuous criminal conspiracy to defraud investors." Approval of the grand-jury investigation was given by the Department of Justice in Washington. Announcement that Washington authorities would cooperate with any inquiry pursued by McAvoy was made by Assistant Attorney General Brien McMahon.

[From the New York Post, Tuesday, Jan. 28, 1936]

CONTINUE THE SABATH COMMITTEE

Some 4,000,000 American investors, most of them small investors looking for a safe place to put their savings, sank $10,000,000,000 in real-estate bonds before the depression. Eight billion dollars of these bonds are now in default.

A House committee headed by Congressman SABATH has been probing for a year into the causes of these defaults and into the often crooked "protective" committees set up in many of the reorganizations growing out of these defaults.

Continuation of the investigation for at least another year is essential to protect owners of these bonds and to prevent a repetition of the same evils in the future. The few thousands required for this work is chicken feed beside the millions at stake.

The Sabath committee hearings have served several important purposes. The committee has turned the spotlight on the shameless misuse of "other people's money" by insiders. The committee has slowed up the racket of fake "protective" committees.

Above all, the foundation is being laid for the enactment of remedial legislation. We must not have a repetition of scandals when it was found that the proceeds of real-estate bond sales—instead of being invested in real estate—had been secretly used for speculation in the stock market.

Mr. Speaker, I ask unanimous consent that there may be an additional 1,000 copies of this report printed on account of the demands that are being made for such copies.

The SPEAKER. The gentleman will have to take that matter up with the Joint Committee on Printing.

Mr. SABATH. Then, Mr. Speaker, I ask unanimous consent to extend my remarks and include therein some extracts from this long report for the benefit of the Members so that they may obtain a great deal of valuable information with respect to the work the committee has done.

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

There was no objection.

SERVICE CHARGES ON RESETTLEMENT PROJECTS

Mr. McCORMACK. Mr. Speaker, I ask unanimous consent for the present consideration of the bill (H. R. 12876) to waive any exclusive jurisdiction over premises of resettlement or rural rehabilitation projects; to authorize payments to States, political subdivisions, and local taxing units in lieu of taxes on such premises; and for other purposes.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That the acquisition by the United States of any real property heretofore or hereafter acquired in connection with any resettlement or rural rehabilitation project heretofore or hereafter constructed with funds allotted or transferred to the Resettlement Administration pursuant to the Emergency Relief Appropriation Act of 1935, or any other law, shall not be held to deprive any State or political subdivision thereof of its civil and criminal jurisdiction in and over such property, or to impair the civil rights under the local law of the tenants or inhabitants on

such property; and insofar as any such jurisdiction has been taken away from any such State or subdivision, or any such rights have been impaired, jurisdiction over any such property is hereby ceded back to such State or subdivision.

SEC. 2. Upon the request of any State or political subdivision thereof, or any other local taxing unit, in which any such project, described in section 1, has been or will be constructed, the Resettlement Administration is authorized to enter into an agreement, and to consent to the renewal or alteration thereof, with such State or political subdivision thereof, or other local taxing unit, for the payment by the United States of sums in lieu of taxes. The sums payable under any agreement with a State or political subdivision thereof, or other local taxing unit, in any year with respect to any project shall not exceed an amount equal to what the tax of the State of political subdivision thereof, or other local taxing unit, would have been if such property were taxed to the same extent as other real property.

SEC. 3. The receipts derived from the operation of such projects, described in section 1, in addition to the moneys appropriated or allocated for such projects, shall be available for such payments in lieu of taxes and for any other expenditures for operation and maintenance (including insurance) of such projects. To provide for such payments and expenditures, the Resettlement Administration is authorized from time to time to retain out of such receipts such sums as it may estimate to be necessary for such purposes.

SEC. 4. In the disposition or operation of any such projects, described in section 1, the Resettlement Administration is authorized to fix the selling prices or rents, or both, in such amounts and at such rates as it shall determine to be necessary in order to make such projects available to those families who are unable to pay sufficient moneys to induce private enterprise to supply adequate, safe, and sanitary housing, and other necessary resettlement facilities, notwithstanding that the selling prices or rental rates so fixed may not provide for repayment in full of the funds expended in connection with the projects.

SEC. 5. In connection with any such project, described in section 1, the Resettlement Administration is authorized to dedicate land for streets, alleys, and parks, and for any other public use or purpose, and to grant easements.

With the following committee amendments:

Page 1, lines 4 and 5, strike out "in connection with any resettlement or rural-rehabilitation project" and insert in lieu thereof "for any resettlement project or any rural-rehabilitation project for resettlement purposes."

Page 2, line 11, after the word "local", insert "public."

Page 2, line 24, beginning with the last word, strike out all down to the end of line 4, on page 3, and insert in lieu thereof the following: "Such sums shall be fixed in such agreement and shall be based upon the cost of the public or municipal services to be supplied for the benefit of such project or the persons residing on or occupying such premises, but taking into consideration the benefits to be derived by such State or subdivision or other taxing unit from such project."

Page 3, beginning with line 14, strike out all of section 4.

Page 4, line 1, strike out "5" and insert in lieu thereof "4."

Page 4, line 2, after the word "administration", insert ", with the approval of the President."

The committee amendments were agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

CALIFORNIA STATE PARK SYSTEM

Mr. BURNHAM. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (S. 4634) to provide for the selection of certain lands in the State of California for the use of the California State park system and consider the same.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the present consideration of the bill?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That subject to valid rights existing on the date of this act, the State of California may within 5 years select for State park purposes by legal subdivisions all or any portion of the public land not reserved for public purposes in the following townships:

T. 9 S., R. 9 E.; T. 9 S., R. 10 E.; T. 10 S., R. 9 E.; T. 10 S., R. 10 E.; T. 10 S., R. 11 E.; T. 11 S., R. 9 E.; T. 11 S., R. 10 E.; and T. 11 S., R. 11 E., San Bernardino meridian.

Upon the submission of satisfactory proof that the land selected contains characteristic desert growth and scenic or other natural features which it is desirable to preserve as a part of the California State park system, the Secretary of the Interior shall cause patents to issue therefor: *Provided*, That there shall be reserved to the United States all coal, oil, gas, or other mineral contained in such lands, together with the right to prospect for, mine, and remove the same at such times and under such conditions as the Secretary of the Interior may prescribe: *Provided further*, That any patent so issued shall contain a provision reserving to the United States, for the use of the United States and its permittees, including Imperial irrigation district, the perpetual right to flow or permit water to flow over or pond or permit water to be ponded upon any part of the lands so patented with right to go upon same and to locate, relocate, construct, reconstruct, and maintain any works necessary or convenient to the full use thereof, including telephone and electrical transmission lines, and shall also contain provision for reversion of title to the United States upon a finding by the Secretary of the Interior that for a period of more than 1 year the land has not been used by the State for park purposes: *And provided further*, That in order to consolidate park areas or to eliminate private holdings therefrom lands patented hereunder may be exchanged with the approval of and under rules prescribed by the Secretary of the Interior for privately owned lands in the area hereinbefore described of approximately equal value containing the natural features sought to be preserved hereby. The lands so acquired to be subject to all the conditions and reservations prescribed by this act, including the reversionary clause hereinbefore set out.

The bill was ordered to read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

THE IOWA FARMER AND THE TARIFF

Mr. THURSTON. Mr. Speaker, I ask unanimous consent to extend my remarks and to include therein certain excerpts and tables.

The SPEAKER. Is there objection to the request of the gentleman from Iowa?

There was no objection.

Mr. THURSTON. Mr. Speaker, for generations the Republican Party has contended that the American producer, whether engaged in farming or manufacturing, should be entitled to have preference in our own markets. The Democratic Party during all this period has favored free trade, which means no duty upon foreign products, or a low duty for revenue purposes.

The position of the two parties in regard to the subject are just about as far apart as they have been at any time during the past three-quarters of a century.

Recently, the Department of Labor made an investigation concerning wage levels in the foreign countries of the world, and in substance found that wages in Great Britain were about 40 percent of the wage paid in the United States; that wages in France and Germany were about one-third of that paid here; and in the remainder of Europe the daily wage was about one-fourth of that paid in our country.

This branch of the Government also reported that the wage level in Central and South America was about one-fifth of our own, and in Japan and China one-tenth to one-twentieth of the wages paid for the principal branches of employment in the United States.

While we do not have accurate figures in relation to land values in new countries, such as Canada, Australia, and Argentina, yet we do know that the selling price of land in the countries mentioned is from one-third to one-tenth of the amount paid for comparable land in our country.

Another element in this study is the cost of transportation, and it is known that freight can be and is shipped by water for one-fifth to one-tenth of the rate charged by railroads.

Having in mind the foregoing advantages which accrue to those engaged in farming in the low cost in the countries mentioned, it then becomes highly important to the farmer in Iowa, and in the farming section of the country, to devise plans of operation so that he can obtain a fair value for the livestock, grain, and dairy products which he must market in competition with the low price and low-cost commodities imported from foreign lands.

The Republican Party has been, and now is, fully aware of the severe competition which the American farmer must meet in competing with the countries mentioned. This party, through tariff acts, has placed duties upon the importation of such foreign products over the active and constant opposition of the Democratic Party.

As a part of this statement I am incorporating tables taken from a document prepared by the Ways and Means Committee of the House of Representatives entitled "Comparison of Tariff Acts of 1913, 1922, and 1930."

Schedule 7, agricultural products and provisions, shows the rate of duty placed upon the importation of foreign farm products. These rates on farm products are written in three parallel columns so that the rates can be readily ascertained. As the Democratic Party wrote the Tariff Act of 1913, the name of that party will appear above that column. As the Republican Party was in control of the Government when the 1922 and 1930 Tariff Acts were passed, the name of that party will appear above the two columns containing the rates provided in these laws.

As schedule 7, which contains the agricultural items, is rather extensive, I have picked out a few of the most important items, such as livestock, dairy products, and grain, thus making the table both concise and clear in regard to these products. They are as follows:

SCHEDULE 7.—*Agricultural products and provisions*

Paragraph, act of 1930	Classification	Rates of duty		
		Republican		Democratic, act of 1913
		Act of 1930	Act of 1922	
101	Cattle—			
	Weighing less than 700 lbs. each	2½ cents per lb	1½ cents per lb.[1]	Free.[2]
	Weighing 700 lbs. or more each	3 cents per lb	2 cents per lb.[3]	Free.
	Beef and veal, fresh, chilled, or frozen [4]	6 cents per lb	3 cents per lb	Free.[5]
	Tallow	½ cent per lb	½ cent per lb	Free.
	Oleo oil	1 cent per lb	1 cent per lb	15 percent.[6]
	Oleo stearin	1 cent per lb	1 cent per lb	Free.
	Dried-blood albumen:			
	Light	12 cents per lb	Free	Free.
	Dark	6 cents per lb	Free	Free.
702	Sheep, lambs, goats	$3 per head	$2 per head	Free.[7 8]
	Mutton and goat meat, fresh, chilled, or frozen [4]	5 cents per lb	2½ cents per lb	10 percent. Free.[9]
	Lamb, fresh, chilled, or frozen [4]	7 cents per lb	4 cents per lb	Free.[9]
703	Bacon and hams	3¼ cents per lb	2 cents per lb	Free.
	Lard	3 cents per lb	1 cent per lb	Free.
	Compounds and substitutes	5 cents per lb	4 cents per lb	Free.
	Pork, fresh, chilled, or frozen [4]	2½ cents per lb	¾ cent per lb	Free.[9]
	Shoulders and other pork, prepared or preserved	3¼ cents per lb	2 cents per lb	Free.[10 11]
	Swine	2 cents per lb	½ cent per lb	Free.
706	Meats, fresh, chilled, frozen, prepared, or preserved, n. s. p. f.[4]	6 cents per lb. but not less than 20 percent.	20 percent [12]	Free.[13]
707	Whole milk:			
	Fresh	6½ cents per gallon [15]	2½ cents per gallon [15 16]	Free.[14]
	Sour	6½ cents per gallon [15]	1 cent per gallon [15]	Free.[14]
	Cream, fresh or sour	56.6 cents per gallon [16]	20 cents per gallon [17]	Free.[14]
	Skimmed milk, fresh or sour [18]	2½₀ cents per gallon	2½ cents per gallon	Free.[14]
	Buttermilk	2½₀ cents per gallon	1 cent per gallon	Free.
708 (a)	Milk, condensed or evaporated:			
	In air-tight containers [19]—			
	Unsweetened	1.8 cents per lb	1 cent per lb	Free.[14]
	Sweetened	2¾ cents per lb	1½ cents per lb	Free.[14]
	Other	2.53 cents per lb	1⅝ cents per lb	Free.[14]
708 (b)	Dried whole milk [20 21]	6½ cents per lb	3 cents per lb	Free.[14]
	Dried cream [21 22]	12½ cents per lb	7 cents per lb	Free.[14]
	Dried skimmed milk [21 23]	3 cents per lb	1½ cents per lb	Free.[14]
	Dried buttermilk [21]	3 cents per lb		
710	Cheese and substitutes therefor	7 cents per lb. but not less than 35 percent.	5 cents per lb. but not less than 25 percent.[24 25]	20 percent.[24]
711	Birds, live:			
	Chickens, ducks, geese, turkeys, guineas [26]	8 cents per lb	3 cents per lb	1 cent per lb.
	Baby chicks of poultry [26]	4 cents each	3 cents per lb	1 cent per lb.
	All other n. s. p. f.—			
	Valued at $5 or less each	50 cents each	50 cents each [27]	Free.
	Valued at over $5 each	20 percent	20 percent	Free.

[1] Weighing less than 1,050 pounds each.
[2] Emergency Tariff Act of 1921: Cattle 30 percent, par. 12.
[3] Weighing 1,050 pounds or more each.
[4] "Chilled or frozen" added by act of 1930.
[5] Emergency Tariff Act of 1921: 2 cents per pound.
[6] All other animals oils.
[7] Emergency Tariff Act of 1921 (par. 13): Sheep, 1 year old or over, $2 per head; less than 1 year old, $1 per head.
[8] Goats included under all other domestic live animals suitable for human food n. s. p. f.; goat meat, n. s. p. f.
[9] Emergency Tariff Act of 1921: Fresh or frozen mutton, lamb, and pork, 2 cents per pound.
[10] Emergency Tariff Act of 1921: Meats of all kinds, prepared or preserved, n. s. p. f., 25 percent.
[11] Meats of all kinds, prepared or preserved, n. s. p. f.
[12] *Provided*, That no meats of any kind shall be imported (none of the foregoing meats shall be admitted (act of 1913)) into the United States unless the same is healthful, wholesome, and fit for human food and contains no dye, chemical, preservative, or ingredient which renders the same unhealthful, unwholesome, or unfit for human food, and unless the same also complies with the rules and regulations made by the Secretary of Agriculture, and that, after entry into the United States in compliance with said rules and regulations, said meats shall be deemed and treated as domestic meats within the meaning of and shall be subject to the provisions of the act of June 30, 1906 (34 Stat. L. 674), commonly called the "meat-inspection amendment", and the act of June 30, 1906 (34 Stat. L. 768), commonly called the "Food and Drugs Act", and that the Secretary of Agriculture be and hereby is authorized to make rules and regulations to carry out the purposes of this provision (paragraph [act of 1913]), and that in such rules and regulations the Secretary of Agriculture may prescribe the terms and conditions for the destruction (for food purposes [act of 1913]) of all such meats offered for entry and refused admission into the United States unless the same be exported by the consignee within the time fixed therefor in such rules and regulations. (Acts of 1913 and 1922.)
[13] Emergency Tariff Act of 1921: Meats of all kinds, prepared or preserved, n. s. p. f., 25 percent.
[14] Emergency Tariff Act of 1921: Milk, fresh, 2 cents per gallon; cream, 5 cents per gallon; milk, preserved or condensed, or sterilized by heating or other process, including weight of immediate coverings, 2 cents per pound.
[15] *Provided*, That fresh or sour milk containing more than 7 percent (act of 1922) and 5½ percent (act of 1930) of butterfat shall be dutiable as cream, and fresh or sour cream containing more than 45 percent of butterfat shall be dutiable as butter (acts of 1922 and 1930). Skimmed milk containing more than 1 percent of butterfat shall be dutiable as whole milk (act of 1930).
[16] 3¾ cents per gallon, by Presidential proclamation, effective June 13, 1929, under sec. 315.
[17] 30 cents per gallon, by Presidential proclamation, effective June 13, 1929, under sec. 315.
[18] Skimmed milk, fresh or sour, not specially mentioned in the acts of 1922 and 1913. Dutiable at rates for whole milk under act of 1922.
[19] Hermetically sealed containers, act of 1922.
[20] Whole milk powder, act of 1922, not specially provided for in act of 1913.
[21] *Provided*, That dried skimmed milk containing more than 3 percent of butterfat and dried buttermilk containing more than 6 percent of butterfat shall be dutiable as dried whole milk; and dried whole milk containing more than 35 percent of butterfat shall be dutiable as dried cream (act of 1930).
[22] Cream powder, act of 1922.
[23] Skimmed milk powder, act of 1922.
[24] Emergency tariff act of 1921: Butter and substitutes therefor, 6 cents per pound; cheese and substitutes therefor, 23 percent.
[25] Cheese having the eye formation characteristic of the Swiss or Emmenthaler type, 7½ cents per pound, but not less than 37½ percent ad valorem, by Presidential proclamation, effective July 8, 1927, under sec. 315.
[26] "Poultry" acts of 1922 and 1913.
[27] Live bobwhite quail, 25 cents each, by Presidential proclamation, effective Nov. 2, 1925, under sec. 315.

SCHEDULE 7.—*Agricultural products and provisions*—Continued

Paragraph, act of 1930	Classification	Rates of duty		
		Republican		Democratic, act of 1913
		Act of 1930	Act of 1922	
712	Birds, dead, dressed or undressed, fresh, chilled, or frozen: [4]			
	Chickens, ducks, geese, guineas	10 cents per lb	6 cents per lb	2 cents per lb.[28]
	Turkeys	10 cents per lb	6 cents per lb	2 cents per lb.[28]
	All other	10 cents per lb	8 cents per lb	30 percent.[28 29]
	All the foregoing, prepared or preserved in any manner and not specially provided for	10 cents per lb	35 percent	Free.[30]
713	Egg albumen:			
	Dried	18 cents per lb.[31]	18 cents per lb	3 cents per lb.
	Frozen or otherwise prepared or preserved, n. s. p. f.	11 cents per lb.[31]	6 cents per lb.[32]	1 cent per lb.
	Egg yolk:			
	Dried	18 cents per lb.[31]	18 cents per lb	10 percent.
	Frozen or otherwise prepared or preserved, n. s. p. f.	11 cents per lb.[31]	6 cents per lb.[32]	10 percent.
	Eggs of poultry, in the shell	10 cents per doz	8 cents per doz	Free.
	Whole eggs:			
	Dried	18 cents per lb.[31]	18 cents per lb	10 cents per lb.
	Frozen or otherwise prepared or preserved, n. s. p. f.	11 cents per lb.[31]	6 cents per lb.[32]	2 cents per lb.[28]
714	Horses and mules:			
	Valued at not more than $150 per head	$30 each [33]	$30 per head	10 percent.
	Valued at more than $150 per head	20 percent [33]	20 percent	10 percent.
722	Barley:			
	Flour	2 cents per lb	2 cents per lb	1 cent per lb.[34]
	Hulled	20 cents per bush.[35]	20 cents per bush.[35]	1 cent per lb.
	Malt	40 cents per 100 lbs	40 cents per 100 lbs	25 cents per bush.[36]
	Patent	2 cents per lb	2 cents per lb	1 cent per lb.
	Pearl	2 cents per lb	2 cents per lb	1 cent per lb.
	Unhulled	20 cents per bush.[35]	20 cents per bush.[35]	15 cents per bush.[36]
723	Buckwheat:			
	Flour and grits or groats [37]	½ cent per lb	½ cent per lb	Free.
	Hulled or unhulled [37]	25 cents per 100 lbs	10 cents per 100 lbs	Free.
724	Corn or maize, including cracked corn	25 cents per bush.[38]	15 cents per bush.[38]	Free.[39]
	Grits, meal, and flour, and similar products	50 cents per 100 lbs	30 cents per 100 lbs	Free.
726	Oats, hulled or unhulled	16 cents per bush.[40]	15 cents per bush.[40]	6 cents per bush.[40]
	Oatmeal, rolled oats, oat grits, and similar oat products	80 cents per 100 lbs	80 cents per 100 lbs	30 cents per 100 lbs.
	Unhulled ground oats	45 cents per 100 lbs	45 cents per 100 lbs	15 percent.
729	Wheat	42 cents per bush.[41]	30 cents per bush. [41 42]	Free.[43, 44]
	Crushed or cracked, and similar wheat products, n. s. p. f.	$1.04 per 100 lbs	78 cents per 100 lbs.[42]	Free.[44]
	Flour and semolina	$1.04 per 100 lbs	78 cents per 100 lbs.[42]	Free.[43 44]
	Unfit for human consumption	10 percent	30 cents per bush. [41 42]	Free. [44]
738	Cider	5 cents per gal	5 cents per gal	2 cents per gal.
	Vinegar	8 cents per proof gal.[45]	6 cents per proof gal.[45]	4 cents per proof gal.[46]
763	Grass seeds and other forage crop seeds: [47 48]			
	Alfalfa	8 cents per lb	4 cents per lb	Free.[49]
	Alsike clover	8 cents per lb	4 cents per lb	Free.[49]
	Crimson clover	2 cents per lb	1 cent per lb	Free.[49]
	Red clover	8 cents per lb	4 cents per lb	Free.[49]
	White clover	6 cents per lb	3 cents per lb	Free.[49]
	Ladino clover [50]	6 cents per lb	2 cents per lb	Free.[49]
	Sweetclover [50]	4 cents per lb	2 cents per lb	Free.[49]
	Clover, n. s. p. f.	3 cents per lb	2 cents per lb	Free.[49]
	Millet	1 cent per lb	1 cent per lb	Free.[49]
	Orchard grass [50]	5 cents per lb	2 cents per lb	Free.[49]
	Rye grass [50]	3 cents per lb	2 cents per lb	Free.[49]
	Timothy	2 cents per lb	2 cents per lb	Free.[49]
	Hairy vetch	3 cents per lb	2 cents per lb	Free.[49]
	Other vetch [50]	1½ cents per lb	2 cents per lb	Free.[49]
	Bentgrass (genus *Agrostis*) [50]	40 cents per lb	2 cents per lb	Free.[49]
	Bluegrass [50]	5 cents per lb	2 cents per lb	Free.[49]
	Tall oat [50]	5 cents per lb	2 cents per lb	Free.[49]
	All other grass and forage-crop seeds, n. s. p. f.[48]	2 cents per lb	2 cents per lb	Free.[49]
779	Hay	$5 per short ton	$4 per long ton	$2 per long ton
	Straw	$1.50 per short ton	$1 per long ton	50 cents per long ton.
	Broomcorn	$20 per short ton	Free	Free.
	Rice straw and rice fiber	$10 per short ton	Free	Free.

[4] "Chilled or frozen" added by act of 1930.
[28] Including the weight of the immediate coverings or containers.
[29] Game birds, dressed.
[30] * * * meats of all kinds, * * * preserved, not specially provided for in this section.
[31] "Whether or not sugar or other material is added."
[32] 7½ cents per pound, by Presidential proclamation, effective Mar. 22, 1929, under sec. 315.
[33] "Unless imported for immediate slaughter."
[34] Patent barley.
[35] Of 48 pounds.
[36] Of 34 pounds.
[37] "And grits or groats" and "hulled or unhulled" added by act of 1922; grits held free as flour under act of 1913.
[38] Of 56 pounds.
[39] Emergency Tariff Act of 1921: Corn or maize, 15 cents per bushel of 56 pounds.
[40] Of 32 pounds.
[41] Of 60 pounds.
[42] Rates increased to 42 cents per bushel on wheat, to $1.04 per 100 pounds on wheat flour, semolina, crushed or cracked wheat, and similar wheat products not specially provided for; and decreased to 7½ per cent on bran, shorts, and by-product feeds obtained in milling wheat, by Presidential proclamation, effective Apr. 6, 1924, under sec. 315.
[43] *Provided*, That wheat shall be subject to a duty of 10 cents per bushel, that wheat flour shall be subject to a duty of 45 cents per barrel of 196 pounds, and semolina and other products of wheat, n. s. p. f., 10 per cent, when imported directly or indirectly from a country, dependency, or other subdivision of government which imposes a duty on wheat or wheat flour or semolina imported from the United States.
[44] Emergency Tariff Act of 1921: Wheat, 35 cents per bushel; wheat flour and semolina, 20 per cent.
[45] *Provided*, That the standard proof for vinegar shall be 4 per cent by weight of acetic acid.
[46] The standard proof for vinegar shall be taken to be that strength which requires 35 grains of bicarbonate of potash to neutralize 1 ounce troy of vinegar.
[47] Other forage crop seeds, act of 1930.
[48] "*Provided*, That no allowance shall be made for dirt or other impurities in seed of any kind" (act of 1930. Similar provision in act of 1922).
[49] "All grass and flower seeds," n. s. p. f.
[50] Ladino clover, sweetclover, orchard grass, rye grass, other vetch, bent-grass (genus *Agrostis*), bluegrass, tall oat, new in act of 1930.

From the foregoing, it will appear that the Democratic Party placed almost every farm product of the North on the free list, or on a very low-duty basis, whereas, the Republicans in writing the 1922 and 1930 Tariff Acts placed moderate or high duties upon foreign farm products. The foregoing should be satisfactory proof as to the position of these two political parties in regard to protecting the American farmer from too severe competition from the countries producing farm products upon levels one-half lower than such products can be produced by the American farmer, his wife, and family.

Another item is schedule 11, which deals in wool and wool products. A table is also herein set out which will show that the Democrats placed wool upon the free list; and again the Republicans came to the rescue and placed a duty of 20 to 35 cents per pound upon wool imported from foreign countries, Australia importing large quantities of wool in the face of the duties mentioned. This tabulation is taken from the same source as the table quoted above.

SCHEDULE 11.—*Wool and manufactures of*[1]

Paragraph, act of 1930	Classification	Rates of duty		
		Republican		Democratic, act of 1913
		Act of 1930	Act of 1922	
1101(a)	Wools:[2] Donskoi, Smyrna, Cordova, Valparaiso, Ecuadorean, Syrian, Aleppo, Georgian, Turkestan, Arabian, Baghdad, Persian, Sistan, East Indian, Thibetan, Chinese, Manchurian, Mongolian, Egyptian, Sudan, Cyprus, Sardinian, Pyrenean, Oporto, Iceland, Scotch Blackface, Black Spanish, Kerry, Haslock, and Welsh Mountain; similar wools without merino or English blood; all other wools of whatever blood or origin not finer than 40s; and hair of the camel:			
	In the grease or washed	24 cents per lb.[3]		Free.[4]
	Scoured	27 cents per lb.[3]		Free.[4]
	On the skin	22 cents per lb.[3]		Free.[4]
	Sorted, or matchings, if not scoured	25 cents per lb.[3]		Free.[4]
	Provided, That a tolerance of not more than 10 percent of wool not finer than 44s may be allowed in each bale or package of wools imported as not finer than 40s: *Provided further*, That all the foregoing may be imported under bond in an amount to be fixed by the Secretary of the Treasury and under such regulations as he shall prescribe; and if within 3 years from the date of importation or withdrawal from bonded warehouse satisfactory proof is furnished that the wools or hair have been used in the manufacture of yarns which have been used in the manufacture of press cloth, camel's hair belting, rugs, carpets, or any other floor covering, or in the manufacture of knit or felt boots or heavy fulled lumbermen's socks, the duties shall be remitted or refunded: *And provided further*, That if any such wools or hair imported under bond as above prescribed are used in the manufacture of articles other than press cloth, camel's hair belting, rugs, carpets, or any other floor coverings, or knit or felt boots or heavy fulled lumbermen's socks, there shall be levied, collected, and paid on any such wools or hair so used in violation of the bond, in addition to the regular duties provided by this paragraph, 50 cents per pound, which shall not be remitted or refunded on exportation of the articles or for any other reason.[5]			
	Wools, not improved by the admixture of merino or English blood, such as Donskoi, native Smyrna, native South America, Cordova, Valparaiso, and other wools of like character or description, and hair of the camel:			
	In the grease		12 cents per lb.	
	Scoured		21 cents per lb.	
	Washed		18 cents per lb.	
	On the skin		11 cents per lb.	
1102 (a)	Wools, n. s. p. f., not finer than 44s:			
	In the grease or washed	29 cents per lb.[3]	31 cents per lb.[3]	Free.[4]
	Scoured	32 cents per lb.[3]	31 cents per lb.[3]	Free.[4]
	On the skin	27 cents per lb.[3]	30 cents per lb.[3]	Free.[4]
	Sorted, or matchings, if not scoured	30 cents per lb.[3]	31 cents per lb.[3]	Free.[4]
	Provided, That a tolerance of not more than 10 per centum of wools not finer than 46s may be allowed in each bale or package of wools imported as not finer than 44s.			
1102 (b)	Wools, n. s. p. f.:			
	In the grease or washed	34 cents per lb.[3]	31 cents per lb.[3]	Free.[4]
	Scoured	37 cents per lb.[3]	31 cents per lb.	Free.[4]
	On the skin	32 cents per lb.[3]	30 cents per lb.[3]	Free.[4]
	Sorted, or matchings, if not scoured	35 cents per lb.[3]	31 cents per lb.[3]	Free.[4]
	Hair of the Angora goat, Cashmere goat, alpaca, and other like animals:			
	In the grease or washed	34 cents per lb.[3]	31 cents per lb.[3]	15 per cent.[4]
	Scoured	37 cents per lb.[3]	31 cents per lb.[4]	15 per cent.[4]
	On the skin	32 cents per lb.[3]	30 cents per lb.[3]	15 per cent.[4]
	Sorted, or matchings, if not scoured	35 cents per lb.[3]	31 cents per lb.[3]	15 per cent.[4]

[1] Emergency Tariff Act of 1921: Par. 19. Wool and hair of the kind provided for in paragraph 18, when advanced in any manner or by any process of manufacture beyond the washed or scoured condition, and manufactures of which wool or hair of the kind provided for in paragraph 18 is the component material of chief value, 45 cents per pound in addition to the rates of duty imposed thereon by existing law.

[2] Under the act of 1922, wools improved by the admixture of merino or English blood were dutiable in the grease or washed, at 31 cents per pound of clean content.

[3] Of clean content.

[4] Emergency Tariff Act of 1921: Par. 18. Wool, commonly known as clothing wool, including hair of the camel, angora goat, and alpaca, but not such wools as are commonly known as carpet wools: Unwashed, 15 cents per pound; washed, 30 cents per pound; scoured, 45 cents per pound. Unwashed wools shall be considered such as shall have been shorn from the animal without any cleaning; washed wools shall be considered such as have been washed with water only on the animal's back or on the skin; wools washed in any other manner than on the animal's back or on the skin shall be considered as scoured wool. On wool and hair provided for in this paragraph, which is sorted or increased in value by the rejection of any part of the original fleece, the duty shall be twice the duty to which it would otherwise be subject, but not more than 45 cents per pound.

[5] Act of 1922: *Provided*, That such wools may be imported under bond in an amount to be fixed by the Secretary of the Treasury and under such regulations as he shall prescribe; and if within three years from the date of importation or withdrawal from bonded warehouse satisfactory proof is furnished that the wools have been used in the manufacture of rugs, carpets, or any other floor coverings, the duties shall be remitted or refunded: *Provided further*, That if any such wools imported under bond as above prescribed are used in the manufacture of articles other than rugs, carpets, or any other floor coverings, there shall be levied, collected, and paid on any wools so used in violation of the bond, in addition to the regular duties provided by this paragraph, 20 cents per pound, which shall not be remitted or refunded on exportation of the articles or or any other reason.

f

While our good Democratic friends were placing most of the northern farm products upon the free list, they did not forget to give attention to tobacco, which is almost exclusively a southern product. I am setting out the table, from the same source, showing the duties which they placed upon this product, and which have been continued through fairness and generosity of the Republicans.

SCHEDULE 6.—*Tobacco and manufactures of*

Paragraph, act of 1930	Classification	Rates of duty		
		Republican		Democratic, act of 1913
		Act of 1930	Act of 1922	
601	Wrapper tobacco, and filler tobacco when mixed or packed with more than 35[1] per cent of wrapper tobacco, and all leaf tobacco the product of 2 or more countries or dependencies when mixed or packed together—			
	Unstemmed	$2.275 per lb.	$2.10 per lb.	$1.85 per lb.[2]
	Stemmed	$2.925 per lb.	$2.75 per lb.	$2.50 per lb.[2]
603	All other tobacco manufactured or unmanufactured, n. s. p. f.	55 cents per lb.	55 cents per lb.	55 cents per lb.
	Scrap tobacco	35 cents per lb.	35 cents per lb.	35 cents per lb.
605	Cigars, cigarettes, cheroots of all kinds	$4.50 per lb. and 25 percent.	$4.50 per lb. and 25 percent.	$4.50 per lb. and 25 percent.
	Paper cigars and cigarettes, including wrappers	$4.50 per lb. and 25 percent.	$4.50 per lb. and 25 percent.	$4.50 per lb. and 25 percent.

[1] The percentage specified in Tariff Act of 1913 and the Emergency Tariff Act of 1921 was 15 percent.

[2] Emergency Tariff Act of 1921: $2.35 per pound. (See footnote 1 above.)

[3] Emergency Tariff Act of 1921: $3 per pound. (See footnote 1 above.)

It might interest you to also know that when the 1930 Tariff Act was passed the vote was recorded by party affiliation, as follows:

Vote on 1930 Tariff Act, House of Representatives

For:	
Republicans	244
Democrats	[1] 20
Total for	264
Against:	
Democrats	140
Republicans	7
Total against	147

[1] Most of the 20 Democrats voting for the bill came from the States of Louisiana and Florida, and they were interested in protecting sugar and fruit.

It would take volumes to carry the criticism and objection to the last tariff act, made by Democratic Members of the Congress and their leaders, and they have until recently insisted that they expected to repeal the measure.

However, through the reciprocal trade treaties, boring undercover, without public hearing so those interested might appear and voice objection, these secret treaties are negotiated, and are cleverly and consistently selling out the protection the northern farmer has had under the last Republican tariff act.

So that the farmer may have the latest information concerning the "trade out" to which he has been subjected, I am inserting a table taken from a publication issued by the United States Tariff Commission entitled "Changes in Import Duties Since the Passage of the Tariff Act of 1930", and this table is arranged the same as the tables hereinbefore inserted.

SCHEDULE 7.—*Agricultural products and provisions*

Par. no.	Articles	Rate changed	Effective proclaimed duty	Effective date and basis of change
701	Cattle, weighing less than 175 pounds each	2½ cents per pound	1½ cents per pound	Jan. 1, 1936; Canadian agreement.
701	Cattle, weighing 700 pounds or more each and not specially provided for	3 cents per pound	2 cents per pound	Do.
701	Cows, weighing 700 pounds or more each and imported specially for dairy purposes	do	1½ cents per pound	
	Provided, That none of the foregoing entered, or withdrawn from warehouse, for consumption in excess of the quantities respectively specified below in any calendar year after 1935 shall be subjet to the above provisions:			
	Cattle, weighing less than 175 pounds each: ¼ of 1 percent of the average annual total number of cattle (including calves) slaughtered in the United States during the calendar years 1928 to 1932, both inclusive (51,933 head).			
	Cattle, weighing 700 pounds or more each and not specially provided for: ¾ of 1 percent of the average annual total number of cattle (including calves) slaughtered in the United States during the calendar years 1928 to 1932, both inclusive (155,799 head).			
	Cows, weighing 700 pounds or more each and imported specially for dairy purposes: 20,000 head.			
707	Cream, fresh or sour	56.6 cents per gallon	35 cents per gallon	Do.
	Provided, That fresh or sour cream entered for consumption in excess of 1,500,000 gallons in any calendar year after 1935 shall not be subject to this provision.			
711	Birds, live: Chickens, ducks, geese, turkeys, and guineas	8 cents per pound	4 cents per pound	Do.
712	Birds, dead, dressed or undressed, fresh, chilled, or frozen: Chickens and guineas	10 cents per pound	6 cents per pound	Do.
714	Horses, unless imported for immediate slaughter, valued at not more than $150 per head	$30 per head	$20 per head	Do.
716	Honey	$0.024 per pound (from Cuba).	$0.012 per pound (from Cuba).	Sept. 3, 1934; Cuban agreement.
724	Corn or maize, including cracked corn	$0.20 per bushel of 56 pounds (from Cuba).	$0.10 per bushel of 56 pounds (from Cuba).	Do.
726	Hulled oats, unfit for human consumption	16 cents per bushel of 32 pounds.	8 cents per bushel of 32 pounds.	Jan. 1, 1936; Canadian agreement.
734	Apples, green or ripe	25 cents per bushel of 50 pounds.	15 cents per bushel of 50 pounds.	Do.
763	Grass seeds and other forage crop seeds:			
	Alfalfa	8 cents per pound	4 cents per pound	Do.
	Alsike clover	do	do	Do.
	Sweetclover	4 cents per pound	2 cents per pound	Do.
	Timothy	2 cents per pound	1 cent per pound	Do.
	Bluegrass	5 cents per pound	2½ cents per pound	Do.
764	Other garden and field seeds:			
	Beet (except sugar beet)	4 cents per pound	3 cents per pound	Feb. 1, 1936; Netherland agreement.
	Cabbage	12 cents per pound	6 cents per pound	Do.
	Carrot	4 cents per pound	3 cents per pound	Do.
	Kale	6 cents per pound	do	Do.
	Mangelwurzel	4 cents per pound	2 cents per pound	Do.
	Radish	6 cents per pound	3 cents per pound	Do.
	Spinach	1 cent per pound	½ cent per pound	Do.
	Turnip	5 cents per pound	4 cents per pound	Do.
	Rutabaga	do	do	Do.
	Flower	6 cents per pound	3 cents per pound	Do.
	All other garden and field seeds not specially provided for	do	do	Do.
771	White or Irish seed potatoes, certified by a responsible officer or agency of a foreign government in accordance with the official rules and regulations of that government to have been grown and approved especially for use as seed, in containers marked with the foreign government's official certified seed potato tags, when entered for consumption during the period—			
	From Dec. 1 to the last day of the following February, inclusive, in any years	75 cents per 100 pounds	60 cents per 100 pounds	Jan. 1, 1936; Canadian agreement.
	From Mar. 1 to Nov. 30, inclusive, in any year	do	45 cents per 100 pounds	Do.
	Provided, That such potatoes entered for consumption in excess of an aggregate quantity of 750,000 bushels of 60 pounds each in the 12-month period beginning on Dec. 1 in any year shall not be subject to this provision.			

With a free-trade or low-tariff President and a Cabinet even more pronounced in this respect than their chief, and who have direct charge of negotiating these secret treaties, and with an overwhelming Democratic Congress, which has not lifted its hand in one instance to assist the farmer in this contest, or to protest or to stay such treaty action, who would claim that the farmer can get assistance from a Democratic administration? If a jury was called upon to render a verdict on such facts, being instructed to follow the evidence, I insist we would agree that there would be little doubt as to the finding of the jury. Will Democratic alibis be accepted in the face of the incontrovertible facts above set forth?

A short time ago farmers from eight of the principal agricultural States met at Sioux City, Iowa, and passed clear and decisive resolutions against the reciprocal-tariff policies of the Roosevelt administration. They did this because they were informed as to the tremendous increase in importation

of farm products. Here I am inserting a table to show the great increase in farm imports under the benevolent foreign-trade policies of the present administration.

		1932 imports	1935 imports
Corn	bushels	347,627	43,242,296
Oats	do	58,786	10,106,903
Wheat	do	10,026,320	27,438,870
Barley, malt	pounds	52,532,636	320,622,537
Rye	bushels	87	9,642,523
Tapioca	pounds	130,000,372	202,112,319
Hay	tons	13,858	67,171
Soybeans	pounds	36,568,700	107,463,044
Cottonseed	do	1,058,945	59,743,572
Butter	do	1,052,598	22,674,642
Cattle	number	95,407	364,623
Hogs	pounds	28,875	3,414,317
Fresh pork	do	1,657,500	3,922,609
Hams, bacon, etc	do	3,015,489	5,297,335
Fresh beef	do	796,594	8,584,114
Canned meats	do	24,638,261	76,653,242
Total meat products	do	45,706,926	115,059,124
Eggs, in shell	dozen	243,784	432,076
Dried yolks	pounds	726,400	3,952,664
Frozen yolks	do	422,060	1,199,772
Egg albumen	do	1,275,790	1,876,445
Wool and mohair	do	56,535,176	202,732,658
Dried milk	do	596,448	2,743,349
Hides	do	188,013,286	303,475,633
Inedible molasses	gallons	155,888,307	235,161,684

Think how many American farmers would have prospered if these gigantic imports of foodstuffs had been raised on their farms.

Think how many farmhands would have had honest work instead of relief.

Think how much cheaper to you and me, as consumers, the home-raised product would have been as compared with the foreign-raised product which was shipped here, long distances, from overseas.

In connection with the sharp reduction in farm duties made by the present administration, with a southern Secretary of State in charge of negotiating the reciprocal trade treaties, it is interesting to observe that no reductions have been made on any important product raised in the southern part of the country. The northern farmer, without notice or without an opportunity to object, was sacrificed whenever a treaty was made. This statement is confirmed by the quotations recited above, from schedule 7, Agricultural Products and Divisions, of the document entitled "Changes in Import Duties Since the Passage of the Tariff Act of 1930."

The present administration is urging the reduction of crops and livestock in the Mississippi Valley and other farming sections, but is sponsoring a program of irrigation and reclamation in the West, and has already started projects which will cost $2,000,000,000 when completed. This program will prove as harmful to the farmer who is now in business as the reduction of duties on farm imports.

This policy is unsound and will bankrupt more farmers in the area where these projects are to be located and will produce surplus farm crops to break down the prices of products from farms now in operation. Most of these projects were not approved by the Congress but were started by the President with funds at his disposal, without restrictions.

The farmer in Iowa and in the great agricultural section of the so-called prairie States is faced with this practical situation: Are corn and wheat, cattle, hogs, and sheep to take a second place, or back seat, and allow the cotton and tobacco farmer to have charge of agricultural legislation?

The facts set out in the foregoing tables cannot be disputed, even though they present a picture that is not favorable to the major or most important agricultural interests of the country.

As a farmer, do you propose to ride in the back seat, or do you prefer to sit in the front seat and hold the lines, or the wheel?

THE VETERAN AND THE ROOSEVELT ADMINISTRATION

Mr. THURSTON. Mr. Speaker, I ask unanimous consent to extend my remarks and to include therein certain excerpts and tables.

The SPEAKER. Is there objection to the request of the gentleman from Iowa?

There was no objection.

Mr. THURSTON. Mr. Speaker, in the past there has been considerable said and written as to which political party has been more friendly to the American veteran—the Republican or the Democratic. Partisans usually deal in conclusions or unsupported assertions; hence I prefer to submit a letter on this subject from Hon. Frank T. Hines, Administrator of the Veterans' Administration, dated at Washington, D. C., on June 19, 1936, and supplement the same by tables accompanying such letter.

VETERANS' ADMINISTRATION,
Washington, June 19, 1936.

Hon. LLOYD THURSTON,
House of Representatives, Washington, D. C.

MY DEAR MR. THURSTON: This is in reply to your letter of June 13, 1936, requesting a tabulated statement showing the number of special pension bills passed by the Seventieth, Seventy-first, Seventy-second, Seventy-third, and Seventy-fourth Congresses, respectively.

There is enclosed herewith a table giving the information which you have requested. There have been included all private acts, those by way of omnibus pension legislation and individual private bills. For your convenience there has also been given the aggregate number of private bills comprehended within the omnibus pension legislation for the separate Congresses.

Very truly yours,

FRANK T. HINES, *Administrator.*

Private pension bills, Seventieth, Seventy-first, Seventy-second, Seventy-third, and Seventy-fourth Congresses

Private	Subject	Date
	SEVENTIETH CONGRESS	
135	Omnibus pension bill, increase pension Civil War	May 15, 1928
178	do	May 24, 1928
210	Omnibus pension bill, increase pension soldiers and sailors other than Civil War	May 28, 1928
227	Omnibus pension bill, increase pension other than Civil War	May 29, 1928
391	Omnibus pension bill, increase pension Civil War	Feb. 20, 1929
392	Omnibus pension bill, increase pension veterans other than Civil War	Do.
426	Wood, Leonard, increase of pension to Louise A. Wood	Feb. 28, 1929
433	Wilson, Edith Bolling, grant pension	Do.
444	Allen, Alonzo Duward, compensation	Mar. 1, 1929
453	Fulper, Wm. H., Government insurance to Etta Pearce Fulper	Do.
470	Byrne, Leo, compensation for Reserve officers' training, injuries as student	Mar. 2, 1929
492	Poore, Raymond F. (XC-541245), reimburse Timothy Henlon $28.50 for funeral expenses	Do.
502	Goode, Wm. F., reimburse for medical and hospital expenses	Do.
504	Sanger, Paul E., $5,000 insurance to Maude A. Sanger, mother	Do.
554	Callahan, Francis X., emergency officers' retirement benefits	Do.
558	Mathison, Chas. W. (XC-223119), relief of parents of	Mar. 4, 1929
565	Omnibus pension bill, pension to soldiers and dependents other than Civil War	Do.
566	Helms, John J., adjusted-compensation benefits	Do.
	(Total number of special acts incorporated in omnibus bills, 7,569.)	
	SEVENTY-FIRST CONGRESS	
22	Omnibus pension bill, Civil War widows and dependents	Apr. 18, 1930
30	Milner, Drinkard B., emergency officers' retirement benefits	May 14, 1930
32	Pettersson, Viktor, $1,500 insurance to heirs	May 16, 1930
35	Omnibus pension bill, Civil War veterans, widows, and dependents	May 19, 1930
38	Omnibus pension bill, veterans, widows, and dependents of veterans other than Civil War	May 23, 1930
64	Burke, Charles L., insurance to foster mother, Frances Linker	June 9, 1930
66	Omnibus pension bill, Civil War veterans	Do.
89	Omnibus pension bill, Regular Army soldiers and sailors	June 13, 1930
286	Hudson, James M., $50 pension and honorable discharge	Jan. 29, 1931
287	Manske, Henry, compensation for line-of-duty injuries	Do.
308	Chatkoff, Herman Lincoln, hospital treatment and compensation	Feb. 5, 1931
330	Cramton, Alonzo, $30 pension to widow, Lois Cramton	Feb. 13, 1931
342	Omnibus pension bill, Civil War veterans, widows, and children	Feb. 17, 1931
343	Omnibus pension bill, Civil War veterans	Do.
346	do	Do.
347	Omnibus pension bill, Regular Army, Navy, etc	Do.
475	Greene, Frank L., $150 per month pension to widow, Jesse R. Green	Mar. 4, 1931
	(Total number of special acts incorporated in omnibus bills, 5,743.)	
	SEVENTY-SECOND CONGRESS	
1	Omnibus pension bill, Civil War	Feb. 4, 1932
11	MacDonald, Harriet, compensation and hospitalization (citizenship)	Mar. 16, 1932
114	Ballard, Grover Cleveland, $246.72 reimbursement for reamputation of leg.	July 1, 1932
238	Thayer, Sydney, Jr. (C-1367324), emergency officers' retirement benefits.	Mar. 2, 1933
244	Eopolucci, John E., insurance to mother, Annie Eopolucci.	Do.
	(Total number of special acts incorporated in omnibus bill, 428.)	
	SEVENTY-THIRD CONGRESS	
194	Artz, Frank J. (SC-648836), Civil War veteran, pay estate $300 back pension.	June 6, 1934

Private pension bills, Seventieth, Seventy-first, Seventy-second, Seventy-third, and Seventy-fourth Congresses—Continued

Private	Subject	Date
	SEVENTY-FOURTH CONGRESS	
341	Cannell, John S. (XC-160793), to grant line of duty for death cause; allow adjusted compensation to dependents.	Aug. 29, 1935
435	Bingham, Wilson G. (C-1396225), emergency officers' retirement benefits.	Mar. 16, 1936
439	Spry, James Steward (XC-632516), insurance to widow, Lydia C. Spry.	Apr. 10, 1936
244	Cruikshank, Marcus S., pay E. Jeanmonod, undertaker, for expenses incurred in preparation of body for burial and shipping to United States.	Aug. 20, 1935

This table shows the number of pension bills passed during the Seventieth, Seventy-first, Seventy-second, Seventy-third, and Seventy-fourth sessions of the United States Congress.

The Seventieth Congress contained a majority of Republican Members in both the House and Senate, and at that time a Republican was President. The total number of bills passed during this session was 7,569.

The Seventy-first Congress also contained a majority of Republicans in both the House and the Senate, under a Republican President, and the number of pension bills passed was 5,743.

While a Republican President was in office during the Seventy-second Congress, the House contained a Democratic majority, and the Senate was but nominally Republican. The total pension bills passed by this Congress were 428.

The Seventy-third Congress, which took office under President Roosevelt, had a large Democratic majority in both the House and the Senate. The two sessions of that Congress were actively engaged in legislative matters for many months, but enacted only one pension bill for the veterans.

Likewise, the Seventy-fourth Congress, under President Roosevelt, had a membership containing three times as many Democrats as Republicans, but only four pension bills were passed during the many months this Congress was in session, and one of these bills was to reimburse a foreign undertaker.

To summarize the attitude of the Republican and Democratic Parties, by acts or deeds, rather than by campaign promises, it appears that the last two Congresses under Republican control—the Seventieth and Seventy-first Congresses—passed 13,312 pension bills for veterans or their dependents, or an average of 6,656 for each of the two Congresses.

The Seventy-second Congress was under the joint control of the Republican and Democratic Parties, and the number of special pension acts dropped to 428, about one-fifteenth of the average under the two preceding Republican Congresses.

The Seventy-third Congress, coming to power under Roosevelt, with a large Democratic majority in both the House and the Senate, passed just one pension bill.

The Seventy-fourth Congress, being the second Congress under Roosevelt, had more than three times as many Democratic as Republican Members in the House of Representatives, the Senate having even a greater proportion of Democratic power, and according to the table above submitted, passed just four pension bills.

To summarize the pension bills passed by the Democratic Seventy-third and Seventy-fourth Congresses bring forth a magnificient total of five bills, or an average of two and one-half from each Congress. It may be proper, although disappointing, to compare the Democratic average just mentioned, 2½, with the Republican average of 6,656—2,400 to 1.

It must be remembered that the foregoing figures have been compiled from tables furnished by officials of the present Democratic administration. So much for precise, definite facts.

While the same Seventy-third and Seventy-fourth Democratic Congresses, acting under the dictation of President Roosevelt, were refusing to consider many meritorious bills concerning errors in discharge papers and other technical bars against relief or aid for veterans, these same Democratic Congresses had ample time to appropriate huge sums of money for relief and employment of aliens, several hundred thousand, if not two or three million in number. Doubtless many of this number had served in enemy armies during the recent war. An American veteran would seldom obtain Federal employment unless he would take a pauper's oath, or could show he was the subject of relief.

It might be interesting, even humiliating, to add that the present administration during that last session of the Congress was able to defeat a proposal to exclude aliens here illegally from relief or employment. Notwithstanding the long-established policy of other nations in positively refusing to feed, clothe, or shelter noncitizens, Republicans were unable to write in a provision to prohibit alien relief and employment.

It will be recalled that the present administration sponsored and jammed through the Congress the so-called economy bill, which removed several hundred thousand veterans from the pension rolls and unfairly reduced allowances to other veterans. Harsh regulations were announced requiring evidence that could not possibly be obtained, thereby penalizing veterans who had served prior to the World War. New regulations requiring strict construction of evidence submitted by World War veterans were next required.

It was only a few months later that the National Recovery Act was inaugurated, and as soon as the many codes were promulgated and funds from assessments and penalties were pouring in, it was disclosed that some of the part-time N. R. A. officials were drawing salaries of twenty and even thirty and forty thousand dollars each for a few months' services each year, mainly in increasing the prices of the necessities of life. To date no one has heard of any reduction or reclaiming any portion of the exorbitant salaries paid to these temporary officials. The Government contractors, whether for battleships or public buildings, and all the big concerns enjoying guranteed or plus contracts, some with profits above wartime, received these preferences within a short time after the paring knife had been applied to the allowance of the veteran.

The foregoing contains only a few instances out of a great many that might be enumerated. Republicans invite veterans to examine the records of the two political parties in respect to this subject.

In closing, it might be pertinent to suggest that the veteran read the two messages written by President Roosevelt, accompanying his two veto messages on the bonus. These documents can be obtained from any Member of the Congress or from the Government Printing Office.

DIVISION OF WATER POLLUTION CONTROL IN THE BUREAU OF THE PUBLIC HEALTH SERVICE

Mr. MANSFIELD. Mr. Speaker, I move to suspend the rules and pass the bill (H. R. 12764) to create a Division of Water Pollution Control in the Bureau of the Public Health Service, and for other purposes, as amended.

The Clerk read the bill, as follows:

Be it enacted, etc., That there is hereby established in the Bureau of the Public Health Service a Division of Water Pollution Control. Such division shall be in charge of a director, who shall be a commissioned engineer officer of the United States Public Health Service detailed by the Surgeon General of the Public Health Service. Such engineer officer, while serving as director, shall have the rank of an Assistant Surgeon General of the Public Health Service, subject to the provisions of law applicable to assistant surgeon generals in charge of administrative divisions in the District of Columbia of the Bureau of Public Health Service.

SEC. 2. (a) The Division of Water Pollution Control shall, after careful investigation and in cooperation with the agencies of the several States authorized or designated by law to deal with water pollution, prepare a comprehensive plan for eliminating or reducing the pollution and improving the sanitary condition of the navigable waters of the United States and streams tributary thereto. In the development of such comprehensive plan due regard shall be given to the improvements which are necessary to conserve such waters and promote their use for public water supplies, propagation of fish and aquatic life, recreational purposes, agricultural, industrial, and other legitimate uses and for this purpose the Division of Water Pollution Control is authorized to make joint investigations with the aforesaid agencies of any State or States of the condition of any waters either navigable or otherwise and the discharges of any sewage, industrial wastes, or deleterious substances which may adversely affect such waters.

(b) The Division of Water Pollution Control shall encourage cooperative activities by the several States for the prevention and abatement of water pollution; encourage the enactment of uniform State laws relating to water pollution; encourage compacts between the several States for the prevention and abatement of water pollution; collect and disseminate information; make available to State agencies the results of surveys, studies, and experiments conducted by it and other agencies, public and private; assign experts in its employ or, with the approval of the head of the department or agency concerned, in the employ of any other department or agency of the Government; and furnish such assistance to State agencies as may be authorized by law.

SEC. 3. The Division of Water Pollution Control, upon request of any State health authority or authorities and subject to the approval of the Surgeon General, shall conduct investigations and make surveys of any specific problem of water pollution confronting any State, drainage-basin authority, community, or municipality with a view to effecting a solution of such problem or problems, and shall make definite recommendations for the correction or elimination of the conditions found to exist.

SEC. 4. The Public Health Service shall prepare and publish, from time to time, reports of such studies, investigations, and surveys as shall be made under the authority of this act, together with appropriate recommendations with regard to the control of pollution of the waters of the United States.

SEC. 5. Any State, municipality, or other public body which is discharging untreated or inadequately treated sewage or waste into waters of any area is hereby declared to be eligible to Federal aid in the form of grants-in-aid and/or loans for the construction of necessary remedial-treatment works, in accordance with plans approved by the respective State board or department of health and by the Surgeon General of the Public Health Service. Such loans and grants-in-aid shall be made upon such terms and conditions as the President may prescribe, subject to the following limitations: (1) Loans or grants-in-aid shall be made only upon the certification of the State board or department of health having jurisdiction and with the approval of the Surgeon General of the Public Health Service and (2) no grant-in-aid shall be made in respect to any project of an amount in excess of 33⅓ percent of the cost of the labor and materials employed upon such project, including the cost of preparation of plans and the carrying of same into execution.

SEC. 6. Any person discharging untreated or inadequately treated sewage or waste deleterious to the waters within any area is hereby declared to be eligible to Federal aid in the form of loans for the construction of necessary remedial-treatment works in accordance with plans approved by the respective State board or department of health and with the approval of the Surgeon General of the Public Health Service. Such loans shall be made upon such terms and conditions as the President may prescribe, subject to the following limitation: Loans shall be made only upon the certification of the State board or department of health having jurisdiction and upon approval of the Surgeon General of the Public Health Service.

SEC. 7. The Surgeon General shall make estimates of the amount of money required each year for the extension, under the provisions of sections 5 and 6, of Federal aid in the form of grants-in-aid or loans to any States, municipalities, or other public bodies or in the form of loans to persons within any area. The Surgeon General shall transmit such estimates through the Secretary of the Treasury to the President, who shall transmit the same to the Congress, together with any recommendations he may deem advisable. There are authorized to be appropriated such amounts as may be necessary to carry out the purposes of sections 5 and 6. Grants and loans provided for in such sections shall be made by the Secretary of the Treasury in accordance with such rules and regulations as he may prescribe for projects approved under such sections provided they have been approved by the Surgeon General of the United States Public Health Service.

SEC. 8. There is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year commencing July 1, 1936, and for each year thereafter the sum of $300,000 to defray the expenses of the establishment and maintenance of the Division of Water Pollution Control in the Bureau of the Public Health Service and to be used for the investigations made under this act.

SEC. 9. There is hereby authorized to be appropriated the sum of $700,000 annually for 10 fiscal years beginning with the fiscal year commencing July 1, 1936, to be paid to the States for expenditures by or under the direction of their respective State boards or departments of health in the promotion, investigation, surveys, and studies necessary in the prevention and control of water pollution; this sum to be allotted, under the supervision of the Surgeon General of the Public Health Service, to the States in accordance with rules and regulations prescribed by the Secretary of the Treasury.

SEC. 10. (a) For the administration of this act the Secretary of the Treasury may, upon recommendation of the Surgeon General, appoint, such engineers, attorneys, experts, research assistants, examiners, and consultants as may be necessary, and fix their compensation, in the manner provided by law for appointment and compensation of such personnel of the Public Health Service; and the Surgeon General is authorized to transfer, assign, or detail to the division, from any other division of the Public Health Service, such professional and scientific personnel as may be available.

(b) Such clerks, stenographers, and other employees as may be necessary to discharge the duties of said division shall be appointed by the Secretary of the Treasury, and he shall prescribe such rules and regulations with respect to their duties as he may find necessary.

(c) The Secretary of the Treasury with the consent of the Secretary of any other department of the Federal Government may utilize such officers and employees of said department to assist in carrying out the purposes of this act. The appropriation from which they are paid shall be reimbursed from the appropriations made pursuant to section 9 of this act to the extent of their salaries and allowances for service performed while so engaged.

SEC. 11. When used in this act the term "person" means an individual, a partnership, a private corporation, an association, a joint-stock company, trust, or estate.

SEC. 12. If any provision of this act is held invalid, the remainder of the act shall not be affected thereby.

SEC. 13. This act may be cited as the Water Pollution Act.

Mr. MARSHALL. Mr. Speaker, I make the point of order there is not a quorum present.

The SPEAKER. The Chair will count. [After counting.] One hundred and ninety-three Members present, not a quorum.

Mr. O'CONNOR. Mr. Speaker, I move a call of the House.

A call of the House was ordered.

The Clerk called the roll, when the following Members failed to answer to their names:

[Roll No. 133]

Amlie	Doutrich	Hollister	Nichols
Andrews	Drewry	Hook	Parks
Ayers	Duffey, Ohio	Imhoff	Peterson, Fla.
Bacharach	Duncan	Kee	Quinn
Bacon	Dunn, Miss.	Kennedy, Md.	Reed, N. Y.
Berlin	Eagle	Kerr	Robinson, Utah
Bolton	Eaton	Kleberg	Robsion, Ky.
Brennan	Englebright	Kocialkowski	Sadowski
Brewster	Faddis	Kopplemann	Sandlin
Brooks	Farley	Lanham	Sauthoff
Bulwinkle	Ferguson	Larrabee	Schneider, Wis.
Burdick	Fernandez	Lee, Okla.	Schuetz
Caldwell	Fiesinger	Lemke	Sears
Cannon, Wis.	Fish	Lesinski	Secrest
Carmichael	Fitzpatrick	McClellan	Steagall
Carter	Focht	McFarlane	Sumners, Tex.
Cary	Gambrill	McGrath	Taylor, Colo.
Chapman	Gasque	McGroarty	Taylor, S. C.
Claiborne	Gassaway	Maloney	Tobey
Collins	Gifford	Martin, Mass.	Tolan
Cooley	Green	Maverick	Weaver
Culkin	Haines	Monaghan	Wilcox
Cummings	Hamlin	Montague	Wilson, Pa.
Darden	Hancock, N. C.	Montet	Withrow
Dear	Hess	Moran	Wolfenden
Deen	Hill, Knute	Moritz	Wood
Dies	Hobbs	Mott	Zioncheck
Ditter	Hoeppel	Nelson	

The SPEAKER. Three hundred and twelve Members have answered to their names; a quorum.

Mr. O'CONNOR. Mr. Speaker, I move to dispense with further proceedings under the call.

The motion was agreed to.

FINAL ADJOURNMENT

Mr. O'CONNOR. Mr. Speaker, I offer the following resolution, which I send to the desk and ask to have read.

The Clerk read as follows:

House Concurrent Resolution 63

Resolved by the House of Representatives (the Senate concurring), That the two Houses shall adjourn on Saturday, the 20th day of June 1936, and that when they adjourn on said day they stand adjourned sine die.

The SPEAKER. The question is on agreeing to the resolution.

The resolution was agreed to.

COMMITTEE TO NOTIFY THE PRESIDENT

Mr. O'CONNOR. Mr. Speaker, I offer the following resolution, which I send to the desk and ask to have read.

The Clerk read as follows:

House Resolution 558

Resolved, That a committee of two Members be appointed by the House to join a similar committee appointed by the Senate, to wait upon the President of the United States and inform him that the two Houses have completed the business of the session and are ready to adjourn, unless the President has some other communication to make to them.

The SPEAKER. The question is on agreeing to the resolution.

The resolution was agreed to.

The SPEAKER appointed Mr. O'CONNOR and Mr. SNELL to act as the committee to wait upon the President.

STREAM-POLLUTION CONTROL

The SPEAKER. Is a second demanded on the motion to suspend the rules and pass the bill H. R. 12764?

Mr. HOLMES. Mr. Speaker, I demand a second.

Mr. VINSON of Kentucky. Mr. Speaker, I ask unanimous consent that a second be considered as ordered.

The SPEAKER. Is there objection?

There was no objection.

The SPEAKER. The gentleman from Kentucky is entitled to 20 minutes and the gentleman from Massachusetts to 20 minutes.

Mr. VINSON of Kentucky. Mr. Speaker, I yield 3 minutes to the gentleman from Texas [Mr. MANSFIELD].

Mr. MANSFIELD. Mr. Speaker, we are now dealing with one of the most serious problems with which our country must deal within a very few years, if not now. There has been a tremendous demand all over the country for the past 4 or 5 years, if not longer, for some effective measure to be put in force that will eventually stop the pollution of inland waters. Of the hundreds and thousands of cities and towns all over this country, an average of not more than one out of a hundred has any means whatever of treating or controlling its sewage, and it is being entered into the streams to pollute the waterways for the towns and cities and people who reside on the river below them.

Mr. KNUTSON. Mr. Speaker, will the gentleman yield?

Mr. MANSFIELD. For a short question.

Mr. KNUTSON. Will the gentleman please explain section 6 of the bill?

Mr. MANSFIELD. I shall ask the gentleman from Kentucky, the author of the bill, to explain the details of the bill at the proper time. I have only 3 minutes. A number of bills have been presented. Industries in many cases have voiced their opposition to any measure that would put them to any extreme expense. The plan that is proposed here has been agreed to by all of the industries that have been represented before the Committee on Rivers and Harbors. The paper and pulp industry and all of them have agreed to make no opposition to this bill. It places the matter in the Public Health Department of the Government to work out plans with States, with counties, with municipalities, with industry, with agriculture, and all the elements all through the country that will be applicable to every navigable river and its tributaries in the United States.

The SPEAKER. The time of the gentleman from Texas has expired.

Mr. HOLMES. Mr. Speaker, this bill slumbered in the Interstate and Foreign Commerce Committee since the day it was introduced, May 19. A week ago last Monday the chairman of our committee asked that it be referred to the Committee on Rivers and Harbors. During the time the bill was pending before our committee I, and probably many other members of the committee, had communications in opposition to the legislation. The objection, in my opinion, is that this is just another entering wedge whereby another Federal Bureau is going to dictate to the various States of the Union the policies that they must carry out in connection with their rivers and lakes, and that it sets up another Federal aid unit which is innocent in its beginning but which may lead to an annual appropriation for years to come of several hundred million dollars, just the same as we are appropriating now under the Federal Highway Act.

Mr. FLETCHER. Mr. Speaker, will the gentleman yield?

Mr. HOLMES. I decline to yield at present. Personally I would have no objection to a bill of this kind and I would not voice anybody else's objection providing that it were more of a fact-finding board that would give to the States the necessary information the Government may find out in connection with its investigation of navigable streams.

When you say "navigable streams", that is as far as the Federal Government has any right to go.

Mr. MANSFIELD. And streams that pollute navigable streams.

Mr. HOLMES. Yes; I was coming to that. But in this bill you add tributaries thereto that pollute navigable streams.

I know each municipality and each State, and I think the majority of them have very efficient public health service. I think in years past they have taken a great deal of trouble in the development of their own rivers and in keeping from pollution the rivers and lakes within their own boundaries.

I am of the opinion that the Federal Government is going to dictate the policy of how that municipality or State shall plan its own development of its water supply, its purification plants, and many other things that enter into the question of the care of the streams and lakes within the boundaries of a State.

Mr. FLETCHER. Will the gentleman yield now for a question?

Mr. HOLMES. I yield for a brief question.

Mr. FLETCHER. How would the gentleman solve this problem, then, since he objects to the plan that is outlined here?

Mr. HOLMES. In the first place, I am absolutely opposed to establishing any more bureaucracies in Washington with dictatorial power over home rule and self-government of the 48 States.

Mr. FLETCHER. How would the gentleman solve this situation? The gentleman did not answer my question.

Mr. HOLMES. I believe each representative State should solve its own problem. I believe we have brains enough in our various States to clean up any pollution which may occur in any of our navigable streams.

Mr. FLETCHER. We have not been able to do it in Ohio.

Mr. HOLMES. That may be true in some instances, but I believe the public health commissioner of the State of Ohio has authority under the law. If they want to clean it up, then can clean it up.

Mr. RICH. Mr. Speaker, will the gentleman yield?

Mr. HOLMES. I yield.

Mr. RICH. Do they not have a Democratic administration in the State of Ohio, and have they not had a Democratic administration for a number of years?

Mr. HOLMES. I would not want to say that that was responsible for their not being able to clean up the pollution in their streams.

Mr. MANSFIELD. Will the gentleman yield?

Mr. HOLMES. Yes; I yield.

Mr. MANSFIELD. For instance, in a river like the Ohio River there is no State which has jurisdiction to control that river. It is an interstate river, with some seven or eight States bordering on it. No one State can control it.

Mr. DIRKSEN. Will the gentleman yield for a question?

Mr. HOLMES. I am glad to yield.

Mr. DIRKSEN. In the exercise of the proper police power of the State, can it not say to these corporate industries that are discharging waste into the navigable streams that they must stop?

And as far as municipalities which are discharging their effluent and sewage into the streams everywhere, they are entitled under the provision made in the one and a quarter or one and a half billion dollar bill to get such relief as is necessary. Then they first ought to exhaust their bonding power to build treatment plants, sewage plants, and all that sort of thing, before they discharge this effluent into the streams.

Mr. MANSFIELD. All that can be worked out in this plan.

Mr. DIRKSEN. The trouble with the antipollution law is that it never has been enforced by any State agency. The States have too often blinked at the fact that there is pollution, and let it go on. The responsibility rests squarely upon the enforcing agencies of the States.

Mr. HOLMES. I thank the gentleman from Illinois for that observation. There is a great deal in what he says.

Section 5 of the bill provides—

> Any State, municipality, or other public body which is discharging untreated or inadequately treated sewage or waste into waters of any area is hereby declared to be eligible to Federal aid in the form of grants-in-aid and/or loans for the construction of necessary remedial treatment works.

We can go to almost any one of our smaller or larger streams and we will find there may be many industries along

the streams, discharging material into the rivers which pollute the rivers. At the same time we go along the various streams and we will find communities and towns themselves discharging sewage, a great deal like the city of Washington has done in the Potomac River. It happens right here in the great Capital of the United States, where they discharge raw sewage into the Potomac River. The blame for that pollution should be placed upon the municipality, but the commissioner of public health, under the public-health laws of the State, in my opinion, has authority to clean up those situations as they arise from time to time.

Mr. SPENCE. Will the gentleman yield?

Mr. HOLMES. I yield.

Mr. SPENCE. Does not the gentleman recognize that this is a national problem and that the States cannot handle it? Even the elimination of pollution at a certain point does not inure to the benefit of those who live there. For instance, the elimination of pollution at Cincinnati may not inure at all to the people of Cincinnati, but to the south, in Indiana and Kentucky and farther down the river. For that reason it becomes a national problem.

Mr. HOLMES. I appreciate that.

This bill also provides that any private person who has a factory on such a stream, which factory is discharging any residue into the river, also may obtain a loan from the Federal Government to build treatment works, and so forth, to clean up the situation.

I am not advised as to whether the committee has held hearings on this bill this past week. I have not seen anything to that effect.

Mr. MANSFIELD. Mr. Speaker, will the gentleman yield?

Mr. HOLMES. I yield.

Mr. MANSFIELD. We held hearings for several days.

Mr. HOLMES. This week?

Mr. MANSFIELD. No; on the 20th, and back there. The committee considered four or five bills. We had a hearing this week also, but I will explain this in my own time, for I do not want to take the gentleman's time.

Mr. HOLMES. I am glad to yield to the gentleman.

Mr. MANSFIELD. The gentleman from Ohio [Mr. HOLLISTER] and several others appeared—Members who had introduced bills—all of which were referred to the Committee on Rivers and Harbors. When we came to a consideration of the Vinson bill, we found it had not been referred to our committee, but we held hearings anyway.

Mr. HOLMES. From my correspondence with waterworks associations I was under the impression that the gentleman had not held hearings on this bill.

Mr. MANSFIELD. I hold a copy of the printed hearings in my hand.

Mr. HOLMES. The New England Water Works Association, at a meeting held on February 20 last, passed the following resolution:

Be it resolved, That the New England Waterworks Association, at its meeting held February 20, 1936, go on record as being opposed to any legislation placing the regulation of stream pollution under Federal control, and that the New England Waterworks Association advise each New England Senator and Representative in the United States Congress to this effect, and also to the effect that the New England Waterworks Association desires that Federal activities in matters of stream pollution be limited entirely to fact finding and cooperation with the State authorities.

[Here the gavel fell.]

Mr. HOLMES. Mr. Speaker, I yield myself 2 additional minutes.

The SPEAKER pro tempore (Mr. HILL of Alabama). The gentleman from Massachusetts is recognized for 2 additional minutes.

Mr. SIROVICH. Mr. Speaker, will my distinguished colleague yield for a question?

Mr. HOLMES. Yes; gladly, for a brief question.

Mr. SIROVICH. Does my distinguished friend realize that it was his namesake, the great Dr. Oliver Wendell Holmes, who almost 100 years ago started the principle of taking care of pollutions and infections, being the pioneer crusader in that work; and that typhoid, dysentery, and all other diseases that are today prevalent all over the United States are due to the fact that people drink this water that is contaminated with typhoid germs, dysentery bacillus, and other organisms?

Mr. HOLMES. Replying to the gentleman from New York, I may say that Massachusetts has tried to follow Dr. Holmes' example for many years.

Mr. SIROVICH. But we are talking of water whose source is contaminated, navigable streams flowing through the several States. It is the duty of the Nation under the general-welfare clause of the Constitution to help protect those States against such sources of danger to health.

Mr. HOLMES. I appreciate also, the fact that this is just the beginning of another great Federal-aid program which eventually will mean another wholesale raid on the Treasury when the respective States should handle this particular problem themselves.

[Here he gavel fell.]

Mr. TABER. Mr. Speaker, I make the point of order that a quorum is not present.

The SPEAKER pro tempore. The Chair will count. [After counting.] One hundred and forty-nine Members are present, not a quorum.

CALL OF THE HOUSE

Mr. O'CONNOR. Mr. Speaker, I move a call of the House.

A call of the House was ordered.

The Clerk called the roll, and the following Members failed to answer to their names:

[Roll No. 134]

Amlie	Doutrich	Kee	Owen
Andrews	Drewry	Kerr	Palmisano
Ayers	Duffey, Ohio	Kleberg	Parks
Bacharach	Dunn, Miss.	Kocialkowski	Peterson, Fla.
Bacon	Eagle	Lambertson	Quinn
Berlin	Eaton	Lanham	Reed, N. Y.
Binderup	Englebright	Larrabee	Richards
Bolton	Faddis	Lee, Okla.	Robsion, Ky.
Brennan	Ferguson	Lemke	Sadowski
Brewster	Fernandez	Lesinski	Sanders, La.
Brooks	Fiesinger	Lord	Sandlin
Buckley, N. Y.	Fitzpatrick	McClellan	Sauthoff
Bulwinkle	Gambrill	McFarlane	Schneider, Wis.
Burch	Gasque	McGehee	Schuetz
Cannon, Wis.	Gassaway	McGrath	Scrugham
Cary	Gifford	McGroarty	Sears
Claiborne	Green	McLeod	Secrest
Clark, Idaho	Greenway	Maas	Taylor, Colo.
Collins	Haines	Maloney	Taylor, S. C.
Creal	Hamlin	Martin, Mass.	Tobey
Culkin	Harlan	Maverick	Tolan
Cummings	Hess	Mitchell, Ill.	Weaver
Darden	Hill, Knute	Monaghan	Werner
Dear	Hobbs	Montague	Wilcox
Deen	Hoeppel	Montet	Wilson, Pa.
Dies	Hollister	Moran	Withrow
Dingell	Hook	Moritz	Wolfenden
Disney	Hope	Nelson	Wood
Ditter	Imhoff	Nichols	Zioncheck

The SPEAKER pro tempore. Three hundred and seven Members have answered to their names, a quorum.

By unanimous consent, further proceedings under the call were dispensed with.

Mr. VINSON of Kentucky. Mr. Speaker, I yield 2 minutes to the gentleman from Massachusetts [Mr. CONNERY].

Mr. CONNERY. Mr. Speaker, I am very much in favor of this bill advocated by the gentleman from Kentucky. I have cooperated with Governor Curley, of Massachusetts, in trying for the past year to get funds from the Federal Government to do away with pollution of the Merrimack River in Massachusetts. There are four large Massachusetts cities on that river—Lowell, Lawrence, Haverhill, and Newburyport. These cities are vitally affected through the pollution of this river. The Massachusetts Congressmen, in cooperation with the Governor of Massachusetts, endeavored to get a trunk sewer put through which would do away with this pollution and purify the waters of the Merrimack, which is a navigable river and under the control of the United States Government.

If this bill, which is advocated by the gentleman from Kentucky, passes it will mean an opportunity for Massachusetts under Federal health and State health officers to obtain funds to do away with this pollution which should have been done away with long ago.

Mr. MAY. Mr. Speaker, will the gentleman yield?

Mr. CONNERY. I yield.

Mr. MAY. As I understand, this bill applies to all the navigable streams of the United States.

Mr. CONNERY. Yes.

Mr. MANSFIELD. And their tributaries.

Mr. CONNERY. The public health should come first in this country. We must take care of the people's health. With the passage of this bill we can make a start toward that much-desired end in eliminating stream pollution and thereby protecting the health of our people, who must drink this water where in many cases it is their only water supply.

Mr. Speaker, I hope the bill passes.

[Here the gavel fell.]

Mr. VINSON of Kentucky. Mr. Speaker, I yield 2 minutes to the gentleman from New Hampshire [Mr. ROGERS].

Mr. ROGERS of New Hampshire. Mr. Speaker, I have listened with much interest to the comments of my colleague, the gentleman from Massachusetts [Mr. CONNERY], with reference to the situation pertaining to the Merrimack River, which flows from the State of New Hampshire into the Commonwealth of Massachusetts. We have another large river up there in the old Granite State, the Connecticut River, which flows in both Vermont and New Hampshire, and, notwithstanding some opposition rumors, I have tried in vain to find any logical argument against the passage of this bill.

I have heard it suggested that this bill takes away State rights. I yield to no Member of this House in my determination to preserve State rights to the fullest extent and to prevent the Federal Government's usurpation of such rights. As a matter of fact, this legislation fully and adequately preserves those rights. It simply provides for cooperation by the Federal Government with all the States in the preparation of a comprehensive plan for the reduction and elimination of pollution and the improvement of sanitary conditions in the navigable waters of the United States and streams tributary thereto.

Just as we know and appreciate the virtues of clean minds, souls, and bodies, let us show our appreciation of clean waters throughout the Nation by the prompt enactment of this legislation. It will encourage the enactment of uniform State laws relating to water pollution; encourage compacts between States for the prevention and abatement of water pollution and assist the people of America as a real health guaranty for generations yet unborn. Let us enact this bill into law today. It will make our navigable streams and the streams flowing thereto clean and pure and promote health and comfort throughout the length and breadth of this country.

[Here the gavel fell.]

Mr. VINSON of Kentucky. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan [Mr. WOODRUFF].

Mr. WOODRUFF. Mr. Speaker, in all the years I have been a Member of this body I have known no other measure as valuable, even remotely, to the health and the well-being of the people of this country as is the one pending before us at this time.

There is not a single water supply in the entire United States that is not menaced by pollution constantly passing into that water supply. Some of our friends on this side have expressed concern over the creation of another Federal bureaucracy within this Government. So far as I have been able to interpret the language in the bill, no such thing will occur. There is nothing in the bill that gives the Federal Government any control whatsoever over any State or any municipality in the entire United States. It simply provides for cooperation between municipalities, the States, and the Federal Government.

Mr. MANSFIELD. And also industries.

Mr. WOODRUFF. Yes, and industries.

Mr. Speaker, every Member of this House ought to know enough about the Bureau of Public Health to appreciate the fact that within that organization there are scientists who have devoted their entire careers to the solution of these problems which confront the people of practically every municipality and every State in this Union. There is no contribution which could be made which would be more valuable to them and to the generations to come than bringing about proper sanitary conditions and insuring an available and pure water supply in our lakes and streams. There are many cities located upon navigable streams, or tributaries thereof, which, through the splendid manufacturing institutions of various kinds, are by reason of the peculiar nature of their activities, compelled to dispose of certain refuse or byproducts in those streams.

I have in mind particularly chemical plants and sugar-beet processing plants, because such institutions are located in communities and upon rivers with which I am familiar.

I know, for instance, that at least one of the great chemical plants of the country, which is located in the district I represent, and at least one of the sugar factories located in the town in which I live, have for a considerable period of time been spending their money and cooperating in every possible way with the public-health authorities of the State of Michigan in seeking some solution of the problem brought about by the activities of these splendid institutions so necessary to the welfare and prosperity of the communities in which they exist.

Notwithstanding the most painstaking efforts of our local authorities, our State authorities, and the men at the head of these business organizations, the progress we had hoped to make has not been possible. This indicates to me that something more must be done. We must enlist the services of every department of this Government which can in any way contribute to the solution of these perplexing problems, and that is exactly what this bill proposes to do.

The bill expressly provides that the Federal Government, through the Bureau of Public Health, shall cooperate with the States and the municipalities. Such work as is done, such activities as are engaged in, will be supervised by the State authorities. The most scrupulous advocate of State rights can find nothing in this bill which will in any way conflict with his views on this subject. As a matter of fact, it seems to me through the encouragement given in the bill to the various States to cooperate with one another in the solution of this great problem, the Federal Government acts only as the liaison agency bringing about the coordination of the activities between the States.

I am informed by the chairman of the committee that every businessman familiar with the provisions of this bill is heartily in favor of its enactment. I can understand why this would be so.

Mr. Speaker, I give my complete and unqualified endorsement to this bill, and I trust the vote of the House in its behalf will be overwhelming.

Mr. VINSON of Kentucky. Mr. Speaker, I yield 1 minute to the gentleman from Kentucky [Mr. SPENCE].

Mr. SPENCE. Mr. Speaker, the elimination of water pollution, the object of the bill under consideration, is a matter of supreme national importance. I know of no legislation that could be enacted that would inure to the health and happiness of the people more than legislation of this character. The situation in reference to the elimination of pollution from our streams and waters is fast approaching a crisis.

Science has devoted much effort to the purification of water. Tomes have been written upon this subject and great advance has been made in this respect. The waterworks plants of our larger cities treat the water for turbidity in the great settling and coagulating basins. The water is filtered, aerated, chlorinated, and otherwise treated, and by the application of scientific processes we have made water potable which has contained a very large percentage of sewage. However, the time is fast approaching by reason of the increasing pollution of our streams when these scientific processes will no longer be able to meet the conditions that will exist. We must consider in the future not only methods of purification but to a far greater extent we must devote our time and effort to the elimination of stream pollution to meet the conditions that will confront us. Let me cite a specific instance which will indicate the great interest I have in this subject.

My district extends from approximately 40 miles above Cincinnati on the Kentucky side of the Ohio River to within a very short distance of the corporate limits of the city of Louisville, a distance of approximately 140 miles. Every county save one in the district I represent is bounded on the north by the Ohio River. Across from Cincinnati on the Kentucky side of the river there are 170,000 people. Cincinnati and its vicinity have a population of approximately 600,000. The Ohio River is one of the most highly improved rivers in the Nation for purposes of navigation. It is locked and dammed, and these dams constitute pools in the river—pools which in the summertime become stagnant and offensive. There is a pool at Cincinnati which extends from Coney Island 7 or 8 miles above the city, to Fernbank, a few miles below the city. Into that pool are drained the industrial waste and domestic sewage of 750,000 people, and out of that pool comes the water supply of those people.

The larger towns by the application of scientific processes, which are very costly, may to a certain extent overcome the effects of this pollution. But even they, if conditions continue to become worse, will not long be able to purify this sewage-impregnated water for drinking purposes. The great danger comes to the smaller towns, which are unable to maintain expensive and scientific water plants and which give the water insufficient treatment. Therein lies a great menace to the health of our people, and unless something is done before long epidemics may break out that will cost much in life and health and untold millions in money. The primary object of this legislation is to secure safe and potable water for our people, and this is a matter of supreme importance. However, the rivers and the waters of our Nation have other potential qualities that cannot be overestimated. Men have naturally sought the water courses to build their habitations. They sought them because of their beauty, because they furnished a means of transportation, because bathing in the clear streams brought cleanliness and refreshment. The rivers were attractive to wildlife. Here the animals of the forests and plains came to quench their thirst and to seek the refreshment the rivers afforded. I well remember as a boy how the migratory wild fowl stopped to rest on the waters of the Ohio River in their migrations north in the spring and south in the fall. Since the rivers have become polluted these wild fowl shun them. You may look in vain for them today.

Formerly the rivers were teeming with fish that furnished not only a fine food supply but also splendid sport to the fisherman, but the same causes that have driven away the wild fowl have destroyed the fish.

The solution of this problem is national in its scope. Frequently the elimination of stream pollution at the point where the money is expended and the improvement made will not inure to the benefit of the people who reside in that vicinity, but its beneficial effects will be felt by those who may reside at far-distant points. The object of this bill cannot be attained unless a comprehensive plan is adopted to eliminate the pollution of the entire stream or body of water.

To do this it may be necessary for the States to enter into compacts with each other for that purpose. The Constitution provides that no State shall, without the consent of Congress, enter into any agreement or compact with another State. This, of course, was a wise provision, because if there were no restrictions on the compacts into which States may enter they might supplant by their compacts the provisions of the Constitution itself. There certainly can be no objection to allowing States to enter into compacts for the general welfare of their citizens where the compacts are not in derogation of the powers of the National Government.

The things with which we come in daily contact always make the greatest impression upon us. The place I have called home since my childhood has been in sight of the Ohio River. I have often observed how wonderful that river is in its beauty, its recreational value, its attractiveness to wildlife, the recreation and pleasure it could afford the sportsman, the diversified recreation it could furnish to the people.

Thomas Jefferson, who was not only a profound philosopher but who had a deep appreciation of the beautiful, said:

> The Ohio is the most beautiful river on earth. Its current gentle, waters clear, and bosom smooth and unbroken by rocks and rapids.

When you see this beautiful river now turned into an open sewer because of the carelessness and indifference of our people it should inspire us to do everything we can to restore to it and the other rivers and waters of our country their great potential value for the health, the welfare, and the happiness of our people. This can be done.

It is undoubtedly true the Public Health Service of the Nation is deeply interested, but the physical prevention of the pollution of our rivers and waters in the last analysis must be met by a comprehensive plan prepared by competent civil engineers. I hope such a plan will be formulated and work started as soon as possible for this most meritorious and necessary purpose.

Irrespective of party affiliations or the districts we represent we would be recreant to our plain duty if we do not use every effort to eliminate stream and water pollution. Nothing should be of more interest to the people or more greatly involves their future health and happiness than the elimination of the pollution of the water that they are as dependent upon as upon the air they breathe.

Mr. VINSON of Kentucky. Mr. Speaker, I yield 1 minute to the gentleman from Ohio [Mr. FLETCHER].

Mr. FLETCHER. Mr. Speaker, in considering this bill, H. R. 12764, providing for the Federal Government's cooperation with the States for the purpose of eliminating the deplorable health menace resulting from stream pollution, I am reminded of the "good neighbor" policy recently enunciated by President Roosevelt.

If ever there was an opportunity for the Members of this Congress, regardless of party affiliation, to legislate in the spirit of the policy of "the good neighbor", it is in this legislation we have now under consideration.

NO CAUSE FOR FEAR

Referring to the nervous concern of the gentleman from Massachusetts [Mr. HOLMES] relative to the fear of bureaucracy, which he conjures up in his overlurid imagination, certainly he should have no fear along that line, because this legislation makes no provision whatever for any new bureau. Furthermore, the gentleman's own party spokesman, the late Mr. Hoover, while serving as President, sponsored more bureaus and new commissions of all kinds than any previous occupant of the White House.

If I thought this legislation would create or encourage bureaucracy I would vote against it. I am fed up on bureaucracies and on tax-eating bureaucrats. But there is no new bureau contemplated in this bill at all, as I understand it. The so-called bureaucrats will not have anything to do with it.

RIVERS DO NOT STOP AT STATE LINES

The fallacious arguments that the States can handle this murderous stream-pollution menace answers itself when you consider the fact that sewage-polluted inland streams, carrying the poison of death from one community to another, do not stop at State boundary lines.

Streams like the Ohio River carry pollution collected from tributaries at Pittsburgh, Wheeling, and other towns and cities along its banks. These streams carry their germ-laden waters across State boundary lines into other States, and these States, in spite of all they have been able to do, have failed to control the menace of stream pollution. The result has been tragedy and death.

My own State, Ohio, has tried its very best to solve this problem. It should be obvious to anyone that States cannot do this job without the cooperation of the Federal Government.

STREAM POLLUTION A MURDEROUS MENACE

If the lives of our citizens were endangered by a foreign foe we would instantly rally every available resource necessary for their protection. This disease menace carries un-

seen poison in polluted streams that threatens entire communities with life-destroying epidemics, which, as the testimony shows, endanger the lives of thousands of defenseless people.

The problem is extremely serious. Its solution compels us to put into practice President Roosevelt's policy of the "good neighbor" as a matter of self-preservation, for the history of all epidemics has made it clear to us that epidemics, resulting from stream pollution or any other cause, are no respecters of State boundary lines.

President Roosevelt's "good neighbor" policy should be the motivating policy back of this type of legislation proposed in H. R. 12764 and the motivating policy back of all other types of legislation conceived in the interest of the common good.

WHAT THE PRESIDENT SAID

It was this idea which the President had in mind when making the speech he delivered at his home in Hyde Park. On that occasion President Roosevelt said:

I like to think of our country as one home in which the interests of each member are bound up with the happiness of all.

We ought to know by now that the welfare of your family or mine cannot be bought at the sacrifice of our neighbor's family; that our well-being depends in the long run upon the well-being of our neighbors.

The "good neighbor" idea as we are trying to practice it in our international relations needs to be put into practice in our community relationships.

That speech from which I have just quoted was made before the committee reported out this legislation we are now considering. But no argument has been made on the floor of the House today more directly applicable to the solution of this stream-pollution problem than are these words spoken by the President at Hyde Park.

I should like to see associations of good neighbors in every town and city and in every rural community of our land—

Said the President—

Such associations of sincere citizens, like-minded as to the underlying principles and ideas, would reach across the lines of creed or of economic status.

It would bring together men and women of all stations to share their problems and their hopes and discover ways of mutual and neighborly helpfulness.

PHILOSOPHY OF GOLDEN RULE ENACTED INTO LAW

In passing this legislation today, authorizing the Federal Government to cooperate with the States in protecting their citizens against the death-dealing menace of stream pollution, we will be legislating in the spirit of the President's own words, because we will be helping to "share the problems and the hopes" of those whose lives are endangered by stream pollution, and we will be making a practical application of the philosophy of "mutual and neighborly helpfulness."

The philosophy of the "good neighbor", expressed in the President's speech, has been the motivating philosophy dominating the personal relations and public service of President Roosevelt from the beginning of his great career of usefulness to his fellow men.

In the early youth of an individual it often is possible accurately to predict the type of person into which that individual will develop and foretell the kind of leader he will become in his manhood years ahead.

MR. SNYDER'S EXPERIENCE WITH ROOSEVELT AT HARVARD

That this is true of President Roosevelt in relation to the "good neighbor" philosophy which is being expressed in this legislation under consideration was vividly impressed upon me not long ago when a friend of my boyhood, Mr. Harvey R. Snyder, came to my office. Harvey R. Snyder and his brother, J. Royal Snyder, 1206 Williamson Building, Cleveland, are two of Ohio's best-known attorneys. Both are Harvard men. Harvey R. Snyder played right end on the Harvard football team.

Mr. Snyder is widely known in Ohio and throughout the country for his active fraternity work and his leadership in the Pythian and Masonic Orders. The day he related the following incident to me Mr. Snyder was in Washington to participate in the ceremonies initiating President Roosevelt into the Order of Knights of Pythias.

ROOSEVELT HAS ALWAYS LIVED THE "GOOD NEIGHBOR" PHILOSOPHY

Discussing President Roosevelt's philosophy of the good neighbor, Mr. Snyder, who, by the way, is a Republican, said:

When I first went to Harvard I had an interesting experience with Franklin D. Roosevelt, who was then a student there. Even then he demonstrated in his association with his fellow students that he was daily living the "good neighbor" philosophy which he is now living as President of the United States.

I was raised on a farm and entered Harvard with little money and practically no acquaintances or friends among the students, said Mr. Snyder. I was greatly handicapped in my efforts to keep up with the members of my class in French. I spoke German, but the French language seemed extremely difficult for me to learn. I was falling behind. My French professor was a native of France. He had a doctor's degree from the University of Paris. He talked French so rapidly that it sounded to me like the rat-ta-ta-tat of a machine gun. I had had only a very short period of intensive study in French in order to meet entrance requirements.

My failure to comprehend the questions asked by the French professor and the consequent embarrassment and inability to reply in French, created a sympathetic interest of a fellow-classmate who spoke French fluently. This tall, broad-shouldered, athletic fellow student possessed a most engaging personality. He had traveled in Europe during his vacations in the several preceding years. By his special study and his contact in travel he had attained a very keen ear for spoken French and he could also speak French fluently. My humiliation and embarrassment aroused within this other student, with the friendly smile and sympathetic understanding, a desire to assist me, his less fortunate neighbor. At the close of the class one day, he introduced himself and invited me to his room. Before the next recitation he had helped me with several hours in French discourse. He also arranged for the Berlitz School of Modern Languages to give me week-end instruction and daily instruction during the Christmas vacation. He insisted on advancing the cost of this special instruction out of his own pocket until I could get the necessary funds.

At the first meeting of the class after the holiday vacation, the professor was astonished at the improvement in my efforts to speak French, and inquired: "Have you been to France during this vacation?" I replied, "No, professor, but a member of this class has taken a friendly interest in me during the last month and has helped me to overcome my handicap."

That friendly, neighborly student who helped me out did so with nothing to gain for himself, because, coming from the farm in Ohio, with little money and no acquaintances or friends at Harvard, I could be of no service to him in return for his great thoughtfulness and kindness to me in my hour of difficulty. Of course, I paid back the money he advanced for the special instruction arranged for me, but never can I fully repay him for the neighborly kindness he did for me in my hour of discouragement and need.

Thus, it was as the "good neighbor" that I first learned to know Franklin D. Roosevelt, who, seeing my difficulty, introduced himself, took me to his room, helped me with my French lessons, and, at his own expense, secured special instruction for me. So, even in his younger days as a student in Harvard, Franklin D. Roosevelt lived the philosophy of the "good neighbor", which he is now living as President of the United States, serving all of us as one of the most courageous, kindly, humanitarian Presidents who has ever occupied the White House.

THE PRESIDENT BECOMES MEMBER OF PYTHIAN ORDER FOUNDED UPON PHILOSOPHY OF THE "GOOD NEIGHBOR"

In my office that day on his way to the White House to participate in the impressive ceremonies initiating President Roosevelt into the Pythian Order, my lifelong friend, Harvey R. Snyder, recounted many similar Roosevelt acts of helpfulness and kindness toward his student neighbors. From these early incidents thoughtful observers might accurately have predicted that Roosevelt, the student, when he became Roosevelt, the statesman, would build his leadership and his service to humanity on the same principle—philosophy and policy of the "good neighbor"—which, I am glad to say, is the spirit in which most measures considered by this Congress have been conceived and enacted into the law of the land.

SELFISHNESS OF GREEDY MEN POISONS THE STREAM OF ECONOMIC LIFE FOR UNDERPRIVILEGED MILLIONS

As the indifference, selfishness, and unneighborly attitude of communities located along the inland streams and rivers endanger the happiness, homes, and health of their neighbors living miles below, so overprivileged, greedy, selfish men of wealth and power, controlling the natural resources of the country and exploiting the people of the Nation, have polluted the stream of economic life with disaster, unemployment, insecurity, and unhappiness for underprivileged millions of their less-fortunate fellow men to whom opportunity is denied.

It is this unneighborlike attitude of selfish individuals and selfish groups, lacking in social intelligence, which makes necessary legislation like this we are considering today and which will make necessary still other humanitarian legislation in the interest of social justice, democracy of opportunity, and financial security for the masses of Americans who will ever be grateful for having in the White House a sympathetic and helpful friend whose kindness and usefulness to his fellow men is that of the "good neighbor", devoting his life to the service of mankind.

Mr. VINSON of Kentucky. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia [Mr. ROBERTSON].

Mr. ROBERTSON. Mr. Speaker, I am very happy to have the opportunity to support a measure that will help my friends in Michigan and my friends in New York more than it will the people of the State of Virginia. We have no great pollution problem in Virginia. We have 2,000 miles of good bass waters and 1,000 miles of trout streams. But I know what you are up against in the industrial centers. Dr. Wollman, of the National Resources Board, testified before us it would require $4,000,000,000 to provide for adequate treatment plants for domestic sewage and industrial waste. The manner in which we have made open sewers of once beautiful streams is a national disgrace.

Mr. Speaker, there are 7,000,000 licensed fishermen in this Nation. They have been writing me about pollution of our streams. The health problem of our people is also involved. We are spending millions annually to kill the germs in our drinking water.

This bill will give an opportunity to study the matter scientifically. It will promote the passage of uniform State laws and develop cooperation between the various States and with the Federal Government. It will help to finance the installation of treatment plants.

It also provides a worth-while public-works program on a reasonable scale, to be spread over a number of years.

As I stated previously, Mr. Speaker, I am glad to have the opportunity of supporting a measure that will help the industrial centers of this Nation more than it will agricultural States, like Virginia. I hope this bill will pass.

[Here the gavel fell.]

Mr. VINSON of Kentucky. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. PFEIFER].

Mr. PFEIFER. Mr. Speaker, this is not a new matter. Pollution of navigable streams has been a bugbear for many years. It not only causes disease throughout this land of ours, but also brings about destruction of aquatic life and everything pertaining thereto.

Let me cite just one instance. In my district there is a body of water known as Newtown Creek, approximately 5 miles long, on which commerce is carried to a greater extent than on the father of all rivers, the Mississippi. Connected with Newtown Creek there are 20 untreated domestic sewers emptying into this body of water, not counting the hundreds of other sewers that empty into the creek from industrial sources. This sewage is carried into the East River, which in turn empties into Long Island Sound, which borders the shores of the district represented by the gentleman from Massachusetts who is opposed to the bill. It also goes along the shores of New Jersey and Connecticut, and New Jersey today has a suit pending against the city of New York for stream pollution. This is a vital proposition and it is up to each and every one of us to do what we can to help pass this bill. [Applause.]

Mr. HOLMES. Mr. Speaker, I yield 3 minutes to the gentleman from Pennsylvania [Mr. RICH].

Mr. RICH. Mr. Speaker, I may say to the membership of the House that I do not yield to anyone insofar as the importance of clean streams is concerned or insofar as the health of the Nation is concerned, but I wonder whether you know what this bill calls for. If you will read carefully sections 5 and 6, and then read section 7, which authorizes the amount of money necessary to carry out sections 5 and 6, I question whether any of you know what the amount involved will be. It evidently will be quite expensive.

In section 7 you authorize the amount of $700,000 annually for 10 years, which is a total of $7,000,000 to make this survey.

If you will look at your statement of the Treasury Department, which all of you have received at your offices, you will see that this year you have spent $4,687,000,000 more than you have received and that you are now in debt $34,345,000,000. I wonder where in the world the limit of expenditures is going to be by this great spending Congress. None of you can tell us what the ultimate cost of this bill will be. I think you ought to provide a definite and specific sum to be set aside for this purpose and not leave the amount indefinite so that no one knows what the eventual cost may be. That is only business of inefficient men.

I think there is another question involved in connection with this survey that should be considered, and that is the fact that we have streams used largely for the sportsmen of this country. I am interested in the sportsmen of the country, and I want to help them have streams where they can take their families and enjoy the pleasures that one gets with a fishing line. We also have what may be termed manufacturing streams, and the gentleman from Virginia [Mr. ROBERTSON] just a moment ago stated that to clean up these manufacturing streams would cost $4,000,000,000. Is there anybody in this House today who is willing to spend $4,000,000,000 on streams, when we have the great national debt we have and our present conditions with respect to getting employment for the people on relief. You must get it from industry. Kill industry and you kill employment. I think we have got to give consideration to the manufacturers as well as the sportsmen; they are both essential, and I want to protect both, and this bill has been brought in here without any consideration of all these facts, and I am wondering whether we ought to pass it at this time or not. We have the health departments who look after the purity of the water in the States for the purpose of health. Then we have the Department of Fisheries who look after the fish, and in Pennsylvania our State commissioner of fisheries, O. M. Deibler, is a peer of fish commissioners in this country. He is doing a great work in getting streams cleaned for fish culture.

Mr. VINSON of Kentucky. Mr. Speaker, the gentleman from Pennsylvania inquires about the amount of money to be expended. I want to ask him, in all seriousness, what the expense in suffering and in sickness and in death would be of an epidemic that might come to any section of this country through a failure of government to meet its responsibilities.

Mr. RICH. I am going to answer that.

Mr. VINSON of Kentucky. I may say to my friends in this House that this is one bill that is nonpartisan, nonpolitical, and nonsectional.

Mr. RICH. The gentleman has asked me a question.

The SPEAKER pro tempore (Mr. HILL of Alabama). Does the gentleman from Kentucky yield to the gentleman from Pennsylvania?

Mr. VINSON of Kentucky. I decline to yield at this time, Mr. Speaker.

I repeat that this is one measure that is nonpartisan, nonpolitical, and nonsectional. There ought not to be a single vote in this House against this bill.

The only thing I can see that has brought any opposition to this bill is erroneously mixing it with another bill in which the coercive powers of the Federal Government would be exerted against the industrial life of the country. There is no coercion in this bill. This bill proceeds upon the theory of cooperation—cooperation between the States and the Federal Government, cooperation between the public health departments of the States and the Public Health Service of the Federal Government. There is not an iota of coercion in this bill.

Mr. JENKINS of Ohio. Mr. Speaker, will the gentleman yield?

Mr. VINSON of Kentucky. I yield to my good friend from Ohio, who knows the need of this legislation and who has rendered such valiant service in its consideration.

Mr. JENKINS of Ohio. Is not this the fact, that this bill cannot work at all unless the welfare of the States is considered from every angle?

Mr. VINSON of Kentucky. Undoubtedly. Everything that is done under sections 5 and 6 has to be done under the supervision and with the approval of the States and their health departments before it is approved by the Federal Government.

Mr. SIROVICH. Mr. Speaker, will the gentleman yield?

Mr. VINSON of Kentucky. Yes.

Mr. SIROVICH. I call the attention of the gentleman to the fact that my good friend Mr. RICH, of Pennsylvania, said it would help the sporting element, whom he wants to protect. This would help humanity who use and bathe in the water from getting infections of the eye and ear and typhoid fever and dysentery and abscess of the liver and countless other diseases.

Mr. VINSON of Kentucky. And these diseases do not come with a great warning, they slip on one unawares. When Cincinnati alone deposits 450 tons of sewage per day in the Ohio River, it is time to stop, look, and listen. That is the reason that JOHN HOLLISTER, of Cincinnati, and HESS, of Cincinnati, BRENT SPENCE, of the Covington district, O'NEAL, of the Louisville district, CREAL, CARY, and GREGORY, of Kentucky, BOEHNE, CROWE, PARSONS, KELLER, and all other members on the lower Ohio are vitally interested in stream-pollution control and eradication. I trust, now that Members who know this bill does not have the coercive effect they thought it had in the beginning, that we may have a unanimous vote on the passage of the bill. I feel it is a most forward-looking piece of legislation in behalf of men, women, and children. It is very pleasing to see the membership, upon consideration of the measure, rallying to its support.

The SPEAKER pro tempore (Mr. HILL of Alabama). The time of the gentleman from Kentucky has expired. All time has expired.

Mr. RICH. Mr. Speaker, I make the point of order that there is no quorum present.

The SPEAKER pro tempore. The Chair will count. [After counting.] Two hundred and twenty-one Members are present, a quorum. The question is on the motion to suspend the rules and pass the bill.

The question was taken.

Mr. HOLMES. Mr. Speaker, I demand the yeas and nays.

The SPEAKER pro tempore. All in favor of ordering the yeas and nays will rise and stand until counted. [After counting.] Fifteen Members have risen, not a sufficient number, and the yeas and nays are refused.

So (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed, and a motion to reconsider the vote by which the bill was passed was laid on the table.

BLUE RIDGE PARKWAY

Mr. O'CONNOR. Mr. Speaker, by the direction of the Committee on Rules I submit the following privileged report, which I send to the desk and ask to have read.

The Clerk read as follows:

House Resolution 559

Resolved, That immediately upon the adoption of this resolution the bill H. R. 12455, entitled "A bill to provide for the administration and maintenance of the Blue Ridge Parkway, in the States of Virginia and North Carolina, by the Secretary of the Interior, and for other purposes", shall be considered as having been engrossed and read a third time, and the House shall immediately proceed to vote upon the passage of said bill without any intervening motion except one motion to recommit, with or without instructions.

Mr. RICH. Mr. Speaker, a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. RICH. Is it permissible under the rules, after a bill has been defeated on the Private Calendar and this very day defeated on a motion to suspend the rules, to then have the Committee on Rules come in with a resolution or order and bring it up with the idea of trying to pass it, virtually by Executive order, and shoving it through?

The SPEAKER. Is that a parliamentary inquiry?

Mr. RICH. I think it is. We want to know whether we are going to have this "logrolling" legislation.

The SPEAKER. The Chair knows nothing about "logrolling" legislation, but, according to all the rules of the House with which the Chair is familiar, it is within the power of the Rules Committee to bring in this rule.

Mr. O'CONNOR. Mr. Speaker, I yield 30 minutes to the gentleman from Pennsylvania [Mr. RANSLEY].

Mr. RANSLEY. Mr. Speaker, I yield 5 minutes to the gentleman from New York [Mr. SNELL].

Mr. SNELL. Mr. Speaker, it is not very often that I take the floor of the House to criticize anything that the Committee on Rules has done. I am about as good a friend of that committee as any Member on the floor, but I do feel that in bringing in this rule at this time the committee has gone beyond all limits. I have seen various rules, some that are called gag rules. I do not know that I would even call this a gag rule, but I do say that it is the acme of all tight rules that I have seen in 20 years' experience in this House.

Let me say to the distinguished chairman of the Rules Committee that if I had a piece of legislation which had been brought up this afternoon, and had over a three to one majority, and could not pass it under suspension, I would not consider it was a very popular piece of legislation and force the House to consider it at this time.

Furthermore, considering the fact that we have already passed an adjournment resolution and expect to adjourn within the next few hours, there is certainly no possible opportunity for passing this legislation in the other body before we adjourn.

I do not care to enter into a general discussion of this bill further than to say that this is the rankest operation of the Rules Committee I have ever known in the House of Representatives. I defy any man on the Democratic side, which is always talking about generosity and liberal rules, to find a similar example in history equal to the rule that has just been presented by the gentleman from New York [Mr. O'CONNOR.] [Applause.]

[Here the gavel fell.]

Mr. O'CONNOR. Mr. Speaker, what the distinguished Minority Leader has said might at first blush carry some impression to the House, but the fact is that this bill has already been debated for 40 minutes. It was brought up under suspension where no amendment was permitted. All this rule does is to carry out that situation exactly, there having been debate on the bill, and this rule does not change the situation at all.

Mr. SNELL. Will the gentleman yield?

Mr. O'CONNOR. I yield.

Mr. SNELL. Did the gentleman ever see a rule presented in this House which provided that a bill should be considered as engrossed and read a third time?

Mr. O'CONNOR. Not before it had been considered under suspension of the rules.

Mr. SNELL. I defy the gentleman to find a single example of that kind in history.

Mr. O'CONNOR. I never saw such a rule brought in the original instance, but this bill has already been debated.

Mr. SNELL. And you say you are liberal. Where are all these people who talked about liberal rules?

Mr. O'CONNOR. We are the great liberal party.

Mr. SNELL. Yes; you are a great liberal party. You are progressing pretty fast in the wrong direction.

Mr. RANSLEY. Mr. Speaker, I yield 5 minutes to the gentleman from Michigan [Mr. MICHENER].

Mr. MICHENER. Mr. Speaker, let us see what we are doing here and consider this very extraordinary procedure without heat and without passion. The rules of the House provide for what is known as suspension of the rules; that is, on certain specified times the Speaker of the House is permitted to recognize a Member to make a motion to suspend all rules of the House and pass a bill. In the beginning it was intended that this procedure should be resorted to only on rare occasions and really as a matter of emergency. In

drafting this rule the Congress was very careful to provide that a two-thirds vote of those present and voting was necessary to pass the bill. When this method is adopted the proponents of the bill are given 20 minutes to present their case under the rule, and the opponents are allowed but 20 minutes of debate. Then the bill comes to a vote without any opportunity to amend. This rule is a regular gag rule, if there is any such thing in the regular rules of the House.

Of late passing bills under the suspension process has become very common. A number of days ago a resolution passed the House permitting the Rules Committee to bring in rules without notice, and immediate consideration is given to such rules. This is an innovation, because under the general rules of the House the Rules Committee must present a rule the day preceding its consideration, and in this way the House has an opportunity to have before it a copy of the rule before it is asked to vote.

A few minutes ago the House considered this parkway bill under suspension of the rules. Two-thirds failed to vote for the bill. While the bill deals with a project costing approximately $50,000,000, yet the House was given but 40 minutes' debate. Because the bill failed of passage the Rules Committee was immediately convened and brings before us the rule which we are now asked to vote upon. I have been in Congress for many years, and I have no fear of successful contradiction when I say that a proceeding of this type has never heretofore been resorted to.

The Rules Committee has brought in a rule making a second consideration of this same bill in order within less than 1 hour's time. Do not forget that we voted on this same proposition under the rules of the House less than 1 hour ago and defeated the bill. There is but one copy of the rule which we are asked to vote upon in existence, and we heard that read from the Clerk's desk. It provides that the parkway bill "shall be considered as having been engrossed and read a third time" and that the House shall immediately proceed to vote upon the passage of said bill. In short, it changes the suspension rule from a two-thirds vote to a majority vote without even reading the bill.

Now, we have heard much about gag rules. My colleagues, this is the "gaggiest" gag rule ever presented to this body. In polite terms, we might call it a supergag rule. Think of the Congress being required to vote upon a proposition involving $50,000,000 without any consideration other than as above indicated!

The splendid chairman of the Rules Committee, the gentleman from New York [Mr. O'CONNOR], knows the rules of the House. He is a good parliamentarian and understands the precedents. I served on the Rules Committee with him for several years and am convinced that he is too familiar with parliamentary procedure and has too much respect for fair leadership to bring in a rule like this unless somewhere there was an urge that induced the action.

Now, I am not going to discuss the merits of this bill. From what I have been able to learn, this parkway is a roadway, approximately 450 miles long, connecting two great national parks. This roadway is to be 800 feet wide, will be beautiful and scenic, and will be paid for out of the Treasury of the United States. This bill will give the Department of the Interior the control, which carries with it the maintenance of this parkway.

The improvement is not necessary at this time. In the beginning, it was not authorized by Congress. This is one of those projects where either under the P. W. A. or the W. P. A. $6,000,000 of relief money was appropriated, the purpose of which was to eventually accomplish some local benefit. I live in Michigan, and when I think that this 800-foot driveway, which the Government is to construct and pay for, represents just about the distance from my home to Washington, then I wonder whether it might be well, if we are going to spend this $50,000,000, to spend it through the regular channels whereby Federal-aid roads are built. We can do much better by building farm-to-market roads or improved post roads, rather than developing this splendid scenic driveway in two States of the Union.

Much has been said here about sectionalism. No one will accuse me of sectionalism. However, up in our part of the country, some people are beginning to wonder if the administration is not bearing down just a little hard, when projects like the T. V. A. and these other great developments in certain localities are being connected up with scenic driveways, to be paid for by the taxpayers throughout the length and breadth of the land, who are not only overburdened with taxation, but who, in many cases, have almost impossible highways leading from their homes to their markets.

Remember that the passage of this rule, because that would eventually mean the passage of the bill, means that the Government is taking over this highway and becoming responsible for its maintenance for all time. If, perchance, the majority of those present should not vote to pass the bill on this, its second trial within an hour, I am wondering what unheard of, ruthless parliamentary procedure will next be resorted to. It seems that in these closing days there is no limit.

The SPEAKER. The time of the gentleman from Michigan [Mr. MICHENER] has expired.

Mr. RANSLEY. Mr. Speaker, I yield 10 minutes to the gentleman from Michigan [Mr. WOLCOTT].

Mr. WOLCOTT. Mr. Speaker, I do not see how anybody can take any particular pride in considering a bill in this manner, which has been before the House on three occasions, and has been defeated on each of those occasions. I do not, however, think we should spend too much time on that. If the gentleman sponsoring this bill feel this is the proper way to legislate, the responsibility is theirs. It is our responsibility, however, when we vote to do so upon the merits of the measure.

Let me call your attention to this fact that in these projects, of which this is one, there are involved $48,000,000. Now, $48,000,000 is almost one-half the amount we appropriate and allocate each year for highway purposes under the highway act to all of the 48 States. Forty-eight million dollars is eight times the amount allocated to the State of Michigan and several other States having comparable road mileage.

When you gentlemen adopt your platform and reiterate that you are in favor of relief, when you reiterate that you are in favor of balancing the Federal Budget, when you state that it will not be necessary any more to pass $700,000,000 tax bills because you promise to reduce expenditures, remember that here today you voted to increase the burden of taxation on the people of this Nation $48,000,000 for an unjustifiable, unwarranted, unsound proposition. You cannot go back to your constituents and say "We are in favor of economy, we are in favor of relief, we are in favor of balancing the Federal Budget, we are in favor of reducing the cost of goverment" and vote for this measure with consistency. The two things are incongruous, they are as far apart as the poles. You cannot be consistent with your platform and vote for this.

Gentlemen, as competent legislators, I want you to consider this in the light of the fact that this amount is one-tenth of the amount we appropriated to take care of every poor person in the United States for the fiscal year 1934; one-tenth of that amount, and for what purpose? To build a beautiful parkway across two States, and two States only are going to benefit by this. Remember, there are millions of people in these United States today going without proper nourishment, without proper clothing, and without a proper roof over their heads while we are down here legislating $48,000,000 for the purpose of building a beautiful parkway through two States.

I entreat you gentlemen to use some common sense in the consideration of the merits of this bill and vote it down as you have on three different occasions. Let us not go home from this Congress without voting for at least one measure which is in the interest of the taxpayers, the merchants, the industrialists, and the agriculturists of this Nation. [Applause.]

[Here the gavel fell.]

Mr. RANSLEY. Mr. Speaker, I yield 5 minutes to the gentleman from Ohio [Mr. JENKINS].

Mr. JENKINS of Ohio. Mr. Speaker, the question of road building on the part of the United States Government is a

comparatively new matter. It was only about 30 years ago, I think, that the Government first launched upon any program of road building. At that time the Government approached the subject with great timidity because the principal opposition came from those who were jealous of the rights of the States. They insisted that the Federal Government had no right to enter the field of the construction of roads, but gradually that feeling faded away with the coming of the automobile. Today we see Congressmen on this floor demanding great sums of money from the Government, whose predecessors would have opposed this program most strenuously. First, as I remember, the Government paid only about $5,000 a mile as its contributory part, and that had to be matched by the States. In most cases the State's part was twice as much as that of the Government. I am not trying to give exact figures. But since that time it has been increased very much.

Many of you will remember, especially the Members from the South, the battle we had 2 years ago to allocate Federal contribution for public roads so as to provide that 25 percent of the appropriation should be used for the construction of country roads such as rural-mail routes and school-bus routes. Now, listen to me. The money you are going to vote here this afternoon for the construction of this one highway, $48,000,000, as I understand it, is enough money to build a farm-to-market road or a school-bus road such as we provided for 2 or 3 years ago clear around the world. This much money would build such a road 24,000 miles in length.

I am calling upon the Members to be sensible about this matter. You are about to undertake the most gigantic step in connection with road building that anybody ever thought of. The Shenandoah Park is a beautiful place. I have been through it. The Smoky Mountains Park is a beautiful place. I have been through that, also. Now, they want to build a highway 477 miles long and 800 feet wide. Think of it, the parkway is to be 800 feet wide, with a minimum width of 200 feet to connect these two parks. Of course, this highway will have to be built over the mountains. This will be very expensive construction. You will have to go from this mountain section to the other mountain section. The expense of construction will be enormous. The maintenance will also be enormous. How can you who come from Ohio vote for this, where we have built the highways for all the automobiles of the world as they fly hither and yon through our great State. We have built our own roads in Ohio. We have matched dollar for dollar with the Government in connection with the construction of our main market roads and our thousands of miles of other State highways. We have paid every cent of the money for the construction of these fine State highways. In Michigan they have done the same thing. In California they have built thousands of miles of roads and paid for them. This is the case everywhere.

How can you on the Democratic side justify the building of this superhighway and make it one of the show-place highways of all the world and the Government pay every nickel of the expense? How can you do it in the face of the terrific outlay of money on every hand. Gentlemen, your conduct, if you pass this bill, will call down upon your heads the retribution that must come from an outraged public.

This is only the original expense. How much is it going to cost to maintain that parkway? No doubt many millions. So long as the Republic stands, our successors will be appropriating money to maintain this show place. Why do we need a parkway 800 feet wide between these two parks? Are not the parks themselves sufficient? The Smoky Mountains Park contains many thousands of acres; I am not sure how many, but I think enough to comprise several counties. I do not know the exact acreage, but it is tremendous. The same is true of the Shenandoah Park. I think the parkway through this park is about 40 miles long.

We can with as much propriety build a parkway from Niagara Falls, a show place in the East, to Yellowstone Park, a show place in the West.

Ladies and gentlemen, you should not submit yourselves under pressure in the last days of this session. I call on you to do your duty and protect the depleted Treasury. It is little short of criminal to waste the people's money in this fashion. I call upon the Democratic Members and the Members from the rural sections and the urban sections to stand together and do what is manifestly your duty. [Applause.]

Mr. O'CONNOR. Mr. Speaker, I yield 5 minutes to the gentleman from Indiana [Mr. GREENWOOD].

Mr. GREENWOOD. Mr. Speaker, I have listened to the speeches made by the gentlemen on the opposition, and it seems like in the closing hours they are developing a case of jitters about something.

There is no money involved in this bill for the construction of the highway. That has already been provided. It is simply a question of the maintenance and management of the parkway in one Government department, whereas now two departments are administering this project. Everyone recognizes these national parks are within driving distance of millions of the population of the United States. This parkway is not located away off in some remote section. It is close to the big cities of this Nation. By Executive order proper authorization has already been made to build this highway, and this bill covers the maintenance and administration thereof. We are bringing in the bill at this time because an emergency exists relative to the administrative features of the bill.

Something has been said about this being a gag rule. The matter has already been debated for 40 minutes as an emergency measure, and has been sustained by a clear majority of the Members of the House of Representatives.

The Rules Committee above everything else is organized to serve this House, and when the House has spoken by a majority, why should anyone rise on the floor of this House and say this is a gag rule? This House may exercise its own will.

Mr. Speaker, I want to answer some of the extreme speeches that have been made by the opposition. The Rules Committee proposes to serve the House where a majority has demonstrated it is in favor of certain emergency legislation. That is what the Rules Committee is for, and the gentlemen on that side of the House have many times used the Rules Committee for similar purposes. That is the function of that committee.

This House can speak on this bill and if a majority is in favor of its passage, the bill will be in the same position as any other legislation favored by a majority of the House. That is all there is involved, and there is no use getting excited at the eleventh hour about it.

Mr. RICH. Will the gentleman yield?

Mr. GREENWOOD. I yield to the gentleman from Pennsylvania.

Mr. RICH. The gentleman says this has been authorized by Congress?

Mr. GREENWOOD. The construction of the highway has been authorized, and it is being built now.

Mr. RICH. What authority has the gentleman for making that statement? Where is the law?

Mr. GREENWOOD. It has been authorized by the Congress. The Congress has appropriated millions of dollars which are being administered by the Chief Executive on all kinds of similar projects in the United States. This one is just the same.

Mr. RICH. It has been authorized by Executive order of the President of the United States only.

[Here the gavel fell.]

Mr. O'CONNOR. Mr. Speaker, I move the previous question on the adoption of the resolution.

The previous question was ordered.

The SPEAKER. The question is on the adoption of the resolution.

Mr. SNELL. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The question was taken; and there were—yeas 146, nays 139, not voting 138, as follows:

[Roll No. 135]

So the resolution was agreed to.

The Clerk announced the following additional pairs:

On this vote:

Mr. Drewry (for) with Mr. Reed of New York (against).
Mr. Montague (for) with Mr. Ditter (against).
Mr. Weaver (for) with Mr. Martin of Massachusetts (against).
Mr. Monaghan (for) with Mr. Gifford (against).
Mr. Bulwinkle (for) with Mr. Eaton (against).
Mr. Woodrum (for) with Mr. Bacon (against).

Until further notice:

Mr. Gregory with Mr. Focht.
Mr. Cochran with Mr. Short.
Mr. Maverick with Mr. Allen.
Mr. Corning with Mr. Fish.
Mr. Green with Mr. Carter.
Mr. Wilcox with Mr. Lambertson.
Mr. Lamneck with Mr. Welch.
Mr. Healey with Mr. Hollister.
Mr. Granfield with Mr. Lehlbach.
Mr. Cartwright with Mr. Brewster.
Mr. Disney with Mr. Englebright.
Mr. Dorsey with Mr. Sauthoff.
Mr. Fernandez with Mr. Hope.
Mr. Scott with Mr. Higgins of Massachusetts.
Mr. Bloom with Mr. Young.
Mr. Imhoff with Mr. Driscoll.
Mr. Richardson with Mr. Stack.
Mr. Kennedy of Maryland with Mr. Faddis.
Mr. Rabaut with Mr. Schuetz.
Mr. Fitzpatrick with Mr. Carpenter.
Mr. Haines with Mr. Cary.
Mr. Kniffin with Mr. Clark of Idaho.
Mr. Secrest with Mr. Ferguson.
Mr. Larrabee with Mr. Cole of Maryland.
Mr. Buckley of New York with Mr. Johnson of Oklahoma.
Mr. Lea of California with Mr. Kennedy of New York.
Mr. Moran with Mr. Dockweiler.
Mr. Robinson of Utah with Mr. Stubbs.
Mr. Gambrill with Mr. Sandlin.
Mr. Peterson of Florida with Mr. Wilson of Louisiana.

Mr. O'BRIEN and Mr. KOPPLEMANN changed their votes from "aye" to "no."

The result of the vote was announced as above recorded.

The SPEAKER pro tempore. The question is on the passage of the bill.

Mr. SNELL. Mr. Speaker, I demand the yeas and nays on the passage of the bill.

The yeas and nays were ordered.

The question was taken; and there were—yeas 145, nays 131, not voting 147, as follows:

[Roll No. 136]

YEAS—145

Mr. Sabath with Mr. Chapman.
Mr. Boylan with Mr. McSwain.
Mr. Schulte with Mr. Palmisano.
Mr. Merritt of New York with Mr. Gray of Pennsylvania.
Mr. Kenney with Mr. Duncan.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PORTRAIT OF THE LATE MR. RAINEY

Mr. KELLER. Mr. Speaker, I ask unanimous consent to proceed for one-half minute.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. KELLER. Mr. Speaker, this morning the Committee on the Library met and, finally, selected the portrait of Henry T. Rainey painted by Howard Chandler Christy. The committee was in session at the time my good friend from Illinois [Mr. LUCAS] spoke here this morning criticizing the delay, and I accept in perfectly good faith his sincerity in the matter.

I had called in four of the noted artists and critics of our country who agreed unanimously upon this portrait as the best of the 16 submitted.

Every opportunity was given to the painters of the country to enter this contest. It was the hope of the committee that this contest might bring out a portrait as individual, as great, and as outstanding in portraiture as is the wonderful head of Abe Lincoln in the rotunda of the Capitol. Such was not our good fortune because Mr. Rainey had neglected to have his marvelous head painted from life at a time when he still retained his physical powers in full. All the portraits except one were painted from photographs. Nevertheless a number of excellent portraits were offered. This made it most difficult for the committee to make its decision. It could not be hoped to make a selection acceptable to all. There was very wide divergence of opinion. It was for this reason that I thought it wise to call in men of such distinction in the art world to advise us. In view of all this I feel it incumbent upon me to appeal to the men who approach greatness to have the painters portray them while at their best, so that when a Speaker passes there will be portraits that express him at his best. That is the hope I have, so that in the future men will not be compelled to guess at what is the best expression of our great men to be passed on to posterity.

ELECTION CASE—LANZETTA *v.* MARCANTONIO

Mr. WEST. Mr. Speaker, I submit a report from the Committee on Elections No. 1 in the contested-election case of Lanzetta against Marcantonio and ask for the immediate consideration of the accompanying resolution.

The Clerk read as follows:

House Resolution 560

Resolved, That James J. Lanzetta is not entitled to a seat in the House of Representatives of the Seventy-fourth Congress from the Twentieth Congressional District of the State of New York; and be it further

Resolved, That Vito Marcantonio is entitled to a seat in the House of Representatives of the Seventy-fourth Congress from the Twentieth Congressional District of the State of New York.

The resolution was agreed to.

CLAIMS OF OWNERS OF CERTAIN VESSELS

Mr. BEITER. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (S. 4773) to confer jurisdiction on the Court of Claims to hear and determine certain claims against the United States on the part of owners of certain vessels.

The Clerk read the title of the bill.

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That jurisdiction be, and is hereby, conferred upon the Court of Claims, notwithstanding any lapse of time or any statutes of limitations, to hear, examine, and adjudicate claims against the United States on the part of owners of certain Finnish sailing vessels, to wit: *Glenard, Kensington, Vidylia, Parchim, Woodburn, Port Patrick, Grace Harwar, Professor Koch, Prompt, Albyn, Rowena, Fahrwohl,* and *Pampa,* for damages said to have been sustained as a result of the alleged refusal of representatives of the United States to permit said vessels to sail from United States ports during the period between March 18, 1918, and November 26, 1918: *Provided,* That such suit or suits shall be brought within 3 months after the date of the approval of this act.

SEC. 2. In determining the said claims, the Court of Claims shall pass solely on the following questions:

1. Were the 13 Finnish sailing vessels named herein, or any one or more of them, detained by the United States?

2. If the preceding question is answered in the affirmative, was such detention unlawful?

3. If the second question is answered in the affirmative, is the United States obligated to indemnify the owner or owners, or

their successors in interest, of the vessel or vessels found to have been unlawfully detained?

4. If the third question is answered in the affirmative, what indemnity should be paid by the United States with respect to each vessel found to have been unlawfully detained?

SEC. 3. The claims shall be prosecuted in the name of the owner or owners or managing owner or owners of the said several ships. If the Court of Claims, or the Supreme Court on appeal, decides that the United States is obligated to indemnify the owner or owners, or their successors in interest, the amount of the indemnity shall be paid by the United States to the Envoy Extraordinary and Minister Plenipotentiary of the Republic of Finland then resident in the United States, for the use and benefit of the owner, owners, or their successors.

SEC. 4. In determining the aforesaid claims, the Court of Claims shall receive and consider the evidence and arguments contained in (a) the record mentioned in the note of the Minister of Finland to the Secretary of State, dated February 1, 1935; (b) the answer mentioned in the note of the Secretary of State to the Minister of Finland, dated March 4, 1935; and (c) the reply and additional material mentioned in the note of the Minister of Finland to the Secretary of State, dated April 12, 1935, relating to said claims.

Neither party shall be entitled as of right to present as evidence documents other than those specified herein, except copies of other correspondence pertinent to the case exchanged between the Department of State and the Legation of Finland: *Provided*, That the court shall be authorized to require the production of such additional evidence as the court deems material.

SEC. 5. A copy of the petition or petitions of the owner or owners of each of the said sailing vessels shall be served upon the Attorney General of the United States, and he, or some attorney or attorneys designated by him, shall appear and defend the interests of the United States in such case or cases. Jurisdiction is hereby conferred on the Supreme Court to grant a writ of certiorari to the Court of Claims on the petition of any party to any of the aforesaid cases, to review any determination that may be rendered by the Court of Claims under the terms of this act.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

EXTENSION OF REMARKS

Mr. LEWIS of Colorado. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD by including therein a brief statement by the War Department.

The SPEAKER. Is there objection to the request of the gentleman from Colorado?

There was no objection.

AMENDMENT OF THE CANAL ZONE CODE

Mr. BLAND. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 6719) to amend the Canal Zone Code, with Senate amendments, and concur in the Senate amendments.

The Clerk read the title of the bill.

Mr. RANKIN. Mr. Speaker, reserving the right to object——

Mr. BLAND. Mr. Speaker, if I may make a statement about the measure, the Senate struck out one of the sections in the bill which covered a number of different bills and that one section was the only one that was in dispute. The bill passed here all right, but there was some controversy over there, because it was claimed by laborers and some of the union organizations in the Canal Zone that if the bill passed it would do away with their 30-hour week. There are other beneficial matters in the bill pertaining to retirement and things of that kind and it was thought better to strike out the amendment and let the bill go through.

Mr. RANKIN. Does it increase the tolls in any way?

Mr. BLAND. Not at all; there is nothing in the measure about tolls.

The Clerk read the Senate amendments, as follows:

Page 2, strike out lines 3 to 24, inclusive.
Page 3, line 1, strike out "3" and insert "2."
Page 4, line 1, strike out "4" and insert "3."
Page 5, line 3, strike out "5" and insert "4."
Page 5, line 24, strike out "6" and insert "5."
Page 6, line 14, strike out "7" and insert "6."
Page 6, line 22, strike out "8" and insert "7."
Page 7, line 22, strike out "9" and insert "8."
Page 9, line 1, strike out "10" and insert "9."
Page 9, line 13, strike out "11" and insert "10."
Page 9, line 15, strike out "12" and insert "11."
Page 10, line 15, strike out "13" and insert "12."
Page 11, line 9, strike out "14" and insert "13."

The Senate amendments were concurred in.

A motion to reconsider was laid on the table

SAFETY AT SEA

Mr. BLAND. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill S. 4648, to promote safety at sea in the neighborhood of ice and derelicts, and for other purposes, and consider the same at this time.

The SPEAKER pro tempore. The Clerk will report the bill.

The Clerk read as follows:

Be it enacted, etc.

INTERNATIONAL AGREEMENTS ON ICE PATROL AND DERELICT DESTRUCTION

SECTION 1. The President is authorized to conclude agreements with interested maritime nations (a) to maintain in the north Atlantic Ocean a service of ice patrol, of study and observation of ice and current conditions, and of assistance to vessels and their crews requiring aid within the limits of the patrol; (b) to maintain a service of study and observation of ice and current conditions in such waters as may affect the set and drift of ice in the north Atlantic Ocean; and (c) to undertake all practicable steps to insure the destruction or removal of derelicts in the northern part of the Atlantic Ocean, east of the line drawn from Cape Sable to a point in latitude 34° north, longitude 70° west, if this destruction or removal is necessary. The President is further authorized to include in such agreements a provision for payment to the United States by the countries concerned, of their proportionate share of the expense for maintenance of the services named, or for the United States to contribute proportionate share should it be agreed that another country was to maintain the patrol.

PATROL SERVICES

SEC. 2. (a) Unless the agreements made in accordance with section 1 provide otherwise, an ice patrol shall be maintained during the whole of the ice season in guarding the southeastern, southern, and southwestern limits of the region of icebergs in the vicinity of the Grand Banks of Newfoundland, and the patrol shall inform trans-Atlantic and other passing vessels by radio and such other means as are available of the ice conditions and the extent of the dangerous region. A service of study of ice and current conditions, a service of affording assistance to vessels and crews requiring aid, and a service of removing and destroying derelicts shall be maintained during the ice season and any or all such services may be maintained during the remainder of the year as may be advisable.

(b) The ice-patrol vessels shall warn vessels known to be approaching a dangerous area and recommend safe routes.

(c) The ice patrol vessels shall record the name, together with all the facts in the case, of any ship which is observed or known to be on other than a regular recognized or advertised ship route crossing the North Atlantic Ocean, or to have crossed the fishing banks of Newfoundland north of latitude 43° north during the fishing season, or, when proceeding to and from ports of North America to have passed through regions known or believed to be endangered by ice. The name of any such ship and all pertinent information relating to the incident shall be reported to the government of the country to which the ship belongs, if the government of that country so requests.

(d) The Commandant of the Coast Guard, under the direction of the Secretary of the Treasury, shall administer the services provided for in this section and shall assign thereto such vessels, material, and personnel of the Coast Guard as may be necessary. Any executive department or agency may upon the request of the Secretary of the Treasury detail personnel, loan or contribute material or equipment, or otherwise assist in the carrying out of the services named.

(e) The Commandant of the Coast Guard shall publish each year a report of the activities of the services provided for in this section, a copy of which shall be furnished to each interested foreign government and to each agency assisting in the work.

NORTH ATLANTIC ROUTES

SEC. 3. (a) The owner, or operating agent, of any passenger vessel of the United States crossing the North Atlantic Ocean shall give public notice, in such manner as may be prescribed by the Secretary of the Treasury, of the regular routes which he proposes such vessel will follow and of any changes made in a route, and shall require the vessel to follow the published route as far as circumstances will permit. Any passenger vessel of the United States crossing the North Atlantic Ocean shall follow, as far as circumstances will permit, the recognized ship routes; it shall avoid, as far as practicable, the fishing banks of Newfoundland, north of latitude 43° north during the fishing season; and shall, as far as circumstances will permit, pass outside of the regions reported or known to be endangered by ice.

(b) If the owner, or operating agent, of any such passenger vessel fails to comply with this section, he shall for each offense be liable to a fine not exceeding $100.

SEC. 4. (a) The master of every vessel of the United States, when ice is reported on or near his course, shall proceed at a moderate speed or alter his course so as to go well clear of the danger zone.

(b) If the master of any such ship fails to comply with this section, he shall for each offense be liable to a fine not exceeding $500.

PUBLICATION

SEC. 5. All rules and regulations, except such as have no general applicability and legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents,

or employees thereof, issued, prescribed, or promulgated pursuant to authority contained herein, shall be forwarded forthwith to the Division of the Federal Register in The National Archives for filing and publishing in the Federal Register.

Mr. BLAND. Mr. Speaker, I ask unanimous consent to make a brief statement.

The SPEAKER pro tempore. Is there objection?

There was no objection.

Mr. BLAND. Mr. Speaker, this is simply to give legislative sanction to the ice patrol now being carried on for the United States and other governments. It is provided for in the treaty of 1929, the Convention of Safety of Life at Sea. It is felt that this legislation is necessary in order that certain restrictions and requirements contained in the 1929 convention may be applied in the same manner to American vessels as to other vessels.

Mr. SNELL. Mr. Speaker, will the gentleman yield?

Mr. BLAND. Yes.

Mr. SNELL. Has a similar bill been passed in the House?

Mr. BLAND. A similar bill in the House has been reported and it is now on the calendar.

Mr. SNELL. It comes unanimously from the gentleman's committee?

Mr. BLAND. Yes.

Mr. SNELL. Is there any difference in the bills?

Mr. BLAND. No; it is identically the same bill.

The SPEAKER pro tempore. Is there objection to the present consideration of the bill?

There was no objection.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

ONE HUNDREDTH ANNIVERSARY, TRI-STATE TERRITORY

Mr. SOMERS of New York. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 8107) to authorize the coinage of 50-cent pieces in connection with the celebration of the one hundredth anniversary of the opening of the tri-State territory of east Texas, north Louisiana, and south Arkansas by Capt. Henry Miller Shreve, to be held in Shreveport, La., and surrounding territory, in 1935 and 1936, and concur in the Senate amendments.

The SPEAKER pro tempore. The Clerk will report the Senate amendments.

The Clerk read as follows:

Strike out all after the enacting clause and insert:

"That in commemoration of the one thundredth anniversary of the founding of the city of Shreveport, La., and of the opening to navigation of the Red River of the West by the United States Government, resulting in the development of the tri-State territory of north Louisiana, east Texas, and southwest Arkansas, there shall be struck at a mint of the United States to be designated by the Director of the Mint 25,000 commemorative medals of a special appropriate single design, size, weight, and composition to be fixed by the Director of the Mint with the approval of the Secretary of the Treasury.

"SEC. 2. Such commemorative medals shall be delivered to the duly authorized officers of the Shreveport Centennial, Inc., upon payment to the Director of the Mint of an amount to be fixed by the Director of the Mint not less than the estimated cost of manufacture, including labor, materials, dies, use of machinery, and overhead expenses; and security satisfactory to the Director of the Mint shall be furnished to indemnify the United States for the full payment of such cost.

"SEC. 3. Whoever shall falsely make, forge, or counterfeit or cause or procure to be falsely made, forged, or counterfeited or shall aid in falsely making, forging, or counterfeiting any medal issued under the provisions of this act, or whoever shall sell or bring into the United States or any place subject to the jurisdiction thereof from any foreign place, or have in his possession any such false, forged, or counterfeited medal, shall be fined not more than $1,000 or imprisoned not more than 2 years, or both."

Amend the title so as to read: "An act to authorize the striking of an appropriate medal in commemoration of the one hundredth anniversary of the founding of the city of Shreveport, La., and the opening of the Red River of the West to navigation."

The SPEAKER pro tempore. Is there objection?

There was no objection.

The Senate amendments were agreed to.

THREE HUNDREDTH ANNIVERSARY, YORK COUNTY, MAINE

Mr. SOMERS of New York. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (S. 4608) to authorize the coinage of 50-cent pieces in commemoration of the three hundredth anniversary of the founding of York County, Maine, and consider the same at this time.

The SPEAKER pro tempore. The gentleman from New York asks unanimous consent for the present consideration of the bill, S. 4608, which the Clerk will report.

The Clerk read as follows:

Be it enacted, etc., That in commemoration of the three hundredth anniversary of the founding of York County, Maine, there shall be coined at a mint of the United States to be designated by the Director of the Mint not to exceed 30,000 silver 50-cent pieces of standard size, weight, and composition and of special appropriate single design to be fixed by the Director of the Mint, with the approval of the Secretary of the Treasury, but the United States shall not be subject to the expense of making the necessary dies and other preparations for this coinage.

SEC. 2. The coins herein authorized shall bear the date 1936, irrespective of the year in which they are minted or issued, shall be legal tender in any payment to the amount of their face value, and shall be issued only upon the request of the Committee for the Commemoration of the Founding of York County upon payment by it of the par value of such coins, but not less than 25,000 such coins shall be issued to it at any one time and no such coins shall be issued after the expiration of 1 year after the date of enactment of this act. Such coins may be disposed of at par or at a premium by such committee, and the net proceeds shall be used by it in defraying the expenses incidental and appropriate to the commemoration of such event.

SEC. 3. All laws now in force relating to the subsidiary silver coins of the United States and the coining or striking of the same, regulating and guarding the process of coinage, providing for the purchase of material, and for the transportation, distribution, and redemption of coins, for the prevention of debasement or counterfeiting, for the security of the coins, or for any other purposes, whether such laws are penal or otherwise, shall, so far as applicable, apply to the coinage herein authorized.

The SPEAKER pro tempore. Is there objection?

Mr. YOUNG. Mr. Speaker, I reserve the right to object. It is my understanding that the important housing and slum-clearance bill, which many of us favor and which should by all means be enacted into law before the adjournment of this Congress, is being held in committee, and, instead of considering an important bill like that for the welfare of the people, we are asked to pass a bill of the nature now under consideration, and I object.

Mr. SOMERS of New York. Oh, I wish the gentleman would withhold his objection. The gentleman ought not to hold that against me. I have nothing to do with the bill to which the gentleman refers. Possibly if it came before my committee I would give it consideration.

Mr. YOUNG. This is the important housing bill to which I refer.

Mr. SOMERS of New York. I sympathize entirely with the gentleman.

Mr. YOUNG. It is of immense importance not only to the city dwellers but to the people of rural America.

Mr. SOMERS of New York. I sympathize entirely with the gentleman and would support that policy.

Mr. YOUNG. It should be enacted into law.

Mr. SOMERS of New York. I think the gentleman is right.

The regular order was directed.

Mr. SNELL. Mr. Speaker, if the gentleman is going to object to that after we have let a lot of other bills go through, I give notice that there will be a lot of other things objected to.

Mr. YOUNG. Mr. Speaker, I withdraw my objection.

The SPEAKER pro tempore. Is there objection?

There was no objection.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

PROTECTION OF BEACHES ALONG THE SHORES OF THE UNITED STATES

Mr. SUTPHIN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (S. 3505) for the improvement and protection of the beaches along the shores of the United States, and consider the same at this time.

The SPEAKER pro tempore. The gentleman from New Jersey asks unanimous consent to take from the Speaker's table for present consideration the bill S. 3505, which the Clerk will report.

The Clerk read as follows:

Be it enacted, etc., That it is hereby declared to be the policy of the United States to assist in the construction, but not the maintenance, of works for the improvement and protection of the beaches along the shores of the United States, and to prevent erosion due to the action of waves, tides, and currents, with the purpose of preventing damage to property along the shores of the United States, and promoting and encouraging the healthful recreation of the people. As used in this act, the word "beaches" includes all those situated on the coasts of the Atlantic and Pacific Oceans, the Gulf of Mexico, and the shores of the Great Lakes, and all estuaries and bays directly connected therewith.

SEC. 2. (a) It shall be the duty of the Secretary of War, through the Beach Erosion Board, organized under the provisions of section 2 of the Rivers and Harbors Act, approved July 3, 1930, to make investigations with a view to determining the most suitable methods of beach protection and restoration of beaches in different localities; to advise the States, counties, municipalities, or individuals of the appropriate locations for recreational facilities; and to publish from time to time such useful data and information concerning the protection of beaches as the Board may deem to be of value to the people of the United States.

(b) All provisions of existing law relating to examinations and surveys and to works of improvement of rivers and harbors shall apply, insofar as practicable, to examinations and surveys and to works of improvement relating to shore protection; except that all projects having to do with shore protection shall be referred for consideration and recommendation to the Beach Erosion Board instead of to the Board of Engineers for Rivers and Harbors.

SEC. 3. The Beach Erosion Board, in making its report on any work or project relating to shore protection shall, in addition to any other matters upon which it may be required to report, state its opinion as to (a) the advisability of adopting the project, (b) what Federal interest, if any, is involved in the proposed improvement, and (c) what share of the expense, if any, should be borne by the United States.

With the following committee amendments:

Line 4, page 1, after the word "construction" insert "where Federal interests are involved"; page 2, line 14, strike out the period at the end of the line and insert the following: "*Provided*, That not more than 75 percent of the cost of any specific investigation shall be borne by the United States"; page 3, add a new section, reading as follows:

"SEC. 4. Any expenses incident to the United States in the undertaking of the investigations and studies authorized herein may be paid from funds hitherto or hereafter appropriated for examinations, surveys, and contingencies for rivers and harbors."

The SPEAKER pro tempore. Is there objection?

There was no objection.

The amendments were agreed to and the bill as amended was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

SELECTION OF LANDS OF STATE PARK SYSTEM IN CALIFORNIA

Mr. BURNHAM. Mr. Speaker, I ask unanimous consent for the present consideration of the bill (S. 4633) to provide for the selection of certain lands in the State of California for the use of the California State park system.

The SPEAKER pro tempore. Is there objection to the present consideration of the bill?

There being no objection the Clerk read as follows:

Be it enacted, etc., That subject to valid rights existing on the date of this act, the State of California may, within 5 years, select for State park purposes by legal subdivisions all or any portion of the public land not reserved for public purposes in the following townships:

Township 13 south, range 4 east, San Bernardino meridian, sections 25, 26, 35, and 36; township 13 south, range 5 east; township 13 south, range 6 east; township 13 south, range 7 east; township 13 south, range 8 east; township 13 south, range 9 east.

Township 14 south, range 4 east, sections 1 and 12; township 14 south, range 5 east, sections 1 to 26, inclusive, 35, and 36; township 14 south, range 6 east; township 14 south, range 7 east; township 14 south, range 8 east; township 14 south, range 9 east.

Township 15 south, range 6 east, sections 1 to 18, inclusive; township 15 south, range 6 east, sections 21 to 27, inclusive; township 15 south, range 6 east, sections 34, 35, and 36; township 15 south, range 7 east; township 15 south, range 8 east; township 15 south, range 9 east; township 15 south, range 10 east, sections 29, 30, 31, and 32.

Township 16 south, range 6 east, sections 1, 2, 3, 4, 9, 10, 11, 12, 13, 14, 15, and 16; township 16 south, range 7 east; township 16 south, range 8 east; township 16 south, range 9 east, sections 1 to 12, inclusive; township 16 south, range 10 east, sections 5, 6, 7, and 8.

Township 17 south, range 8 east, San Bernardino meridian: *Provided*, That the Secretary of the Interior may set aside lands of approximately 42,000 acres of the above-described area, and may in his discretion, and under such rules and regulations as he may prescribe, transfer complete title to all or any part of the same to the State of California on the basis of acre for acre in consideration of the transfer by the State of California to the United States of the complete title to lands owned by said State within the area withdrawn by Executive Order No. 6361 of October 25, 1933, and the provisions of section 2 of this act shall not apply thereto.

SEC. 2. Upon the submission of satisfactory proof that the land selected contains characteristic desert growth and scenic or other natural features which it is desirable to preserve as a part of the California State park system, the Secretary of the Interior shall cause patents to issue therefor: *Provided*, That there shall be reserved to the United States all coal, oil, gas, or other mineral contained in such lands, together with the right to prospect for, mine, and remove the same at such times and under such conditions as the Secretary of the Interior may prescribe: *Provided further*, That any patent so issued shall contain a provision for reversion of title to the United States upon a finding by the Secretary of the Interior that for a period of more than 1 year the land has not been used by the State for park purposes: *And provided further*, That in order to consolidate park areas or to eliminate private holdings therefrom, lands patented hereunder may be exchanged with the approval of and under rules prescribed by the Secretary of the Interior for privately owned lands in the area hereinbefore described of approximately equal value containing the natural features sought to be preserved hereby. The lands so acquired to be subject to all the conditions and reservations prescribed by this act, including the reversionary clause hereinbefore set out.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

PASSAIC VALLEY SEWERAGE COMMISSIONERS

Mr. SEGER. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 3143) for the relief of the Passaic Valley Sewerage Commissioners.

The SPEAKER pro tempore. Is there objection?

There being no objection, the Clerk read as follows:

Be it enacted, etc., That the Secretary of the Treasury be, and he is hereby, authorized and directed to pay, out of any money in the Treasury not otherwise appropriated, the sum of $109,088.03 to the Passaic Valley Sewerage Commissioners, a body politic and corporate, created by and under the laws of the State of New Jersey, and by said laws vested with the title to the Passaic Valley sewer, for damage done to the outlet of said sewer at or near Robbins Reef in the harbor of New York by the steamship *Leviathan*, a passenger vessel owned by the Government of the United States and operated under the direction and control of the United States Shipping Board and the United States Shipping Board Emergency Fleet Corporation, on the 21st day of December 1923: *Provided*, That no part of the amount appropriated in this act in excess of 10 percent thereof shall be paid or delivered to or received by any agent or attorney on account of services rendered in connection with this claim, and the same shall be unlawful, any contract to the contrary notwithstanding. Any person violating the provisions of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not exceeding $1,000.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

LOSSES SUSTAINED BY COOPERATIVE MARKETING ASSOCIATIONS

Mr. BOILEAU. Mr. Speaker, I ask unanimous consent for the present consideration of the resolution (S. J. Res. 38) for the adjustment and settlement of losses sustained by the cooperative marketing associations.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection?

There being no objection, the Clerk read as follows:

Resolved, etc., That for the purpose of adjustment and settlement of losses sustained by the cooperative marketing associations dealing in grain during the stabilization operations of the Federal Farm Board in the years 1929 and 1930 when such cooperative marketing associations were induced and requested by the Federal Farm Board to withhold grain from the market and to make advances to their members in order to stabilize prices, the Federal Farm Credit Administration is hereby authorized and directed to make such adjustments and settlements in accordance with the understanding that such cooperative marketing associations had with the Federal Farm Board, and on the basis of a price or a sum equal to the amount directly loaned or advanced to such associations plus carrying charges and operation costs in connection with such grain from the date of the loans or advances to the date that such grain was finally taken over by the Federal Farm Board or delivered pursuant to its instructions.

With the following committee amendment:

Page 1, line 3, strike out all after the enacting clause, down to and including line 10 on page 2, and insert the following:

"That the Court of Claims, in accordance with such rules as it may adopt, shall investigate losses sustained during the stabilization operations of the Federal Farm Board in 1929 and 1930,

by cooperative associations to which loans were made, either directly or indirectly, by the Federal Farm Board, through withholding grain from the market and making advances to their members in order to stabilize prices, for the purpose of determining—

"(1) The amount of loss, if any, in the case of each such association and the facts and circumstances relating to such loss; and

"(2) Whether, because of any agreement or understanding between such associations, or any of them, and the Federal Farm Board (or any member, officer, or employee thereof) or because of any other facts or circumstances, there is any legal, equitable, or moral obligation on the part of the United States to reimburse such associations, or any of them, for the whole or any part of any such loss.

"The court shall report to Congress, at the earliest practicable date, the results of its investigation and determinations, together with such recommendations as it deems appropriate."

The committee amendment was agreed to.

The Senate joint resolution as amended was ordered to be read a third time, was read the third time, and passed.

The title was amended to read: "Joint resolution to provide for an inquiry by the Court of Claims with respect to losses sustained by cooperative marketing associations in connection with stabilization activities in grain."

A motion to reconsider was laid on the table.

INVESTIGATION BY COMMITTEE ON THE POST OFFICE AND POST ROADS

Mr. MEAD. Mr. Speaker, I ask unanimous consent for the immediate consideration of House Resolution 551.

The Clerk read the House resolution, as follows:

Resolved, That the Committee on the Post Office and Post Roads, as a whole or by subcommittee, is authorized and directed to conduct an investigation to determine (1) the fair and proper basis of compensation for postmasters of the fourth class, and (2) the fair and proper basis of compensation for carrying mail on star routes. The Post Office Department shall make available to the committee such material and such information as it has in its possession with respect to the subjects under investigation by the committee.

The committee shall report to the House (or to the Clerk of the House if the House is not in session) as soon as practicable the results of its investigation, together with such recommendations for legislation as it deems advisable.

For the purposes of this resolution the committee, or any subcommittee thereof, is authorized to sit and act during the present Congress, at such times and places within or outside the District of Columbia, whether or not the House is sitting, has recessed, or has adjourned, to hold such hearings, to require the attendance of such witnesses and the production of such books, papers, and documents, to take such testimony, and to have such printing and binding done as it deems necessary.

The SPEAKER pro tempore. Is there objection to the immediate consideration of the resolution?

Mr. SNELL. Mr. Speaker, reserving the right to object, to ask a question. As I understand, the gentleman simply proposes to do some work with his own committee, at no expense whatever to the Government? It is simply to prepare the committee for legislation at the next session?

Mr. MEAD. Further than that, our committee has requested the Post Office Department to conduct these two investigations, and we merely call upon them to turn over their findings to us for review. During the interim, and until Congress convenes, without any expense to the Government, we intend to use that material for the purpose of legislation.

Mr. BLANTON. Reserving the right to object—and I do not intend to object—these hearings are to be in Washington, D. C.?

Mr. MEAD. Yes; except such hearings as the Post Office Department itself conducts. As far as the committee or subcommittee is concerned, there will be no hearings outside of Washington.

Mr. BLANTON. None at all?

Mr. MEAD. None at all.

Mr. BLANTON. And there will be no expense whatever?

Mr. MEAD. None whatever.

Mr. BLANTON. The Post Office Department can conduct this investigation through their own investigators in different places?

Mr. MEAD. We have requested them to do so and they have agreed.

Mr. FLETCHER. Reserving the right to object, is this study being made with the objective of increasing salaries?

Mr. MEAD. None whatever. The idea is to improve the service. As a result of the evolution in transportation we find about 40,000 communities which were formerly served by railway service are now without such service. We feel that these two investigations, conducted at our request by the Department, will result in the improvement of the service, and no additional expense, as far as we are concerned.

Mr. FLETCHER. Do you propose to lower the population requirement of the towns in relation to the carrier service?

Mr. MEAD. No. We have no intention whatever of doing anything like that. It may be necessary to augment existing service with star-route service or rural service or motor-truck service, if it will be beneficial where the railroad or bus service has been withdrawn.

Mr. FLETCHER. There is no additional cost to the Government?

Mr. MEAD. None whatever, except for new service required from time to time.

Mr. FLETCHER. There is no contemplation of increasing salaries?

Mr. MEAD. None whatever. We may suggest changes in the present system.

Mr. BLANTON. Mr. Speaker, one further question, if the gentleman will yield.

Mr. MEAD. I yield.

Mr. BLANTON. I should like to get the gentleman's attitude on this matter. There has been a disposition on the part of certain inspectors in order to get a record for economy to recommend the abolition of certain little post offices and put those communities on rural routes.

This is detrimental to the interests of the people living in the communities. It means everything to people living out in the country to have a post office. They want to get money orders; they want to use the parcel post; they want this, that, and the other from the post office; and they are entitled to have a post office. These inspectors ought to be instructed that there is something besides economy in furnishing postal service to the country people of the United States.

Mr. MEAD. I hope the gentleman from Texas will come before our committee on that subject.

Mr. BLANTON. I shall do so, without doubt, and give the committee the benefit of some specific evidence I have in my office files.

Mr. MEAD. I thank the gentleman from Texas.

The SPEAKER. The question is on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

BAUSCH & LOMB OPTICAL CO.

Mr. DUFFY of New York. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 2268) for the relief of Bausch & Lomb Optical Co.

Mr. YOUNG. Mr. Speaker, reserving the right to object, it seems to me that in the final hours of this session of Congress, after we have been here since January, we could do much better than spend our time on private bills for the relief of some individuals or corporations. If we would consider an important measure such as the Wagner housing and slum-clearance bill and enact it into law, we would render real and needful service to the people of rural America and to the underpriviliged people living in insanitary and overcrowded dwellings in the cities throughout this Nation. It seems to me it is a disgraceful performance that this important measure is held pigeonholed in the Committee on Banking and Currency. The Seventy-fourth Congress will evade a major responsibility if it adjourns without enacting this important measure into law.

I know nothing about the particular bill under consideration, of course, and do not object to it; but I feel that we should be spending our time upon more important matters. What could be more important than to provide decent, safe, and sanitary dwellings for families of low income?

Mr. WOLCOTT. Mr. Speaker, reserving the right to object, by way of answer to the gentleman's statement in reference to the Wagner-Ellenbogen bill, I may say that the parliamentary situation is such that the gentleman may get the consent of the Speaker to be recognized to suspend the

rules and pass the bill, and we shall be pleased to meet the issue.

Mr. YOUNG. I wish we could suspend the rules and pass it. Recognition would not be accorded to me for the purpose of making such a motion. Also, I am not a member of the Banking and Currency Committee.

The SPEAKER pro tempore. Is there objection to the consideration of the bill?

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That the Secretary of the Treasury be, and he is hereby, authorized and directed to pay, out of any money in the Treasury not otherwise appropriated, to Bausch & Lomb Optical Co., a corporation, of Rochester, N. Y., the sum of $33,487.34, in full settlement of all claims against the Government of the United States on account of expenditures made by said Bausch & Lomb Optical Co., pursuant to an arrangement between said Bausch & Lomb Optical Co. and representatives of the War and Navy Departments of the United States, in the maintenance of special guards for the protection of its plant and property against violence and espionage of enemy aliens from December 4, 1917, through December 7, 1918: *Provided*, That no part of the funds appropriated in this act shall be paid or delivered to or received by any agent or agents, attorney or attorneys, on account of services rendered in connection with said claim. It shall be unlawful for any agent or agents, attorney or attorneys, to exact, collect, withhold, or receive any portion of the funds appropriated in this act on account of services rendered in connection with said claim, any contract to the contrary notwithstanding. Any persons violating the provisions of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not exceeding $1,000.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

EXTENSION OF REMARKS

Mr. LEWIS of Colorado. Mr. Speaker, I ask unanimous consent to have the extension for which I secured permission a few minutes ago printed in the permanent RECORD immediately after my remarks of May 22, 1936.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Colorado?

There was no objection.

Mr. O'MALLEY. Mr. Speaker, I ask unanimous consent to extend my remarks in connection with my bill to create the Wisconsin Valley Authority and to include therein some tables of comparative electrical rates.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

SALE OF PUBLIC DOMAIN IN THE STATE OF OREGON

Mr. MOTT. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4241) to provide for the sale of a certain isolated tract of the public domain in the State of Oregon.

The SPEAKER pro tempore. Is there objection to the consideration of the bill?

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That nothwithstanding any other provision of law or any Executive order, the Secretary of the Interior is authorized upon application filed within 6 months from the date of this act to order into the market and sell at public auction for not less than the appraised value, lot 5, section 21, township 2 south, range 3 east, Willamette meridian, Oregon, subject to the provisions and reservations of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1063), as amended by the act of August 26, 1935 (49 Stat. 846): *Provided*, That any money paid in connection with such sale shall be deposited in the Oregon and California land-grant fund in the United States Treasury.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

PUERTO RICO IS HELD FREE BY UNITED STATES

Mr. IGLESIAS. Mr. Speaker, I ask unanimous consent to extend my own remarks in the RECORD on bills involving Puerto Rico and to also include a resolution from the legislature of Puerto Rico.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Puerto Rico?

There was no objection.

Mr. IGLESIAS. Mr. Speaker, it is a great satisfaction to a large majority of the people of Puerto Rico and to all of us that at the close of this session certain bills of Senator TYDINGS, which were passed by the Senate without having hearings to give those representatives of the island most interested a chance to express their views against independence, and the other bill, which proposed to legislate regarding local election laws of Puerto Rico, were not considered by the House in any way following the advices and petitions of the insular legislature and its leadership.

Sentiment for independence has been propagated by a group in the island, but never has it reached the importance on the scale that the inhabitants of the Philippine Islands have given to it for the past 37 years. Although Puerto Rico came under the rule of the United States under the same circumstances as the Philippines, its people generally have not favored separation but a closer and more permanent union with the people of the United States. The people have been in favor of the largest measure of self-government within the American Union.

THE ELECTION LAW

The action of Senator TYDINGS in introducing his election bill for Puerto Rico and sponsoring its passage in the Senate was a tremendous mistake. Senator TYDINGS should have known better.

Vice President of the Insular Legislature Bolivar Pagan explains the fundamentals of the election law passed by the Legislature of Puerto Rico in a very clear and enlightening way. It shows how our legislators are thinking, despite what their enemies may have thought of them.

This statement represents fundamentally the opinion of the great majority of the people and all parties of the island, because—

One of the measures most fundamental and important for the regime of democratic people is the election law. It constitutes the basis of democracy. Without an election law fair to all political parties and to all citizens who exercise the lofty prerogative of suffrage, democracy would be a farce. Discussions of election laws have always provoked heated controversies in popular parliaments. The men who love democracy honestly believe that, among the different forms of government which the human mind has conceived in the course of history, the best is that formula which guarantees government by majorities. By respecting these principles, every citizen of sincere sentiments and democratic convictions should always strive to prevent the machinery created by the election law from becoming an instrument of coercion or of oppression, and he should sincerely aspire to have such election machinery an honest vehicle for the free and unsullied expression of popular suffrage. A victory at the polls, under the protection of an election law without guaranty to all the sectors and the citizens who take part in elections, is the victory which does not honor or give prestige to any democratic people.

With the said ideas in mind, we have tried to make an election law that would be a guaranty of democracy and would give prestige to our country. The election law (S. B. 9) modified several sections of the election law in force and adds others, improving the law which, with amendments, has been in force in Puerto Rico since the year 1919, approved immediately after the organic act in force was implanted in Puerto Rico.

THE UNIVERSAL SUFFRAGE

This new law has special importance, because under it will be put in force the act recently passed by the Legislature of Puerto Rico consecrating for the first time in our history and to a greater extent than in any other democratic country of the world the grand principle of universal suffrage for men and women without distinction of any kind, establishing the just equality of all citizens at the polls.

THE RIGHT OF COALITIONS

The most important aspects of the new law which we are explaining are several. The principle of the coalition of parties is considered. The principle of the coalition of parties has been the subject of discussions in these latter decades in all countries of the world where the vote of the people determines the governments which are to rule the peoples. In the historical beginnings of democratic practices the nuclei of opinion have generally been divided into two great opposing sectors. Later, in the evolution of ideas and the liberty of thought, numerous parties have arisen in each democratic country in regard to the various public problems set before the consciousness of the people, and for that reason it has been indispensable, in order to secure order and to establish government, to allow coalitions of those parties that may constitute a majority and organize governments as well as to prevent the confusion and the chaos of numerous groups, none of them sufficiently strong to form governments. In the most civilized countries of the world—among them England, France, Spain, Germany, Belgium, Sweden, Norway, and Switzerland—coalitions have been formed for the said purposes. Only in those countries under military dictatorships or dictatorial leaders has it been possible, by various hateful means, to coerce public opinion, to establish one single party, and, finally, to prohibit coalitions.

In Puerto Rico it was not until the year 1924 that coalitions of parties were permitted for the first time. The party that was in power from the year 1904, for reasons which we do not now wish to comment upon, always prohibited in the election law the coalition of parties, especially when public opinion in Puerto Rico was divided into two great historical parties, both already extinct in the evolution of our local politics. When the Socialist Party entered the public arena as the hope of the laboring and rural multitudes, with its redeeming program that embodied the aspirations of the laboring masses and of a great part of all the people, then began the idea of a coalition of the Puerto Rican Republican Party and the Socialist Party. In order to prevent this the party which for so many years had been in power caused the prohibition against such coalitions of parties to be made more effective. It was in 1924, in view of the need and convenience of the historical parties, that a law was enacted so that the common candidates could appear on both tickets. The Socialist Party, outside of the combination for powerful reasons of principles, could not, under that law, form a coalition on the electoral ballot with the Constitutional-Historical Party (pure Republican) because the act did not recognize the rights of the powerful nucleus of Puerto Ricans who were to form the Constitutional-Historical Party. It was necessary for the Socialist Party to support in its column of the ballot the candidates of the Constitutional-Historical Party by placing together the emblems of these parties, practically forming a new party, to which political organization the Socialist Party gave the given name and the Constitutional-Historical Party gave it the surname, this new party being called Socialist-Constitutional.

CONSTITUTIONAL

That which seemed fair in order to facilitate coalitions of the historical parties in 1924 has been maintained in this new election law which we are explaining, coalitions being allowed and at the same time being made more easy, liberal, and just, so that the new law would not maintain the injustice of the law of 1924 which prevented a powerful nucleus of opinion from being able to register its own ticket with candidates common to the ticket of another party. Now, under the new law, all parties, either great or small, with privileges to none, may form a coalition by making their common candidates appear on the same ticket. Another important aspect of the new election law is the representation of the parties in the electoral bodies. In the past, from the formation of parties at the beginning of the American civil regime in Puerto Rico, the total representation was divided in equal parts between the historical parties, Union de Puerto Rico and Republicano Puertorriqueno, from the birth of these two parties. The Socialist Party, a giant that arose before public consciousness and claimed its position in the political arena, had to strive titanically and heroically in order to secure fair representation on the electoral bodies. It was somewhat later that the Socialist Party succeeded in having representation equal to the other parties, and only after it had gained with votes at the polls the position of the party second in electoral strength and after this right had been recognized by the judicial voice of our Supreme Court.

THE ALLIANCE

In 1924, when the alliance of the aforesaid historical parties, Union de Puerto Rico and Republicano Puertorriqueno, was formed, these two parties monopolized the representation in the electoral bodies under the election law then in force, thus providing that a single party, the Alianza Puertorriquena, enjoyed two representatives on the insular board of elections, enjoyed the total representation of the three representatives on local election boards, and enjoyed all four representatives on poll boards. The powerful Socialist Party, in spite of the fact that it was joined in the opposition by the newborn and vigorous Puer Republican Party, had to go to the polls in 1924 with no effective representation in the electoral bodies. The election law merely granted the Socialist-Constitutional Party a so-called observers faced the walls and not the ballot box, as was their right.

Due to the disappearance of the Puerto Rican Republican Party as a principal party, by mandate of the ballot box, its place having been won by the Socialist Party, the Socialist Party in 1928 had for the first time effective representation in the electoral bodies. When the first combination of parties was made for voting for common candidates in 1924, the historical parties that combined at that time monopolized the whole representation, and these allied principal parties did not divide their representation into half votes against the opposition party at the polls. It was in 1932, after the victory won by the popular front made up of the Socialist Party and the Union-Republican Party, that electoral representation in Puerto Rico began to develop democratically and fairly. In 1934 this Union-Republican and Socialist coalition that won the election passed an election law providing for the first time in our electoral history that in case two parties formed a coalition the two parties thus combined would each have only half a vote and the opposing party a whole vote. The legislature of 1934, looking toward the future with lofty ideals in mind, inspired by a sense of justice, and considering all human possibilities, also provided that if the three principal parties formed a coalition, each would then have but one-third of a vote, so that always, under any circumstance, the opposing parties would have the same representation. This is a glory that no one will dispute with the present parliamentary majority of Puerto Rico.

TO AVOID FRAUDS

The other principal aspect which the new law which we are explaining considers, is the process of voting. The aforesaid election law approved in 1919, as well as other previous election laws, provided a manner of voting which was the same that has been in force from the establishment of the American civil regime in Puerto Rice to the 1933 election. Under the provisions establishing said manner of voting, a political party was in public power in Puerto Rico for 25 years, without any objection ever having been raised against said manner of voting. Under the same provisions relative to the manner of voting, the election of 1932 was held and resulted in a victory for the present legislative majority. This 1932 election, in accordance with official statement of the Governor of Puerto Rico, Hon. James R. Beverely, and of the Secretary of War of the United States, Hon. George H. Dern, was the most peaceful, lawful, and fair election ever held in Puerto Rico. These statements appear in official documents of the White House and of the Congress of the United States.

Nevertheless, in answer to a powerful public clamor, all the parties represented in the present legislature deemed it advisable and proper that, to hold the 1936 and subsequent elections, the voting should be carried on in a new way, that is, by enclosing the voters in quarters to prevent, as far as possible, the fraudulent repeating vote of the same voter in different polling places or precincts, and to insure, as far as possible, that the voters who vote are legitimate voters having the right to vote under our laws. This new law which we are explaining modifies this process and improves it. In view of the physical impossibility of obtaining adequate quarters in numerous precincts of the island, and in order to insure an orderly and lawful election, the new law grants powers to the election bodies in which all parties are equally represented, so that they may choose and decide, when said closed quarters cannot be obtained, that the voters be placed in front of the polling places, in closed files, the same procedure for voting to be followed as in the closed quarters.

The other amendments that the new bill makes to the election law are details of no great importance, and are to make more effective the aspects on which we have commented.

Finally, we wish to state that we have voted in favor of the new bill because we believe that it is just, that no reasonable opposition can be made to it, and because it is a statute which gives prestige to Puerto Rico and guarantees democracy and the fairness of the vote.

LEGISLATION FOR PUERTO RICO

Over 30 bills have been introduced during the Seventy-third and Seventy-fourth Congresses dealing with the economic, political, industrial, and agricultural life of Puerto Rico, as well as other bills of a private nature. Six of these bills became law. One measure proposed to liberalize our organic act granting the people of the island the right to elect their own Governor and to permit the Governor to appoint the heads of the various departments with the advice and consent of the insular senate. It also contained other progressive clauses, but did not pass.

Another bill of great importance was the one to enable the people of Puerto Rico to form a constitution and State government and be admitted into the Union on an equal footing with the other States. It also failed to pass.

The provisions of over 60 bills which became law of a national scope have been extended to Puerto Rico, intended to help in the services of education, relief, reconstruction, building of roads, sanitation, and other activities which are greatly needed in the island.

SPECIAL PRIVILEGES DENIED

In conferences which I have had with high Government officials it has been plainly stated that while the administration is willing to give assistance to the island, it does not desire to favor any special party or individual who claims to have obtained any personal advantage, political or otherwise, for the prosecution of their particular or political preferences. If such declaration is carried out with sincerity, it will do good to the island.

In considering our social and economic problems which confront us we have to admit that the situation is not all satisfactory—the standard of living and education among the working classes, especially among those in the agricultural fields, although constantly improving, yet are not so high as we should like to see them. There is dire need of further improvement.

But regardless of whatever mistakes might have been made the liberalization of our organic act in a broad way is necessary to prevent not only serious disturbances in our economical, social, and political set-up but harmful effects of an impairment to our present structure, with the result that future reforms may be established in an easy and happy way.

THE LANDING OF AMERICANS

When General Miles landed in Puerto Rico in 1898 he met a hearty welcome from the entire population of the island, who for a long time had felt the highest regard for the United States. The change of sovereignty was considered by all a

most fortunate event in the history of the island, and when later on, in the year 1917, President Wilson signed the law which made Puerto Ricans citizens of the United States, the honor was accepted without reservations and with full recognition of the responsibilities, duties, and rights which it bestowed upon us. The loyalty and sincerity of purpose of the people of Puerto Rico are far above any possible question. We have done our duty and played our part in the sorrows and happiness of the Nation.

Puerto Rico has a population of over 1,700,000 people, according to the special census taken in 1936, or almost 500 inhabitants to the square mile. The population of Puerto Rico in 1930 exceeded the combined population of Nevada, Wyoming, New Mexico, Arizona, and Vermont, judging from the latest figures released by the Census Bureau.

The Resident Commissioner, not having a vote in Congress, cannot exercise the great influence which is exercised by the representatives of the several States of the Union.

The influence of the people of the United States in the destiny of Puerto Rico has been, is, and will ever be, uplifting, and the extension of the Constitution to the island represented a positive guarantee to the individual citizen of all national economic and social legislation and of all the political liberties convenient and favorable to the enjoyment of the people's rights.

PERMANENT UNION

We consider any formula of inferiority in government disgraceful and not compatible with the civil dignity of our Nation, and, therefore, we proclaim the permanent union of the people of Puerto Rico on an equal footing with the people of the United States to maintain and consecrate economically, socially, politically, and industrially a democratic community with the same rights and duties as any State of our Nation. "We want, and are willing, to be recognized as an integral part of the States, and lead our future in that line."

Congress, as contemplated in the treaty of peace, granted American citizenship to the people of Puerto Rico, and, under the Jones Act, created a political body and a civil government, composed of American citizens in Puerto Rico, owing allegiance and entitled to the protections of the United States. The island has over 1,700,000 American citizens, and for two generations our men, women, and children and the children of our children have been born under the American flag and have been taught the American ideals of Government in the forum in our courts, in our schools, in our entire civil life.

OUR PROGRESS

I want to express some thought regarding the progress made by the Americanization of Puerto Rico from a general economic, political, and administrative point of view. During the autonomous regime granted Puerto Rico by Spain in 1897, the island had an income for itself derived from royal tariffs, taxes on personal cedulas, disembarkment of voyagers, ecclesiastic bills, payments of periodicals, cedulas on privileges, and taxes on raffles and lotteries. The different classes of general taxes and others which were paid to the insular and municipal treasuries reached 29 divisions and numerous subdivisions.

The total budget of income during the Spanish autonomous regime reached the sum of $3,536,342.19. This total income of the insular treasury was spent in a great part for soldiers and marines, clergy, construction and repair of churches and pensions up to the sum of $2,174,879.13. The other expenditures of the Government, such as public education, public works, sanitation, and justice, were assigned $1,361,963.06.

In these days we spent on public education from funds of the State $30,000, and the municipalities spent in education through the Paulist Fathers, Jesuits, and Sisters of the Sacred Heart, $99,255. There were only 22,265 children in the schools throughout the island. The benefit of superior studies was granted to only 55 students every year. Under our present American regime there are more than 240,000 children in the schools, and they are not restricted from reaching superior grades. More than $4,000,000 from a budget of over $11,000,000 are assigned for schools and teachers.

Under the first year of our American regime the construction of the first buildings for public schools was ordered. We have already organized an army of 5,000 teachers, who teach English and Spanish, and we use at present more than 2,000 buildings, constructed for graded and high schools, which are the property of the insular government.

When the old regime was changed for the American regime there were 157.12 miles of constructed roads. From June 30, 1900, to June 30, 1935, 2,000 kilometers of insular roads have been constructed, and also numerous bridges and buildings, at a great cost.

The sanitation, agricultural, and labor departments were organized for the first time in the island during the present regime, and the installation of a modern system of public-health service has been inaugurated and also great services have been dedicated to agriculture and labor.

The insular government is composed at present of the following employees in public service, including the Governor, the legislature, and the departments, who receive the following compensation: Six thousand and eleven Puerto Rican-American employees $6,579,748, and 233 continental Americans $489,585.75. Of this total employees, over 4,000 are school teachers and over 800 comprise the police force.

The judiciary of Puerto Rico has only three continental Americans serving as judges. The continental Americans in the executive government are three, including the Governor. The other continental Americans are mostly teachers and professors and other scientific men from the Federal departments.

PUERTO RICO IS A TERRITORY

In a series of decisions known as the insular cases, the Supreme Court of the United States has clarified the present status of Puerto Rico as an organized Territory, though not an incorporated one.

We hope that at the earliest opportunity, in considering the political and economic reforms of Puerto Rico, Congress will liberalize our organic law as has been proposed by H. R. 1393, and then we could hope that the ultimate political status of the island would be to organize the people of Puerto Rico as a State of the Union. Having defined this objective, Congress should give Puerto Rico its cooperation by extending to the island all national measures with ample possibility of action to work out a practical program and reach the goal by the efforts of its own people. The words of hope and action of the President should always embrace Puerto Rico as an integral part of our Nation, and, I believe, he has demonstrated that he has this thought in mind.

COMMERCIAL ACTIVITIES

Puerto Rico stands today as the first best buyer of United States goods in all Latin America and the eighth of all the European nations. The fact that Puerto Rico has bought, and is continuing to buy, millions upon millions of dollars' worth of goods from continental United States is vitally interesting. It is estimated that Puerto Rico has purchased over $2,000,000,000 worth of commodities from the mainland during the last 36 years.

In accordance with the last report of the Governor of Puerto Rico for the fiscal year 1934–35, the following enlightening statement was made with regard to its commerce:

Statistically the island had a good trade year with an external commerce of approximately $150,000,000, an increase of $19,500,000 over the previous year, while the apparent favorable balance of trade was $22,000,000. Of total exports to the United States valued at $83,000,000, sugar shipments accounted for $54,267,000 while approximately 20 percent of the sugar crop remained in the island. Island imports from the United States increased $8,600,000 over the previous year and totaled $57,500,000. During the year 2,834 ships entered island ports.

In view of the fact that agriculture is Puerto Rico's most important industry, the report on this subject has special interest. While there has been considerable recovery from the destructive hurricane of 1932, the Governor finds that other forces have held back agricultural progress, except in sugar and tobacco. Sugar production increased almost 275,000 tons over the previous year, while the tobacco crop of 25,000,000 pounds showed a gain of approximately 7,000,000 pounds over the curtailed crop of 1933.

Puerto Rico is not a burden to the United States.

Two-thirds of the profits in commercial exportations and importations derived from the 1,700,000 Puerto Rican consumers flows right back and remains in the hands of continental businessmen. So the relief and cooperation given to Puerto Rico through Federal agencies represents a natural compensation to the people of the island.

LABOR IN AMERICA

In a statement made by Mr. William Green, president of the American Federation of Labor, he contends:

Public policies should not be decided abruptly, but with reference to historic development. Since 1898 Puerto Rico has been under the flag of the United States, and since 1917 its residents have been citizens of the United States. We took them under our flag to put an end to political persecution and bloodshed and assumed the obligation of helping them to develop the institutions and habits of democracy. During the years of our responsibility there has been progress in Puerto Rico. With that progress new needs have become urgent and new demands have been urged. There are manifestations of a growing vision of the possibilities of life and of a higher level of thinking.

Economically Puerto Rico has been an advantage. It is one of our largest customers, and in turn supplies us with things we need. Strategically, in international relations that do not assure years of peace, it is important that the United States control significant outposts. The withdrawal of the United States Government from Puerto Rico would not mean Puerto Rican independence any more than withdrawal from the Philippines has meant self-control in those islands. A small and specially privileged group in Puerto Rico has been asking independence, but the majority of its citizens, including the labor movement of Puerto Rico, desire statehood under our Republic.

It was only under the flag of the United States that the workers of Puerto Rico were free to organize a labor movement for the purpose of bettering their conditions of life and work. The American Federation of Labor gave them support and counsel in formulating their policies and methods. The labor movement in Puerto Rico includes agricultural as well as industrial workers. The effective functioning of the labor movement at the present time, when the reconstruction program is in progress in Puerto Rico, is indispensable to desirable and lasting results from that program. It is the masses of the people who suffer from the existing economic exploitation.

Under independence the possibility is for reversion to old institutions and practice, which would imply repression for labor unions and the masses of the people.

The desire for independence is confined to a small group of people, while the majority have felt that the protection of the United States Government afforded the best opportunity for development and progress. They feel that as an independent government the island would not be powerful enough to control the corporations which exploit the people and the land and drain off revenues to be spent in foreign markets. Puerto Rico has made real progress under the leadership of the United States and is anxious to continue without change in political relationships. We cannot lightly relinquish an obligation we assumed.

INDUSTRIAL PROBLEMS

Mrs. O'DAY. Mr. Speaker, I ask unanimous consent to extend my own remarks in the RECORD and include therein extracts from a statement by Dr. John Bryan on the labor situation.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New York?

There was no objection.

Mrs. O'DAY. Mr. Speaker, under leave to extend my remarks in the RECORD I include excerpts from an address by the Right Reverend John A. Ryan, of Catholic University, at a regional meeting of the Catholic Conference on Industrial Problems in San Francisco on June 9, 1936:

The Encyclical Quadragesimo Anno was published in May 1931. It was addressed to the world. Therefore it could not have said anything specific concerning the depression in the United States or the return of prosperity. It does, however, contain several general statements which are very pertinent to both the industrial depression and industrial recovery. The statements which are particularly applicable are those concerning the bad distribution of wealth and income, the just wage, cooperation between labor and capital, and the profits of capital.

Concerning distribution, Pope Pius says: "The immense number of propertyless wage earners, on the one hand, and the superabundant riches of the fortunate few, on the other, is an unanswerable argument that the earthly goods so abundantly produced in this age of industrialism are far from rightly distributed and equitably shared among the various classes of men. Every effort, therefore, must be made that, at least in the future, a just share only of the fruits of production be permitted to accumulate in the hands of the wealthy and that an ample sufficiency be supplied to the workingmen."

The unjust distribution to which the Pope calls attention is particularly striking in the United States.

This was the main cause of the depression. For at least a quarter of a century before the year 1929 too much of the national product had been distributed in the form of profits and interest and too little in the form of wages to labor and prices to farmers. As a consequence, too much of the national income was invested in new capital goods. Too much was saved and too little spent. The product could not all be sold because labor and the farmers had not been receiving enough income to buy as much as they wanted to buy. The receivers of large profits and interest would not buy more because they did not want to buy more.

Such are the main deplorable effects of the unjust distribution condemned by the Pope. Not only does it deprive the majority of our people of the means of decent living but it compels our industries to be operated at far below their full capacity.

The Pope demands that the bad distribution be rectified by giving to the wealthy only a "just share" and to the workingmen "ample sufficiency." This brings us to the second of his statements that we are to consider. He defines "ample sufficiency" in the following terms: The laborer's wages must be "sufficient for the support of himself and of his family"; "sufficient to meet adequately ordinary domestic needs"; sufficient to enable him "to bear the family burden with greater ease and security"; sufficient to free him from "hand-to-mouth uncertainty"; sufficient to "support life's changing fortunes"; sufficient to make "some little provision for those who remain after him"; sufficient "to acquire a certain moderate ownership."

These specifications show that Pope Pius had in mind something more than a bare living wage, something more than the minimum means of a day-to-day livelihood. To comply with these specifications would probably require more than the $2,000 income which, at 1929 prices, the Brookings Institution estimates as "sufficient to supply only basic necessities." Yet in 1929, 60 percent of the total number of American families were below this standard.

If all families had been provided with the equivalent of $2,000 a year at 1929 prices, our industries could have been kept in operation at full capacity. This fact is a very striking illustration of the principle that in the long run and for the community as a whole, good ethics is in harmony with good business.

The third statement of Quadragesimo Anno which is pertinent to our subject has to do with situations in which the employer is unable to pay a just wage. If this inability is due to bad management, want of enterprise, or out-of-date methods, says the Pope, it "is not a just reason for reducing the workingman's wages." If, however, the inability is due to causes beyond the control of the employer, the Holy Father would have "employers and employed join in their plans and efforts to overcome all difficulties and obstacles, and let them be aided in this wholesome endeavor by the wise measures of public authority. In the last extreme, counsel must be taken whether the business can continue or whether some other provision should be made for the workers." The last sentence is a clear confirmation of the view that businessmen or business concerns that are unable to pay decent wages cannot reasonably claim a right to continue in business.

The most fundamental and far-reaching part of this declaration is that labor, employers, and the public should cooperate to abolish the evil of insufficient wages. Precisely this kind of cooperation was in force under the National Recovery Administration. Unfortunately it was ended by the Supreme Court. A few months ago a new attempt was made to explore the possibilities of cooperation between capital, labor, and the Government in the conferences held under the chairmanship of Maj. George L. Berry at the direction of the President of the United States. Greatly to be lamented is the fact that almost all of the most important directors of industry who were invited to join in this cooperative effort refused to go on with it after the first conference. Apparently the great majority of our most powerful industrial concerns do not desire the kind of cooperation recommended by the Holy Father.

The outlook for cooperation between industry, labor, and the Government is discouraging, because the dominant and dominating elements of business still believe in the old order and are still opposed to intervention by the Government for social justice. Last December the National Association of Manufacturers, at convention in New York, adopted this brazen proposition: "Control of the individual by Government is limited to the minimum essential for the protection of individual rights and the safety of the Nation." At its annual meeting in Washington the latter part of April the United States Chamber of Commerce passed the following resolution:

"The true function of Government is to maintain equality of opportunity for all, to preserve the sanctity of contracts, and to assume those collective activities which society must conduct as a whole. When Government attempts by legislative means or Executive fiat to impose upon business rules of conduct pertaining to such matters as wages, hours, conditions, and terms of employment, or other restrictive measures interfering with the free play of economic forces, it retards both the material and spiritual progress of the Nation."

These statements by the two most powerful business associations in our country enable us to see why very little of a helpful character is to be expected from organized business in the struggle for social justice and a better economic order. The voices of great and enlightened industrialists, such as E. A. Filene and Henry Dennison, as well as the opinions of thousands of smaller businessmen, are overwhelmed or overawed by the dominating reactionaries. Humane and helpful business opinion is, for the most part, silent and ineffectual.

Probably the most decisive indication of the benefits of the N. R. A. to labor is what has happened since the collapse of that organization. In private concerns having contracts with the Government, N. R. A. wage rates were reduced in about 40 percent of the cases, while work hours were lengthened in something over 30 percent. In the retail industries wages have been cut in more than 60 percent of the establishments and hours lengthened in about the same proportion of establishments.

The fourth and last statement in the encyclical that we have to consider is that which asserts that both capital and labor should have a share of the product. The Holy Father declares: "Each class then must receive its due share, and the distribution of created goods must be brought into conformity with the demands of the common good and social justice." While this statement has a bearing upon the just reward of labor as well as the just return to capital, I cite it mainly in the latter connection. The rate of interest or profit should not be greater than is consistent with the common good. If 2 percent is sufficient to provide all the capital that the community needs, then 2 percent is all that the capitalist has a right to claim.

The statements from the Pope's encyclical are at once a comprehensive description of our economic malady and an indication of the way to complete business recovery. We must have a better distribution of the product, ample living wages for all workers, adequate cooperation between business, labor, and government, and a smaller return to capital. Unfortunately, the great majority of our businessmen do not realize that this is the situation. They still talk vaguely and expansively about the necessity of restoring business confidence, reviving the capital-goods industries, and stimulating investment.

All the facts of the present situation indicate that even if our business level were back to that which existed in 1929 there would still be between five and eight million persons out of work. Many members of our comfortable classes seem to look upon this horrible prospect with a certain amount of equanimity. They calmly visualize millions of their fellow citizens existing year after year on the dole. It is difficult to imagine how any really humane person, any intelligent lover of his country or his kind can take this attitude. All Americans who are genuinely concerned about the safety of our institutions will demand and work for legislation to end as speedily as possible this menace of vast unemployment, and to bring about genuine and well-balanced prosperity. The principle and the indispensable legislative enactments are a revived N. R. A. and a 30-hour workweek. Anyone who disputes this proposition should be required to propose an alternative measure which will go to the root of the matter. Pollyanna talk about restoring business confidence, expanding investments, making new inventions to provide new luxuries for the wealthy minority of the population is not only futile but a mockery of human needs and human hopes.

EXTENSION OF REMARKS

Mr. BUCHANAN. Mr. Speaker, I ask unanimous consent that all members of the Appropriations Committee may have permission to extend their remarks in the RECORD and to include printed tables and figures referring to the fiscal affairs of the Government.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

A PLEDGE FULFILLED—EAST BOSTON RECEIVED NEW POST-OFFICE BUILDING

Mr. HIGGINS of Massachusetts. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD and to include a short letter written by the Post Office to me.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. HIGGINS of Massachusetts. Mr. Speaker, for over 25 years the people of East Boston have sought a new Federal building in that section of Boston to replace the privately leased, inadequate, and unsanitary quarters that housed the local post office. My predecessors in Congress, in all sincerity, pledged that they would bring to East Boston that much-needed improvement, but notwithstanding their sincerity of purpose and tireless efforts, no progress was made until the present Congressman presented East Boston's case to a kind, gracious, and able Assistant Postmaster General in the person of Smith W. Purdum. Within a month after my arrival in Washington in January 1935, I presented an exhaustive brief to General Purdum, setting forth facts that I believed would appeal to the sense of justice of both General Purdum and his associate, Admiral Peoples, members of the interdepartmental committee. Statistics on population, valuation of property in East Boston, data on the volume of business in that section, a review of the postal receipts and postal savings over a period of years, data proving the inadequacy and unsanitary surroundings of the present location, hundreds of letters from citizens and business firms giving evidence of the desire of the people of East Boston for a new building, together with other information, were collected by me and presented to the committee to support the popular opinion that East Boston, upon merit, was entitled to a new Federal building. Months passed and I appeared personally before the committee on two different occasions to present the case, and finally, with the passage of the recent deficiency bill in Congress, I was advised by General Purdum that East Boston had been awarded a new Federal post-office building, and that work would commence on its construction within the next few months.

In my contest for election to Congress I made this a matter of campaign pledge, and I am happy to have fulfilled that pledge and thus contribute in an humble way toward permitting the people of East Boston to realize their dream of a quarter of a century to have a new Federal post-office building in their midst.

The success in securing the post-office building was attributable in a large measure to my good fortune to meet during this my first term in Congress a kindly man, the Honorable Smith W. Purdum, Assistant Postmaster General. I have met many men of prominence in Government affairs, but none have impressed me more than this man for genuine sincerity, unquestioned ability, devotion to duty, and a humanness which radiates friendship toward his fellow man and his problems.

It is commonly said that General Purdum is the best-informed official in the Post Office Service. His varied and extensive duties as Assistant Postmaster General, which include supervision of the entire motor-vehicle service of the Department, membership in the Interdepartmental Committee, designated by the Postmaster General, which allocates funds for every public building erected under the supervision of the Treasury and Post Office Departments, complete supervision of the making and enforcing of thousands of leases for post offices and other Federal buildings, charge of the administration, maintenance, and upkeep of our 1,500 Federal buildings throughout the country, testify to his executive ability and the unusual knowledge which he has of postal affairs. Smith W. Purdum is a career man with a record of almost 40 years of faithful service to the Department, yet notwithstanding the great honor of being Assistant Postmaster General which has been conferred upon him, he has never lost the kind and gracious mannerisms that have endeared him to the heart of every man who is privileged to know him.

Some days ago, when I was advised that a new building was awarded to East Boston, I tried in my humble way to express by letter my appreciation on behalf of the people of the district to General Purdum for his tolerance of my many visits to his office on this matter and his favorable consideration of my application for this much-needed improvement. I submit herewith his reply to my letter of thanks.

Hon. JOHN P. HIGGINS,
Member of Congress, Boston, Mass.

MY DEAR MR. HIGGINS: This is to refer to your very kind letter of recent date with reference to the allotment of funds for a Federal building project at East Boston.

Please be assured of my appreciation of the kind expressions contained therein.

Our own surveys and your thorough and intelligent presentation of the situation at East Boston indicated that this was a deserving project, and I am glad that it was possible for the Post Office and Treasury Departments to allot funds for it under the current building program.

I know that this decisive step, looking to the consummation of the building project for East Boston, must be gratifying to you, in view of the continued personal interest which you have manifested in the matter. You may be sure that your sincere and cooperative attitude in this matter is appreciated, and that the Post Office and Treasury Departments will endeavor to expedite the project with a view to having actual construction started at the earliest possible date.

With kind regards, I am,
Sincerely yours,

S. W. PURDUM,
Fourth Assistant Postmaster General.

In conclusion may I say to General Purdum, on behalf of the people of East Boston, that they are everlastingly grateful for his interest in this most vital community need. Personally I am privileged to call this kindly and sincere gentleman and able executive my friend.

AMENDING THE TAYLOR GRAZING ACT

Mr. DEROUEN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 10094) to amend section 1 of the act entitled "An act to stop injury to the public grazing lands by preventing overgrazing and

soil deterioration; to provide for their orderly use, improvement, and development; to stabilize the livestock industry dependent upon the public range; and for other purposes", approved June 28, 1934 (48 Stat. 1269), with a Senate amendment thereto and concur in the Senate amendment.

The Clerk read the title to the bill.

The Clerk read the Senate amendment, as follows:

Strike out all after the enacting clause and insert:

"That the first sentence of section 1 of the act entitled, 'An act to stop injury to the public grazing lands by preventing overgrazing and soil deterioration, to provide for their orderly use, improvement, and development, to stabilize the livestock industry dependent upon the public range, and for other purposes', approved June 28, 1934, is amended by striking out the words 'eighty million' and inserting in lieu thereof the words 'one hundred and forty-two million.'

"SEC. 2. Section 7 of such act is amended to read as follows:

"'SEC. 7. That the Secretary of the Interior is hereby authorized, in his discretion, to examine and classify any lands withdrawn or reserved by Executive order of November 26, 1934 (no. 6910), and amendments thereto, and Executive order of February 5, 1935 (no. 6964), or within a grazing district, which are more valuable or suitable for the production of agricultural crops than for the production of native grasses and forage plants, or more valuable or suitable for any other use than for the use provided for under this act, or proper for acquisition in satisfaction of any outstanding lieu, exchange or script rights or land grant, and to open such lands to entry, selection, or location for disposal in accordance with such classification under applicable public-land laws, except that homestead entries shall not be allowed for tracts exceeding 320 acres in area. Such lands shall not be subject to disposition, settlement, or occupation until after the same have been classified and opened to entry: *Provided*, That locations and entries under the mining laws, including the act of February 25, 1920, as amended, may be made upon such withdrawn and reserved areas without regard to classification and without restrictions or limitation by any provision of this act. Where such lands are located within grazing districts reasonable notice shall be given by the Secretary of the Interior to any grazing permittee of such lands. The applicant, after his entry, selection, or location is allowed, shall be entitled to the possession and use of such lands: *Provided*, That upon the application of any applicant qualified to make entry, selection, or location, under the public-land laws, filed in the land office of the proper district, the Secretary of the Interior shall cause any tract to be classified, and such application, if allowed by the Secretary of the Interior, shall entitle the applicant to a preference right to enter, select, or locate such lands if opened to entry as herein provided.'

"SEC. 3. Section 8 of such act is amended to read as follows:

"'SEC. 8. (a) That where such action will promote the purposes of the district or facilitate its administration, the Secretary is authorized, for the purpose of this act only, to accept on behalf of the United States any lands within the exterior boundaries of a grazing district as a gift.

"'(b) When public interests will be benefited thereby the Secretary is authorized to accept on behalf of the United States title to any privately owned lands within or without the boundaries of a grazing district, and in exchange therefor to issue patent for not to exceed an equal value of surveyed grazing district land or of unreserved surveyed public land in the same State or within a distance of not more than 50 miles within the adjoining State nearest the base lands.

"'(c) Upon application of any State to exchange lands within or without the boundaries of a grazing district the Secretary of the Interior shall, and is hereby, directed to proceed with such exchange at the earliest practicable date and to cooperate fully with the State to that end, but no State shall be permitted to select lieu lands in another State. The Secretary of the Interior shall accept on behalf of the United States title to any State-owned lands within or without the boundaries of a grazing district, and in exchange therefor issue patent to surveyed grazing district land not otherwise reserved or appropriated or unappropriated and unreserved surveyed public land; and in making such exchange the Secretary is authorized to patent to such State, land either of equal value or of equal acreage: *Provided*, That no State shall select public lands in a grazing district in furtherance of any exchange unless the lands offered by the State in such exchange lie within such grazing district and the selected lands lie in a reasonably compact body which is so located as not to interfere with the administration or value of the remaining land in such district for grazing purposes as set forth in this act.

"'When an exchange is based on lands of equal acreage and the selected lands are mineral in character, the patent thereto shall contain a reservation of all minerals to the United States; and in making exchanges of equal acreage the Secretary of the Interior is authorized to accept title to offered lands which are mineral in character, with a mineral reservation to the State.

"'For the purpose of effecting exchanges based on lands of equal acreage the identification and area of unsurveyed school sections may be determined by protraction or otherwise. The selection by the State of lands in lieu of any such protracted school sections shall be a waiver of all of its right to such sections.

"'(d) Before any such exchange under this section shall be effected, notice of the contemplated exchange, describing the lands involved, shall be published by the Secretary of the Interior once each week for 4 successive weeks in some newspaper of general circulation in the county or counties in which may be situated the lands to be accepted, and in the same manner in some like newspaper published in any county in which may be situated any lands to be given in such exchange; lands conveyed to the United States under this act shall, upon acceptance of title, become public lands, and if located within the exterior boundaries of a grazing district they shall become a part of the district within the boundaries of which they are located: *Provided*, That either party to an exchange based upon equal value under this section may make reservations of minerals, easements, or rights of use. Where reservations are made in lands conveyed either to or by the United States the right to enjoy them shall be subject to such reasonable conditions respecting ingress and egress and the use of the surface of the land as may be deemed necessary. Where mineral reservations are made by the grantor in lands conveyed by the United States, it shall be so stipulated in the patent, and any person who prospects for or acquires the right to mine and remove the reserved mineral deposits may enter and occupy so much of the surface as may be required for all purposes incident to the prospecting for, mining and removal of the minerals therefrom, and may mine and remove such minerals, upon payment to the owner of the surface for damages caused to the land and improvements thereon. No fee shall be charged for any exchange of land made under this act except one-half of the cost of publishing notice of a proposed exchange as herein provided.'

"SEC. 4. Section 10 of such act is amended to read as follows:

"'SEC. 10. That, except as provided in sections 9 and 11 hereof, all moneys received under the authority of this act shall be deposited in the Treasury of the United States as miscellaneous receipts, but 25 percent of all moneys received under this act during any fiscal year is hereby made available, when appropriated by the Congress, for expenditure by the Secretary of the Interior for the construction, purchase, or maintenance of range improvements, and 50 percent of the money received under this act during any fiscal year shall be paid at the end thereof by the Secretary of the Treasury to the State in which the grazing districts or the lands producing such moneys are situated, to be expended as the State legislature of such State may prescribe for the benefit of the county or counties in which the grazing districts or the lands producing such moneys are situated: *Provided*, That if any grazing district or any leased tract is in more than one State or county, the distributive share to each from the proceeds of said district or leased tract shall be proportional to its area in said district or leased tract.'

"SEC. 5. Section 15 of such act is amended to read as follows:

"'SEC. 15. The Secretary of the Interior is further authorized, in his discretion, where vacant, unappropriated, and unreserved lands of the public domain are so situated as not to justify their inclusion in any grazing district to be established pursuant to this act, to lease any such lands for grazing purposes, upon such terms and conditions as the Secretary may prescribe: *Provided*, That preference shall be given to owners, homesteaders, lessees, or other lawful occupants of contiguous lands to the extent necessary to permit proper use of such contiguous lands, except, that when such isolated or disconnected tracts embrace 760 acres or less, the owners, homesteaders, lessees, or other lawful occupants of lands contiguous thereto or cornering thereon shall have a preference right to lease the whole of such tract, during a period of 90 days after such tract is offered for lease, upon the terms and conditions prescribed by the Secretary.'

"SEC. 6. Such act is further amended by adding the following new section:

"'SEC. 17. The President shall have power, with the advice and consent of the Senate, to select a Director of Grazing. The Secretary of the Interior may appoint such Assistant Directors and such other employees as shall be necessary to administer this act. The Civil Service Commission shall give consideration to the practical range experience in public-land States of the persons found eligible for appointment by the Secretary as Assistant Directors or graziers. No Director of Grazing, Assistant Director, or grazier shall be appointed who at the time of appointment or selection has not been for 1 year a bona-fide citizen or resident of the State or of one of the States in which such Director, Assistant Director, or grazier is to serve.'

"TITLE II—BADLANDS NATIONAL MONUMENT

"SECTION 1. The boundaries of the Badlands National Monument, as established by the act of March 4, 1929 (45 Stat. 1553), shall be and are hereby, extended to include such lands adjacent or contiguous thereto, in the State of South Dakota, including, but not being restricted to, lands designated as submarginal by the Resettlement Administration, as may be determined by the President, by proclamation, within 5 years following the approval of this act, to be necessary for the proper rounding out of the boundaries of said monument or the administration thereof, providing the entire area of such monument shall not exceed 250,000 acres.

"SEC. 2. That the provisions of the act of August 25, 1916, entitled 'An act to establish a National Park Service, and for other purposes', as amended, are hereby made applicable to and extended over such lands as may be added to the monument under the authority of the foregoing section."

Amend the title so as to read: "An act to amend the act entitled 'An act to stop injury to the public grazing lands by preventing overgrazing and soil deterioration, to provide for their orderly

use, improvement, and development, to stabilize the livestock industry dependent upon the public range, and for other purposes', approved June 28, 1934 (48 Stat. 1269)."

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

Mr. DICKSTEIN. Mr. Speaker, I move to strike out the last word.

The SPEAKER pro tempore. The Chair cannot recognize the gentleman for that purpose.

Is there objection to the request of the gentleman from Louisiana?

Mr. JENKINS of Ohio. Mr. Speaker, reserving the right to object, the calendar does not indicate this bill has ever passed the Senate.

Mr. DEROUEN. The bill has passed the Senate, with an amendment, and I am asking unanimous consent to concur in the Senate amendment.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

The Senate amendment was concurred in.

A motion to reconsider was laid on the table.

RECIPROCAL TRADE AGREEMENTS OF ADMINISTRATION ARE MORE BENEFICIAL FOR AMERICAN INDUSTRY AND LABOR THAN RETALIATORY MEASURES—REPUBLICANS ARE IN A DILEMMA

Mr. CITRON. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD on the subject of reciprocal-tariff agreements and include therein certain tables made up by the Department of Commerce and the State Department. I have submitted these tables to the Public Printer, who has already reported to me their extent.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Connecticut?

There was no objection.

Mr. CITRON. Mr. Speaker, on June 3 of this year I took occasion in the House to review some things which Republican politicians had said regarding tariff reciprocity. At that time it was freely predicted even in the Republican press and by members of that party that they had learned their tariff lesson and would likely endorse the Democratic policy of reciprocity rather than go back to the reactionary Republican policy of retaliation in matters of foreign trade. In view of what took place at Cleveland in the so-called tariff platform, in which the Republicans seem to say, "We propose to expand foreign trade by placing prohibitory tariffs on additional imported products", I wish to make some further comments relative to reciprocity and trade agreements.

PAGE COL. FRANK KNOX

On March 24, 1934, the now Republican nominee for Vice President, Col. Frank Knox, is reported by the press to have suggested for the Republican platform—

To recognize that intelligent national self-interest demands that we cooperate with other nations to stabilize currencies and remove as far as possible artificial barriers that now encumber the flow of goods and services between nations, without which there can be neither prosperity nor peace. * * * A scientifically lowered tariff will greatly benefit both agriculture and industry and supply a much-needed prime to recovery.

Such tariff heresy from a Republican "white hope" brought from the gentleman from Massachusetts, the Republican self-appointed tariff spokesman [Mr. TREADWAY], public apologies for Colonel Knox's lack of information on such matters. On the floor of the House on March 30, 1936, Mr. TREADWAY said:

Mr. Speaker, I was quite surprised at reading in the press the other day certain extracts from the speech by a very prominent Republican before the Economic Club in New York City, wherein he seems to have accepted without question the oft-stated but thoroughly misleading doctrine (a) that we are a creditor Nation, and (b) that to regain our foreign export market we must accept more imports.

The gentleman evidently has been misinformed regarding our international position, and is unfamiliar with our experience in the last 2 years as regards the attempt to increase exports by increasing imports. I feel sure that he would not have embraced this false doctrine if he had been aware of the true facts.

In his Peekian-Crowther-Treadway method the gentleman from Massachusetts [Mr. TREADWAY] set about to right the mind of the now Vice-Presidential nominee of the Republican Party regarding all phases of international trade, commerce, and finance. We had read the same explanations at various times by Samuel Crowther and by Mr. Peek in the Saturday Evening Post. Who is doing the ghosting in this piece, anyway? These gentlemen, by the use of spurious calculation, in spite of an excess of commodity exports over imports in 1934 of $478,000,000 and in 1935 of $234,000,000, still attempt to show that the balance was unfavorable to American commerce. They attempt to make their case by the trick method of subtracting the so-called favorable commodity balance from the imports of gold and silver, which when brought into this country, are usually considered assets. In the philosophy, economics, or logic of the trio, Peek, Crowther, and Treadway, the precious metals become apparently a national liability of the American Government. Apparently these gentlemen do not realize that a large part of this gold and silver has been brought into the United States by the flight of capital from unstable governments and on account of the confidence which the world has in the Roosevelt administration. This gold and silver, although at the present time not apparently serving any important purpose in our economy, may be used at any time the Government so desires. As regards such assets, in the days of the Republican "new-era economics", the gentleman's party frequently pointed with pride to the soundness of our economic system as indicated by the quantity of gold within this country. This was a matter of pride during the administration of "the greatest Secretary of the Treasury since Alexander Hamilton."

However, since evil days have set upon the Republican Party, erstwhile Republican virtues now seem to become Democratic vices in the mind of the gentleman from Massachusetts. It seems, from his observation, that it is wholly bad to take any payment whatever in gold, silver, or goods for our exported products, or to receive imports of any nature in exchange for our own wealth sent abroad.

THE SORROWS OF MR. TREADWAY

On the floor of the House, the gentleman from Massachusetts [Mr. TREADWAY] did not mention the name of the "very prominent Republican", but, on being questioned by Mr. BANKHEAD, he admitted that he had in mind Colonel Knox and further observed, "This gentleman enunciated views directly opposed to those which I hold and directly opposed to views that other men hold as well."

It would be interesting to ascertain whether or not the so-called tariff platform of the Republican Party more nearly conforms to the ideas expressed by Colonel Knox before the convention or whether it represents the views of the gentleman from Massachusetts, or whether or not it expresses anyone's point of view. The hodgepodge inconsistencies and the contradictions make the tariff plank meaningless. Every other sentence is a straddle.

Mr. Landon has expressed himself as being in favor of expanded foreign markets. He cannot do it by following his party platform. This much is clear, however, that there are Republicans who are unwilling to follow the Cleveland tariff platform but prefer the clear-cut program now being carried out by the Democratic Party. For example, Charles S. Haight, admiralty lawyer of New York and a Republican, stated, in defense of Mr. Hull's trade-agreements program, as follows in the Washington Post of June 18, 1936:

There are many persons in the Republican Party besides myself whose swords are drawn and, regardless of New Deal policies, will defend the movement to the utmost.

BENEFITS OF RECIPROCAL AGREEMENTS—THE TABLES PROVE THE CASE

The opposition, however, continues to make desultory attacks against the reciprocal trade agreements program. Every industry which thinks that it has been or may be injured sends up wail after wail that it is being "sold down the river." Far too little has been said and shown regarding the benefits received from the program. I have had made an official tabulation showing the concessions obtained from foreign countries in the 14 trade agreements thus far concluded. A glance at these tables will show that every State and every industry of the country has obtained better markets as a result of these agreements.

AMERICAN EXPORT PRODUCTS BENEFITING FROM RECIPROCAL-TRADE AGREEMENTS SIGNED THUS FAR

[Revised to June 15, 1936]

BY IMPROVEMENT OR STABILIZATION OF PREVIOUS MARKET POSITION IN PARTICULAR COUNTRY, WHETHER IN MATTER OF DUTIES, TAXES, QUOTAS, OR OTHER MEASURES

EXPLANATION OF TERMS INDICATING, FOR EACH AGREEMENT COUNTRY, NATURE OF BENEFIT SECURED FOR PARTICULAR UNITED STATES PRODUCTS

Reduced=duty or other charges on imports reduced and bound.

Reduced MFFN or reduced MFN=duty or other charges on imports reduced under general extension of most-favored-foreign-nation treatment, but not bound as to amount. (The resulting reductions of this character, applying to a broad range of products, include in their scope some commodities of limited trade possibilities for the U. S.)

Bound=present duty or charges assured against increase.

Bound free=assurance against imposition of duty.

Quota removed=quantitative limitation entirely eliminated.

Quota increased=increase in quantity previously allotted to United States.

Quota assured=definite quantity assured admission from United States.

Embargo lifted=product previously prohibited importation now admitted.

Purchase agreement=undertaking to purchase specified amount or share from United States.

Special notation for Cuba

Preferential increased=rate to United States unchanged, but percentage of preferential margin below rate to other countries increased (whether rate is bound or not).

Reduced*=rate reduced but not bound, and preference increased.

Special notation for France

Import turn-over tax=in addition to the benefits indicated, numerous semifinished and finished manufactures (whether here listed or not) benefit by reductions in the French import turn-over tax from 4 percent and 6 percent, respectively, to 2 percent of the duty-paid value.

GENERAL NOTE.—This study does not attempt to list all products covered by each of the agreements, nor can it show in this brief compass the precise measure of improvement in a given situation or the level of the taxes, duties, or quotas on particular products resulting from each agreement. Full details and analyses of all the agreements concluded are available at each district office of the Bureau of Foreign and Domestic Commerce, to whom inquiries may be addressed, as well as to Washington.

Prepared in the Bureau of Foreign and Domestic Commerce, Department of Commerce, Washington, D. C.

Gasoline	244,577				Bound		Reduced MFFN (including naphtha).
Kerosene	84,049						Reduced MFFN [1]
Lubricating oil	91,733						do
Lubricating greases	5,523						do
Fuel oil	42,278						
Paraffin wax	15,077		Bound free (crude and refined).				Reduced MFFN
Special petroleum preparations.							Reduced MFFN (vaseline and similar preparations).
Marble, granite, or other rough stone.	910						Reduced
Cement	2,854	Reduced (white) Bound (other)				Reduced (white). Bound (Portland, Roman, etc.).	
Glass, sheet or plate	1,146	Reduced (not ground, beveled, etc.).		Bound (plain, unmounted and plate and cylinder).			Reduced MFFN (plate glass, beveled, silver glass).
Glass containers	3,252	Reduced (ordinary)					Reduced MFFN
Table glassware	1,578	Reduced (all)					do
Electrical porcelain	1,473			Bound			do
Earthenware plumbing fixtures.	1,354	Reduced					Reduced MFFN (drain tiles and pipes).
Tile and brick (including refractory brick)	4,273	Bound (refractory only and cement roofing tiles.)					Reduced [2] Bound free [3] Reduced MFFN [2]
Artificial abrasives	6,615	Reduced (cloths and paper).			Bound [4]		do
Asbestos brake lining	1,147	Bound					do
Electrodes (for electric furnaces).	1,980				Bound Bound free [3]		do. [5]
Sulphur	14,850				do		
Salt	1,104	Reduced					Reduced MFFN
Phosphate, raw	4,927				Bound free		

Secondary or limited benefits:

Canada: Reduced—Articles of glass, not plate or sheet, designed to be cut or mounted.

Reduced MFFN—Plaster of paris, grindstones, building stone, sawn more than 2 sides; manufactures of marble and granite; roofing slate and manufactures of slate; plumbago ground and manufactures of; spectacles and other manufactures of glass; insulator cores for manufacture of spark plugs; lamp bulbs.

[1] Also illuminating oils over 30 cents per gallon.

[2] Paraffin and ceresin, pure, unmanufactured.

Iron and steel bars and rods.	11,019	Preference increased					Reduced MFFN (including ferro-alloys).
Iron and steel plates and sheets.	42,630	Reduced* (plain) Reduced (others)					Reduced MFFN
Tin plate	27,388						Reduced [1] Reduced MFFN
Structural shapes	12,545	Reduced (not cut to measure).					Bound [4] Reduced MFFN
Rails (including railway track material).	9,121	Reduced* (except rails)					do
Pipes and fittings	28,822	Reduced* (except boiler tubes).		Bound			do
Iron and steel wire and manufactures (including nails).	13,687	Reduced* (wire, etc.) Reduced (nails)					Reduced [5] Reduced MFFN [6]
Nuts and bolts, etc.	2,476	Reduced					do
Castings and forgings	6,611	Reduced* (unspecified articles of cast iron).					Reduced [7] Reduced MFFN
Cutlery (razor blades, etc.).	9,687	Reduced* (in general, except scissors). Reduced (razor blades)					do
Hollow ware	1,905	Reduced*					Reduced [8] Reduced MFFN
Metal furniture	7,282	Reduced (except beds)				Reduced	do
Cooking and heating equipment, nonelectric.	5,412	Reduced* or Reduced					Reduced
Tools	17,907	do.[9]			Bound (hacksaw blades).	Reduced (steel files).	Reduced MFFN [10]
Hardware	8,454	Reduced (numerous items).					Reduced [11] Reduced MFFN (hinges, butts and screws).
Chains	2,543	Reduced*					Reduced [14] Reduced MFFN
Automatic scales (excluding coin operated).	942	Reduced				Bound	do
Refined copper	123,015	Reduced (bars)			Bound free (unwrought).		
Copper rods and wire	12,988	Reduced [15] Reduced* [15] Preference increased [15]					Reduced Reduced MFFN [16]
Selected copper manufactures.		Reduced or bound [17]					Reduced MFFN (all)
Selected brass and bronze manufactures.	15,862						Reduced MFFN Reduced [18]
Lead and products	10,305	Reduced* [19]					Reduced MFFN [20]
Nickel manufactures (and electroplated ware).	1,806	Reduced* (unspecified products).					Reduced [21] Reduced MFFN [22]
Zinc and manufactures	6,564	Reduced* [19]					Bound free [23] Reduced MFFN
Other metal products		Reduced Reduced* [24]					do.[25]

[1] Manufactures of tin plate—Reduced; containers of tin plate—Reduced MFFN.
[2] For containers.
[3] For other uses.
[4] Weighing over 35 pounds per linear yard—Bound; other structural shapes—Reduced MFFN.
[5] Including wire coated with other metals—Reduced.
[6] Woven or welded wire fencing; wire cloth or netting, of iron or steel, coated or not (according to size); pins of wire—Reduced MFFN.
[7] Axles and axle bars for vehicles other than railway—Reduced.
[8] Hollow ware coated with vitreous enamel—Reduced; other hollow ware—Reduced MFFN.
[9] Fine tools, and most others, except shears, pincers, and agricultural.
[10] Shovels and spades; axes; and certain precision tools.
[11] Builders', cabinet makers', upholsterers', and carriage hardware.
[12] Builders' hardware of brass or copper.
[13] Rivets, nuts, bolts, screws, nails, etc., of iron or steel.

METAL MANUFACTURES

effective date not yet set, in order of signature. For explanation of terms used, see p. 10627]

Netherlands (A) and Indies (B), Feb. 1, 1936	Switzerland, Feb. 15, 1936	Honduras, Mar. 2, 1936	Colombia, May 20, 1936	Guatemala, June 15, 1936	France, June 15, 1936 (For turn-over tax, see p. 10627)	Nicaragua, signed Mar. 11, 1936	Finland, signed May 18, 1936	Classes of products involved (Not necessarily including all products in every class)
					Reduced MFN			Iron and steel bars and rods.
			Reduced		do			Iron and steel plates and sheets.
			Bound [2] Reduced [3]		do			Tin plate.
			Bound		do			Structural shapes.
					do	Bound free.		Rails (including railway track material).
			Bound		do			Pipes and fittings.
A: Quota assured			do		Reduced MFN (excluding nails)			Iron and steel wire and manufactures (including nails).
			do		Reduced MFN			Nuts and bolts, etc.
					Reduced MFN (certain castings)			Castings and forgings.
			Reduced (clippers and razor blades).		Reduced MFN (certain types)			Cutlery (razor blades, etc.).
								Hollow ware.
			Reduced	Reduced			Reduced (office desks and chairs).	Metal furniture.
	Reduced. Quota increased (oil burners and parts).		Bound (except large plants).		Reduced MFN (certain stoves and furnaces).			Cooking and heating equipment, nonelectric.
		Bound (hand tools).	Bound		Quota increased (saws, files, drills, and most other tools).			Tools.
A: Quota assured (locks and parts).			Reduced [12] Bound [13]					Hardware.
			do		Reduced MFN			Chains.
			do		Reduced MFN (heavy industrial)			Automatic scales (excluding coin operated).
A: Bound free (pigs, bars, and ingots).								Refined copper.
			Bound (wire only).				Bound (selected copper rods).	Copper rods and wire.
			Reduced (tubes and pipes).		Reduced MFN (pipe and hollow ware).			Selected copper manufactures.
					do			Selected brass and bronze manufactures.
					Reduced MFN			Lead and products.
					Reduced MFN (certain products)			Nickel manufactures (and electroplated ware).
A: Quota assured (sheet zinc).					do			Zinc and manufactures.
					Quota increased (certain aluminum products). Reduced MFN (most aluminum products).			Other metal products.

[14] Roller chain—Reduced MFFN; other chains of iron or steel—Reduced.
[15] Copper and alloy bars—Reduced; copper wire—Reduced*, Reduced, or Preference increased; copper wire gauze—Reduced.
[16] Copper wire twisted—Reduced MFFN; others—Reduced.
[17] Plates and sheets, nails, tacks, and certain unspecified manufactures—Reduced; pipe, bearings, notions, sanitary articles—Bound.
[18] Wire of brass insulated or not—Reduced; others—Reduced MFFN.
[19] Bars, plates, wire, and unspecified products—Reduced.*
[20] Except tea lead and lead in pigs and blocks.
[21] Nickel plated and electroplated ware—Reduced.
[22] Nickel household hollow ware and manufactures of nickel and German silver not plated—Reduced MFFN.
[23] Zinc strip, tubing, and dust, etc.—Bound free; manufactures of zinc—Reduced MFFN.
[24] Nickel bars, plates, powder, wire—Reduced; tin bars, plates, wire—Reduced*; tin pipes and containers—Reduced.
[25] Including water pumps for domestic use, buckles, needles, metal signs, pulleys, lighting fixtures, gas meters, lamp shades and holders, bathtubs, sinks; phosphor tin and bronze; steel balls; steel wool; skates; window-shade rollers.

APPARATUS (USUALLY INCLUDING PARTS)

effective date not yet set, in order of signature. For explanation of terms used, see p. 10627]

Netherlands (A) and Indies (B), Feb. 1, 1936	Switzerland, Feb. 15, 1936	Honduras, Mar. 2, 1936	Colombia, May 20, 1936	Guatemala, June 15, 1936	France, June 15, 1936 (For turn-over tax, see p. 10627)	Nicaragua, signed Mar. 11, 1936	Finland, signed May 18, 1936	Classes of products involved (Not necessarily including all products in every class)
			Bound		Quota increased			Cultivating implements.
			do		do			Harvesting machinery.
A: Bound [1]			do		do	Bound free		Tractors and parts.
			do		Quota increased (stationary and marine steam engines). Reduced MFN (light steam engines).	do		Power generating machinery (excluding electric and automotive).
			do		Reduced MFN (heavy cranes, hoists, excavators, road machinery, concrete mixers).	do		Construction and conveying machinery.
			do		Reduced MFN (certain heavy mining and drilling machinery).	do		Mining, well, and pumping machinery.
			do		Quota increased (pneumatic tools and hammers).	do		Metal-working machinery.
			do		Reduced MFN (in general)			Textile machinery.
			do		Reduced (sewing-machine heads)			Sewing machines.
A: Bound (copy and letter presses).	Bound (typesetting and bookbinding).		Bound (except presses and blocks).		Quota increased (presses) Reduced MFN (typesetting)			Printing and bookbinding machinery.
			Bound (all).		Quota increased (certain refrigerating apparatus). Reduced MFN [17]	Bound free.[10]	Bound (refrigerating machines).	Other industrial machinery.
			Bound		Reduced MFN (certain generators and transformers).	do		Power-plant equipment.
			do		Reduced MFN (most dry batteries).	Bound		Batteries.
			do		Reduced MFN (motors, certain weights).	Bound free.		Motors, starters, controllers.
			do		Reduced MFN (certain types)			Incandescent light bulbs.
			do					Household appliances.
A and B: Bound	Bound [13] Quota increased.				Quota increased		Bound	Electric household refrigerators.
	do		Bound (including tubes).	Reduced (receiving sets).	Quota increased (radios, tubes, and parts).	Bound		Radio apparatus.
			Bound					Telephone and telegraph apparatus.
					Reduced MFN (certain heavy apparatus). Quota assured (circuit breakers) Quota increased (certain measuring instruments).			Other electrical apparatus and equipment.
A and B: Bound	Bound Reduced [18]		Reduced	Bound			Bound (calculating).	Accounting and calculating machines.
	do		do		Reduced (certain weights; and parts).		Bound	Cash registers.
A and B: Bound	do		do	Bound	Quota increased	Bound	Bound (including duplicating machines.	Typewriters.
								Dictating machines (including cylinders).

[10] Ice-making, refrigerating, woodworking machinery and sawmills, and machinery for manufacture of sugar, cigarettes, chocolate, shoes, hats.
[11] Electric motors—Reduced; other motors, etc.—Reduced MFFN.
[13] Vacuum cleaners and washing machines; cooking and heating apparatus (electric only).
[13] Includes other electric refrigerators and refrigerator cabinets of all kinds and parts of refrigerators, etc.
[14] Includes receiving apparatus only (1 of the 3 products on which reduction does not become effective until Haitian budget for a given fiscal year is promulgated at 40,000,000 gourdes or more)—Reduced; rate on transmitting apparatus is bound and is not affected by the conditional limitation.
[15] Includes transformers, switchboards, switches, arc lights, fans, buzzers, meters, insulators and insulation materials.
[16] Fuses, lightning arresters, meters, sockets, ignition apparatus, switches, sadirons, dental engines.
[17] Refrigerating, air-conditioning, heavy petroleum-refining machinery, chemical-plant equipment, and certain other heavy industrial machinery.
[18] Accounting machines—Reduced; calculating machines—Reduced or bound according to weight.

A POLISH TRIBUTE

Mr. FENERTY. Mr. Speaker, I ask unanimous consent to extend my own remarks in the RECORD, and to include therein a brief article.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. FENERTY. Mr. Speaker, under the unanimous consent accorded me, and in order to express my appreciation to a great newspaper for a very laudatory article concerning me, I include in my remarks the following from the Philadelphia Polish Star (Gwiazda) of June 7, 1936:

[From the Polish Star of June 7, 1936]

CLARE GERALD FENERTY, A GREAT FRIEND OF ALL THE POLISH PEOPLE—CONGRESSMAN SEEKS TO HAVE PULASKI DAY DECLARED PERMANENT HOLIDAY—APPOINTS POLISH BOYS TO WEST POINT AND ANNAPOLIS

The love for the Polish people by Americans and the respect and admiration accorded them through their various achievements are no better exemplified than in the interest shown by Congressman CLARE GERALD FENERTY.

Always kindly disposed toward the Poles and their well-being, Congressman FENERTY has shown on numerous occasions that he has the interest of the Polish people at heart, for which the Poles owe him a great deal of gratitude.

Only 3 months ago Mr. FENERTY succeeded in appointing a Port Richmond Polish boy to Annapolis. At the same time he appointed another Polish boy to West Point. In doing this he becomes the first Philadelphia Congressman to ever appoint Polish boys to the Naval Academy and the Army.

Last year CLARE FENERTY waged a bitter battle urging Congress to make Pulaski Day, October 11, a permanent memorial holiday. "Just as his memory is greater than all the ages", said the noted Congressman in his address about General Pulaski, "so the observance of his achievements should be equally enduring and perpetual."

CLARE GERALD FENERTY was born in Philadelphia, at 2618 East Thompson Street, where he now lives. He is a graduate of St. Joseph's College, with the degree of bachelor of arts; graduate of the University of Pennsylvania Law School, with the degree of Bachelor of Laws; Hahnemann Medical College, with the honorary degree of doctor of laws, 1935; St. Joseph's College, honorary degree of doctor of jurisprudence, 1936; veteran of the World War, serving with the United States Navy in France, 1917–18; now a senior lieutenant in United States Naval Reserve; member of law faculty of the Wharton School, University of Pennsylvania, for 5 years; appointed by court as member of Philadelphia Board of Law Examiners, 1928 to present; assistant district attorney, 1928–35; elected to the Seventy-fourth Congress on November 6, 1934, having a substantial majority over the combined vote of the Democratic candidate and the candidate of the Industrial Recovery Party, the former Republican Member of Congress from this district.

While at St. Joseph's College and high school and the University of Pennsylvania Law School, he took the highest honors of his class, and represented St. Joseph's College in winning the oratorical championship of American colleges.

In 1934 he married Miss Miriam Elizabeth Loughran, of Hazleton, Pa.

This coming Monday, Mr. FENERTY will receive the degree of doctor of laws from Loyola College, Baltimore.

With all his innumerable activities, Mr. FENERTY nevertheless manages to find time to spend with his many Polish friends. Last Friday night, he delivered an address on Marshal Pilsudski, at memorial exercises at St. Laurentius Hall. He attends many Polish gatherings and is a member of numerous Polish societies.

In his fight for having Pulaski Day made a permanent holiday, Congressman FENERTY introduced a resolution which not only directed the President to proclaim October 11 of each year as General Pulaski's Memorial Day but also authorized the Postmaster General to issue a special series of postage stamps in honor of the beloved Polish patriot. "In honoring the courage and fidelity of Pulaski", Mr. FENERTY said, "we are paying tribute to the brave land that gave him birth and gladly yielded him to us in our effort to liberate America from British rule. As long as America lives, American hearts will thrill to the name and the fame of Poland's immortal son."

Mr. FENERTY's bill passed both the Senate and the House, but was vetoed by President Roosevelt.

In addition to the Pulaski holiday bill, Congressman FENERTY introduced a bill to have $3,000,000 allotted for the opening of Cramps' Shipyard, a bill which the Democrats are now trying to kill. The reopening of Cramps' and its effect on the numerous now unemployed Polish and American workers in the northeast can readily be realized. With his characteristic zeal, Mr. FENERTY is introducing bills also for paying the soldiers' bonus, for the prevention of war, for the prevention of religious persecution in Mexico, to withdraw recognition of Soviet Russia.

Numerous other bills to aid labor and industry in northeast Philadelphia are likewise receiving his endorsement.

Mr. FENERTY has the support of all labor groups, and, barring unforeseen and most unusual circumstances, he should be reelected by a majority twice as large as that of 2 years ago.

CLARE GERALD FENERTY has proven himself a true friend of the Polish people. It is now their duty to reciprocate his genuine and heartfelt altruism.

Mr. DICKSTEIN. Mr. Speaker, I make the point of order there is not a quorum present.

Mr. CARTER. Will the gentleman withhold his point of order for a unanimous-consent request?

Mr. DICKSTEIN. I withhold it for unanimous-consent requests, but I reserve my right to press the point.

PARTICIPATION OF POLISH FORCES IN THE ALLIED ARMIES DURING THE WORLD WAR

Mr. PETTENGILL. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD.

The SPEAKER. Is there objection.

There was no objection.

Mr. PETTENGILL. Mr. Speaker, at my request, Mr. H. A. McBride assistant to Hon. Cordell Hull, Secretary of State, has prepared the attached memorandum of the participation of Polish forces in the allied armies during the World War. Mr. McBride had an unusual opportunity at first hand to become familiar with the facts set forth on account of his service in Europe during the war and in the demobilization period which followed. So far as I know, this is the first time this information has been assembled. It is of such value as a historical document that it ought to be preserved where it can be widely read, and for that reason I am incorporating it in the CONGRESSIONAL RECORD.

American readers will be particularly interested in the account of the participation of Polish-Americans, which began even before the United States declared war, again proving that intense patriotism for which the Poles are honored throughout the world.

I wish to express the appreciation of myself and the many persons who will read this article for Mr. McBride's scholarly paper. Limitations of space require me to omit certain facts, such as detailed statement of the various units which participated, their officers and military equipment, bibliography, and so forth. I have, however, retained this in my files, where it is available to anyone interested. I hope the publication of this paper by Mr. McBride will prompt someone to write a still better history of these Polish-Americans and their service.

The article is as follows:

PARTICIPATION OF POLISH FORCES IN THE ALLIED ARMIES DURING THE WORLD WAR—GEN. JOSEPH HALLER—THE ORGANIZATION, ACTIVITIES, AND SUBSEQUENT REPATRIATION TO THE UNITED STATES OF THE SO-CALLED HALLER ARMY

DEVELOPMENTS LEADING TO THE FORMATION OF THE ARMY

The World War, which brought about such enormous changes in the political status of European countries, gave birth to plans and hopes for restoration of the Polish State. From the beginning of the war both the Central Powers as well as the Allies gave consideration to the idea of organizing Polish armed forces for their own use. The Central Powers were the first to make use of this conception by rendering aid to the Polish legions under Pilsudski for fighting against the Russians. Similar intentions, though on a much smaller scale, were also sponsored by Russia. Use of organized Polish military forces by France, which sentimentally was the closest of all the Allies to the Poles, was made as early as 1914.

The historical nucleus

With the outbreak of hostilities, Poles in France enlisted eagerly under French colors. In the hope of furthering the Polish cause and to manifest their loyalty to France, Poles then in France formed two units in the towns of Bayonne and Reuilly, respectively, which volunteered in a body in the French Foreign Legion. At that time only French citizens were permitted to enlist in the regular French Army. These two units, together with other Poles already in the Foreign Legion, formed a separate Polish company in the Foreign Legion. This company, officially known as the Second Company, French Foreign Legion, numbered 200 men when it went into action on October 22, 1914 This unit, which forms the historical nucleus of the Polish Army in France, had a most brilliant career. Several times it was almost annihilated; its banner, officers, and nearly all the men received the highest French decorations for action. The autumn of 1914 and winter and spring of 1915 found the Bayonne outfit holding front-line trenches near the Aisne River in the vicinity of Reuilly, Champagne, Mailly, and

Sillery. At the latter place the unit experienced its first real engagement. On May 9, 1915, at the Battle of Arras the unit went over the top together with French troops and was practically wiped out. The unit during this engagement was commanded by Major Osmonde. It attacked Vimy Hill in the Berthouval sector, took three lines of German trenches, but sacrificed its commander, all the officers, and most of its men. Only 50 men survived. After receiving scant reinforcements the unit was at last practically annihilated on June 16, 1915, when it tried to regain a line of trenches which a detachment of the One Hundred and Fiftieth French Infantry had evacuated near Souchez in the Notre Dame de Loretto sector. The few men left were recalled to the rear, a part of them were incorporated in the French Army while the remainder decided to fight their way to Poland by way of Archangel, where other Polish forces were being organized.

Poles admitted into the French forces

France took notice of the glorious record and sacrifices of the Bayonne unit, and as a special gesture of appreciation, on motion of Senator Marin, Poles were thereafter permitted to enlist in the French Army on equal grounds with Frenchmen. Polish nationalists in Paris were eager to use this occasion to place the question of Poland's independence on an international plane, but official French circles turned a deaf ear, since they did not care to invoke the ill will of Russia, who was France's ally and Poland's bitter enemy.

The nationalists were obliged to await a more opportune moment when events would favor their cause. During the latter half of the year 1915, as the conflict assumed stupendous proportions, France began advocating the policy of "nationalist causes." In November 1915 Prime Minister Briand identified the war as a struggle for the "freedom of nations which are to enjoy complete independence." A month later Italian Prime Minister Sonnino proclaimed "independence, safety, and mutual respect among nations" as the ultimate aim of the war.

Polish independence

Thanks to the propaganda of Polish nationalists and achievements of Poles fighting for the Allies, the Italian Parliament on December 7, 1915, passed a resolution embodying the hope "that Poland will regain her independence." In April 1916 an attempt was made to obtain Russia's placet to the idea of an independent Polish state, but with no success. On November 5, 1916, the Central Powers issued an edict calling to being an independent Kingdom of Poland. While this move on the part of the Germans had little practical value, the very fact that it was made immediately placed Poland's cause on an international plane and was instrumental in forcing the Allies to take official cognizance of the matter. Almost immediately afterward Russia released pressure in that part of Poland under Russian control and discontinued persecution of pro-Polish activities.

This development stimulated the hopes of the Polish colony in Paris. At that time the two focal points around which this colony centered were: (1) The Committee for the Relief of Wounded Poles, and (2) the offices of the Polish political national weekly Polonja, edited by Waclaw Gasiorowski, historian and journalist. This publication created a bond of understanding among all Poles in France and in the colonies. It was read by most all Poles in the French Foreign Legion. Knowing the minds of the Poles in France, Gasiorowski was predestined to become their spokesman. To him is credited the idea of forming an independent Polish Army in France. In the spring of 1917 Erazm Piltz, then head of the Bureau Politique Polonaise in Paris, and Adam Mokiejewski, lieutenant colonel of the French Army, joined Gasiorowski in his plans.

The idea gained headway when the Russian revolutionary government proclaimed on March 30, 1917, that the partitions of Poland were a great injustice and the Government recognized Poland's independence. Similar declarations followed shortly from the other allies. France's confidence in Russia as a military power began wavering, especially when Russian expeditionary forces in France and Saloniki began turning communistic. Le Temps, then headed by André Tardieu, swayed by popular sentiment in Poland's favor. Official opinion was turned by a report concerning the strength and development of the Polish legions in Poland. This report, which was delivered by the French military attaché in Bern, also stated that if France and England do not want to be left with 1,000,000 Polish soldiers on their hands they must declare Poland's independence.

Formation of independent Polish unit

In May 1917 the French Government gave its final approval and consent. The official declaration of the Government provided for the formation of skeleton corps of the new army with Poles serving in the French Army and in the Russian brigades. Further material was to be obtained from Polish volunteers in Holland, Brazil, and North America. Permission to form the army was countersigned by Minister of War Painleve. General Duport, Chief of Staff of the French Army, who was extremely well disposed toward the plan because of the memory of the famous Bayonne unit which fought under him, instructed his second in command, General Valentin, together with Colonel Goubet, Chief of Section II, General Headquarters, and Colonel Drech, Chief of Section I, General Headquarters, to draft a project for the organization of the new army. President Poincare's decree concerning the army appeared in the Journal Officiel on June 4, 1917. This decree constituted the legal basis for the formation of the army.

Franco-Polish Mission

According to an order of the Minister of War dated June 6, 1917, there was formed a Franco-Polish military mission commanded by General of Division Archinard, who was known for his activities in French colonial wars and in the subjugation of the Sudan. The functions of this mission were outlined only in a very general manner. It was to cooperate with the French central authorities in matters concerning recruiting and organization of the Polish Army; also to render opinions and suggestions where necessary. Lieutenant Colonel Mokiejewski was named Archinard's chief of staff.

The mission set about determining how many men could be had for the army and where they could be recruited. According to an estimate which was submitted to General Archinard, the French Army could supply 2,000 eligible Poles and approximately 8,000 could be obtained from among German prisoners and the Russian brigades. Hope was placed in volunteer enlistments of Poles in America to make up the balance of the army. It was estimated that these volunteer enlistments would amount to about 100,000 men.

World-wide recruiting

The first concentration camp, having a capacity of 3,000 men, was opened in the little town of Sille le Guillaume in the department of Sarthe on June 27, 1917, with Captain Jagniatkowski, former French colonial officer in command. The other French officers at the camp were: Major Blanchard, Captain Dechamps, Captain Dutrey, and Lieutenant Bufquin. On August 15, 1917, there were 240 officers and 247 men in camp, and by September 1, 1917, this number increased to 382 men. On October 1, 1917, there was a total of 832 men (all from the French Army) divided into four companies. A network of recruiting stations in France in such places as Paris, Lille, Boulogne sur Mer, Le Mans, Bordeaux, Lyon, and Nice gave very scanty results. It was then decided to place more emphasis on recruiting abroad. Large-scale recruiting campaigns were launched in the United States, Brazil, and Canada.

Ignace Paderewski, the famous pianist, later to become noted as a statesman, was active in the United States and Canada.

The United States and Canada yielded the bulk of the volunteers, Brazil and Argentina giving relatively few. Brisk recruiting was begun in Chicago, New York, Philadelphia, Boston, and Detroit, and other smaller places having a Polish population of any size. The principal concentration camp for the United States and Canada was located in the Canadian Army camp at Niagara-on-the-Lake. Officer and noncommissioned officer training schools were located at the camp in Niagara-on-the-Lake and in Toronto. The reason for the great success of the movement in the United States is largely the fact that Poles in America were highly patriotic besides being more or less trained in military discipline and rudimentary field tactics. As early as in April 1917 the largest Polish semimilitary and athletic society, the Sokols, passed a resolution at a convention held in Pittsburgh to prepare a force of 100,000 men who would be ready to answer any call to arms to help Poland regain her independence. The fulfillment of this resolution was made impossible when the United States entered the war. Nevertheless the Franco-Polish delegation managed to get recruiting under way—thanks to the aid which the Poles in America extended to them. There was formed in Chicago an all-Polish national committee, which, in turn, evolved a military committee composed of Dr. Starzynski, Mr. Helinski, and Mr. Znamiecki.

First American volunteers

Meanwhile the camp in Sille-le-Guillaume was being placed in order. The first official inspection of the camp and the four companies was made by General Faurie. Several hundred volunteers arrived shortly from England and Holland. The first contingent of Poles from the United States, numbering 1,200, arrived at Bordeaux on December 26. Other contingents followed shortly afterward. The camp in Sille became crowded, and two new camps had to be opened, one in Lavalle and one in Mayenne. Thanks to the influx of volunteers from the United States, it was now possible to go ahead with the formation of the first regiment of infantry (chasseurs). This regiment, which was composed of Poles from America, Polish soldiers from the Russian brigades, and Poles formerly in the German Army recruited from French prison camps, was officially formed on January 10, 1918. At first this regiment had only two battalions. Battalion 1 was quartered in Lavalle; battalion 2 in Sille-le-Guillaume. Also a special training camp for noncommissioned officers was opened in Camp la Ruchard.

Volunteers from America continued to arrive rapidly, so that by the end of February 1918 the Polish Army in France numbered approximately 10,000 men. Work was begun on the formation of two new regiments. Mayenne was designated as the base for the second regiment of infantry and Mailly for the third regiment. Each regiment was composed of three battalions of infantry and one staff company composed of signal, engineer, musician, artisan, and quartermaster units. Cavalry was being formed in Alencon, artillery in Le Mans, engineers in Erigne, near Angers, and aviation units near Pau.

A report dated March 10, 1918, shows the following numerical strength of the Polish Army in France:

First Regiment, 61 officers, 2,564 noncommissioned officers and privates.

Second regiment, 13 officers, 2,309 noncommissioned officers and privates.

Third regiment, 9 officers, 2,389 noncommissioned officers and privates.

Artillery, aviation, cavalry, and staff, 46 officers, 909 noncommissioned officers and privates.

Total, 129 officers, 8,171 noncommissioned officers and privates.

A month later, on April 10, 1918, the total increased to 204 officers and 10,638 men. These three regiments, on arriving at full strength, comprised the First Division, commanded by General Vidalon. Regimental colors were presented by the cities of Paris, Nancy, Verdun, and Belfort.

Action at last

Upon completing its organization the first regiment was hurried to the front near Rheims, where it was included in General Gouraud's army. On July 15, 1918, the regiment participated in the heavy fighting in the St. Hilaire sector. On July 22, 1918, it captured Centre-Chaiton, and during the night of July 24 its fifth company, following heavy fighting and great sacrifices, stormed the Bois de Racquette position. The regiment's losses during this time amounted to approximately 100 killed and 500 wounded. On August 1, 1918, the regiment retired to the camp in St. Tauche, where it underwent special training, together with the second and third regiments. Organization of the army as a whole now passed into the hands of General Capdepont. Additional camps were opened in Potigny-Ussy, Lessay, St. Quentin, and several other places.

Need for Polish leader

About this time the French high command became seriously concerned with developments at the front and the new army became neglected. The absence of capable officers was felt very keenly and the treatment of the men was none too good. Above all, the men desired to be led by a general of their own nationality—a man possessing military and moral authority capable of symbolizing the country and cause for which they were fighting. Thus far no such symbol could be placed before the men, as neither the Franco-Polish Military Mission nor the civilian national committee, which was formed in August 1917, could answer these requirements. In fact, the national committee had been looking for such a leader for some time.

Gen. Jozef Haller

Negotiations between the national committee and Polish military and political circles in Russia resulted in Gen. Jozef Haller being named for the position. General Haller was formerly commander of the Second Brigade of the Polish Legions and later commander of the Second Corps of the Polish Legions which fought against the Germans in the Ukraine and Poland and later fought their way to Russia, where they united with other Polish military formations being organized in Siberia. Haller's nomination, which was made with the acquiescence of Commander Pilsudski, reached him in Siberia. On July 3, 1918, he sailed from Archangel on the British steamer *City of Marsailles*, together with Major Bajer and Captain Malinowski, Captain Budowski, Captain Sokolnicki, Lieutenant Zaremba, and Lieutenant Kettling. They arrived in Havre on July 13, 1918.

Haller was received by Minister of Foreign Affairs Pichon and Clemenceau, but his nomination as commander in chief of the Polish Army in France was deferred until the legal relation of the army to France and the other allies was settled. This status was finally settled by an agreement signed on September 28, 1918, by France and the national committee. The national committee, by the way, acted as a ministry of foreign affairs for Polish interests in France and partly as a ministry of war for the Polish Army in France.

Disposition of Poles on the western front

The base of the First Division, commanded by General Vidalon (first, second, and third regiments), which was still at the front, was transferred to Domfront from Sille-le-Guillaume, which hereafter became the base of the Second Division (fourth, fifth, and sixth regiments). The camp in Le Mans concentrated artillery. The cavalry camp in Alencon and the engineer camp in Erigné were made subordinate to headquarters in Le Mans. The strength of the army at this time is given as 16,915 men and 430 officers, of which 200 officers and 9,962 men were at the front in the First Division.

The Germany Army was rapidly disintegrating and the Allies were preparing to deliver their decisive blow, which was to be made in the direction of Metz. The First Division of the Polish Army, then occupying a sector near St. Die-Nord in the Vosges, under the command of the Tenth French Army headquarters, was to participate in the offensive. During the first week of November, i. e., just before the offensive was to be launched, the division was shifted to the front of the Eighth French Army. It detrained at Ramberville and was included in the powerful "shock" group under General Mangin. This group was composed of the Eighth and Tenth French Armies and two American armies. On November 14, just as orders had been issued for the attack and the division was being moved into attack position in the Foret de Parroy sector, orders were received announcing the armistice.

Dispersal of the Haller unit

In the meantime events in Poland had caused the responsible leaders to call for the assistance of Haller's troops. Russia protested against the Kresy being given to Poland, and proposed the Bug as the Polish frontier. In reply Gen. Jozef Pilduski launched an attack on the Bolsheviks on April 16, 1919. Three days later the first group of Haller's troops arrived in Poland, and the remainder followed in the next 2 months. Some of the divisions went immediately into action against the Ukrainians, who were attacking Lwow; other divisions were used to strengthen the Bolshevik front. One division was detailed to occupy former German Poland and the Corridor, which German troops were evacuating. On September 1, 1919, by order of Commander in Chief and Chief of State Pilsudski, the army was incorporated in the regular Polish Army. Many of the regiments remained intact for some time, despite the amalgamation, and were responsible in no small degree as such units for the final success of Polish arms.

Preparations for return to the United States

Not long after the arrival of these troops in Poland, the American Legation began to receive applications for discharge and return to the United States by soldiers who were American citizens. In reporting these cases to the Department of State, the American Minister, Mr. Hugh Gibson, first suggested that the troops should be returned to their base in France, rather than discharged in Poland, but later he suggested that United States Army transports be used to return the troops to the United States.

Two other factors tended to hasten the matter of repatriation, namely, the danger of Bolshevik propaganda among the troops and the lack of clothing and other material. With winter not far distant, the Polish authorities realized the necessity for repatriating these troops as soon as possible. In August 1919 the Polish Foreign Office informed the American Legation that it planned to demobilize gradually some 10,000 to 12,000 of Haller troops, and desired to embark these men from Danzig, due to the congestion of French ports. The Polish Government asked the United States to lend it transports, for which it would pay all expenses. Their plan called for demobilization between September 1919 and February 1929.

Repatriation

Thereafter some 14,000 Haller troops were returned to the United States in United States Army transports by August 1920. Many technical questions arose, such as the matter of passports and alien visas for the troops, the admittance of alien troops into the United States under the immigration laws and regulations, and the enforcement of the United States public health laws, but these problems were satisfactorily disposed of by the various United States Government agencies involved, viz, the American consulate general in Warsaw, in charge of Consul Harry A. McBride and later of Consul General Leo J. Keena; the United States Public Health Service in Warsaw; the American Commissioner in Danzig; the American military attaché in Warsaw; the American Polish Relief Expedition; the American Red Cross, and the Young Men's Christian Association in Poland.

The Bolshevik threat on Warsaw in August 1920 caused an interruption in the repatriation of these troops, as they were needed for the defense of Warsaw.

However, after the Bolsheviks were turned back the problem of repatriation again arose, the Polish Government stating that some four to six thousand troops were awaiting their return to the United States. After some negotiations the *President Grant* was sent to Danzig in place of the smaller transports, but only about 1,400 troops were embarked. It appears that this was the last American vessel to transport troops to the United States.

The great difference in number of troops remaining in Poland for repatriation and the number which actually sailed can only be explained by the lack of records and disorganization existing in the Polish War Department. They had little or no idea of the number of Haller army men left in Poland. However, it must be taken into consideration that:

(1) Many men at the last moment decided to remain in Poland.
(2) There were a number held by the Bolsheviks as prisoners.
(3) A great many were sick in hospitals or have died.
(4) Some were not notified of the arrival of the transport, due to the inadequate means of communication. Men who were demobilized scattered over Poland and could not be found in time.

Altogether the American Government transported about 15,000 Haller troops to the United States. The cost of travel from New York to their homes was paid by the Polish Legation in Washington.

The Polish Government undertook the repatriation of those remaining who subsequently desired to return to the United States. The consulate general's records show that 1,106 visas were granted to ex-Haller soldiers on July 29, 1922, covering 2,053 persons. A few stragglers were returned later, but the bulk of the army was repatriated by the fall of 1922.

JURISDICTION OF COURT OF CLAIMS TO HEAR CLAIM OF EMANUEL BRATSES

Mr. DALY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 3866) to confer jurisdiction upon the Court of Claims to hear, determine, and render judgment upon the claim of Emanuel Bratses, with Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Line 13, after "amended", insert *"Provided further*, That the judgment, if any, shall not exceed the sum of $5,000."

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The Senate amendment was concurred in.

A motion to reconsider was laid on the table.

RELIEF OF THE FIRST, SECOND, AND THIRD NATIONAL STEAMSHIP COMPANIES

Mr. DALY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 12671) for the relief of the First, Second, and Third National Steamship Companies and substitute therefor the bill S. 4684, and the immediate consideration of the same.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

Mr. DICKSTEIN. Mr. Speaker, I object.

HON. JOSEPH J. MANSFIELD

Mr. DALY. Mr. Speaker, I ask unanimous consent to extend my own remarks in the RECORD and include therein a resolution passed by the Rivers and Harbors Committee commending the wonderful service and courtesy of the chairman of that committee, the gentleman from Texas [Mr. MANSFIELD].

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. DALY. Mr. Speaker, under the leave to extend my remarks in the RECORD, I include the following resolution, which I offered at a meeting of the Committee on Rivers and Harbors on June 16 last:

Hon. J. BURRWOOD DALY, Pennsylvania, offered the following resolution:

As this is possibly the last meeting of the Committee on Rivers and Harbors of the Seventy-fourth Congress, I suggest that the sincere thanks of the committee be extended to the Honorable JOSEPH J. MANSFIELD, our distinguished chairman, not only for his great ability, his comprehensive knowledge, and the untiring efforts he has shown in the work of rivers and harbors legislation, which has won the admiration and respect of the whole committee, but also for his uniform courtesy, his kindly help and devotion to the interests of the membership of the committee, and his brilliant service for his constituents and his country that has gained for him the personal and affectionate regard of the entire Congress.

We sincerely trust that the people of Texas will return him to the Halls of Congress as long as he is willing to come, that they and his country may long have the benefit of his knowledge and ability and that God will give him the health and strength to continue the work that has marked him as one of the most outstanding and valuable Members of Congress.

The resolution was unanimously adopted.

LEASING OF LAND ON THE FORT MOULTRIE (S. C.) MILITARY RESERVATION TO OWNERS OF CERTAIN COTTAGES

Mr. McMILLAN. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4432) authorizing and directing the Secretary of War to lease land on the Fort Moultrie (S. C.) Military Reservation to the owners of certain cottages thereon.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That the Secretary of War is authorized and directed to lease for a period of 20 years to the owners of the six cottages erected on land reclaimed from the ocean and now determined to be part of the military reservation of Fort Moultrie, S. C., the land upon which such homes were erected by the owners in the belief that title was vested in the commissioners of Sullivans Island, from whom it was secured by the owners: *Provided, however*, That such leases shall contain the provision that if at any time said property is needed for military purposes the buildings must, upon notice, be immediately removed and the leases canceled, and the further provision that such buildings shall be removed without expense to the United States Government and that the lessee shall have no claim against the United States Government by reason of any damage whatsoever to said buildings or person from any cause.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

LABOR WANTS HIM

Mr. STACK. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD by including therein a letter I have just received from Mr. Green, of the American Federation of Labor.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. STACK. Mr. Speaker, under the leave to extend my remarks in the RECORD, I include the following letter received by me from the president of the American Federation of Labor:

AMERICAN FEDERATION OF LABOR,
Washington, D. C., March 28, 1936.

Hon. MICHAEL J. STACK,
Member, House of Representatives,
House Office Building, Washington, D. C.

MY DEAR CONGRESSMAN: The records you made as a Member of Congress show that you were a most consistent and valuable supporter of legislative measures sponsored and approved by the American Federation of Labor. For this reason I am pleased, in behalf of the officers and members of the American Federation of Labor, to endorse your candidacy for renomination and reelection to the United States Congress. I commend you to labor and labor's friends in your congressional district. I sincerely hope that they will rally to your support and that you will be nominated and reelected as a Member of Congress.

Wishing you success, I beg to remain,

Very truly yours,

WM. GREEN,
President, American Federation of Labor.

F. W. ELMER

Mr. COLMER. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (S. 4490) for the relief of F. W. Elmer, and immediately consider the same.

Mr. JENKINS of Ohio. Mr. Speaker, I should like to ask what this bill is about. The House has never passed upon it, as I understand it.

Mr. COLMER. I may say in answer to the gentleman that the House committee has approved this bill for $1,500, and I understand that one of the official objectors will offer an amendment to that effect.

Mr. JENKINS of Ohio. How much did the Senate bill carry?

Mr. COLMER. Two thousand five hundred dollars.

Mr. JENKINS of Ohio. And the House committee reduced it to $1,500.

Mr. COLMER. Yes.

Mr. JENKINS of Ohio. And an amendment to that effect will be offered?

Mr. COLMER. I understand the gentleman from California [Mr. COSTELLO] is prepared to do that.

Mr. COSTELLO. Mr. Speaker, reserving the right to object, I wish to offer an amendment at the appropriate time, reducing the amount from $2,500 to $1,500.

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That the Secretary of the Treasury be, and he is hereby, authorized and directed to pay, out of any money in the Treasury not otherwise appropriated, the sum of $2,500 to F. W. Elmer, of Biloxi, Miss., in full settlement of all claims against the United States for legal services rendered to the United States in the case of the State of Mississippi against S. M. Taylor, a Federal prohibition officer, who, in the performance of his official duty, shot and killed a citizen, and who was acquitted of the charge of murder in the United States District Court for the Southern District of Mississippi: *Provided*, That no part of the amount appropriated in this act in excess of 10 percent thereof shall be paid or delivered to or received by any agent or attorney on account of services rendered in connection with this claim, and the same shall be unlawful, any contract to the contrary notwithstanding. Any person violating the provisions of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not exceeding $1,000.

Mr. COSTELLO. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment by Mr. COSTELLO: Page 1, line 5, strike out "$2,500" and insert "$1,500."

The amendment was agreed to.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

MICHAEL DALTON

Mr. DUNCAN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (S. 1146) for the relief of Michael Dalton, and consider the same.

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That the Secretary of the Treasury be, and he is hereby, authorized and directed to pay, out of any money in the Treasury not otherwise appropriated, the sum of $1,000 to Michael Dalton, in full settlement of all claims against the Government of the United States for injuries received by said Michael Dalton on November 14, 1930, when he was struck by a United States mail truck at Third Street and Massachusetts Avenue, NW., Washington, D. C.: *Provided*, That no part of the amount appropriated in this act in excess of 10 percent thereof shall be paid or delivered to or received by any agent or agents, attorney or attorneys, on account of services rendered in connection with said claim. It shall be unlawful for any agent or agents, attorney or attorneys, to exact, collect, withhold, or receive any sum of the amount appropriated in this act in excess of 10 percent thereof on account of services rendered in connection with said claim, any contract to the contrary notwithstanding. Any person violating the provisions of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not exceeding $1,000.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

JAMES W. GRIST

Mr. UMSTEAD. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 3879) for the relief of James W. Grist.

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That notwithstanding the provisions and limitations of sections 15 to 20, both inclusive, of the act entitled "An act to provide compensation for employees of the United States suffering injuries while in the performance of their duties, and for other purposes", approved September 7, 1916, as amended, the United States Employees' Compensation Commission is hereby authorized and directed to receive and consider, when filed, the claim of James W. Grist for disability alleged to have been incurred by him in the course of his employment at the Government Printing Office between September 1928 and June 1929 and to determine said claim upon its merits under the provisions of said act: *Provided*, That no benefits shall accrue prior to the approval of this act.

The bill was ordered to be read a third time, was read the third time, and passed.

MARGARET MURPHY

Mr. SIROVICH. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (S. 1790) for the relief of Margaret Murphy, and immediately consider the same with an amendment.

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That in the administration of the act entitled "An act to provide compensation for employees of the United States suffering injuries in the performance of their duties, and for other purposes", approved September 7, 1916, as amended, Margaret Murphy shall, after the date of the approval of this act, be paid compensation at the rate of $80 per month for injuries sustained November 28, 1928, while employed in the Treasury Department, Washington, D. C., which compensation shall be in lieu of compensation and salary she is now receiving while there employed.

With the following committee amendment:

Page 1, line 8, strike out "$80" and insert "$60."

The committee amendment was agreed to.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate, by Mr. Horne, its enrolling clerk, announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill H. R. 10919, entitled "An act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes."

The message also announced that the Senate agrees to the amendment of the House to the text of the amendment of the Senate to the bill (H. R. 8555) entitled "An act to further the development and maintenance of an adequate and well-balanced American merchant marine, to promote the commerce of the United States, to aid in the national defense, to repeal certain former legislation, and for other purposes.

The message also announced that the Senate agrees to the amendments of the House to a bill and joint resolution of the Senate of the following titles:

S. 4727. An act to quiet title and possession with respect to certain lands in Lawrence County, Ala.; and

S. J. Res. 255. Joint resolution to provide for the participation of the United States in the commemoration of the seventy-fifth anniversary of the Battle of Antietam.

The message also announced that the Senate had passed without amendment bills of the House of the following titles:

H. R. 2435. An act for the relief of the Citizens State Bank of Marianna, Fla.; and

H. R. 12490. An act authorizing a preliminary examination of the Levisa Fork of Big Sandy River in the vicinity of the Breaks of Sandy.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 12395) entitled "An act to provide revenue, equalize taxation, and for other purposes."

The message also announced that the Senate agrees to the amendment of the House to the amendment of the Senate No. 281 to the foregoing bill.

The message also announced that the Senate had passed, with amendments, in which the concurrence of the House is requested, a bill of the House of the following title:

H. R. 10094. An act to amend section 1 of the act entitled "An act to stop injury to the public grazing lands by preventing overgrazing and soil deterioration; to provide for their orderly use, improvement, and development; to stabilize the livestock industry dependent upon the public range; and for other purposes", approved June 28, 1934 (48 Stat. 1269).

FIRST, SECOND, AND THIRD NATIONAL STEAMSHIP COMPANIES

Mr. DALY. Mr. Speaker, I ask unanimous consent for the present consideration of the bill (H. R. 12671) for the relief of the First, Second, and Third National Steamship Companies, which I send to the desk and ask to have read.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection?

Mr. COSTELLO. Mr. Speaker, I reserve the right to object. What does this bill provide?

Mr. DALY. It confers jurisdiction on the Court of Claims to settle disputes between the United States and companies that purchased three warships.

Mr. COSTELLO. This is the matter of the First, Second and Third Steamship Companies.

Mr. DALY. Yes. The Government took the ships back, and there was some dispute about improvements made to them. The Department is in favor of having this matter sent to the Court of Claims.

Mr. COSTELLO. Is it not a fact that they filed suit in 1935 with the Court of Claims, and due to the negotiations that followed along about 1934 or about that period these companies entered into an agreement with the Government whereby they accepted $250,000 in settlement of their claim? Subsequently the actions in the Court of Claims were dismissed. In other words, of their own accord they entered into an agreement to settle their claims with the Government, and now this bill would authorize them to come back, set aside those agreements, and in spite of the fact that the statute of limitations has run, be given the right to come back and sue for the balance over the agreement.

Mr. DALY. I am reliably informed that this bill was introduced at the request of the Department.

Mr. COSTELLO. There is a letter here in the report from the Department of Justice signed by Homer Cummings which opposes the bill. For that reason I shall have to oppose the present consideration of the bill.

The regular order was demanded.

The SPEAKER pro tempore. Is there objection?

Mr. COSTELLO. Mr. Speaker, I object.

RECESS

Mr. TABER. Mr. Speaker, I make the point of order that there is no quorum present.

Mr. O'CONNOR. Mr. Speaker, I move that the House stand in recess until 8 o'clock.

The motion was agreed to; and accordingly (at 6 o'clock and 52 minutes p. m.), the House stood in recess until 8 o'clock p. m.

EVENING SESSION

The recess having expired, the House was called to order by the Speaker at 8 o'clock p. m.

FIFTY-CENT PIECES IN COMMEMORATION OF ONE HUNDREDTH ANNIVERSARY OF ADMISSION OF STATE OF ARKANSAS INTO THE UNION

Mr. DRIVER. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 11688) providing for a change in the design of the 50-cent pieces authorized to be coined in commemoration of the one hundredth anniversary of the admission of the State of Arkansas into the Union, with Senate amendments, and agree to the Senate amendments.

The SPEAKER. Is there objection?

Mr. RICH. Reserving the right to object, I should like to ask the gentleman if these are to be silver coins?

Mr. DRIVER. Yes.

Mr. RICH. Then we are going to have more free silver, or are they going to sell them?

Mr. DRIVER. They are going to sell them.

Mr. RICH. It is one more of these coin bills. They put them in over there and we take them out over here, and round and round they go. [Laughter and applause.]

The SPEAKER. Is there objection?

There was no objection.

The Clerk read the Senate amendments, as follows:

Lines 5 and 6, strike out "of not less than 25,000".

Line 6, after "of", insert "not less than 25,000 and not more than 50,000 of".

After line 14, insert:

"SEC. 2. The coins upon which the additional design authorized by this act is to be placed shall be coined at a mint of the United States to be designated by the Director of the Mint, shall bear the date 1936, irrespective of the year in which they are minted or issued, and shall be issued in the same manner and for the same purposes as the coins issued under the provisions of such act of May 14, 1934, except that not less than 25,000 such coins shall be issued at any one time and no such coins shall be issued after the expiration of 1 year after the date of enactment of this act."

The Senate amendments were agreed to.

A motion to reconsider was laid on the table.

STILL FURTHER MESSAGE FROM THE SENATE

A still further message from the Senate, by Mr. Crockett, its Chief Clerk, announced that the Senate had passed without amendment bills and a joint resolution of the House of the following titles:

H. R. 2335. An act for the relief of Cora Akins;

H. R. 3777. An act for the relief of the Herald Publishing Co.;

H. R. 9191. An act for the relief of the dependents of James B. Kiley;

H. R. 12257. An act to extend the jurisdiction of the United States Court for China to offenses committed on the high seas;

H. R. 12324. An act to amend section 723 (a) of the Revenue Act of 1932, as amended;

H. R. 12410. An act to amend section 8 of the act entitled "An act to establish a National Archives of the United States Government, and for other purposes", approved June 19, 1934;

H. R. 12455. An act to provide for the administration and maintenance of the Blue Ridge Parkway, in the States of Virginia and North Carolina, by the Secretary of the Interior, and for other purposes;

H. R. 12458. An act authorizing a preliminary examination of the intracoastal waterway throughout Broward County, Fla.;

H. R. 12876. An act to waive any exclusive jurisdiction over premises of resettlement or rural-rehabilitation projects; to authorize payments to States, political subdivisions, and local taxing units in lieu of taxes on such premises; and for other purposes; and

H. J. Res. 642. Joint resolution to enable the Secretary of Agriculture to apply such methods of control of grasshoppers as in his judgment may be necessary.

The message also announced that the Senate had passed, with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H. R. 12831. An act to authorize the striking of an appropriate medal in commemoration of the three hundredth anniversary of the founding of Hartford, Conn.

The message also announced that the Senate agrees to the amendments of the House to bills and a joint resolution of the Senate of the following titles:

S. 1567. An act to amend section 5 of the act of March 2, 1919, generally known as the War Minerals Relief Act;

S. 1793. An act to amend the act entitled "An act authorizing the attorney general of the State of California to bring suit in the Court of Claims on behalf of the Indians of California", approved May 18, 1928 (45 Stat. L. 602);

S. 2460. An act to amend the act of June 6, 1924, entitled "An act to amend in certain particulars the National Defense Act of June 3, 1916, as amended, and for other purposes";

S. 3843. An act to provide for the entry under bond of exhibits of arts, sciences, and industries, and products of the soil, mine, and sea, and all other exhibits for exposition purposes; and

S. J. Res. 177. Joint resolution to define the term of certain contracts with Indian tribes.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 2953) entitled "An act to provide for the inspection, control, and regulation of steam boilers and unfired pressure vessels in the District of Columbia."

The message also announced that the Senate recedes from its disagreement to the amendment of the House to the bill (S. 5) entitled "An act to prevent the adulteration, misbranding, and false advertising of food, drugs, devices, and cosmetics in interstate, foreign, and other commerce subject to the jurisdiction of the United States, for the purposes of safeguarding the public health, preventing deceit upon the purchasing public, and for other purposes", and agrees to the same with an amendment.

The message also announced that the Senate had passed a bill of the following title, in which the concurrence of the House is requested:

S. 4670. An act to authorize the striking of an appropriate medal in commemoration of the three hundredth anniversary of the original Norfolk, Va., land grant and the two hundredth anniversary of the establishment of the city of Norfolk, Va., as a borough.

The message also announced that the Senate had—

Resolved, That a committee of two Senators be appointed by the Vice President to join a similar committee appointed by the Speaker of the House of Representatives to wait upon the President of the United States and inform him that the two Houses have completed the business of the present session and are ready to adjourn, unless the President has some further communication to make them; and that, in compliance with the foregoing, the Vice President appointed as said committee on the part of the Senate Mr. ROBINSON and Mr. MCNARY.

SANDY NATIONAL PARK IN VIRGINIA AND KENTUCKY

Mr. MAY. Mr. Speaker, when the House recessed this evening the bill (H. R. 87) to establish the Breaks of Sandy National Park in Virginia and Kentucky was under consideration.

The SPEAKER. The Clerk will report the bill.

The Clerk read the title of the bill.

The SPEAKER. Is there objection?

Mr. TABER. Mr. Speaker, I object.

Mr. MAY. Mr. Speaker, I wish the gentleman would withhold that. There is not a dollar of expense involved.

Mr. TABER. I will withhold the objection to allow the gentleman to explain it.

Mr. MAY. I shall be glad to give an explanation of it. This is a bill to authorize the Secretary of the Interior to accept a gift, without one dollar's expense, of some wild lands that embrace a part of a park that is already established by the State.

Mr. TABER. It is already established by the State?

Mr. MAY. Yes; the State owns the park and a land company is giving this land.

Mr. TABER. If it was turned in to the State, that would be fine; but if we have more parks for the Interior Department to pay for, that is not so good.

Mr. MAY. This does not cost a dime.

Mr. TABER. Well, it would cost money to take care of it.

The SPEAKER. Is there objection?

Mr. TABER. Mr. Speaker, I object.

JESSE ASHBY

Mr. SCHAEFER. Mr. Speaker, I ask unanimous consent to vacate the proceedings of the House whereby the bill (H. R. 3179) for the relief of Jesse Ashby was passed and substitute therefor the bill, S. 3175.

The SPEAKER. Is there objection?

There was no objection.

The SPEAKER. Without objection, the Senate bill (S. 3175) will be substituted.

There being no objection, the Clerk read as follows:

Be it enacted, etc., That the claim of Jesse Ashby growing out of losses suffered under contract dated April 28, 1931, for painting plaster walls, Department of Commerce Building, Washington, D. C., is hereby referred to the United States Court of Claims with jurisdiction to hear the same to judgment and with instructions to adjudicate the same upon the basis of losses and/or damages suffered due to delays caused by the Government and/or to change made by substitution of Wall Hide sealer and first coater for the size coat as specified in the contract and/or to repainting surfaces where cracks in plaster were replastered and/or to the porous and chalky condition of the plaster making it necessary to apply more than three coats of paint as specified, for all of which labor and material the Government received the benefit and for which no compensation has been made.

Mr. RICH. Reserving the right to object, what is the amount of this bill?

Mr. SCHAEFER. There is no amount at all. It permits a claimant to take a case before the Court of Claims.

The SPEAKER. Is there objection?

There was no objection.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

A similar House bill was laid on the table.

COHEN, GOLDMAN & CO., INC.

Mr. PEYSER. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 1041) for the relief of Cohen, Goldman & Co., Inc.

The SPEAKER. Is there objection?

Mr. RICH. Reserving the right to object, Mr. Speaker, what is this relief?

Mr. PEYSER. This is a claim against the Government for $19,030. The Government had a counterclaim of $150,000 and brought suit. The Government claimed this amount that is being asked. They withdraw their suit. I will read from the report. The case came to trial in October 1929, but before trial the Government withdrew. When the suit was called, but before trial, the Government moved to dismiss the case on the ground that the Government, after very thorough investigation, was not able to prove the claim. The amount that we have asked for was allowed by the Government as a credit against their original claim, and they had a suit for the difference. That suit was withdrawn, and the report shows the exact statement, if the gentleman wants to see it.

Mr. RICH. Mr. Speaker, coming in at this late hour with these claims, in the last few minutes of Congress, we are going to have a hard time to get any more bills through to spend money. Therefore I will have to object. I do not think this is right.

The SPEAKER. Objection is heard.

CANAL DREDGING CO.

Mr. CHANDLER. Mr. Speaker, I ask unanimous consent for the immediate consideration of S. 2747, conferring jurisdiction upon the United States Court of Claims to hear the claim of the Canal Dredging Co.

Mr. TABER. Mr. Speaker, reserving the right to object, how much is this going to cost the Federal Government?

Mr. CHANDLER. It is not going to cost anything; there is no cost.

Mr. TABER. The gentleman does not think it will cost anything?

Mr. CHANDLER. It just permits the Court of Claims to hear this claim, but it will not cost anything.

Mr. TABER. How can the Court of Claims act on it without it costing anything?

Mr. CHANDLER. It gives the Court of Claims jurisdiction to hear the merits of the controversy; that is all.

Mr. TABER. If it is not going to cost anything, and if the Court of Claims cannot do anything, I think we had better object. I object.

VALIDATING CERTAIN CONVEYANCES BY KICKAPOO INDIANS

Mr. DISNEY. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (H. R. 12924) validating certain conveyances by Kickapoo Indians of Oklahoma, made prior to February 17, 1933, providing for actions in partition in certain cases.

Mr. SNELL. Mr. Speaker, reserving the right to object, will the gentleman explain this bill?

Mr. DISNEY. The status of the bill is that it has been reported favorably by the House Committee on Indian Affairs. An identical bill has passed the Senate and has been favorably reported by the House Committee on Indian Affairs.

Mr. SNELL. What is the purpose of the bill?

Mr. DISNEY. It involves the question whether or not certain Kickapoo Indian land in Oklahoma is alienable. There is a question as to whether or not those Kickapoos who removed to the nation of Mexico could alienate their land without the restrictions being removed. The land of those aliens who remained within America is inalienable. There was a decision one way in 1921 and an opposite decision in 1931, and five of those farmers down there have got some land they paid for a time or two and are really not sure yet whether they have good title. The Interior Department and the Department of Justice recommend the bill.

Mr. JENKINS of Ohio. Will it cost the Government anything?

Mr. DISNEY. No; it cannot possibly cost anything.

The SPEAKER. Is there objection to the consideration of the bill?

There was no objection.

Mr. DISNEY. Mr. Speaker, I ask unanimous consent to substitute Senate bill 4152 in place of the House bill. It is identical with the House bill.

The SPEAKER. Is there objection to the request of the gentleman from Oklahoma?

There being no objection, the Clerk read the Senate bill, as follows:

Be it enacted, etc., That all conveyances made to Ira L. Couch, A. J. Ownby, Fred L. Rooker, Wallace Estell, Jr., J. D. Shepherd, or any of them, or to their grantors, purporting to convey an inherited interest in Kickapoo lands allotted in Oklahoma in and to the following-described real estate, to wit: The NE¼NW¼, and lot 1 of the NW¼ sec. 19, T. 12 N., R. 2 E.; lot 11, NE¼ sec. 17, and lot 3, NE¼ sec. 18, and lot 3, NE¼ sec. 20, and lot 2, NW¼ sec. 20, and lot 2, NE¼ sec. 18, T. 12 N., R. 1 E.; the N½SE¼ sec. 19, T. 11 N., R. 3 E.; the NW¼SE¼ and lot 2 of the SE¼ sec. 8, T. 12 N., R. 1 E.; lot 4 of sec. 16, lot 5 of sec. 17, and lot 1 of sec. 20, T. 12 N., R. 1 E.; lots 3 and 4 of the NE¼ sec. 7, T. 12 N., R. 1 E.; W½SE¼ sec. 3, T. 11 N., R. 2 E.; E½SE¼ sec. 3, T. 11 N., R. 2 E.; E½NE¼ sec. 10, T. 11 N., R. 2 E.; lots 7 and 8 of the SE¼ sec. 13, T. 11 N., R. 2 E.; the N½SE¼ sec. 4, T. 11 N., R. 2 E., where such instrument or instruments were made after September 11, 1922, and recorded in the office of the registrar of deeds for the county in which said lands are located, prior to February 17, 1933, are hereby ratified and confirmed as valid conveyances of an inherited interest.

SEC. 2. That any such grantee, his heirs or assigns, in any such deed conveying an undivided interest to any part of said land may maintain a suit to partition the same against any restricted Indian who is a part owner of said lands in the United States District

Court for the Western District of Oklahoma in accordance with the law governing partitions in the State of Oklahoma. The United States shall be made a party to such action, and jurisdiction is hereby conferred upon such court to hear and determine such causes, and service may be had on the United States by serving one copy of the petition or bill in equity on the United States attorney for the western district of Oklahoma 41 days before said cause is set for trial, and any conveyance ordered made by said court in such proceedings shall operate to remove all restrictions on the lands conveyed to the grantee therein, except where such grantee is a restricted Indian.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider and a similar House bill (H. R. 12924) were laid on the table.

CLEAR LAKE AND LOST RIVER, CALIF.

Mr. PIERCE. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H. R. 6773) to deepen the irrigation channel between Clear Lake and Lost River, in the State of California, and for other purposes, with a Senate amendment, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Amend the title so as to read: "An act to provide for an investigation to determine whether the water rights of the United States have been violated in the Clear Lake watershed, California, and for other purposes."

Mr. RICH. Mr. Speaker, reserving the right to object, will the gentleman explain the bill?

Mr. PIERCE. This bill affects a water right on the border line between California and Oregon, between the district of the gentleman from California [Mr. ENGLEBRIGHT] and my district. The bill passed the House and went over to the Senate. The gentleman from California [Mr. ENGLEBRIGHT] and I agreed to an amendment to satisfy the Biological Survey and then the Senate amended the title, which should have been done. I am asking that the House accept the Senate amendment.

The bill appropriates no money, but it gives the interested parties the right to use their own funds to settle this question.

Mr. JENKINS of Ohio. To whom does it give authority to use it?

Mr. PIERCE. It settles the rights between these parties.

Mr. JENKINS of Ohio. What parties are they?

Mr. PIERCE. It relates to water rights on the border line between California and Oregon.

Mr. JENKINS of Ohio. The amendment the gentleman agreed to was passed by the Senate, was it?

Mr. PIERCE. Yes; it was passed by the Senate.

Mr. JENKINS of Ohio. And the gentleman now seeks to have the House concur in the Senate amendment?

Mr. PIERCE. Yes.

Mr. RICH. It does not call for the expenditure of any money out of the Federal Treasury?

Mr. PIERCE. It is their own money. No public money is involved.

The SPEAKER. Is there objection to the request of the gentleman from Oregon?

There was no objection.

The Senate amendment was agreed to.

A motion to reconsider was laid on the table.

LABOR-SAVING DEVICES IN INDUSTRY

Mr. CONNERY. Mr. Speaker, I call up House Resolution 49, with an amendment, and ask unanimous consent for its immediate consideration.

The Clerk read the title of the resolution.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

Mr. TABER. Reserving the right to object, I understand the gentleman is prepared to accept the amendment I proposed?

Mr. CONNERY. Yes. I shall offer the amendment as suggested by the gentleman from New York.

Mr. RICH. Will the gentleman yield?

Mr. CONNERY. I yield to the gentleman from Pennsylvania.

Mr. RICH. When does the gentleman expect to have this report made?

Mr. CONNERY. When we come back in January of next year.

Mr. RICH. Not until then?

Mr. CONNERY. No. They are making this investigation now. They have funds under the W. P. A. to run the investigation and we want the data reported to this Congress in January, next year.

Mr. RICH. Then the gentleman will have a 40-hour bill introduced?

Mr. CONNERY. Thirty-hour bill with me.

The SPEAKER. Is there objection?

There was no objection.

The Clerk read the resolution, as follows:

House Resoluton 49

Resolved, That the Secretary of Labor is requested (1) to compile a list of the labor-saving devices, mechanical and otherwise, put in operation in the United States after December 31, 1912, which are still in use; (2) to estimate the number of persons in the United States now unemployed by reason of the use of each kind or type of such devices; (3) to estimate the number of persons who would be employed in the United States in each of the various divisions of industry, commerce, and agriculture, but are not so employed by reason of the use of such devices; and (4) to report his findings in detail in the House of Representatives (or to the Clerk of the House if the House is not in session) during the present Congress, together with such observations and recommendations as the Secretary deems pertinent and useful. Every officer or employee of the United States is requested to supply the Secretary with such information relating to any matter under investigation or study pursuant to this resolution and contained in the records of the office of such officer or employee as the Secretary may request. For the purposes of this resolution, the term "labor-saving devices" includes any improvement, made after December 31, 1912, of a labor-saving device put into operation on or before such date, and the term "United States" means the United States and all territory subject to the jurisdiction thereof.

The committee amendments are as follows:

Page 1, line 1, strike out "is requested" and insert "be required."

Page 1, line 3, after the word "otherwise", insert "such as automatic machinery, machinery in general, conveyors, speed-ups, efficiency methods eliminating loss of time and repetition of motions, monopolies, mergers of industries, and all other means adopted toward reducing the cost of production under our competitive system."

Page 1, line 9, strike out "1912" and insert "1920."

Page 1, line 10, after the word "use", insert "and being constantly improved."

Page 1, line 11, strike out "now", and after the word "unemployed" insert "at the time of completion of such a list."

Page 2, beginning in line 1, after the word "devices", strike out all down to and including the word "thereof" in line 20 and insert the following:

"Or methods in each of the various divisions of industry, commerce, and agriculture in the United States; and (3) to report the findings in properly digested and coordinated detail in the House of Representatives (or to the Clerk of the House if the House is not in session) during the present or the next following Congress, together with such observations and recommendations as the Secretary deems pertinent and useful. Every officer or employee of the United States shall be required to cooperate and to supply the Secretary with such information relating to any matter under investigation or study pursuant to this resolution and contained in the records of the office of such officer or employee as the Secretary may request. Such a list of labor-saving devices are to be kept up to date from year to year, with such additions and revisions as may be dictated by progress and changes in industry, commerce, and agriculture. For the purpose of this resolution the term 'labor-saving devices' includes any improvements, made after December 31, 1920, of a labor-saving device or method put into operation on or before such date, and the term 'United States' means the United States and all the territory subject to the jurisdiction thereof."

The committee amendments were agreed to.

Mr. CONNERY. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. CONNERY: Page 3, line 16, to the committee amendment, after the word "thereof", insert "*Provided, however*, That the request for this information and compilation shall be limited to such information and such compilations as may be accomplished by relief labor or allotments of relief funds from appropriations already made."

The amendment was agreed to.

The resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

APPOINTMENT OF ADDITIONAL CIRCUIT JUDGE FOR THE THIRD CIRCUIT

Mr. WALTER. Mr. Speaker, I move to suspend the rules and pass the bill (S. 4457) authorizing the appointment of an additional circuit judge for the third circuit.

The Clerk read the bill, as follows:

Be it enacted, etc., That the President of the United States is authorized and directed, by and with the advice and consent of the Senate, to appoint an additional circuit judge of the United States Circuit Court of Appeals for the Third Circuit, who shall possess the same powers, perform the same duties, and receive the same compensation as the present circuit judges of said circuit.

SEC. 2. That when a vacancy shall occur in the office of circuit judge for the third circuit, by the retirement, disqualification, resignation, or death of a circuit judge at present in commission, such vacancy shall not be filled, and thereafter there shall be but four circuit judges in the said circuit.

SEC. 3. That this act shall take effect upon its approval by the President.

The SPEAKER. Is a second demanded?

Mr. SNELL. Mr. Speaker, I demand a second.

Mr. WALTER. Mr. Speaker, I ask unanimous consent that a second may be considered as ordered.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The SPEAKER. The gentleman from Pennsylvania [Mr. WALTER] is recognized for 20 minutes and the gentleman from New York [Mr. SNELL] is recognized for 20 minutes.

Mr. WALTER. Mr. Speaker, in an endeavor to provide adequately for the several districts in the United States where it was represented to the Judiciary Committee that additional judges were needed, a subcommittee was selected for the express purpose of very carefully considering these several bills. In all, there were approximately 30 bills presented to this subcommittee of the Committee on the Judiciary.

After a very careful consideration of each of these bills, eight were reported favorably. In all but one case, and that bill has not been considered, the report of the committee was unanimous.

In this particular circuit, having a population, as it does, of nearly 9,000,000 people, one of the judges is upward of 80 years of age. He has not been on the bench for nearly 2 years. The result has been that opinions have not been handed down with the promptness that members of the bar throughout the circuit and the litigants felt they should have been.

Mr. TABER. Will the gentleman yield?

Mr. WALTER. I yield to the gentleman from New York.

Mr. TABER. If this judge is 80 years old and has not sat for 2 years, what is needed in that district is retirement of that judge and the appointment of another one. It would seem as if the gentleman does not present a situation that would justify the permanent appointment of a judge.

Mr. WALTER. This bill does not provide for the permanent appointment of a judge. It provides for the appointment of an additional judge and upon the death, resignation, or removal of any of the present judges the number will revert to the present number.

Mr. JENKINS of Ohio. Will the gentleman yield?

Mr. WALTER. I yield to the gentleman from Ohio.

Mr. JENKINS of Ohio. Is this not the sort of situation that exists: Here is an old man on the bench and he will not retire?

Mr. WALTER. Yes.

Mr. JENKINS of Ohio. And nobody has the nerve to go and ask him to retire?

Mr. WALTER. I do not know about that.

Mr. JENKINS of Ohio. You better take word back to him it is the unanimous suggestion of this Congress that he retire.

Mr. O'CONNOR. Will the gentleman yield?

Mr. WALTER. I yield to the gentleman from New York.

Mr. O'CONNOR. We brought in a rule for the consideration of about seven judgeships. I understand this is the only outstanding instance that was not taken care of in accordance with the action of the gentleman's committee.

Mr. WALTER. That is the fact.

Mr. SNELL. I did not understand the gentleman's question.

Mr. O'CONNOR. The Judiciary Committee asked for a rule covering about seven judgeships. We granted the rule and those bills were passed. This is the only instance that was not taken care of at that time under the rule. We would have taken care of this proposition——

Mr. SNELL. What is the reason this one was not included?

Mr. WALTER. It was overlooked in the preparation of the reports on the other bills. That is the only reason.

Mr. SNELL. Does this come as a unanimous report from the Judiciary Committee?

Mr. WALTER. The bill was reported unanimously by the committee and I may say to the gentleman that the gentleman from Pennsylvania [Mr. WILSON], a member of the Judiciary Committee on your side, who is one of the leading members of the bar in this circuit, urged most strenuously the passage of this measure.

I do not know whether it is ever going to be possible for us to meet the situation where judges will not resign when they are incapacitated for some reason or other. It is a very difficult problem but under the existing law there is nothing for us to do when situations of this sort exist but to take the action I am earnestly seeking the House to take. We owe a duty to the citizens of our Nation to afford them speedy disposition of their causes and I am quite certain that the Committee on the Judiciary would only report a bill of this sort if it was certain of the need therefor.

Mr. COX. Mr. Speaker, will the gentleman yield to me?

Mr. WALTER. Yes; I yield.

Mr. COX. I have not been able fully to understand the words of the gentleman. Do I understand that an 84-year-old judge in Pennsylvania is about worn out?

Mr. WALTER. I do not know about that, but I do know that he has been on the bench for many years.

Mr. COX. I may say to the gentleman that in some States they are not worn out at 94, because North Carolina is sending one to the convention next week who is 94 and he is attending the convention with his 6-year-old son. [Laughter.]

Mr. WALTER. That is probably because of the difference in the climate, and I trust an example has been set for my friend from Georgia.

The question was taken; and two-thirds having voted in favor thereof, the rules were suspended and the bill was passed, and a motion to reconsider was laid on the table.

OBSCENE BROADCASTS

Mr. CONNERY. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD and to include therein a letter from the Solicitor of the Post Office Department and the law to which he refers in this letter.

Mr. RICH. Mr. Speaker, reserving the right to object, what is the subject of the Solicitor's letter?

Mr. CONNERY. I may say to my friend from Pennsylvania that he will recall that a day or two ago I called the attention of the House to obscene matter spoken over the radio in New York City.

Mr. RICH. Mr. Speaker, we do not want to see such obscene matter in the RECORD, and therefore I shall have to object.

Mr. CONNERY. Mr. Speaker, if the gentleman will withhold his objection for a moment I may explain that I asked the Post Office Department whether this matter would be allowed to go through the mails, and they said "no"; and that is what the letter referred to.

Mr. RICH. Then, Mr. Speaker, I withdraw my objection.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. CONNERY. Mr. Speaker, under the unanimous consent extended to me, I direct attention to the address which I delivered on the floor of the House on June 17 last.

At that time, Mr. Speaker, I directed the attention of the Congress to the fact that, contrary to the written language of the Communications Act of 1934, those to whom we had entrusted the enforcement of the Communications Act had failed, apparently willingly, to protect the American people from the intrusion into their homes of radio broadcasts which are profane, obscene, or indecent.

While several Members of the House who had the opportunity of reading copies of these radio broadcasts which I at that time exhibited on the floor readily agreed that such were obscene, profane, or indecent, it might be contended by some that such opinions were not in themselves legal or sufficient.

In order that no injustice be done, and, further, that I might myself be positive as to these broadcasts being obscene, profane, or indecent within the meaning of the law I submitted these broadcasts to the Government itself for an official interpretation.

Naturally, desiring a speedy response, I did not make such request to the Communications Commission, which had had copies of these and similar broadcasts before them for a considerable period of time without their taking any action thereon. However, as the language enacted by the Congress in the Communications Act, prohibiting the utterance of profane, obscene, or indecent language by means of radio communications, followed the decisions of the courts in matters prohibiting the mailing of profane, obscene, or indecent matter, I sent a copy of these broadcasts to the Post Office Department and asked if copies of these radio broadcasts could be transmitted through the mails.

The Post Office Department, through the Solicitor, without delay or hesitancy, the same day, replied in writing that copies of these radio broadcasts were not mailable and cited the law, which, in part, reads as follows:

> Every obscene, lewd, or lascivious, and every filthy book, pamphlet, picture, paper, letter, writing, print, or other publication of an indecent character * * * is hereby declared to be nonmailable matter and shall not be conveyed in the mails or delivered from any post office or by any letter carrier.

The letter of the Solicitor of the Post Office Department is self-explanatory and reads, in full, as follows:

> POST OFFICE DEPARTMENT,
> OFFICE OF SOLICITOR,
> *Washington, June 18, 1936.*
>
> Hon. WILLIAM P. CONNERY, JR.,
> *House of Representatives.*
>
> MY DEAR MR. CONNERY: The Postmaster General has referred to me your letter of the 18th instant, transmitting for a ruling as to its mailability a copy of a radio dramatic sketch recently broadcast over the air.
>
> This matter has been carefully considered and it is the opinion of this office that the copy in question is unmailable under section 211 of the United States Penal Code (18 U. S. C. 334), a copy of which I am pleased to enclose herewith for your convenient reference.
>
> Very truly yours,
>
> KARL A. CROWLEY, *Solicitor.*

Section 326 of the Communications Act, in part, reads as follows:

> No person within the jurisdiction of the United States shall utter any obscene, indecent, or profane language by means of radio communication.

The illustrations which I have cited and the radio broadcasts which the Solicitor of the Post Office Department ruled upon, I regret to say, are not isolated cases.

A year or so ago when 15 Members of the House joined with me in protesting against similar indecent radio programs sponsored and paid for by the Mexican Government over one of the principal American radio networks, the Federal Communications Commission not only failed to act on the petition and the protest of these 15 Members of the House but, actually, they had the effrontery of openly attempting to deceive these Members of the House by citing as a reason for their failure to protect the homes of the American people from the intrusion therein of these indecent radio programs language in a court decision, which language and which court decision was proclaimed many years before radio broadcasting was known.

Variety, a well-known and well-established theatrical publication, which, to say the least, is liberal in its views and not at all prudish, in its issue of April 17, 1935, referring to a broadcast over one of the principal radio networks, in part, stated:

> Letters and phone calls received by the web direct and through its associated stations described the screen players' material as profane and offensive to both religion and decency and took the broadcasters to task for not considering the young people who might be tuned in. In it the Deity and Savior were addressed familiarly and repeatedly.

Petitions and protests of representatives of the church, of women's organizations, of the people against such indecent radio utterances seemingly meet with silent consideration on the part of the Federal Communications Commission.

Apparently those we have entrusted with the regulation and the supervision of radio broadcasting either are unwilling or unable to protect the American people from the intrusion into their homes of indecent, profane, or obscene radio programs so long as someone will pay the radio broadcasting stations for broadcasting such indecent radio programs.

These un-American and indecent radio utterances are never broadcast by those few radio stations operated by educational, religious, labor, farm, or other non-profit-making stations.

Those who seek to expand and to increase culture, education, and understanding among our people meet with the icy stare or the silent treatment when they seek a license to operate a radio broadcasting station or to increase the facilities of the small stations they are now permitted to operate.

Mr. Speaker, the Congress has specifically prohibited a monopoly in radio broadcasting—section 314, Communications Act—and yet we find today, less than 1 year since the Federal Communications Commission was appointed, that of the 40 clear-channel stations in the entire United States every one of them is controlled or operated by one of the three networks.

While the Government of the United States issues through the instrumentality of the Federal Communications Commission a franchise for the operation of radio broadcasting stations, such franchise being granted to the holder without any remuneration accruing the the Government despite the great need which exists today for revenue, the present Commission has permitted—yes, I might say, encouraged—the trafficking in these governmental properties for the enrichment of the privileged few who hold favor with the members of this governmental agency, namely, the Federal Communications Commission.

The Chairman of the Federal Communications Commission, testifying before the House Appropriations Committee December 6, 1935, stated that holders of such radio broadcasting franchises were disposing of such franchises for prices which were "far and beyond the value of their assets." The Chairman further stated:

> I know of a case where within 6 months a corporation able to pay offered $3,000,000 for one station. Now, of course, that station has no such value.

Is it not fair to assume that the admission above quoted proves that the Commission has first-hand knowledge of the trafficking which is going on in governmental properties, and yet nothing has been done to protect the Government since last December?

Further, the Chairman stated:

> Another thing is the possibility of a racket following this thing in the way of stock issues. They are beginning to get wise to the fact that they might by a stock issue still retain control of their stations and sell enough stock to not only pay the cost of the station but some profit in addition to that. * * * Now, just how much they can issue before they get into the value of the license given them by the Government, for which they pay nothing, is a question.

Yet almost weekly the same Commission, the Chairman of which gave utterance to the above quotations, is approving the leasing or the assigning, for prices far beyond the

value of their assets, other than the value attached to the governmental franchise, which, as the Chairman stated, costs them nothing, of radio stations to one or the other of those who, to all intents and purposes, hold a monopolistic control of radio broadcasting in the United States despite the prohibition against monopoly contained in the very act which this Commission has been entrusted with the enforcement of.

A few years ago the Catholic Church, aided by the Protestant Churches and those representing the Hebrew people, alarmed at the indecency of several motion pictures, initiated a movement to have the American people abstain from patronizing those theaters which exhibited pictures which were indecent or not fit for the young people to see.

The result of that campaign was that but very few indecent pictures are now produced, as a result of the American people so decidedly indicating that they would support the campaign initiated by the Catholic Church.

It is not at all improbable that the American people may find it necessary, unless the Congress acts—as I expect that they will—to take similar action by refusing to purchase the products of those concerns who use the radio facilities of such radio stations as permit the broadcasting of indecent or otherwise unfit radio programs.

In closing I might add that where the Government itself owns and operates radio-broadcasting stations—as in Great Britain and Canada—and where no advertising is permitted, such indecent radio programs are unknown.

WILLIAM H. MORAN

Mr. RAMSPECK. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4659) to authorize the payment of an annuity to William H. Moran, Chief of the Secret Service Division of the Treasury Department, upon his retirement, in recognition and appreciation of his services to the United States.

The Clerk read the title of the bill.

Mr. SNELL. Mr. Speaker, I shall be obliged to object to this bill, but if the gentleman desires to explain the bill, I shall reserve the objection.

Mr. RAMSPECK. Mr. Speaker, I may say that this is a request from the Treasury Department and I introduced the bill at their request. It has the approval of the Budget and I understand is in line with the policy of the President.

Mr. SNELL. Let me say a word with regard to that. We spent a number of years here in the establishment of a retirement system for Government employees, and this is the first instance, so far as I know, where an effort has been made to retire a man by special legislation, rather than under the regular retirement system, and whether the Treasury Department is favorable to this or not does not materially influence me. It seems to me if you are going to start the precedent of retiring a person because he has influence and friends for whom he has done special favors, you are going to start a very harmful practice. I am saying nothing against this particular man, because I understand he has a fine record, but, individually, I am opposed to it. If the majority that is responsible for the work of this House wants to take this responsibility, of course, it is theirs.

Mr. RANKIN. Mr. Speaker, I do not think this proposition ought to be taken up at this time in the dying hours of the Congress to retire some man who has been on the pay roll for a number of years and has had the same opportunities as other Government employees.

Mr. RAMSPECK. Mr. Speaker, I demand the regular order.

Mr. O'MALLEY. I object, Mr. Speaker.

Mr. RAMSPECK. Mr. Speaker, I move to suspend the rules and pass the bill (S. 4659) to authorize the payment of an annuity to William H. Moran, Chief of the Secret Service of the Treasury Department, upon his retirement, in recognition and appreciation of his services to the United States.

The Clerk read the bill, as follows:

Be it enacted, etc., That in recognition and appreciation of 53 consecutive years of faithful, courageous, and meritorious service in the Secret Service Division of the Treasury Department, the last 18 years of which were served in the capacity of Chief of such Division, the Secretary of the Treasury be, and he is hereby, authorized and directed to pay to William H. Moran, out of the annual appropriation "Salaries, Secret Service Division", beginning upon his retirement and continuing throughout his natural life, in semimonthly installments on the fifteenth and last days of each month, such sum as may be necessary, when added to the annuity which he will receive under the laws relating to the retirement of Government employees, to secure to him a total annuity of $4,000.

The SPEAKER. Is a second demanded?

Mr. JENKINS of Ohio. Mr. Speaker, I demand a second.

Mr. RAMSPECK. Mr. Speaker, I ask unanimous consent that a second be considered as ordered.

The SPEAKER. Is there objection?

There was no objection.

The SPEAKER. The gentleman from Georgia is entitled to 20 minutes and the gentleman from Ohio to 20 minutes.

Mr. RAMSPECK. Mr. Speaker, this bill proposes the payment to William H. Moran, when he retires, which will be on January 1, next year, in addition to his ordinary retirement under the Civil Service Retirement Act, a sufficient amount to make his total annuity $4,000. The additional amount will come out of the salary appropriation and not out of the civil-service retirement fund. This gentleman has served continuously for 53 years in the Secret Service of the United States Government.

Mr. JENKINS of Ohio. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. Yes.

Mr. JENKINS of Ohio. Is there any instance on record where anything like this has been done before, or will this create a precedent?

Mr. RAMSPECK. I cannot answer that. I have been here only 7 years myself, but I do know there are cases where men are continued on the roll by special provision in an appropriation bill. I do not know that there is an exact precedent for this. I would not say there is or is not.

Mr. BLANTON. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. Yes.

Mr. BLANTON. This, I am sure, will establish a bad precedent that will cause at least 20,000 bills to come in here in the next few Congresses. It ought not to pass.

Mr. RAMSPECK. The Treasury Department, the Bureau of the Budget have approved it. It was sent up here, and I was requested to introduce it by the Secretary of the Treasury. It has the approval of the President, and they feel that because of the peculiar circumstances involved in this one case the bill ought to pass. I do not know of any other case where a man has served continuously 53 years for the Government in one department in a hazardous position. I do know that in one case this man saved the Government $80,000,000 by detecting a bond fraud.

Mr. O'MALLEY. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. Yes.

Mr. O'MALLEY. The precedent which this bill will establish—and the gentleman says he does not remember a bill like this having been passed before—will bring a flood of Government employees who may not be covered by the annuity laws who feel that they are not getting enough, and they will pounce down on each individual Congressman and ask him to introduce that kind of a bill.

Mr. RAMSPECK. I do not think the gentleman will find any other man in the service who has continuously served for 53 years in one branch of the Government service, who is now 72 years of age, and who in the ordinary course of events will not be with us much longer. It is customary in the cities throughout the country to retire police chiefs on half their salary. This gentleman will get only $4,000 if this bill is passed for the remainder of his life.

Mr. GILCHRIST. What is his salary now?

Mr. RAMSPECK. His salary is $8,000 a year.

Mr. MAY. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. Yes.

Mr. MAY. During the 53 years that he has served, of course the Government has deducted from his pay monthly and laid up that sum in a fund which will be given to him under the Retirement Act.

Mr. RAMSPECK. Yes.

Mr. MAY. And what does that amount to at the present time?

Mr. RAMSPECK. He will get $1,375 a year in the ordinary course of retirement from that fund.

Mr. O'CONNOR. He will get only $1,375 a year while captains and other subordinates under him will get much more because they are in the Metropolitan Police division. Some of the captains under Mr. Moran in the White House will get $1,800 a year. If Mr. Moran were the head of the police of the District and retiring, he would get $4,000 a year.

Mr. RAMSPECK. That is correct. If he were the Chief of Police in the District of Columbia and retiring, he would get $4,000 a year, which is under the law authorized by Congress.

Mr. McCORMACK. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. Yes.

Mr. McCORMACK. How many lives of our Presidents has Chief Moran and his department protected under his command?

Mr. RAMSPECK. He goes back 53 years and for 7 months he was in Europe with President Wilson and looked after his protection. I do not know how many Presidents he has protected. It goes back further than I can remember.

Mr. LUDLOW. Would the gentleman tell the House how many important investigations this efficient official has conducted which have resulted in the saving of many, many millions of dollars to this Government? I ask this question because I happen to know that in the oil investigation, for instance, one of the many important investigations of which he had charge, his efficient services unearthed evidence that enabled this Government to rescue a treasure of enormous value. I believe Chief Moran is entitled to the relief which this bill provides and I wish the gentleman from Georgia would tell us how many of these investigations of enormous importance to the country he has conducted in his long public service.

Mr. RAMSPECK. I don't know how many, but I know there have been a great many. I know of one case where he saved the Government $80,000,000.

Mr. BLANTON. Mr. Speaker, will the gentleman yield?

Mr. RAMSPECK. Yes.

Mr. BLANTON. I call the gentleman's attention to the case of Mr. George W. Hesse.

Mr. RAMSPECK. Oh, I yield to the gentleman for a question and I do not want to go into the facts of other cases.

Mr. BLANTON. But I want the gentleman to remember the case of George W. Hesse, who had served many years so faithfully, and when his case came up the point was made that it would establish a bad precedent. Our good friend Andy Smith, whom we all love, has served this Government 59 years and he will not get any additional pension. We must not establish this bad precedent. It would cost millions of dollars in every future Congress.

Mr. RAMSPECK. I am glad that he is still with us. I do not yield further. I yield now to the gentleman from West Virginia.

Mr. RANDOLPH. The members of the Civil Service Committee, of which I am one, and of which the able gentleman is chairman, gave very careful consideration to this special case. In the gentleman's opinion it is not a dangerous precedent to give to those in this Government who have given meritorious service, this recognition, is it?

Mr. RAMSPECK. I think not, because of the peculiar circumstances involved in this one case and because of the hazardous service he has rendered and the age he has reached now and the long years of service he has rendered.

Mr. DONDERO. Will the gentleman yield?

Mr. RAMSPECK. I yield.

Mr. DONDERO. I think what all of us want to know is how much does he get under the retirement fund and how much more will he get under this bill, to make up the $4,000 a year?

Mr. RAMSPECK. Under the regular retirement fund he will get $1,375 a year.

Mr. DONDERO. So he would have an increase of $2,625?

Mr. RAMSPECK. Two thousand six hundred and twenty-five dollars from the salary fund, making a total of $4,000. His salary is now $8,000. If he were chief of police of the District of Columbia and retired, he would get $4,000 a year. That is the law that Congress passed for that.

Mr. Speaker, I reserve the balance of my time.

Mr. JENKINS of Ohio. Mr. Speaker, I feel it is absolutely unnecessary to debate this case any further, because I think everybody is ready to vote. Regardless of the fact that this gentleman is a most efficient officer, we must remember that he has done no more than was his reasonable duty.

For fear there might be some who do not know what this bill is about, let me read three or four lines in the last part of the bill.

> Beginning upon his retirement and continuing throughout his natural life, semiannual payments on the fifteenth and last days of each month, such sum as may be necessary, when added to the annuity which he will receive under the laws relating to the retirement of Government employees, to secure him a total annuity of $4,000.

It has been made very clear that there never yet has been any precedent for this sort of action. We are trying tonight to do something which we have never done before. As the gentleman from Texas said, it is safe to predict that we will have thousands of these cases every year. So why open the floodgates?

The argument by the distinguished majority floor leader, Mr. O'CONNOR, applies to thousands of people. The gentleman says this man will be discriminated against because there are some younger men in the service who, when they arrive at the age of retirement, will draw more than he will draw. Every year there are hundreds of men going out who have reached the age of retirement, who will not draw as much as those who will follow them. So if you start this program to equalize persons thus classified, you will have a thousand coming in here every year asking for equalization. They then should do so—this bill deserves to be overwhelmingly defeated. I am sure that will be your decision. [Applause.]

Mr. Speaker, I yield to the gentleman from Missouri [Mr. SHORT], such time as he may desire.

Mr. SHORT. Mr. Speaker, it seems altogether unnecessary and superfluous that anyone should rise in opposition to this bill, which on the face of it is inherently bad.

We are now approaching the close of a prolonged and arduous session of this Congress. Gay as our hearts may be and happy as we may be in the camaraderie that pervades this body, that is unequaled among any other group in all the world, our hearts are sad tonight because of the absence of one of the most able, one of the most fearless, one of the fairest, one of the most lovable Speakers who ever presided over this body, Joe Byrns. There is no Member, regardless of party, who has a higher personal regard or a more genuine affection for our present Speaker, Hon. WILLIAM B. BANKHEAD.

But, Mr. Speaker, I want to say that having sat through the sessions for the last 2 days I have been somewhat dismayed and more displeased at certain tactics that have been employed in the closing hours of this session.

As just one humble Member of this House, I deplore from the bottom of my heart the fact that important legislation is brought in at the last moment and is passed without being read, let alone considered by the membership of this House. It seems to me that this bill is just another illustration of Members who are now tired, fatigued, and worn, anxious to adjourn and go back to their homes, rushing through legislation without serious consideration or ample debate.

I am heartily in accord with the gentleman from Texas [Mr. BLANTON] and the gentleman from Ohio [Mr. JENKINS], who has just spoken, and with the distinguished gentleman from Mississippi [Mr. RANKIN], who now occupies the chair. I do not know why he was placed in the chair at this particular moment unless they did not want to hear his opposition to this bill. [Applause.] I am in accord with them when they say this would establish a dangerous and a bad precedent,

and as just one Member I hope we shall forget all our differences long enough to register a unanimous protest against such proposed legislation.

Mr. RAMSPECK. Mr. Speaker, I yield 5 minutes to the gentleman from Massachusetts [Mr. McCORMACK].

Mr. McCORMACK. Mr. Speaker, it is rather amusing to listen to the argument of the gentleman from Missouri who has just spoken. He first talks about legislation coming in at the last minute. The gentleman talks about legislation coming in at the last minute and that he has not had an opportunity of reading the bill. The bill has been printed for a long while. Well, the gentleman has not served in a Republican-controlled House. I have.

Mr. SHORT. Mr. Speaker, will the gentleman yield?

Mr. McCORMACK. Yes.

Mr. SHORT. I do not know how much I served, but I was here in the Seventy-first Congress, and that was almost Republican, just as the Seventy-fifth Congress will be. [Applause.]

Mr. McCORMACK. I can hear the gentleman very plainly. What my friend predicts about the Seventy-fifth Congress is something that will occur in the future and rests with the voters.

The gentleman talks about legislation coming in at the last minute. Now, let us be frank. That is one of the conditions of the closing days of any session, whether the Republicans control the House or the Democrats control the House. I was not critical of my Republican friends when they were in control. It is a condition that confronts whatever party is in control of the House.

The gentleman talks also about the distinguished gentleman from Mississippi [Mr. RANKIN], and, of course, from his intimation, he wants us to infer that the Speaker called the distinguished gentleman from Mississippi to preside in order to take his voice away from this debate. I do not think that becomes the gentleman either, in addition to his other statements.

So far as Chief Moran is concerned, this bill does not establish any precedent. Fifty-three years in the service of the Government, all his life devoted to the service of Presidents, whether Republican or Democratic—Presidents of the United States. I do not look at the President from the angle of Republican or Democrat. This man served 53 years protecting the lives of the Presidents of the United States, 18 of those years as Chief of the Secret Service. During this time, as Chief of the Secret Service, he protected the lives of six Presidents of the United States. It seems to me that such service makes this bill a justifiable exception.

This money does not come out of the retirement fund. He receives no more out of the retirement fund than he would receive by law. The extra money is provided out of another fund. This bill, therefore, does not establish a precedent so far as the retirement fund is concerned.

[Here the gavel fell.]

The SPEAKER pro tempore (Mr. RANKIN). The question is, Shall the rules be suspended and the bill be passed?

The question was taken; and on a division (demanded by Mr. RAMSPECK) there were—ayes 36, noes 125.

So, two-thirds not having voted in favor thereof the motion was rejected.

UNION PARTY PLATFORM AND STATEMENT OF WILLIAM LEMKE, CANDIDATE FOR PRESIDENT

Mr. LUNDEEN. Mr. Speaker, I ask unanimous consent to insert in the CONGRESSIONAL RECORD the statement and platform of the Honorable WILLIAM LEMKE, Union Party candidate for President of the United States. I believe the country is entitled to statements from all Presidential candidates. Their platforms and programs should all be published in the RECORD for the information of the public.

The SPEAKER. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

Mr. LUNDEEN. Mr. LEMKE's statement and the platform follow:

I have accepted the challenge of the reactionary elements of both of the old parties and will run for President of the United States as the candidate of the Union Party, in accordance with the thousands of messages and requests which I have received from over the Nation.

The Honorable Thomas Charles O'Brien, of Boston, has signified his willingness to seek the Vice Presidency on the same platform.

I have arranged with friends of mine to proceed with filing the name of the Union Party, the emblem, the names of Presidential electors, my own name, and that of Mr. O'Brien in order to fulfill the specific law of each State relative to filing.

I am hoping that the platform which I have submitted to my friends will meet with wide approval. To my own mind, it is the only platform which will embody the principles which will save democracy and put a permanent end to the so-called depression.

Some three-quarters of a century ago this Nation was at the crossroads. The issue of human slavery confronted our people. A decision as to whether the Nation should remain half free or half slavery had to be made. Political parties of that day temporized with the issue of human slavery and brought about the Civil War and incidentally the formation of a new party headed by Abraham Lincoln, dedicated to the preservation of the Union and elimination of human slavery.

Today we are again at the crossroads and the issue again is slavery—economic slavery. Today we are in the midst of another war—a war against a man-made depression. It has reduced our Nation to the lowest economic state in its history, leaving a trail of suffering, starvation, and want in a land of plenty. Two major parties have had ample opportunity to seriously attempt to remedy the economic ills of our Nation. They have been found wanting.

There is only one solution. That is through the formation of a new party, which I am launching today, to be known as the Union Party of the United States.

CONGRESSIONAL CAMPAIGN

As far as the election of Members of Congress is concerned, the Union Party will support Members who voted for progressive and liberal legislation, for the farmer, labor, veterans, and the small-business man, including the Frazier-Lemke bill, regardless of party or party affiliation.

WILLIAM LEMKE.

UNION PARTY PLATFORM

1. America shall be self-contained and self-sustained—no foreign entanglements, be they political, economic, financial or military.

2. Congress and Congress alone shall coin and issue the currency and regulate the value of all the money and credit in the United States through a central bank of issue.

3. Immediately following the establishment of the central bank of issue Congress shall provide for the retirement of all tax-exempt, interest-bearing bonds and certificates of indebtedness of the Federal Government and shall refinance all the present agricultural mortgage indebtedness for the farmer and all the home mortgage indebtedness for the farmer and all the home mortgage indebtedness for the city owner by the use of its money and credit which it now gives to the private bankers.

4. Congress shall legislate that there will be an assurance of a living annual wage for all laborers capable of working and willing to work.

5. Congress shall legislate that there will be an assurance of production at a profit for the farmer.

6. Congress shall legislate that there will be assurance of reasonable and decent security for the aged, who, through no fault of their own, have been victimized and exploited by an unjust economic system which has so concentrated wealth in the hands of a few that it has impoverished great masses of our people.

7. Congress shall legislate that American agricultural, industrial, and commercial markets will be protected from manipulation of foreign moneys and from all raw material and processed goods produced abroad at less than a living wage.

8. Congress shall establish an adequate and perfect defense for our country from foreign aggression either by air, by land, or by sea, but with the understanding that our naval, air, and military forces must not be used under any consideration in foreign fields or in foreign waters either alone or in conjunction with any foreign power. If there must be conscription, there shall be a conscription of wealth as well as a conscription of men.

9. Congress shall so legislate that all Federal offices and positions of every nature shall be distributed through civil-service qualifications and not through a system of party spoils and corrupt patronage.

10. Congress shall restore representative government to the people of the United States to preserve the sovereignty of the individual States of the United States by the ruthless eradication of bureaucracies.

11. Congress shall organize and institute Federal works for the conservation of public lands, waters, and forests, thereby creating billions of dollars of wealth, millions of jobs at the prevailing wage, and thousands of homes.

12. Congress shall protect small industry and private enterprise by controlling and decentralizing the economic domination of monopolies to the end that these small industries and enterprises may not only survive and prosper but that they may be multiplied.

13. Congress shall protect private property from confiscation through unnecessary taxation with the understanding that the human rights of the masses take precedence over the financial rights of the classes.

14. Congress shall set a limitation upon the net income of any individual in any one year and a limitation of the amount that such an individual may receive as a gift or as an inheritance, which limitation shall be executed through taxation.

15. Congress shall reestablish conditions so that the youths of the Nation, as they emerge from schools and colleges, will have the opportunity to earn a decent living while in the process of perfecting and establishing themselves in a trade or profession.

SURVEY OF CABINET GORGE ON THE CLARK FORK OF THE COLUMBIA RIVER

Mr. WHITE. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4062) to provide for a survey of the Cabinet Gorge on the Clark Fork of the Columbia River.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Idaho?

Mr. SNELL. Mr. Speaker, reserving the right to object, may we have the entire bill read at this time?

The Clerk read the bill, as follows:

Be it enacted, etc., That (a) in accordance with the provisions of the act of June 17, 1902 (32 Stat. L. 388), known as the reclamation law, and acts amendatory thereof or supplementary thereto, the Secretary of the Interior is hereby authorized and empowered to make surveys and investigations to (1) determine the power markets that might be served from a suitable hydroelectric power project at the Cabinet Gorge site on the Clark Fork of the Columbia River in the proximity of the Montana-Idaho State line; and (2), provided such markets can be developed, to make further investigations to determine the design and cost of a dam to be constructed at said site.

(b) The Secretary of the Interior shall submit to the President and Congress a report, together with his recommendations on the investigations herein authorized, not later than 8 months from the date of the enactment of this act.

SEC. 2. There is hereby authorized to be appropriated out of any moneys in the reclamation fund, not exceeding $25,000 for the purpose of carrying out the provisions of this act.

The SPEAKER. Is there objection to the request of the gentleman from Idaho?

Mr. SNELL. Mr. Speaker, I object.

Mr. WHITE. Mr. Speaker, I move to suspend the rules and pass the bill (S. 4062) to provide for a survey of the Cabinet Gorge on the Clark Fork of the Columbia River.

The SPEAKER. Is a second demanded?

Mr. TABER. Mr. Speaker, I demand a second.

Mr. RANKIN. Mr. Speaker, I ask unanimous consent that a second may be considered as ordered.

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

Mr. SNELL. Mr. Speaker, I object.

The SPEAKER. The question is on ordering a second; and the Chair appoints the gentleman from Idaho [Mr. WHITE] and the gentleman from New York [Mr. TABER] to act as tellers.

The question was taken; and the tellers reported there were—ayes 91, nays 49.

So a second was ordered.

The SPEAKER. The gentleman from Idaho is recognized for 20 minutes.

Mr. WHITE. Mr. Speaker, the original purpose of this bill was to provide for a study and survey of the Cabinet Gorge project in order to determine whether a hydroelectric plant may be built at Cabinet Gorge and power used to pump water to rehabilitate five or six existing irrigation districts that are in distress on account of lack of water because their source of supply is failing. The lakes and wells are drying up and there is a shortage of water.

It is the purpose of this bill to make the necessary surveys and investigations to determine if it is practical and feasible to generate power at Cabinet Gorge and use it to rehabilitate these projects. The bill has the approval of the Secretary of the Interior and the Director of the Budget. It has been passed by the Senate and has been approved by the Committee on Irrigation and Reclamation of the House, of which I have the honor of being chairman. The committee report on this bill has been written by a member of the minority. Therefore I feel the bill is entirely in order and merits the support of the Members of the House.

Mr. KVALE. Will the gentleman yield?

Mr. WHITE. I yield to the gentleman from Illinois.

Mr. KVALE. Does this involve the Flathead power system on the Flathead Indian Reservation?

Mr. WHITE. It has nothing to do with the Flathead Indian Reservation.

Mr. KVALE. It has nothing to do with the Yellowstone Basin at all. It has to do with waters that flow to the coast?

Mr. WHITE. It does. This bill has been approved all down the line and simply provides that money shall be used out of the reclamation fund to determine the practicability and feasibility of the project and rehabilitate these irrigation projects, and these old settlements will be restored and an abundant supply of water provided.

Mr. LAMNECK. Will the gentleman yield?

Mr. WHITE. I yield to the gentleman from Ohio.

Mr. LAMNECK. How much will this project cost if finally approved?

Mr. WHITE. That is exactly the reason for the introduction of this bill.

Mr. LAMNECK. Is it true that it will cost $263,000,000?

Mr. WHITE. That is absolutely absurd.

Mr. LAMNECK. I am taking the words of the chairman of the Appropriations Committee.

Mr. WHITE. I do not know where the Appropriations Committee chairman got his figures. It is absurd.

Mr. FULMER. Will the gentleman yield?

Mr. WHITE. I yield to the gentleman from South Carolina.

Mr. FULMER. Is it not a fact this money will come out of the reclamation fund and not the Treasury?

Mr. WHITE. That is the fact.

Mr. FULMER. If it is impossible to impound that water by building a dam, it will mean millions, no doubt, to the farmers in a number of irrigation projects that may eventually have to be abandoned unless they can get water?

Mr. WHITE. The gentleman is correct. The first object of the bill is to rehabilitate these irrigation projects and maybe extend it to the adjoining territory.

Mr. TABER. Will the gentleman yield?

Mr. WHITE. I yield to the gentleman from New York.

Mr. TABER. How much does the gentleman say this project will cost?

Mr. WHITE. I would not know until the surveys had been made and a determination reached. The purpose of this bill is to ascertain how much it will cost and the feasibility and practicability of the whole thing.

Mr. KNUTSON. Should we not wait until we have had an examination made? And where is the money coming from?

Mr. WHITE. I may say to the gentleman from Minnesota what we are seeking to do is to authorize the Bureau of Reclamation to make the surveys and determinations.

Mr. WOODRUFF. Will the gentleman yield?

Mr. WHITE. I yield to the gentleman from Michigan.

Mr. WOODRUFF. Mr. Speaker, I am interested to know whether or not in connection with this proposed project there are to be any new arid lands brought into production through irrigation?

Mr. WHITE. No; I will say there is not. All the land in this particular country is settled and is now in use. There might be some land put under irrigation, but it is not arid land and it is not new land. It is land already under cultivation.

Mr. Speaker, I yield 5 minutes to the gentleman from Washington [Mr. SAMUEL B. HILL].

Mr. SAMUEL B. HILL. Mr. Speaker, I am familiar with this area, since it is just over in Idaho, adjacent to the district I represent in Washington.

The Clark Fork of the Columbia River flows through Lake Pend d'Oreille, which is one of the largest fresh-water lakes in the United States outside of the Great Lakes. The lower end of Pend d'Oreille Lake is about 7 miles from the land involved in this project. The lands are on what is known as Rathdrum Prairie. There are about four privately developed reclamation projects totaling about 15,000 acres situated on Rathdrum Prairie. Those projects have been

getting their water from Hayden Lake and from wells out of which they pump.

In later years the waters in Hayden Lake have been failing, the level of the lake has been going down, and the water tables where the wells are from which they pump, have been gradually lowering also. They have to pump water on these lands, and the rates that they pay now for the electrical power are so high that it is unprofitable, and they are about to lose their homes on these developments.

Mr. SNELL. Mr. Speaker, will the gentleman yield?

Mr. SAMUEL B. HILL. I yield.

Mr. SNELL. Is this a Government project at the present time?

Mr. SAMUEL B. HILL. No; they are not. They are private projects.

Mr. SNELL. But you want the Government to take them over and develop them?

Mr. SAMUEL B. HILL. We want the Government to investigate them and determine whether it is feasible to put in a dam and create power at Cabinet Gorge on Clark Fork, in order to provide cheap electricity for pumping water out of the lower end of Lake Pend d'Oreille to put on these lands to rehabilitate the lands and develop them as irrigation projects.

Mr. SNELL. How large a dam and how high a dam does the gentleman have in mind?

Mr. SAMUEL B. HILL. That is one of the things the investigation is to determine, as well as to determine whether there is a market for the power.

Mr. SNELL. Does the gentleman understand that it is currently reported it will cost from $200,000,000 to $250,000,000 to complete the project?

Mr. SAMUEL B. HILL. I cannot conceive that any such figure would be in contemplation because it simply means the building of a dam in a gorge across a small river and then putting in an electrical power plant and transmission line down to the lower end of Pend d'Oreille Lake to pump water out of the lake and run it through a canal to these lands.

Mr. SNELL. This would bring more land into cultivation?

Mr. SAMUEL B. HILL. It will simply rehabilitate the land that was sought to be reclaimed under these private projects.

Mr. SNELL. But it is not being reclaimed at the present time.

Mr. SAMUEL B. HILL. They have some water, but the water is not sufficient and is failing.

Mr. SNELL. Then it will bring more water and in this way produce more agricultural products.

Mr. SAMUEL B. HILL. It will produce more products on the land that is now developed.

Mr. SNELL. That is what I had in mind.

Mr. SAMUEL B. HILL. Yes.

[Here the gavel fell.]

Mr. TABER. Mr. Speaker, I yield 10 minutes to the gentleman from New York [Mr. CULKIN].

Mr. CULKIN. Mr. Speaker, the distinguished chairman of the Committee on Appropriations fought a very gallant battle here in the House this week for the purpose of terminating, or at least limiting to the reclamation fund, this reclamation folly. Tonight in the last hours of the Congress we are confronted with this bill.

I have in my files a letter written to Fred Brinckman, the legislative representative of the National Grange, from a resident of the State of Washington in and about the area that it is proposed to reclaim by this bill, in which the writer states that bringing more land into production in this area means nothing short of confiscation for those who have already invested their life's savings in this area.

Mr. WHITE. Mr. Speaker, will the gentleman yield?

Mr. CULKIN. No; not now.

This is the situation with which you are confronted. On the Columbia River the Federal Government has expended $63,000,000, or will expend $63,000,000 when the present appropriations have been used in the building of a dam on the upper Columbia. This dam, in my judgment, will be of the same lasting character and the same sort of world wonder as the pyramids are now. It will have no other function. This project, according to the Reclamation Bureau, will cost $490,000,000 and will bring 1,200,000 acres of land into production.

On the lower Columbia River we will expend at Bonneville approximately $40,000,000 for a joint navigation and power project.

It would seem, therefore, that the State of Washington and the adjoining area is well supplied with all necessary power and all necessary new land.

May I say to you that in the same State of Washington in the last year some 10,000 acres of orchards were pulled for the reason there was no market for the fruit. There is in that area thousands of acres of reclaimed land on which no settlers have gone or will go.

Mr. WHITE. Mr. Speaker, will the gentleman yield?

Mr. CULKIN. In a minute.

Mr. WHITE. I should like to correct some of the statements the gentleman is making.

Mr. CULKIN. Oh, the gentleman can do that in his own time. I protest most vigorously against this raid on the Treasury, which is apparently innocent in character, but I assert that it is simply the nose of the camel getting under the reclamation tent. I know the House is tired and exhausted and tired of speech making. [Applause.] And I know these gentleman who are so generous with their applause wish to get this raid through the House without any preliminaries. Nevertheless, I emphasize that this authorization, preliminary and simple as it may seem in character, is, in fact, only preliminary, and a demand for an additional three or four hundred millions dollars will follow. Further, every foot of land that is reclaimed in this area means that the value of land in Kansas, Iowa, Idaho, Nebraska, and all of the Western States will depreciate in value. In addition to that, by bringing this land into production, you prejudice, you injure the men who are already on the reclaimed lands of the West and the men who are on the acreage in the East.

Mr. WHITE. Mr. Speaker, will the gentleman yield?

Mr. CULKIN. I notice, Mr. Speaker, that the gentleman from Idaho is the father of the bill. I am very fond of him, and I yield to him for a question but I do not yield to him to make a speech.

Mr. WHITE. I am not going to make a speech, but does the gentleman realize that the products of this land in this section reach up against Canada, and they have a big market in Canada in the lumbering and mining sections, and will not come into competition with the products of the Eastern States at all?

Mr. CULKIN. That is the most guileless, the most ingenious piece of sophistry that I have ever heard. Did any one ever hear of Canada buying any agricultural products from the United States—especially since the promulgation of the reciprocal-trade agreement?

Mr. RANKIN. Mr. Speaker, if the gentleman will yield I will try to answer his question. All of the time that the Republicans had a duty of 42 cents a bushel on wheat——

Mr. CULKIN. Oh, I have yielded for a question, not a speech.

Mr. RANKIN. And I am going to answer the gentleman's question. We were shipping wheat into Canada because wheat was higher there than in the United States. When we had a tariff of 42 cents a bushel on wheat, wheat was higher in the market at Winnipeg by 10 cents than in the United States market.

Mr. CULKIN. Oh, the gentleman goes back into the dark ages. That was before the great western areas of Canada were settled.

Mr. RANKIN. Yes; Republican dark ages, and they never will be that dark again, for the dark days are over.

Mr. CULKIN. Happy days and Landon will soon be here. Gentlemen, do not let these mad reclamationists get their nose into the Federal Treasury via this new and terrible reclamation abortion in the last hours of this Congress. [Applause.]

The SPEAKER. The time of the gentleman from New York has expired.

Mr. TABER. I yield myself 5 minutes. Already there has been expended since the 4th of March 1933 between twenty-four and twenty-five billions of dollars. This present bill is not a big item on the surface, but it leads, according to the information that has come to me, to a couple of hundred millions of dollars more money. Do we want to start on it? Gentlemen will remember that we tried to find out from the gentleman from Idaho [Mr. WHITE] and the gentleman from Washington [Mr. SAMUEL B. HILL] what they thought this project would cost, but we could not do it. The best information that we can get is that it will cost from two to three hundred million dollars.

Mr. SAMUEL B. HILL. Mr. Speaker, will the gentleman yield?

Mr. TABER. In a moment. We get this story; that there are some settlers on a project up there who are suffering from lack of water. We have had that story with reference to every irrigation project that has been before the House in the last 60 days, but we also get the story that there will be more land brought under cultivation if this project goes through.

Mr. WHITE. Mr. Speaker, will the gentleman yield?

Mr. TABER. Yes; I yield.

Mr. WHITE. I think if the gentleman will recall my statement, I said there would be no more land brought in cultivation, that the land is already under cultivation but not irrigation.

Mr. TABER. It will not raise crops although the land is under cultivation?

Mr. WHITE. Dry farming.

Mr. TABER. Dry farming? Probably dry farming is not successful out there and they would like to have the Government spend two or three hundred million dollars to make it wet farming. Is that it?

Mr. WHITE. I will answer the gentleman. There are five irrigation projects there that are short of water, and the purpose of this bill is to make a study and survey to find out how they can be rehabilitated, and those people can be made secure in their home and in their property.

Mr. SAMUEL B. HILL. I should like to know the source of the information that justifies the statement that this will cost $200,000,000 or $100,000,000.

Mr. TABER. Why, inference from statements that have drifted in here and there through the Reclamation Service. We suggested that that idea was before us, and we tried to find out when the gentleman from Washington and the gentleman from Idaho were before the House what they thought it would cost, and we found out nothing. If they have anything to tell us in the 5 minutes they have left, they ought to tell us. I shall not yield any more to them because I have not the time, but I believe we ought not to start on any more irrigation projects at this time. I think we have gone as far as we ought to go in that sort of thing, and we ought to stop.

The SPEAKER. The time of the gentleman from New York has expired.

Mr. TABER. Mr. Speaker, I yield 2 minutes to the gentleman from Iowa [Mr. GILCHRIST].

Mr. GILCHRIST. Mr. Speaker, I do not know much about this project, but I read the report. The bill when it first came here was labeled as one to rehabilitate irrigation districts. The report made by the friends of the bill says that it is for the purpose of putting more water upon this land; that is, for the purpose of remedying an inadequate situation that now obtains with reference to the land. They propose to put this water on, but they say they are not going to bring more land into cultivation. They do admit they are going to raise more crops, however. The very purpose of it is to raise more crops, to produce a greater surplus, and this is at a time when we are proposing to limit and curtail production and bring it into balance with consumption.

To my mind, it is an asinine thing now, when we are spending money to prevent a surplus of crops, to make appropriations to bring more land into crop production. To my mind, it is unjust because it is unfair to the rest of the farm country which is raising crops, without Government help or subsidies. We ought not to allow the Government to compete in this way with the farmers of the country who finance their own farms. The Government has as much right to build mills to manufacture shoes in competition with the private shoe factories. Do not allow the Federal Government to build and finance more farms to produce more crops, to contribute more surpluses to further cheapen farm products. Farmers are having enough trouble already.

The SPEAKER. The time of the gentleman from Iowa has expired.

Mr. TABER. Mr. Speaker, I yield 3 minutes to the gentleman from Pennsylvania [Mr. RICH].

Mr. RICH. Mr. Speaker, Members of the House, and particularly the Democratic Members of the House [applause], if there ever was a Congress of the United States that has been ruthlessly spending the taxpayers' money, this is the Congress. If there ever has been a Congress that has been doing foolish things, this is the Congress. [Applause.] You go out now and buy, under instructions from the Secretary of Agriculture, 40,000,000 acres of land to put them out of cultivation. Then you turn around and build dams and dams and irrigation projects in the Northwest, and you put into cultivation over 300,000,000 acres of ground. [Applause.]

Then you turn around and you spend money building dams out in the West to make electric power a yardstick to determine power projects, after you have started a project down in the Tennessee Valley to make a yardstick for power where the gentleman from Mississippi [Mr. RANKIN] is trying to prove to the people of this country that they are getting power for a certain figure, cheaper than was ever gotten in any part of the country, when the taxpayers of this country are footing the bills. Yet Mr. RANKIN claims the Government does it at a profit. [Applause.] They do not have that yardstick finished, and they are hoodwinking the American people every minute of the day. They do not know how to figure costs. Now, you are trying to build, under this bill, what we call a power project. Read the bill. It says "for a suitable hydroelectric power project", and then you take the floor and say it is for the benefit of agricultural lands in the committee report. The survey cost is $25,000. We do not need more power in the Northwest nor do we need more lands at this time. So defeat the bill. [Applause.]

The SPEAKER. The time of the gentleman from Pennsylvania has expired.

Mr. WHITE. Mr. Speaker, I yield 1½ minutes to the gentleman from Oregon [Mr. EKWALL].

Mr. EKWALL. Mr. Speaker, I want you to listen closely, and I want the gentleman from Pennsylvania [Mr. RICH] to listen, because I am going to answer a question which he has asked for 6 months, namely, "Where are you going to get the money?" Under this bill it is provided we will get the money from the reclamation fund. The reclamation fund is a revolving fund, and it means that no money will come out of the Federal Treasury. So the gentleman from Pennsylvania may go home and get the first night's sleep he has had in 6 months. [Laughter and applause.]

It is like waving a red flag in front of him to mention anything about reclamation to the gentleman from New York [Mr. CULKIN]. [Laughter and applause.]

I think the West is entitled to this consideration. The bill merely authorizes a survey and investigation. [Applause.]

The SPEAKER. The time of the gentleman from Oregon has expired.

Mr. WHITE. Mr. Speaker, I yield myself 1½ minutes.

Mr. Speaker, I just want to tell the gentlemen on the Republican side who are opposed to reclamation in any form that it is the source of the market for the stuff that they consume from the East. Corn and pork from Iowa, and manufactured goods from the industrial East. I wish I had time to go further into that subject.

I want to tell these gentlemen that when I started my campaign for Congress, I was talking to one of the most conservative Republican businessmen in the city of Spokane—Mr. Funicane, of Holley Mason Hardware Co. He said to me, "WHITE, those Republicans have gone crazy in passing the Hawley-Smoot tariff bill." He said, "The president of the Spokane and International Railroad told me that on account of the Hawley-Smoot bill they had lost 1,000 carloads of business of soft fruits and vegetables from the irrigated sections of the State of Washington to Canada, during the month of September of that year, on account of the retaliatory tariff measures." [Applause.]

Let me remind you opponents of irrigation that the products of the irrigated districts marketed over the border in Canada have contributed to the business prosperity of the Northwest—your market for your products, one of the best in the United States. Go into the railroad yards and to the warehouses of these western cities and towns, you Members from central and eastern farming States, and see for yourselves the vast quantities of your finished products—cereals, packing-house products, hams, bacon, lard. You from the industrial East, carload after carload rolling into your best market. Would you curtail this market? Do you desire to arrest the development of this country? Do you want to deprive the unemployed of your cities of an opportunity to become self-supporting? Must we continue to tax ourselves to support them in idleness? If you could realize what the development and prosperity of the irrigated communities of the West mean to the welfare and the prosperity of people of your district, I am sure you would not oppose this bill.

The SPEAKER. The time of the gentleman from Idaho has expired. All time has expired.

The question is, Shall the rules be suspended and the bill passed?

The question was taken; and on a division (demanded by Mr. WHITE) there were—ayes 51, noes 170.

So (two-thirds not having voted in favor thereof) the motion was rejected.

TO FREE INTERSTATE BRIDGES FROM LOCAL TAXATION

Mr. O'NEAL. Mr. Speaker, I move to suspend the rules and pass the bill (S. 3107) to exempt publicly owned interstate highway bridges from State, municipal, and local taxation.

The Clerk read the title of the bill.

Mr. SNELL. Mr. Speaker, I ask that the bill be reported in full.

The Clerk read the bill, as follows:

Be it enacted, etc., That each interstate highway bridge and approaches thereto which has heretofore been constructed or acquired or which shall hereafter be constructed or acquired by any State, or by any commission, board, or agency of a State; or by any county, city, town, or other political subdivision or public corporation, or by any commission, board, or agency thereof; or by any commission, board, or authority created by the Congress or by a compact entered into between two States with the consent of the Congress, each thereof being herein sometimes termed a public authority, and which has been, or shall be, constructed pursuant to an act of the Congress consenting to or authorizing such construction, is hereby declared to be a Federal instrumentality for facilitating interstate commerce, improving the postal service, and providing for military purposes, and shall be exempt from all State, municipal, and local taxation so long as such bridge shall be owned and operated by such public authority either as a free bridge or as a toll bridge: *Provided, however,* That if such bridge shall be operated as a toll bridge, it shall not be exempt from such taxation unless all tolls received from the operation thereof, less the actual cost of operation and maintenance, are applied to the repayment to such public authority of the cost of construction or acquisition of such bridge or to the amortization of such cost, with reasonable interest and financing costs; nor unless after the amount contributed by such public authority, with reasonable interest and financing costs, in the construction or acquisition of such bridge has been repaid from the tolls; or after a sinking fund sufficient for the amortization of such cost shall have been provided, such bridge shall thereafter be maintained and operated free of tolls.

SEC. 2. The right to alter, amend, or repeal this act is hereby expressly reserved.

Mr. THOMPSON. Mr. Speaker, I demand a second.

Mr. O'NEAL. Mr. Speaker, I ask unanimous consent that a second be considered as ordered.

The SPEAKER. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. O'NEAL. Mr. Speaker, I greatly regret that it is necessary to bring up this matter under suspension at this time. I have not been dilatory in bringing this matter to the House, but on two occasions it was passed over on the Consent Calendar without prejudice. This bill was passed by the Senate unanimously. It came to the House and went to the Interstate Commerce Committee, where hearings were held, and both the subcommittee and the full committee reported this bill to the House favorably. The Secretary of Agriculture, the Secretary of the Treasury, and the Secretary of War have either approved of or voiced no opposition to the bill. When the matter came up on the Consent Calendar the objectors on both sides seemed to be in accord and assured me they would interpose no objection. One gentleman, for reasons sufficient to himself, saw fit, which he had the right to do, to ask that it be passed over without prejudice.

This bill, Mr. Speaker, is designed to free publicly owned interstate bridges from State, municipal, or local taxation. In my opinion if this bill passes such bridges will be free from tolls from 1 to 3 years sooner than they would be if this bill is not passed.

Mr. WOLCOTT. Mr. Speaker, will the gentleman yield?

Mr. O'NEAL. I yield.

Mr. WOLCOTT. As I understand, the bill provides that such bridges are henceforth to be considered instrumentalities of the Federal Government provided that all of the revenue from the bridges is used for the retirement of the bonds, and upon retirement of the bonds the title to the bridges reverts to the municipalities so that eventually these bridges will become the property of the municipalities which are now taxing them.

Mr. O'NEAL. The gentleman is practically correct except title is now in the State. The State does not have to wait until the bridges are free. The title rests in the public agency.

Mr. WOLCOTT. The point I make is that eventually these bridges will become the property of the municipality which is now taxing them; and, of course, they will not tax their own property.

Mr. O'NEAL. That is correct.

Mr. WOLCOTT. And, under the operation of this bill these bonds will be retired that much quicker.

Mr. COCHRAN. Mr. Speaker, if the gentleman will yield for 1 second. Let me cite an example, an outstanding example of the situation that confronts some States and municipalities. The city of St. Louis paid about $12,000,000 to build a free bridge. The city of East St. Louis and the people of Illinois get as much benefit from this bridge as do the people of the city of St. Louis and State of Missouri. The city of East St. Louis taxes this bridge something around $75,000. Title to the bridge will never go to the subdivision that is taxing it. Title will always remain with St. Louis.

Mr. O'NEAL. Mr. Speaker, the question of toll bridges in this country, it seems to me, is very much misunderstood.

This bill has nothing to do with privately owned toll bridges. These are publicly owned interstate bridges. For many years dangerous streams had to be crossed by ferry because cities, counties, and States were unable to build bridges. A few years ago it became possible for cities, counties, and States to borrow money to pay for bridges and to pledge nothing but the revenues from the bridge—that is, to pledge the tolls to the payment of the indebtedness.

When the tolls are so applied, then the bridges will be free and no tolls charged thereafter. All over this country at the present time we have bridges which have been built in that manner, and they will be free as soon as the tolls have been sufficient to pay off the indebtedness.

The purpose of this bill is to make these bridges, publicly owned, free from local taxation. The practice has been for some little town over on the other side of the river, which is getting the benefit of a free bridge when the tolls

are paid, upon seeing a chance to make some money because a pier happens to rest on their side of the river, to stick a tax upon the bridge. This means that the tolls will have to be increased, or it will take longer to pay off the bonds or the indebtedness, and, consequently, through a selfish policy, these public necessities are kept from being free years longer.

This bill makes the bridges Federal instrumentalities, and they cannot be taxed by a local community, by county, or State. If this bill is passed, and it is just that it should be passed, we will have free bridges in a much shorter time.

There are some few communities where they are getting property taxes from toll bridges, yet they get a little more benefit in taxes than in costs from tolls. They want to keep the thing under taxation as long as they can, in order that their little communities may be so benefited, and the general public thereby gets the worst of it.

Mr. HOLMES. Will the gentleman yield?

Mr. O'NEAL. I yield to the gentleman from Massachusetts.

Mr. HOLMES. I want to make this observation to my colleague from Kentucky: A subcommittee of which I have been a member now for a great many years has given a great deal of serious thought to the question of the continuity of these privately owned toll bridges, with the hope that some time it may be possible to have them as free bridges.

Mr. O'NEAL. Is the gentleman referring to privately or publicly owned bridges?

Mr. HOLMES. I am referring to both.

Mr. O'NEAL. This bill refers only to publicly owned bridges.

Mr. HOLMES. We are dealing with bridges that go over navigable streams, the only ones Congress has jurisdiction over.

Mr. O'NEAL. And publicly owned.

Mr. HOLMES. And publicly owned. Our committee unanimously recommended this bill. We have given it some thought and study for the past 3 years. The Committee on Interstate and Foreign Commerce has also given it consideration and unanimously reported this bill, believing it was about time we created some legislation of this type to act fairly as between communities.

Mr. O'NEAL. I appreciate the gentleman's statement.

Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON. Mr. Speaker, I yield myself 5 minutes.

Mr. Speaker, I regret very much I find myself in opposition to our splendid colleague from Kentucky [Mr. O'NEAL] so far as the merits of this bill that he is so interested in are concerned, but I feel I would be negligent in my duty if I did not oppose it with all my ability. It seems to me that the Federal Government is going a long ways when it undertakes to declare toll bridges built by cities and States instrumentalities of interstate commerce for the use of the Postal Service and the national defense, and tell these States and cities, as well as various other subdivisions, they cannot levy a tax against the property, although it may be assessable under the laws of the States affected.

Mr. Speaker, it seems to me the Federal Government should keep out of this particular field. It involves a very serious question of State rights as to whether or not the Federal Government has a constitutional right to tell one State by congressional enactment that it cannot tax the property of another State located within its own borders. I noted with much interest the statement of the gentleman from Kentucky that if we pass this bill tonight we are going to do away with toll bridges. I do not think the gentleman meant that just as it sounded. I make the statement on my own responsibility that if we pass this bill tonight, or at any subsequent session of the Congress, toll bridges in the United States will not disappear within the life of most of the Members of this body.

Mr. RANKIN. Will the gentleman yield?

Mr. THOMPSON. I yield to the gentleman from Mississippi.

Mr. RANKIN. Will the tolls be increased?

Mr. THOMPSON. I do not know whether they will or not. This bill will not decrease the toll.

Mr. RANKIN. That is what I am speaking of.

Mr. THOMPSON. Absolutely not. We have to keep in mind the bridges covered by this bill have been built by cities and they are managed by cities or counties and States. They are loaded down with overhead, and in most all of the cases the money has been borrowed from the P. W. A. or the R. F. C., and they never will be paid off, and we know they will not be. Unless some action is taken by the Congress of the United States to cancel these loans the tolls will remain on forever, because the history of toll bridges in the United States, whether privately or publicly owned, is nothing but a string of failures, particularly those built in the last 10 years. There is hardly an issue of bonds against a toll bridge in the United States today that is not in default, and yet they tell you if we take off the tax that some little community may lay on valuable property we are going to bring about free bridges.

Mr. LAMNECK. Will the gentleman yield?

Mr. THOMPSON. I yield to the gentleman from Ohio.

Mr. LAMNECK. Will not this deny the municipalities and taxing units a source of revenue, most of which is paid by people who do not live in the taxing district at all?

Mr. THOMPSON. Certainly.

[Here the gavel fell.]

Mr. THOMPSON. Mr. Speaker, I yield myself 5 additional minutes.

Mr. COLDEN. Mr. Speaker, will the gentleman yield?

Mr. THOMPSON. I yield.

Mr. COLDEN. In principle, why should a publicly owned bridge be taxed any more than a highway or any other city-owned or State-owned utility?

Mr. THOMPSON. That would be very true if the question of reciprocity between the States were involved. I think if two States want to enter into a compact to make the property of each other, confined within their borders, tax free, that is perfectly all right, but I fail to see why the Federal Government should inject itself into a matter that is strictly State business.

Mr. COCHRAN. Mr. Speaker, will the gentleman yield?

Mr. THOMPSON. I yield.

Mr. COCHRAN. The gentleman comes from Illinois, across the river from my State, and he knows about the beautiful $12,000,000 bridge that the city of St. Louis built as a free bridge. The city of East St. Louis gets just as much benefit from it, and millions of citizens of Illinois come across this bridge every year, but still the city of East St. Louis taxes this bridge about $75,000 a year.

Mr. THOMPSON. I do not care to get into an argument with the gentleman, except to say that the city of St. Louis built that $12,000,000 bridge so as to draw trade from Illinois into the city of St. Louis, so that the people of Illinois would do their shopping in St. Louis. This is the case in nearly every instance. Cities went out and borrowed money and created bridge authorities to build bridges in order to attract business to their community, and I think it is a perfectly commendable effort on their part.

Mr. COCHRAN. The gentleman knows that this bridge was built to take away business from the toll bridge, the Eads Bridge, which was the first bridge constructed across the Mississippi River. That is why St. Louis built the bridge and made it a free bridge, so that everyone who wanted to cross the Mississippi River would not have to pay tolls to a private corporation.

Mr. THOMPSON. I suppose business in St. Louis fell off after they put up this free bridge. [Laughter.]

Mr. COLMER. Mr. Speaker, will the gentleman yield?

Mr. THOMPSON. I yield.

Mr. COLMER. Do I understand that this bill will affect any toll bridge on a Federal highway totally within the boundaries of a State unless it happens to be on a border line?

Mr. THOMPSON. Absolutely not, because if it were not an interstate bridge the Congress would not have any control over it and they would have to seek relief from the State legislatures of the States affected.

Mr. COLMER. Even though it were on a Federal highway?

Mr. THOMPSON. That has nothing to do with it whatever.

Mr. RANKIN. Mr. Speaker, will the gentleman yield to me again?

Mr. THOMPSON. I yield.

Mr. RANKIN. The gentleman from Illinois stated a while ago that these toll bridges were not making enough money to pay dividends on their bonds or on their investments.

Mr. THOMPSON. To pay their interest and amortize the bonds.

Mr. RANKIN. Is it not a fact that a great many of these toll bridges have done just what the utilities have done; that is, issued watered bonds or watered stock and inflated their investments far above what was justified and therefore made it impossible, under such circumstances, for them to make enough money or wring enough money from the public to pay dividends.

Mr. THOMPSON. I cannot tell the gentleman about that, but I can say that in a majority of the cases the Federal Government is the creditor. In other words, these municipalities have set up bridge authorities, issued some kind of bonds that satisfied the lender, whether it was the R. F. C. or P. W. A., or private sources.

[Here the gavel fell.]

Mr. THOMPSON. Mr. Speaker, I yield myself 3 additional minutes.

Mr. TREADWAY. Mr. Speaker, will the gentleman yield?

Mr. THOMPSON. I yield to the gentleman from Massachusetts.

Mr. TREADWAY. Do I understand that the bill under consideration has to do with the selection of tolls?

Mr. THOMPSON. No; it does not. It has to do with the exemption of property owned by a State or a subdivision thereof in another State.

Mr. TREADWAY. Then there is no connection between this bill and any tolls necessary to be paid to the Democratic Party for campaign purposes.

Mr. THOMPSON. I am sorry to say there is none.

Mr. SPENCE. Mr. Speaker, will the gentleman yield?

Mr. THOMPSON. I yield.

Mr. SPENCE. I believe an interstate bridge has been held to be an instrumentality of interstate commerce. If this is true, why should we allow a municipality to place a burden on interstate commerce? Is not this against the very spirit of the Constitution, which gives the Congress of the United States control over interstate commerce?

Mr. THOMPSON. I do not believe a toll bridge is an instrumentality of interstate commerce; a free bridge might be.

Mr. SPENCE. The Supreme Court has held that a bridge is an instrumentality of interstate commerce where it crosses a navigable stream which is the boundary of a State.

Mr. THOMPSON. I do not see that it makes any difference whether a toll bridge is owned by a private bridge company or by a city.

I do not see the difference. The city had a selfish interest to go into it, principally to improve its own business, and that is commendable. No one can find fault with that, but why should a city on the opposite side of a river in another State have some of its valuable property used for an approach taken off the tax rolls so that another State or community in another State can get the benefit of it?

Mr. KELLER. Mr. Speaker, will the gentleman yield?

Mr. THOMPSON. Yes.

Mr. KELLER. Would the gentleman's objection apply to a situation where the loans are paid off and the bridge becomes a free bridge?

Mr. THOMPSON. I don't think it would; no, sir. That is a different proposition, but if they ever get their loans paid off I don't think any of us will live to get the benefit of it.

Mr. KELLER. Oh, yes.

Mr. THOMPSON. I should like to point out that this bill is a Senate bill. I do not know who is the author of it but one of the large bridge construction engineering firms of the United States is vitally interested in it. It is a reputable firm. They have done the engineering on practically all of the large bridges built with Federal loans and grants during the last 4 or 5 years and they are naturally interested, so that they can go out and sell these communities to build more bridges, a good many of which do not improve the transportation system of the country and are built only for selfish reasons.

Mr. KELLER. Is not the gentleman aware that in the State of Kentucky the bridges have paid for themselves all over the State, and they have been made free?

Mr. THOMPSON. Of course the Congress when it grants the right to build a bridge over a navigable stream puts that provision into the law. They are not being charitable; that is the law.

Mr. KELLER. Possibly; but while the gentleman says that they will not pay out, yet they have paid out and they have become free.

Mr. THOMPSON. That might have been in the old days when construction costs were cheaper.

Mr. KELLER. Oh, in recent years.

Mr. THOMPSON. I say that this is a very far-reaching question and, in my opinion, Congress should not undertake to tell these different States how they should handle matters of this character. If the States want to make reciprocal agreements with each other or enter into compacts regarding the treatment of property owned by one State in another, let them do it; but it seems to me that the Federal Government has enough to take care of without telling local communities they shall or shall not be exempt from taxes. I hope the bill will be defeated. [Applause.]

Mr. O'NEAL. Mr. Speaker, how much time remains?

The SPEAKER. The gentleman from Kentucky has 9 minutes and the gentleman from Illinois has 1 minute.

Mr. THOMPSON. Mr. Speaker, I yield 1 minute to the gentleman from Illinois [Mr. SABATH].

Mr. SABATH. Mr. Speaker, I really believe that there is no jurisdiction here. I do not see how we can assume jurisdiction. This is what this bill aims to do. It aims to exempt publicly owned interstate highway bridges from State, municipal, or local taxation. What right have we to dictate to the States or to municipalities to exempt these bridges from taxation, especially when these bridges are owned and operated by the States or municipalities? I merely know what is aimed at by this bill. A certain bridge has been taken over by a certain city, and the aim here is to relieve that city of certain State taxes which we have no right to do. It is absolutely against the rights of the respective States to dictate to them what they can tax and what they cannot tax.

The SPEAKER pro tempore. The time of the gentleman from Illinois has expired.

Mr. O'NEAL. Mr. Speaker, I yield 3 minutes to the gentleman from Mississippi [Mr. RANKIN].

Mr. RANKIN. Mr. Speaker, if the women in America realized what the T. V. A. is doing for them, there would not be a candidate for public office from Maine to California who would dare to oppose it.

It is doing more to brighten their lives, lighten their burdens, relieve their drudgery, and increase the comforts and conveniences of their homes than anything else has ever done in the entire history of this Republic.

Electric lights, electric irons, electric refrigerators, electric stoves, fans, water heaters, vacuum cleaners, radios, washing machines, water pumps, sewing machines, grills, toasters, dishwashers, and numerous other labor-saving appliances may now be used under the T. V. A. rates for less money than it formerly took to light the home under the old power company rates. It is a new life, a new civilization for the women of this country.

No wonder they are for Roosevelt. He is doing more for the toiling, struggling women of this country by helping to put cheap electric energy within their reach than any other President has done for them in the last 100 years.

Besides we are extending this service into the rural sections, reaching thousands of farm homes that never could have enjoyed the blessings of cheap electric energy, at least during this generation, if it had not been for the T. V. A.

Let me give you an example of how cheap electricity relieves the drudgery of women who have to do their own work. Sometime ago I passed by a rather modest home and saw a little woman out in the yard doing the family washing. Although the weather was extremely hot, she had a blazing fire built around a large pot and she was standing over it punching the clothes down with a long stick, when she was not engaged in replenishing the fire, pumping water—or rather drawing it from the well—looking after her children, or running in and out of the kitchen to see about the dinner that she was cooking. She would then bow down over that board and that hot water and with her hands scrub those clothes for probably an hour or two. Then she would lay them on a block and take a battling stick and beat them till it seemed as if she was knocking all the buttons off. I presume she had to sit up at night and sew those buttons back on—while she rested.

She would then rinse those clothes in cold water, wring them out with her hands, hang them on the line, and hurry into the house and prepare supper. By that time the day was gone.

Tired and worn, looking older at 35 than she ought to look at 60, she sat down to the family meal—without ice and without fans. Of course, her day's work was not over; there were dishes to wash, children to bathe, and other household duties to perform before she could get any rest.

The next day, after her other household work was completed, she had to iron those clothes. She built a hot fire in the fireplace or in the stove, heated her iron, and spent the rest of the day leaning over it ironing the family clothes—absorbing about as much heat as the iron did.

Of course, this is only a portion of the household duties which go on from day to day and from week to week, in endless succession. This picture may not appeal to all of you. Some of you may not realize the drudgery women have to perform.

These are the women who keep the homes, rear the children, and help advance and perpetuate our civilization. I thought of the words of Joaquin Miller:

The bravest battle that ever was fought,
Shall I tell you where and when?
On the maps of the world you will find it not;
'Twas fought by the mothers of men.

Nay, not with cannon, or battle shot,
With sword, or nobler pen;
Nay, not with eloquent word or thought,
From mouths of wonderful men.

But deep in a welled-up woman's heart—
Of woman that would not yield,
But bravely, silently bore her part—
Lo! there in that battlefield!

No marshaling troop, no bivouac song;
No banners to gleam and wave!
But oh, these battles they last so long—
From babyhood to the grave!

Yet faithful still as a bridge of stars,
She fights in her walled-up town—
Fights on, and on, in the endless wars,
Then silent, unseen, goes down!

Now, here is the new picture.

The next time I saw that home it looked like a new place. The house had been repainted, and other improvements indicated that it had taken on new life. A new power line had been built out to it, and the house was fully electrified, at T. V. A. rates. An electric pump had been installed, and the house was supplied with running water. It was not even necessary to press a button, since the pump was automatic.

An electric washing machine had been provided, with an electric wringer attached, as well as an electric iron. The drudgery of washing clothes was gone. The clothes were simply placed in the washing machine, a switch was turned, and in 2 hours the clothes were washed and hanging on the line. The electricity necessary to operate that machine for a family of five people costs less than $1 a year, under the T. V. A. yardstick rates.

That woman looked 20 years younger than she did when I had last seen her scrubbing those clothes in the hot sun. She was happy and enthusiastic over these new additions to her home. She showed us through her kitchen. It was as clean as a soda fountain. An electric refrigerator provided more ice than the family needed and at the same time kept the meats, eggs, milk, butter, and vegetables cool and fresh.

An electric range had replaced the old wood or coal stove and, as she expressed it, "rendered cooking a pleasure"; and, strange to say, it cost less to operate it than it did to furnish fuel for the old one.

That woman uttered one expression that told the whole story. She said, "We have just now begun to live."

This is typical of the changes that are taking place in the T. V. A. area.

One woman writes me that "T. V. A. is the greatest blessing that ever came to the people of this section." She has lights in her home and garage, a radio, electric refrigerator, electric iron, electric range, a vacuum cleaner, and a hot-water heater. During the month of March she used 82 kilowatt-hours of electricity and it cost her $2.14.

Another one says, "It is the best thing that ever came to us." She uses lights, radio, refrigerator, range, fans, vacuum cleaner, sewing machine, hot-water heater, waffle irons, toaster, and percolator, all operated by electricity. During the month of February, the worst month of the year, she used 483 kilowatt-hours, which cost her $7.83.

Under the old power-company rates in effect before T. V. A. came the cost of that 483 kilowatt-hours would have been $36.41.

Here is one from a woman who lives 16 miles from the railroad, who says, "It is the greatest thing that ever came to the rural sections." She uses lights, radio, refrigerator, irons, fans, washing machine, and water pumps. During the month of February she used 38 kilowatt-hours, which cost her $1.52.

Another one writes:

I think T. V. A. is the greatest boon that has ever come to our country, and if you never did anything else to glorify your service, your name will go down in history for this one thing, bringing T. V. A. to our rural people.

She has lights in her home and garage, radio, refrigerator, iron, vacuum cleaner, fans, air conditioner, toaster, hot plates, water pump, bed pads, and a small electric heater for her invalid son, who is a disabled World War veteran. During the month of February she used 443 kilowatt-hours, which cost her $7.67. Under the old power-company rates the cost would have been $33.61, or more than four times what it cost her under the T. V. A. rates.

Another one writes me that T. V. A. power "simply means the difference between drudgery and luxury."

I could fill the RECORD with such testimonials; my files are full of them, all expressing their gratitude for what this cheap electricity is doing for them.

Electricity can be supplied to the people in every city, town, hamlet, and community in any State in the Union at the T. V. A. rates; and I, for one, propose to keep up the fight until that is done. If the people in every county in America will get on every candidate for public office and know that he is honestly and conscientiously for them on the power question before they ever let him get elected to any office, from constable to President, we will have this cheap power in every home in America in less than 3 years. It will be supplied at T. V. A. rates, and those rates will be reduced as time goes on.

Mr. Speaker, the gentleman from Pennsylvania [Mr. RICH] stated a few moments ago that the people I represent who are using T. V. A. power are getting that power below the cost of production, and that the "taxpayers of the country are footing the bill." He says, "Yet, Mr. RANKIN says the Government does it at a profit." He then goes on to criticize the T. V. A. yardstick, repeating the same old propaganda the Power Trust has been peddling for the last 3 years.

Mr. RICH. Will the gentleman yield?

Mr. RANKIN. Certainly I will yield to the Republican leader from Pennsylvania.

Mr. RICH. Everything the gentleman has been saying about power is all wrong. He does not know how to figure costs, and that is what I want the public in this country to know.

Mr. RANKIN. That is on a par with what the gentleman has been saying ever since he has been in Congress. He is just as far wrong on that as he has been on everything else. [Applause and laughter.]

When the Republicans were in power you were selling electricity to the power companies at Muscle Shoals at 2 mills a kilowatt-hour, and your Army Engineers showed that it was being produced and delivered at the switchboard at 1.352 mills a kilowatt-hour, or less than 1½ mills.

But now, when the T. V. A. sells it wholesale at 6 mills a kilowatt-hour—three times what your administration was selling it at to the Power Trust—you say that it is being sold below the cost of production and that the taxpayers of the country are footing the bill.

I wonder who was footing the bill when the power interests were buying this power at 2 mills a kilowatt-hour and selling it to us at 10 cents a kilowatt-hour, or 50 times what they paid for it? You see, the Power Trust had a yardstick also. By the way, let us compare those yardsticks. I have them both here, so we will just compare them. Now, remember, they were both selling the same power, produced at Muscle Shoals. You understand the yardstick is the rate the people who use electric light and power have to pay for it.

Now, here are the yardsticks: We will take the Power Trust yardstick, or the Republican yardstick, or the Hoover yardstick—or, in order to do full justice to the gentleman from Pennsylvania, we might call it the "Rich yardstick", since he has been calling the T. W. V.'s the "Rankin yardstick."

Here it is; here is what the power companies were charging the ultimate consumers for this power which they were buying at 2 mills a kilowatt-hour. I will run each yardstick table up to 1,000 kilowatt-hours a month.

Former power-company yardstick rates

10 cents per kilowatt-hour for first 30 kilowatt-hours per month	$3.00
8 cents per kilowatt-hour for next 170 kilowatt-hours per month	13.60
7 cents per kilowatt-hour for next 300 kilowatt-hours per month	21.00
6 cents per kilowatt-hour for next 350 kilowatt-hours per month	21.00
5 cents per kilowatt-hour for next 150 kilowatt-hours per month	7.50
Total, 1,000 kilowatt-hours per month	66.10

That is what we were paying for this power before the T. V. A. Act was passed—power that cost the power company 2 mills a kilowatt-hour. That is about what you were all paying in every State prior to that time. Many of you are still paying those exorbitant rates. In fact, we would all be paying those rates now and from now on were it not for the T. V. A. and the power policies of this administration.

Here are the T. V. A. yardstick rates for this same power which the Government was selling to the Power Trust at 2 mills a kilowatt-hour under a Republican administration, and which the T. V. A. is selling wholesale at 6 mills a kilowatt-hour under a Democratic administration. Here are the T. V. A. retail rates, the yardstick rates, what the people actually pay for it.

3 cents a kilowatt-hour for the first 50 kilowatt-hours per month	$1.50
2 cents a kilowatt-hour for the next 150 kilowatt-hours per month	3.00
1 cent a kilowatt-hour for the next 200 kilowatt-hours per month	2.00
4 mills a kilowatt-hour for the next 600 kilowatt-hours per month	2.40
Total, 1,000 kilowatt-hours per month	8.90

I hope every consumer of electricity reads these two tables, and especially every domestic consumer. I am especially anxious for every woman in America to read them, and particularly the ones who have to do their own household work. Cheap electricity means so much to them.

I hope everyone reads the following comparative table showing the difference between the two yardsticks, making it so plain that I do not believe our friend from Pennsylvania can misunderstand it:

	Former power company rates	Tennessee Valley Authority rates
First 30 kilowatt-hours	$3.00	$0.90
Next 170 kilowatt-hours	13.60	3.60
Next 300 kilowatt-hours	21.00	2.40
Next 350 kilowatt-hours	21.00	1.40
Next 150 kilowatt-hours	7.50	.60
1,000 kilowatt-hours	66.10	8.90

Thus it will be seen that 1,000 kilowatt-hours a month, which cost a consumer $8.90 under the T. V. A. yardstick rates, would have cost him $66.10 under the old Power Trust yardstick rates, and that the cost in every bracket of this table runs from 3 to 10 times as much under the old rates as it does under the T. V. A. yardstick rates.

What we are doing toward reducing rates in the T. V. A. area we hope to do in every community in America before we get through.

Let me tell the gentleman from Pennsylvania another thing: If the women of that State realize what this cheap power means to them, Roosevelt will sweep Pennsylvania in November.

Mr. Speaker, in order to show further that these T. V. A. yardstick rates are not too low, I give here a comparison of those rates with the Tacoma rates, the Ontario rates, and the old Power Trust yardstick rates in effect prior to the creation of the T. V. A.

As I showed in a former address, Ontario has one of the finest power systems on earth, and the public plant at Tacoma, Wash., is an outstanding success. They are constantly lowering their rates and at the same time paying their plant out.

I hope every woman in America who is interested in the use of electrical appliances to relieve her household drudgeries will read and compare these rates.

Monthly consumption

	25 kilowatt-hours	40 kilowatt-hours	60 kilowatt-hours	100 kilowatt-hours	300 kilowatt-hours	500 kilowatt-hours	1,000 kilowatt-hours
Ontario rates	$0.75	$1.02	$1.54	$1.74	$3.02	$3.92	$6.17
Tacoma rates	1.13	1.52	1.72	2.12	4.12	6.12	8.62
T. V. A. yardstick rates	.75	1.20	1.70	2.50	5.50	6.90	8.90
Old Power Trust yardstick rates	2.50	3.80	5.40	8.60	23.00	37.60	66.10

The Power Trust wants to destroy the T. V. A. so as to force us back to those old rates, before these cheap rates spread to reach the people you represent. The newspapers they own or control are doing everything they can to that end. What do they care how much drudgery the men and women of the country have to undergo? What do they care how much misery the housewives of the country have to endure? They are paid to fight the T. V. A. and destroy it if possible.

There is one newspaper that circulates in my section that has gone so far in this fight that it has been striking my name from every news article in which I was mentioned. It has even struck my name from Associated Press articles that went out from the White House. I know this to be a fact, for I have copies of the paper in my files, and the Associated Press has furnished me with copies they sent out. They even went so far as to publish on their front page an interview which I recently gave out touching a matter of vital interest to the people of Mississippi, but struck my name out and substituted the name of another person who was not even in Washington at the time, and knew nothing at all about the proposition.

That paper seems to be owned or controlled by the Power Trust. It has succeeded in keeping T. V. A. power out of Memphis, and out of certain sections of Mississippi, Arkansas, and Tennessee, with the result that the women in those localities are paying the penalty in drudgery and misery. The powers behind that paper would like to see Roosevelt destroyed, but they have not the courage to come out and say so.

Is it freedom of the press when a corrupt corporation or set of corporations can buy up a once great newspaper and use it in this way? You will ask what the object is in thus prostituting the functions of the press. The answer is, They are trying to control politics in Mississippi and Tennessee. They want to elect men to office who will be subservient to the corrupt influences that now own or control that publication. They want to destroy the T. V. A. They try to control public sentiment with false news statements or misleading headlines.

That paper owns a radio station, but when I broadcast over a Nation-wide hook-up they do not let it go over their station. My people have to get my addresses through Dallas, Tex., Louisville, Ky., Cincinnati, Ohio, or some other station.

What is my offense? What crime have I committed to justify such treatment? I wil tell you: I helped to create the T. V. A. to save the water power of this country for the people who own it; and I have been instrumental in getting the power produced at Muscle Shoals distributed to the people I represent at something like what it is worth. I have helped to make it possible for the men and women in that area to enjoy the use of electricity and to relieve them of the nerve-racking, back-breaking, youth-destroying drudgery they were having to endure before the T. V. A. came.

In other words, I helped to stop the Power Trust from robbing the people I represent and to make it possible for them to enjoy some of the comforts and conveniences of this life. But, worst of all, I have helped to promulgate the T. V. A. yardstick to show what electricity is worth and in that way helped to start a drive to get cheap electricity into every home in America. These are the "crimes" I have committed. The only thing I regret is that I have not yet been able to reach all the people in the district and throughout the whole country with these low rates. But we are on our way.

Fortunately that paper cannot hurt me or the cause I represent, for its opposition is a badge of honor and its support is like the "kiss of death."

Here is another "crime" I have committed against the interest of the Power Trust. I have sponsored a program of rural electrification through which we have secured cheap electricity to thousands of farmers in that area, and we are going to reach the rest of them before we quit.

The T. V. A. represents a great movement that is destined to reach every home in this broad land. Its influence is not confined to the Tennessee Valley area, but is already being felt from coast to coast in the way of reduced light and power rates and the increased use of electrical appliances.

Wherever rates have been reduced the consumption of electricity has been augmented or extended, the use of electrical appliances has been increased, woman's work has been made easier, her drudgery has been diminished, and light has been added to her life along with additional comforts and conveniences she had never known before.

It has been the habit of the American people to boast of the progress made in the invention of labor-saving machinery—from the reaper to the hydraulic dredge. These new machines have usually been designed to do the work of men to lighten man's burden. But they have usually left the women in the home, invariably in the kitchen, doing the same old drudgery in the same old way.

If a new machine came along that was designed to do the woman's work she usually had to operate it with her hands or feet. Invariably it just made it possible for her to do two things at once or enabled her to do work that formerly had to be done by someone else, thereby adding to her lot an additional burden barely within her strength, and increasing rather than diminishing the load she already bore.

It has been said that when the cooking stove was substituted for the old open fireplace with its ponderous vessels and cumbersome pot racks, men boasted that women could then do the firing and handle the heavy vessels themselves; and when the water pump was introduced it was pointed out that the women could then pump the water, whereas the men had formerly windlassed it from the old open well.

A former Pennsylvania Congressman once told me a story of an old farmer up in his district who had a very thrifty and industrious wife and a large crowd of sorry boys. Oil was discovered on the old man's land and the family suddenly became rich. One night just after the first well came in they were all sitting around the fire talking about what they were going to do with the money—they knew they were going to get a large amount, but had no idea how much. Finally one old boy spoke up and said, "Well, I'll tell you what we ought to do first, and that is we ought to buy ma a new ax."

That illustrates some people's ideas of generosity when it comes to doing something to relieve women of the drudgery which usually falls to their lot.

No wonder women are getting away from such drudgery and taking places in stores, offices, and factories that were formerly filled by men. They tell us that a woman's place is in the home, and I believe the average woman had much rather stay in her home if that home were relieved of the drudgery and monotony that grinds away a woman's life, robs her of the joys of living, and makes her old before her time.

Woman has toiled and wept and prayed that something might be done to make her work lighter. Suddenly a new light was flashed upon the horizon of her existence that inspires her with a new hope. Her prayers are answered and her dreams have come true. There is placed within her reach and at her command the greatest servant mankind has ever known—electricity.

For the old oil lamp that smoked up the house, singed her hair and eyebrows, burned her children, and gave just about enough light to obscure everything in the room—for it is substituted an electric light in every room that will really illuminate the house without smoke, without grease, and without danger.

Next, a radio is installed for her. That may shock some of the old guard. I saw a Republican Congressman turn his nose up almost to the ceiling a few years ago as he remarked with derision that if you provided a farmer with cheap electricity, one of the first things he would buy would be a radio.

Well, why not? Why should not a farmer have a radio? It furnishes the cheapest, most wholesome, most elevating, and most enlightening entertainment known to man. It relieves the drab monotony, brings the latest news, and affords the finest music at all times of day, and at the very minimum of cost.

I have sent out some questionnaires to the electric consumers in my district and I find that 95 percent of them have radios. One woman living in the rural district said to me that the best thing about the radio is that it helps to keep her children at home, that they no longer had to leave home to seek entertainment. She said it made the home more pleasant and attractive, intensified the children's love for it, and made them want to stay there. That is the greatest argument for the radio I have ever heard. I hope to live to see one in every farm home in America.

Then came other labor-saving appliances, such as electric irons, refrigerators, vacuum cleaners, electric ranges, water pumps, and others too numerous to mention.

The rest of you Congressmen may do as you please about this power issue. Some of you, I know, are intensely interested, some are indifferent, while some are secretly or openly antagonistic. But so far as I am concerned, there will be no turning back. I have already succeeded in getting a majority of the counties in my district connected up with the T. V. A., saving them more than $500,000 a year on their light and power bills, and making it possible for them to enjoy the use of electrical appliances, and I am going to get it to the rest of them before I quit.

We have already succeeded in taking this cheap power to thousands of farmers in my district—people who never would have had even electric lights in their homes, people

who would have lived and died and their children would in all probability have lived and died without ever having electric lights in their homes if it had not been for the T. V. A. I expect to keep up the drive until we reach them all. Not only am I striving to secure this service for the farmers of my own district but I want to see every farm home in America electrified at rates the farmers can afford to pay. [Applause.]

Mr. O'NEAL. Mr. Speaker, I yield 2 minutes to the gentleman from Missouri [Mr. COCHRAN].

Mr. COCHRAN. Mr. Speaker, 9 years ago I started a fight in this House on privately owned toll bridges. On the first roll call that I forced on a private toll bridge bill, 12 Members of the House joined me. I did not become discouraged but continued my opposition to such bills year after year until I won that fight. This Congress no longer grants franchises for privately owned toll bridges. My contention was if a bridge was needed the State or a subdivision of a State should build it, not a private corporation. I further contended if the State could build roads it likewise could build bridges.

Now we have a situation in my city that is typical of many other places and it justifies the passage of this bill.

East St. Louis, Ill., taxes our bridge, a free bridge. The bridge cost St. Louis about $12,000,000. East St. Louis is taxing our free bridge $75,000 a year. However, East St. Louis is going to build a toll bridge in the near future and when it builds the toll bridge St. Louis undoubtedly is going to tax the East St. Louis Bridge for an equal amount. Other communities, however, will not have such an opportunity where their bridge is being taxed.

Suppose New Jersey and New York and other States separated by rivers should start taxing their bridges? It is possible. Here is an opportunity to prevent it.

Mr. THOMPSON. Mr. Speaker, will the gentleman yield?

Mr. COCHRAN. I yield.

Mr. THOMPSON. The gentleman knows that a situation like that can be worked out by agreement between the State of New Jersey and the State of New York and between the State of Illinois and the State of Missouri. Why should the Federal Government get into it?

Mr. COCHRAN. But I will tell the gentleman from Illinois that I know our officials have been trying for years to work it out with his State, but the Illinois Legislature has refused to come to an agreement.

Mr. WHITE. Mr. Speaker, will the gentleman yield?

Mr. COCHRAN. I yield.

Mr. WHITE. Does the gentleman know between Covington and Cincinnati there was an old bridge built in about 1858, before Abraham Lincoln was inaugurated, that is still in use and still charging tolls?

Mr. COCHRAN. I do not know anything about it but two great cities like Covington and Cincinnati should buy the bridge or build a new one if it is a privately owned toll bridge. Then again, 1858 was several years before I came to Congress. [Laughter and applause.]

[Here the gavel fell.]

Mr. O'NEAL. Mr. Speaker, I yield myself the balance of my time.

It seems to me that when you mention a toll bridge to this Congress everybody thinks something very peculiar must be going on.

Mr. Speaker, this bill was brought before the committee. The committee held hearings on it. They went into the legality of the right of the Government to speak on the subject of these taxes. As the gentleman from Massachusetts told you, they reported unanimously in favor of this bill.

In 4 minutes I do not have time to correct all the mistakes that have been made and all the misstatements that have been made. There have been free bridges all over the United States that were built from tolls paid by those who have used the bridge; bridges that were built by borrowed money, that did not cost the State one dime, that did not cost the State, county, or the municipality one red cent. Every dime came from the people who paid tolls.

The debt is being paid off and the cities, counties, and States have property running into millions of dollars for which the taxpayers of those cities, counties, and States never paid one dollar. What is the situation? I can best illustrate it by the experience of my own city. A bridge was built there costing $5,000,000. The money was borrowed. Not one cent of the taxpayers' money went into the building of that bridge. Bonds were issued against the bridge. All tolls were pledged to the payment of bonds. The result is that $2,000,000 has been paid off. But now a little town across the river comes along and wants to put a large tax on the bridge because piers are located within its jurisdiction and they say they have the right to tax it.

This means that the bridge authorities will have to charge a greater toll or that tolls will have to be charged for a longer period of time. This bill provides that no town, no community, no State, shall levy taxes against such a bridge as is exempted in this bill, thus causing the bridge to carry tolls for a longer period of time.

[Here the gavel fell.]

The SPEAKER pro tempore. The time of the gentleman from Kentucky has expired. All time has expired.

The question is, Shall the rules be suspended and the bill passed?

The question was taken; and on a division (demanded by Mr. THOMPSON) there were—ayes 100, noes 44.

So (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

FOOD, DRUGS, AND COSMETICS BILL

Mr. RAYBURN. Mr. Speaker, by direction of the Committee on Interstate and Foreign Commerce, I call up the bill (S. 5) to prevent the adulteration, misbranding, and false advertising of food, drugs, devices, and cosmetics in interstate, foreign, and other commerce subject to the jurisdiction of the United States, for the purposes of safeguarding the public health, preventing deceit upon the purchasing public, and for other purposes, with a Senate amendment to the amendment of the House and move that the House concur in the Senate amendment to the House amendment.

The SPEAKER. The Clerk will report the Senate amendment.

Mr. PARSONS (interrupting the reading of the amendment). Mr. Speaker, I make the point of order that a quorum is not present.

The SPEAKER. The Chair will count. [After counting.] Two hundred and forty-three Members are present, a quorum.

The Clerk resumed the reading of the amendment.

Mr. RAYBURN (interrupting the reading of the amendment). Mr. Speaker, I ask unanimous consent that further reading of the amendment be dispensed with, as I think it can be better understood if explained by some member of the committee.

Mr. HOLMES. Mr. Speaker, I object.

The Clerk resumed the reading of the amendment.

Mr. COX (interrupting the reading of the amendment). Mr. Speaker, I understand this amendment is something over 80 pages in length. It will take an hour and a half or 2 hours to read it. I therefore ask unanimous consent that further reading of the amendment be dispensed with.

Mr. HOLMES. Mr. Speaker, I object.

The Clerk resumed the reading of the amendment.

Mr. EDMISTON. Mr. Speaker, I ask unanimous consent that further reading of the amendment be dispensed with.

Mr. HOLMES. Mr. Speaker, I object.

The Clerk resumed the reading of the amendment.

Mr. MILLARD (interrupting the reading of the amendment). Mr. Speaker, I move that further reading of the amendment be dispensed with.

Mr. SIROVICH and Mr. HOLMES objected.

The Clerk resumed the reading of the amendment.

Mr. DONDERO (interrupting the reading of the amendment). Mr. Speaker, I make the point of order there is not a quorum present.

The SPEAKER. Does the gentleman from Michigan insist upon his point of order?

Mr. DONDERO. Not very strenuously.

The SPEAKER. Will it satisfy the gentleman if the Chair can secure order in the Chamber?

Mr. REECE. Mr. Speaker, if a quorum is not present during the consideration of legislation dealing with one of the largest industries in the country, one which vitally affects the lives of the people——

The SPEAKER. For what purpose does the gentleman from Tennessee rise?

Mr. REECE. In view of these facts, Mr. Speaker, I rise to make a point of order that a quorum is not present.

The SPEAKER. The Chair will count. [After counting.] Two hundred and fifty-three Members are present, a quorum.

The Clerk concluded the reading of the amendment.

Mr. CHAPMAN. Mr. Speaker, I move that the House concur in the Senate amendment to the House amendment.

Mr. REECE. Mr. Speaker, a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. REECE. This is the same bill which was brought up yesterday under suspension of the rules and was sent to conference. The conferees have reached no agreement. I wish to know what is the status of the bill in the House at this time.

The SPEAKER. In answer to the inquiry of the gentleman from Tennessee, the Chair will ask the Clerk to read the following message from the Senate in connection with this bill.

The Clerk read as follows:

IN THE SENATE OF THE UNITED STATES,
June 15 (calendar day June 20), 1936.

Resolved, That the Senate recede from its disagreement to the amendment of the House of Representatives to the bill (S. 5) to prevent the adulteration, misbranding, and false advertising of food, drugs, devices, and cosmetics in interstate, foreign, and other commerce subject to the jurisdiction of the United States for the purposes of safeguarding the public health, preventing deceit upon the purchasing public, and for other purposes, with an amendment as follows.

The SPEAKER. This is the way in which this motion comes before the House.

Mr. REECE. Mr. Speaker, a point of order.

The SPEAKER. The gentleman will state it.

Mr. REECE. Mr. Speaker, I make the point of order that this bill, coming in as a bill and not as a conference report, should be referred to the committee.

The SPEAKER. The point of order is overruled.

Mr. LAMNECK. Mr. Speaker, a point of order.

The SPEAKER. The gentleman will state it.

Mr. LAMNECK. I make the point of order that under the rule this bill must lay over for 24 hours.

The SPEAKER. The point of order is overruled.

Mr. McCORMACK. Mr. Speaker, a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. McCORMACK. Is a two-thirds vote necessary to consider this Senate amendment?

The SPEAKER. It is not.

Mr. RAYBURN. Mr. Speaker, I yield 5 minutes to the gentleman from Kentucky [Mr. CHAPMAN].

Mr. CHAPMAN. Mr. Speaker, this is a measure which affects very vitally every man, woman, and child between the two oceans, because every man, woman, and child uses food, drugs, or cosmetics.

Legislation on this subject came up in 1933 and was known at that time as the Tugwell bill. The bill was never accorded a hearing by the Committee on Interstate and Foreign Commerce; but after that, recognizes the necessity for legislation for the protection of the American public, the committee did hold hearings on another bill dealing with the same subject matter. I declare to you tonight that this is not the so-called Tugwell bill and bears no kinship to the original Tugwell bill.

We passed this bill yesterday under suspension of the rules. The distinguished gentleman from Texas [Mr. RAYBURN], chairman of the Committee on Interstate and Foreign Commerce, and I, as chairman of the subcommittee in charge of this legislation, assured the Members of this House that so far as we were concerned the conferees would stand by the House action on this important legislation when we went into conference with the Senate conferees.

There has not been full agreement between the Senate and House conferees. We did agree on everything except the advertising provisions, or perhaps I should say the section providing for the control of advertising. That was the only real controversial issue between the conferees of the House and the Senate, and the Senate has agreed to the House bill with certain and very few exceptions.

Mr. BIERMANN. Will the gentleman yield?

Mr. CHAPMAN. I yield to the gentleman from Iowa.

Mr. BIERMANN. Under the regulations as they now exist, the Federal Trade Commission has to do with advertising in the newspapers, and a newspaper that circulates false advertising innocently is not held liable. The advertiser himself is held liable. If the control of this advertising is moved over to the Department of Agriculture, what assurance have we that the newspapers of this country, and particularly the little country newspapers that have no facilities for investigating advertisements, will not be held liable for inadvertently circulating some false advertisements?

Mr. CHAPMAN. I may answer the gentleman by saying that my understanding is that the newspaper will not be held liable, but the man who pays for the advertisement will be.

[Here the gavel fell.]

Mr. RAYBURN. Mr. Speaker, I yield the gentleman 5 additional minutes.

Will the gentleman yield?

Mr. CHAPMAN. I yield to the gentleman from Texas.

Mr. RAYBURN. There is a specific provision in this bill relieving the newspapers under such circumstances.

Mr. CHAPMAN. That is correct.

Mr. BIERMANN. Will the gentleman yield?

Mr. CHAPMAN. I cannot yield any further.

Mr. BIERMANN. How does the gentleman expect us to vote for the bill when he does not answer any questions?

Mr. CHAPMAN. The gentleman from Texas stated correctly that such a case as that to which the gentleman from Iowa refers is specifically excepted.

Mr. BIERMANN. That was true when the advertising feature was under the Federal Trade Commission, but we moved it over to the Department of Agriculture, and nobody knows how they are going to handle it.

Mr. MERRITT of New York. Will the gentleman yield?

Mr. CHAPMAN. I yield to the gentleman from New York.

Mr. MERRITT of New York. Will the gentleman inform me if this is the original Copeland bill as introduced in the Senate?

Mr. CHAPMAN. If the gentleman had been present when I began my remarks he would have heard me say that this bill bears no relationship to the original Tugwell bill, a hearing on which was never held by the Committee on Interstate and Foreign Commerce.

Mr. MERRITT of New York. I did not say anything about Tugwell. I asked if this is the original Senator Copeland bill.

Mr. CHAPMAN. I will say to my friend, the gentleman from New York, that in thirty-odd places the House committee rewrote the so-called Copeland bill. It is not the same bill. It is in most important particulars virtually a new bill.

Mr. MERRITT of New York. Will the gentleman answer this question: What is the difference between the original Copeland bill and the bill that is pending before the House at the present time?

Mr. CHAPMAN. I will do that if the gentleman will permit me to proceed.

There are certain differences. Amendments were added to the bill, some of which I favor and some of which I do not favor, but I am here tonight supporting the bill as it has come back to us from the Senate.

One of the first changes in this bill made by the Senate tonight is one which I deeply regret, because it affects a large proportion of the people of this country and also a great industry in my own State. The Senate deleted the whisky provision from this bill, which I should like to have seen enacted into law, because I want to see my friends protected and want them to get good whisky if they drink it at all. [Laughter and applause.] I also want to see those who manufacture legitimate, honest whisky protected from the dishonest manufacturers. That is one thing the Senate took out of this bill as it passed the House, and as the conferees of House and Senate agreed upon it. I regret it, but think this bill ought to be passed anyhow.

Mr. HOLMES. Will the gentleman yield?

Mr. CHAPMAN. I yield to the gentleman from Massachusetts.

Mr. HOLMES. It is our understanding when this bill passed the House by unanimous consent yesterday that the conferees would sustain the Committee on Interstate and Foreign Commerce and insist on the House bill.

Mr. STEFAN. Yes.

Mr. HOLMES. I should like to ask how the gentleman stands on the question of advertising.

Mr. CHAPMAN. I say to my colleague on the committee, the gentleman from Massachusetts, that the House conferees, and the chairman of the full committee was present, stood foursquare on that question, and sustained the House committee's action.

Mr. HOLMES. How does the gentleman stand now on this amendment, which the Senate has submitted to the House?

Mr. CHAPMAN. There was a disagreement reported by the conferees. Then the Senator from New York [Mr. COPELAND], in his individual capacity, offered an amendment on the control of advertising. It was his personal amendment.

Mr. HOLMES. May I propound another question?

[Here the gavel fell.]

Mr. RAYBURN. Mr. Speaker, I yield the gentleman 2 additional minutes.

Mr. HOLMES. Will the gentleman yield for a further question?

Mr. CHAPMAN. I yield to the gentleman from Massachusetts.

Mr. HOLMES. In view of the gentleman's statement to this House that he stands unequivocally and 100 percent back of the House bill, is it his recommendation to the House that we reject the Senate amendment?

Mr. CHAPMAN. I will say to the gentleman that in conference I stood 100 percent for it although I do not think it is the best solution of the problem. In so doing I lived up to my agreements and kept the faith absolutely. Tonight I favor the adoption of the amendment to which the Senate has agreed and know that failure to adopt it will kill this much-needed remedial legislation.

Mr. COOPER of Ohio. Mr. Speaker, will the gentleman yield?

Mr. CHAPMAN. Yes.

Mr. COOPER of Ohio. I think we might just as well understand this matter. The controversy in our committee hinged on whether the Federal Trade Commission or the Department of Agriculture should have jurisdiction over advertising. We understood that the House conferees would stand by the House on that provision.

Mr. RAYBURN. And they did.

Mr. CHAPMAN. I just stated that. We kept the faith in letter and in spirit.

Mr. COOPER of Ohio. If I understand this amendment correctly it gives to the Federal Trade Commission jurisdiction over commercial advertising, but gives the Department of Agriculture jurisdiction over all advertising of pure food and drugs.

Mr. CHAPMAN. No; not exactly that.

Mr. RAYBURN. I may say to the gentleman that the amendment offered does not take one thing away from the Federal Trade Commission it has now with reference to advertising.

Mr. COOPER of Ohio. If that is the case why did you accept the Senate amendment, if it was as good as we had it in the bill?

Mr. RAYBURN. I did not say anything about its being as good as the House amendment. I was telling the gentleman what it provided so the gentleman might understand me.

[Here the gavel fell.]

Mr. RAYBURN. Mr. Speaker, I yield the gentleman 3 additional minutes.

Mr. CHAPMAN. I cannot yield any further.

Mr. TABER. Mr. Speaker, will the gentleman yield?

Mr. CHAPMAN. I am sorry, but I cannot yield.

The House restored the multiple seizures provision, which is very vital to the success of this law, and the Senate conferees agreed to its restoration with an amendment placing the word "grossly" before the word "misleading."

Mr. HARLAN. Mr. Speaker, will the gentleman yield?

Mr. CHAPMAN. I cannot yield.

In case of seizures the House amendment permitted removal of the suit to a district adjacent to the claimant's principal place of business and the conferees changed this with the result that it may be removed to a point agreed upon by the parties.

With respect to advertising control, which we have just discussed briefly, we have made a division of that. In conference your House conferees stood 100 percent in favor of the action of the House. An amendment has come here, after the disagreement of the conferees, which divides it so that commercial advertising and advertising pertaining to trade practices will go to the Federal Trade Commission and advertising affecting the public health will go to the Food and Drug Administration and in this amendment I ask your concurrence.

Mr. HARLAN. Mr. Speaker, will the gentleman yield now?

Mr. CHAPMAN. Yes; I yield.

Mr. HARLAN. Under this bill what kind of advertising could there be brought in question, except advertising pertaining to health? This is a food and drug bill and advertising with respect to food and drugs would be advertising affecting health.

Mr. CHAPMAN. The functions of the Federal Trade Commission relate to trade practices in connection with commercial advertising, and not from the standpoint of consumer protection, which is the purpose of this legislation. If this bill had come up for consideration under a rule, I would have offered an amendment placing advertising control under the Food and Drug Administration. My views on that subject were made known in the statement of "Additional Views" attached to the committee report of the bill and signed by the gentleman from Michigan [Mr. MAPES], the gentleman from Connecticut [Mr. MERRITT], and myself.

When it came up under suspension of the rules, so that no amendment could be offered, the gentleman from Texas [Mr. RAYBURN] and I agreed to attempt in conference to sustain the House position. By that agreement we stood.

After the conference committee reported a disagreement, the Senator from New York [Mr. COPELAND], not as a conferee but as an individual Senator, offered this amendment, which the Senate adopted. The conference is over. This comes to us as a new proposition. The amendment offers a fair compromise. The question is, Will we accept this amendment or will we strangle to death this important bill in the closing hours of this Congress? Will we stubbornly resist this reasonable compromise and thereby deny the consuming millions of American people the protection to which they are entitled? [Applause.]

[Here the gavel fell.]

Mr. RAYBURN. Mr. Speaker, I yield 5 minutes to the gentleman from Tennessee [Mr. REECE].

Mr. REECE. Mr. Speaker, there is on the desk a bill comprising some 75 pages by way of an amendment coming over from the Senate and dealing with a highly important subject. I dare say there is not one Member on this floor who knows what is in this amendment. There is not a member of the committee who knows what is in it. It has come over here from the Senate as a new bill.

One of the more controversial issues involved, however, is where the jurisdiction over advertising shall lie.

The original Tugwell bill provided that the Department of Agriculture should have jurisdiction over advertising. The Copeland bill provided the same thing, and on yesterday, when a motion was made to suspend the rules and pass the bill and some Members asked me what was the difference between the Tugwell bill and the bill that was then being brought up under suspension, I said in reply that one of the main differences was the fact that the House bill provided that advertising should be placed under the jurisdiction of the Federal Trade Commission, with the understanding that the House would stand by that provision of the bill. The rules were suspended and the bill was passed.

Mr. SIROVICH. Mr. Speaker, will the gentleman yield?

Mr. REECE. I yield.

Mr. SIROVICH. Does the gentleman realize that the most important thing upon which the health of the people of our Nation is dependent has been given over to the Department of Agriculture instead of being kept with the Federal Trade Commission, where it properly belongs? We have sacrificed everything for which we fought.

Mr. REECE. Absolutely. The issue involved here now is, will Dr. Tugwell, of the Department of Agriculture, be given jurisdiction over all the advertising involved in this amendment or shall it remain with the Federal Trade Commission, which has had jurisdiction over advertising since the Federal Trade Commission was established? There was no question but that the House was largely in favor of jurisdiction remaining in the Federal Trade Commission, a quasi-judicial body, and if orderly procedure in the consideration had been followed we would have had opportunity to vote upon that.

Now, the only way that we can express ourselves on that question is to vote against the motion of the gentleman from Texas to recede and concur in the Senate amendment. If you want to place the advertising under Dr. Tugwell and give him a whip lash not only over business, but over the press of this country, vote for the motion made, but if you want to give it to the Federal Trade Commission, a quasi-judicial body, vote against it. [Applause.]

Mr. RAYBURN. Mr. Speaker, I yield five minutes to the gentleman from New Jersey [Mr. KENNEY].

Mr. KENNEY. Mr. Speaker, we have to have a food and drug bill before we adjourn tonight. It is very important. The people of this country are looking for it. It affects the health of the country and the well-being of the citizens of the entire land. We ought to decide to turn back these clocks, and give plenty of time for the Senate to act with due deliberation on this amendment. The Senate passed the bill originally, giving jurisdiction over advertising to the Drug Administration. In the House here only yesterday we decided we wanted to place it with the Federal Trade Commission. We went into conference to carry out your mandate. We strove to obtain your will in that conference. The amendment was supposed to come in here by way of a compromise, giving part to the Federal Trade and part to Drug Administration. In my mind it is no compromise. It gives everything by way of health to the Drug Administration and everything else to the Federal Trade, and there is nothing else, in my opinion. Oh, yes, you can work out a hypothetical case where they might take it up, but it will be minor in importance, and it is my opinion Federal Trade Commission would never exercise any jurisdiction over this matter.

Let me warn you again. We ought to pass a bill, but do we want this drug administration to be prosecutor, judge, jury, and executioner? The country has spoken often throughout the hearings. In 1933, the original hearings were held. Last August our subcommittee started hearings, and we heard the opinion and voice of the country, and I am one of those who honestly believe that the people of this country want the control of advertising in the Federal Trade Commission, and if you want it there, vote down this amendment, but decide to stay here until we get a good bill, because the country is anxiously waiting for it. [Applause.]

Mr. RAYBURN. Mr. Speaker, I yield 5 minutes to the gentleman from Maryland [Mr. COLE].

Mr. COLE of Maryland. Mr. Speaker, this bill possibly is the most important that this Congress has had before it, because of the very vital interest every man, woman, and child in the country has in its administration. Its provisions were the subject of long hearings before the Subcommittee of the Interstate Commerce Committee. After that report, for 3 or 4 days we debated the bill in executive session. It is true, as my friends from Tennessee and New Jersey have said, we passed a House bill yesterday, and as one conferee I thought I went into the conference trying to get a food and drug bill, not tied to any particular provision of it as a mandate from the House. I approached the conference committee with Senator COPELAND, Senator VANDENBERG, Senator BAILEY, Senator CARAWAY, and Senator CLARK, and we were there from 9 o'clock this morning until 7 o'clock tonight.

We found it totally impossible to bring back to this House, as the other conferees know, a food and drug bill upon which all conferees could agree. We agreed in conference, as I think these gentlemen will concede, to every disagreement between us except one. There were 36 amendments to this bill inserted by the House committee. The Senate conferees, in my opinion, have been most generous in conceding many of the changes we made in this bill. Now, we come to the point at this late hour in the session quibbling about whether this bill shall be buried because advertising might go here or might go there, as though that is the vital and crucial part of this bill. We have confidence enough in the Food and Drug Department of this Government to let it determine branding and say what is misbranding or labeling and all of the other provisions.

Yet we want to say we will not pass the bill because we do not have the same confidence in that department to administer fairly that part of the advertising which pertains to health, and health alone.

Mr. O'CONNOR. Will the gentleman yield?

Mr. COLE of Maryland. I yield.

Mr. O'CONNOR. The question has been raised as to voting down this amendment and sending it back to the Senate. If this amendment is voted down, there will be no bill, because I am reliably informed after investigation that the Senate will surely have adjourned before 12 o'clock tonight.

Mr. COLE of Maryland. I am glad the gentleman from New York asked that question, because when we disagreed in conference this afternoon it was very frankly and freely discussed in our meeting.

The gentleman from Tennessee [Mr. REECE] said no one knows what is in this amendment, when every man on this conference saw the very amendment which is on the Speaker's desk on the table where we have been all day. That amendment is nothing except a verbatim copy of the House bill with the changes we agreed upon, and one change pertains to advertising upon which we could not agree. It was understood then, it being a Senate bill, that Senator COPELAND would take it back to the Senate, important as the bill is, and submit the whole matter by way of amendment, and the Senate approved that. The Senate approved the unanimous recommendation of the Senate conferees, as I say, a fair and able group of gentlemen, who sat with us today. As Senator BAILEY expressed it, "Why quibble over this little provision or that little provision?" We want a pure food and drug bill as the people of this country are demanding.

I have in my possession a letter which came to us from almost every woman's organization in this country petitioning the conferees to get together on this bill because of its great importance.

As I said yesterday on the floor, the commerce committee of the American Bar Association recommends this bill.

Hon. John Dickinson, Deputy Attorney General, who prosecutes every violation under this bill as Deputy Attorney General of this country, sitting as a member of the commerce committee of the American Bar Association, recommends, after 3 days' hearings, in which he participated, the passage of this bill. He recommended that advertising be left not partially with agriculture but altogether.

The SPEAKER. The time of the gentleman from Maryland has again expired.

Mr. RAYBURN. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. COOPER].

Mr. COOPER of Ohio. Mr. Speaker, the Committee on Interstate and Foreign Commerce worked very hard on this bill. We reported it to the House and yesterday it was passed almost unanimously. However, within the last few minutes we find a bill presented to this House, not from the conferees, but a bill that came direct from the Senate, and we are asked to concur in the Senate amendments. No one knows what is in that bill. At least I do not. We could not tell when it was read from the Clerk's desk. It is true that it is an important bill, and we want to see a bill passed, but I believe it is wrong to take up a bill of this character and vote upon it without the membership knowing what is in it. The big controversy in the committee was over the advertising. Our committee was almost unanimous in placing the jurisdiction of advertising with the Federal Trade Commission. We understood when it passed the House yesterday that the House conferees would stand by the committee and leave that power in the hands of the Federal Trade Commission.

Mr. RAYBURN. Will the gentleman yield?

Mr. COOPER of Ohio. I yield.

Mr. RAYBURN. The House conferees did stand, and brought about a disagreement on that very point.

Mr. COOPER of Ohio. Let me ask the gentleman a question. Is the provision in this bill in regard to advertising the same provision that was passed by the House yesterday?

Mr. RAYBURN. Certainly not, because Senator COPELAND was not in favor of it any more than the House conferees were in favor of his provision about advertising.

The SPEAKER. The time of the gentleman from Ohio has expired.

Mr. RAYBURN. Mr. Speaker, I yield 5 minutes to the gentleman from Tennessee [Mr. MCREYNOLDS].

Mr. MCREYNOLDS. Mr. Speaker, how many of the Members of this House know anything about this bill or have had an opportunity to examine it? How many times has it been read in this House tonight? No one could understand what was in it.

Many times has it been read in this House to you, and no one understands it.

Why was it passed here on yesterday or the day before under suspension of the rules and almost unanimously? You know why; because we understood that the provision placing control of advertisements in the Federal Trade Commission would stay in the bill. [Applause.] That is the reason.

What is the history of this bill? It came over to the House last year. It stayed there and they did not bring it out until the last part of this session—an important bill. And then they asked you gentlemen to concur in the Senate amendment—a way of getting around that which we did not want and which we would not have passed had we known this was going to occur. It places those who stood by this bill and who wanted this bill in an embarrassing position when yesterday we told you we had to accept that bill or the bill could not be passed.

Now, Members of the House, what are you going to do about it? Are you going to turn this over to Tugwell for enforcement or are you going to leave it with the Federal Trade Commission with such men as Judge Davis and other men from this House on that Commission? [Applause.]

Will you do it? [Applause.]

Oh, but they say the Senator says he has taken an oath that the bill shall not pass without his amendment. I say COPELAND shall not pass in this House. [Applause.]

But they say if we do not agree to his amendment they will kill the bill. Are you not getting tired of the Senate saying to this House, "If you do not agree to what we say you shall not pass a bill"? [Applause.] I say, gentlemen, it is time to stand up and demand your rights. Let us send it back to them and say: "If you do not agree with our amendment, you kill the bill."

Mr. HANCOCK of North Carolina. Mr. Speaker, will the gentleman yield?

Mr. MCREYNOLDS. I yield.

Mr. HANCOCK of North Carolina. Does the gentleman think this is a pure food and drug act or a Copeland act?

Mr. RAYBURN. Mr. Speaker, will the gentleman yield?

Mr. MCREYNOLDS. Gladly.

Mr. RAYBURN. Mr. Speaker, I may say this: That the House committee brought in an entirely new bill, and every man on the Senate committee of conference and every man on the House committee of conference agreed to the bill as it was read there at the desk, with the exception of this one amendment, and they agreed to it today.

Mr. MCREYNOLDS. They say that amendment merely affects advertisements as to health. I ask you what is there in pure foods that does not affect health? And does not that give to the Department of Agriculture full jurisdiction? Am I not correct? Think about it, gentlemen, whether you want them to have it. I leave it to you. [Applause.]

[Here the gavel fell.]

Mr. RAYBURN. Mr. Speaker, I yield 1 minute to the gentleman from Virginia [Mr. ROBERTSON].

Mr. ROBERTSON. Mr. Speaker, ever since the food and drug bill has been passed, the producers of fruits and vegetables have used a spray, and they have made an effort to have written into that measure a provision that they might have a day in court with reference to the reasonableness of regulations which vitally affect them. This can put them out of business. This bill is sent over from the Senate, and it gives them no day in court.

I appeal to every Member of the House who represents fruit interests, or who represents vegetable interests, to vote against the Senate amendment. [Applause.]

Mr. RAYBURN. Mr. Speaker, I yield one-half minute to the gentleman from Nebraska [Mr. STEFAN].

Mr. STEFAN. Mr. Speaker, section (m) which was deleted from this bill, referred to by the gentleman from Kentucky [Mr. CHAPMAN], as the whisky section, and it is really the cereal grain section, represents a sell-out to the blackstrap molasses people in foreign countries, Cuba, for instance, and a sell-out of millions of bushels of grain belonging to the American farmer.

Mr. CHAPMAN. Will the gentleman yield?

Mr. STEFAN. I yield to the gentleman from Kentucky.

Mr. CHAPMAN. There can be no whisky made out of anything except cereal grain.

Mr. STEFAN. I understood the gentleman to say that section was deleted.

Mr. CHAPMAN. That is what all connoisseurs say whisky is made out of.

Mr. STEFAN. Did I understand the gentleman to say that section was deleted?

Mr. CHAPMAN. Yes.

Mr. STEFAN. If it has been deleted, we have lost 15,000,000 bushels of corn for the American farmer every year.

[Here the gavel fell.]

Mr. RAYBURN. Mr. Speaker, I yield 2 minutes to the gentleman from Iowa [Mr. BIERMANN].

Mr. BIERMANN. Mr. Speaker, the Members of the House have received hundreds of letters from country newspapers protesting against a certain feature of this Copeland bill. That feature is exactly the amendment we are asked to adopt tonight. The newspapers protest against turning over to the Department of Agriculture the control of advertising, and the reason is that the Department of Agriculture is not particularly well qualified to pass upon advertising.

The bill that we approved yesterday gave the control of advertising to the Federal Trade Commission, which has

built up some precedent under which the newspapers are given a fair shake, and a series of precedents that amount to something that is somewhere near justice to the newspapers. If this amendment is adopted there is not a country newspaper in your district that will be free to accept advertising that deals with anything having to do with human consumption without being subjected to the harrassment and the uncertainty of some regulations that may be passed by the Department of Agriculture.

Mr. McCORMACK. Will the gentleman yield?

Mr. BIERMANN. I yield to the gentleman from Massachusetts.

Mr. McCORMACK. Has the gentleman ever known of the Federal Trade Commission receiving the criticism of the Supreme Court for any arbitrariness of action on its part?

Mr. BIERMANN. No.

Mr. McCORMACK. The Supreme Court criticized the Department of Agriculture for failing to give a fair trial and hearing to party litigants in matters pending before that Department.

[Here the gavel fell.]

Mr. RAYBURN. Mr. Speaker, I yield myself 10 seconds to say, in reply to the gentleman from Iowa, it is my distinct understanding the proposition to which he refers is omitted from this bill.

Mr. Speaker, I yield 3 minutes to the gentleman from Massachusetts [Mr. HOLMES].

Mr. HOLMES. Mr. Speaker, I think we ought to approach action on this amendment with a great deal of care. We all know the value of the Federal Trade Commission. We know of its great service to industry and how industry has relied upon it many, many times for its sound judgment and cooperation.

When this bill was passed yesterday we had the assurance of the House conferees that they would stand by the House amendment and keep all advertisement under the control of the Federal Trade Commission. If we adopt this amendment we are going to make the Federal Trade Commission Dr. Tugwell's rubber stamp. That is what we are going to do if we adopt this amendment.

As far as I know there has been nothing but harmonious cooperation between the Pure Food Administration and the Federal Trade Commission. The Pure Food Administration has approved labels and many other forms of advertising in the past, but the responsibility for carrying out and enforcing those provisions has been left to the Federal Trade Commission because that Commission is of a quasi-judicial nature. You are now turning this over to a board that has nothing but a police power—it is a policing division—to police the pure food and drug laws that we have enacted. They have no power of judicial determination. What are you going to do with all the work that the Federal Trade Commission has done in the past 20 years?

[Here the gavel fell.]

Mr. RAYBURN. Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. WADSWORTH].

Mr. WADSWORTH. Mr. Speaker, in 3 minutes it is not going to be possible to go into this thing in detail. The suggestion has been made this evening if we do not do something pretty quick something is going to happen, because the Senate will say it shall not happen. If you take it from me confidentially and will not let it go further, do not take the Senate seriously all the time. [Laughter.] I have known the Senate to surrender and do the right thing when it is told how to do it.

May I say something about the amendment which we are asked to concur in this evening? I have not had a chance to read it, but I am told upon reliable authority that it provides in effect in relation to advertising that that portion or character of advertising which has to do with business or commercial products is to be left under the jurisdiction of the Federal Trade Commission, and that portion or character of advertising which has to do with public health or relates to health is to go to the Department of Agriculture. I challenge anybody to decide which is which in connection with an advertisement of a cosmetic, medicine, or a food.

Who is to decide, under this proposed amendment, where the jurisdiction of the advertising in question shall go? Where is the line of demarcation? A part of the advertisement may be commercial, advertising the price of the product, and the rest of the advertisement may relate to its curative features. Shall it be split in two, and what officer of the Government shall decide who has jurisdiction. Obviously, we must put the jurisdiction in one place.

Mr. BUCHANAN. No; half and half.

Mr. WADSWORTH. We will get that later. [Laughter.]

As a matter of fact, may I say to the Members of the House that the Federal Trade Commission, as you all know, is a semijudicial body. It has had jurisdiction over advertisements, with respect to unfair-trade practices, for years and years. It has a staff that has been trained for almost a generation to look at these things and weigh and balance them, and it has been fortified by a series of court decisions—very numerous decisions—and I understand that out of a very, very large number of decisions the Federal Trade Commission has been supported in all but two cases. Leave the jurisdiction with the Commission. [Applause.]

Mr. RAYBURN. Mr. Speaker, I yield myself the remainder of the time.

Mr. Speaker, in five minutes, of course, it is going to be impossible for me, as it would be for the members of the subcommittee who are for this motion, to clear away the fog that is here and the dust that has been kicked up.

Let us understand one thing. The amendment, concurrence in which I have asked, takes not one thing away from the Federal Trade Commission that it ever had, but this bill, in its present form, leaves more of the control of advertising in the Federal Trade Commission than it ever had before. The only thing that this amendment does is to leave every particle of advertising control in the Federal Trade Commission it ever had and more, and then it gives to the Department of Agriculture or the Bureau in the Department of Agriculture control only over advertising that relates to health.

You can say what you please about the Senate. Something has been said about the conferees. I was not a member of the subcommittee that considered this bill, and I have not been a member of the conference committee, although I sat with them for more than an hour this afternoon, believing and knowing that the millions of people throughout the land want a law revised that has not been touched in more than 30 years and brought up to date and made so it will protect the health of the children, as well as the grown-ups of this country, and the issue is clear here tonight. Do not be deceived by this little smoke screen with respect to the issue between the Department of Agriculture and the Federal Trade Commission. This is the smallest part of the bill. It amounts to practically nothing when we consider the important provisions of this bill that are necessary to the health, yes, to the very life of the people of the United States, and yet we hesitate, yet we applaud men who get up here and want to throw this whole matter on the scrap heap simply because somebody has heard the word "Tugwell" used in a not very generous fashion.

There might be a little lobbying around here by some people, but there is nobody who has lobbied around this Capitol on any bill in the 23 years I have been in Congress more than the members of the Federal Trade Commission have lobbied on this bill, and I love the Federal Trade Commission. I was a member of the subcommittee that wrote the Federal Trade Commission Act and I have been a Member of the Congress that has brought into existence every commission of the Government except the Interstate Commerce Commission. I like them. I want them to stay in their proper sphere to operate and carry out the law, and when they want to step over and do a thing when the jurisdiction should better lie in another place, in spite of my love for them I am going to stand up and say that the question

before you tonight is not only a question of jurisdiction, but whether you are to have any food and drug act at all. [Applause.]

[Here the gavel fell.]

The SPEAKER. The question is on agreeing to the amendment of the Senate to the amendment of the House to Senate bill 5.

The question was taken; and on a division (demanded by Mr. RAYBURN) there were—ayes 70, noes 190.

So the amendment of the Senate to the amendment of the House to Senate bill 5 was rejected.

THREE HUNDREDTH ANNIVERSARY OF THE FOUNDING OF NORFOLK, VA.

Mr. ROBERTSON. Mr. Speaker, I ask unanimous consent for the present consideration of the bill (S. 4670) to authorize the striking of an appropriate medal in commemoration of the three hundredth anniversary of the original Norfolk (Va.) land grant and the two hundredth anniversary of the establishment of the city of Norfolk, Va., as a borough.

The SPEAKER. Is there objection?

Mr. RICH. Mr. Speaker, I reserve the right to object. Are these silver coins?

Mr. ROBERTSON. Silver coins, and they involve no expense to the Government of the United States. The city of Norfolk will furnish the die.

The SPEAKER. Is there objection to the request of the gentleman from Virginia?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted, etc., That in commemoration of the three hundredth anniversary of the original Norfolk, Va., land grant and the two hundredth anniversary of the establishment of the city of Norfolk, Va., as a borough there shall be coined at a mint of the United States to be designated by the Director of the Mint not to exceed 20,000 silver 50-cent pieces of standard size, weight, and composition and of a special appropriate design to be fixed by the Director of the Mint, with the approval of the Secretary of the Treasury.

SEC. 2. The coins herein authorized shall bear the date 1936, irrespective of the year in which they are minted or issued, shall be legal tender in any payment to the amount of their face value, and shall be issued only upon the request of the Norfolk Advertising Board, Inc., affiliated with the Norfolk Association of Commerce, upon payment by it of the par value of such coins, but not less than 5,000 such coins shall be issued to it at any one time and no such coins shall be issued after the expiration of 1 year after the date of enactment of this act. Such coins may be disposed of at par or at a premium by such association, and the net proceeds shall be used by it in defraying the expenses incidental and appropriate to the commemoration of such event.

SEC. 3. All laws now in force relating to the subsidiary silver coins of the United States and the coining or striking of the same; regulating and guarding the process of coinage; providing for the purchase of material and for the transportation, distribution, and redemption of coins; for the prevention of debasement or counterfeiting; for the security of the coins, or for any other purposes, whether such laws are penal or otherwise, shall, so far as applicable, apply to the coinage herein authorized.

The bill was ordered to be read a third time, was read the third time and passed, and a motion to reconsider laid on the table.

ORDER OF BUSINESS

Mr. REECE. Mr. Speaker, a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. REECE. Whether it would be in order to move to further insist upon the disagreement of the amendment of the Senate.

The SPEAKER. The rejection of the motion to concur in the Senate amendment is equivalent to a motion to further insist.

REPRESENTATIVE BRYANT T. CASTELLOW

Mr. DOXEY. Mr. Speaker, I ask unanimous consent to address the House for 2 minutes.

The SPEAKER. Is there objection?

There was no objection.

Mr. DOXEY. No matter how long we may have served in this House, Mr. Speaker, no matter what attachment we may have for those with whom we have come in contact, yet in the length of time I have served here I do not know of another man in this Congress than the one I have in mind, who can boast of the same record. He has served here for 4 years. He has never missed a yea-and-nay roll-call vote. He has never missed a meeting of his committee, has been always on time, and at the same time has been a member of one of the most important committees in the House, that of foreign affairs. He has been an inspiration to many of us. Further, he is voluntarily retiring from this House. I shall not attempt at this time to eulogize him, but I do say that we shall all miss him, and that this Congress, his State, and his Nation will lose a great and efficient representative of the people. I refer to BRYANT T. CASTELLOW, of Georgia. [Applause.]

I ask unanimous consent to insert in the RECORD a letter from his distinguished and beloved chairman, Judge McREYNOLDS, and also one from the distinguished Representative from North Carolina, Mr. LINDSAY C. WARREN.

The SPEAKER. Is there objection?

There was no objection.

The letters referred to are as follows:

WASHINGTON, D. C., *June 17, 1936.*

Hon. BRYANT T. CASTELLOW,
House of Representatives, Washington, D. C.

MY DEAR MR. CASTELLOW: I am writing you this letter in behalf of the Foreign Affairs Committee of the House, of which I am chairman, and of which you have been a most faithful member for the past 4 years.

We all regret, and I regret personally, that you are leaving Congress. Your leaving will not only be a loss to your district and the Nation but it is going to be a great personal loss to me as chairman of the committee on which you have served.

No one on this committee has the record that you have. You have never missed a meeting of the committee and you have always been on time at every meeting, except once when you were a few minutes late, unavoidably detained, and you notified the chairman that you would be a few minutes late.

You have taken a great interest in all matters coming before this committee, and many times have I assigned bills to you to be reported out of the committee, as well as looking after their passage in the House and Senate, and never yet have you failed me. In other words, whenever I assigned a bill to you, I could go to sleep on it, knowing that it would have your personal attention, and if I remember correctly, every bill that you have had charge of you have followed it until its final passage. This is a great relief for me to have a member in whom I could put that confidence and in whom I know has the intelligence to put a matter over.

You are genuinely beloved by the whole committee and all of us regret very much that you will not be with us after this session of Congress.

You have shown yourself to be a man of intelligence and your suggestions and advice to the committee have been of great help.

Let me say again, your absence will be my personal loss. The best wishes of this committee will go with you in whatever you may do or wherever you may go.

Assuring you of my friendship and highest personal regards, I am

Sincerely your friend,

S. D. McREYNOLDS,
Chairman, Committee on Foreign Affairs.

WASHINGTON, D. C., *May 21, 1936.*

Hon. B. T. CASTELLOW,
House of Representatves.

MY DEAR MR. CASTELLOW: I did not know until yesterday that you were retiring from Congress. I regret this exceedingly, for I have said many times that I regarded you as one of the strongest and best-balanced men in the House. You will no doubt find much more happiness away from here, but it is most unfortunate that you are leaving the public service at this time.

With high esteem and best wishes, I am,

Sincerely,

LINDSAY C. WARREN,
Chairman, Committee on Accounts, House of Representatives.

REGULATING SALES OF GOODS IN THE DISTRICT OF COLUMBIA

Mrs. NORTON. Mr. Speaker, I ask unanimous consent for the present consideration of S. 3450, to regulate the sales of goods in the District of Columbia.

The SPEAKER. The gentlewoman from New Jersey asks unanimous consent for the present consideration of the bill S. 3450, of which the Clerk will report the title.

The Clerk reported the title of the bill.

Mr. BLANTON. Mr. Speaker, we want to hear the bill read.

The SPEAKER. The Clerk will report the bill.

The Clerk proceeded with the reading of the bill.

Mr. BLANTON (interrupting the reading). Mr. Speaker, this is too important a bill to be taken up at this late hour. I object.

AMENDMENT TO DISTRICT OF COLUMBIA TRAFFIC ACT

Mrs. NORTON. Mr. Speaker, I ask unanimous consent for the present consideration of S. 3976, to amend the act approved February 27, 1931, known as the District of Columbia Traffic Act.

The SPEAKER. The gentlewoman from New Jersey asks unanimous consent for the present consideration of the bill S. 3976, which the Clerk will report.

The Clerk read the bill, as follows:

Be it enacted, etc., That subsection (c) of section 9 of the act of Congress entitled "An act to amend the acts approved March 3, 1925, and July 3, 1926, known as the District of Columbia Traffic Acts, etc., be, and the same is hereby, amended to read as follows:

"(c) Any individual violating any provision of this section where the offense constitutes reckless driving shall upon conviction for the first offense be fined not more than $250 or imprisoned not more than 3 months, or both; and upon conviction for the second or any subsequent offense committed within 2 years from the date of any such previous offense such individual shall be fined not more than $1,000 or imprisoned not more than 1 year, or both."

The SPEAKER. Is there objection?

There was no objection.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider laid on the table.

MANUFACTURING, DISPENSING, AND SELLING NARCOTIC DRUGS IN THE DISTRICT OF COLUMBIA

Mrs. NORTON. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 3514) to regulate the manufacturing, dispensing, selling, and possession of narcotic drugs in the District of Columbia.

The SPEAKER. Is there objection to the present consideration of the bill?

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., The following words and phrases, as used in this act, shall have the following meanings, unless the context otherwise requires:

(a) "Person" includes any corporation, association, copartnership, or one or more individuals.

(b) "Physician" means a person authorized by law to practice medicine or osteopathy in the District of Columbia.

(c) "Dentist" means a person authorized by law to practice dentistry in the District of Columbia.

(d) "Veterinarian" means a person authorized by law to practice veterinary medicine in the District of Columbia.

(e) "Manufacturer" means a person who by compounding, mixing, cultivating, growing, or other process produces or prepares narcotic drugs, but does not include an apothecary who compounds narcotic drugs to be sold or dispensed on prescription.

(f) "Wholesaler" means a person who supplies narcotic drugs that he himself has not produced nor prepared, on official written orders but not on prescription.

(g) "Apothecary" means a licensed pharmacist as defined by the laws of the District of Columbia, and, where the context so requires, the owner of a store or other place of business where narcotic drugs are compounded or dispensed by a licensed pharmacist; but nothing in this act shall be construed as conferring on a person who is not registered nor licensed as a pharmacist any authority, right, or privilege that is not granted to him by the pharmacy laws of the District of Columbia.

(h) "Hospital" means an institution for the care and treatment of the sick and injured, approved by the health officer of the District of Columbia as proper to be entrusted with the custody of narcotic drugs and the professional use of narcotic drugs under the direction of a physician, dentist, or veterinarian. The word "hospital" shall include dental and medical clinics: *Provided*, That said dental and medical clinics are approved by the health officer of the District of Columbia.

(i) "Laboratory" means a laboratory approved by the health officer of the District of Columbia as proper to be entrusted with the custody of narcotic drugs and the use of narcotic drugs for scientific and medical purposes and for purposes of instruction.

(j) "Sale" includes barter, exchange, or gift, or offer therefor, and each such transaction made by any person, whether as principal, proprietor, agent, servant, or employee.

(k) "Coca leaves" includes cocaine and any compound, manufacture, salt, derivative, mixture, or preparation of coca leaves, except derivatives of coca leaves which do not contain cocaine, ecgonine, or substances from which cocaine or ecgonine may be synthesized or made.

(l) "Opium" includes morphine, codeine, and heroin, and any compound, manufacture, salt, derivative, mixture, or preparation of opium.

(m) "Canabis" includes the following substances, under whatever names they may be designated: (a) The dried flowering or fruiting tops of the pistillate plant Cannabis sativa L., from which the resin has not been extracted, (b) the resin extracted from such tops, and (c) every compound, manufacture, salt, derivative, mixture, or preparation of such resin, or of such tops from which the resin has not been extracted.

(n) "Narcotic drugs" means coca leaves, opium, cannabis, and every substance not chemically distinguishable from them.

(o) "Federal narcotic laws" means the laws of the United States relating to opium, coca leaves, and other narcotic drugs.

(p) "Official written order" means an order written on a form provided for that purpose by the United States Commissioner of Narcotics, under any laws of the United States making provision therefor, if such order forms are authorized and required by Federal law, and if no such order form is provided, then on an official form provided for that purpose by the health officer of the District of Columbia.

(q) "Dispense" includes distribute, leave with, give away, dispose of, or deliver.

(r) "Registry number" means the number assigned to each person registered under the Federal narcotic laws.

ACTS PROHIBITED

SEC. 2. It shall be unlawful for any person to manufacture, possess, have under his control, sell, prescribe, administer, dispense, or compound any narcotic drug, except as authorized in this act.

MANUFACTURERS AND WHOLESALERS

SEC. 3. No person shall manufacture, compound, mix, cultivate, grow, or by any other process produce or prepare narcotic drugs, and no person as a wholesaler shall supply the same, without having first obtained a license so to do from the health officer of the District of Columbia.

QUALIFICATIONS FOR LICENSES

SEC. 4. No license shall be issued under the foregoing section unless and until the applicant therefor has furnished proof satisfactory to the health officer of the District of Columbia of the following:

(a) That the applicant is of good moral character, or, if the applicant be an association or corporation, that the managing officers are of good moral character.

(b) That the applicant is equipped as to land, buildings, and paraphernalia properly to carry on the business described in his application.

No license shall be granted to any person who has been convicted of a willful violation of any law of the United States, or of any State, relating to opium, coca leaves, cannabis, or other narcotic drugs, or to any person who is a narcotic drug addict.

The health officer of the District of Columbia may suspend or revoke any license issued by said health officer under the provisions of this act for cause.

USE OF OFFICIAL WRITTEN ORDERS

SEC. 5. An official written order for any narcotic drug shall be signed in duplicate by the person giving said order or by his duly authorized agent. The original shall be presented to the person who sells or dispenses the narcotic drug or drugs named therein. In event of the acceptance of such order by said person, each party to the transaction shall preserve his copy of such order for a period of 2 years in such a way as to be readily accessible for inspection by any public officer or employee engaged in the enforcement of this act. It shall be deemed a compliance with this subsection if the parties to the transaction have complied with the Federal narcotic laws, respecting the requirements governing the use of order forms.

SALE ON WRITTEN ORDERS

SEC. 6. (a) A duly licensed manufacturer or wholesaler may sell and dispense narcotic drugs to any of the following persons, but only on official written orders:

(1) To a manufacturer, wholesaler, or apothecary.

(2) To a physician, dentist, or veterinarian.

(3) To a person in charge of a hospital, but only for use by or in that hospital.

(4) To a person in charge of a laboratory, but only for use in that laboratory for scientific and medical purposes.

(b) A duly licensed manufacturer or wholesaler may also sell narcotic drugs to any of the following persons:

(1) On a special written order accompanied by a certificate of exemption, as required by the Federal narcotic laws, to a person in the employ of the United States Government, or of the District of Columbia, or of any State, territorial, district, county, municipal, or insular government, purchasing, receiving, possessing, or dispensing narcotic drugs by reason of his official duties.

(2) To a master of a ship or a person in charge of any aircraft upon which no physician is regularly employed, or to a physician or surgeon duly licensed in some State, Territory, or the District of Columbia to practice his profession, or to a retired commissioned medical officer of the United States Army, Navy, or Public Health Service employed upon such ship or aircraft, for the actual medical needs of persons on board such ship or aircraft, when not in port: *Provided*, That such narcotic drugs shall be sold to the master of such ship or person in charge of such aircraft, or to the physician, surgeon, or retired commissioned medical officer of the United States Army, Navy, or Public Health Service employed upon such ship or aircraft only in pursuance of a special order form approved by a commissioned medical officer or acting assistant surgeon of the United States Public Health Service.

(3) To a person in a foreign country if the provisions of the Federal narcotic laws are complied with.

POSSESSION LAWFUL

(c) Possession of or control of narcotic drugs obtained as authorized by this section shall be lawful if obtained and used in the regular course of business, occupation, profession, employment, or duty of the possessor.

SEC. 7. A person in charge of a hospital or of a laboratory, or in the employ of the District of Columbia or of any State, or of any political subdivision thereof, or a master of a ship or a person in charge of any aircraft upon which no physician is regularly employed, or a physician or surgeon duly licensed in some State, Territory, or the District of Columbia, to practice his profession, or a retired commissioned medical officer of the United States Army, Navy, or Public Health Service employed upon such ship or aircraft who obtains narcotic drugs under the provisions of section 6 of this act, or otherwise, shall not administer, nor dispense, nor otherwise use such drugs, within the District of Columbia, except within the scope of his employment or official duty, and then only for scientific or medical purposes and subject to the provisions of this act.

SALES BY APOTHECARIES

SEC. 8. (a) An apothecary, in good faith, may sell and dispense narcotic drugs to any person upon a written prescription of a physician, dentist, or veterinarian, dated and signed, on the day when issued, by the physician, dentist, or veterinarian prescribing said narcotic drugs. The prescription when issued shall also state the full name and address of the patient for whom, or of the owner of the animal for which, the drug is dispensed, and the full name, address, and registry number under the Federal narcotic laws of the person prescribing, if he is required by those laws to be so registered. If the prescription be for an animal, it shall state the species of animal for which the drug is prescribed. The person filling the prescription shall write the date of filling and his own signature on the face of the prescription. The prescription shall be retained on file by the proprietor of the pharmacy in which it is filled for a period of 2 years, so as to be readily accessible for inspection by any public officer or employee engaged in the enforcement of this act. The prescription shall not be refilled.

(b) The legal owner of any stock of narcotic drugs in a pharmacy, upon discontinuance of dealing in said drugs, may sell said stock to a manufacturer, wholesaler, or apothecary, but only on an official written order.

(c) An apothecary, only upon an official written order, may sell to a physician, dentist, or veterinarian, in quantities not exceeding 1 ounce at any one time, aqueous or oleaginous solutions of which the content of narcotic drugs does not exceed a proportion greater than 20 percent of the complete solution, to be used for medical purposes.

PROFESSIONAL USE OF NARCOTIC DRUGS

PHYSICIANS AND DENTISTS

SEC. 9. (a) A physician or a dentist, in good faith and in the course of his professional practice only, may prescribe, administer, and dispense narcotic drugs, or he may cause the same to be administered by a nurse or interne under his direction and supervision.

VETERINARIANS

(b) A veterinarian, in good faith and in the course of his professional practice only, and not for use by a human being, may prescribe, administer, and dispense narcotic drugs, and he may cause them to be administered by an assistant or orderly under his direction and supervision.

RETURN OF UNUSED DRUGS

(c) Any person who has obtained from a physician, dentist, or veterinarian any narcotic drug for administration to a patient during the absence of such physician, dentist, or veterinarian, shall return to such physician, dentist, or veterinarian any unused portion of such drug, when it is no longer required by the patient.

PREPARATIONS EXEMPTED

SEC. 10. Except as otherwise in this act specifically provided, this act shall not apply to the following cases:

(a) Prescribing, administering, dispensing, or selling at retail of any medicinal preparation that contains in 1 fluid ounce, or if a solid or semisolid preparation, in 1 avoirdupois ounce, (1) not more than 2 grains of opium, (2) not more than one-quarter of a grain of morphine or of any of its salts, (3) not more than 1 grain of codeine or of any of its salts, (4) not more than one-eighth of a grain of heroin or of any of its salts, (5) not more than one-half of a grain of extract of cannabis, nor more than one-half of a grain of any more potent derivative or preparation of cannabis.

(b) Prescribing, administering, dispensing, or selling at retail of liniments, ointments, and other preparations that are susceptible of external use only and that contain narcotic drugs in such combinations as prevent their being readily extracted from such liniments, ointments, or preparations, except that this act shall apply to all liniments, ointments, and other preparations that contain coca leaves in any quantity or combination.

The exemptions authorized by this section shall be subject to the following conditions:

(1) No person shall dispense, or sell under the exemptions of this section, to any one person, or for the use of any one person or animal, any preparation or preparations included within this section, when he knows or can by reasonable diligence ascertain that such dispensing or selling will provide the person to whom or for whose use, or the owner of the animal for the use of which such preparation is prescribed, administered, dispensed, or sold, within any 2 consecutive days with more than 2 grains of opium or more than 1 grain of morphine, or of any of its salts, or more than 4 grains of codeine or of any of its salts, or more than ¼ of a grain of heroin or of any of its salts, or more than 1 grain of extract of cannabis, or 1 grain of any more potent derivative or preparation of cannabis.

(2) The medicinal preparation, or the liniment, ointment, or other preparation susceptible of external use only, prescribed, administered, dispensed, or sold, shall contain, in addition to the narcotic drug in it, some drug or drugs conferring upon it medicinal qualities other than those possessed by the narcotic drug alone. Such preparation shall be prescribed, administered, dispensed, and sold in good faith as a medicine, and not for the purpose of evading the provisions of this act.

Nothing in this section shall be construed to limit the kind and quantity of any narcotic drug that may be prescribed, administered, dispensed, or sold to any person, or for the use of any person or animal, when it is prescribed, administered, dispensed, or sold in compliance with the general provisions of this act.

RECORD TO BE KEPT

PHYSICIANS, DENTISTS, VETERINARIANS, AND OTHED AUTHORIZED PERSONS

SEC. 11. (a) Every physician, dentist, veterinarian, or other person who is authorized to administer or professionally use narcotic drugs shall keep a record of such drugs received by him, and a record of all such drugs administered, dispensed, or professionally used by him otherwise than by prescription. It shall, however, be deemed a sufficient compliance with this subsection if any such person using small quantities of solutions or other preparations of such drugs for local application shall keep a record of the quantity, character, and potency of such solutions or other preparations purchased or made up by him, and of the dates when purchased, or made up, without keeping a record of the amount of such solution or other preparation applied by him to individual patients: *Provided*, That no record need be kept of narcotic drugs administered, dispensed, or professionally used in the treatment of any one patient when the amount administered, dispensed, or professionally used for that purpose does not exceed in any 48 consecutive hours (1) 4 grains of opium, or (2) one-half of a grain of morphine or of any of its salts, or (3) 2 grains of codeine or of any of its salts, or (4) one-fourth of a grain of heroin or any of its salts, or (5) 1 grain of extract of cannabis, or 1 grain of any more potent derivative or preparation of cannabis, or (6) a quantity of any other narcotic drug or any combination of narcotic drugs that does not exceed in pharmacologic potency any one of the drugs named above in the quantity stated.

MANUFACTURERS AND WHOLESALERS

(b) Manufacturers and wholesalers shall keep records of all narcotic drugs compounded, mixed, cultivated, grown, or by any other process produced or prepared and of all narcotic drugs received and disposed of by them, in accordance with the provisions of subsection (e) of this section.

APOTHECARIES

(c) Apothecaries shall keep records of all narcotic drugs received and disposed of by them, in accordance with the provisions of subsection (e) of this section.

VENDORS OF EXEMPTED PREPARATIONS

(d) Every person who purchases for resale, or who sells narcotic drug preparations exempted by section 10 of this act, shall keep a record showing the quantities and kinds thereof received and sold, or disposed of otherwise, in accordance with the provisions of subsection (e) of this section.

FORM AND PRESERVATION OF RECORDS

(e) The form of records shall be prescribed by the health officer of the District of Columbia. The record of narcotic drugs received shall in every case show the date of receipt, the name and address of the person from whom received, and the kind and quantity of drugs received; the kind and quantity of narcotic drugs produced or removed from process of manufacture, and the date of such production or removal from process of manufacture; and the record shall in every case show the proportion of morphine, cocaine, or ecgonine contained in or producible from crude opium or coca leaves received or produced, and the proportion of resin contained in or producible from the dried flowering or fruiting tops of pistillate plant Cannabis sativa L., from which the resin has not been extracted, received, or produced. The record of all narcotic drugs sold, administered, dispensed, or otherwise disposed of, shall show the date of selling, administering, or dispensing, the name and address of the person to whom, or for whose use, or the owner and species of animal for which the drugs were sold, administered, or dispensed, and the kind and quantity of drugs. Every such record shall be kept for a period of 2 years from the date of the transaction recorded. The keeping of a record required by or under the Federal narcotic laws, containing substantially the same information as is specified above, shall constitute compliance with this section, except that every such record shall contain a detailed list of narcotic drugs lost, destroyed, or stolen, if any, the kind and quantity of such drugs, and the date of the discovery of such loss, destruction, or theft.

LABELS

SEC. 12. (a) Whenever a manufacturer sells or dispenses a narcotic drug, and whenever a wholesaler sells or dispenses a narcotic drug in a package prepared by him, he shall securely affix to each

package in which that drug is contained a label showing in legible English the name and address of the vendor and the quantity, kind, and form of narcotic drug contained therein. No person, except an apothecary for the purpose of filling a prescription under this act, shall alter, deface, or remove any label so affixed.

(b) Whenever an apothecary sells or dispenses any narcotic drug on a prescription issued by a physician, dentist, or veterinarian he shall affix to the container in which such drug is sold or dispensed a label showing his own name, address, and registry number, or the name, address, and registry number of the apothecary for whom he is lawfully acting; the name and address of the patient, or, if the patient is an animal, the name and address of the owner of the animal, and the species of the animal; the name, address, and registry number of the physician, dentist, or veterinarian by whom the prescription was written; and such directions as may be stated on the prescription. No person shall alter, deface, or remove any label so affixed as long as any of the original contents remain.

AUTHORIZED POSSESSION OF NARCOTIC DRUGS BY INDIVIDUALS

SEC. 13. A person to whom or for whose use any narcotic drug has been prescribed, sold, or dispensed, by a physician, dentist, apothecary, or other person authorized under the provisions of section 6 of this act, and the owner of any animal for which any such drug has been prescribed, sold, or dispensed, by a veterinarian, may lawfully possess it only in the container in which it was delivered to him by the person selling or dispensing the same.

SEARCH WARRANT

SEC. 14. (a) A search warrant may be issued by any judge of the police court of the District of Columbia or by a United States commissioner for the District of Columbia when any narcotic drugs are manufactured, possessed, controlled, sold, prescribed, administered, dispensed, or compounded, in violation of the provisions of this act, and any such narcotic drugs and any other property designed for use in connection with such unlawful manufacturing, possessing, controlling, selling, prescribing, administering, dispensing, or compounding, may be seized thereunder, and shall be subject to such disposition as the court may make thereof and such narcotic drugs may be taken on the warrant from any house or other place in which they are concealed.

(b) A search warrant cannot be issued but upon probable cause supported by affidavit particularly describing the property and the place to be searched.

(c) The judge or commissioner must, before issuing the warrant, examine on oath the complainant and any witnesses he may produce, and require their affidavits or take their depositions in writing and cause them to be subscribed by the parties making them.

(d) The affidavits or depositions must set forth the facts tending to establish the grounds of the application or probable cause for believing that they exist.

(e) If the judge or commissioner is thereupon satisfied of the existence of the grounds of the application or that there is probable cause to believe their existence, he must issue a search warrant, signed by him, to the major and superintendent of police of the District of Columbia or any member of the Metropolitan Police Department, stating the particular grounds or probable cause for its issue and the names of the persons whose affidavits have been taken in support thereof, and commanding him forthwith to search the place named for the property specified and to bring it before the judge or commissioner.

(f) A search warrant may in all cases be served by any of the officers mentioned in its direction, but by no other person, except in aid of the officer on his requiring it, he being present and acting in its execution.

(g) The officer may break open any outer or inner door or window of a house, or any part of a house, or anything therein, to execute the warrant, if, after notice of his authority and purpose, he is refused admittance.

(h) The judge or commissioner must insert a direction in the warrant that it be served in the daytime unless the affidavit is positive that the property is in the place to be searched, in which case he must insert a direction that it be served at any time in the day or night.

(i) A search warrant must be executed and returned to the judge or commissioner who issued it within 10 days after its date; after the expiration of this time the warrant, unless executed, is void.

(j) When the officer takes property under the warrant, he must give a copy of the warrant, together with a receipt for the property taken (specifying it in detail), to the person from whom it was taken by him, or in whose possession it was found; or in the absence of any person, he must leave it in the place where he found the property.

(k) The officer must forthwith return the warrant to the judge or commissioner and deliver to him a written inventory of the property taken, made publicly or in the presence of the person from whose possession it was taken, and of the applicant for the warrant, if they are present, verified by the affidavit of the officer at the foot of the inventory and taken before the judge or commissioner at the time, to the following effect: "I, , the officer by whom this warrant was executed, do swear that the above inventory contains a true and detailed account of all the property taken by me on the warrant."

(l) The judge or commissioner must thereupon, if required, deliver a copy of the inventory to the person from whose possession the property was taken and to the applicant for the warrant.

(m) The judge or commissioner must annex the affidavits, search warrant, return, inventory, and evidence, and at once file the same, together with a copy of the record of his proceedings, with the clerk of the police court.

(n) Whoever shall knowingly and willfully obstruct, resist, or oppose any such officer or person in serving or attempting to serve or execute any such search warrant, or shall assault, beat, or wound any such officer or person, knowing him to be an officer or person so authorized, shall be fined not more than $1,000 or imprisoned not more than 2 years.

PERSONS AND CORPORATIONS EXEMPTED

SEC. 15. The provisions of this act restricting the possession and having control of narcotic drugs shall not apply to common carriers or to warehousemen, while engaged in lawfully transporting or storing such drugs, or to any employee of the same acting within the scope of his employment; or to public officers or their employees in the performance of their official duties requiring possession or control of narcotic drugs; or to temporary incidental possession by employees or agents of persons lawfully entitled to possession, or by persons whose possession is for the purpose of aiding public officers in performing their official duties.

COMMON NUISANCES

SEC. 16. Any store, shop, warehouse, dwelling house, building, vehicle, boat, aircraft, or any place whatever, which is resorted to by narcotic drug addicts for the purpose of using narcotic drugs or which is used for the illegal keeping or selling of the same, shall be deemed a common nuisance. No person shall keep or maintain such a common nuisance.

NARCOTIC DRUGS TO BE DELIVERED TO STATE OFFICIAL, AND SO FORTH

SEC. 17. All narcotic drugs, the lawful possession of which is not established or the title to which cannot be ascertained, which have come into the custody of a peace officer, shall be forfeited, and disposed of as follows:

(a) Except as in this section otherwise provided, the court or magistrate having jurisdiction shall order such narcotic drugs forfeited and destroyed. A record of the place where said drugs were seized, of the kinds and quantities of drugs so destroyed, and of the time, place, and manner of destruction shall be kept, and a return under oath, reporting said destruction, shall be made to the court or magistrate and to the United States Commissioner of Narcotics, by the officer who destroys them.

(b) Upon written application by the health officer of the District of Columbia, the court or magistrate by whom the forfeiture of narcotic drugs has been decreed may order the delivery of any of them, except heroin and its salts and derivatives, to said health officer of the District of Columbia for distribution or destruction, as hereinafter provided.

(c) Upon application by any hospital within the District of Columbia not operated for private gain, the health officer of the District of Columbia may in his discretion deliver any narcotic drugs that have come into his custody by authority of this section to the applicant for medicinal use. The health officer may from time to time deliver excess stocks of such narcotic drugs to the United States Commissioner of Narcotics, or may destroy the same.

(d) The health officer of the District of Columbia shall keep a full and complete record of all drugs received and of all drugs disposed of, showing the exact kinds, quantities, and forms of such drugs; the persons from whom received and to whom delivered; by whose authority received, delivered, and destroyed; and the dates of the receipt, disposal, or destruction, which record shall be open to inspection by all Federal or District of Columbia officers charged with the enforcement of Federal and District narcotic laws.

NOTICE OF CONVICTION TO BE SENT TO LICENSING BOARD

SEC. 18. On the conviction of any person of the violation of any provision of this act, a copy of the judgment and sentence, and of the opinion of the court or magistrate, if any opinion be filed, shall be sent by the clerk of the court, or by the magistrate, to the board or officer, if any, by whom the convicted defendant has been licensed or registered to practice his profession or to carry on his business, and the said board or officer may in its or his discretion suspend or revoke the license of the convicted defendant to practice his profession or to carry on his business. On the application of any person whose license or registration has been suspended or revoked, and upon proper showing for good cause, said board or officer may reinstate such license or registration.

RECORDS, CONFIDENTIAL

SEC. 19. Prescriptions, orders, and records, required by this act, and stocks of narcotic drugs, shall be open for inspection only to Federal and District of Columbia officers whose duty it is to enforce the laws of the District of Columbia, or of the United States relating to narcotic drugs. No officer having knowledge by virtue of his office of any such prescription, order, or record shall devulge such knowledge, except in connection with a prosecution or proceeding in court or before a licensing or registration board or officer, to which prosecution or proceeding the person to whom such prescriptions, orders, or records relate is a party.

FRAUD OR DECEIT

SEC. 20. (a) No person shall obtain or attempt to obtain a narcotic drug, or procure or attempt to procure the administration of a narcotic drug, (1) by fraud, deceit, misrepresentation, or subterfuge; or (2) by the forgery or alteration of a prescription or of any written order; or (3) by the concealment of a

material fact; or (4) by the use of a false name or the giving of a false address.

(b) Information communicated to a physician in an effort unlawfully to procure a narcotic drug, or unlawfully to procure the administration of any such drug, shall not be deemed a privileged communication.

(c) No person shall willfully make a false statement in any prescription, order, report, or record required by this act.

(d) No person shall, for the purpose of obtaining a narcotic drug, falsely assume the title of, or represent himself to be, a manufacturer, wholesaler, apothecary, physician, dentist, veterinarian, or other authorized person.

(e) No person shall make or utter any false or forged prescription or false or forged written order.

(f) No person shall affix any false or forged label to a package or receptacle containing narcotic drugs.

(g) The provisions of this section shall apply to all transactions relating to narcotic drugs under the provisions of section 10 of this act, in the same way as they apply to transactions under all other sections.

EXCEPTIONS AND EXEMPTIONS NOT REQUIRED TO BE NEGATIVED

SEC. 21. In any complaint, information, or indictment, and in any action or proceeding brought for the enforcement of any provision of this act, it shall not be necessary to negative any exception, excuse, proviso, or exemption, contained in this act, and the burden of proof of any such exception, excuse, proviso, or exemption, shall be upon the defendant.

ENFORCEMENT AND COOPERATION

SEC. 22. It is hereby made the duty of the major and superintendent of police of the District of Columbia to enforce all provisions of this act except those specifically delegated, and to cooperate with all agencies charged with the enforcement of the laws of the United States relating to narcotic drugs.

PENALTIES

SEC. 23. Any person violating any provision of this act shall upon conviction be punished, for the first offense, by a fine not exceeding $1,000, or by imprisonment for not exceeding 1 year, or by both such fine and imprisonment, and for any subsequent offense by a fine not exceeding $5,000, or by imprisonment for not exceeding 10 years, or by both such fine and imprisonment.

EFFECT OF ACQUITTAL OR CONVICTION UNDER FEDERAL NARCOTIC LAWS

SEC. 24. No person shall be prosecuted for a violation of any provision of this act if such person has been acquitted or convicted under any United States statute governing the sale or distribution of narcotic drugs, of the same act or omission which, it is alleged, constitutes a violation of this act.

CONSTITUTIONALITY

SEC. 25. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

INCONSISTENT LAWS REPEALED

SEC. 26. All acts or parts of acts which are inconsistent with the provisions of this act are hereby repealed.

NAME OF ACT

SEC. 27. This act may be cited as the Uniform Narcotic Drug Act.

TIME OF TAKING EFFECT

SEC. 28. This act shall take effect July 1, 1936.

With the following committee amendments:

Page 2, line 20, after the word "institution", insert the words "or clinic."

Page 2, line 25, strike out beginning with the word "The" down through and including the word "Columbia", on page 3, line 3.

Page 3, line 20, strike out the word "Canabis" and insert the word "Cannabis."

Page 5, line 6, insert the following:

"Licenses shall be issued for a period of 1 year and may be renewed for a like period. A fee of $5 shall be paid to the health officer for any license so issued or renewed. The said health officer is authorized to have printed such licenses as may be necessary and to be paid for out of the money collected by him for the issuance of licenses. At the close of each fiscal year any funds unexpended in excess of the sum of $100 shall be paid into the Treasury of the United States to the credit of the District of Columbia."

Page 6, line 21, after the word "To", strike out the following: "a person in charge of".

Page 6, line 22, strike out the period and insert a colon and the following: "*Provided*, That the official written order is signed by a physician, dentist, veterinarian, or pharmacist connected with that hospital."

Page 8, line 5, after the word "lawful", insert the word "only."

Page 9, line 2, after the word "signed", insert the following: "in ink or indelible pencil."

Page 10, line 7, after the word "prescribe", insert the words "in writing."

Page 10, line 9, insert the following:

"Such a prescription shall be dated and signed by the person prescribing on the day when issued and shall bear the full name and address of the patient for whom the narcotic drug is prescribed and the full name, address, and registry number under the Federal narcotic laws of the person prescribing, provided he is required by those laws to be so registered."

Page 10, line 13, after the word "prescribe" insert the words "in writing."

Page 10, line 15, insert the following:

"Such a prescription shall be dated and signed by the person prescribing on the day when issued and shall bear the full name and address of the owner of the animal, the species of the animal for which the narcotic is prescribed, and the full name, address, and registry number under the Federal narcotic laws of the person prescribing, provided he is required by those laws to be so registered."

Page 13, insert a new section to be known as section 10a and to read as follows:

"No person other than a manufacturer or wholesaler shall dispense or sell tincture opii camphorata, commonly known as paregoric, to any person without a written prescription from a duly licensed physician, dentist, veterinarian, or other authorized person."

Page 13, line 11, strike out the period and insert the following: "in accordance with the provisions of subsection (e) of this section."

The committee amendments were agreed to.

The bill as amended was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ACHIEVEMENTS OF THE SEVENTY-FOURTH CONGRESS AND THE NEW DEAL

Mr. SANDERS of Texas. Mr. Speaker, I ask unanimous consent to insert in the RECORD a speech delivered by the gentleman from Texas [Mr. JOHNSON] over the radio last night.

The SPEAKER. Without objection, it is so ordered.

There was no objection.

Mr. SANDERS of Texas. Mr. Speaker, pursuant to unanimous consent heretofore granted, I submit for the RECORD a very interesting and informative speech delivered by my colleague, Hon. JED JOHNSON, of Oklahoma, chairman of the speaker's bureau of the national Democratic congressional committee, over the NBC network, on Friday night, June 19, 1936.

ACHIEVEMENTS OF THE SEVENTY-FOURTH CONGRESS AND THE NEW DEAL

Ladies and gentlemen of the radio audience, the last session of the Seventy-fourth Congress has virtually become history. Adjournment now seems certain tomorrow. It has been a hectic and strenuous session.

In the brief time at my disposal it is, of course, impossible to more than touch the high spots of the contributions made by the present Congress to the President's recovery program. It being impossible to even mention many problems that have confronted this administration, I shall confine this discussion chiefly to agriculture, unemployment, banking, and social security.

PRESIDENT HAS RESPONSIBILITY

Partisan Republican leaders are vociferously charging that this has been a "rubber stamp" Congress. That is the charge always heard whenever there is reasonable cooperation between the executive and legislative branches of the Government. But I submit that without this cooperation our system of government breaks down. The Constitution places certain responsibilities upon the Chief Executive in matters of legislation. Section 3 of article II of this document states: "He shall from time to time give the Congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient."

FATE OF NATION HELD IN BALANCE

It seems only a short time ago that thousands of anxious-faced Americans stood here in the city of Washington and watched with bated breath as Franklin D. Roosevelt was sworn into office. Yet some of us may have difficulty in recalling to memory the picture of that dark hour when the very fate of the Republic hung in the balance. I am sure that our opponents would like for the American people to forget that on that day this great Nation, the richest in all the world, was in the grip of a terrible, hope-destroying economic panic that threatened the very foundation of this Government.

FACED MANY GRAVE EMERGENCIES

Undoubtedly the American people have not so soon forgotten that practically every phase of our economic system was paralyzed. Banks were closing in almost every city and hamlet in America. Business firms were going bankrupt by the thousands; farmers saw their homes sold under the hammer for debt; millions were unemployed, and suffering was rampant in this unhappy land. The new administration was faced, not with a single problem, but with a score of grave emergencies. Immediate and drastic action was essential.

FARM CREDIT BANK EXTENDED

In a few weeks after the new administration came into office, the farm-credit system, which had broken down under Republican misrule, was revised and has helped more than a million farmers by refinancing old loans and making new ones providing

more than $3,500,000,000 in credit to our distressed farmers. The opposition may have some difficulty convincing these 1,000,000 farmers that this three and one-half billion has been wasted. Of course, these loans are well secured. I am not one of those who feel that the farm-credit problem has been solved, but certainly the saving of a million farm homes from the sheriff's hammer by the Roosevelt administration needs no apology. It is a record unequaled by any former administration.

AGRICULTURE AFFECTS ALL CITIZENS

Inasmuch as the welfare of agriculture vitally affects every citizen of this land, need I remind you of the terrible plight in which our farmers found themselves on March 4, 1933? Let those who so freely criticize the New Deal farm program remember those dark days of 1930, 1931, 1932, and the first few months of 1933.

Farmers did not make so much as actual cost of production and were going broke at an alarming speed. The country was facing a serious economic crisis. All of us know that we cannot have a prosperous Nation unless our farmers are prosperous. The factory wheels of the East and Middle West cannot turn unless the farmers can buy the goods and services they need. As farm income declined, farmers went into debt and reduced their consumption of manufactured products. As the farmers stopped buying, factory wheels began to slow down.

Railroads had fewer cars to haul. Factory workers lost their jobs. They, in turn, were forced to reduce their purchases of farm products. It was a vicious circle which built up a surplus of farm and manufactured products that brought on bankruptcies by the thousands. Cotton sold for from 4 to 5 cents a pound, wheat was 25 to 30 cents a bushel, and the farmer who took a load of hogs or cattle to market was fortunate if he got enough for them to pay the expenses of hauling.

FARM PRICES ADVANCED UNDER A. A. A.

The new administration also took immediate and effective steps to raise farm prices by passage of the Agricultural Adjustment Act. Farm prices immediately advanced and the annual income of American agriculture was increased $3,000,000,000. We have not yet reached the goal of equality for agriculture, but undoubtedly we are on our way. In the last year of the Wilson administration the gross income of American farmers was $13,600,000,000.

In 1932, under the old deal, it had declined to $5,300,000,000, a loss of more than $8,000,000,000. In 1935 the gross income of the American farmer was $8,110,000,000, a gain of nearly $3,000,000,000. It is also significant that since 1933 nearly 2,000,000 people have returned to the farm.

SOIL CONSERVATION ACT

When the Supreme Court, by a divided opinion, held the Agricultural Adjustment Act unconstitutional, the present Congress did not throw up its hands in despair but promptly passed the Domestic Allotment and Soil Conservation Act in an effort to maintain agricultural purchasing power and conserve our precious soil. Soil conservation is a matter of vital importance to every American citizen. More than 50,000,000 acres of our lands have been destroyed by that giant enemy, erosion; and more than 360,000,000 acres have been seriously damaged. Had this been permitted to continue, this rich Nation, in the not-far-distant future, would be forced to import agricultural products on an enormous scale.

REPUBLICANS DID NOTHING FOR AGRICULTURE

What did the Republicans, now promising so much, do about the farm problem? Nothing constructive, nothing permanent. They established the Farm Board that poured several millions of dollars of the taxpayers' money down the biggest rat hole that any administration has ever discovered. They also called in the old guard quack doctor, who prescribed a big dose of the high tariff. The Tariff Act of 1930 increased the rates on agricultural products 30 percent. Did that help farm prices? Well does the American farmer know it did not; but farm prices continued on the downward toboggan to bankruptcy.

HIGH TARIFF ACT OF 1930 FAILED

The tariff is the remedy that the old guard doctors have for everything, whether it is unemployment, low wages, child labor, sweatshops, or what have you.

Down at Cleveland the other day they said: "We do not need to amend the Constitution. We'll just increase the tariff again. That will cure everything."

UNEMPLOYMENT PROBLEM

Unemployment, the result of a series of economic maladjustments neglected by previous administrations, was one of the extremely serious problems facing the Nation in 1932—is still a major problem—and the people of the Nation should be seriously concerned about how unemployment is to be handled in 1937 and 1938.

The present Congress has twice made appropriations for the relief of unemployment, feeling that this is a matter of concern to the Federal Government with its vast resources. We on the Democratic side have taken the position that if this great Government could spend $40,000,000,000 fighting a war in Europe, that we could spend a small percent of that sum fighting a war against hunger, unemployment, and actual starvation within our borders.

SAID RELIEF LOCAL PROBLEM ONLY

In 1932 the Republican Party went before the country on a relief plank stating:

"True to American traditions and principles of government, the administration has regarded the relief problem as one of State and local responsibility."

That was the administration, you will recall, when prosperity was "Hoovering around the corner" and we were told that there was nothing to get excited about, as the country was still on the gold standard and all that we needed was confidence.

G. O. P DARES NOT DEMAND REPEAL

As chairman of the speakers' bureau of the Democratic National Congressional Committee I have addressed audiences in several States in recent months, and in discussing the first 3 years of the New Deal I have freely predicted that the Republicans in their 1936 platform would not have the temerity to advocate the repeal of a single one of the major New Deal legislative enactments.

That prediction has come true. Did the G. O. P. go on record at Cleveland favoring discontinuance of benefit payments to farmers, so severely criticized by spellbinders in recent months? Oh, no! Did they go on record as favoring repeal of the Farm Credit Act, the Home Owners' Loan Act, the Social Security Act, the National Youth Administration, the banking legislation, neutrality legislation, the act creating the C. C. C. camps, or any other important New Deal legislation? They did not.

WOULD NOW LEND "SOME ASSISTANCE"

But they did go back to their old position on relief, with modifications. True, they did not dare go all the way back. They do not now propose for the States and local communities to carry all of the burden as they did in 1932, but promise that the Federal Government will lend some assistance, with "a fair proportion of the total relief burden to be provided from the revenues of the States and local governments."

LOCAL COMMUNITIES NOW OVERTAXED

You know what the situation was in 1932. The States and local governments were heavily in debt. Many of them had increased their taxes to the breaking point, the maximum allowed by law, in an effort to help the needy unemployed. But people could not pay their taxes. The new burdens forced business firms into bankruptcy and resulted in the sale of many a home for taxes.

What State or local community could even now shoulder 25 percent of the relief burden without increasing local taxes to a point where countless businessmen and home owners would be shouldering a burden they could not possibly bear?

NEW DEAL BANKING LEGISLATION

When the Republicans met at Cleveland to "view with alarm" and yet failed to "point with pride" to the record of the Hoover administration, did they promise to repeal the bank-guarantee law and other remedial New Deal banking acts? They did not. They dared not go on record opposing such popular legislation.

You will recall the dire predictions that were made and the abuse that was heaped upon Congress by the big Republican newspapers, with the Liberty League complex, when the Banking Act of 1935 was under consideration a year ago. Do you remember the partisan Republican spellbinders who predicted that the banking legislation was impractical? Where are those critics now? Apparently they did not get to Cleveland.

REFUSED TO PASS SOCIAL-SECURITY LEGISLATION

What about the Social Security Act? Did the Republicans demand its repeal? Certainly not. As a bid for votes they indicated they now feel that the New Deal has not gone far enough. Yet, you and I know that had the G. O. P. been victorious in 1932, there would be no Social Security Act now and the Cleveland platform would be silent as the grave on that important subject, as was all previous Republican platforms.

Personally I feel that the Social Security Act is not the last word, but rather the first word on the subject. If and when that law is strengthened and liberalized it will not be done by the opposition party, that it is conceded is not in sympathy with this law, but by President Roosevelt and a sympathetic Democratic Congress.

PLATFORM CLEAR-CUT AND PROGRESSIVE

Soon the Democratic chieftains will meet in Philadelphia to write a platform and nominate not only a real Democrat, but a great humanitarian, a great American, Franklin D. Roosevelt, as again standard bearer for the Democratic Party. We have every reason to believe that the Democratic platform will be a straightforward, progressive, clear-cut document; that it will be definite and certain; that it will not try to compete with Republicans in writing a "catch-all" platform, that is all things to all people, but means nothing definite to any and straddles the real issues of the day.

Let us hope that Democrats will stand, not only on their platform, but upon the record of worth-while achievements of this administration. A record made by individuals or party speaks much louder and more definitely than campaign promises.

WILL CONTINUE TO BE "GOOD NEIGHBOR"

Let us also hope that Democratic speakers will not criticize personally the Republican nominee. The citizens of my great State of Oklahoma know the Republican nominee as a good neighbor and like him as a neighbor, and I am very much of the opinion that when the smoke of November's battle has cleared away they will vote to permit him to remain as a neighbor and continue to reside in the great State of Kansas.

"HE ALSO RAN FOR PRESIDENT"

Frankly, I am of the opinion that when the historian shall write the history of this campaign, and especially the history of the Republican nominee, that it will be said of him that he served with more or less distinction as Governor of the wonderful State of Kansas and that he also ran for President.

"LEST WE FORGET—LEST WE FORGET"

Now, when our opponents decry the mistakes of the New Deal, actual and alleged, let us ask them to stick to the subject under discussion. Let us ask them what New Deal laws they would repeal. Let us remind them that they failed to take effective and courageous action when the Nation stood on the brink of a yawning precipice where the spineless and do-nothing policy of their three past administrations had led us. Let us remind them that a hungry man cannot eat a political platform and that a declaration of principles drawn up in a few short hours by a few discarded members of the old guard representing a politically bankrupt party at a political convention will not pay a mortgage. Tell them that we have not forgotten the dark and dismal days of 1931 and 1932. No; I cannot believe our people are going to forget. Lord God of Hosts, be with us yet, lest we forget, lest we forget!

R. D. STEPHENS AND VERA STEPHENS

Mr. DIRKSEN. Mr. Speaker, I ask unanimous consent for the present consideration of the bill (S. 3808) for the relief of R. D. Stephens and Vera Stephens.

The SPEAKER. Is there objection to the present consideration of the bill?

There being no objection, the Clerk read as follows:

Be it enacted, etc., That the Secretary of the Treasury be, and he is hereby, authorized and directed to pay, out of any money in the Treasury allocated by the President for the maintenance and operation of the Civilian Conservation Corps, to R. D. Stephens, of Paxton, Ill., the sum of $1,000, and to Vera Stephens, wife of said R. D. Stephens, the sum of $3,000, such sums being in full satisfaction of their claims against the United States for damages arising out of property damage and personal injuries sustained by them when the automobile in which they were riding was struck by a Civilian Conservation Corps truck driven by Joseph L. Kindrai, near Virgin Lake in Oneida County, Wis., on January 2, 1934: *Provided*, That no part of the amounts appropriated in this act in excess of 10 percent thereof shall be paid or delivered to or received by any agent or agents, attorney or attorneys, on account of services rendered in connection with said claims. It shall be unlawful for any agent or agents, attorney or attorneys, to exact, collect, withhold, or receive any sum of the amounts appropriated in this act in excess of 10 percent thereof on account of services rendered in connection with said claims, any contract to the contrary notwithstanding. Any person violating the provisions of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not exceeding $1,000.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ISSUANCE OF PATENT TO CERTAIN LANDS TO FLORENCE KERR FACEY

Mr. DEROUEN. Mr. Speaker, I ask unanimous consent for the present consideration of the bill (S. 3733) authorizing the issuance of a patent to certain lands in the State of Montana to Florence Kerr Facey.

The SPEAKER. Is there objection to the present consideration of the bill?

There being no objection, the Clerk read as follows:

Be it enacted, etc., That notwithstanding the provisions and limitations of the act entitled "An act to provide for agricultural entry of lands withdrawn, classified, or reported as containing phosphate, nitrate, potash, oil, gas, or asphaltic minerals", approved July 17, 1914, the Secretary of the Interior is authorized and directed to issue, upon payment of final commissions, to Florence Kerr Facey, of Havre, Mont., an unrestricted patent to the east half northwest quarter, and lots 1 and 2, section 19, township 32 north, range 33 east, Montana principal meridian (Great Falls 053718), upon her filing an abstract of title to the land showing her to be the equitable owner thereof, save for the pendency of any application for a permit or lease thereof under the act approved February 25, 1920, and paying into the land office at Great Falls, Mont., the sum of $6.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

PAYMENT OF CERTAIN SALARIES AND EXPENSES TO EMPLOYEES OF GENERAL LAND OFFICE

Mr. DEROUEN. Mr. Speaker, I ask unanimous consent for the present consideration of the bill S. 4581, authorizing the payment of certain salaries and expenses of employees of the General Land Office.

The SPEAKER. Is there objection to the present consideration of the bill?

Mr. SNELL. Reserving the right to object, what is this bill?

Mr. DEROUEN. I will explain it to the gentleman. The gentleman from Pennsylvania [Mr. RICH] knows all about the bill. [Laughter.]

Mr. RICH. It is a worthy bill.

Mr. DEROUEN. It is a worthy bill. That is enough. It pays 23 employees of the General Land Office who were caught in the jam when the Comptroller General ruled that they could not be paid with the money that was appropriated in the first act.

Mr. JENKINS of Ohio. Where are you going to get this money? [Laughter.]

The SPEAKER. Is there objection?

There being no objection, the Clerk read the bill, as follows:

Be it enacted, etc., That the allotment to the General Land Office under section 1, title II, of the Emergency Appropriation Act, fiscal year 1935, of $168,000 for necessary office work incident to surveys and resurveys of the public lands is hereby extended and made available for said purpose for the period of July 1 to September 11, 1935, inclusive, and the payment of unpaid salaries for said period is hereby authorized, and the General Accounting Office shall allow credit in disbursing officers' accounts for salaries and expenses so paid for said period.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

PROPERTY OWNERS DAMAGED BY HIGH WATERS IN BLACKFOOT RESERVOIR

Mr. CLARK of Idaho. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (S. 4142) for the relief of owners of property damaged by high waters in the Blackfoot Reservoir.

The SPEAKER. Is there objection to the present consideration of the bill?

Mr. SNELL. Mr. Speaker, I want to know what this bill is. I will object to it unless I know what it is.

Mr. CLARK of Idaho. This is a bill to authorize the Secretary of the Interior to investigate the claims of certain landowners who have been damaged or alleged to have been damaged by reason of the overflow of a reservoir which has been constructed in Idaho. This is simply an authorization, to authorize the Secretary of the Interior to investigate these claims and report his recommendations to the next Congress.

Mr. SNELL. How much are the claims, how many claims are there, and what do they amount to?

Mr. CLARK of Idaho. The claims amount to about $60,000, if they are justified. That is all the bill provides for.

Mr. JENKINS of Ohio. Why can he not do that now?

Mr. CLARK of Idaho. He has not the authorization. This reservoir was built by the Government. It overflowed.

Mr. JENKINS of Ohio. Cannot these people get in the Court of Claims in any way?

Mr. CLARK of Idaho. They do not think they can.

Mr. RICH. Mr. Speaker, reserving the right to object, how is this different from the overflowing of a river when God puts so much water in the river that the banks cannot contain it and property is damaged? Who is going to make claims for such people?

The SPEAKER. Is there objection to the consideration of the bill?

Mr. TABER. Mr. Speaker, I object.

FIRST, SECOND, AND THIRD NATIONAL STEAMSHIP COMPANIES

Mr. DALY. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (H. R. 12671) for the relief of the First, Second, and Third National Steamship companies.

The SPEAKER. Is there objection to the consideration of the bill?

There was no objection.

Mr. DALY. Mr. Speaker, I ask unanimous consent to substitute an identical Senate bill (S. 4684) for the House bill.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania?

There being no objection, the Clerk read the Senate bill, as follows:

Be it enacted, etc., That jurisdiction is hereby conferred on the Court of Claims of the United States to hear and determine in any suits instituted in said court, jointly or severally, by the First National Steamship Co., the Second National Steamship Co., and the Third National Steamship Co., corporations organized

and existing under the laws of the State of New Jersey, the claims of such companies on account of (1) certain sums deposited by the said companies with the United States Shipping Board in the year 1920; (3) certain disbursements made by the said companies for and on behalf of the United States in the year 1920 for other than physical operation costs in connection with the vessels *Independence, Hoxie,* and *Scottsburg,* owned by the United States Government; and (3) certain permament improvements and equipment placed aboard the said vessels and not removed therefrom when the vessels were returned to the custody of the United States; and to enter such decrees or judgments against the United States as will provide full reimbursement and just compensation to such companies on the said claims, notwithstanding the bars or defenses of res judicata or of any alleged settlement or adjustment heretofore made or any release heretofore given by the said companies, their agents or attorneys, to the United States and notwithstanding any statute of limitations: *Provided, however,* That the United States shall be given credit for any sum heretofore paid to the said companies on account of the aforesaid deposits, disbursements, and improvements.

SEC. 2. The suits authorized under section 1 hereof may be instituted at any time within 1 year from the date of enactment of this act.

The bill was ordered to be read a third time, was read the third time, and passed.

A motion to reconsider and a similar House bill (H. R. 12671) were laid on the table.

THE SYMBOLISM OF THE FLAG

Mr. CHAPMAN. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD by including an eloquent and inspired address delivered by the gentleman from Virginia [Mr. ROBERTSON].

The SPEAKER. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. CHAPMAN. Mr. Speaker, under leave to extend my remarks in the RECORD, I include the following address of Hon. A. WILLIS ROBERTSON at Harrisonburg, Va., June 14, 1936, to the Harrisonburg Club, B. P. O. E.:

Mr. Chairman, ladies, and gentlemen, I esteem it a high privilege and honor to be permitted to participate with the Elks Club of Harrisonburg in the dedication, to the high purposes of peace and good citizenship, of an American flag, the gift of local Veterans of Foreign Wars.

From time immemorial, nations have employed standards, colors, and flags to indicate their individuality, but these national emblems, usually born of conflict, have in times past represented more the accomplishments of war than those of peace.

Our own flag, for instance, was born of the Revolutionary War. When Great Britain ceased to treat the Colonies as a mother should a child, the "three crosses of England" became repugnant to them. The British flag no longer represented their welfare. Some of the northern Colonies adopted the "pine-tree flag" with the inscription "An appeal to God"; some in the South the serpent flag, representing a coiled rattlesnake ready to strike, with the inscription "Don't tread on me."

Although we declared our independence in July 1776, our present flag was not adopted until June 14, 1777. On that date the American Congress resolved "That the flag of the Thirteen United States be 13 stripes, alternate red and white; that the Union be 13 stars, white in a blue field, representing a new constellation."

Alfred B. Street, in a speech on the Battle of Saratoga, said: "The stars of the new flag represent a constellation of States rising in the west. The idea was taken from the constellation Lyra, which, in the hands of Orpheus, signified harmony. The blue of the field was taken from the edges of the Covenanter's banner in Scotland, significant also of the league and covenant of the united Colonies against oppression, incidentally involving the virtues of vigilance, perseverance, and justice. The stars were deposed in a circle, symbolizing the perpetuity of the Union; the ring, like the circling serpent of the Egyptians, signifying eternity.

The 13 stripes, with the stars, showed the number of the colonies and denoted the subordination of the States to the Union as well as equality among themselves. The whole was a blending of the various flags, previous to the Union flag, namely, the red flags of the Army and the white ones of the floating batteries. The red color, which in Roman days was the signal of defiance, denotes daring and the red blood that was spilled in the defense of freedom and liberty; the white, purity and peace; and the blue, loyalty. What eloquence do the stars breathe when their full significance is known: a new constellation, union, perpetuity; a covenant against oppression; justice, equality, subordination, courage, and purity.

Members of the Benevolent and Protective Order of Elks, this is the flag, born of conflict, that my comrades of the World War have presented to you. Decked with only 13 stars, representing the Thirteen Original Colonies, it had first waved over Washington's raw levies at Valley Forge. As the cluster grew, it was flown by John Paul Jones and disputed on equal terms with the Cross of St. George its ancient lordship of the seas.

Andrew Jackson, whose home in Tennessee I visited last Sunday, kept it flying over New Orleans, and Stonewall Jackson, under Scott, carried it to the heights of Montezuma in the Mexican War. And the boys, who donated it to you, carried it, now bearing its full complement of 48 stars, symbolizing great and free States stretching from ocean to ocean, for the first time upon a European battlefield, where it received as its baptism of fire a salute from the arsenals of hell. Time, the great alchemist, had blotted out the tragic reconstruction era and we could all join in saying:

"Here's to the blue of the wind-swept North;
When they meet on the fields of France
May the spirit of Grant be with them all
As the sons of the North advance.

"Here's to the gray of the sun-kissed South;
When they meet on the fields of France
May the spirit of Lee be with them all
As the sons of the South advance.

"Here's to the blue and the gray as one;
When they meet on the fields of France
May the spirit of God be with them all
As the sons of the flag advance"

You, sons of the noble Order of Elks, in Harrisonburg in Virginia, in a thousand cities and hamlets throughout the United States, are sons of the flag—a flag in your hands dedicated not to war but to the high calling of peace on earth, good will to all men. Your order came into being in 1868—in the midst of the tragic era. Your order was born in a spirit of brotherly love, and through the teaching and practice of charity, justice, and fidelity, you have given form and substance to the highest and noblest symbolism of the flag. In your hands it symbolizes a capitalistic system of society operating under a constitutional form of government "of the people, for the people, and by the people." It symbolizes churches, hospitals, schools, and the sanctity of the home. It means that the strong must protect the weak and in every sense be a good neighbor. For the past 4 years our Nation has been striving to evolve a higher code of business ethics, in the full meaning of the Elks' tenets, benevolent and protective. You realize that the whole of justice is not expressed in the law. "Such sentiments", said Woodrow Wilson, "sweep across our heartstrings like airs from the presence of God, where justice and mercy are reconciled and the judge and the brother are one."

And the veterans who donated to you this flag have marched under its banner in the trying period of a war against depression with the same courage and loyalty with which they carried it upon the fields of France. In every major economic upheaval, enemies of constitutional government seek to capitalize the spirit of unrest. They foment strikes and disorders in the industrial world; they hold out to the aged and infirm the hope of Government bounties that can never be realized; they subsidize the criminal activities of the underworld to make it appear that organized society is disintegrating; in subtle ways they suggest that our Constitution is an instrument of bondage, designed by a capitalistic class for the economic slavery of the masses. To those of us who have served in the Congress during the trying times of the past 4 years nothing has given us more satisfaction nor a greater feeling of security than the realization of the fact that the boys who served under the flag in foreign lands in times of war are still true and loyal to their flag and country in times of peace, and ready to combat all subversive doctrines that seek to undermine and destroy our Constitution, and with it the greatest degree of personal liberty that the people of any nation have ever enjoyed. They subscribe to the sentiments of Daniel Webster, who, on the one hundredth anniversary of the birth of George Washington, said:

"Other misfortunes may be borne, or their effects overcome. If disastrous wars should sweep our commerce from the ocean, another generation may renew it; if it exhaust our Treasury, future industry may replenish it; if it desolate and lay waste our fields, still, under a new cultivation, they will grown green again, and ripen to future harvests. It were but a trifle even if the walls of yonder Capitol were to crumble, if its lofty pillars should fall, and its gorgeous decorations be all covered by the dust of the valley. All these may be rebuilt. But who shall reconstruct the fabric of demolished government, who shall rear again the well-proportioned columns of constitutional liberty, who shall frame together the skillful architecture which unites national sovereignty with State rights, individual security, and public prosperity? No; if these columns fall, they will be raised not again. Like the Coliseum and the Parthenon, they will be destined to a mournful and a melancholy immortality. Bitterer tears, however, will flow over them than were ever shed over the monuments of Roman or Grecian art; for they will be the monuments of a more glorious edifice than Greece or Rome ever saw, the edifice of constitutional American liberty."

Therefore, on this one hundred and fifty-ninth anniversary of the birth of our national flag, the veterans who present it and the Elks who receive it can appropriately clasp hands in a common cause and a mutual understanding. For both, the flag is the symbol of our liberty under the Constitution—the guardian of our homes. The one group swore allegiance to it when it entered military service; the other when it accepted membership in a great fraternal order.

As the silken folds of Old Glory unfold to the breeze, as it rises to the top of yonder flagpole, I can say to you in the words of Henry Ward Beecher: "Accept it, then, in all its fullness of meaning. It is not a painted rag. It is a whole national history. It

is the Constitution. It is the Government. It is the free people that stand in the Government on the Constitution. Forget not what it means; and for the sake of its ideas be true to your country's flag."

"May the spirit of God be with them all
As the sons of the flag advance."

THE DEMOCRATIC PARTY—ITS RECORD AND ACHIEVEMENTS—EMERGENCY LEGISLATION UNDER ROOSEVELT ADMINISTRATION ANALYZED

Mr. DISNEY. Mr. Speaker, I ask unanimous consent to extend my remarks in the RECORD and to include therein an address by an illustrious former Member of the House, W. W. Hastings.

The SPEAKER. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

Mr. DISNEY. Mr. Speaker, under leave to extend my remarks in the RECORD, I include the following address delivered by former Congressman W. W. Hastings at Colcord, Okla., June 15, 1936:

Mr. Chairman, I am glad to come to Colcord for two reasons:

First. This place is only a short distance from my old home. Near here I attended the public schools, played up and down these streams, and grew up to young manhood.

Second. Colcord is in the First Congressional District, so ably and efficiently represented by my personal friend, Hon. WESLEY E. DISNEY. He is experienced, knows the needs of the people of the district, is in sympathy with them, and enjoys the confidence of the administration and every Member of the House.

The Democratic Party was founded almost a century and a half ago to represent and serve the masses of the people of the country. It has been true to its purpose.

For the first half century of our national life, it continued in power. We experienced unexampled domestic prosperity. We expanded our territorial area from that occupied by the Original Thirteen Colonies fringing along the Atlantic, across the continent to the Pacific. Under the far-seeing and wise leadership of Jefferson, we acquired a vast territorial area by the Louisiana Purchase. He inspired his private secretary, Merriwether Lewis, and Clark to undertake their notable expedition in 1804 which brought under our flag the great Northwest, from which was subsequently carved such splendid Commonwealths as Washington, Oregon, Idaho, Montana, and others. He financed the expedition in part from a private fund.

We acquired Florida, the land of sunshine and flowers and fruits, the playground of the South, under the leadership of Monroe.

We annexed Texas and added the brilliant "Lone Star" to our constellation under the leadership of Polk.

We scaled the heights of Chapultapec in 1848, silenced the Mexican guns, settled the boundary dispute, and extended our domain to the Pacific coast from which was added Arizona, New Mexico, Nevada, and California, an area of unsurpassed beauty and fertility, and from which vast quantities of gold and silver have poured into our Treasury through the enrichment of vast numbers of our individual citizens, lured there through the discovery of these precious metals.

The Gadsen Purchase in the southern part of Arizona in 1853 completed our program of expansion in Continental United States, except Alaska, which was acquired from Russia in 1867.

Through the years that followed the organization of our party, its objective has been service to the great mass of humankind and to protect the weak and unorganized from oppressive and selfish greed, enriched through special-privilege legislation and administration.

Jackson, lovingly remembered as "Old Hickory", from improvised breastworks defeated the crack troops of Great Britain under Packenham on January 8, 1815, and with increased vigor and determination continued his fight for the unorganized masses during the 8 years he occupied the White House after his election to the Presidency in 1828 and his triumphant re-election in 1832.

The present occupant of the White House, Franklin D. Roosevelt, with a sympathy for the "forgotten" masses unexcelled in the history of the Nation, is courageously leading the fight against a depression that has all but engulfed us since 1929, with a constructive program.

He is entitled to the wholehearted support, without regard to party, of all forward-thinking, progressive citizens of the Nation. Oklahoma should take the lead in emphasizing that he will have our earnest, hearty, and undivided support.

Prior to his election to the Presidency, the Republicans had occupied the White House for 12 long years, and during most of that time had complete control of all three branches of the Government. They must therefore assume full responsibility for the disastrous results that led to the stock crash of 1929, followed by a panic the like of which has never before been experienced in the history of the Nation.

During these years, the special interests represented by Fall and Daugherty and Forbes were in riotous control and left wrack and ruin in their wake.

Dominated by such leadership, there was an orgy of corruption and misrule sickening to the heart of every patriotic citizen. The stories told of the intrigues entered into in the little "Green House" on K Street during the Harding administration for the enrichment of those holding cabinet and other high positions are nauseating and disgusting. The Government of the masses was a prey to those political freebooters. Special privilege was in the saddle everywhere.

This administration was followed by the "Silent Cal" who was impotent to change the trend of affairs. The great engineer then mounted the engine and took hold of the throttle, lauded as the best qualified man by experience who ever entered the White House, and in less than 15 months, headed us into the most disastrous wreck of all time.

In his efforts to stage a comeback, he makes frequent radio addresses critical of the program of the present administration, and in the interest of big business and the special interests. The wrack and ruin was complete when his term was ended.

The farmers of the Nation were broke beyond hope of recovery. In 1932 wheat was selling at the thresher at 25 cents per bushel, oats at 12 cents, corn at from 10 to 12 and much at less, and cotton at around 5 cents per pound, all starvation prices and below the cost of production. Taxes could not be paid, and as a result, schools were closed in thousands of the rural districts.

Mortgages were foreclosed by the millions and farm lands went into foreign ownership. Improvements were allowed to go to ruin. The crops were not rotated. The soil eroded and became less productive. In these circumstances the farmers, comprising one-third of our population throughout the Nation, lost their purchasing power.

Cattle, hogs, and other livestock fell to the lowest level in the history of the country.

As a result, the businessmen, including the merchants in the small towns, began to fail. Soon the panic extended to the larger trade centers. Finally the factories receiving insufficient orders were closed. Millions of laborers were thrown out of employment. Railroads were all headed for receivership. The panic-stricken people, seized with fear, began to withdraw their deposits from banks. Banks in increasing numbers were failing. There was no ray of hope for any business or industry. Hope had fled; despair was upon every countenance, and fear ruled because of the want of confidence in every heart and mind throughout the country.

Such were the conditions among a terror-stricken people when Franklin D. Roosevelt entered the White House March 4, 1933.

Congress was called into almost immediate session March 9, 1933. Conditions would not permit of delay to work out a program.

A banking moratorium order, the most courageous of any ever made, was issued. The Governors of the States joined as to State banks. Confidence was restored.

Legislation ratifying the action of the President and giving him power over foreign exchange and authority to prevent hoarding of gold was enacted by unanimous consent.

The fears of the people were calmed because they soon realized that a man of action and courage was in the White House.

A program was outlined and legislation prepared touching innumerable subjects.

Agricultural legislation to raise the price of farm products was enacted. As a result the price of most farm products has doubled and trebled. Although sharply criticized by political writers and those who exploit them, the farmers at every opportunity register their votes in favor of the program.

The Rural Credit Act was amended and farm land-bank bonds, both principal and interest, were guaranteed by the Government, thus making adequate funds for loans at lower interest rates to all farmers.

Recent legislation was enacted extending the time of making loans to farmers for 1 year at 3½-percent interest.

The Home Owners' Loan Corporation Act was passed for the benefit and protection of those who live in cities and towns.

Critics of the New Deal program, do you object to this legislation?

Comprehensive banking legislation, including the guarantee of bank deposits up to $5,000, was enacted.

In the 3 years preceding the inauguration of Roosevelt there had been 10,775 bank failures involving many billions in deposits, sweeping away the earnings of untold thousands.

Since this law was enacted the reports show only 25 banks failed and the ultimate or final losses to depositors are negligible.

Do you want this constructive legislation repealed?

Railroad legislation was enacted designed to assist railroads in refinancing their properties and to avoid receiverships. This was in the interest of the small shippers, the laboring man, and the thousands of bondholders.

The N. R. A. was enacted to permit industries to make codes of fair competition to regulate hours of labor and to make rules so as to establish uniform working conditions.

Part of this program has been sharply criticized, some of it held to be unconstitutional.

If no legislation had been enacted, of course there would have been nothing to criticize and nothing to challenge as unconstitutional. We prefer to do something. Of course, with such a vast program, mistakes may be expected, both in legislation and administration.

Legislation is the result of the meeting of many minds and represents compromises between the President and Members of both branches of Congress.

Do you want the President to sit down and let things "drift", as under previous administrations?

There was appropriated by the Seventy-third Congress $3,300,000,000 to be expended either as directed in the act or by the President for the relief of people out of employment, hungry, naked, and in dire distress.

An additional $4,880,000,000 was made available by the Seventy-fourth Congress. The deficiency appropriation bill carries a further item of $1,425,000,000 for future relief.

In every war there is unavoidable waste. There was in the World War. The same is true of all wars. We are fighting a real war against the worst panic—left to us by the Hoover administration—in our history. In our efforts to put out a fire to save our homes there will necessarily be some waste of water.

There has been confusion as to details of administration. This is to be regretted. Naturally, there have risen differences of opinion as to the purposes for which the money should be expended.

We should welcome every constructive criticism, from whatever source it comes. Every effort should be made to correct abuses. The money should be spent as intended by Congress and the President; to give relief, to afford employment, and to aid the distressed.

Tariff legislation authorizing reciprocal agreements to expand our foreign markets was enacted.

Such an agreement was recently entered into with Canada and was almost universally commended.

Every effort should be made to restore our foreign trade for our surplus industrial and agricultural products. However, until this is done, we should enact temporary legislation to insure a fair price in our domestic markets.

We must not continue to follow a "do nothing" policy and dump our products on a domestic market below the cost of production.

The Seventy-third Congress enacted legislation for the registration of securities, both foreign and domestic, to protect prospective investors from being defrauded into buying worthless stocks and bonds. Our uninformed citizens were defrauded out of billions of dollars in the speculative months culminating in the stock crash of October 1929. Do honest people anywhere criticize this legislation to protect the people against stock gambling and international bankers?

Thousands lost their savings for years and many for a lifetime.

Those who, for selfish reasons, oppose legislation usually hide behind the Constitution as a smoke screen. Is there any wonder in the enactment of a great constructive program to restore happiness and prosperity to the masses and in correcting the abuses that have grown up in the interest of the privileged few that some legislation should be held unconstitutional? Legislation enacted under every administration has been declared unconstitutional by the Supreme Court. The same is true of practically every State administration.

The record shows 20 acts passed by Democratic administrations and 42 when the Republicans were in control held violative of the Constitution. Of these, six were under Franklin D. Roosevelt, seven under Theodore Roosevelt, and six under Lincoln, and seven under Grant.

Of course, if no effort had been made through new and emergency legislation to aid the people in their dire distress, there would have been nothing to challenge. In an effort to find an issue the number has been greatly exaggerated.

The truth is, on March 4, 1933, that all classes of people and all kinds of business, great and small—banks, railroads, industries, farmers, stockmen, and loboring men—were headed for receiverships, bankruptcy, and financial ruin. They pleaded with President Roosevelt to be saved. Through emergency legislation and administration he rescued them and brought them to financial safety. The records show that most of the program generally known as the New Deal was supported by the Republican leaders in and out of Congress. Now that the corner has been turned and they have been saved from the wreck and a few of the measures, by a divided Court, have been held unconstitutional, they conceal the fact they supported the legislation and are now the sharpest critics of it.

They are ingrates, demagogues, and hypocrites.

They are unwilling, now that they have been towed to the shore, to contribute to the relief of the poor and distressed.

They hide behind every smoke screen. They are so-called defenders of the Constitution. They are desperately afraid State rights will be invaded.

They fear for the freedom of speech, the press, and religion. They are afraid of a dictatorship. They organized the Liberty League and dozens of others with names to deceive the people, all financed by the Du Ponts and their allies, enriched through special privilege, and employ high-salaried newspaper and magazine writers to publish propaganda against the New Deal and the Roosevelt administration.

These men, for the most part, are the members of chambers of commerce. They prepare and circularize the country with resolutions, all critical of the New Deal, and all against the further contribution through taxes to relieve the unemployed, to feed the hungry, and to aid the old and infirm. Their financial, selfish souls have withered until they could not be seen with the highest powered microscope.

They resort to all kinds of misleading propaganda to deceive. The truth is, they are opposed to all kinds of progressive social-security legislation for the benefit of the great mass of humankind.

They know no party allegiance. They are political acrobats, who jump from one party to another with both brazenry and agility.

They never had the experience of the joy of unselfish service.

If they temporarily were inspired to act as described by the following lines of the Battle Hymn of the Republic—

"In the beauty of the lilies
Christ was born across the sea;
As he died to make men holy,
Let us die to set men free"—

they would die of heart attack.

Their pleasure lies in counting the mounting shekels wrung from the poor. They are prevented by the Constitution, State rights, and all kinds of manufactured propaganda from contributing to the happiness of mankind.

At the head of the list stand the Du Ponts, millionaire munition makers of Delaware. They have contributed heavily to financing the Liberty League, directed by Jouett Shouse at a salary of $35,000 per annum.

Sloan, at the head of the General Motors, in 1934 received $201,128. He has been criticizing the New Deal before chambers of commerce across the continent.

W. R. Hearst, who owns a string of papers from New York to California, is another critic and Landon admirer. He is allotted a salary of $500,000. Recently he announced the removal of his citizenship from the State of California because of the State income-tax law.

William S. Knudsen, executive vice president of General Motors, draws $211,128. The highest paid executive in 1934 was Thomas J. Watson, president, International Business Machines Corporation. He received $365,358.

Does anyone believe that either of these high-salaried executives is in sympathy with the depressed or wants to contribute through taxes to his welfare?

Charles Schwab, chairman of the Bethlehem Steel, receives $250,000.

Eugene Grace, president of Bethlehem Steel, receives $180,000.

George Horace Lorimer, editor of Saturday Evening Post, $100,000. Has anyone seen an article in his magazine in favor of the New Deal? The highest priced writers in the Nation are hired to criticize Roosevelt and the New Deal in its columns.

Sewell Avery, president of Montgomery, Ward & Co., $100,000. They can and do contribute millions to defeat progressive legislation to better the conditions of the people.

One of their subsidiary organizations is named the Sentinels of the Republic. There are dozens of them, all financed by the captains of industry, to press down more heavily the crown of thorns on the brow of labor.

They handpicked Harding in 1920, threw up a smoke screen of the League of Nations behind which he and Fall and Daugherty and Forbes concealed themselves and chuckled when they deceived the people. They were to pick the "best minds" to run the Government.

The Hoover convention at Cleveland selected Landon because his views on national questions were unknown. The convention was dominated by Hoover. He was the leading spirit. Do you want a return of the stock crash of 1929; the price of farm products of 1932? If so, vote for Landon. He was transplanted from Pennsylvania a few years ago. He has the Pennsylvania viewpoint now. Those opposed to Roosevelt looked him over, found him colorless, his views on national questions unknown, and after studying his background, this Hoover convention placed their stamp of approval upon him.

It is urged that the public debt has been increased and the Budget remains unbalanced. To this there are three answers:

First. In the name of humanity, employment must be found for those out of work so that their families shall not suffer, their children go hungry and naked.

Second. Much of the money has been loaned through the R. F. C., H. O. L. C., and other agencies, and is now being returned to the Treasury and will be used to assist in retiring the bonds.

Third. The increased indebtedness has been financed not in the interest of Wall Street, but at extremely low rates of interest so that the interest on the outstanding public debt is less than under the Hoover administration.

Fourth. The Budget has been balanced as to the ordinary expenditures. The extraordinary or emergency expenditures, including $750,000,000 for flood control, $1,425,000,000 for future relief for the unemployed, approximately $2,235,000,000 for the payment of the soldiers' bonus, and other emergency expenditures, in all aggregating more than $5,000,000,000, and none ordinary expenditures, makes it impossible while the emergency continues to balance the Budget.

Everything points to continued recovery. While the newspaper headlines and editorials criticize and abuse Roosevelt every news item points to improved conditions.

Every economist in the country predicts the worst of the depression is over.

The industries are all running. Freight earnings are better. Post-office receipts are above normal. Farm prices have trebled and but for the droughts of 1934 and 1935 the farmers of Oklahoma would be in fair condition. Every business, great and small, reports an increase. Confidence has been restored.

We must take no backward step that leads to the despair of 1932.

Roosevelt carried all but six States in 1932.

The recent primary vote in Illinois when he received 450,000 more votes than the combined votes for the Republican candidates BORAH and Knox, now Republican Vice-Presidential nominee, and by the tremendous majority he received in rock-ribbed Pennsylvania, Maryland, and other States, he may carry the other six States in November 1936.

Roosevelt carried Oklahoma in 1932 by 516,468 votes to 188,165 for Hoover.

This was a majority of 328,303, or approximately 3 to 1. We must maintain this majority over Hoover's candidate, Landon, in 1936. And with him we must elect an entire State, congressional, and county ticket in sympathy with his program.

Franklin D. Roosevelt has a fine educational background. He knows the history of our Government. He has had extended experience. He was an aggressive liberal in the New York State Legislature. He served as Assistant Secretary of the Navy during the World War, during the Wilson administration; he ran for Vice President on the Democratic ticket with James M. Cox in 1920, and the Republicans won with their colorless nominee, Warren G. Harding, whose administration they have been trying to forget ever since; he served two terms as Governor of New York, elected for the first term by 25,000 majority and reelected for the second term by 725,000 majority.

He was inaugurated President March 4, 1933. He is a man of great courage, of broad vision, and high ideals. No man who has ever occupied the White House has shown greater sympathy for the toiling masses or for the farmers of the country. When the history of his administration is written it will stand out among the best in the history of our Nation.

EXTENSION OF REMARKS

Mr. DICKSTEIN. Mr. Speaker, I ask unanimous consent to extend my remarks by inserting a letter addressed to the gentleman from Massachusetts [Mr. CONNERY] by President Green, of the American Federation of Labor on House Joint Resolution 632.

The SPEAKER. Is there objection to the request of the gentleman from New York?

Mr. RICH. Mr. Speaker, I object.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate, by Mr. Crockett, its Chief Clerk, announced that the Senate had passed without amendment a bill of the House of the following title:

H. R. 12796. An act to amend the act entitled "An act to provide for the times and places for holding court for the eastern district of North Carolina", approved May 10, 1928, as amended (U. S. C., 1934 ed., title 28, sec. 179; U. S. C., Supp. I, title 28, sec. 179).

The message also announced that the Senate agrees to the amendments of the House to bills and joint resolutions of the Senate of the following titles:

S. 1790. An act for the relief of Margaret Murphy;

S. 3055. An act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes;

S. 3505. An act for the improvement and protection of the beaches along the shores of the United States;

S. 4490. An act for the relief of F. W. Elmer;

S. J. Res. 38. Joint resolution to provide for an inquiry by the Court of Claims with respect to losses sustained by cooperative marketing associations in connection with stabilization activities in grain; and

S. J. Res. 196. Joint resolution to correct errors in the enrollment of Private Act No. 349, Seventy-fourth Congress, approved August 29, 1935, and to clarify the duties of the Comptroller General in connection with said act.

The message also announced that the Senate had agreed without amendment to a concurrent resolution of the House of the following title:

H. Con. Res. 63. Concurrent resolution providing that when the two Houses of Congress shall adjourn on June 20, 1936, they stand adjourned sine die.

Mr. STEAGALL. Mr. Speaker, I ask unanimous consent to proceed for 3 minutes.

The SPEAKER. Is there objection to the request of the gentleman from Alabama?

There was no objection.

WILLIAM B. OLIVER, GEORGE HUDDLESTON, AND A. H. CARMICHAEL

Mr. STEAGALL. Mr. Speaker, in the shifting turns of political fortune it is not unusual for any State to lose the services of a valuable Member. It seldom falls to the lot of a State, however, to sustain a threefold loss such as befalls Alabama at the end of the present Congress.

One of these retiring Members who quits because of physical exhaustion and loss of health incident to the hard work imposed upon Members of Congress in these unusual times, held high place on one of the great committees of this House, the Committee on Appropriations, and was one of our most valuable and beloved Members, industrious, of wide information, a great Member of Congress, WILLIAM B. OLIVER. [Applause, the Members rising.]

Another Member of our delegation does not retire voluntarily nor does he retire with the consent or with the approval of any colleague in this House on either side of the aisle [applause]. A Member of the great Committee on Interstate and Foreign Commerce, a man of superb courage, marvelous ability, unflagging industry, the dread of every antagonist that ever opposed him in debate, the intrepid GEORGE HUDDLESTON. [Applause, the Members rising.]

Another member of our delegation whose tenure has been brief who retires voluntarily, leaves us with the esteem, confidence, the affectionate regard and admiration of every Member of this House. A man who won high place in the legislature of his State from term to term, having been honored by the highest office within the gift of that body, a great lawyer. For personal reasons he prefers to retire to private life and resume the practice of his beloved profession. A man who is worthy of every confidence and every honor, a man who is capable of winning the highest place in this body, had he seen fit to continue his service. He leaves us enjoying the esteem, the admiration, and the confidence of every Member of this House, ARCHIE CARMICHAEL. [Applause, the Members rising.]

We are proud of these beloved Members of this body. We are proud of the record they leave as a great heritage to their State and to the Nation. They quit with the good wishes and affectionate regard of every Member of this body. [Applause.]

Mr. HILL of Alabama. Mr. Speaker, I ask unanimous consent to proceed for 3 minutes.

The SPEAKER. Is there objection to the request of the gentleman from Alabama?

There was no objection.

Mr. HILL of Alabama. Mr. Speaker, it might seem an anticlimax for me to attempt to add anything to what my colleague [Mr. STEAGALL] has said of the three Members from Alabama who are retiring. The applause and ovation that you have given these three gentlemen demonstrates the esteem and the affection in which they are held in your hearts, and yet I would be recreant to my strongest impulse if I did not leave some record here of my individual feelings and of my regret that these gentlemen are to depart from us.

Mr. OLIVER enjoys a unique record. Not only was he esteemed and beloved by his colleagues in this House, but for a period of some 20 years' time he was returned continuously to this House without opposition. Of the many able and splendid gentlemen who have served in this body during the past quarter of a century, he stands in the front ranks, and as long as our Nation can send to the Congress of the United States such able, conscientious, devoted, courageous, and exceptional statesmen as he, the country is safe.

No man could serve in this body with Mr. HUDDLESTON without admiring his fine courage, his absolute sincerity, his devotion to principle, and his superb ability. He leaves us, but he leaves us with the knowledge that he never retreated, he never surrendered, that he fought a good fight, and that he kept faith with his own conscience. [Applause.]

I have often said to our colleague [Mr. CARMICHAEL] that his one mistake was that he did not come to this body 25

years ago. He has written his name into the legislative history of Alabama, having placed upon our statute books perhaps more legislation for the cause of education, for the cause of public health, and of good roads, than any other man who has ever served that State. In this body he has served faithfully, loyally, and with distinction.

I know I voice the sentiments of each of you when I say that we wish to these friends, these gentlemen, all Godspeed in the days to come. [Applause.]

Mr. SABATH. Mr. Speaker, I ask unanimous consent to proceed for 3 minutes.

The SPEAKER pro tempore (Mr. O'CONNOR). Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. SABATH. Mr. Speaker, I fully appreciate the great loss the House of Representatives is about to sustain in the retirement of the three Alabama statesmen just mentioned; but Alabama is not the only State that is about to lose splendid Representatives. The State of Illinois is, I regret to say, about to lose by voluntary retirement four of the most active and able Members of the House, and it has lost by resignations and the death of our late amiable and able colleague, Mr. Buckbee, who served here many years with rare devotion and singular success, during this Congress three other Members of like qualities.

The House of Representatives and the great State of Illinois are experiencing and will continue to experience a serious, temporary deficiency in the voluntary retirement of these experienced legislators.

I have been a Member of the House for 30 long years, and I want to say quite seriously that the State of Illinois, which has made monumental contributions to the membership of this House, during this period never has been represented by more loyal and able Representatives than those who have served our State during the last two Congresses.

They have been untiring and zealous in the application of their rare ability for the public weal. Their successors shall have to work hard to equal—they cannot surpass—the enviable reputations of these gentlemen. They have made a valuable contribution here to their country's welfare in a most important era, and as they return to private life I am sure their foremost thoughts and efforts will continue to be directed to the common good of our great country.

I regret exceedingly, as I know the House and the country as a whole do, the loss of our colleagues Mr. Dobbins, Mr. Adair, Mr. Mason, Mr. Brennan, Mr. Igoe, and Mr. Arnold, the latter having been honored by appointment to an important judicial position in our Government. Mr. Igoe early in his service here was prevailed upon to accept the position of United States attorney for the northern district of Illinois, which deprived the House of a legislator of inordinate ability and sagacity. I am sure that we all wish them good health and much deserved success in any endeavors.

In addition to the loss of these outstanding Members we are losing a good many other very able Members from other States by their voluntary retirement. I hope that the States will see to it that we here get in their stead loyal and able Representatives who will assiduously cooperate for the continued uniform success of beneficient Democratic principles. [Applause.]

Mr. RAYBURN. Mr. Speaker, I ask unanimous consent to proceed for 2 minutes.

The SPEAKER pro tempore. Is there objection?

Mr. RAYBURN. Mr. Speaker, I concur fully and wholly in what has been said by my colleague about the beloved Members who are leaving the House, but I would be untrue to my feelings, and I would fail to express the wish of every Member of the Texas delegation if I did not for them and for myself take this moment to express our deep regret that our friend and colleague, O. H. CROSS, will not be a Member of the next Congress. [Applause.]

I know, speaking in his hearing, that I express the wish of every Member of this House when I say that in the years to come all of us wish that he shall enjoy to the fullest extent the rich blessings of health, peace, and prosperity. [Applause.]

GEORGE BURNHAM

Mr. CARTER. Mr. Speaker, I ask unanimous consent to proceed for 2 minutes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. CARTER. Mr. Speaker, the State of California is losing a man who has served our State faithfully and well during his term of office. I am sure that I express the sentiment of every man in this House on either side of the aisle when I say that we all deeply regret that GEORGE BURNHAM, of California, is not going to return to the next Congress. [Applause, the Members rising.]

Mr. BURNHAM, by his kindly manner, has endeared himself to each and every one of us. He has represented his district in a most efficient and effective way. It is a great loss to the people of his district, his State and country that he is unwilling to seek reelection and, Colleague GEORGE BURNHAM, I am sure I express the sentiment of each and every Member of this House when I say to you that the good wishes of all of us go with you throughout the years that are to come. [Applause.]

ISABELLE GREENWAY

Mrs. NORTON. Mr. Speaker, I ask unanimous consent to proceed for 2 minutes.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New Jersey?

There was no objection.

Mrs. NORTON. Mr. Speaker, I entirely concur in all that the previous speakers have said of the colleagues who have been associated with us for so many years and who will be absent in the next Congress. I deeply regret, just as you do, that they will not be with us when the Seventy-fifth Congress convenes, and may I also at this time say that we are conscious of great regret, and I feel I am voicing the sentiments of all my colleagues in the House when I say we are sorry we shall not have with us in the next Congress Mrs. GREENWAY. [Applause, the Members rising.]

In the very short time that Mrs. GREENWAY has been with us she has endeared herself because of her fine qualities of mind and heart, and we sincerely hope that in a very short time Mrs. GREENWAY will return to us, if not on this side of the House on the other side of the Capitol. [Applause.]

May I say, Mrs. GREENWAY, we need women of your type in public life. You carry with you not only our regard but also the affection of every Member of this House. We hope you will have the greatest success in whatever you may undertake and the best of health to carry on the plans you are now making to relieve unemployment in the country. [Applause.]

EXTENSION OF REMARKS

Mr. COCHRAN. Mr. Speaker, I read with a great deal of interest the speeches made at Cleveland by our minority leader and the Senator from Oregon [Mr. STEIWER].

I ask unanimous consent, Mr. Speaker, that I may be permitted to place in the RECORD the address of the keynoter at the Democratic convention in Philadelphia, Senator BARKLEY, the address of the permanent chairman of the convention, and the address of the man who will receive the nomination at that convention and be elected President of the United States in November next.

Mr. KNUTSON. Mr. Speaker, reserving the right to object——

The SPEAKER pro tempore. The Chair demands the regular order. Is there objection?

There was no objection.

JOHN J. M'SWAIN

Mr. FULMER. Mr. Speaker, I regret exceedingly to announce to you this evening that one of our colleagues from South Carolina is voluntarily retiring from this body and

going back to his beloved State of South Carolina, where he will engage in the practice of law. He is leaving us of his own free will and accord, and going back to practice his profession of law where he lived before coming to the Congress.

I may say that it would not be any trouble for my friend and colleague to be returned to this House if he would go back and ask his constituents to send him here. His leaving us is largely because of his physical condition, which has been brought about because he has given his every energy to the welfare and interests of the people of South Carolina and of the country.

I announce with deep regret to my colleagues that our friend and colleague JOHN J. MCSWAIN will not come back to us in the next Congress. [Applause.]

Mr. HILL of Alabama. Mr. Speaker, I ask unanimous consent to proceed for 2 minutes.

The SPEAKER. Is there objection to the request of the gentleman from Alabama?

There was no objection.

Mr. HILL of Alabama. Mr. Speaker, I concur in all that has been said by the gentleman from South Carolina [Mr. FULMER] about that generous friend and princely gentleman [JOHN MCSWAIN] of South Carolina. [Applause.]

Mr. ROGERS of New Hampshire. Mr. Speaker, will the gentleman yield?

Mr. HILL of Alabama. I yield to my colleague on the committee.

Mr. ROGERS of New Hampshire. Will the gentleman add that without the shadow of a doubt that sentiment is concurred in by every Member who ever served under him as Chairman of the Committee on Military Affairs? [Applause.]

Mr. HILL of Alabama. The gentleman from New Hampshire is absolutely right. There is no braver, manlier man than JOHN MCSWAIN [applause,] and it is with a feeling of deep sorrow that I salute him tonight and see him depart from this body.

A few days ago the gentleman from New Jersey [Mr. MCLEAN], a member of the Committee on Military Affairs of which the gentleman from South Carolina [Mr. MCSWAIN] has been chairman, tendered a luncheon to the members of that committee. On the occasion of this luncheon, the minority leader, the gentleman from New York [Mr. SNELL], the gentleman from New Jersey [Mr. MCLEAN], and I attempted to voice our appreciation and our esteem of the gentleman from South Carolina and, Mr. Speaker, I ask unanimous consent that I may have permission to extend my remarks by placing in the RECORD the addresses delivered by the gentleman from New York, the gentleman from New Jersey, and myself.

The SPEAKER. Is there objection to the request of the gentleman from Alabama?

There was no objection.

PRESENTATION OF SILVER VASE TO HON. JOHN J. M'SWAIN, OF SOUTH CAROLINA

Mr. HILL of Alabama. Mr. Speaker, on June 4 last the gentleman from New Jersey [Mr. MCLEAN], entertained the members of the Committee on Military Affairs at a luncheon in his office. On this occasion the members of the Committee presented to the retiring chairman of the committee, the gentleman from South Carolina [Mr. MCSWAIN], a beautiful silver vase as a token of their appreciation and esteem. The gentleman from New Jersey [Mr. MCLEAN], the gentleman from New York [Mr. SNELL], the minority leader, and I endeavored to voice our regret as well as that of the other members of the committee and of the membership of the House over the fact that Mr. MCSWAIN is leaving Congress and we sought to express the great esteem in which he is held. Mr. MCSWAIN made response to the remarks. Under leave granted me, I extend herewith the remarks made on the occasion.

REMARKS OF MR. M'LEAN, OF NEW JERSEY

Mr. MCSWAIN, Mr. SNELL, and colleagues of the committee, what started out to be a simple little social gathering of the members of the Committee on Military Affairs has developed important proportions. When we arranged this party a week or so ago it was merely for the purpose of affording an opportunity to conclude the work of the committee and bid each other adieu in somewhat the same pleasant manner that we began the work of the Seventy-fourth Congress together as the guests of the chairman at his home. Undertaken facetiously, it concludes seriously.

On Saturday our chairman announced his determination to retire from Congress, and last night Joseph W. Byrns, Speaker of the House, beloved by all of us who have served under him, was taken from us. Only yesterday he asked me the hour of our meeting and gave me his assurances he would be with us today. I made the suggestion that in view of the tragedy perhaps we should cancel our program, but after conference with others it was decided to carry it out as arranged, that with due reverence and with his memory warm in our hearts and minds it would not be construed in any way disrespectful to his memory, and that no doubt it would be his wish that we should do so.

When word came to me of the determination of Mr. MCSWAIN to retire, our proposed gathering provided an opportunity to honor him, and the occasion could not have been more happily arranged had we been in possession of advance information.

One does not have to prove that the Committee on Military Affairs, as now constituted, is not only an important committee but a useful, hard-working, and harmonious committee as well. All that we are ready to admit. It is a fact that every member is so familiar with its work that any one of them is prepared to act as chairman whenever occasion may require. Our deliberations are marked by the freest discussion and exchange of confidence, and partisan differences do not seem to disturb our otherwise cordial relations.

There is a reason for this. The real work of Congress is done in committee and much depends on the chairman. His duties extend beyond that of a mere presiding officer, or as the director of the committee program. The proper sort of chairman regards himself as responsible in some degree for the success of the new Members of Congress assigned to his committee, and will hold himself always ready to assist them in shaping their congressional career in and out of the committee. Mr. MCSWAIN has always been considerate and thoughtful. He has assigned the work with the idea of developing in each of us knowledge of facts and procedure, and has been willing to assume responsibility for any mistakes that might occur. Those of us who have come to the committee since he has been its chairman—and that covers a large majority of its members—have been made to feel that he regarded us as the affectionate schoolmaster regards his pupils, and glories in their progress. And so we have arranged that he may have a reminder of our happy association together, our affection and esteem, which it has seemed appropriate should be presented to him by the gentleman from Alabama [LISTER HILL].

REMARKS OF MR. HILL OF ALABAMA

Mr. MCLEAN, Mr. SNELL, and gentlemen of the committee, I am sure that I express the sentiments of all of us when I say how happy and how honored we are to have the distinguished minority leader of the House, Mr. SNELL, with us. The last words our beloved Speaker, Joe Byrns, spoke to me were that he would be with us at this hour and what a pleasure it would be to him. Just before I left the office our new Speaker, Mr. BANKHEAD, of Alabama, telephoned and asked me to say to you how sorry he was that he could not be at this gathering, but that a call to come to the White House made it impossible.

It was with a sad heart and with feelings of deep emotion that I heard our chairman, JOHN MCSWAIN, announce last Saturday evening in my home city of Montgomery, Ala., that he would not be a candidate for reelection to Congress. I know that the deep regret which I feel over his going is shared by each and every one of you. Since our chairman's announcement of his retirement I have seen many Members of the House—there has not been a single one of them who has not borne testimony in the highest terms of his appreciation of JOHN MCSWAIN and who has not expressed his regret that he is to leave us.

"What is the secret of your life?" asked Elizabeth Browning of Charles Kingsley; "tell me, for I want to make mine beautiful, too." His reply was, "I had a friend." We of the Committee on Military Affairs have had a friend. We have had JOHN MCSWAIN, and because of his friendship our lives have been made fuller and richer and our memories will be sweeter and happier. We shall never forget the fine, rollicking good humor of his friendship and his hearty laugh. We shall never forget his many acts of gracious kindness, his desire always to be fair and impartial, and his efforts to help, to guide, and to promote each and every member of the committee. We have been proud of him as our chairman. Creative of thought, indefatigable of effort, independent of spirit, and always the patriot, he has during the 12 years of his service on the committee made notable contributions to its work. I think the record will show that no man has contributed more constructively, more profoundly, or more greatly to the legislation of the committee. He has ever sought to serve the best interest of the committee, the best interest of the Congress, and the welfare of his country. His name is written into the legislative history of our Nation.

Because of his exceptional ability, his unswerving devotion, and most of all because of his high courage, JOHN MCSWAIN has been an outstanding chairman. During the past 12 years there have been in the House of Representatives no finer or higher exhibitions of courage than those displayed by him. Oftentimes when I have seen him sick of body and tired of mind, harassed and

vexed by a thousand trials and tribulations, I have thought of the lines of the old English ballad:

"Fight on, my men," says Sir Andrew Barton,
"I am hurt, but I am not slaine;
I'll lie me down and bleed a while,
And then I'll rise and fight againe."

Men like to follow a brave leader. JOHN MCSWAIN has been a lusty warrior—worthy of the best of us. We have felt privileged to follow his leadership. He has been one of the choice and master spirits of the House—a knight without fear and without reproach.

As I stand here today realizing that JOHN MCSWAIN is soon to leave us, into my mind come the lines of Scotland's sweet poet, Bobby Burns, on his friend the Earl of Glencairn:

"The bridegroom may forget the bride
Was made his wedded wife yestreen;
The monarch may forget the crown
That on his head an hour has been;
The mother may forget the child
That smiles sae sweetly on her knee;
But I'll remember thee, Glencairn,
And a' that thou hast done for me!"

This silver vase bears this inscription: "To Hon. JOHN J. MCSWAIN, chairman of the Committee on Military Affairs of the House of Representatives, from his colleagues of the committee as a token of their esteem and affection, June 4, 1936." We present it to you, John. It literally overflows with our esteem and our love. It carriers with it our wish that it may be a constant reminder to you that although you are not with us in person you remain in our hearts. Our appreciation of you and our devotion to you are as abiding as time itself.

REMARKS OF MR. SNELL, OF NEW YORK

Mr. MCLEAN and members of the House Military Affairs Committee, I feel greatly honored on being invited to join with the members of the Military Affairs Committee at an informal luncheon in honor of the chairman of your committee, Mr. MCSWAIN, of South Carolina.

Mr. MCSWAIN and I have been very warm personal friends for a great many years, and it so happened that when Mr. MCSWAIN came to Congress I was chairman of the War Claims Committee, and Mr. MCSWAIN was assigned to that committee. At that time there were a great many very important matters before that committee, and I think I can truthfully say that we gave each and every one of them very careful and considerate attention. I was impressed from the very beginning with the thoroughness and careful attention that Mr. MCSWAIN gave to each claim that was assigned to him.

Mr. MCSWAIN has also done me the honor to invite me to visit him at his home in South Carolina. I have always thought that I should avail myself of the opportunity, but up to the present time I have been unable to do so, but I have been assured by him that the latchstring is still hanging out, and I hope to be able to take advantage of the invitation some time in the near future.

It was with very deep regret that I learned a few days ago that our old friend "Mac" did not intend to be a candidate for reelection to Congress. While, of course, I know that he has good and sufficient reason for that decision, nevertheless it is a real disappointment to his many friends here in the House that he has decided to go back to his chosen profession, the practice of law.

Whether he has any other political aspirations or not I do not know, but I am very sure that if he does have that all of his colleagues here in the House, on both sides of the aisle, firmly hope that he will be successful along that line. We are also very sure that there will be no question about his immediate success in taking up and renewing his law practice. Whatever he does his colleagues wish him Godspeed, and will always be pleased to see him when he makes, as I hope he will, frequent visits to the House of Representatives.

REMARKS OF MR. M'SWAIN, OF SOUTH CAROLINA

Mr. MCLEAN and my colleagues of the Committee on Military Affairs, You have done me too great honor by this gathering and by the generous remarks already made by such friends as LISTER HILL, Mr. SNELL, and others. Words are inadequate to express my deep appreciation for all the kindness that you have shown me through all these years, and more especially for the material evidence of your kindly feeling toward me in the form of the magnificent silver vase, so appropriately inscribed.

My colleagues and my friends, I am voluntarily leaving the Congress after 16 years of hard work, and I beg each of you to testify that during that time I have never advocated or urged a single measure that was tinged in the slightest with selfishness for either myself or for the district that has sent me here to represent its people. I have tried to give all my service to the benefit of all the people of all the country. It is my belief that one section or part of the country cannot prosper or thrive at the expense of another section. It is impossible for one district to grow rich by Federal appropriations that must represent taxes from other districts. I have been fortunate, and I modestly believe that the country has been fortunate, in that I have no fort, field, arsenal, or other War Department activity in my district. For that reason, I have been free of the inevitable local pressure to make terms with the War Deparment in order that my district might get more appropriations. I have regarded national defense as a national problem. I have not been the partisan of the Army as against the Navy, nor of the Air Corps as against the ground troops or the sea forces. I am as much interested in one instrumentality for insuring the national defense as I am in another instrumentality. I am as much for the Navy as I am for the Army, and I am no more for the air forces than I am for the ground forces and the sea forces. I have repeated these generalities in your presence, not because you are unfamiliar with my views. I know that you have already heard them hundreds of times, but I thought that the solemnity of the occasion might add impressiveness to their restatement.

I thank the minority leader for his attendance at our little gathering and I wish to record the sorrow and sense of loss in my own heart occasioned by the sudden and unexpected death of our Speaker last night, and I feel that each of you mourns the loss of the Speaker as a personal friend. His patience, his tolerance and toleration, his zeal for efficiency and for economy in government, will long remain as an inspiration to all of us who have labored with him.

While this is, in a sense, a good-bye gathering, and while it is hard for me to tear myself away from these good and strong patriotic citizens with whom I have been laboring, yet I must confess a sense of relief in that the burdens will soon pass from my shoulders. This is a very hard working committee. We have approximately fifteen hundred bills on our calendar now. It is especially hard for the chairman. Under the burden of these labors I have struggled as best I could. All of you know the mistakes that I have made, but amidst them all there has been but one great outstanding purpose and objective in my mind and heart, and that has been to promote the well-being of our country from sea to sea and from lake to Gulf, by promoting the efficiency and the economy of our defense forces. At this stage of the world's development it is absolutely essential that we maintain a reasonably adequate defensive establishment for the protection of our people against the invasion of our rights, whether by sea or by air or by land. National defense with me is a unity and not a trinity. National defense is the single concrete result that we all should seek, and it should be at the minimum of expense to insure reasonable safety. I believe that the investigation which we have conducted will promote both efficiency and economy in the Army for at least the next 50 years.

Though I must lay these burdens and responsibilities down I am sure they will be carried on by younger, stronger, and better soldiers of the common good. Especially am I happy that my dear friend, LISTER HILL, whom I love as I would a younger brother, will become the chairman of this great committee, and I feel sure that his administration of its affairs will add increased luster to the fame of the committee, and that the interests of the country, so far as the jurisdiction of this committee is concerned, will be safe in his hands, especially when they are upheld by the other members of the committee.

And now, in conclusion, I repeat that I have sought to follow the example set by those predecessors under whom I have served, such as Percy Quin, W. Frank James, John M. Morin, John C. McKenzie, and Julius Kahn, by ignoring party lines and by distributing the responsibility for decision and action throughout the entire membership of the committee. It has been my slogan that "Where national defense begins, partisan politics must end." I do not recall that party names have ever been used in any committee meeting except sometimes in a jocular way. I am sure partisan feeling has never been in my heart, and I do not believe it has been in the heart of any member of the committee on either side. We are interested in the safety of America. The problems of national defense are the same and will be the same, irrespective of which party may be in power. Our national policies, which in a large measure determine our defensive policies, and our strategic situation and its problems are all fixed quantities and do not admit of variation when the party label changes in the administration of our Government's affairs.

Already I feel the exhilaration of freedom. Already I can face my friends and constituents without being perplexed by political considerations. I am going back to South Carolina, back to my home town of Greenville, there to live among the friends of a lifetime. I am not going to be hanging around Washington, pretending to practice law, while, in fact, snatching a few fees here and there for lobbying or quasi-lobbying. Of course, I may be a visitor among you occasionally, and, of course, I would not turn down a good fee to be earned in any honorable manner, but I will be a home-town lawyer and not a hanger-on around Washington. For that reason I am enjoying a sense of exhilaration, so dear to a Scotchman's heart, arising from the realization that henceforth I will be free, and that I can and will serve my people and my country as a private citizen without constantly keeping in mind the thought of my personal political fortunes. Believe it or not, such freedom is the life breath of a Scotchman's soul.

APPOINTMENT OF COMMITTEES AND COMMISSIONS

Mr. O'CONNOR. Mr. Speaker, I ask unanimous consent that notwithstanding the adjournment of the second session of the Seventy-fourth Congress, the Speaker be authorized to appoint commissions and committeees authorized by law or by the House.

The SPEAKER. Is there objection?

There was no objection.

REPORT OF COMMITTEE TO NOTIFY THE PRESIDENT

Mr. O'CONNOR. Mr. Speaker, your committee appointed to join a like committee on the part of the Senate to inform the President of the United States that the Congress is ready to adjourn, and to ask him if he has any further communication to make, has performed that duty. We are directed by the President to inform the Congress that he has no further communication to submit to the Congress.

REPRESENTATIVE SAMUEL B. HILL

Mr. DOUGHTON. Mr. Speaker, I ask unanimous consent to proceed for 3 minutes.

The SPEAKER. Is there objection?

There was no objection.

Mr. DOUGHTON. Mr. Speaker, I would be unfaithful to my highest sense of duty were I not to express my profound and sincere regrets and my own personal loss and, I am sure, the loss to each Member of this House, by the voluntary retirement from the Congress of the Honorable SAMUEL B. HILL, of the State of Washington, to take up his important work in another branch of the Government. [Applause.] To me, Mr. Speaker, this is a loss that I cannot adequately express by mere words. Since I have had the honor of presiding over the great Committee on Ways and Means, for almost 4 years SAM HILL has sat at my right as the ranking member of that great committee.

I can say in all truth and sincerity that during my more than 25 years of service here, knowing so many able and capable men, I have never known one who has served his committee and his country with greater ability and with greater fidelity than SAM HILL. He is a man of outstanding ability and is as loyal a man as ever walked the earth. He has been to me not only a friend but a most useful and indispensable helper. In the great work of our committee I have had the faithful and loyal assistance of every member on that committee, but SAM HILL, sitting at my right, has never been called upon for any service that he has not faithfully and efficiently performed in a most thorough manner. I am sure that I voice the sentiment of every Member of this House when I express a most deep, sincere, and profound regret at his leaving, and also a fervent and earnest hope that he may be as useful and as happy in his new work as he has been in the work that he so ably performed here, and that his future life may be strewn with roses of most perfect perfume. I regret that I do not have language at my disposal, that my words are inadequate, to express my profound regret at his departure from this House. [Applause.]

REPRESENTATIVE THEODORE CHRISTIANSON

Mr. KNUTSON. Mr. Speaker, I ask unanimous consent to proceed for 2 or 3 minutes.

The SPEAKER. Is there objection?

There was no objection.

Mr. KNUTSON. Mr. Speaker, I am sure that the House shares with the Minnesota delegation regret at the retirement from this body of our colleague, former Governor THEODORE CHRISTIANSON. [Applause.] He has served with distinction in this body for the past 4 years. Governor CHRISTIANSON will go to the Senate, where, I am sure, he will add further luster to a long distinguished career.

While I am on my feet, Mr. Speaker, may I bid hail and farewell to the 125 or 150 of our colleagues who will involuntarily retire from this body. We shall miss them, but I assure them that when we take over the reins everything will go as per schedule.

WILLIAM B. OLIVER AND JOHN N. SANDLIN

Mr. BUCHANAN. Mr. Speaker, I ask unanimous consent to proceed for 2 minutes.

The SPEAKER. Is there objection?

There was no objection.

Mr. BUCHANAN. Mr. Speaker, I do not rise to speak. I rise to testify—to give my testimony to the splendid record of the application of the principles of intelligent economy to the administration of Federal Government by two of my colleagues on the Committee on Appropriations who will not serve in the next Congress, Mr. OLIVER and Mr. SANDLIN, of Louisiana. [Applause.]

They need no praise from my lips. Their records speak louder than the lips of men and testify to the fact that this country has lost the most valuable service of two of the most valuable Members of Congress. I thank you. [Applause.]

WARREN J. DUFFEY, WILLIAM L. FIESINGER, AND STEPHEN M. YOUNG

Mr. CROSSER. Mr. Speaker, I ask unanimous consent to proceed for 2 minutes.

The SPEAKER. Without objection, it is so ordered.

There was no objection.

Mr. CROSSER. Mr. Speaker, on behalf of the Ohio delegation I just want to say a word or two about the departure from our body of three distinguished Members from Ohio, Messrs. DUFFEY, FIESINGER, and YOUNG. All of us who have had occasion to serve with those three gentlemen can testify very truthfully as to their high degree of ability, and their conscientious devotion to duty. I know we regret their passing. I am sorry to say Mr. DUFFEY, because of illness, is not able to be with us here tonight, to give us an opportunity to say a word of kindness to him and to cheer him on his way. I hope and I know we all hope that he will soon recover.

Edward Markham wrote a few lines that it seems to me should indicate our feeling toward the three men of whom I am speaking, when he said:

"There is a destiny that makes us brothers,
None goes his way alone;
All that we send into the lives of others,
Comes back into our own."

The truth of these words should give those three gentlemen who are retiring from service much comfort, because they have sent into the lives of others things from which they will receive much joy in receiving them back to their own.

I thank you. [Applause.]

EDWARD MORAN AND WILLIAM N. ROGERS

Mr. CONNERY. Mr. Speaker, I ask unanimous consent to proceed for 2 minutes.

The SPEAKER pro tempore (Mr. O'CONNOR). Without objection, it is so ordered.

There was no objection.

Mr. CONNERY. Mr. Speaker, we are about to lose one of our New England colleagues from this House, a Member who is voluntarily retiring, a man who could return to Congress, possibly, as often as he wanted to, but who is voluntarily retiring. He is a man who has given fine service in his terms in the House of Representatives. I refer to Mr. EDWARD MORAN from Maine, who is voluntarily retiring. [Applause.]

Mr. Speaker, I know that the House will be very glad to learn that a distinguished member of the Committee on Military Affairs is going to be the next United States Senator from the State of New Hampshire, leaving this House, WILLIAM N. ROGERS. [Applause.]

TILMAN B. PARKS

Mr. JOHNSON of Oklahoma. Mr. Speaker, I ask unanimous consent to proceed for two minutes.

The SPEAKER pro tempore. Without objection it is so ordered.

There was no objection.

Mr. JOHNSON of Oklahoma. Mr. Speaker, as we approach the closing minutes of the Seventy-fourth Congress our hearts are saddened to be reminded that many of our colleagues, for one reason or other, will not return to the next Congress. Several are voluntarily retiring from public life. Among those distinguished Members who are leaving Congress voluntarily is a neighbor of mine, who has served with distinction from the great State of Arkansas for the past eight consecutive terms. He is not only a patriotic American, but he is a statesman and a gentleman, who has the confidence, respect, and admiration of all Members of this House. I know I voice the sentiment of all Members of this body when I say we sincerely regret that he will not return to Congress, where he has given 16 years of valu-

able, unselfish service to his State and Nation.. I refer to none other than the distinguished and patriotic Member who is chairman of one of the important subcommittees of the Appropriations Committee of the House, the Honorable TILMAN B. PARKS, of Arkansas. [Applause, the Members rising.]

THE SPEAKER

Mr. SNELL. Mr. Speaker, I offer the following resolution, and ask for its immediate consideration.

The SPEAKER pro tempore. The gentleman from New York offers a resolution, which the Clerk will report.

The Clerk read as follows:

Resolved, That the thanks of the House are presented to the Honorable WILLIAM B. BANKHEAD, Speaker of the House of Representatives, for the able, impartial, and dignified manner in which he has presided over the deliberations and performed the arduous duties of the Chair.

Mr. SNELL. Mr. Speaker——

The SPEAKER pro tempore. The gentleman from New York.

Mr. SNELL. Mr. Speaker, I am very pleased personally, and on behalf of the minority, to offer this resolution expressing our thanks and appreciation for the consideration and courtesy that has been shown us by the present Speaker. [Applause.] The same was true of him during the time that he acted as and was majority leader of the House.

I consider the position of Speaker of the House of Representatives one of the greatest positions in the gift of the American people. It is certainly second only to the Presidency of the United States. No man ever comes to that position unless he has real ability, character, and legislative experience. I consider that the present Speaker of this House has a generous amount of each of these qualifications [applause], and I am proud to call him "Mr. Speaker" and "my personal friend WILL BANKHEAD."

I desire at this time also to express my appreciation to the able, genial chairman of the Rules Committee and acting majority leader. [Applause.] As today has developed, I do not always agree with the chairman of the Rules Committee, but usually when I have criticized him on the floor of the House he has retorted in this manner: That his long association and service with another gentleman from New York who once was chairman of the Rules Committee had influenced him to do such things as he did. [Laughter.] I want him to know that I appreciate, outside of that, the consideration he has given us.

While I am on my feet, Mr. Speaker, I desire to express my thanks for the loyal and hearty support the Members of the majority have given me during this session of Congress. At the same time, I desire to express my appreciation to my friends on the other side of the aisle also for the consideration they have given the minority leader. [Applause.]

And to all my colleagues I wish, as you depart for home, that you have a very pleasant, enjoyable, and happy vacation; that you may have the rest you are entitled to after the arduous work of the Seventy-fourth Congress. God bless you all. [Applause, the Members rising.]

The SPEAKER pro tempore. The question is on the resolution offered by the gentleman from New York.

The resolution was agreed to.

Mr. BANKHEAD. Mr. Speaker [applause, the Members rising]——

The SPEAKER pro tempore. The gentleman from Alabama.

Mr. BANKHEAD. Mr. Speaker, I am, of course, profoundly grateful, not only for the resolution offered by the distinguished minority leader and adopted by this House but also for his cordial and generous expressions of praise for my humble and limited services as a Member of this body.

I must confess that I make this acknowledgment of my gratitude and appreciation with a saddened heart, because I must remember that it has only been a few days since one greater than I presided over the destinies of this House. We took him to Tennessee and laid him to rest, surrounded, to use a quotation, by the proud and affectionate solicitude of a great constituency. Peace to the ashes of a great Speaker of this House! He was the friend of every man who sat in it on either side of the aisle; and so my elevation to the distinguished and responsible post to which I have been raised by the unanimous approval of my colleagues came to me tinged with sadness and with elements of great personal sorrow and regret.

But I want to thank you, my colleagues, for this mark of your confidence and esteem.

I have served in this Chamber and in this body for 20 years, one-fifth of a century. This is a rather long time for a man to serve in any legislative body, longer probably than I have deserved to serve here. I do not know how many hundreds of men I have seen come and go during this period of service, but I may say to my colleagues here upon this floor, to those who may be listening in the galleries tonight as American citizens, to those cartoonists who desire to make smart epigrams, and to those who sometimes desire to lampoon the individuality and personality of the Congress of the United States that as long as the Congress of the United States is represented by the type of men in character and attainment that I have served with here for the last 20 years, so long is this Republic secure. [Applause.]

Oh, we have differences of opinion. This is a Government by political parties in large measure, and even on our own side or on your side there are honest differences of opinion and judgment between men who are anxious to preserve their moral and intellectual integrities as they should. But in its last analysis, this so-called dividing line between the Democrats and Republicans is but a myth and a tradition. We who sit on this side representing our great Democratic constituencies, you gentlemen who sit on that side representing Republican constituencies, or Independent or Progressive constituencies are but the agents of the American people.

We are here to perform a great and solemn act and duty. If we may make mistakes in judgment, we may make mistakes in conclusions, but it is an honor, as I see it, to serve in this body. There is not a man or woman who has ever come to this House except there was some reason of talent, attainment, credit, or honor why they should have been sent here.

I did not intend to embark upon a discourse on the character of this body and I beg your pardon for it. I am deeply grateful to you for the honor you have paid me under the tragical circumstances of my succession to the speakership.

I walked out there in the Speaker's lobby this afternoon and looked at the portraits of the great men who have filled this position in the past, and I felt in my heart that I could never measure up to the great heights of the men who had served in this exalted office. But I did pray God to let me do the very best I could within the limits of my capabilities.

So I thank you, my friends. You have had a hard and strenuous session. We have had our differences of opinion. I do not know how our tasks will be approved by the country. I imagine that some of my friends on the left will say we have made some mistakes, not only in this session but in others. This is a matter of political controversy, but this is a government of public opinion, and we will meet the issue in November. But that is not what we are thinking about here in this last meditative hour of the closing session of a great Congress midst the representatives of a great people. Whether you be from the West, the East, the North, or the South you are their Congressmen, you are their friends, and we have all on both sides of this aisle done our dead level best to help our constituencies. We have made mistakes. Maybe we can correct them. Maybe our constituents will correct some of them by sending somebody else here as their representative. [Laughter.]

In departing, allow me to express my deep gratitude and thanks for the honor you have conferred upon me. I hope you may return to your homes in good spirits and in good health and carry with you the assurance that whether you come back here or not is in the lap of the gods, politically speaking. Whether you have been here for 1 term or 10

terms, you have served in this great popular branch of the Federal Government under the ensign of your State above you as the Representative of a great and a free people, and you are representing the people of a great republic, which, despite all of this clamor about communism, fascism, and all other isms, by the grace of God will endure for centuries because of the inherent patriotism and fine judgment of the American people. I thank you. [Applause.]

The SPEAKER resumed the chair.

Mr. COX. Mr. Speaker, I ask unanimous consent to proceed for 1 minute.

The SPEAKER. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. COX. Mr. Speaker, as has been remarked, we have approached the moment of the close of the second session of the Seventy-fourth Congress. It has been a session full of toil and sorrow, because the dreaded black camel has knelt at the gates of many of our friends, but this is an hour when differences are forgotten, when, as the Speaker remarked, the aisle separating the minority from the majority disappears. We are no longer at this moment Democrats or Republicans, but Members of one great family that respects and trusts one another, that honors our Speaker, that loves truth and justice and the flag of our country which floats above the Speaker's head.

Mr. Speaker, in the name and on behalf of a united membership, I salute you, sir, and wish for you long life, health and happiness. [Applause.]

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

Mr. PARSONS, from the Committee on Enrolled Bills, reported that that committee had examined and found truly enrolled bills and joint resolutions of the House of the following titles, which were thereupon signed by the Speaker:

H. R. 255. An act to provide for the commemoration of the Battle of Eutaw Springs, in the State of South Carolina;

H. R. 1362. An act conferring jurisdiction upon the United States District Court for the Western District of Texas to hear, determine, and render judgment upon the claim of R. A. Ramey, doing business as Ramey Bros.;

H. R. 1397. An act to withdraw certain public lands from settlement and entry;

H. R. 1962. An act for the relief of Albert H. Jacobson;

H. R. 2155. An act for the relief of Francisco M. Acayan;

H. R. 2335. An act for the relief of Cora Akins;

H. R. 2435. An act for the relief of the Citizens State Bank of Marianna, Fla.;

H. R. 2932. An act to confer jurisdiction on the Court of Claims to hear, determine, and render judgment upon the claim of the International-Great Northern R. R. Co. against the United States;

H. R. 3777. An act for the relief of the Herald Publishing Co.;

H. R. 3866. An act to confer jurisdiction upon the Court of Claims to hear, determine, and render judgment upon the claim of Emanuel Bratses;

H. R. 3943. An act for the relief of D. E. Wooldridge;

H. R. 3952. An act for the relief of Mr. and Mrs. Bruce Lee;

H. R. 4059. An act for the relief of Ella B. Kimball, daughter and only heir of Jeremiah Simonson;

H. R. 4364. An act for the relief of Andrew Johnson;

H. R. 4641. An act authorizing the President to present a gold medal to George M. Cohan;

H. R. 4707. An act validating certain applications for and entries of public lands, and for other purposes;

H. R. 5078. An act for the relief of Mrs. Charles F. Eikenberg;

H. R. 5754. An act for the relief of Emma M. Pearson;

H. R. 5829. An act for the relief of Daniel J. Hagerty;

H. R. 6668. An act for the relief of S. John Hegstad;

H. R. 6719. An act to amend the Canal Zone Code;

H. R. 6773. An act to provide for an investigation to determine whether the water rights of the United States have been violated in the Clear Lake watershed, California, and for other purposes;

H. R. 6951. An act for the relief of Thomas J. English;

H. R. 7256. An act for the relief of Perry H. Callahan and Malcolm W. Callahan;

H. R. 7463. An act for the relief of Lawrence R. Lennon;

H. R. 7642. An act for the relief of the estate of Frank W. Trick;

H. R. 7727. An act to confer jurisdiction on the Court of Claims to hear and determine the claim of George B. Marx, Inc.;

H. R. 7736. An act to provide for the establishment of the Whitman National Monument;

H. R. 7818. An act for the relief of Caroline M. Hyde;

H. R. 7839. An act for the relief of C. E. Rightor;

H. R. 7864. An act for the relief of Edward P. Oldham, Jr.;

H. R. 8107. An act to authorize the coinage of 50-cent pieces in connection with the celebration of the one hundredth anniversary of the opening of the tri-State Territory of east Texas, north Louisiana, and south Arkansas by Capt. Henry Miller Shreve, to be held in Shreveport, La., and surrounding territory in 1935 and 1936;

H. R. 8316. An act to modify section 20 of the Permanent Appropriation Repeal Act, 1934, with reference to individual Indian money;

H. R. 8321. An act for the relief of Julia Long;

H. R. 8322. An act for the relief of Merwin A. Kiel;

H. R. 8368. An act to enforce the twenty-first amendment;

H. R. 8373. An act for the relief of James Fitzgerald;

H. R. 8502. An act for the relief of Theresa Link, Wencel Link, Edward Block, and John Meyers;

H. R. 8521. An act for the relief of Elsie O'Brine;

H. R. 8555. An act to further the development and maintenance of an adequate and well-balanced American merchant marine, to promote the commerce of the United States, to aid in the national defense, to repeal certain former legislation, and for other purposes;

H. R. 8597. An act to amend section 13 of the act of March 4, 1915, entitled "An act to promote the welfare of American seamen in the merchant marine of the United States; to abolish arrest and imprisonment as a penalty for desertion and to secure the abrogation of treaty provisions in relation thereto; and to promote safety at sea"; to maintain discipline on shipboard; and for other purposes;

H. R. 8643. An act for the relief of Mr. and Mrs. Frank Daley;

H. R. 8688. An act for the relief of Grace Schultz;

H. R. 8720. An act for the relief of Louis Manzumin;

H. R. 8799. An act for the relief of John N. Hunter, Edmund M. Cook, Fred C. Putnam, Merchants National Bank of South Bend, Ind., and St. Joseph Loan & Trust Co., of South Bend, Ind.;

H. R. 8841. An act for the relief of Estelle Mary MacDonald and Marilyn MacDonald;

H. R. 9078. An act for the relief of Bertha W. Lamphear;

H. R. 9111. An act for the relief of Evenell Durrance;

H. R. 9191. An act for the relief of dependents of James B. Kiley;

H. R. 9313. An act for the relief of the estate of Hans Ditmanson, deceased;

H. R. 9314. An act for the relief of the estate of Henry Copple, deceased;

H. R. 9315. An act for the relief of the estate of Fred Wilkins, deceased;

H. R. 10044. An act for the relief of Lt. Col. Fernand H. Gouaux;

H. R. 10094. An act to amend section 1 of the act entitled "An act to stop injury to the public grazing lands by preventing overgrazing and soil deterioration; to provide for their orderly use, improvement, and development; to stabilize the livestock industry dependent upon the public range; and for other purposes", approved June 28, 1934 (48 Stat. 1269);

H. R. 10168. An act for the relief of Arch A. Gary;

H. R. 10279. An act for the relief of the Pocahontas Fuel Co., Inc.;

H. R. 10439. An act for the relief of John B. Ricketts;

H. R. 10504. An act for the relief of Booth & Co., Inc., a Deleware corporation;

H. R. 10591. An act to authorize the Secretary of Agriculture to investigate and report on traffic conditions, with recommendations for corrective legislation;

H. R. 10919. An act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes;

H. R. 11022. An act for the relief of Ethel Armes;

H. R. 11123. An act for the relief of Edward A. Foote, Jr., and others;

H. R. 11176. An act increasing the penalty for making false oaths for the purpose of bathing at the Government free bathhouse at Hot Springs, Ark.;

H. R. 11180. An act to extend the boundaries of the Fort Pulaski National Monument, Georgia, and for other purposes;

H. R. 11379. An act for the relief of William H. Milton;

H. R. 11538. An act for the relief of the Orland reclamation project, California;

H. R. 11555. An act to authorize the striking of an appropriate medal in commemoration of the one hundredth anniversary of the arrival of Marcus and Narcissa Whitman in the Walla Walla Valley, Wash., and the founding of the Waiilatpu Mission;

H. R. 11581. An act making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of such District for the fiscal year ending June 30, 1937, and for other purposes;

H. R. 11597. An act for the relief of L. A. Peveler;

H. R. 11615. An act limiting the operation of sections 109 and 113 of the Criminal Code and section 190 of the Revised Statutes of the United States with respect to counsel in certain cases;

H. R. 11688. An act providing for a change in the design of the 50-cent pieces authorized to be coined in commemoration of the one hundredth anniversary of the admission of the State of Arkansas into the Union;

H. R. 11926. An act to provide for a term of court at Durham, N. C.;

H. R. 12002. An act to authorize a preliminary examination of the Lackawanna River, with a view to the control of its floods;

H. R. 12007. An act to authorize a preliminary examination of the Penobscot River, Maine, and its tributaries, with a view to the control of their floods;

H. R. 12008. An act to authorize a preliminary examination of the Androscoggin River, in Maine and New Hampshire, and its tributaries, with a view to the control of their floods;

H. R. 12062. An act to authorize the Secretary of the Interior to accept unsurveyed lands in numbered school sections in the State of Arizona in exchange for certain other lands, and for other purposes;

H. R. 12144. An act for the relief of the Federal Enameling & Stamping Co.;

H. R. 12220. An act to authorize the adjustment of the boundary of the Fort Marion National Monument, Florida, in the vicinity of Fort Marion Circle, and for other purposes;

H. R. 12257. An act to extend the jurisdiction of the United States Court for China to offenses committed on the high seas;

H. R. 12324. An act to amend section 723 (a) of the Revenue Act of 1932, as amended;

H. R. 12353. An act to amend an act entitled "An act to create a Library of Congress Trust Fund Board, and for other purposes", approved March 3, 1925;

H. R. 12395. An act to provide revenue, equalize taxation, and for other purposes;

H. R. 12410. An act to amend section 8 of the act entitled "An act to establish a National Archives of the United States Government, and for other purposes", approved June 19, 1934;

H. R. 12455. An act to provide for the administration and maintenance of the Blue Ridge Parkway, in the States of Virginia and North Carolina, by the Secretary of the Interior, and for other purposes;

H. R. 12458. An act authorizing a preliminary examination of the intracoastal waterway throughout Broward County, Fla.;

H. R. 12490. An act authorizing a preliminary examination of the Levisa Fork of Big Sandy River in the vicinity of the Breaks of Sandy;

H. R. 12494. An act to provide for the establishment of a Coast Guard station on Lake St. Clair, Mich.;

H. R. 12624. An act making appropriations to supply deficiencies in certain appropriations for the fiscal year ending June 30, 1936, and prior fiscal years, to provide supplemental appropriations for the fiscal years ending June 30, 1936, and June 30, 1937, and for other purposes;

H. R. 12758. An act to increase the pension to certain veterans of the Regular Establishment on the rolls March 19, 1933;

H. R. 12796. An act to amend the act entitled "An act to provide for the times and places for holding court for the eastern district of North Carolina", approved May 10, 1928, as amended (U. S. C., 1934 ed., title 28, sec. 179; U. S. C., Supp. I, title 28, sec 179);

H. R. 12876. An act to waive any exclusive jurisdiction over premises of resettlement or rural-rehabilitation projects; to authorize payments to States, political subdivisions, and local taxing units in lieu of taxes on such premises; and for other purposes;

H. R. 12971. An act to amend the act of Congress approved May 27, 1935 (Public, No. 73, 74th Cong.), authorizing the Secretary of Commerce to convey to the city of Grand Haven, Mich., certain portions of the Grand Haven Lighthouse Reservation, Mich.;

H. R. 13001. An act to eliminate unnecessary expense in the administration of estates of deceased and incompetent veterans, and for other purposes;

H. J. Res. 366. Joint resolution providing for the establishment of a game management supply depot and laboratory, and for other purposes;

H. J. Res. 388. Joint resolution to authorize the issuance of a reentry permit to Tomio Mori Moto and his readmission upon application while such permit remains valid;

H. J. Res. 532. Joint resolution for the establishment of a commission in commemoration of the seventy-fifth anniversary of the Battle of Gettysburg in 1938;

H. J. Res. 606. Joint resolution amending section 5 of Public Resolution No. 6, Seventy-fourth Congress, approved March 4, 1935;

H. J. Res. 608. Joint resolution extending for 2 years the time within which American claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the Mixed Claims Commission and the Tripartite Claims Commission, and extending until March 10, 1938, the time within which Hungarian claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the War Claims Arbiter;

H. J. Res. 639. Joint resolution to provide certain administrative expenses for the Division of Territories and Island Possessions, Department of Interior, and for other purposes; and

H. J. Res. 642. Joint resolution to enable the Secretary of Agriculture to apply such methods of control of grasshoppers as in his judgment may be necessary.

The SPEAKER announced his signature to enrolled bills and joint resolutions of the Senate of the following titles:

S. 81. An act to provide for the collection and publication of statistics of peanuts by the Department of Agriculture;

S. 1146. An act for the relief of Michael Dalton;

S. 1567. An act to amend section 5 of the act of March 2, 1919, generally known as the War Minerals Relief Act;

S. 1790. An act for the relief of Margaret Murphy;

S. 1793. An act to amend the act entitled "An act authorizing the Attorney General of the State of California to bring suit in the Court of Claims on behalf of the Indians of California", approved May 18, 1928 (45 Stat. L. 602);

S. 1896. An act to provide interest payments on American Embassy drafts;

S. 2039. An act making it a felony to transport in interstate or foreign commerce persons to be employed to obstruct or interfere with the right of peaceful picketing during labor controversies;

H. J. Res. 641. Joint resolution making appropriations for the payment of expenses incurred in an election contest for a seat in the House of Representatives from the Twentieth Congressional District of the State of New York;

S. 2268. An act for the relief of Bausch & Lomb Optical Co.;

S. 2293. An act for the retirement of employees of the Alaska Railroad, Territory of Alaska, who are citizens of the United States;

S. 2460. An act to amend the act of June 6, 1924, entitled "An act to amend in certain particulars the National Defense Act of June 3, 1916, as amended, and for other purposes";

S. 2647. An act authorizing the Comptroller General of the United States to settle and adjust the claims of subcontractors, materialmen, and laborers for material and labor furnished in the construction of a post-office building at Hempstead, N. Y.;

S. 2953. An act to provide for the inspection, control, and regulation of steam boilers and unfired pressure vessels in the District of Columbia;

S. 3055. An act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes;

S. 3107. An act to exempt publicly owned interstate highway bridges from State, municipal, and local taxation;

S. 3143. An act for the relief of the Passaic Valley Sewerage Commissioners;

S. 3175. An act for the relief of Jesse Ashby;

S. 3247. An act to waive any exclusive jurisdiction over premises of Public Works Administration slum-clearance and low-cost housing projects, to authorize payments to States and political subdivisions in lieu of taxes on such premises, and for other purposes;

S. 3405. An act for the relief of Capt. James W. Darr;

S. 3505. An act for the improvement and protection of the beaches along the shores of the United States;

S. 3733. An act authorizing the issuance of a patent to certain lands in the State of Montana to Florence Kerr Facey;

S. 3808. An act for the relief of R. D. Stephens and Vera Stephens;

S. 3843. An act to provide for the entry under bond of exhibits of arts, sciences, and industries, and products of the soil, mine, and sea, and all other exhibits for exposition purposes;

S. 3879. An act for the relief of James W. Grist;

S. 3976. An act to amend the act approved February 27, 1931, known as the District of Columbia Traffic Act;

S. 4020. An act to authorize the acquisition of lands in the city of Alameda, county of Alameda, State of California, as a site for a naval air station and to authorize the construction and installation of a naval air station thereon;

S. 4152. An act validating certain conveyances by Kickapoo Indians of Oklahoma made prior to February 17, 1933, providing for actions in partition in certain cases;

S. 4241. An act to provide for the sale of a certain isolated tract of the public domain in the State of Oregon;

S. 4268. An act to authorize the Secretary of War to set apart as a national cemetery certain lands of the Fort Snelling Military Reservation, Minn.;

S. 4390. An act to amend the National Defense Act relating to the Medical Administrative Corps;

S. 4432. An act authorizing and directing the Secretary of War to lease land on the Fort Moultrie (S. C.) Military Reservation to the owners of certain cottages thereon;

S. 4457. An act authorizing the appointment of an additional circuit judge for the third circuit;

S. 4490. An act for the relief of F. W. Elmer;

S. 4567. An act to authorize the Secretary of Agriculture to extend and renew for the term of 10 years a lease to the Chicago, Milwaukee & St. Paul Railway Co., a tract of land in the United States Department of Agriculture Range Livestock Experiment Station in the State of Montana, and for a right-of-way to said tract, for the removal of gravel and ballast material, executed under the authority of the act of Congress approved June 9, 1926;

S. 4581. An act authorizing the payment of certain salaries and expenses of employees of the General Land Office;

S. 4608. An act to authorize the coinage of 50-cent pieces in commemoration of the three hundredth anniversary of the founding of York County, Maine;

S. 4633. An act to provide for the selection of certain lands in the State of California for the use of the California State park system;

S. 4634. An act to provide for the selection of certain lands in the State of California for the use of the California State park system;

S. 4648. An act to promote safety at sea in the neighborhood of ice and derelicts, and for other purposes;

S. 4670. An act to authorize the striking of an appropriate medal in commemoration of the three hundredth anniversary of the original Norfolk (Va.) land grant and the two hundredth anniversary of the establishment of the city of Norfolk, Va., as a borough;

S. 4684. An act for the relief of the First, Second, and Third National Steamship Companies;

S. 4699. An act to provide a commissioned strength for the Corps of Engineers, United States Army, for the efficient performance of military and other statutory duties assigned to that corps;

S. 4719. An act for the relief of the Bridgeport Irrigation District;

S. 4727. An act to quiet title and possession with respect to certain lands in Lawrence County, Ala.;

S. 4773. An act to confer jurisdiction on the Court of Claims to hear and determine certain claims against the United States on the part of owners of certain vessels;

S. 4780. An act to extend the laws governing inspection of vessels, and for other purposes;

S. 4784. An act to permit mining within the Glacier Bay National Monument;

S. 4786. An act to authorize the Secretary of Agriculture to make such adjustments and revisions found to be due on contracts entered into by the Government with crop producers under the Agricultural Adjustment Act;

S. J. Res. 38. Joint resolution to provide for an inquiry by the Court of Claims with respect to losses sustained by cooperative marketing associations in connection with stabilization activities in grain;

S. J. Res. 115. Joint resolution designating the last Sunday in September as "Gold Star Mother's Day", and for other purposes;

S. J. Res. 177. Joint resolution to define the term of certain contracts with Indian tribes;

S. J. Res. 196. Joint resolution to correct errors in the enrollment of Private Act No. 349, Seventy-fourth Congress, approved August 29, 1935, and to clarify the duties of the Comptroller General in connection with said act;

S. J. Res. 251. Joint resolution granting the consent of Congress to the city and county of San Francisco to construct a causeway and highways on Yerba Buena Island in San Francisco Bay, and for other purposes;

S. J. Res. 255. Joint resolution to provide for the participation of the United States in commemoration of the seventy-fifth anniversary of the Battle of Antietam;

S. J. Res. 277. Joint resolution to investigate corporations engaged in manufacture, sale, or distribution of agricultural implements and machinery; and

S. J. Res. 291. Joint resolution amending section 11 of the Soil Conservation and Domestic Allotment Act.

BILLS AND JOINT RESOLUTIONS PRESENTED TO THE PRESIDENT

Mr. PARSONS, from the Committee on Enrolled Bills, reported that that committee did on this day present to the President, for his approval, bills and joint resolutions of the House of the following titles:

H. R. 255. An act to provide for the commemoration of the Battle of Eutaw Springs, in the State of South Carolina;

H. R. 1362. An act conferring jurisdiction upon the United States District Court for the Western District of Texas to hear, determine, and render judgment upon the claim of R. A. Ramey, doing business as Ramey Bros.;

H. R. 1397. An act to withdraw certain public lands from settlement and entry;

H. R. 1962. An act for the relief of Albert H. Jacobson.

H. R. 2155. An act for the relief of Francisco M. Acayan;

H. R. 2435. An act for the relief of the Citizens State Bank of Marianna, Fla.;

H. R. 2932. An act to confer jurisdiction on the Court of Claims to hear, determine, and render judgment upon the claim of the International-Great Northern Railroad Co. against the United States;

H. R. 3943. An act for the relief of D. E. Wooldridge.

H. R. 3952. An act for the relief of Mr. and Mrs. Bruce Lee;

H. R. 4059. An act for the relief of Ella B. Kimball, daughter and only heir of Jeremiah Simonson;

H. R. 4364. An act for the relief of Andrew Johnson;

H. R. 4641. An act authorizing the President to present a gold medal to George M. Cohan;

H. R. 4707. An act validating certain applications for and entries of public lands, and for other purposes;

H. R. 5078. An act for the relief of Mrs. Charles F. Eikenberg;

H. R. 5754. An act for the relief of Emma M. Pearson;

H. R. 5829. An act for the relief of Daniel J. Hagerty;

H. R. 6668. An act for the relief of S. John Hegstad;

H. R. 6951. An act for the relief of Thomas J. English;

H. R. 7256. An act for the relief of Perry H. Callahan and Malcolm W. Callahan;

H. R. 7463. An act for the relief of Lawrence R. Lennon;

H. R. 7642. An act for the relief of the estate of Frank W. Trick;

H. R. 7727. An act to confer jurisdiction on the Court of Claims to hear and determine the claim of George B. Marx, Inc.;

H. R. 7818. An act for the relief of Caroline M. Hyde;

H. R. 7839. An act for the relief of C. E. Rightor;

H. R. 7864. An act for the relief of Edward P. Oldham, Jr.;

H. R. 8316. An act to modify section 20 of the Permanent Appropriation Repeal Act, 1934, with reference to the individual Indian money;

H. R. 8321. An act for the relief of Julia Long;

H. R. 8322. An act for the relief of Merwin A. Kiel;

H. R. 8368. An act to enforce the twenty-first amendment;

H. R. 8373. An act for the relief of James Fitzgerald;

H. R. 8502. An act for the relief of Theresa Link, Wencel Link, Edward Block, and John Meyers;

H. R. 8521. An act for the relief of Elsie O'Brine;

H. R. 8597. An act to amend section 13 of the act of March 4, 1915, entitled "An act to promote the welfare of American seamen in the merchant marine of the United States; to abolish arrest and imprisonment as a penalty for desertion and to secure the abrogation of treaty provisions in relation thereto; and to promote safety at sea"; to maintain discipline on shipboard; and for other purposes;

H. R. 8643. An act for the relief of Mr. and Mrs. Frank Daley;

H. R. 8688. An act for the relief of Grace Schultz;

H. R. 8720. An act for the relief of Louis Manzumin;

H. R. 8799. An act for the relief of John N. Hunter, Edmund M. Cook, Fred C. Putnam, Merchants National Bank of South Bend, Ind., and St. Joseph Loan & Trust Co., of South Bend, Ind.;

H. R. 8841. An act for the relief of Estelle Mary MacDonald and Marilyn MacDonald;

H. R. 9078. An act for the relief of Bertha W. Lamphear;

H. R. 9111. An act for the relief of Evanell Durrance;

H. R. 9313. An act for the relief of the estate of Hans Ditmanson, deceased;

H. R. 9314. An act for the relief of the estate of Henry Copple, deceased;

H. R. 9315. An act for the relief of the estate of Fred Wilkins, deceased;

H. R. 10044. An act for the relief of Lt. Col. Fernand H. Gouaux;

H. R. 10168. An act for the relief of Arch A. Gary;

H. R. 10279. An act for the relief of the Pocahontas Fuel Co., Inc.;

H. R. 10439. An act for the relief of John B. Ricketts;

H. R. 10504. An act for the relief of Booth & Co., Inc., a Delaware corporation;

H. R. 10591. An act to authorize the Secretary of Agriculture to investigate and report on traffic conditions, with recommendations for corrective legislation;

H. R. 10919. An act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1937, and for other purposes;

H. R. 11022. An act for the relief of Ethel Armes;

H. R. 11123. An act for the relief of Edward A. Foote, Jr., and others;

H. R. 11176. An act increasing the penalty for making false oaths for the purpose of bathing at the Government free bathhouse at Hot Springs, Ark.;

H. R. 11180. An act to extend the boundaries of the Fort Pulaski National Monument, Georgia, and for other purposes;

H. R. 11331. An act to authorize the sale and conveyance by the Department of the Interior to the State of Minnesota of the SW¼NW¼ sec. 3, T. 159 N., R. 35 W., fifth principal meridian, in the State of Minnesota;

H. R. 11379. An act for the relief of William H. Milton;

H. R. 11538. An act for the relief of the Orland reclamation project, Calif.;

H. R. 11555. An act to authorize the striking of an appropriate medal in commemoration of the one hundredth anniversary of the arrival of Marcus and Narcissa Whitman in the Walla Walla Valley, Wash., and the founding of the Waiilatpu Mission;

H. R. 11581. An act making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of such District for the fiscal year ending June 30, 1937, and for other purposes;

H. R. 11597. An act for the relief of L. A. Peveler;

H. R. 11615. An act limiting the operation of sections 109 and 113 of the Criminal Code and section 190 of the Revised Statutes of the United States with respect to counsel in certain cases;

H. R. 11926. An act to provide for a term of court at Durham, N. C.;

H. R. 12002. An act to authorize a preliminary examination of the Lackawanna River with a view to the control of its floods;

H. R. 12007. An act to authorize a preliminary examination of the Penobscot River, Maine, and its tributaries, with a view to the control of their floods;

H. R. 12008. An act to authorize a preliminary examination of the Androscoggin River, in Maine and New Hampshire, and its tributaries, with a view to the control of their floods;

H. R. 12062. An act to authorize the Secretary of the Interior to accept unsurveyed lands in numbered school sections in the State of Arizona in exchange for certain other lands, and for other purposes;

H. R. 12144. An act for the relief of the Federal Enameling & Stamping Co.;

H. R. 12220. An act to authorize the adjustment of the boundary of the Fort Marion National Monument, Florida, in the vicinity of Fort Marion Circle, and for other purposes;

H. R. 12353. An act to amend an act entitled "An act to create a Library of Congress Trust Fund Board, and for other purposes", approved March 3, 1925;

H. R. 12490. An act authorizing a preliminary examination of the Levisa Fork of Big Sandy River in the vicinity of the Breaks of Sandy;

H. R. 12494. An act to provide for the establishment of a Coast Guard station on Lake St. Clair, Mich.;

H. R. 12624. An act making appropriations to supply deficiencies in certain appropriations for the fiscal year ending June 30, 1936, and for prior fiscal years, to provide supplemental appropriations for the fiscal years ending June 30, 1936, and June 30, 1937, and for other purposes;

H. R. 12758. An act to increase the pension to certain veterans of the Regular Establishment on the rolls March 19, 1933;

H. R. 12971. An act to amend the act of Congress approved May 27, 1935 (Public, No. 73, 74th Cong.), authorizing the Secretary of Commerce to convey to the city of Grand Haven, Mich., certain portions of the Grand Haven Lighthouse Reservation, Mich.;

H. R. 13001. An act to eliminate unnecessary expense in the administration of estates of deceased and incompetent veterans, and for other purposes;

H. J. Res. 366. Joint resolution providing for the establishment of a game management supply depot and laboratory, and for other purposes;

H. J. Res. 388. Joint resolution to authorize the issuance of a reentry permit to Tonio Mori Moto and his readmission upon application while such permit remains valid;

H. J. Res. 532. Joint resolution for the establishment of a commission in commemoration of the seventy-fifth anniversary of the Battle of Gettysburg in 1938;

H. J. Res. 606. Joint resolution amending section 5 of Public Resolution, No. 6, Seventy-fourth Congress, approved March 4, 1935;

H. J. Res. 608. Joint resolution extending for 2 years the time within which American claimants may make application for payment, under the Settlement of War Claims Act of 1928, of awards of the Mixed Claims Commission and the Tripartite Claims Commission, and extending until March 10, 1938, the time within which Hungarian claimants may make application for payment under the Settlement of War Claims Act of 1928, of awards of the War Claims Arbiter;

H. J. Res. 639. Joint resolution to provide certain administrative expenses for the Division of Territories and Island Possessions, Department of Interior, and for other purposes; and

H. J. Res. 641. Joint resolution making appropriations for the payment of expenses incurred in an election contest for a seat in the House of Representatives from the Twentieth Congressional District of the State of New York.

MESSAGE FROM THE PRESIDENT

A message from the President announced that on the following dates the President approved and signed bills and joint resolutions of the House of the following titles:

On June 19, 1936:

H. R. 8033. An act for the relief of Juanita Filmore, a minor;

H. R. 8442. An act to amend section 2 of the act entitled "An act to supplement existing laws against unlawful restraints and monopolies, and for other purposes", approved October 15, 1914, as amended (U. S. C., title 15, sec. 13), and for other purposes;

H. R. 8759. An act to amend the act known as the Perishable Agricultural Commodities Act, 1930, approved June 10, 1930, as amended;

H. R. 9483. An act to extend the provisions of the Forest Exchange Act, as amended, to certain lands, so that they may become part of the Umatilla and Whitman National Forests;

H. R. 10712. An act to authorize the transfer of land from the War Department to the Territory of Hawaii;

H. R. 11819. An act to extend the times for commencing and completing the construction of a bridge across the Missouri River at or near Arrow Rock, Mo.;

H. R. 11820. An act to extend the times for commencing and completing the construction of a bridge across the Missouri River at or near Miami, Mo.;

H. R. 11916. An act to authorize the transfer of a certain piece of land in Muhlenberg County, Ky., to the State of Kentucky;

H. R. 12074. An act to consolidate the Indian pueblos of Jemez and Pecos, N. Mex.;

H. R. 12408. An act for the relief of Robert D. Baldwin;

H. R. 12461. An act to extend the times for commencing and completing the construction of a bridge across the Savannah River at or near Burtons Ferry, near Sylvania, Ga.;

H. R. 12514. An act authorizing the Chesapeake Bay Authority to construct, maintain, and operate a toll bridge across the Chesapeake Bay from a point in Baltimore County, Md., over Hart Island and Miller's Island to a point near Tolchester, Kent County, Md.;

H. R. 12622. An act for the relief of Dr. Harold W. Foght;

H. R. 12685. An act granting the consent of Congress to the county of Horry, S. C., to construct, maintain, and operate a free highway bridge across the Waccamaw River, at or near Red Bluff, S. C.;

H. J. Res. 589. Joint resolution to authorize the Secretary of the Treasury to permit the transportation of bonded merchandise by other than common carriers under certain conditions;

On June 20, 1936:

H. R. 12. An act to amend an act entitled "An act to divide the eastern district of South Carolina into four divisions and the western district into five divisions" by adding a new division to the eastern district and providing for terms of said court to be held at Orangeburg, S. C.;

H. R. 300. An act for the relief of F. P. Bolack;

H. R. 686. An act for the relief of John Collins;

H. R. 993. An act for the relief of Frank A. Boyle;

H. R. 2262. An act for the relief of William H. Locke;

H. R. 2387. An act for the relief of Julia Miller;

H. R. 2400. An act for the relief of Blanche Knight;

H. R. 2495. An act for the relief of Thomas Berchel Burke;

H. R. 2496. An act for the relief of Thomas J. Moran;

H. R. 2497. An act for the relief of William H. Hildebrand;

H. R. 3160. An act for the relief of Irene Magnuson and Oscar L. Magnuson, her husband;

H. R. 3388. An act for the relief of Jessie D. Bowman;

H. R. 3907. An act for the relief of James L. Park;

H. R. 4219. An act for the relief of John J. Ryan;

H. R. 4565. An act for the relief of Lucile Smith;

H. R. 4619. An act for the relief of Joseph Salinghi;

H. R. 4688. An act to authorize the operation of stands in Federal buildings by blind persons, to enlarge the economic opportunities of the blind, and for other purposes;

H. R. 4699. An act for the relief of Estelle M. Gardiner;

H. R. 4955. An act for the relief of the estate of Jennie Brenner;

H. R. 5870. An act for the relief of K. S. Szymanski;

H. R. 5900. An act for the relief of Joseph E. Moore;

H. R. 6258. An act for the relief of D. E. Woodward;

H. R. 7270. An act for the relief of Clara Imbesi and Domenick Imbesi;

H. R. 7555. An act for the relief of W. N. Holbrook;

H. R. 7743. An act for the relief of Mrs. David C. Stafford;

H. R. 7764. An act to relieve restricted Indians whose lands have been taxed or have been lost by failure to pay taxes, and for other purposes;

H. R. 8028. An act for the relief of the Great Northern Railway Co.;

H. R. 8200. An act for the relief of the seamen of the steamship *Santa Ana;*

H. R. 8671. An act for the relief of R. H. Quynn, lieutenant, United States Navy;

H. R. 9926. An act for the relief of Robert B. Barker;

H. R. 10435. An act for the relief of Emma Hastings;

H. R. 10677. An act for the relief of Cora Fulghum and Ben Peterson;

H. R. 10916. An act for the relief of Carl Hardin, Orville Richardson, and W. E. Payne;

H. R. 11103. An act to extend the times for commencing and completing the construction of a bridge across the Mississippi River between New Orleans and Gretna, La.;

H. R. 11203. An act for the relief of Andrew Smith;

H. R. 11218. An act to provide for the disposition of tribal funds now on deposit, or later placed to the credit of the Crow Tribe of Indians, Montana, and for other purposes;

H. R. 11461. An act for the relief of the estate of N. G. Harper and Amos Phillips;

H. R. 11522. An act to amend the charter of the National Union Insurance Co. of Washington in the District of Columbia;

H. R. 11614. An act to amend the Judicial Code to divide the middle district of Georgia into seven divisions by adding a new division to the middle district, and providing for terms of said court to be held at Thomasville, Ga.;

H. R. 11690. An act relating to the admissibility in evidence of certain writings and records made in the regular course of business;

H. R. 11915. An act to amend the Coastwise Load Line Act, 1935;

H. R. 12006. An act to authorize a preliminary examination of the Kennebec River, Maine, and its tributaries, with a view to the control of their floods;

H. R. 12073. An act to reserve certain public-domain lands in New Mexico as an addition to the school reserve of the Jicarilla Indian Reservation;

H. R. 12202. An act to provide for a preliminary examination of Six Mile Creek in Logan County, Ark., with a view to flood control and to determine the cost of such improvement;

H. R. 12240. An act to authorize a preliminary examination of the tributaries, sources, and headwaters of the Allegheny and Susquehanna Rivers in the State of Pennsylvania, where no examination and survey has heretofore been made, with a view to the control of their floods and the regulation and conservation of their waters;

H. R. 12311. An act for the relief of the P. L. Andrews Corporation;

H. R. 12419. An act to apply laws covering steam vessels to seagoing vessels of 300 gross tons and over propelled by internal-combustion engines;

H. J. Res. 179. Joint resolution authorizing the President to present the Navy Cross to J. Harold Arnold;

H. J. Res. 444. Joint resolution to amend the joint resolution entitled "Joint resolution authorizing the Federal Trade Commission to make an investigation with respect to agricultural income and the financial and economic condition of agricultural producers generally", approved August 27, 1935;

H. J. Res. 522. Joint resolution for the relief of William W. Brunswick; and

H. J. Res. 583. Joint resolution authorizing the Veterans' Administration to prepare and publish a compilation of all Federal laws relating to veterans of wars of the United States.

EXTENSION OF REMARKS

ACHIEVEMENTS OF THE ADMINISTRATION OF FRANKLIN D. ROOSEVELT

Mr. BANKHEAD. Mr. Speaker, we are approaching the final meeting of the Seventy-fourth Congress and the time when most of us must go before the electorate to be judged on the record we have made as Members of this body.

Perhaps some of us in public life are too fond of thinking that what we have accomplished is memorable and that sympathetic historians are waiting in eagerness to inscribe the records of our achievements on imperishable parchment. Yet I feel that on this occasion we may properly use the word memorable without being accused of exaggeration or lack of modesty. Certainly even those who disagree with what has been done are careful to point out that the work of this Congress may have an important bearing on sociological, economic, and political conditions in this country for generations to come. At least no one may honestly use that phrase of bygone years, so often a term of derision and contempt, that another do-nothing Congress is limping to a close.

The work of the Seventy-fourth Congress has been significant and far reaching and in my humble judgment every Member of this House who has played a part in its deliberations should have a feeling of just pride and satisfaction in what has been accomplished. We have enacted measures that will live for decades as pioneering landmarks on the trail of wise social and cultural legislation. In normal times the work of the Seventy-fourth Congress would stand by itself but because of the extraordinary conditions and the extreme emergency existing when this present administration came into power, I am going to review the work of the Seventy-third Congress and the Seventy-fourth Congress as one. The great majority of you participated in the deliberations of both Congresses, the program we attempted fits into one great pattern, and the results are traceable to the success of the general policy rather than to specific legislative enactments.

With your kind indulgence I am going to take the time of the House to review the state of the Union as we know it now, and to gage what has been done here in the light of what we endeavored to accomplish and against the background of conditions as we knew them 4 years ago.

It is not my purpose to weary you at this time by a long recital of the dreadful and terrifying conditions which prevailed when the Roosevelt administration was given the duty and obligation of revitalizing and rebuilding a Nation, caught helpless and suffering in the grip of a devastating economic depression. The picture of business and banking, commerce and agriculture, lying prone and inert, has been painted too often to need retouching by me. Yes; your own realization of the grave responsibility entrusted to your care is, I am certain, still fresh and vivid in your memory.

What I should like to have you recall is the state of mind experienced by you and the state of mind apparent in the Nation in those stirring days when we were at grips first-hand with the problem of restoring the economic lifeblood of the Nation. We know that the eyes of every individual in this country and, to a large extent, the eyes of the world were turned here to see if in a democracy a President and a Congress would work harmoniously and swiftly for the public good. Cynics said it was impossible; millions of others hoped for the best but were painfully conscious that in the past cooperation had too often crumbled away on the rocks of dissension, factionalism, and partisanship.

I say it is essential to recall the public state of mind which existed when the New Deal program was undertaken in order to arrive at a just appraisal of the measures we attempted and difficulties we confronted. The economic well-being of the people has taken giant strides forward in the last few years, the ship of state is now lying in comparatively quiet and calm waters, and, as usual, under such circumstances a great many critics are finding fault with the President and Congress for attempting too much. That attitude of mind has been sharpened considerably by the fact that the courts have seen fit to rule against many of the measures which we enacted in the great job of combating the depression and which did play a notable part in aiding the march back to better and more prosperous times.

I am not going to divert myself from the subject at hand to enter into a lengthy discussion of the constitutional question involved in the various legislative enactments of the New Deal. But I say without fear and contradiction that if Congress was wrong in assuming that it had the power to cope with these great economic problems on a national scale, then every man, woman, and child in this country was wrong, because, without exception, they were looking to Washington in March 1933 for a solution of their trials and difficulties.

The newspapers which today are excoriating the Roosevelt administration for what they profess to believe were illegal acts were crying back in 1933 for the enactment of the very measures which they now condemn. They urged Federal spending; they urged public works; they clamored for an end to the disastrous practice of price cutting; they appealed for a restoration of the price level—in short, they implored Congress to do just what Congress did. And I say further that even if some of those measures exceeded the precise powers of Congress as interpreted by the Supreme Court, there is no question that while they were on the statute books they aided greatly in restoring a balanced economic life in this country.

I say again that in the early days of 1933 there was a universal appeal from all the people of this country for the President and Congress to undertake a program, national in scope and swift in execution, for the alleviation of distress and the restoration of business and agriculture. And I say to you Members of Congress that when you hear yourselves criticized because in patriotic fashion you voted for these measures in the great emergency, just reflect on the fact that if Congress had failed to enact those measures, if Congress had continued to let things drift, every single one of us would have been swept out of office by an aroused public, and we would have been replaced by men and women pledged to do what the American people wanted done. And you have the further consolation of knowing that those who profited most by the measures you advocated are now leading members in the chorus of condemnation.

In all my memory of years in Congress I never recall a time when the Members of both Senate and House were more realistic or more courageous in grappling with the complex questions of economics and politics than they have been in the 4-year period just ending. The legislation enacted has touched virtually every field of human endeavor, it has been marked by a sincere effort to cure old wrongs and old injustices, and to establish a new reign of economic well-being for the great mass of American citizens under the age-old processes of democracy.

We are entitled to be judged on results and results alone, just as every other Congress and every other body of men is judged. The record is plain and incontrovertible. In a little over 3 years, under the wise policy of cooperation between the President and Congress, this country has been lifted from a condition of industrial and economic prostration to a high plane of prosperity, well-being, and contentment. Tranquillity and good feeling prevail in domestic relations, while in the field of foreign affairs the United States is the envy of all the world. Those are the facts, and it is a record of which every Member of this body may well be proud.

There is a disposition on the part of some people, who either don't know the facts or who like to ignore them, to cry down the work of this administration and to repeat the fallacy that our present measure of prosperity has been attained without the aid of the New Deal program. In reply to such short-sighted criticism it is my intention to review swiftly some of the outstanding measures written into law, and to reveal the part they played in the great work of restoring normal business and commercial conditions.

The matter of banking legislation naturally comes first in reviewing the achievements of the Roosevelt administration. The country still remembers the dramatic swiftness with which President Roosevelt and the Congress acted in unison to reestablish confidence and to bolster up the banking system, which had been literally falling apart until at last the process of disintegration culminated in a wave of State-wide banking holidays. The job of stabilizing the banking structure, of protecting the outflow of gold, and of restoring confidence was accomplished in swift and vigorous fashion, and the whole country applauded.

But what most people fail to realize is that since that time, in the normal working of Congress, we have written into law banking reforms that have strengthened the whole structure, that will guard against future disastrous occurrences of the same kind, and that without such banking reforms the restoration of business we are now experiencing would have been absolutely impossible. The business of this country cannot go on without a stable banking system in which the people have complete confidence.

We wrote into law the epoch-making provision providing for the insurance of deposits up to $5,000. The benefits flowing from that provision are already in evidence. Bank deposits are now in excess of $24,000,000,000, more than two billions above what they were in the boom period of 1929. The number of depositors is also about 2,000,000 above what it was in the boom days. That is a record of which we may well be proud and it is a direct and convincing proof of the way in which the measures we adopted helped bring recovery.

In addition to that, the Glass-Steagall bill provided for many needed reforms in banking practices. It likewise provided a number of checks and restraints that will enable the Federal Reserve System to act more surely and swiftly in the future in the event unhealthy financial factors appear likely to upset the normal flow of business and commerce.

But these measures alone do not constitute the full quota of what was done by Congress in the great work of rebuilding and stabilizing the banking system of the country. One of the great contributing factors was the Home Owners' Loan Corporation, which assisted literally hundreds of banks over a difficult time by providing them with quick liquid assets in exchange for assets temporarily frozen because of the stagnation in the real-estate market. In other words, the long-term risk was simply transferred to Uncle Sam with results that were profitable for the home owners, for the banks, and for the country generally.

The Farm Credit Administration likewise did a tremendous amount of good along the same line. We all know that the small banks in the agricultural areas were among the heaviest sufferers as a result of the severe depression. They had assets that were fundamentally sound, but with farm prices down and cash scare, it was absolutely imperative for them to have temporary help. They got that help from the Farm Credit Administration.

The establishment of the Securities and Exchange Commission was another landmark in the task undertaken by Congress to make certain that the people of the country are protected against another such speculative debauch as that which preceded the market crash and the beginnings of the depression in 1929. The purchaser of securities now has a greater protection than he ever had before, and in the light of experience it is my belief that the work of the Commission will become of greater value as time goes on. Taken together, the various acts written into law for the stabilization of the banking system form a united whole, upon the basis of which we are now building up the finest and safest banking system the country ever had.

I think it is now generally agreed that the loss of purchasing power on the part of the agricultural population of this country was the greatest single factor in bringing on the depression. When the great majority lack money to buy, quite naturally the whole country suffers. The present administration and Congress lost no time in enacting a whole series of laws to restore the farmers' purchasing power. Those enactments have been successful in the highest degree.

They have increased the buying power of the farmers' by an aggregate amount of several billions. Before it was declared unconstitutional, the A. A. A. had achieved the basic purpose of helping to restore a balance between production and consumption. I am hopeful that the Soil Conservation Act, enacted to replace the A. A. A., will prove equally effective, and that it will perform the vitally necessary task of putting submarginal lands out of production and conserving good lands from erosion and destruction.

There have been a number of other acts which have been of great assistance to the farmers, including the Jones-Costigan Sugar Act, the Bankhead cotton-control bill, the Tobacco Inspection Act, and the Farm Research Act.

The Farm Credit Administration was also enacted into law. It has been efficiently managed and, through its wise provisions, more than 500,000 farmers have been saved from dispossession. I think this measure has had as much to do

as any single measure in restoring the faith of the planters and growers in the desire of the Government to help them through their financial difficulties.

But apart from specific enactments, the great fact is that the entire United States is now convinced, as a result of the experience of the past few years, that we must continue to ensure the population of this country a decent income because, without it, neither they nor the country can prosper.

What this Congress has done to restore industry and manufacturing is best illustrated by the figures and statistics showing how production and profits have grown by leaps and bounds from the low point of the depression to the high levels of today. The automobile industry and many other industries are enjoying the most prosperous times in their history.

The restoration of the banking system was the first step needed to revive industry. The expansion of the R. F. C. and the widening of its loaning power was another tremendous factor in the industrial gain. Through that agency literally billions of dollars were poured out to help the railroads, insurance companies, and other establishments over a temporary financial crisis. The money was wisely loaned and it has proved a good policy for all concerned.

Perhaps the greatest benefit conferred upon industry was the quick steps taken to halt the downward deflationary movement of prices which had been taking place at an alarming rate before this administration came into power. By devaluating the gold content of the dollar, the downward spiral of price levels was turned into an upward curve. Although the N. R. A. was later banned by the courts, we should remember that it was enacted into law with the urgent encouragement of both business and labor leaders, and that it performed its primary purpose of starting the rise in both wages and prices.

The reciprocal-trade program, authorized to cut a hole in the tariff barriers thrown around this and other countries, has been successful in the initial work of restoring the flow of international trade. The agreements signed with other countries are winning the approval of both manufacturing and farming interests in this country. As time goes on this program will become increasingly important.

The spectacle of 15,000,000 or more employable people in this country without funds, without work, and without a chance to earn a livelihood was one of the grave problems to confront this country a few years ago. It was no time to preach musty dogmas about the responsibility of local taxing units and private charity to care for these unfortunate people. The only agency in the country big enough to meet the emergency and do the job was the Federal Government, and we proceeded to the task without shirking.

Under this administration, Congress has enacted a whole series of measures to help the destitute and the unemployed, but, of course, the outstanding measure was the $4,800,000,000 relief bill. The purpose of that great measure was to end the dole, to end the practice of handing grocery slips to men and women who wanted work, and to make certain that in return for funds expended the country got a construction program of needed public works. The policy embraced in the Work Relief Act is now the subject of spirited controversy, and it is not my purpose to explore at this time the reasons which impelled us to adopt the policy which we did.

But there are two outstanding things for us to remember about the Work Relief Act. The first is that it provided employment for millions of men and women in the great cities and centers of population where they needed work. I think it is to the lasting credit of the President and Congress that we got through the greatest depression in the Nation's history with a minimum of civil disorders and industrial disturbances. The spirit of the country was on a high plane because men and women were given something to do. There were no idle mobs of men and women congregating in city squares and on street corners to brood over their fate and to give the needed spark for those unfortunate street riots and disorders which have happened all too frequently in the past.

The work-relief program has also helped hundreds of municipalities and towns from going into bankruptcy. It has helped them carry on needed improvements and necessary civic work at a time when the cities were unable to perform such work for themselves. No one who knows the record need be ashamed of what the works program has accomplished, and in this connection it is well to remember that it was unanimously approved by the United States conference of mayors.

Another great factor in promoting recovery has been the fine program of public works authorized by Congress for the country as a whole. As we go about the country we are impressed by the fact that the stimulation of building and construction is due entirely to the prudent use of Federal money for needed projects. Public buildings, public roads, schoolhouses, dams, and other types of construction are providing work for large numbers of the unemployed. The effect this money has had in stimulating buying is almost incalculable.

One of the earliest acts of the Seventy-third Congress was to put through a bill legalizing light wines and beers, which brought large sums of sorely needed revenue into the Treasury. Congress also hastened the amendment by which the States were enabled to repeal the eighteenth amendment to the Constitution. The result has been to increase revenues while at the same time putting a check upon lawless elements that were reaping a harvest through violations of the law.

The bill providing for cash payment of the soldiers' adjusted-compensation certificates was also written into law, and before long the checks should be going out to veterans everywhere, thus paying off a debt of honor owed by the Government and at the same time adding purchasing power to the country generally. A number of other measures were passed insuring generous treatment for the veterans of the World War and Spanish-American War in connection with war-service disabilities.

One of the worst and most disastrous effects of the prolonged depression was the wholesale manner in which home owners were being dispossessed because they were unable to keep up payments on their property. There is no more demoralizing happening than for a family to lose its home. Congress took cognizance of that situation.

The Home Owners' Loan Corporation was established, and through its operations more than a million home owners were able to save themselves from the distressing penalty of dispossession. In addition to that, Congress passed the Federal Housing Act, through which a much-needed stimulus has been given to home building and repair.

In the rural areas the Resettlement Administration has been assisting hard-pressed farmers on submarginal lands to find a new location on fertile soil where these farm men and women will be able to win a living out of their back-breaking toil. That policy was designed not only to help these farm families over the depression but to keep them off the relief rolls permanently.

Unlike certain other elements, the laboring men of this country are not ungrateful to the President and Congress when measures are adopted for the protection of their fundamental rights and to promote their welfare. There has been more legislation passed to help the workingmen during the last 3 years than during any comparable period in the history of the country. The N. R. A. was a magnificent attempt to root out child labor, sweat-shop working conditions, and insensibly long hours at pittance wages. The Guffey Coal Act was another attempt to do justice to the workingmen in one of the country's basic industries. While it was held unconstitutional by a majority of the Supreme Court, there is no denying the fact that it was a powerful factor in keeping peace in the industry during its life on the statute books. The Wagner Labor Relations Act is another in the long series designed to protect and safeguard the laboring people of this country.

There is one law placed upon the statute books by this Congress that is assured of a place in the permanent policies of this Government. I refer to the Social Security Act, the basic principle of which is now favored by an overwhelming

majority of the people of this country. It is a frank recognition upon the part of the Federal Government that we owe a measure of care and protection to the sick, the aged, and the infirm—that it is our duty to make certain, by all the means within our power, that the weak and unfortunate are not again subjected to the rigors of economic depression without the slightest effort being made to alleviate their condition. If this Congress had done nothing else, it would have won the undying gratitude of generations to come by the enactment of the Social Security Act.

During the last 4 years we have written a new policy on water power onto the Federal statute books, and in my judgment it constitutes another landmark along the pathway of wise and humane legislation. Congress has seen to it that the great natural power sites shall remain in the hands of the people for all time to come and that the power itself shall be developed for the use of those who need it. Muscle Shoals, Grand Coulee, Bonneville, and other tremendous projects are the visible signs of that intelligent policy. At the same time we have enacted legislation to curb the monopolistic tendencies of holding companies and other large combines within the power industry itself. While a few people representing selfish interests like to cry out that they have been hurt by these policies, the fact is that power consumption in the United States today is greater than it ever was before.

This present Congress and the Seventy-third Congress have done an extremely important work in providing for the upbuilding of the defense of this country on land, on the sea, and in the air. The science of military and naval warfare moves forward rapidly and the fact is that our defenses had been neglected in hazardous and perilous fashion for a great many years. We had no adequate replacement program for ships and airplanes. Our land defenses had been neglected. The program adopted by this Congress and the preceding Congress will build up our defenses as they should be built up without in any way constituting a threat to the peace of any other nation. The fact is that if a well-balanced replacement program had been placed in effect long before this the present expenditures would be greatly less than they are.

The most noteworthy development in the field of foreign affairs was the passage of the Neutrality Act, which gave assurance to this country that in the event of war in Europe or Africa this country intended to remain out of it. By the early adoption of that act we gave notice to the world that we intended to remain apart from the quarrels of other nations and at the same time we lifted any uneasiness that may have existed in this country. It was a policy founded on foresight and common sense, and the fact that we have been enabled to steer clear of the present unrest in international affairs is the surest testimony of its effectiveness.

I have covered in the briefest manner possible the legislative program adopted by this Congress and the preceding Congress and the humane and far-seeing policies which promoted the enactment of this program into law.

Once again I repeat that as legislators we are entitled to be judged upon the record of accomplishments we have made. The state of the Union, yes, the fate of the Nation was placed in the hands of the President and Congress in that dramatic hour 3 years ago, and I say to every carping critic that you have more than justified the faith which the country placed in you. The proud and prosperous United States, which today stands out in all its vigor among the nations of the world, was brought to that preeminent position as a result of the fruitful and beneficial policies enacted by this Congress. It is significant indeed that the class of people who today sneer at Congress for what has been done is the same class that back in 1933 was sighing aloud for a dictatorship to take over the reins of government.

This work of this Congress has been memorable and historic, and it is my honest conviction that in the years to come the Members of this body may look back with keen satisfaction upon the fact that they were Members of the Congress which helped to vindicate the processes of democratic government in this country.

THE NINETEENTH CONGRESSIONAL DISTRICT OF TEXAS

Mr. MAHON. Mr. Speaker, the session is nearly over. Approximately 435 Members of Congress will soon return home to their constituents. Some Members from the cities and more populous sections will return to districts no larger in area than many of our west Texas farms. I will return to a newly created district of about 23,000 square miles, a district of 25 counties and 254,000 people, a district larger in area than any one of the following States of the Union: Rhode Island, Delaware, Connecticut, New Jersey, Massachusetts, New Hampshire, Vermont, and Maryland.

Since this is a new district and I have the honor of being its first Representative, I think it appropriate that I very briefly call to the attention of the Congress its resources, its people, and its relationship to this Democratic administration.

The Bureau of the Census reports show a growth in population of the 25 counties of my district from 110,127 in 1920 to 254,367 in 1930, an increase of 130.9 percent. I have prepared a table which I will include in the RECORD which shows the name and area of each county, its population in 1920 and in 1930, the population figure per square mile, and the percentage of increase of the 1930 population figure over that of 1920. This table shows an astounding growth for certain of these counties, particularly Hockley, Cochran, and Lamb. Every county experienced a material increase in population and a consequent growth in wealth in the form of homes, business houses, schools, roads, farming equipment, and production.

In this section we produce cotton and feedstuffs with much less labor and cost per acre than in any other section in America. Hence, the natural advantages of the area for farming coupled with the availability of land at fair prices has, no doubt, accounted in large part for the growth of this section.

The United States Department of Agriculture reports the value of all farms in the Nineteenth District of Texas in 1935 to be $231,603,519. We have approximately 30,000 farms in the district.

No less significant in the growth of this area is the type of people who have been responsible for this development. This area is within what is truly the last great American frontier. Its people are in every sense of the word pioneers. They have carved out of the heart of the old cattle kingdom an agricultural empire. The development of this section has been wrought by the strong determination and preseverance of a people with one purpose in their hearts—to build a new home for themselves. In this task they have not been unmindful of those community projects which are so vitally important to the individual home. In a short space of years hundreds of churches have been erected, hundreds of schools have been built, hundreds of miles of good roads have been constructed, Texas Technological College at Lubbock has been born and is rapidly achieving national recognition.

It is true that the climatic characteristics of this area have brought droughts with their hardships, disappointments, and financial reverses. Yet the people have always been sustained by a faith that has endured through the severest losses and have written their record of progress in an economic and social order, the stability of which is no longer questioned. The predominance of real American stock and the solidarity of the people are not surpassed in any other section of the United States. To represent in Congress such a great people would challenge the fidelity and effort of any man.

The relationship of my district to the National Government has perhaps been more strongly emphasized in the minds of the people during this Democratic administration than ever before in its history. To my mind the real test of the success of any governmental program lies in the local fulfillment of its purposes.

As a Member of the Seventy-fourth Congress and as a Democrat, I have worked in harmony with this administration whenever I reasonably could, after considering the needs and wishes of my own district. I have sought to as-

sist in the passage of all worthy legislation and in securing every possible benefit for our new district.

A table which I will include shows the large number of farms in my district which have been saved from foreclosure by the Federal land bank at the lowest rate of interest ever known to the farmer. Another table which I am inserting will show A. A. A. benefits which have come to the farmer in each county of my district. The program worked considerable hardship in my district, but it was not without benefit to us.

More than 25,000 emergency feed-seed, drought, and crop-production loans have been made to the farmers of my district through the Farm Credit Administration during 1933, 1934, and 1935 for the total sum of approximately $5,163,700. Most of this money has been promptly repaid to the Government by the farmers and stockmen.

A works program and the administration of relief is a difficult problem to handle, yet under this program the needy have been saved from starvation. Mistakes on the side of mercy are somewhat excusable. Considerable good work has been done in my district. Highways have been improved, numerous school buildings constructed, fine dormitories at Texas Technological College have been built. Most every county in my district with a serious relief problem can point to some worth-while accomplishment in the form of better roads, parks, schools, and so forth. We all know that some of the work has not been worth while, and that in some cases unemployment and indifferences have been encouraged rather than discouraged. We are endeavoring to eliminate the evils that grew up, and much progress is being made.

We of this Congress have brought about the payment of the soldiers' adjusted-service certificates. Veterans of my district will secure approximately $4,000,000.

I am proud to have been a Member of the Congress that has pioneered in old-age-pension and general social-security legislation. The Republicans, though long in power, had shown no interest in old-age pensions and social security. We have started a national program of old-age pensions which we must continue to improve and make more liberal in order that this great problem may be adequately met. Complete success in a big program of this kind involving a great Nation and millions of people cannot be achieved instantaneously. None of our great problems have ever been solved without sacrifice and much patience and effort.

This administration has endeavored to be a "home saving" administration. To bring the Government home to the people is a worthy thing indeed. When one American home is foreclosed upon and lost, the ill effects do not end there. Had it not been for the Federal land bank and its new policy during this administration, hundreds of west Texas farmers who are now doing quite well would be totally ruined financially. But I have called attention to the Farm Credit Administration work in behalf of the farmers. The Home Owners' Loan Corporation has saved from foreclosure in America about 1,000,000 urban homes, which includes about 1,400 in my district, which is not an urban district.

I do not recall any bank failures in my district during this Democratic administration. These have been only 5 national bank failures in the United States within the last 2 years, whereas there were more than an average of 900 State and National bank failures per year from 1921 through 1933. There were more than 6,000 such failures during the Hoover administration. The improvement in the condition of the banks and in the state of mind of the depositors during this administration will never be forgotten by a thoughtful and grateful electorate.

This administration has spent much money in my district and billions in the Nation. Too much money, no doubt, has been spent. However, a nation that is worth having is worth saving, even at great expense.

Including the payment of the soldiers' adjusted-service certificates, our national debt is now about $34,000,000,000. Our annual interest payments on this debt will amount to about $7 per capita. This administration has refinanced the national debt at a lower rate of interest, and the per-capita carrying charge on the debt now is not greater than on our national debt just after the World War or at the conclusion of President Hoover's administration. In comparing the per-capita carrying charge on our national debt I have, of course, taken into consideration our increase in population since the war. Our national wealth is well over $350,000,000,000. So our Government owes less than 10 percent of the wealth of our Nation. A business that is as sound as that is as solid as the everlasting hills. We are not facing bankruptcy. Our Government spending has temporarily increased somewhat, but it must be remembered that our national income in 1935 exceeded by more than 38 percent our national income in 1932.

The following tables which I have prepared will show some interesting facts.

TABLE 1.—*Population and area of Nineteenth Congressional District, by counties*

County	Area in square miles	Population			
		1930		1920	Percent increase 1920–30
		Total	Per square mile		
Andrews	1,565	736	0.5	350	110.3
Bailey	1,030	5,186	5.0	517	903.1
Borden	895	1,505	1.7	965	56.0
Cochran	869	1,963	2.3	67	2,829.9
Crosby	870	11,023	12.7	6,084	81.2
Dawson	903	13,573	15.0	4,309	215.0
Dickens	881	8,601	9.8	5,876	46.4
Floyd	1,011	12,409	12.3	9,758	27.2
Gaines	1,540	2,800	1.8	1,018	175.0
Garza	870	5,586	6.4	4,253	31.3
Hale	1,036	20,189	19.5	10,104	99.8
Haskell	923	16,669	18.1	14,193	17.4
Hockley	867	9,298	10.7	137	6,686.9
Howard	891	22,888	25.7	6,962	228.8
Kent	875	3,851	4.4	3,355	15.5
King	867	1,193	1.4	655	82.1
Lamb	1,022	17,452	17.1	1,175	1,385.3
Lubbock	868	39,104	45.1	11,096	252.4
Lynn	864	12,372	14.3	4,751	160.4
Martin	904	5,785	6.4	1,146	404.8
Mitchell	885	14,183	16.0	7,257	88.4
Scurry	887	12,188	13.7	9,003	35.4
Stonewall	852	5,667	6.7	4,086	38.7
Terry	870	8,883	10.2	2,236	297.3
Yoakum	879	1,263	1.4	504	150.6
Total	23,924	254,367	10.6	110,127	130.9

TABLE 2.—*Federal land bank and Land Bank Commissioner loans outstanding, by counties, in the Nineteenth Congressional District of Texas for the period May 1, 1933, through Dec. 31, 1935*

County	Federal land bank		Land Bank Commissioner		Total (bank and Commissioner)	
	Number	Amount	Number	Amount	Number	Amount
Andrews	3	$11,900	3	$5,100	6	$17,000
Bailey	58	171,100	104	174,850	162	345,950
Corden	41	215,400	54	81,450	95	296,850
Cochran	41	135,300	70	115,800	111	251,100
Crosby	217	817,400	218	400,950	435	1,218,350
Dawson	223	605,000	272	328,800	495	933,800
Dickens	87	300,400	178	259,700	265	560,100
Floyd	258	936,300	327	623,750	585	1,560,050
Gaines	7	19,200	30	55,900	37	75,100
Garza	90	321,600	103	189,500	193	511,100
Hale	349	1,426,400	391	803,450	740	2,229,850
Haskell	196	598,600	224	333,050	420	931,650
Hockley	395	1,159,600	453	766,150	848	1,925,750
Howard	93	391,600	166	269,300	259	660,900
Kent	36	250,700	85	172,850	121	423,550
King	6	88,900	8	17,500	14	106,400
Lamb	536	1,481,900	682	1,090,050	1,218	2,571,950
Lubbock	450	1,547,100	491	819,800	941	2,366,900
Lynn	314	998,300	365	664,500	679	1,662,800
Martin	97	433,500	204	317,300	301	750,800
Mitchell	167	514,800	258	407,050	425	921,850
Scurry	102	350,000	159	259,750	261	609,750
Stonewall	50	218,200	142	256,100	192	474,300
Terry	102	272,400	193	300,250	295	572,650
Yoakum	2	10,900	17	23,800	19	34,700
Total	3,920	13,276,500	5,197	8,736,700	9,117	22,013,200

TABLE 3.—*Rental and benefit payments and profits on cotton options made in connection with the commodity program from the beginning of those programs through Feb. 29, 1936, for the Nineteenth Congressional District, Texas, by counties*

County	Cotton	Profits on cotton options	Wheat	Corn-hog	Rice	Peanuts	Total
Andrews	$9,544.06			$3,430.61			$12,974.67
Bailey	565,908.99	$107,114.06	$20,430.64	34,558.74			728,012.43
Borden	114,517.77	29,067.38		4,126.45			147,711.60
Cochran	173,333.71	24,634.30		18,276.01			216,244.02
Crosby	1,048,240.28	318,874.11	83,053.90	42,670.83			1,492,839.12
Dawson	752,982.24	59,091.96		49,793.43			861,867.63
Dickens	585,128.11	146,330.55	18,102.57	15,710.13			765,271.35

FAILURE OF THE RECOVERY PROGRAM OF THE ROOSEVELT ADMINISTRATION

Mr. HOPE. Mr. Speaker, under leave to extend my remarks in the RECORD, I include the following address delivered by me on April 14 over a national broadcasting network:

On February 22 last, the Honorable James A. Farley, presumably in his joint capacity as a member of the President's Cabinet and chairman of the Democratic National Committee, spoke before the Kansas Democratic Club at Topeka, Kans. Mr. Farley appeared to be in a very optimistic mood, and devoted most of his address to pointing out the present prosperous condition of the country. Among other things he said, "It is a pleasure to come back here to Kansas and find abundant evidence of prosperity after the lean years through which you passed under Republican rule. The same picture of contentment presents itself in every section of the country." A little further, Mr. Farley said, "On next March 4, my friends, Franklin D. Roosevelt will observe his third anniversary in the White House. In that period, we have advanced from economic confusion and paralysis under Mr. Hoover to economic prosperity." And continuing he said, "The Old Guard apparently has abandoned the elephant for its emblem and substituted the ostrich, and believe me, the Republican ostrich has good reason to hide its head in the sand, because everywhere it goes it sees nothing but Roosevelt prosperity."

At the very moment Mr. Farley was making his speech on Roosevelt prosperity there were in this country, according to the figures of the American Federation of Labor, approximately 12,600,000 unemployed. On March 18, less than a month after Mr. Farley had given his glowing account of the prosperous condition of the country, the President of the United States sent a message to Congress requesting appropriations for relief for the fiscal year beginning July 1, 1936. In his message the President stated that at that time there were approximately 5,300,000 families and unattached persons in the country who were in need of some form of public assistance. At an average of four persons to a family that means that there are more than 20,000,000 people still dependent on relief. In the course of his message the President stated that the cost of relief actually paid out of the Treasury this year will amount to approximately $3,500,000.

The President asks that Congress appropriate $1,500,000,000, which, added to the $1,000,000,000 from prior appropriations still available and $600,000,000 in prior appropriations for the Civilian Conservation Corps and various public works, will make a total of $3,100,000,000 available for relief expenditures during the next fiscal year. The President makes it clear, however, that unless there is a material increase in private employment it will be necessary to appropriate additional funds during the fiscal year for relief purposes.

During the 3 years since this administration came into power, the Federal Government has spent approximately $10,000,000,000 for the relief of unemployment. The sad part of it is that notwithstanding these enormous expenditures, the country is no nearer solving the unemployment problem than it was 3 years ago. It is true that there have been some gains, the figures of the American Federation of Labor showing a reduction of about 19 percent from the peak of unemployment to January 1936. The figures of the National Industrial Conference Board show a slightly greater reduction. No nation, however, which, after 3 years of effort and the expenditure of $10,000,000,000, still has over twelve and a half million unemployed is justified in feeling very happy over the situation. Mr. Farley may think that this is prosperity but I doubt if many thoughtful Americans so regard it.

The failure of our efforts to reduce unemployment is all the more discouraging when we consider what other countries have done. For instance, while we decreased unemployment approximately 19 percent, Great Britain, in the same 3-year period, decreased it 24 percent; Belgium, 27 percent; Sweden, 36 percent; and Canada, 42 percent. As a further comparison of our success in reducing unemployment, let me call your attention to the quarterly report just issued by the international labor office of the League of Nations at Geneva. This report shows that the number of unemployed in the United States is 3,000,000 more than for all of Europe, although Europe has four times the population of the United States.

Of course, when he made his statements regarding prosperity, Mr. Farley may have overlooked the problems of unemployment and relief. Perhaps he was thinking only of the stock market and of the profits which some of the large corporations have been making. If one were to judge by stock-market reports, we might think that prosperity was here. In the financial section of the New York Times for Sunday, April 5, it is stated that in rising for 12 consecutive months the stock market has broken a 25-year record for a sustained upward movement. The present rise began on March 18, 1935, at which time the New York Times index of 50 average stocks stood at 77.92; whereas, on Saturday, April 4, the index stood at 124.86, or an increase of 60 percent.

But this stock-market prosperity does not extend to any other front. During the same period in which the price of common stocks on the New York Stock Exchange increased 60 percent, the value of farm land and buildings in this country, according to the Bureau of Agricultural Economics of the Department of Agriculture, increased 3 percent; and the gross farm income of the country, including rental and benefit payments under the A. A. A., increased 12 percent. When it is considered that the country suffered its greatest drought in 1934 and that farm production and income were severely curtailed on that account, a 12-percent increase in gross income during 1935 is no increase at all.

The National City Bank record for February shows that the profits of 895 representative industrial corporations increased 47 percent from 1934 to 1935. On the other hand, the average real wage of the employed worker, according to the American Federation of Labor, was no higher in 1935 than 1934, because a 5½-percent increase in living costs canceled the 5½-percent rise in wages.

The 1935 report of Sears, Roebuck shows net profits of $21,500,000, an increase of 43 percent over 1934. Montgomery Ward for 1935 showed profits of $13,527,000, a gain of 47 percent over the previous year. How many small-town independent merchants can report increases of 43 and 47 percent in net profits?

It thus appears that while numerous large corporations and the brokers on the stock market are doing a flourishing business and while the holders of industrial stocks have made great profits, that relatively the farmer, the small-business man, and the laboring man have been standing still and the situation of the unemployed and those on relief has not improved. Such is the great Roosevelt prosperity so loudly acclaimed by the Postmaster General.

What is the reason the Roosevelt program after 3 years has failed to bring recovery except to the stock market and big business? What is the reason this country with its resources is lagging behind less favored nations in this matter? Why is it that our greatest increase in employment took place prior to July 1933, before the N. R. A. and other New Deal legislation?

I would be the last to deny the good intentions of this administration, but good intentions do not take the place of common sense or good judgment. The present administration has failed because it has not had the ability to meet our present-day business

and economic problems. The only field in which it has been successful has been that of politics. Had it been able to find economic or administrative leaders who possessed the ability in those lines comparable to the ability of Mr. Farley in the field of politics, or if the President possessed the genius for administration which he has for politics, the result might have been different. The trouble is that no one has been able to tell in what direction we are going. There has been talk of planned economy but to date there has been nothing which could be called constructive planning and certainly nothing resembling economy, no matter in what sense you may use the word. This does not mean that there have been no attempts at planning, but the trouble has been that the planners do not get together and the direction in which we have been headed at any particular moment has depended entirely upon which planner had last gotten the ear of the President.

The constant uncertainty in which the country is kept by the sudden moves of the President to the right and to the left, as seem dictated by political expediency, has a most unsettling effect upon business and industry. It has prevented a normal, natural expansion. It has not prevented a certain measure of industrial prosperity. It has not prevented the stock-market boom which we have had during the past year, because, after all, business and industry are able after a fashion to adjust themselves to whatever conditions may be imposed. As long, however, as there is uncertainty, there will be no inclination to explore new fields, to experiment, and to develop. That is what the country needs more than anything else today.

The most serious criticism of the New Deal is that it is static. It assumes that things will always be as they have been, that we will produce the same things in exactly the same quantity and in exactly the same way, and that what is done must be on that basis. In other words, we must freeze production in business and industry but divide it up in a different way than in the past. Such a policy is not liberal and progressive as New Dealers would have you believe. It is essentially reactionary. As an emergency step it might be justified, but as a permanent policy never.

I do not mean by what I have said to criticize everything which has been done. No one could oppose all of the New Deal and possibly be consistent. There were some things which needed to be done and which would have been done by any administration in power during the last 3 years. The President, shrewd politician that he is, now realizes the change in the temper of the American people. He is again beginning to talk about economy. He has suggested that he is going to give the country a breathing spell.

Who knows, however, how long this new policy will last? Is there any way we can judge what another 4 years under the present administration would bring forth except by considering what has happened in the past? Can we depend upon what may be contained in the Democratic platform this year when we consider that most of the 1932 platform has been thrown overboard? Can we count on the utterances of the Democratic nominee for President in 1936 when we know that he has repudiated the promises which he made in 1932 on economy, on governmental bureaucracy, on the money question, on agricultural tariffs, on taxation, on enforcement of the antitrust laws, on the relationship of the State and the Federal Governments, and many other subjects of acute public interest?

The people of this country realize that times have changed; they realize that we have many new problems and that government must make progress just as any other institution. They want to go forward toward a solution of the country's problems, but they want to know that they are going forward instead of in a half dozen different directions at once. They doubt if these problems can be settled by leaving them entirely to politics and governmental bureaucracy, as President Roosevelt and his advisers want to do. They are coming more and more to believe that the efforts of this administration have failed and that the only way we can secure real prosperity instead of the Roosevelt prosperity so roundly praised by Mr. Farley is to make a change next November.

JO BYRNS—THE BEGINNING AND END OF THE LONG, LONG TRAIL

Mr. MARTIN of Colorado. Mr. Speaker, although I have served only four terms in the House of Representatives, it has been my privilege to know personally eight Speakers—Joseph G. Cannon, Champ Clark, Frederick C. Gillette, Nicholas Longworth, John N. Garner, Henry T. Rainey, Joseph W. Byrns, and the present Speaker, Hon. William B. Bankhead. I did not serve under three of them, but served with them—Mr. Gillette, Mr. Longworth, and Mr. Garner.

Of these Speakers, it chanced that my most intimate contact was with Jo BYRNS. It is perhaps rare that after a long lapse of years we can recall exactly the time and place of our first meeting, but this meeting between Jo BYRNS and me was under circumstances which indelibly fixed it in both our minds. As he has often related this incident to Members since my return to Congress, I deem it worthy of preservation in the RECORD.

It was on March 4, 1909, the day of the Taft inaugural, a day that is said to have been the worst in the history of the Capital City, buried under snow and strewn with the wreckage of trees.

As a result of these conditions the outdoor inaugural ceremonies had to be abandoned, and Mr. Taft was inaugurated in the Senate Chamber. There I saw Theodore Roosevelt and Taft exchange their last friendly handclasp as the outgoing President, after the administering of the oath of office to his successor, hurried up to the incoming President, impulsively threw his left arm over his shoulder, vigorously shook his hand, turned, and hastened from the Chamber. Who then could have visioned the campaign of 1912?

After the inaugural I made my way out to the abandoned bleachers in front of the Capitol Building, threaded my way far down on them, and stood there pensively surveying the dismal scene. Then I felt a touch on my arm and looked around to see a tall, lean figure with cavernous glowing eyes, heavy black brows, looking at me with a sympathy-seeking expression, which found a ready response. We exchanged introductions, and he said, "I saw you standing here looking lonesome, and I thought I would come down and get acquainted, and I wonder if you are thinking what I am." "What are you thinking?" I asked. And he replied, "I am wondering what the devil my people sent me up here for. I feel that if I were back in my law office in Nashville I would stay there." I replied to him in kind.

Time has answered the question what Jo BYRNS' people sent him up here for. They sent him where character, ability, and long and faithful service raised him to the seat of power in the House of Representatives, to a place in history among the great men of the Nation who have occupied that seat.

For 20 long years I never saw him but the instinctive friendship of that first meeting persisted, and the highest compliment I could pay our late beloved Speaker was that, sitting in the chair, he was the same Jo BYRNS, kindly, considerate, unspoiled. At the end of his famous lecture, Elbert Hubbard used to close with the words, "And be kind, and be kind." Jo BYRNS was kind. The qualities which drew men to him and held them could not have been assumed. They were an emanation of the man. They were natural. It is no exaggeration to say, and no one will feel jealous of the statement, that he was the best-liked Member of Congress. He had the quality of never making Members feel a personal sting from his rulings in the chair, nor from his opposition on the floor. He was peculiarly qualified to preserve harmony among a top-heavy majority.

As I saw him on his first day in the House of Representatives, so I saw him on his last. I quote from the CONGRESSIONAL RECORD of June 3, 1936, page 9014, recording the adjournment of the House for a deceased Member:

The SPEAKER. The Clerk will report the remainder of the resolution.

The Clerk read as follows:

"Resolved, That, as a further mark of respect, this House do now adjourn."

The resolution was agreed to.

ADJOURNMENT

Accordingly (at 2 o'clock and 54 minutes p. m.) the House, in accordance with the order heretofore adopted, adjourned until tomorrow, Thursday, June 4, 1936, at 11 o'clock a. m.

And thus, on June 3, 1936, at 2 o'clock and 54 minutes p. m., Jo BYRNS, the beloved Speaker of the House, laid down his gavel and descended from the Speaker's station for the last time. On the next day the House adjourned out of respect to him.

Then I saw the end of the long, long trail awinding. I saw his flag-draped casket carried into the vault in beautiful Mount Olivet Cemetery in his home city. He is back again in Nashville.

REPUBLICAN LEGISLATION ON BEHALF OF AGRICULTURE

Mr. HOPE. Mr. Speaker, so much has been written and spoken concerning the emergency agricultural legislation enacted during the past 3 years, some of which has been declared unconstitutional and some of which has been repealed, that there may be a tendency to overlook the constructive and permanent legislation enacted for agriculture by Republican administrations during the period from March 4, 1921, to March 4, 1933. As a matter of fact, more constructive and worth-while agricultural legislation was enacted during this period than during any similar period in our country's history. This legislation covered the entire field of agriculture and while it would be impossible within the compass of these remarks to list all the legislation beneficial to agriculture passed during the 12-year period preceding the New Deal, it may be of interest to point out specifically some of the more important enactments.

DAIRY PRODUCTS

In view of the utter neglect shown dairying by the present administration, it is of interest to review some of the more important legislation on behalf of that industry which was enacted between 1921 and 1933:

(1) Public, 519, Sixty-seventh Congress, enacted March 4, 1923, entitled "An act to define butter and to provide a standard therefor." This act provides that butter shall contain not less than 80 percent by weight of milk fat.

(2) Public, 513, Sixty-seventh Congress, enacted March 4, 1923, entitled "An act to prohibit the shipment of filled milk in interstate or foreign commerce." This act did away with the filled-milk business; that is, the manufacture and sale of milk mixed with coconut oil or similar nonbutter fats.

(3) Public, 156, Sixty-eighth Congress, enacted May 29, 1924, an act to establish a dairy bureau in the Department of Agriculture and for other purposes. This act recognized the dairy interests of the country as of sufficient importance to justify a separate bureau in the Department of Agriculture.

(4) Public, 625, Sixty-ninth Congress, enacted February 15, 1927, an act to regulate the importation of milk and cream in the United States for the purpose of promoting the dairy industry of the United States and protecting the public health. This act required that milk and cream imported in the United States meet prescribed sanitary standards; in other words, that dairymen in countries which do not have the same sanitary requirements as our own shall not have an advantage over dairymen in the United States, and that such foreign dairy products be barred unless they meet the requirements imposed upon our own dairymen. The Republican Party platform for 1936 proposes to extend this requirement so as to include all imported livestock, dairy, and other farm products from countries which do not impose health and sanitary regulations fully equal to those imposed upon our own producers.

(5) Public, 540, Seventy-first Congress, enacted July 10, 1930, an act to amend the definition of oleomargarine contained in the act entitled "An act defining butter, also imposing a tax upon and regulating the manufacture, sale, importation, and exportation of oleomargarine", approved August 2, 1886, as amended.

This act imposed a tax of 10 cents per pound in the case of oleomargarine which is yellow in color, irrespective of whether the color is natural or artificial and effectively stopped the sale of oleomargarine under the guise of cooking compounds, and so forth.

(6) Public 867, Seventy-first Congress, enacted March 4, 1931. "An act to amend the act entitled 'An act defining butter, also imposing a tax upon and regulating the manufacture, sale, importation, and exportation of oleomargarine', approved August 2, 1886, as amended, and for other purposes."

In addition to the above legislation which specifically relates to the dairy industry, that industry has been benefited greatly by legislation dealing with cooperative marketing.

It seems proper at this place also to call attention to the protection which has been given the dairy industry under the various Republican tariff acts, including the Farmers Emergency Tariff Act of 1921, the General Tariff Act of 1922, and the Tariff Act of 1930. Under the last Democratic tariff act, the duty on butter was 2½ cents per pound, on cheese it was 20 percent ad valorem. On milk and cream there was no tariff whatever. There was, of course, nothing unusual about this because all farm products under that tariff act were either on the free list or carried a rate of duty which afforded no protection whatever.

Under the Republican Tariff Act of 1930 the rate on butter is 14 cents per pound, the rate on cheese is 7 cents per pound, the rate on whole milk is 6½ cents per gallon and on cream 56.6 cents per gallon. Under the recent Democratic reciprocal-trade agreement with Canada, however, the rate on cheese has been reduced to 5 cents per pound, and the rate on cream has been reduced to 35 cents per gallon for the first 1,500,000 gallons. Following the reduction in the tariff on cheese, a tremendous increase in imports has taken place. The dairymen of this country regard tariff protection as absolutely essential and, based upon both its past and present records, no help in that regard can be expected from the Democratic Party.

COOPERATIVE MARKETING

The great growth of the farm cooperative movement in recent years has been made possible very largely because of legislation enacted by Republican administrations. The first of these acts was Public, No. 146, Sixty-seventh Congress, passed on February 18, 1922, entitled "An act to authorize associations of producers of agricultural products." This is popularly known as the Capper-Volstead Act. It is designed to exempt farmers' cooperative associations from the provisions of the Sherman antitrust laws, provided the associations comply with certain specified conditions. Practically all agricultural cooperatives are now organized so as to come under the provisions of this act. It is no exaggeration whatever to say that without this act the splendid progress made in cooperative marketing in recent years would have been impossible.

Another very important piece of legislation relative to cooperative marketing is Public, No. 450, Sixty-ninth Congress, enacted July 2, 1926. The purpose and scope of this act is indicated by the title, reading "An act to create a division of cooperative marketing in the Department of Agriculture; to provide for the acquisition and dissemination of information pertaining to cooperation; to promote the knowledge of cooperative principles and practices; to provide for calling advisers to counsel with the Secretary of Agriculture on cooperative activities; to authorize cooperative associations to acquire, interpret, and disseminate crop and market information, and for other purposes." Later this division became a part of the Farm Board set-up and is actively functioning today as a division of the Farm Credit Administration.

The Agricultural Marketing Act, Public, No. 10, Seventy-first Congress, which was passed on June 15, 1929, and which created the Federal Farm Board is a further step in the way of governmental assistance in cooperative marketing. Whatever criticism may be made of the stabilization activities of the Farm Board, its efforts along the line of cooperative marketing were helpful and successful and have done much toward assisting cooperative organizations to finance themselves properly.

Another important act affecting cooperative organizations is that of March 4, 1927—Public, No. 802, Sixty-ninth Congress—entitled "An act to prevent discrimination against farmers' cooperative associations by boards of trade and similar organizations, and for other purposes." This act is designed to compel boards of trade and produce exchanges to admit farmers' cooperative associations to membership on the same basis as other members.

The present administration, so I am informed by numerous leaders of cooperative organizations, has manifested little interest in agricultural cooperation and little legislation relating to the subject has been enacted.

LIVESTOCK

The Republican Congress in 1921 passed what is known as the Packers and Stockyards Act. This act became a law on

August 15, 1921, and is known as Public, No. 51, Sixty-seventh Congress. It placed the operation of packers and stockyards under the supervision of the Department of Agriculture. This legislation had the support of all the major farm organizations of the country and operated to correct and cure many very serious discriminations and abuses which had grown up in the packing industry. It is one of the most important pieces of legislation ever enacted on behalf of agriculture.

The act of March 2, 1931—Public, No. 776, Seventy-first Congress—which set up a 10-year cooperative program under the direction of the Secretary of Agriculture for the eradication, suppression, and bringing under control of predatory and other wild animals injurious to agriculture, animal husbandry, and other interests, has been of great assistance to livestock producers, particularly in the West.

The protection which has been given livestock under Republican tariff acts, including the Tariff Act of 1921, the 1922 Tariff Act, and the act of 1930, is in striking contrast with the lack of protection afforded the livestock industry under the last Democratic tariff act, that of October 3, 1913. It is also in contrast with the policy of the present administration in reducing tariff rates upon livestock and livestock products under the reciprocal-trade agreements. Under the last Democratic tariff act practically all animal products were on the free list. Under the Republican Tariff Act of 1930, as well as under previous Republican acts, all of this has been changed. Beef and veal carry a rate of 6 cents per pound; mutton, 5 cents per pound; lamb, 7 cents per pound; pork, 2½ cents per pound; lard, 3 cents per pound; other meats, 6 cents per pound; live cattle, under 700 pounds, 2½ cents per pound, over 700 pounds, 3 cents per pound; hogs, 2 cents per pound; sheep, lambs, goats, $3 per head; and so I might go on enumerating specifically various livestock products which are now adequately protected, but which had no protection whatever under the Democratic tariff laws. The reduction in the rates of duty under the Canadian trade agreement have resulted in a great increase in importations. Anticipated reductions in connection with trade treaties with Mexico and Argentina will—if carried out, of course—work further injury to American livestock producers.

Even with the high rates now in effect, the Democratic policies have brought about greatly increased imports of livestock and livestock products during recent months. It is fearful to contemplate how much greater these importations might be if a Democratic tariff law were in effect.

AGRICULTURAL FINANCE AND CROP LOANS

The Republican Party has enacted numerous legislative measures designed to assist in the financing of agriculture. It has strengthened and developed the Federal land-bank system, and under the Federal Intermediate Credit Act of 1923, Public, No. 503, Sixty-seventh Congress, there was set up a system of intermediate credit banks which since that time have been a great boon in enabling farmers to obtain loans at low rates of interest.

The act creating the Reconstruction Finance Corporation, Public, No. 2, Seventy-second Congress, passed on January 2, 1932, included financial relief for agriculture as one of its objectives. Not only did it provide for assistance to the Federal land-bank system but it authorized the establishment of 12 regional agricultural-credit corporations, 1 in each Federal land-bank district. These institutions rendered a splendid service in making capital available to farmers and livestock producers at low rates of interest. They did much to assist livestock producers, particularly in financing themselves during a period when other capital was not readily available. In the opinion of many producers, these banks were more satisfactory than the present system of making loans through production-credit corporations, and in any event they met an emergency in a most satisfactory and effective manner.

Droughts, floods, and other disasters have made it necessary in recent years that some relief be afforded agricultural producers in the way of loans for crop production. During the period from 1921 to 1933 Republican administrations enacted all adequate and necessary legislation for this purpose. During that period there were nine legislative measures passed making provision for crop and production loans. To enumerate them specifically, the acts in question are as follows:

Public, No. 177, Sixty-seventh Congress, enacted March 20, 1922.

Public Resolution No. 13, Sixty-eighth Congress, enacted April 26, 1924.

Public, No. 651, Sixty-ninth Congress, enacted February 25, 1927.

Public Resolution No. 92, Seventieth Congress, enacted February 25, 1929.

Public, No. 47, Seventy-first Congress, enacted March 3, 1930.

Public Resolution No. 112, Seventy-first Congress, enacted December 20, 1930.

Public Resolution No. 114, Seventy-first Congress, enacted January 15, 1931.

Public, No. 666, Seventy-first Congress, enacted February 14, 1931.

Public, No. 327, Seventy-second Congress, enacted February 4, 1933.

The general character of these measures is indicated by the title of the one last above mentioned, as follows: "To provide for loans to farmers for crop production and harvesting during the year 1933, and for other purposes." The amount authorized for loans under these various resolutions varied from $1,000,000 authorized in Public Resolution No. 13, Sixty-eighth Congress, to $90,000,000 authorized in Public, No. 327, Seventy-second Congress, passed February 4, 1933.

In contrast with the helpful and adequate policy of Republican administrations in connection with crop loans, is the action of President Roosevelt in vetoing the Crop Loan Act passed during the present session of Congress which authorized the appropriation of $50,000,000 for production loans. This measure (S. 3612) made the same general provisions for crop loans as contained in previous acts of Congress. Due to long and continued droughts there was an urgent need for this legislation in many parts of the country. Despite the protests of many Members of Congress, representatives of farm organizations, and others interested in the welfare of the farmer and, so I am informed, over the protests of some of his own advisers, the President vetoed this legislation. It is true that the President immediately made available certain relief funds to be used for crop loans, but in connection therewith imposed such unreasonable restrictions that it was absolutely impossible for many western farmers to obtain any relief in this regard. These regulations were evidently drawn for the purpose of aiding the southern farmer and I understand they met his situation very well. In their original form, however, they made it impossible for most midwestern farmers to qualify for loans. Later, after many protests, the regulations were modified somewhat but by that time it was too late for many farmers to secure the benefits which would have been possible had the loans been made at the proper time for seeding. Even as modified, the regulations are still unsatisfactory and the provisions made are entirely inadequate to meet the situation.

COMMODITY EXCHANGES

A very important piece of legislation from the standpoint of the producers of grain was the Grain Futures Act (Public, No. 331, 67th Cong.), enacted September 21, 1922. This act was one which farmers and farm organizations throughout the country had been urging for many years. It provided for regulation and supervision of the grain exchanges by the Department of Agriculture, and has done much to prevent manipulations of prices and unfair practices on the grain exchanges.

Public, No. 802, Sixty-ninth Congress, passed March 4, 1927, and previously referred to, has been very helpful in preventing discrimination against farm cooperatives by boards of trade and commodity exchanges.

FRUITS AND VEGETABLES

The production of fruits and vegetables constitutes one of the most important branches of agriculture in this country. Much important legislation on behalf of this branch of agriculture was enacted during the Republican administrations preceding 1933. Among the more important measures along this line might be listed the following:

The Act of March 3, 1927 (Public, No. 712, 69th Cong.), the title of which reads as follows:

An act to prevent the destruction or dumping, without good and sufficient cause therefor, of farm produce received in interstate commerce by commission merchants and others, and to require them truly and correctly to account for all farm produce received by them.

This act was designed to prevent the willful destruction of goods with a view of withholding from market or for the purpose of defrauding the shipper. It is interesting to compare the Government's recent action in the wasteful slaughter of pigs, in the light of this legislation.

Public, 462, Seventieth Congress, passed on May 21, 1928, entitled as follows: "An act to fix standards for hampers, round stave baskets, and splint baskets for fruits and vegetables, and for other purposes."

The act of June 10, 1930, Public, No. 325, Seventy-first Congress, entitled "An act to suppress unfair and fraudulent practices in the marketing of perishable agricultural commodities in interstate and foreign commerce."

This act is known as the Perishable Agricultural Commodities Act and established in the Department of Agriculture a division charged with the duty of preventing fraudulent practices in the sale of perishable farm products. This act was passed in response to a great demand for protection for the producers of fresh fruits and vegetables. I am informed that since its enactment the unfair and fraudulent practices which it was designed to prevent have almost entirely disappeared.

Public, No. 538, Seventy-first Congress, passed on July 8, 1930, and entitled "An act to amend section 8 of the act entitled 'An act for preventing the manufacture, sale, or transportation of adulterated or misbranded or poisonous or deleterious foods, drugs, medicines, and liquors, and for regulating traffic therein, and for other purposes', approved June 30, 1906, as amended."

This act permits the Secretary of Agriculture to establish and to enforce standards with respect to canned foods and is of especial interest to the producers of fruits and vegetables for canning and preserving purposes.

Also under language included in various appropriation acts for the Department of Agriculture during the period from 1921 to 1933 provision has been made for an inspection service for fruits and vegetables, which has been of great assistance to the producers of quality products.

In addition to the above specified acts, the legislation enacted during the Republican administrations relating to cooperative marketing has been very helpful to the producers of fresh fruits and vegetables. Furthermore, the protection given by the 1930 and other Republican tariff acts to the fruit and vegetable industry has prevented ruinous competition from other countries. This protection, however, has, to a considerable extent, been taken away by the Cuban reciprocal-trade agreement. It is feared by many producers that the contemplated agreement with Mexico will result in further destructive competition.

DISEASE AND INSECT PESTS

During the period in question every effort was made by Republican administrations to protect agricultural producers from the effects of livestock and plant diseases and insect pests. Some of the more important legislation along this line is as follows:

Public Resolution No. 14, Sixty-eighth Congress, passed April 26, 1924, and entitled "Joint resolution making an additional appropriation for the Department of Agriculture for the fiscal year 1924 and 1925."

This provided for an appropriation of $1,500,000 to be used in the arrest and eradication of foot-and-mouth disease.

The act of April 13, 1926, Public Resolution 14, Sixty-ninth Congress, entitled "Joint resolution for the amendment of the Plant Quarantine Act of August 20, 1912, to allow the States to quarantine against the shipment therein or through of plants, plant products, and other articles found to be diseased or infested when not covered by a quarantine established by the Secretary of Agriculture, and for other purposes."

Public, No. 151, Sixty-ninth Congress, passed April 26, 1926, entitled "An act to amend the act entitled 'An act to regulate foreign commerce by prohibiting the admission into the United States of certain adulterated grain and seeds unfit for seeding purposes', approved August 24, 1912, as amended, and for other purposes."

The act of February 9, 1927, Public, 594, Sixty-ninth Congress, the title of which was "An act to provide for the eradication or control of the European corn borer."

This act authorized the appropriation of $10,000,000 for this purpose. Subsequently several additional appropriations were made for this purpose.

Public Resolution No. 1, Seventy-first Congress, passed May 2, 1929, entitled "Joint resolution to provide funds for the eradication, control, and prevention of the spread of the Mediterranean fruit fly." This timely act saved the fruit industry of this country from an impending catastrophe.

FORESTRY AND CONSERVATION

Much legislation relating to forestry and conservation was enacted during the Republican administrations from March 4, 1921, to March 4, 1933. Many of these measures were special acts, which will not be enumerated here. Some of the measures of more general importance along that line include:

The act of June 7, 1924, Public, No. 270, Sixty-eighth Congress, the title of which reads as follows:

An act to provide for the protection of forest lands, for the reforestation of denuded areas, for the extension of national forests, and for other purposes, in order to promote the continuous production of timber on lands chiefly suitable therefor.

Public, No. 565, Sixty-eighth Congress, passed March 3, 1925, entitled "An act to amend section 2 of the act of June 7, 1924 (Public, No. 270), entitled 'An act to provide for the protection of forest lands, for the reforestation of denuded areas, for the extension of national forests, and for other purposes, in order to promote the continuous production of timber on lands chiefly suitable therefor.' "

Public, No. 575, Sixty-eighth Congress, passed March 3, 1925, entitled "An act to facilitate and simplify the work of the Forest Service, United States Department of Agriculture, and to promote reforestation."

The act of March 3, 1925, Public, No. 591, Sixty-eighth Congress, entitled "An act to amend section 7 of an act entitled 'An act to enable any State to cooperate with any other State or States, or with the United States, for the protection of the watersheds of navigable streams, and to appoint a commission for the acquisition of lands for the purpose of conserving the navigability of navigable rivers'. approved March 1, 1911 (36 Stat. L., p. 961)."

Public, No. 466, Seventieth Congress, passed May 22, 1928, the title of which reads as follows:

An act to insure adequate supplies of timber and other forest products for the people of the United States, to promote the full use for timber growing and other purposes of forest lands in the United States, including farm wood lots and those abandoned areas not suitable for agricultural production, and to secure the correlation and the most economical conduct of forest research in the Department of Agriculture, through research in reforestation, timber growing, protection, utilization, forest economics, and related subjects, and for other purposes.

The act of June 9, 1930 (Public, 319, 71st Cong.), entitled "An act authorizing the Secretary of Agriculture to enlarge tree-planting operations in national forests, and for other purposes."

The act of January 31 (Public, 589, 71st Cong.), entitled "An act to facilitate and simplify the work of the Forest Service."

The act of February 18, 1921 (Public, 770, 70th Cong.), known as the Migratory Bird Conservation Act.

This act provided for the creation of a migratory bird commission and annual appropriations to be used for the purchase of migratory bird refuges.

In addition to the general legislation on forestry and conservation mentioned above, there were enacted during this period a number of measures of a local character providing for additions to the national forests and the creation of game and migratory bird refuges.

DISPOSITION OF AGRICULTURAL SURPLUSES

The following acts were passed by the Seventy-second Congress relative to the disposition of surplus agricultural commodities owned by the Government or its agencies:

Public Resolution No. 12, Seventy-second Congress, passed March 7, 1932, authorizing the distribution of Government-owned wheat to the American Red Cross and other organizations for relief of distress.

Public Resolution No. 33, Seventy-second Congress, passed July 5, 1932, authorizing the distribution of Government-owned wheat and cotton to the American Red Cross and other organizations for the relief of distress.

Public Resolution No. 43, Seventy-second Congress, passed July 22, 1932, making appropriations to enable the Federal Farm Board to distribute Government-owned wheat and cotton to the American National Red Cross and other organizations for relief of distress.

Public, 329, Seventy-second Congress, passed February 8, 1933, to authorize the distribution of Government-owned cotton to the American Red Cross and other organizations for relief of distress.

Public Resolution 51, Seventy-second Congress, passed February 11, 1933, entitled "An act to provide appropriations to carry into effect the act entitled 'An act to authorize the distribution of Government-owned cotton to the American National Red Cross and other organizations for relief of distress', approved February 8, 1933."

In conformity with the above-mentioned joint resolutions dealing with the distribution of Government-owned wheat and cotton to the American National Red Cross, Farm Board wheat and cotton to the value of $197,000,000 were distributed.

AGRICULTURAL TARIFFS

Mention has already been made of the lack of tariff protection for agricultural products as contained in Democratic tariff bills and the full measure of protection on those products in Republican tariff acts. It is not my intention at this time to discuss the matter at any length, but it might be of some interest to contrast briefly, in a general way, the differences in rates on important agricultural commodities between the last Democratic tariff bill and the last Republican tariff bill.

Under the act of October 3, 1913, the last Democratic bill, most important agricultural products were on the free list. Among other things were included broomcorn; buckwheat; corn; eggs; fruits or berries; grease; fats; vegetable tallow and oil; hides; lard; lard compounds and all substitutes; fresh beef; veal; mutton; lamb and pork; bacon and hams; meats of all kinds, prepared or preserved; milk and cream, including milk or cream preserved or condensed or sterilized by heating or other processes, and sugar of milk; vegetable oils; oil cake; oleostearin; potatoes; rye and rye flour; swine; cattle; sheep; tallow; wheat; and wool.

The few agricultural commodities which were dutiable carried such a low rate as to afford little protection to the American farmer. Among them might be enumerated:

Barley	per bushel	$0.15
Oats	do	.06
Fruits	per pound	.02½
Frozen eggs	do	.02
Dried eggs	do	.10
Live poultry	do	.01
Dead poultry	do	.02

As contrasted with the provisions of the Democratic tariff bill, the last Republican bill, the act of 1930, provided the following rates on important agricultural products:

Cattle:		
Less than 700 pounds	per pound	$0.02½
Over 700 pounds	do	.03
Beef	do	.06
Hogs	do	.02
Pork	do	.02½–.03¼
Lard	do	.03
Lard substitutes	do	.05
Milk	per gallon	.06½
Cream	do	.56⅓
Butter and butter substitutes	per pound	.14
Cheese	do	.07
Eggs	per dozen	.10
Frozen eggs	per pound	.11
Dried eggs	do	.18
Live poultry	do	.08
Dead or dressed poultry	do	.10
Barley	per bushel	.20
Buckwheat	per hundredweight	.25
Corn	per bushel	.25
Oats	do	.16
Rye	do	.15
Wheat	do	.42

The 1930 act also contained higher rates of duty on practically all fruits and vegetables and many other farm products which are too numerous to mention in what is intended to be a brief reference.

What has been said, however, clearly shows the difference in the protection afforded farm products by the Republican and Democratic administrations. The present Democratic administration, through its reciprocal-trade-agreements program, is already doing much to break down the protection which Republican tariff laws have given agriculture.

The Republican Party had its origin among the farmers of the Middle West. One of its first legislative achievements was the passage of the Homestead Act. From that time until the present its policies have been such as merit the support of the rural population of the country, which has indeed been its great source of strength. The foregoing résumé of legislation for agriculture during the last three Republican administrations clearly shows the concern of that party for the welfare and prosperity of the farmer and indicates the purpose and desire of the party to meet the great problems of agriculture as far as it can be done in a legislative way.

The provisions relating to agriculture in the Republican Party platform of 1936 are the broadest and most liberal ever contained in any party platform. The Republican candidates for President and Vice President come from the great farm area of the country and are thoroughly familiar with its problems and are sympathetic toward governmental policies which will bring about not only temporary but permanent well-being and prosperity for agriculture as an industry. Surely every Republican and every independent-minded voter who is interested in the well-being of agriculture can enthusiastically support such a plaform and such a ticket.

OUR PATRIOTIC TEACHERS WILL RESPOND

Mr. KNIFFIN. Mr. Speaker and Members of the House, without wishing to give special consideration to any class of American citizens, there is one group that surely deserves the respect and consideration of all citizens for its contributions to the welfare of mankind. Additional duties and greater responsibilities have been added from time to time upon this profession without proportionate increase in compensation. While this is regrettable, yet it is becoming more apparent, day by day, that, in order to deal effectively with another serious condition now confronting this Nation and all its individual citizens, we must again enlist the patriotic efforts of this body, which has already given so generously of both time and energy. I refer to the school teachers, who are a distinct asset to our country.

While we have many major problems confronting us for which a solution must be found, the one to find effectual

means to check the awful and needless waste of human life and limb occurring from the improper and reckless operation of automobiles certainly comes very close to the daily life of each of us.

Along with the church and home, our teachers deal with the youth of America, the generation in immediate prospect. This contact is during the impressionable period of life. Most of the time the young mind is actually at work the teacher is directing the thought.

As indicated before, the average pay of teachers is not commensurate with the service rendered, and so it is with a feeling of reluctance that I suggest the imposition of an additional responsibility upon them. However, a death rate of one person every 15 minutes throughout the year and the maiming of other countless thousands is so appalling that action upon the part of the Government and its political subdivisions is surely called for. The only way to cope with it is to carry it into the minds of all those who are about to become drivers of automobiles.

The one group of our citizens who can carry out such a campaign of education on a systematic basis is our teachers, who dedicate their lives to the intellectual development, health, and safety of all of the young people of the land. They will respond to this new call of duty that means so much to society. Forty-eight great States and a great Nation with vast resources should see to it that they are adequately compensated, and that the retirement laws be justly revised for their benefit and protection. No better investment could be made.

THE EFFECT OF OUR NATIONAL DEBT ON THE BANKS

Mr. CROWE. Mr. Speaker and Members of the House, today there is a national income with which to pay the national debt. Confidence has replaced fear in "3 short years."

You would not change horses in midstream, much less change horses when the faithful horse is found drawing the load out on solid ground. Likewise, thinking Americans will not be so unmindful of their own and the country's welfare to unseat President Roosevelt when he and his administration and the Congress is surely, certainly, and with unfaltering step bringing this Nation to a safe, sound landing on solid ground. No more peeking around the corner for prosperity, for it is here.

My remarks are for comparison, and notice how favorable the comparison of general conditions since the beginning of 1933. According to the National Industrial Conference Board, the entire national wealth in 1932 amounted to $247,000,000,000. The Federal debt was then $21,500,000,000, which was $5,000,000,000 more than it was when Mr. Hoover went into office. By the end of 1935 the national wealth had risen to—carrying out the National Industrial Conference Board figures—approximately $310,000,000,000, an increase of $63,000,000,000. Further estimates show still more increase in national wealth in the year 1936. During that period of "3 short years", while the national wealth has increased $63,000,000,000, the national debt has increased $10,000,000,000, making a total of $31,000,000,000. Accordingly, while the national debt is large, nevertheless the increased national wealth overshadows it and has increased six times what the national debt has increased during these "3 short years." Take one example of the increased national wealth—the New York Stock Exchange. On April 1, 1933, all stocks listed on that exchange amounted to $20,000,000,000. April 1, 1936, the stocks listed amounted to $51,500,000,000, an increase of $31,000,000,000. In this same period the listed bonds increased in value $11,000,000,000. On these items alone is an increase in the wealth of the Nation of $42,000,000,000. When you add to this the increased wealth of all homes, farms, factories, banks, life insurance, savings accounts, many say the increased wealth is ultraconservative at $63,000,000,000 and many believe it to be nearer $100,000,000,000 increase. But, you ask, do increased values alone aid in paying the national debt? My answer is that other vital features also inject themselves into the picture. For instance: The total income of the Nation in 1932 was $37,000,000,000. In 1935 it was $62,000,000,000, or a gain of $25,000,000,000 in 1 year. Accordingly the Nation had $25,000,000,000 more to spend in 1935 than it did in 1932, or $208.33 more money for each man, woman, and child in the United States.

You hear, and will continue to hear, many wild, unfounded statements of how England is getting under way. She is striving manfully and will succeed. But let us compare facts: Our debt in the spring of 1936 was $31,000,000,000, while that of England was $39,000,000,000. Our per-capita debt was $241—England's $876. Further comparing the over-all debt of both nations, ours was $51,000,000,000, while England's was $46,000,000,000. Our over-all per-capita debt $397, while England's $1,024. By over-all debt is meant an addition to Federal debt, the county, State, and municipal obligations. These figures are based upon the population of England—the United Kingdom—of 33,790,000 people to the Unites States 130,000,000.

A further comparison is encouraging. Our over-all debt is 17 percent of our national wealth. England's over-all debt is 52 percent of their national wealth. Our debt is 85 percent of our income of 1935. England's debt is 251 percent of their income of 1935. My purpose is not to encourage debt, but is to show the bright side by facts which can be verified to the satisfaction of the fair-minded.

While the Federal debt has increased, the houses, the farms, the factories of America have left the position of scarcely no value, to real value. The hungry have been fed, clothed, and warmed. The idle have been provided jobs. A million homes have been saved through the H. O. L. C. A million farms have been saved from foreclosure. Hundreds of thousands of youths have been taken from the streets and given useful occupation. Your bank and savings accounts have been guaranteed up to $5,000, and banks are on a sound footing.

Today there is a national income with which to pay the national debt. Confidence has replaced fear in "3 short years."

THE EFFECT OF OUR NATIONAL DEBT ON THE BANKS

Mr. HOLLISTER. Mr. Speaker, in 1932, when he was campaigning for the Presidency, Candidate Roosevelt repeatedly stressed the absolute necessity of reducing governmental expenditures until Government outgo was brought down to the level of Government income. He devoted an entire speech at Pittsburgh on October 19, 1932, to this all-important subject—the financial problem of making both ends meet.

At that time he explained that our national finances are no different from the finances involved in the family budget. He showed how the United States was paying 33 cents out of every dollar of its national income for the "luxury of being governed", which he characterized as "an impossible economic condition." He went on to show how the cost of government is paid out of taxes and that taxes in turn "are paid in the sweat of every man who labors."

In another part of this Pittsburgh speech the President called particular attention to another phase of the danger of an unbalanced national budget which compels a government to borrow continually to meet its bills. This phase is the danger to the whole credit structure caused by what Mr. Roosevelt in 1932 referred to as "the unorthodox Federal financing made necessary by the unprecedented magnitude of these (Government) deficits." The explanation of the risks involved in such financing, as given by Mr. Roosevelt, can hardly be improved. He spoke as follows:

> You know as well as I do that this administration's (Hoover) claims that it has provided credit for industry and agriculture by pouring credit into banks are not frank.
>
> Commercial credit has continuously contracted and is contracting now. Most of this new Government-created credit has been taken to finance the Government's continuing deficits.
>
> The truth is that our banks are financing these stupendous deficits and that the burden is absorbing their resources.
>
> All this is highly undesirable and wholly unnecessary * * *.

The record since that time is illuminating. In 1932 Mr. Roosevelt complained that in the previous year "the amount of Government obligations held by our banks increased by a little more than $1,000,000,000." But from June 30, 1933,

to June 30, 1935, or during the first two full fiscal years of the Roosevelt administration, the banks increased their holdings of United States Government obligations, direct and fully guaranteed, by $6,488,000,000, or at more than three times the rate which Mr. Roosevelt thought dangerous when he was seeking the people's votes in 1932.

The following figures are official, as taken from the reports of the Comptroller of the Currency:

All active banks, selected items from reports of conditions

[In thousands of dollars]

June 30—	Total loans and investments	Direct United States obligations	Obligations fully guaranteed by United States	Capital stock and surplus
1931	55,270,653	5,717,642	----------	8,462,849
1932	46,313,094	6,455,583	----------	7,375,934
1933	40,318,481	7,795,999	----------	6,270,862
1934	42,720,647	10,995,673	667,594	6,733,477
1935	44,636,415	12,201,560	2,082,492	6,699,005

In 1932 Candidate Roosevelt complained that the commercial credit extended by banks to businessmen and farmers was contracting and he clearly intimated that in his opinion the reason for this was because the resources of banks were being absorbed for the financing of Government deficits.

During the Roosevelt administration, however, there has been a continued contraction of commercial bank credit—a contraction, from June 30, 1933, to June 30, 1935, of 8.8 percent, or from $22,388,000,000 to $20,419,000,000.

The danger of this method of financing was again brought to the country's attention on February 21, 1935, on the floor of the Senate by none other than Democratic Senator GLASS, of Virginia, Secretary of the Treasury under President Wilson and coauthor of the Federal Reserve Act. At that time he said:

> The existing outstanding indebtedness of the United States is approximately $28,000,000,000. Listen, Senators: Of that amount $15,364,000,000 is piled up in the banking institutions of the country. Some of the banks have as much as 60 percent of their entire assets invested in Government securities. They are prohibited, were there the demand, from coming to the aid of business activity. They hold 55 percent of Government securities in the banks of the United States as against but 11 percent of Great Britain's indebtedness held in the banks of Great Britain—55 percent as against 11 percent.
>
> The banks have been brought to a state in which they are literally obliged to take Treasury issues whether they want them or not.
>
> They are compelled to take them in order to maintain the bond market of the United States, because it has been represented to me by competent authorities that a depreciation of 10 percent in Government bonds would render insolvent 90 percent of the banks of this country.

It is difficult to specify definitely the number of banks which would become insolvent by reason of a 10-percent drop in Government bonds, because some banks hold a larger proportion of such investments than do others. It must be remembered, however, that a decline in the Government bond market would be accompanied by a slump in other bonds, so that a depreciation in practically all of the banks' investments would occur under the condition mentioned by Senator GLASS.

On December 31, 1935, the investment in bonds and notes of 14,123 insured banks was $18,305,000,000. A decline of 10 percent in the value of these assets would result in losses by depreciation of $1,830,500,000. This amounts to almost one-third of the total capital account of the insured banks as a group.

It can be stated with certainty that any substantial decline in the price of Government bonds would impose heavy losses on the banks of the country, loaded as they are with Federal bond and note investments.

As to the possibility of a decline in the Government bond market, it may be pointed out that Liberty bonds declined more than 10 percent below par in 1920. In fact, a decline in the Government bond market to the 1920 levels would average about 20 percent and would be disastrous to a large proportion of our banks.

The new chairman of the Board of Governors of the Federal Reserve System, Mr. Marriner S. Eccles, who was appointed by President Roosevelt, is not worried about the situation. He is quoted by the New York Times of April 18, 1936, as having said:

> The banks have the privilege of discounting Government bonds at the Reserve banks and obtain 100 cents on the dollar. I don't think there is any problem there.

But the facts are that on March 4, 1936, the member banks of the Federal Reserve System held $11,117,000,000 of United States obligations. On the same date the 12 Federal Reserve banks, whose capital was $336,799,000, held $2,430,000,000 of United States Government securities. If the member banks should discount as much as $1,000,000,000 of their Government obligations with the Federal Reserve banks, a 10-percent decline in the price of "Governments" would technically wipe out the capital account of the 12 Federal Reserve banks.

The word "technical" is used advisedly because no doubt the true insolvency which would result from such a situation would be disguised by some governmental expediency such as those which have been used by other nations which have attempted to dodge the facts by following the path of inflation.

These facts are being called to your attention, not with any desire to cause unnecessary alarm, but to point out the very grave danger in the financing of continuing budgetary deficits through the sale of Government obligations to the banks. The one sure cure is the cessation of wasteful expenditure and the early balancing of the Budget.

THE TONRY BILL TO AID HOME OWNERS, SPEED THE WHEELS OF INDUSTRY, AND TO PROVIDE A GREATER PURCHASING POWER TO CREATE MORE REAL JOBS

Mr. TONRY. Mr. Speaker, representing the largest congressional district in the United States, wherein resides every type of American citizen of every race, creed, and religion, and which numbers in its constituency a fair-sized group from every walk in life, I feel qualified from the existing situation in my district to speak for the country at large.

I have introduced a bill—H. R. 12718—which permits the home owner who has a contract with the Home Owners' Loan Corporation to amortize his principal and interest in 25 years instead of the existing 15. This will, in effect, give each of these home owners an additional sum of money each month with which he and his family may live a happier and more complete life in keeping with the American ideal. It will provide that "greater purchasing power" that President Roosevelt referred to but a few short weeks ago at the annual Jefferson Day dinner in New York City. It will give Mr. and Mrs. America who have home loans the opportunity to take the family on that extra Sunday outing, to get that new living-room set, and put that new roof on the house. These extra moneys will flow into the neighborhood store and into every industry, to increase production and establish real jobs for a period of at least 25 years. This measure supplies real money and creates real jobs. It adds no burden to the taxpayer and causes no inflation of the currency. It enables the Government and the home owner to change its contract to equal that now offered by those private banking institutions, who a few years ago were too timid to offer the home owner assistance.

ANTILYNCHING LEGISLATION

Mr. GAVAGAN. Mr. Speaker, and Members of the House of Representatives, June 15, 1936, was a memorable day in the history and procedure of this House, for on that day the last signature was attached to a discharge petition on my antilynching bill (H. R. 5). A majority of the membership of this House signified thereby its wish that this legislation receive consideration of the House; namely, debate and passage. That day began an epoch in the annals of the Congress of the United States, because, for the first time in history, a Democratic House of Representa-

tives initiated and brought to a successful conclusion a discharge petition relating to this type of legislation. I am very proud of the part I contributed to the success of the petition, and I wish to express to every Member who placed his signature thereon my thanks and appreciation.

The success of this petition confirms in my mind the belief that, slowly but surely, the people of these United States are coming to the firm resolve that government by law must prevail; that courts of justice are established primarily to protect the weak and punish the guilty; that the rule of reason by law must be maintained; that justice, as enunciated by the courts, must be the established domestic policy; and, finally, that mob rule and "Judge Lynch" must be forever banished from the proud history of our country.

"Thou shalt not kill" has come down to us from Mount Sinai; the clear import of its meaning has been known and understood through all the centuries of man's travail on this earth; in every civilization known to man where reason and justice ruled this commandment was the pinnacle upon which rested peace and order, justice and civilization. It binds the Christian, the Mohammedan, the Jew, the Turk, the white man and the yellow man, the black man and the red man. Its purport and meaning is applicable to all; no man or race of men is excepted from its binding force; it is a divine commandment, as binding today as when first uttered, binding individually and collectively.

Since history's dawn mankind has sought in one form or another to approximate justice in order thereby to protect the weak from the strong, to establish peace and order, and to provide for the general welfare. To this end and for this purpose mankind throughout the ages instituted tribunals of one sort or another where truth and justice were sought to be established. Ultimately there evolved legal tribunals known to us as courts and bodies of rules and principles, at times called "codes", "rules", "constitutions", "laws." The ultimate object and purpose was ever the establishment of justice, equal justice, justice applicable equally to all. Mankind instinctively knew and understood that without a general system of laws applicable to all and tribunals for the application of these laws to all, civilization could not exist. Mankind knew and understood that individuals should not and must not be permitted to declare for themselves the law or rule of justice and should not and must not be permitted to execute for themselves the law or rule of justice. Mankind knew that the individual pronouncement of the law and the individual execution thereof meant anarchy, not government; meant barbarism, not civilization; meant chaos, not order.

Investigating mankind's endeavor to approximate justice, we find underlying all tribunals of justice and permeating all systems of organic laws the eternal principles enunciated in the decalog. These principles are as binding as when on that great day they were divinely proclaimed for the guidance of men.

The Constitution of these United States, in my opinion, has as its main purpose the fruition of these great principles of human action in government—man's responsibility to man, man's obligation to man, and the rights of man in collective society. "The individual is indisputably the original, the first fact of liberty" (Woodrow Wilson).

Believing as I do, it is with grief and regret that candor compels me to admit that in our great Nation, dedicated to the freedom of mankind, there exists among us the spirit of mob rule and mob violence. No true American can but grieve because of this terrible scourge of injustice. To strive to eradicate it, seems to me a noble endeavor. Without malice or bitterness, and with no concern save the honor of our country, I appeal to my colleagues of this House to give thought to the great endeavor to remove from our midst this blight. This movement has been gaining momentum through the years; the voice of righteousness is becoming more clear, more insistent; the people of these United States are becoming more conscious of the justice and righteousness of the cause and will, I have no doubt, demand legislation to punish and prevent this heinous crime. For in the words of the great Burke—

> Every generation sets before itself some favorite object which it pursues as the very substance of its liberty and happiness.

Truth and justice must prevail. Mankind's struggle to attain it may be arduous; the road to light may be hard and thorny, but eventually God's justice shall prevail—righteousness will triumph and law and order become established. Sooner or later "Judge Lynch" must be dethroned and in his place the goddess of justice enthroned.

To all of you I appeal for justice under law; equal justice to all men—white men, black men, yellow men, red men. Convinced of the soundness and justice of this cause, I happily dedicate my life and my little talents to its accomplishment. It matters not the road be rough and stormy, if the heart be pure and the cause just, there will be found joy and consolation. In conclusion, permit me to rekindle your zeal with the noble spirit of the immortal Lincoln: "* * * With malice toward none; with charity for all; with firmness in the right as God gives us to see the right, let us strive on * * *."

THE ROOSEVELT NEW DEAL HAS HELPED MILLIONS OF AMERICANS IN ALL WALKS OF LIFE

Mr. SUTPHIN. Mr. Speaker, I should like to make a few comparisons between conditions in 1932, under the preceding administration, and conditions today. The majority of the people in the United States are much better off today than they were in 1932, and their improved condition is in a great part due to the constructive efforts of the Congress and the President.

ROOSEVELT ADMINISTRATION HAS SAVED OVER A MILLION HOMES FROM FORECLOSURE

In the dark days of 1932, foreclosures on homes and farms reached new peaks. People who had seen their jobs, their savings, and their dreams of the future swept away in the depression, now suffered the even more heartbreaking loss of their homes. To alleviate this distress, to keep the American family in its traditional homes, to maintain the self-respect of more than a million home owners, the Republican administration did nothing.

Through the Home Owners' Loan Corporation the New Deal has saved over a million homes by lending over $3,000,000,000. Over 70 percent of the payments due on these mortgages are paid on time. In addition to this, through the agencies of the Federal savings and loan associations and the home-loan bank, funds are made available to banks and building-and-loan associations for home lending. The Federal Housing Administration, by insuring mortgages for the construction of new homes, and by insuring notes covering repair loans, has revived building-construction industries throughout the Nation, and has given our people an opportunity to establish themselves in decent homes.

THE ROOSEVELT ADMINISTRATION HAS PROVIDED THE NECESSITIES OF LIFE TO OVER 5,000,000 NEEDY FAMILIES

The immediate need when Roosevelt took office was to give direct relief to feed millions who were starving from Republican prosperity. I do not believe in mixing politics with relief, but I cannot mince words over this contemptible disregard for our own people while Hoover was making every effort to help Europe by granting debt moratoriums.

Twelve years of undisputed political power in government, and still unwilling to feed the hungry. Why? Because a few selfish people had control, through the power of their money, over our national affairs in Washington. Are the Republicans proud of that record?

We are employing skilled mechanics and laborers. We are providing for bookkeepers, chemists, store clerks, and factory hands, and people of every occupational training. These people are being given a chance to earn money, to the best of their ability, with which to keep their homes together, with which to keep their children fed, clothed, and in school.

None of you like relief in any form, and those who accept it do so only because of their need. This administration

appreciates this, and the relief rolls are being cut down rapidly. As the New Deal program swings ahead, private employment has increased about 5,000,000. It will increase further.

ROOSEVELT ADMINISTRATION SAVED AND REHABILITATED A TOTTERING BANKING SYSTEM TO MAKE THE SAVINGS OF AMERICAN CITIZENS SAFE

Let us look at the banking situation facing this country before this administration took office. I am going to talk about national banks, because these are directly responsible to the Comptroller of the Currency and are subject, under their contracts with the Government, to Federal regulation and inspection.

During the four and a half years of Coolidge "prosperity", 533 national banks closed their doors and caused losses to depositors. During Hoover's 4 years, 1,035 banks failed. By March 4, 1933, when Roosevelt took office, the whole banking situation was so ominous that had he not declared a bank holiday a Nation-wide bank panic would have resulted and business losses of unthinkable extent would have followed. President Roosevelt closed all the banks long enough to determine their strength and needs in order that they could reopen and stay open. Of the thousands of banks closed during this holiday, 207 national banks remained closed. These failures can be charged to the Hoover administration, because they had been under the supervision of that administration up to the day they were closed. Their failure to reopen was attributable to the Hoover administration which failed to require a more conservative policy than was practiced.

Twelve years in the saddle seemed insufficient time for a Republican regime to plan and execute a system of bank regulation that would protect the depositors in the banks. Yet the Roosevelt administration accomplished this in less than 2 years. The Bank Acts of 1933 and of 1935, including the Federal Deposit Insurance Corporation provisions, have effectively eliminated many of the unwise practices of "old deal" banking. The Federal Deposit Insurance Corporation since January 1, 1934, has insured deposits in national banks and in others which chose to agree to the terms of such contracts up to $5,000 per depositor.

You realize the importance of bank security to our economic welfare. You can therefore appreciate the fact that since the bank holiday, during the 3 years of this administration, only eight national banks have failed, and in them no deposits up to $5,000 per depositor were lost.

This is protection given you by the present administration. This is action of the type which comes closest to you, insuring your economic welfare in a tangible way. This is action where before there was only inaction. In this manner was fear replaced by confidence and security. These steps taken by this administration are by themselves sufficient recommendation for its continuance in office.

ROOSEVELT ADMINISTRATION HAS PROVED ITSELF THE FRIEND OF LABOR

One of the great problems which has always faced government is that of the relationship between the employers of men and the men employed. It naturally follows that seasonal demand for goods will be reflected in seasonal peaks of employment and seasonal depressions of unemployment. It is a problem of modern living. It affects the whole Nation. It is truly a problem of the National Government. Yet 12 years' experience in government in modern times evidently failed to impress those three Republican administrations with either the extent of the problem or the need of cooperation between industry and government to solve that problem.

A famous expert on corporate law and on the problem of labor relations, Professor Ripley, of Harvard University, has frequently stated that the antitrust laws, forbidding industrial association along certain lines, have stood in the way of a solution of these problems. The same belief has been expressed by outstanding industrialists. They believed that certain clauses of these laws would have to be suspended, and that a cooperation between industry, labor, and government would result in an eventual solution.

Twelve years of opportunity failed to bring this cooperation from the Republican administrations. The National Recovery Act was passed by this Democratic administration in 1933, and provided this opportunity for cooperation. Many phases of it were experimental, many phases unpolished, but it did bring about reemployment, the establishment of fair wages for many workers; it stabilized many industries. Under its banner considerable seasonal operations in industry were supplanted by a planned program of year-round production. The Supreme Court did not believe that its powers were granted by the Constitution and the act was nullified, but great strides toward industrial cooperation, planned, steady production schedules, wage schedules that provided a relatively decent minimum wage, and other benefits still endure.

Many millions of workers who had never had the protection of organization for common good received this merited protection. Industry acknowledged the right of its workers to present their problems as a body. Wage scales were in many cases permanently raised, purchasing power of the workers improved, and net profits of industry increased as the entire picture became more wholesome.

The Supreme Court decision did not discredit the motives or the purposes behind this act, but criticized merely the instrument. That a decided forward step in labor relations was taken through this act is acknowledged by industry and labor alike.

ROOSEVELT ADMINISTRATION HAS PROVIDED FOR THE FUTURE WELFARE OF THE UNDERPRIVILEGED CHILDREN, THE AGED, AND INFIRM

In 1932 we find aged people made destitute by the depression, entirely dependent upon local assistance, which was poorly organized and in many cases short of funds. The blind were entirely dependent upon their relatives or forced to become beggars in the streets. Poverty-stricken mothers watched their underprivileged children crying for food, decent clothing, and medical attention. Workers held precariously to jobs, without security for the future, or they were without employment. To aid them or to protect labor from involuntary unemployment the Republican administration did nothing!

This Democratic administration has passed a social security act, through which the Federal Government cooperates with the States in providing systems of old-age pensions which I hope will be increased, unemployment insurance, aid to the blind, and to poor mothers, underprivileged and crippled children. The States are also assisted in their public-health activities. It is a humane and sensible plan in operation now in many of its phases. It gives help where there was no help; security where there was always insecurity. It is a notable achievement, and I am proud to have had a part in it!

FRANKLY, ARE YOU NOT BETTER OFF TODAY THAN YOU WERE 4 YEARS AGO?

As we review these events of the past 15 years—as we contrast the inaction and the tolerance of improper practices by three Republican administrations; as we contrast this with the beneficial, forceful, courageous action of the Roosevelt administration—no orator is required, no bands needed, no great hurrah is necessary to justify the record of the Democratic Party. It stands squarely on its own feet. This truly great administration will go down in history as the most forward-looking, most humane, most progressive administration in the history of our Nation.

Great work has been done in Washington in the past 3 years. But many of the programs initiated by the administration require time for development. The Republican Party frankly opposes the New Deal and threatens to throw into discard the great achievements which we have attained.

The American people cannot afford to go back to the gloom and misery of 1929–32. They do not want to go back. They do not want a reactionary government to wreck and discard the progress which has been made.

My friends, we know what the American people want, and we are going to see that they get it. This Nation must continue to go ahead with Roosevelt. The American people are going to continue to enjoy the blessings which have been given to them by this administration, and they are going to give Roosevelt a Democratic Congress to support him; the tremendous strides of progress toward economic and social security made during these past few years will not be lost.

WASTE—TAXES—DEBTS

Mr. WOODRUFF. Mr. Speaker, the constant and rapid increase of the national debt, together with the useless, senseless waste and squandering of the public funds, presents the most immediate and the most vital problem before the American people. It is a problem that calls for the intelligent and prompt attention and action of the citizens of this country if this is to continue to be the land of opportunity for the youth of today and the oncoming generations.

Altogether too little attention has been given to the almost criminal extravagance and waste of the taxpayers' money by the present administration. Every dollar spent unnecessarily by Hopkins, by Tugwell, and by the other 30 or 40 agencies now spending relief funds means one additional dollar of debt unnecessarily heaped upon the American people. Public debt means taxes. The larger the debt the larger the tax and the greater the burdens upon the present and future generations.

It must be clear to all thoughtful persons that the only source of revenue of this Government is the citizens thereof. There is no other. Whatever is spent in carrying on the normal or extraordinary or unnecessary activities of government must be paid by them. Let us not forget that fact for one minute. We cannot escape paying. If our income is large enough to take us into the income-tax paying class we are conscious of the fact that we do pay. If we are less fortunate and our annual income is small, we do not see the tax gatherer, but his hand reaches into our pockets nevertheless.

The thoughtless individual who stands on the street corner and argues that he is not interested in the squandering of the public substance or in the amount of the national debt and the taxes resulting therefrom because as he says, "It doesn't cost me anything; I don't have to pay it", would rise up in his wrath and smite this governmental waste if he could only be made to realize that every time he goes to the store and makes a purchase, wrapped up in the package he receives and included in the price he pays is the tax of the storekeeper, the jobber, the wholesaler, the manufacturer, in fact the tax of everyone who contributes in any way to placing the product in the hands of the ultimate consumer.

In fact, there is no individual who should scan so critically the spending of public funds as the man who does not pay a direct tax to the Federal Government, the reason being, of course, that through the indirect taxes I have mentioned, and because of his limited income, he already is taxed a far greater proportion of his income than are his more fortunate brothers. Let us not forget that the only person who pays no tax is the person who has no money to spend.

The information I am giving may startle those folks who have believed they have no particular interest in the spending and wasting of the public funds, and that it is of no concern to them.

The tax on business is as much a part of the cost of production as the wages paid, the fuel consumed, or the raw materials purchased. It is one of the costs of doing business.

Congress is placing upon the statute books, at this time, legislation which will tax corporations as high as 42 percent. Dr. Robert R. Doane, the eminent New York economist, has within the past few days testified before a committee of Congress that if business were to absorb the 2-percent transactions tax proposed by the Townsend plan it would bankrupt 60 percent of all American business within a year. If a 2-percent tax would do this, it must be clear that all taxes on a successful business are passed on to the general public, and that the American citizen does have a direct and vital interest in conserving the public finances, and in the reduction of taxes.

It must be clear also that because of the fact these taxes are concealed in the price we pay for the things we buy and which we must have in order to live and enjoy life, that whenever our taxes go up there is a corresponding lowering of the standard of living of our people. The more we pay for taxes the less we have for the necessities of life. A dollar spent for taxes cannot also be spent for bread and meat.

Government files have been filled during the past 3 years with records of the most shameless, the most shocking waste of the public funds known in all the history of civilized government.

Many millions of dollars have been spent in the various boondoggling activities for which Mr. Hopkins and his W. P. A. have become notorious. More than $60,000,000 has been allocated to the various States to be spent for "recreation" alone.

Unquestionably the greatest waste of the people's money occurs in carrying on the "made" or "invented" work under the W. P. A. Those who are nearest to such work should be best qualified to judge of its value. Certainly one can place dependence upon the opinion of those who are known to be loyal to the President and who have had direct charge of these activities.

I call as a witness Gen. Hugh S. Johnson, former head of the N. R. A. and President Roosevelt's right-hand man for the first 2 years of his administration. He has been, and is now, for the reelection of Franklin D. Roosevelt. After the Supreme Court had put an end to the N. R. A., General Johnson was placed in charge of all W. P. A. activities in New York City. He carried out the orders of Mr. Hopkins, his chief. I quote from his official report to Mr. Hopkins:

> Sixty percent of this invented work is a needlessly expensive and fatuous gesture.
>
> The only argument is that it preserves pride against the humiliation of home relief, yet to go on work relief the rules require that a man first go on home relief. To get there he must submit to the equivalent of a pauper's oath and a most humiliating inquisition.
>
> If a man on home relief finds a fugitive dollar in private employment he risks ostracism from any kind of relief.
>
> It is as cruel as it is stupid, because the area of available relief money nowhere near covers the area of destitution and the vast waste occasioned by this ill-informed dogma subjects the whole Government to amply justified ridicule, and insistence on it not only deprives tens of thousands of people of relief, but involves the Government in more inconsistencies than loyal ingenuity can excuse.
>
> The money should be disbursed as direct relief except for worthwhile and necessary work on a basis of cost, competitive with contemporary public construction.
>
> More than half of all this effort is prodigal pretense justified by nothing.

The above is the deliberate and measured judgment of a man with the courage of his convictions, prompted by his inherent patriotism and his desire to save his friend, the President, from the folly to which the latter has been committed from the minute Mr. Hopkins and Mr. Tugwell were brought into this picture.

Everyone is familiar with the fantastic proposal to establish a shelterbelt of forest 100 miles wide and 1,100 miles long, running from the Canadian border south through those "typical prairie States" we have recently heard about from Mr. Farley, which would cost many hundreds of millions of dollars. No thought was given to the fact that trees never have grown in this section and that authorities agree they never will.

Everyone should be by this time familiar also with at least some of the useless, senseless activities of Professor Tugwell, with his 17,000 faithful on the pay roll, drawing salaries in the amount of $2,000,000 per month. Most of us have heard of his Matanuska Valley project in Alaska, where he settled 200 families from the Lake States upon 40 acres of land each at a cost of $18,000 per family. The philosophy pursued seems to be that by shifting people around from where they are to where Dr. Tugwell thinks they ought to be, somehow in the process the subjects of his experimentation will realize the "more abundant life."

Congress has never approved the Passamaquoddy project nor the Florida ship canal. These were established by Executive order. The first, if and when completed, will cost the people of this country a hundred million dollars before it is paid for. The second, if and when completed, will cost taxpayers many times this sum before it is paid for. There is no economic justification for either.

Grand Coulee, Bonneville, and a dozen other great irrigation works were begun without congressional approval. They

are being constructed in the arid West with money allocated for that purpose by the President of the United States. These projects will bring into production millions of acres of land in competition with and add to the troubles of our already established and harassed farmers, who can now supply all necessary food for our people. They will cost many hundreds of millions of dollars, all of which our already overburdened farmers must help to pay.

Adding to the troubles of these harassed citizens is the administration's policy of reciprocal-trade agreements, under which our tariffs are being reduced and the importation of foodstuffs encouraged. These imports are rapidly increasing. The American farmer is finding his domestic market disappearing and the price for his products either reduced or held at a level which will not give him cost of production.

During the year 1935 there were imported into this country one and three-quarter billions of dollars' worth of farm and forest products, every pound of which could be produced on American farms. Give to the American farmer the privilege and opportunity to produce these things and our farm problem disappears overnight.

I have reviewed briefly only a few of the many useless and unnecessary activities, the cost of which is piling upon us a burden of debt we will find difficult to discharge.

Congress has just passed the last appropriation bill of this session, bringing the total amount appropriated for the fiscal year of 1937 up to the huge sum of $10,069,710,521.58. The total appropriated for the 4 years under Roosevelt is more than $36,000,000,000, a sum so colossal as to stagger the imagination. One can better appreciate its magnitude when he knows that it is $10,000,000,000 more than it cost us to prosecute a war across the seas and at the same time pay all other costs of government. Yes, he can better appreciate its magnitude when he knows it is $11,752,000,000 more than it cost to pay all the expenses of running this country from Washington to Wilson, a period of 124 years, during which time we paid in part the expense of the Revolutionary War, we paid in full for the War of 1812, the Mexican War, the Civil War, the Indian wars, the Spanish War, and paid every other expense of government.

According to the best information available, our national debt will within a few weeks reach a grand total of $36,000,000,000, fifteen billions greater than it was when Mr. Roosevelt became President, less than 3½ years ago. He has asked for and Congress has authorized increasing the national debt to $45,000,000,000. If he did not expect the debt to reach this figure, why did he ask for this legislation?

A public debt in reality constitutes a mortgage on the farms, the homes, all physical property, together with the productive capacity of our people. The people actually living on the 6,288,648 farms of the country, as disclosed by the 1930 census, constitute 25 percent of the total population. Consequently 25 percent of this Federal debt can be charged to the more than 6,000,000 farms. It constitutes a debt; in fact, a mortgage—although the owner of the farm did not sign that mortgage—of $1,420, on the average, on each of those farms. Six hundred dollars of that mortgage has accumulated since March 4, 1933, the day President Roosevelt was inaugurated, less than 3 years and 4 months ago.

What I have said about the situation the farmer finds himself in is equally true of every other citizen. They, their talents, their homes, their productive capacity, all are mortgaged, and that mortgage cannot be discharged until the last cent of that rapidly growing national debt is paid.

Don't you good folks out there believe with me that we should stop, take the time to examine our affairs, find out where we are going, and then do the one thing that can put an end to the present administration's squandering and waste that is rapidly placing upon our shoulders and the shoulders of those who follow us a burden of tax greater than any human being should be asked to bear? My friends, think this over and act before it is too late.

A MILLION MEN THROWN OUT OF EMPLOYMENT BY ONE NEW DEAL MEASURE

Mr. HOFFMAN. Mr. Speaker, the above is not a charge made by some disgruntled Republican, by some political critic, by an anti-New Dealer, by a chronic faultfinder. It is a statement of fact found in a New Deal governmental report.

True, it took a lot of digging to find it. It was there all the time, but the doors guarding it were securely locked, and the key was in the hand of the administration.

Under this New Deal there are endless Government reports made by experts appointed by the Government. Most of these reports are highly colored so as to favor everything the New Deal does, but every once in a while the truth comes to the top.

A group of Government experts were assigned to investigate the facts and to report on some of the results following the enactment of the A. A. A. In September of 1935 their report was made. It was signed by Secretary of Agriculture Wallace himself and put away in the file. Evidently the Secretary did not read it, or, if he did, he recognized the danger and did what he could to bury it securely, for Senators and Congressmen asking for it were told that the original was "not available."

A resolution in the Senate brought it to light and a Senator was permitted to read the original, which was then returned to Mr. Wallace's office. Later a revised report more acceptable to the administration was issued. But the original report still exists. It contains this paragraph:

> A permanent drastic restriction in domestic cotton acreage would cause serious problems of finding alternative opportunities for the labor and production resources normally used in cotton production. Rough approximations indicate that 27,000,000 acres in cotton harvested in the United States in 1934 utilized the services of almost 1,000,000 fewer man-equivalents than were used during the 5-year period 1928–32, when an average of 40,550,000 acres in cotton were harvested annually.

So here you have one New Deal measure, the operation of which took out of employment one million men in this one industry.

Let me repeat—these are the figures of the Government's own experts. They are as favorable at least as any honest investigation would disclose.

With this record in this one industry, are you wondering how many men were thrown out of employment by all the New Deal activities?

ROY E. AYERS—A FRIEND FROM THE WEST RETIRING FROM CONGRESS

Mr. WERNER. Mr. Speaker, we of the West feel the impulse of real friends and we measure friends not by the yardstick of what they do for us or by the measurement of how we can use them to advance our own personal or selfish interest. Rather the yardstick gives us the trueness of their character, the realness of their fiber, and the worth of their word, once given. When these attributes are displayed by a man who hails from the great open spaces—in the country out where the West begins—you may count one who calls you a friend a regular fellow—a man who thinks of you as a friend when all is well and rosy, and one who remains a friend when things go wrong and the going gets rough. There always comes the time in the West when true friendship is put to the acid test and rarely is one disappointed by a friend from the West.

Mr. Speaker, the gentleman from Montana, Mr. ROY E. AYERS, has announced his retirement from the House with the close of the Seventy-fourth Congress. ROY AYERS was a friend from the West. He grew up on the range. As a lad he rode the range in the open spaces and was at home on the round-up. Until he was 18 he was a cow hand with the Two Bar outfit. At work one day on the round-up his horse fell and Roy suffered a badly shattered leg. Unable to carry on with the work, his foreman of the outfit took Roy to Chicago on a cattle train and talked him into going to college to get an education. Roy listened and followed his foreman's advice. With money raised by the cow hands of his outfit Roy's expenses for his first year at Valparaiso were assured. During the summer vacations the boss-owner, Oscar Stephens, of the Two Bar outfit employed him on his old job, even providing transportation from Valparaiso to Lewistown and return each year. Finally, with an LL. B. degree, Roy returned to Lewistown, and again the Two Bar boss and the cowboys took him "under their wing." Stephens urged Roy to become a candidate for county attorney and placed every saddle pony at his order to use in the campaign.

Roy was a Democrat, and the prospects looked none too good to him. In Fergus County there were 1,500 votes, 1,200 of which were Republican. Not very encouraging for a Democrat, to say the least. But Roy ran, and with the help of his friends—the men who rode the range, mostly Republicans—when the votes were counted he was elected by a majority of 333. He filled the office of county attorney for two terms and declined to run for another term in spite of almost unanimous demand on the part of the people there that he do so. He did the job well, he did his full duty always and made many new friends, and, what is more, he never sacrificed his old friends to gain new ones.

Then, after several years of private practice, he was elected district judge, where he served for 10 years. He was elected to the supreme bench in Montana, but after 1 year's service he found the work too confining and not exactly to his liking. He resigned and returned to private law practice, where he was engaged until his election to Congress in 1932. It was here that I met him, and from the first day Roy measured up to the traditions of the West and has been my friend. Mr. Speaker, it was with deep regret that I learned of his decision to leave his work here. Men like ROY AYERS are needed in Congress. He was an untiring worker; he was always on the job. His task was a difficult one. For almost 4 years I served with him on three of the important committees of the House. I say "important committees" advisedly. The Irrigation and Reclamation, the Indian Affairs, and the Public Lands Committees of the House are the ones which deal with legislative matters vitally affecting the interests of such districts as are represented by Mr. AYERS and me. The Montana district he represents and the South Dakota district I represent have common interests. Alike largely in topography, soil, population, and diversity in resource, each with farming, mining, cattle and sheep raising, forests, parks, arid and irrigated sections, Indian population and problems, public lands, sugar-beet growing, small industrial activity, with labor problems to some extent, I feel that I am in a position, to a pardonable degree at least, to evaluate the service ROY AYERS has rendered to his own district and State as well as to the Nation during his service while a Member of Congress.

Mr. Speaker, of that splendid effort on his part I take the privilege to speak. ROY AYERS was not only alert to the needs of his district but he was ever helpful to his colleagues. On the range he rode as a boy he gained the enlarged vision of helpfulness. He did not limit his vision to a small circle but he held to the broader view he gained as the man on the horse when he rode to the top of the hill to gaze about. I have observed his service to the people of Montana, his first concern, and also his service to the Northwest and to the Nation. His wise and able counsel was a constant source of helpfulness and came in good stead as legislation was being studied and formulated in committee. He and I had the pleasure of serving on two committee groups of the House—perhaps the only two Members of the House who hold such honor. He and I are members of the Rocky Mountain group and also of the prairie group. Our districts are such that both groups deal with problems affecting our constituents. Here again I was able to observe the worth of this man's service in Congress.

ROY AYERS was a leader in the enactment of all progressive legislation during the sessions of the Seventy-third and Seventy-fourth Congresses. His membership on the Rocky Mountain group brought him into action on mining, public lands, parks, forests, labor, and irrigation legislation; and as a member of the prairie group he rendered valuable service to the agricultural interests in general. On special committees, such as the ones formed to continue C. C. C. camps, to promote the bonus payment and veterans' legislation, to secure recognition for sugar-beet growers, and national parks, roads, land use, and so forth, he was always active, always alert, and always wise and able counsel, and truly helpful.

Mr. Speaker, ROY AYERS was a fighter, an aggressive fighter but never offensive. He hit hard but he never hit below the belt. His service in the House was worth while. He was loyal to the leadership. He never deceived anyone. He was loyal to the President and a supporter of the New Deal. While he did not vote for every offering, he gave his support in large measure and only voted otherwise when he was forced to square his vote with a promise to his people or with his own conscience. A look at the record shows a service well performed. Everywhere in his district he leaves lasting reminders of his untiring efforts. On the record here he leaves his mark.

Mr. Speaker, ROY AYERS came from pioneer stock. His father was a pioneer in Montana and helped make much of Montana's early history. The son is a leader in his State where his efforts, counsel, and helpfulness is molding later history in the great State of Montana. He always stood foursquare. As private citizen, county attorney, district judge, supreme court justice, and as a Member of Congress, he measured up to the worth of a man from the West. His leaving is a distinct loss to this body. I am sure I express the wish of all of his colleagues when I repeat what the late Speaker Joe Byrns said to me while we were visiting a few days before he passed away. "This House can ill afford to lose such men as our friend ROY AYERS", said Joe Byrns to me. "I wish he would change his mind and come back to the House." And the beloved late Speaker meant every word he uttered, for he loved the House and he admired ROY AYERS for the sterling qualities he possessed.

Mr. Speaker, in conclusion, may I bespeak for ROY AYERS and his family every success and God's blessing in the field of his endeavor for many years to come.

ACTIVITIES OF THE PRAIRIE STATES FARM GROUP

Mr. STEFAN. Mr. Speaker, I believe that the CONGRESSIONAL RECORD would be incomplete unless some report is made to Members and to our constituents on the work done during the two sessions of the Seventy-fourth Congress by members of that organization known as the Prairie States farm group.

This organization had its inception in Sioux City, Iowa, just before the opening of the first session of this Congress. When we arrived in Washington we organized on a nonpartisan basis, with the sole thought to give united study and support to legislative proposals of particular interest and value to the people of the 10 States comprising the prairie group. We have held many meetings. We have exchanged many ideas and we have fostered legislation which we believe has resulted in untold benefit to the farmers and the constituents we represent. Much of the legislation we sponsored was successful in being passed in this Congress. In all of our work we were guided by our chairman, the Honorable GUY GILLETTE of Iowa, who, among others, worked throughout both sessions and guided this legislation until its final passage. With Mr. GILLETTE as our chairman we were able to keep our activities out of party politics, with the result that our constituents were given unusual service and representation. I was honored by Mr. GILLETTE in being made chairman of the subcommittee which worked for the protection of cereal grains, and became a member of the committee which successfully protected the market for American fats and oils. Under Mr. GILLETTE's chairmanship we were divided into various committees which rendered real service to the people of our districts and to the Nation. For information of Members I give a partial list of the things we were able to do through our affiliation with the Prairie States group.

By sustained and unceasing efforts we succeeded in securing, first, an interest cut on all Federal land bank farm mortgages to 3½ percent for 1935 and 4 percent for 1936 and 1937. Within the past week we have succeeded in securing House action approving an extension of this rate of 3½ percent for the coming year. In addition we have never ceased in our efforts to bring the Frazier-Lemke farm refinancing plan to the floor of the House for action.

We have fought and continue to fight to secure such reorganization of the Farm Credit Administration as will insure

the large measure of borrower control that was contemplated in the original act.

By sending committees to the President we were able to secure the large sum of money for emergency feed and seed loans last year to meet conditions of hardship resulting from the drought.

Through persistent efforts we were enabled to secure adequate action in making money available for the control of the terrible chinch-bug menace, which assistance met the severest threat of this kind of which we have record.

With the weed problem becoming a national menace we have secured national cooperation by the Bureau of Plant Industry with the various State organizations and an appropriation for the work which we hope will ultimately enable us to cope nationally with bindweed, thistle, and other noxious weeds which take toll of our crops, and in some cases destroy the farm itself.

We have introduced, are supporting, and still advocating various measures for enlarged domestic and foreign markets for our farm production. Corn-alcohol fuel blends, corn sugar, slash-pine paper, and building materials from corn stalks, straw, and waste material are some of the fields we have investigated.

We have been fully alive to the question of the importation of farm products that might be in permanent competition with our own production, and subcommittees have been working on the problem and have been in constant touch with the agricultural and State departments, with important results.

We caused to be introduced and now have pending a legislative proposal to save a market for 15,000,000 bushels of corn in the production of grain alcohol.

We have conducted numerous hearings and have had subcommittees working constantly in support of legislative proposals for cost of production to the farmer.

We directed Nation-wide attention to the trade agreements in connection with the production of hog serum, and secured farm representation at the hearings to prevent a move toward unnecessary increases in the price of serum to the farmer.

One of our best achievements was the prevention of the diversion of funds for highway improvement to main-trunk highways and away from our farm-to-market roads. Our work in this field was particularly successful in securing the earmarking of large funds for the improvement of the secondary roads, and the enlargement of the secondary-road program for 1935 and 1936 is almost wholly due to our organized insistence.

We were in touch constantly with the conditions resultant from the unprecedented drought of 1934 and 1935, and had committees working at all times with relief agencies, keeping the needs of the affected communities always in the fore. We sent delegations to the White House with this end in view.

We have had subcommittees whose special duty it was to assist in developing the field of rural electrification for the betterment of living conditions for our farm families, and we are confident that within the next 2 years the beneficial results of this program in our rural sections will be of almost incalculable value.

Having in mind the beneficial results of the corn-loan program, we have had subcommittees making a special study of the possibility of the use of Government credit for warehousing on the farm of farm products that can be kept without appreciable deterioration, and loaning to the farmer a sum sufficient to enable him to hold the warehoused product for the best market of the crop year.

While this is but a partial list, it gives some idea of the scope of our study and efforts. On my personal behalf, I wish to thank Chairman GILLETTE and other members of the Prairie States farm group for their assistance to me and to our group. I hope that future Members of Congress from these Prairie States will continue this organization in order to be helpful to those people they represent.

WHAT THE ROOSEVELT PROGRAM HAS MEANT TO MY DISTRICT

Mr. BOYKIN. Mr. Speaker, it has been my privilege to serve the people of the First District of Alabama since August 12, 1935, during the unexpired term of my able and universally esteemed predecessor, Hon. John McDuffie, who has been appointed to the bench of the Federal District Court for the Southern District of Alabama. It has been my good fortune to represent my district during the administration of one who, in my opinion, will rank in the pages of history with Washington, Jefferson, Lincoln, and Wilson, and who will be classed by historians as the most humanitarian Chief Executive in our Nation's history.

Our great President initiated a program at the time of a real national crisis which many other leaders would have lacked the courage to present for fear of the merciless reprisal of powerful groups who were more interested in a perpetuation of the old rule by privileged self-seekers than the welfare of the great masses of our distressed people.

The President stated at the beginning of his administration that he would not "bat a thousand" but would make some mistakes. In a program so vast and far reaching some mistakes were inevitable, but they have been negligible in comparison with the countless benefits showered upon our people of all classes. Despair and utter hopelessness were changed to hope, a new lease on life was given to millions of our people, and even those who now would crucify our President, and who during the darkest days of the depression crawled away to shelter from the storm and had not even one constructive word to offer, have seen the values of their securities, commodities, and real property holdings return from the vanishing point to sound, reasonable levels.

Several months ago I was invited to attend a meeting of the second oldest farm club in the United States at Ashton, Md. The members of this club are all producers of commodities, including wheat, corn, apples, cattle, hogs, and so forth, and during the course of the meeting the existing market price of each commodity was read into the minutes. I asked the secretary to compare these figures with those in the latter part of 1932, and I myself was amazed at what the President's program had done for these farmers by returning to them a price for their products which will enable them to make a profit, keep their farms and orchards and dairies in A–1 condition, and buy modern machinery and equipment. There were many men there who were not members of the Democratic Party, but they were fair men, who readily admitted that the President's program had helped them.

In my district we were fortunate in having as manager of the Home Owners' Loan Corporation office a man who was thoroughly familiar with real estate values in that area, and who, while a watchdog insuring the soundness of all loans, also personified the spirit of the act creating the Home Owners' Loan Corporation. I point with great pride to the record of this corporation in my district, the hundreds of homes saved, the many thousands of dollars spent in repairs, payment of back taxes and paving assessments, the restoration of the morale of home owners, and the liquefying of assets for the mortgage holders.

Another new Federal agency affecting our home owners is the Federal Housing Administration, which through May 31, 1936, insured 1,176 modernization notes in my district, totaling nearly a half million dollars, and accepted for insurance through April 30, 1936, 62 mortgages totaling over $200,000.

The President's program has benefited our agricultural population more than has any previous attempt to do so in our history. There is no question in my mind but that our farmers are the very backbone of our Nation, but heretofore they have been accorded but little real recognition. True, there have been promises galore, with only a small degree of fulfillment. In my district, through February 29, 1936, rental and benefit payments on cotton totaled $1,913,612, profits on cotton options totaled $447,478, payments under the corn-hog program totaled $17,235, or a grand total of $2,378,325.

Loans to farmers in my district through the Federal land bank from May 1, 1933, through December 31, 1935, numbered 164 and totaled $428,500; loans through the Land Bank Commissioner during the same period numbered 792 and totaled $773,750; loans through production credit associations from the date of organization through May 31, 1936, numbered 1,130 and totaled $475,743; and emergency crop loans from January 1, 1933, through September 30, 1935, numbered 7,918 and totaled $419,579; or a grand total of loans through the Farm Credit Administration numbering 10,004 and amounting to $2,097,572.

The Resettlement Administration has also been of great benefit in relieving distressing conditions in the rural sections of my district.

Another boon to farmers is the Rural Electrification program, under which there was recently authorized an investment of $65,000 in Clarke and Washington Counties in my district. There will be built 58.4 miles of electric distribution lines in previously unserved parts of these counties. These lines will take electric energy to 267 farm homes in that area.

Although the Tennessee Valley Authority does not directly affect my district, its program is of great benefit to my State and is, in my opinion, the beginning of a vast development, which will eventually build an industrial empire in the South.

The Public Works Administration has engaged in a program of sound and self-liquidating projects in my district, including waterworks and sewer systems, schools, and a huge cold-storage plant, totaling over $1,200,000 in Federal funds. On the approved list of P. W. A. projects in my district awaiting allocation of funds are self-liquidating projects totaling nearly $2,000,000.

The program of the Works Progress Administration has been well carried out in my district and scores of projects involving permanent improvements, such as community centers, schools, airports, armories, paved highways, oyster planting, and so forth, have already been completed and have given decent and honorable employment to many thousands of willing workers. Through June 17, 1936, 165 projects costing $2,017,487 were either completed or in operation. Prior to the organization of the Works Progress Administration, the Alabama Relief Administration expended over $5,000,000 in my district. The Civil Works Administration expended nearly $1,700,000.

The Social Security Board has just recently commenced to function and is one of the most meritorious of the President's agencies. The sums expended for aid to dependent children and old-age assistance in my district during February, March, and April of this year by the Board approximate $10,000. This amount is, of course, supplemented by the State of Alabama, and the total payments for the 3 months amount to nearly $25,000.

Another program which has meant so much to our youth who were striving for an education is the national youth program. This has functioned well in my district and has helped many young men and women since the date of its inception. Expenditures in my district to June 1, 1936, under this program, amounted to $32,469.

I have always been a firm believer of conservation of our natural resources, and in my district the Civilian Conservation Corps has accomplished more for our badly depleted forests than has been done in 50 years previous to its organization. Fire has been the nemesis of reforestation, and with the building of observation towers, fire lines, truck trails, telephone lines, and so forth, the control of fire has been simplified.

Our section is one of the greatest timber-producing areas in the United States, and if the C. C. C. program could be continued and extended, within a decade the cost of the program would be more than paid for. In addition to the benefits accruing to our forest resources, the C. C. C. has provided employment for hundreds of thousands of young men, many of whom would otherwise be roaming the highways of the Nation aimlessly, and possibly through necessity becoming entangled with the law on account of petty misdemeanors or possibly serious crimes. This program is building strong bodies for these boys, as it is building strong bodies for the trees in our forests. I had the satisfaction of helping in the fight to retain this program, which I consider one of the best presented by the administration.

There is another agency, the Federal Deposit Insurance Corporation, which, incidentally, is the result of the efforts of my esteemed colleague from Alabama, the chairman of the House Banking and Currency Committee, Hon. HENRY B. STEAGALL, which probably did more to reestablish the confidence of our people in our banking system than anything else. The loss of confidence in our banks by our citizens precipitated the critical condition which prevailed when our great President took the oath of office, and had it not been for his heroic and courageous and instant action in this crisis, it is difficult to even imagine the chaos which might have resulted. The F. D. I. C. cemented the confidence which gradually returned when our President took over the reins of Government.

I cannot review these various Federal agencies without mentioning the Reconstruction Finance Corporation, which, under the able chairmanship of Hon. Jesse Jones, and through its subsidiaries, has been of great assistance to banks, business, and industry. Only recently a loan of $30,000 was granted to an industry in my district which will mean the employment of scores of men and the development of one of our natural resources. The loan is absolutely sound and was made only after a most thorough investigation. The Commodity Credit Corporation helped the naval stores industry and cotton farmers in my district last year by holding the price of these commodities at a level at which the producers could make a fair return on their investment, and I believe by orderly marketing of their stocks no loss will be sustained by the Government.

Several million dollars have just been poured into my district in the form of adjusted compensation certificate payments, and over a period of years veterans' compensation payments and insurance will total more millions. Our veterans have been assured a new Veterans' Administration Facility in Alabama, with sufficient space for 250 general medical and surgical beds and regional offices accommodations. The present facility at Tuscaloosa is to be converted to a neuro-psychiatric facility of approximately 350 beds. This program will eventually mean an expenditure in our State of $1,500,000. The welfare of our disabled veterans has been given prime consideration by our President.

The deficiency bill just approved by both Houses carries an amendment to the Soil Conservation and Domestic Allotment Act which will assure to the naval stores farmers benefits proportionate to those received by producers of cotton, tobacco, and other farm crops. There are millions of pine trees being farmed in my district. This industry gives employment to many thousands of workers. The provisions of this amendment will directly affect a large percentage of my constituency.

There are many other ways in which this administration has helped my district, such as through large expenditures on river and harbor improvements, inland waterways, and so forth.

Alabama has every reason to be proud of our great Democratic President. He has cooperated wholeheartedly with our Governor, our two Senators, and my fellow Representatives from Alabama in promoting Alabama's best interests. Alabama is proud—and, yes, grateful—for the elevation of one of her native sons, and one of her greatest statesmen, to the Speakership of this great House, and our President is assured the sympathetic understanding of this great Alabamian in continuing his humanitarian program.

Alabama will cast her 22 votes for Franklin D. Roosevelt at the Democratic national convention next week and will give him one of the most sweeping votes of confidence at the polls in November that has ever been accorded a Presidential candidate.

HOW CAN WE EMPLOY THE UNEMPLOYED?

Mr. BURDICK. Mr. Speaker, the number of unemployed is increasing daily in spite of the appropriations we have made for the purpose of creating employment. The number today of those out of employment who want and cannot get employment is 12,840,000, the highest in the Nation's history. I may add another startling fact in this connection, and that is if we pursue the policy of the present administration or return to the policy incorporated in the Republican platform recently adopted at Cleveland this number will increase instead of diminish.

In order to know what to do about putting these people back to work, we should make some inquiry into the source from whence they have come. What did this vast army of people do in the past when they had work? Why are they not working at their regular trade or occupation now?

To begin with, the average number of unemployed people in this country for the last 25 years have been approximately 1,500,000. In what may be said to be normal times we have about that number always unemployed. We can, therefore, properly deduct this number from the 12,840,000. This deduction leaves 11,340,000 out of work in excess of the normal amount.

The Republican platform asserts that if industry is freed from unnecessary Government restrictions that the unemployed would find work.

In other words, they rely upon industry to solve the unemployment situation. We may, in this argument, assume that industry is freed from every restriction that retards its business. What would happen? Would there be jobs for the 11,340,000 jobless? Not at all. If private industry were thriving as it did in the balmy business days of 1929, no more than 2,000,000 people could possibly find employment. In fixing this number at 2,000,000 we must also assume that industry now would use the same manpower as it did in 1929; and, of course, scientific invention has moved right along since 1929. It is, therefore, certain that industry, taken at its own word, cannot solve the unemployment situation, and it is sheer bunk to say that private industry can do the job.

Inventions are constantly displacing labor. Machines operated by 1 man can and do turn out the output formerly requiring 6 to 12 men. In many cases the displacement ratio is greater than this. It is impossible to stop invention and scientific improvement. We should not want to stop it. Labor-saving devices free the worker from slavish toil and, on the other hand, should produce goods more cheaply and make it easier for the people to purchase and consume them. But it is inexorable that many thousands of laborers, displaced annually by scientific inventions, must find some other employment.

Regardless of the depression, there is no question but what a good portion of the unemployed arrived where they are now because of the displacement of manpower by machinery. The first question now to be asked and answered in this connection is: Should we discard the machines and return to the days when manual labor did what the machines do today? No; that would not settle the question, because our great number of unemployed today did not come from the factories that displaced manpower by the installation of new machines. Some of them did come from that field, but probably not over 500,000 out of the 11,340,000.

Where did the others come from? Where will they have to go before they can make an independent living? The largest percentage of the unemployed are there today because they were either driven out of their farm homes by foreclosures and dispossessions, or were displaced by those who have been so foreclosed and dispossessed. Since 1920, 2,000,000 farm homes have been foreclosed and today 2,000,000 more are on their way to foreclosure. There is no Government agency as now set up that is able, under the rules adopted and the law enacted, to make loans to relieve those in distress. The inevitable result will be foreclosure. The farm people will be put out and when that is done they will have to drift toward the villages and cities. This adds more to the list of unemployed and there will be no end to this situation until the farm homes are saved.

There must be a plan of action devised that will save the remaining farm homes and make it possible for the idle millions to acquire a home on the soil. There are only two moves which can be made which will put the unemployed back to work:

First. We must pay the farmer and the laborer more money, and in order to do that we shall have to take this money from someone else who is getting too much. For illustration, let us take a dollar spent today for fabricated merchandise. Here is that dollar dissected:

You will notice that labor gets only 16 percent of the dollar; the farmer gets 12 percent; interest takes 33 percent; taxes, 20 percent; excessive profits, 9 percent; salaries, overhead, and so forth, 10 percent. It should also be remembered that the 20-percent taxes mentioned here is not the taxes of the laborer or farmer, but the taxes of business passed on to the consumer. The item of 33-percent interest stands in the same class—it is not the farmers interest or the laborers interest. If they have any such to pay, and surely the farmer has, they must pay that individual interest themselves.

Now, if we are to reestablish purchasing power and start the wheels of industry, we must give labor more than 16 percent and the farmer more than 12 percent of this dollar. Where shall we take it from in this diagram? It will be at once apparent that the item of interest, amounting to 33 percent of the whole, is the place to start first. Dissect this section and spread it over to labor and the farmer and the question of purchasing power would be on the road to adjustment. Take some out of the tax section and we would be almost normal. Take a little more out of excess-profits section and the whole job would be complete. When completed the wheel would look about as follows:

Labor, 43 percent; farmer, 30 percent; salaries and overhead, 25 percent; replacement, 2 percent.

Second. Permit the millions who want a home on the soil to get it under a Government plan of finance that shall insure them a chance to gain a home with honest labor, and in the meantime permit them to sustain themselves without being forced on a Government dole.

I know of no other way by which we can ever expect to put the many unemployed millions back to self-sustaining positions. The longer we delay this program the more the number of the unemployed will be increased. To rely on industry to do this job, even though every restraint imposed by law were removed, is to overlook all facts so obviously before us.

RECIPROCAL-TRADE AGREEMENTS

Mr. WOODRUFF. Mr. Speaker, recently the America's Wage Earner's Protective Conference, an organization composed entirely of representatives of American union labor organizations, through its president, Matthew Woll, called attention to the following philosophy set forth by President Roosevelt in his New York speech:

> Higher wages for workers, more income for farmers, means more goods produced, more and better food eaten, fewer unemployed, and lower taxes. That is my economic philosophy, and, incidentally, my political philosophy as well. I believe from the bottom of my heart that it is the philosophy of the 1936 America.

After calling attention to the rapidly increasing imports of both industrial and agricultural products, Mr. Woll stated:

> America's workers cannot secure employment, let alone secure higher wages, when products comparable to what they produce, produced in foreign countries, are delivered into American markets at delivered prices which are less than American costs of production of comparable goods.
>
> America's farmers cannot secure higher prices for their products when products of foreign nations are delivered into American markets at prices which are less than our costs of production, which prices of foreign products govern the prices our American farmers must accept for their products.

Mr. Woll called attention to a typical example of the difficulties which American industries face at the present time from industrial imports from foreign countries. He called attention to a report of the Tariff Commission which stated that some 30 percent of all chinaware yearly purchased in the United States is made in Japan, where the workers receive less than $4 per week for 60 hours of labor; that in the production of pottery at least 50 percent of the wholesale selling price represents what is paid to the workers; and that American workers receive an average of $18.50 per week of 40 hours. It must be perfectly apparent that American potters cannot hope to secure more wages or shorter hours as long as the Japanese continue to land their wares in this country at a price which will absolutely control the American market.

Another typical example to which Mr. Woll referred was the one presented by imports of butter from the distant shores of New Zealand, and the effect these imports had on the American market.

In January 1935, 92-score butter at Chicago was 34.17 cents per pound. Danish butter in London the same month was 20.26 cents per pound. New Zealand butter in London the same month was 17.77 cents per pound. These quotations, with slight variations, are indicative of the butter situation throughout the entire year of 1935.

In New York City, 92-score butter in December 1935 was 34 cents per pound. When considering these quotations, it must not be forgotten that freight rates from Western Europe, New Zealand, or Japan to the New York consuming area are from one-fifth to one-half the costs of transporting comparable American goods by American railroads to these same coastal cities. The result is that thousands of American railroad workers suffer the loss of employment, and American industrial workers and American farmers surrender, in part at least, our consuming markets to the more advantageously situated and lower-wage-paying foreign producers.

Mr. Woll requested that the revenue bill now before the Senate be amended by inserting the following amendment:

The Secretary of the Treasury is hereby authorized and directed to collect an excise tax on the entry into the United States on all goods, articles, or commodities, which goods, articles, or commodities are dutiable under the Tariff Act of 1930, or upon which an excise tax was imposed. The tax herein assessed and levied shall represent the difference, less 8 percent, allowed for profits and handling charges, between landed costs of foreign goods, articles, and commodities and the American wholesale selling price or cost of production, whichever is higher, of similar or competitive goods, articles, or commodities the products of American workers or farmers. Such tax shall be assessed and collected notwithstanding any other provision of law.

This amendment was not written into the law, but had it been it would, of course, have given the domestic producer at least a fair chance in the markets of our seaboard consuming centers.

One can understand the importance of this question when he knows that under the reciprocal trade agreement treaties we are constantly lowering our tariff wall, instead of increasing it. Certainly the objectives of the President, as expressed by him in New York, can be reached only if and when he or the next administration does a complete right about face and gives to the American farmer and American worker their fundamental rights to the American market.

It must be apparent that if the present policy continues the results, instead of being what the President is seeking, will be: Lower wages for workers, less income for farmers, less and poorer food eaten, fewer employed, and higher taxes.

The Presidential objectives are admirable, but he cannot reach those objectives and continue the road he now travels. It would seem that the present condition of American agriculture and the 12,184,000 unemployed American citizens walking the streets looking for jobs would cause the gentleman in the White House to stop, look, and listen.

THE CASE OF CONGRESSMAN HOEPPEL, OF CALIFORNIA, IN THE DISTRICT OF COLUMBIA COURT WARRANTS THE PASSAGE OF MY BILL, H. R. 9970, IN THE INTEREST OF JUSTICE

Mr. MORITZ. Mr. Speaker, I recently introduced a bill to remove criminal proceedings against Congressmen from the District of Columbia to some other Federal court, when so requested by the defendant, where the offense charged is of a serious or criminal nature.

It is generally recognized that there is a distinct prejudice in the courts, among the police and the population generally here in Washington, against Members of Congress, which prejudice would not operate against an accused Member of Congress in the event he were permitted a change of venue from the District of Columbia to some other jurisdiction, as might be authorized in the event he were accused of crime in any State.

It is only natural, in a sense, that prejudice should exist here against national legislators because they do not always respond to the demands made for more pay and other emoluments for the residents of the District, of whom over a hundred thousand are on the Federal pay roll. Practically everyone here in Washington wants more salary or fees, and their claims are constantly being brought before Congress, where they are generally turned down.

As higher salaries and other considerations never come fast enough to satisfy them, the blame for all their troubles is usually laid on the independent Members of Congress who oppose such inroads on the Treasury. They thank the administration which appoints them and condemn the Congressmen who fix their pay or limit their prerogatives. In this connection, it might be said that the officials here draw more pay than the average individual in the Nation. It so happens that the people in the District of Columbia cannot vote against the Congressmen, so if they can stigmatize a Congressman, by fair or foul means, they are usually quick to grasp the opportunity. In such an atmosphere of resentment and animosity toward congressional legislators, the difficulty of securing for a Member of Congress an impartial jury trial must be obvious.

I have introduced H. R. 9970, in order to give Members of Congress a fair trial away from this unfair and unfriendly atmosphere. In most States, if a defendant is brought to trial where the judge or jury, or both, are against him, or where the public sentiment is overwhelmingly against him for some reason, he moves for a change of venue to a new court where neither judge nor jury will be prejudiced to him because of local sentiment. That is all this bill, which I have introduced, seeks to provide, viz, a chance for a Congressman to get a change of venue to a place where the air is not surcharged against him.

Another point which I consider of great importance is that public officials in Washington get their appointments directly or indirectly from the administration; and too often the administration uses its forces to convict an independent Congressman when it wishes to run the steam roller over him. It may be well to mention here that the Huey Long supporters who were indicted while Huey Long was fighting the administration now find the indictments quashed since the Long machine has made peace with the administration.

In the case of Congressman JOHN H. HOEPPEL, of Arcadia, Calif., I am confident that could he have been tried in an ordinary court under ordinary circumstances and conditions the case would not have been considered for an hour by the prosecutor, and no jury would have convicted for the simple reason that there was not one sentence of conclusive evidence presented against the Congressman.

The facts in the case appear to be that Congressman HOEPPEL is not a "rubber stamp" or a "yes man"—that he votes in the interest of his constituents, and not as the big bosses tell him to vote. The Congressman was warned by "Big Boy" Farley to travel with the administration and not oppose it. The Congressman would not accept Farley's advice, and, apparently for this reason, Mr. Farley decided

he should be punished. As a result his patronage was taken away from him and given to the junior Senator from California. The Congressman remained true to his convictions and voted as his good judgment dictated.

Briefly, what are the high points in the case against Congressman HOEPPEL? The Congressman had nominated his son to West Point. The young man failed the examination. Two high Army officers, whom the Congressman knew when he was in the Army service, recommended a young athlete, James W. Ives, of Baltimore, Md., to the Congressman. Congressman HOEPPEL nominated their choice—this young athlete—to West Point. Ives had never seen the Congressman up until the time he resigned, which was 5 days after the Congressman had nominated him, although he could have seen him any day by getting on the bus and coming to Washington at a cost of only 50 cents. It must be remembered that Ives wanted to go to West Point, but after he had the nomination he suddenly did not want to go and resigned the nomination.

Ives claims that just before the appointment was made Charles Hoeppel, son of Congressman HOEPPEL, using the name of "Charles Alexander", approached him and offered to see that Ives secured the appointment for $1,000.

Ives claimed he gave a note for $1,000 payable to "Charles Alexander", but no note nor any evidence to corroborate Ives' statement was presented, nor did Ives himself claim to have referred in any way to such a note in his only conversation with Congressman HOEPPEL which took place 5 days after he was nominated. At that time, he stated, according to Congressman HOEPPEL, that he wished to resign for personal and other reasons, which explanation the Congressman accepted in good faith, and Ives himself subscribed to in his written resignation. Moreover, shortly thereafter, Ives married, which made him definitely ineligible for West Point inasmuch as married men cannot be admitted to the academy.

The only "evidence" even tending to implicate the Congressman was the contradictory, uncorroborated testimony of Ives, which was impeached by the testimony of Congressman HOEPPEL, his older son—not in any way involved in the case—who was present at the time Ives resigned, and two of the Government's own witnesses. To me it is an alarming indictment of justice that a jury, and court officials appointed by this administration, should accept 100 percent the uncorroborated, contradictory testimony of a confessed conspirator—if there was a conspiracy—and reject the corroborated, positive testimony of Congressman HOEPPEL and that of two of the Government's own witnesses. It is my belief that no jury outside of the District of Columbia would have convicted the Congressman. As an experienced member of the bar, I am astounded at the ease with which convictions are obtained in Washington, D. C., especially when the individual is one of national prominence, and, as in this case, where he was publicly known as an independent representative who could not and would not be coerced by the administration.

If the athlete Ives had sworn he gave Congressman HOEPPEL $1,000 in cash, his story would appear more plausible; but that his story that he gave a nonnegotiable note, payable to a fictitious name, should have been unquestionably accepted, shows, in my opinion, a determination to convict at all costs. No intelligent person would accept a note, such as was alleged to have been given Congressman HOEPPEL'S son, and certainly a criminal would have demanded cash. Yet the G-men, the prosecutor, the jury, and judges accepted the story of the note. Had I been on the Hoeppel jury and thought Congressman HOEPPEL had accepted that note, I would not have thought him a criminal but an idiot, for no sane man would take a bribe in the form of a fictitious note. Of course the Supreme Court of the United States will reverse the decision of the lower courts.

Fighting Congressman HOEPPEL could be convicted of making the first speech on the floor of the House for the Townsend old-age-pension plan; of voting against most of the unconstitutional bills urged by the administration; of opposing the enactment of the officers' promotion bill, sponsored by the War Department, which permits able-bodied Army officers to retire at 37 years of age at $150, and more, per month; of voting uncompromisingly in the interest of the veterans, enlisted men, and Government workers; of championing the interest of the poor people at all times; of opposing gag rule; and chumming with the progressives of the House.

In the face of organized administration opposition, Congressman HOEPPEL supported the Frazier-Lemke bill to lend money to farmers, and also the Sadowski bill to lend money to all real-estate owners at cost of money. That would mean that farmers, workers, and merchants would be placed on the same basis as the Federal Reserve bank—it borrows $1,000 from the United States Government for 30 red cents, the cost of the bills.

Congressman HOEPPEL believes the great masses of common people in this Nation are as good as the banks and votes accordingly. As a result, the "Big Boys" are persecuting him. The people of the Twelfth Congressional District of California should rally to such a champion as Congressman JOHN HENRY HOEPPEL and give him a bigger vote of confidence than ever before. In my opinion, common justice will acquit him in the eyes of all intelligent, fair-minded persons, and it is common justice only, denied in the District of Columbia, in this case, that I am seeking to insure in the future for Members of Congress through the enactment of my bill, H. R. 9970.

THE VITAL ISSUES OF 1936

Mr. MARCANTONIO. Mr. Speaker, Congress is about to enact the last scene of the last act. It is only proper, therefore, that we pause and take inventory. The question which the American people will ask themselves is, Just what has Congress done to solve the most vital problems facing our Nation?

Many theories are advanced as to just what these problems are. No matter what is said and done, no matter how powerful the smoke screen of political propaganda may become from now until election day, no matter how spell-binding the political oratory may be, the most important issue before the people is to put the unemployed back to work at a living wage. Despite the fact that financial and industrial recovery has practically reached the status of 1928, we still have the problem of unemployment. In the past, with the end of the financial and industrial crisis, we had few unemployed left during the period of so-called recovery. Today the residue of unemployed is so large that despite the so-called recovery, the unemployed remain our most important problem. Despite the importance of this problem no step has been taken by Congress toward its solution. The only proposal has been killed in committee.

In the meantime, until this problem is solved, the most important immediate issue before the American people is that of caring for the unemployed. The welfare of the American people depends on the standard of living of the unemployed. Lower that standard of living and we imperil the welfare of the entire Nation. Contrary to the false optimism emanating from the Department of Labor and other governmental statistical bureaus, we still have 12,626,000 unemployed. This figure is conservative. It was compiled by the conservative leadership of the American Federation of Labor and released by it on March 2, 1936. It also stated that the month of January 1936 showed an increase in unemployment of 1,324,000—the largest since 1931. Its comment was, "To lose ground to such an extent at this time is nothing short of tragic." Therefore, the "recovery is here" ideology upon which the appropriations of only $1,425,000,000 for unemployment relief is based is unrealistic. The dismissal of 700,000 workers from W. P. A. is based on the same artificial and wishful premise. The money-saving, cruel, chiseling devices employed by the local relief bureaus, such as in New York City, at the expense of its staff and clients, is in accord with

this false policy. The New Deal relief program today is not much different from that of Herbert Hoover in 1930. Mr. Hoover attempted to solve the problem by waiting for lady prosperity to come from around the corner. The New Deal is trying it by proclaiming loudly and smilingly that she had kept her date and is now promenading with the president of the chamber of commerce along Main Street.

Mr. Hoover then contended that very little should be expended for unemployment relief. The New Deal is rapidly approaching the same position. The New Deal on December 1 discontinued contributions for direct relief and relegated unemployables to local charity, which is admittedly grossly inadequate. While it professes its desire to care for the employable unemployed, it nevertheless now refuses to continue to provide for the 700,000 of them who will have been discharged by the end of this month—42,000 of them from New York City alone—and many more after June 30, 1936. It has also refused to provide for those who have become in need of W. P. A. employment since November 1, 1935. Those who will remain on W. P. A. will continue to be recipients of an un-American security wage. So that despite the fact that an appropriation of $4,800,000,000 was found to be entirely inadequate to cope with the problem of caring for 12,000,000 unemployed during the fiscal year of 1935–36, we have now appropriated only $1,425,000,000 to deal with the same number of unemployed for the fiscal year of 1936–37.

What is to become of the 700,000 W. P. A. workers who will have been discharged by June 30? The argument is advanced by the "prosperity is here" spokesmen that it is assumed that private industry will absorb a large number of these unemployed. Whether or not private industry will absorb these remains to be seen. Whether or not the problem is as simple as that also remains to be seen. Technological displacements and other economic factors cannot be left unconsidered if we want to solve this problem. In the event that private industry does absorb a large number of these W. P. A. workers who will have been discharged by the end of June 30, these workers will be employed at substandard wages. We are forcing them to choose between starvation budgets from relief bureaus or work at substandard wages. The inevitable choice, forced especially by the cooperation of the local relief bureaus with exploiting employers, will be the acceptance of work at starvation wages. Once we force employment at substandard or starvation wages we will have destroyed the much-vaunted American wage structure. Tear down the American wage structure and we increase instead of decrease the number of unemployed.

So that, despite the obvious and urgent necessity for adequate relief appropriations sufficient to guarantee unemployables on relief life in health and decency, and unemployed on W. P. A. a living wage, the Congress of the United States has retreated and has cut down appropriations to such an extent that it has become necessary to discontinue Federal contributions for direct relief and to deprive over 700,000 W. P. A. workers of even the starvation pittance which they are receiving as wages on W. P. A. projects. The sum appropriated by the Congress of the United States of $1,425,000,000 is, as a matter of fact, $75,000,000 less than the sum recommended by the reactionary National Economy League. The relief passed by the Seventy-fourth Congress in its second session constitutes a sweet victory for the Liberty League over the unemployed. The American Tories have cause to rejoice, since their views on relief, recommending cuts in relief appropriations, have now been adopted by the New Deal Congress. It seems to me that the New Deal Congress has been fighting the Liberty League by making faces at it and has been using only words. In deeds it has surrendered.

Hence, as for the unemployed the New Deal has substituted in place and stead of the Hoover fantastic myth of two chickens in every pot the stark reality of two wolves at every door. In the face of this appalling situation and drastic reductions in relief appropriations, we are confronted with 22,000,000 persons still dependent on public charity in some form or another. They are dependent either on starvation direct relief budgets or on starvation security W. P. A. wages. Congress has failed miserably to provide for these people.

I introduced a bill known as the Marcantonio Relief and Work Projects Standards Act. This bill contained the recommendations of the unemployed, social-welfare organizations, charity workers, and trade unions. It is based on the following six principles:

First, the unemployed are victims of an unjust economic and social system which has failed, and they are without work due to no fault of their own, and the general welfare of the American people depends on the welfare of the unemployed; second, therefore they should not be treated as objects of charity but as a matter of right should be given work at a living wage during their period of unemployment, and as a matter of right the unemployables should be furnished relief on the basis of a minimum necessary to maintain life in decency and health; third, the burden for accomplishing this should be borne by those who have profited from a system which creates unemployment; fourth, the unemployed are to participate in the administration of work and direct relief; fifth, something should be done toward a permanent solution, such as reopening and operating shutdown factories by and for the benefit of the unemployed; sixth, State and local funds are inadequate, and Congress therefore should make adequate appropriations.

Accordingly my relief bill provides for an appropriation of $6,000,000,000—$2,000,000,000 in grants to States for direct relief; $2,000,000,000 in grants to States for State and local work projects and for projects required for operation by States or municipalities of abandoned factories, mines, and other enterprises for the purpose of providing employment and producing goods for use—none of these funds are to be used for financing privately owned enterprises—$2,000,000,000 for the continuance of W. P. A. The $6,000,000,000 shall be expended for the fiscal year ending June 30, 1937.

The bill also provides for certain standards. The relief standards guarantee sufficient and nourishing food; decent housing; appropriate clothing as to season and comfort; medical and dental care; replacement and renewal of essential household goods; carrying charges on homes owned by relief clients, provided such charges are not in excess of rent allowance; the maintenance of relief clients' membership affiliations in his religious, fraternal, political, or social organization; necessary transportation and communication expenses. All those who do not receive an income from any source equal to the minimum standard established in his locality as necessary to maintain life in health and decency for himself and dependents would be eligible for relief. Those who receive an income less than such minimum would receive the difference. All payments are to be in cash. No such person shall be disqualified because of sex, race, color, creed, citizenship, residence requirements, political or labor affiliations, refusal to work at occupation for which he is not fitted, refusal to work because of a strike or lock-out, refusal to work at substandard conditions of hours and wages, or refusal to work where he is required to scab or join a company union.

It also provides for standards on work projects, such as prevailing wages, but in no case shall weekly compensation be less than the minimum necessary to maintain life in health and decency for the worker and his dependents, 30-hour week, collective bargaining, workmen's compensation, work at one's own trade and according to his skill, and no discrimination. Preference would be given to those projects which would be of a permanent and useful nature.

All persons unemployed and capable of work would be eligible for work on these projects.

The relief and work projects would be administered by a commission of 15—5 to be unemployed, appointed by the President from panels of names submitted by organizations of unemployed, 5 from panels of names submitted by social workers, and 5 from panels of names submitted by the Works Progress Administration.

No State would be given grants unless it had adopted relief and work-project standards and plans conforming with those set up in the bill. The commission would pass on the plans of

the various States before allocation of funds were made to them. The States, in addition, in order to qualify, must set up State and local boards giving the workers and relief clients one-third representation. The local committees shall fix minimum standards for the locality, and a dissatisfied worker or relief client may appeal to the local committees and may make a final appeal to the State committees.

The administering of the Federal work projects would be in the hands of regional and local committees giving the workers one-third representation. The local committees would fix minimum standards. Again, dissatisfied workers may appeal to the local committees and may make final appeal to the regional committee.

The usual question will now be asked, Where are we going to get the money? Many sources exist. Reduce to a minimum the more than a billion dollars appropriation made for war purposes. Apply the British tax rate on all individual and corporate incomes, inheritances, and gifts over $5,000 a year. This source will be more than ample.

While legislation such as this, which means life in health and decency for the unemployed, has been killed in various committees on the ground of economy, the Seventy-fourth Congress has not hesitated to appropriate over a billion dollars for war. While 700,000 W. P. A. workers will have received their discharge slips—the dreaded pink slips, as they call them—by the end of June this Congress will have appropriated over $1,000,000,000 for war purposes. Over a billion for death and inadequate funds for the unemployed. All under the guise of national defense! National defense, as I understand it, is the defense of our shores against invasion. I am not a fanatical pacifist; I believe in defending the United States. If the time should ever come I would not hesitate to do my share in fighting in defense of our homes. But why spend over a billion dollars when we cannot even identify the enemy that will invade the United States? Do we need over a billion dollars for defense against an invading foe? If we are not preparing against an invasion, what are we preparing for? Are we preparing for another imperialistic war? Are we preparing, perhaps, for another war to end all wars and for another war to make the world safe for democracy? Why are we appropriating over a billion dollars for destruction? Whom are we going to fight? Where is the enemy? Can anyone mention the enemy? I have repeatedly from the well of the House challenged Members to reveal to us the name of the enemy, and no one as yet has even given us an inkling as to his identity.

We are preparing for war, and when we prepare for war we will have war and not peace. We are preparing for a war not in defense of our homes but an imperialist war, a war to insure financial and imperialistic interests. The American people want peace; they do not want to send overseas the flower of American manhood to guarantee and insure financial and imperialistic interests of various groups in the United States. The American people do not want to see the forgotten man buried under the keels of battleships.

Thus we see that while a tidal wave of militarism has swept over the Congress of the United States, while it has indulged in an orgy of steel-helmeted extravaganza, insane expenditures for death, a cavalcade of madness, billions sacrificed on the altar of war, the unemployed have been relegated by the same Congress to the rugged individualism of starvation and misery.

The second most important issue before the American people is: Is industrial and agricultural democracy constitutional? The Supreme Court of the United States has declared industrial and agricultural democracy unconstitutional. In the decision of the N. R. A. and on the Guffey Coal Act the Supreme Court has decreed that the regulation of wages and hours, the relationship between employer and employee, are purely local matters, and that the representatives of the people in Congress have no right to regulate industry for the general welfare of our people.

In the A. A. A. decision the Supreme Court of the United States decreed that agriculture was likewise a local problem and that the representatives of the American people assembled in Congress could not so regulate agriculture for the general welfare of the people. While the Supreme Court in the N. R. A. and Guffey cases held that hours and wages were local problems, in the minimum-wage law case the other day it held that the States, in dealing with these problems locally, had no power to regulate hours and wages. It declared the exploiter of women and children immune from any legislation. It canonized the exploiter of labor and draped around him the Constitution of the United States. Was it ever intended by the founding fathers that the Constitution of the United States was to be used as a protective cloak for those who would exploit women and children in industry? The Supreme Court of the United States has interpreted the Constitution contrary to the spirit of those who wrote it. It has violated the letter and the spirit of that document.

In the words of Abraham Lincoln in discussing another infamous decision of the Supreme Court of the United States—the Dred Scott decision—which was wiped out only by bloody civil war—

> The Supreme Court has got the doctrine of popular sovereignty down as thin as homeopathic soup that was made by boiling the shadow of a pigeon that had starved to death.

The Supreme Court has interpreted the Constitution of the United States in terms of an ox-cart economy of 1787, and has closed its majestic portals to the light of the present-day airplane age of machine and mass production.

What has the Congress of the United States done to deal with this problem? Amendments have been offered, suggestions have been made, but the leadership of the Seventy-fourth Congress has killed in committee every single proposal that dealt with the Supreme Court or with the Constitution of the United States. It is obvious to every person who is in the slightest degree realistic that industry and agriculture are today national in character and therefore must be dealt with on a national scale and by the national Government. It therefore has become necessary to amend the Constitution to give the representatives of the American people assembled in Congress this power.

However, an amendment to the Constitution requires two-thirds of both Houses and ratification by 36 States. When we consider that the problems are immediate, and that the amending of the Constitution would take too long, and when we also bear in mind that there has never been an amendment to the Constitution affecting property rights except after a violent struggle, all other amendments having been amendments only as to form, and when we consider the lagging progress of the child-labor amendment, then it becomes necessary to find a more immediate and speedier remedy.

Nowhere in the Constitution of the United States do we find any authority vested in the Supreme Court to declare null and void the enactments of the representatives of the American people assembled in Congress. The proceedings of the Constitutional Convention record that on two separate and distinct occasions the founding fathers voted down resolutions giving the Supreme Court the power to veto laws enacted by Congress. For 50 years, from the decision of *Marbury* v. *Madison* to the Dred Scott decision, the Supreme Court never dared declare a law passed by Congress unconstitutional. The reason is apparent to all, for during those 50 years there still lived in our country those same patriots who made the American Revolution possible and who were fully acquainted with the meaning and intent of the Constitution of the United States.

Thomas Jefferson said, with reference to the Supreme Court:

> It has long been my opinion that the germ of dissolution of our Federal Government is in the Federal judiciary—an irresponsible body working like gravity by night and by day, gaining a little today and a little tomorrow, and advancing its noiseless step, like a thief over the field of jurisdiction.

Then again Jefferson said, with reference to the Supreme Court:

> The great object of my fear is the Federal judiciary. That body, like gravity, ever acting, with noiseless foot and unalarming advance, gaining ground step by step, and holding what it gains, is engulfing insidiously the special governments into the jaws of that which feeds them.

How prophetic were these words of Jefferson! We can certainly see how much territory the Supreme Court has usurped from the days of Jefferson to the minimum-wage law decision. But Jefferson defined the powers of the Court. He said:

> It is a very dangerous doctrine to consider the judges as the ultimate arbiters of all constitutional questions. It is one which would place us under the despotism of an oligarchy * * *.

And again he said:

> The Constitution has erected no such single tribunal, knowing that to whatever hands confided, with the corruptions of time and party, its members would become despots. It has more wisely made all the departments coequal and cosovereign within themselves.

A group in Congress today adheres to the same views outlined by Jefferson. Rather than wait for a constitutional amendment and a catastrophe which may take place before the adoption of such an amendment, we believe that by simple legislation the power of the Court should be curbed. We can legislate to the effect that the Supreme Court and all of the other inferior courts shall have no power to pass on any question involving the constitutionality of any law. The American people must defy the Supreme Court through their Representatives in Congress. This defiance can take place in the form of legislation depriving the Court of its tyrannical power.

While the Seventy-fourth Congress has done nothing on this issue, I am confident the people of the United States will make themselves heard on this issue this year. We must restore the Government of the United States back to the American people. Government by the judiciary cannot be permitted to replace government by the people. Industrial and agricultural democracy must be made constitutional. The basic democratic principles of our Nation must be preserved against the onslaughts of the reactionaries in Congress and out of Congress. Our basic democratic institutions must be saved from the Supreme Court of the United States, the last bulwark of reaction in America, by the American people themselves.

THE CHILD-LABOR AMENDMENT

Mr. HILDEBRANDT. Mr. Speaker, for a hundred years we have been trying to abolish child labor. The child-labor amendment—endorsed by the finest and most sincere champions of humanitarian legislation from Mrs. Roosevelt down—has been assailed by those who want to perpetuate exploitation of the young and the helpless. It has been defended by the noblest and the best of our citizenship, regardless of party lines.

Our President declared:

> One of the accomplishments under the National Recovery Act which has given me the greatest gratification is the outlawing of child labor. It shows how simple a long-desired reform, which no individual or State could accomplish alone, may be brought about when people work together. It is my desire that the advances attained through the National Recovery Act be made permanent. In the child-labor field the obvious method of maintaining the present gains is through ratification of the child-labor amendment. I hope this may be achieved.

I heard an illuminating address by the able attorney, Arthur Garfield Hays, over broadcasting station WEVD, in which, discussing this child-labor amendment, he said:

> At the beginnings of the factory system we heard of the God-given right even of babies to work. We heard of the God-given right of parents to use their children to add to the family income. Yet everyone knows that this God-given right is a curse of poverty. It is wrong to designate a necessity as a right. Sometimes the right of the child to work is a correlative of the right of the adult to starve.

Without going into the intricate legalism that generally accompanies objections to humane and decent laws, I want to call the attention of my colleagues to the fact that more and more the combat over new statutes resolves itself into a question as to whether these statutes would benefit the average man and woman or not. If the ordinary person would benefit, the letters and telegrams in commendation usually come from farmers, workers, and small businessmen who are on the edge of bankruptcy. If the legislation is of profit to the exploiting class, plenty of communications, typed on expensive bond paper and handsomely gotten up, reach the Members of the National Legislature. I have received thousands of communications of this character. I have always tried to answer them and to extend the proper courtesy to those who wrote me, regardless of their motives or their status in life. But I have never been deceived as to their background, interests, and motives.

Repeatedly I have emphasized that the Democratic Party, if it is to adhere to the principles of Thomas Jefferson and Andrew Jackson, must stand for a government maintained in the interest of those who produce. Such a government means real democracy. A party consecrated to that philosophy is a party of real democracy. If our party is to sell itself to beneficiaries of privilege, it should discard its name and call itself a party of Hamiltonian federalism of Bourbon Toryism—of Wall Street capitalism—and waste no more time in petty protestations about its progressive tendencies.

I appeal to believers in fundamental democracy to stand solidly together.

THE REAL "FORGOTTEN MAN"—THE FARMER

Mr. HILDEBRANDT. Mr. Speaker, in many respects the farmer has been the real "forgotten man"—was in that classification until the present administration came into power. Even yet there is much "remembering" that must be done for his benefit.

Workers in mills and mines have been organized to greater or lesser degree for years. While they have had bitter struggles and cruel persecution, they have gone slowly but steadily ahead. It has been very recently that the farmer has organized to an extent sufficient to be able to demand and obtain better prices for produce and fairer treatment generally.

Since the advent of the Roosevelt administration to power, an effort has been made to use the authority of Government to protect the farmer to some degree from exploitation. It is the first time in American history that this has been tried. From the days of Alexander Hamilton down to our own, we have had drummed in our ears the pleasant fiction that a high protective tariff to protect "infant industries"—and grown-up industries in particular—was essential to the preservation of the Republic. Nothing was said about a protective arrangement for the farmers. The assumption was that if we gave the plutocrats enough surplus money some of this unearned sum might drip down into the pockets of the farmers and workers. It was a doctrine of taking care of the top of the pyramid, in the naive belief that the base would then take care of itself. To our credit, let it be understood that we have graduated from the realm of such childish logic.

The A. A. A., faulty as it was, was an attempt to control production for the benefit of the agricultural class. It is common talk in Washington that the Supreme Court, when it declared the A. A. A. unconstitutional, did so, not because of what the A. A. A. had done so far, but because of the fear that when once the Government started to exercise its powers in behalf of the workers of farm and factory it would go further and really imperil the unearned profits of the capitalist class.

The A. A. A., whether you like it 100 percent or dislike it 100 percent or partly like and partly dislike it, was an effort to make agricultural production scientific and to gage it intelligently enough so that the man who tills the soil might not continually be on the edge of starvation.

M. L. Wilson, Assistant Secretary of Agriculture, well said in his address at the Northwest School of Agriculture, Crookston, Minn:

> Whatever you or I may think of the strength or the weakness of these programs, we can agree on two things: First, that this was the greatest cooperative movement of farmers in any country in all history; and, second, that since it was the first program of its kind, both the farmers and the administrators had to begin from scratch without experience. And since we learn largely by experience, both by successes and mistakes, in developing new programs, we should now look carefully and with unprejudiced eyes into this remarkable experience which American farmers have just gone through.

The fairness and reasonableness of Mr. Wilson's comment must appeal to all. The need for regulation of agricultural production, along with industrial production, is self-evident.

Details must be worked out in this as in any other area of official action, but the need for the regulation is none the less.

A complicated civilization requires traffic lights, safety zones, and many rules for traveling. Are not food and clothing as important as automobiling? Do we not need scientific direction dealing with them as fully as we need it with respect to flivvers and trucks and limousines? I say "Yes."

FARM WAREHOUSING—LOANS ON CORN

Mr. GILCHRIST. Mr. Speaker, the Commodity Credit Corporation is a Government-owned institution. It was created in 1933 for the purpose of making loans upon farm commodities and is a new agency. It has been helpful to farmers, and I am glad of the fact that I am one of those who have supported and encouraged it.

Under the 1933–34 loan plan it disbursed almost $100,000,000 in loans on cotton on a basis of from 8 cents to 10 cents per pound. It loaned almost $283,000,000 upon the 1934–35 cotton crop on the basis of 11 cents and 12 cents per pound. The 1935–36 cotton crop is on a basis of 9 cents and 10 cents per pound. I am very glad that the farmers in the South have been able to obtain these commodity loans.

But I am more particularly interested in corn loans, because it is the staple crop of my State of Iowa. But I have another and personal reason for being interested in farm warehousing, because I was coauthor of the first farm warehousing act ever enacted in the United States, and I have been proud as I learned of the benefits which have flowed from this law. This Iowa Agricultural Warehouse Act was passed in 1923 when I was a member of the State senate, and I helped to prepare it and watched over its enactment more than 16 years ago. It is entitled "An act to provide for storage of grain in State licensed warehouses and under State supervision, and the issuance of storage certificates therefor, and providing for penalties thereunder."

This measure attracted attention at the time of its passage and its salient features were soon copied by many of the other States of this Union, so that it is now generally accepted in many places as a part of the law of the land.

The Iowa act was based upon simple and well-known business practices. It was designed to remedy a prevalent evil by which farmers were forced to dispose of their products immediately after harvest and at a time when the gamblers in the great city grain markets and exchanges were able to manipulate the market and to force down prices just when the farmer needed to sell. Because of the farmer's financial condition and because he was not on economic equality with other industries he was oftentimes required to dump his grain into and upon an already glutted market. We thought the evil could be remedied if the farmer could be financed and allowed to carry his produce over longer periods of time and not throw it at once after harvest into the elevators and warehouses. We believed that the State could supervise the storing of grain upon the farms themselves, that storage certificates could be issued under proper and safe supervision, and that these certificates could float in the market as collateral the same as other securities do, and that the producer himself was more worthy of the profit from rising markets than speculators and money changers.

For 10 years before the present Democratic administration came into power the Iowa law had proved and justified itself, and when Secretary Wallace came to Washington to enter the President's Cabinet in 1933, he brought with him an intimate acquaintance with the workings of the Iowa farm warehousing law. So, then, in October 1933 the Commodity Credit Corporation was formed, and the original capital of $3,000,000 was made available by law. Additional capital of $97,000,000 has been provided by an act which was passed in April 1936 by the Seventy-fourth Congress. Up to this time loans have been made only upon cotton, corn, gum turpentine, and gum rosin. Under the form of the note and the agreement the producer is not personally liable for any deficiency arising from the sale of the collateral if he has made no misstatements or misrepresentations and has complied with the terms of the loan.

As I have stated, the provisions of this law were very useful to farmers before the coming in of the present administration. But since October 1933 the Commodity Credit Corporation has extended and multiplied the benefit and uses of farm warehousing. All there is to it is that the commodity must be stored in safe and sound bins or cribs or warehouses; that these must be locked and sealed; that proper inspection be made as to the grade and quality of the commodity; and then certificates are issued and loans are made upon these certificates which are valid collateral for most purposes.

The very first corn loan ever made by the United States, and I think the very first use of the act itself, was made in my own home county. This was in the fall of 1933. Blank contracts and forms had been prepared and were flown from the Department in Washington to Iowa, and a farmer in my own county and near my own home was the first man in the world to make a loan under the Warehousing Act as it was put into force by the Commodity Credit Corporation.

These corn loans have proved of enormous value to farmers. Loans of 45 cents per bushel were made upon the 1933 corn crop, commencing in November 1933. As disbursed by the Commodity Credit Corporation, they covered 267,758,222 bushels of corn and aggregated $120,491,265.41. Every dollar of them has been repaid, although the amount of the loans per bushel at the time they were made exceeded the normal price. The producer has been helped, and the Government has not suffered a single cent of loss.

In addition to this, it is estimated that loans made by banks and other lending agencies and repaid directly to such lending agencies covered about 3,000,000 bushels of corn and aggregated $1,350,000. Farmers were enabled to carry their corn to realize benefits from advancing prices and at the same time to hold their product on the farms under seal and have it there ready in the ear for feeding requirements, if desired, whenever the loan was paid.

Under the 1934–35 corn-loan program, the amount of the loan was advanced to 55 cents per bushel on all 1933 and 1934 corn stored on the farm in accordance with State warehouse requirements. These loans as disbursed by the Commodity Credit Corporation covered 7,845,728 bushels of corn, aggregating $4,313,743.15. These also, and every cent of them, have been paid in full. If loans made by banks and other lending agencies are included, the total loans to corn producers under the 1934 corn program aggregated $11,042,392.08. Not a cent has been lost under the plan.

The 1935 corn-loan program was put on a basis of 45 cents per bushel. These loans mature on July 1, 1936, and have been called and will undoubtedly all be paid in full without loss to the Government. It is estimated that these loans totaled $6,582,535.25, including those made by the Corporation and by banks and lending agencies.

Those who were responsible for the original Iowa Warehouse Act, under which this plan was first made available to the world, may well be proud of the benefits which the idea has conferred upon mankind. There have been some things in the Agricultural Administration that I have adversely criticized, but I have done it only in a constructive way and in a spirit of fairness, and I now want to confess that the Commodity Credit Corporation has benefited our farmers during dark days when they were yet under great handicap. Anything which will help to amend their condition should receive hearty endorsement of men in all professions, in all walks of life, and in all political parties.

Mr. Scott Bradford, late of Storm Lake and Des Moines, Iowa, the man who first suggested the idea of farm warehousing, has passed on into immortality. But the good that he did and the idea that he gave us will continue to benefit the farm communities through centuries yet to come, and I acknowledge my debt to his memory in being called upon with one or two others to reduce his contribution into statutory form; for it was he who gave the idea to the authors of the bill and asked them to put it into lawful form, and whatever they did regarding it is a source of satisfaction to them.

THE REVOLVING PENSION PLAN WILL SOLVE OUR ECONOMIC DEPRESSION

Mr. HOEPPEL. Mr. Speaker, as I am a candidate for reelection to Congress on the Democratic ticket, and as I was the first Member ever to speak in the Halls of Congress for the revolving-pension plan, I feel justified in presenting my views, not only to my own constituents but to the citizens at large, in order that they may be informed before casting their votes for our national legislators.

The CONGRESSIONAL RECORD will show that I spoke 45 minutes on January 30, 1935, on the Townsend plan, and that I was continually harassed by Members of Congress because I advocated this plan, which was then termed "fantastic." I spoke again on this subject on February 6, February 28, and frequently thereafter, and worked with a special Townsend committee of Congress which was organized to bring the McGroarty bill before the Congress for consideration and passage.

In my speech of January 30 I showed conclusively how this plan could be put into operation without one single cent of increased cost to the taxpayers, and I reaffirm my statements and hope those who are interested will consult the CONGRESSIONAL RECORD of January 30, 1935, in the libraries of their cities, to see for themselves the arguments I advanced in support of this plan.

Mr. Speaker, while I am a candidate for reelection, I am more interested in securing legislation which will bring about recovery than I am in my own candidacy. With this thought in mind—our own Democratic administration already being on record as violently opposed to the McGroarty bill—I proposed to leading Republicans that they incorporate in their Cleveland platform recognition of the right of the aged to a substantial old-age pension. The Republican Party, however, failed to make a direct commitment but merely generalized on this subject. Therefore the voters of America must, in order to obtain the enactment of this legislation, support only those for office who are pledged to work for the enactment of this legislation, regardless of political affiliation.

MEMBERS WHO HAVE SUPPORTED THE O. A. R. P. SHOULD BE REELECTED

Approximately 50 or more Members of Congress have shown their sympathy toward this legislation and their sincere desire to enact it into law. All of them, in my opinion, should be reelected—and certainly they deserve the steadfast loyalty of all Townsend members whose battle they have so stanchly and fearlessly fought. Unfortunately, however, it is found that in some places Townsend Clubs are supporting for Congress individuals who have nothing other than a promise to give them, while at the same time experienced Members, who have borne the brunt of the battle here in the Halls of Congress, have been ignored. I feel confident that Townsend Club members will realize that a Member of Congress who has made good, and who has demonstrated his sincerity by actually fighting for the plan in Congress, is more to be relied upon on a basis of his performance than is a candidate who has nothing but promises to offer.

We know the opposition which the administration directed against Members of Congress who have supported the Townsend plan in the past. Should the Members of Congress who opposed the administration on this subject, and who valiantly fought for this plan, now be sidetracked for voluble candidates who are now jumping on the Townsend band wagon, realizing that we are going on to victory? Napoleon, that great leader of men, honored the Old Guard and gave them just consideration and precedence over raw recruits. I feel confident that the Townsend Club members everywhere will do likewise and support for reelection those who have fought a good fight and who bear the scars of battle in their interests.

Townsend club members everywhere should bear in mind that western classic of the range entitled "Old Faithful", and they themselves should keep faith and return to Congress those who have carried the banner fearlessly in their behalf.

THE BUREAUCRATS OPPOSED THE O. A. R. P.

The scars which I bear as a champion of this plan are honorable scars, since they indicate that I have championed the people's cause, and, Farley, McAdoo, Hopkins, and others to the contrary, my record proves this. I would rather bear the scars of conflict in a worthy cause than to be known as a "yes-man rubber-stamp" Representative, without courage to voice his convictions or advance a single progressive thought.

Townsend club members in my district have been loyal and faithful, since most of them, if not all of them, realize that my difficulties here are due to my aggressive attitude in advancing the cause of our aged citizens, in fighting for our veterans and Federal employees, in espousing legislation in the interest of the unemployed, and in championing the interests of the underprivileged at all times. With such confidence displayed toward me, I reaffirm to these groups that, if reelected, I shall continue my efforts with renewed vigor for substantial and permanent recovery through the means proposed by Dr. Townsend and the more liberal elements in the Democratic, Republican, and Union Parties.

Success can only be brought about through the election of an independent Congress, and it is for this reason that the electorate should survey the situation, judge candidates who are up for reelection by their records, and vote accordingly.

THE COURTS SHOULD NOT BE USED TO INTIMIDATE ADVOCATES OF REAL RECOVERY

Mr. Speaker, in conclusion I wish to state that I am opposed to the un-American practice of using the courts of our country to beat into submission those who advocate liberal, progressive legislation. It is my opinion, however, that the inquisitorial Townsend investigating committee, through the flagrant injustice of its methods, which every fair-minded American citizen must wholeheartedly resent, has but served to unify and strengthen our forces and contribute to the forward progress of the Townsend movement. The efforts to bring Dr. Townsend into the courts may fittingly recall that long, long ago the ruling powers sought to destroy Daniel for his independence and his defiance of their orders, but a higher power than theirs preserved him and brought him, unharmed, from the lions' den.

Townsendites and the voters of America have it in their power to bring about the reforms they desire, provided they will on election day relegate to oblivion the machine candidates and the servants of special interests, whose performances have betrayed them in the past and whose promises cannot be relied upon.

I repeat, men who have a record of performance in actual service in the Congress in behalf of the Townsend old-age-pension plan should be reelected, for they are more to be trusted than those without experience, who have nothing other than promises to offer, which past experience has proved are easily forgotten once election is attained.

For the information of the electorate who are interested in returning to Congress the various Representatives who supported the McGroarty measure, I submit the names of such individuals:

Representatives Amlie, of Wisconsin; Andresen, of Minnesota; Ayers, of Montana; Binderup, of Nebraska; Blackney, of Michigan; Buckler of Minnesota; Burdick, of North Dakota; Cannon of Wisconsin; Carter, of California; Clark of Idaho; Collins, of California; Connery, of Massachusetts; Costello, of California; Crawford, of Michigan; Crosby, of Pennsylvania; Cummings, of Colorado; Duffey of Ohio; Dunn of Pennsylvania; Englebright, of California; Gearhart, of California; Gehrmann, of Wisconsin; Greenway, of Arizona; Haines, of Pennsylvania; Hildebrandt, of South Dakota; Knute Hill, of Washington; Hoeppel, of California; Houston, of Kansas; Kahn, of California; Knutson, of Minnesota; Lemke, of North Dakota; Lundeen, of Minnesota; McGrath, of California; McGroarty, of California; Main, of Michigan; Marcantonio, of New York; Martin of Colorado; Massingale, of Oklahoma; Michener, of Michigan; Monaghan, of Montana; Moritz, of Pennsylvania; Mott, of Oregon; Murdock, of Utah; O'Malley, of Wisconsin; Patterson, of Kansas; Pierce, of Oregon; Pittenger, of Minnesota; Sadowski, of Michigan; Scott, of California; Scrugham, of Nevada; Smith of Washington; Stack, of Pennsylvania; Stubbs, of California; Swee-

ney, of Ohio; Taylor of Tennessee; Tolan, of California; Wallgren, of Washington; Welch, of California; Werner, of South Dakota; White, of Idaho; Withrow, of Wisconsin.

The above list may not be 100 percent complete, but it does include those most active in the Congress with whom I was personally associated in my efforts in behalf of the plan.

INSURANCE OF BANK DEPOSITS

Mr. STEAGALL. Mr. Speaker, under leave to extend my remarks in the RECORD, I include my recent address over N. B. C. on insurance of bank deposits, as follows:

No legislative achievement in recent years has created deeper interest than the act of Congress establishing the Federal Deposit Insurance Corporation. Its benefits have extended to all sections and to all classes. Its passage affords a conspicuous example of the change in administration accomplished by the election of 1932. No such proposal was seriously considered during the former uninterrupted regime of 12 years, notwithstanding the demand for such legislation was so accentuated as to become apparent to every intelligent citizen in the land. As a minority Member of Congress, I had introduced a number of bills over a period of 10 years, designed to bring about this great reform. When the Democrats captured the House in 1930 and following my election as chairman of the Banking and Currency Committee of the House, I renewed the fight for the passage of this legislation. I introduced a bill providing for the protection of depositors in both State and National banks. This measure was reported favorably and passed by the House on the 27th day of May 1932. But at that time the Senate was under Republican control and refused to give consideration to the bill. When the new administration took office in 1933 I renewed the struggle, and the Banking Act of 1933, known as the Glass-Steagall bill, with provision for the insurance of deposits passed both Houses and was signed by President Roosevelt.

In view of the facts which are of record it is exceedingly surprising, not to say amazing, that the distinguished Senator from Michigan [Mr. VANDENBERG] should have made the statement in a recent radio address that the legislation "was inaugurated under an amendment which bears my name." It is true that the distinguished Senator offered an amendment to the bill which provided for the insurance of deposits in member banks in the Federal Reserve System up to the amount of $2,500 for each depositor, to become effective on the 1st day of July 1933, and such insurance for nonmember banks available to them upon certification by State banking authority, to become effective on the 1st day of January 1934. The amendment fixed an annual assessment against participating banks not to exceed 1 percent, and provided that the Treasury of the United States should pay any losses accruing in excess of the funds raised by assessment.

Of course, the amendment was not adopted. Such a plan of insurance would undoubtedly have resulted in the withdrawal of deposits, entailing enormous losses upon the Treasury for the very manifest reason that depositors, with the experience of recent years, would have hastened to withdraw deposits while the Treasury was responsible for them under the law. The slightest consideration could but disclose the folly of such a scheme. The measure that was passed provided for the insurance of all deposits up to $10,000 for individual depositors; for 75 percent insurance between $10,000 and $50,000; and 50 percent on amounts in excess of $50,000, to become effective on the 1st day of July 1934.

A provision was incorporated by the conference committee establishing temporary insurance in the amount of $2,500 for each depositor, effective beginning January 1, 1934, in the event that the President did not by proclamation put into operation the permanent plan.

It was understood at the time that the distinguished Senator from Michigan [Mr. VANDENBERG] was favorable to the temporary insurance; and later, after the temporary plan had been put into effect, he introduced a bill the purpose of which was to make the temporary plan of $2,500 insurance permanent; but before the expiration of the temporary insurance period the Congress amended the permanent act, fixing the minimum amount of insurance at $5,000 for each depositor. On the record, then, it would appear that the Senator from Michigan preferred to limit the protection afforded to depositors to the amount of $2,500, rather than the larger amount of $5,000 provided for in the permanent law.

Another surprising inaccuracy in the radio address to which I have referred was a statement of the distinguished Senator from Michigan referring to the President, "He wrote a letter to the legislative conferees demanding that my amendment be stricken from the bill." The fact is no such letter was ever received, and members of the conference committee, as well as the record, will confirm my statement.

During the struggle to protect depositors in 1932, the high officials of the Republican administration from the President down opposed every proposal for bank-deposit insurance. President Hoover was importuned repeatedly by those of us engaged in the fight to lend his approval, but he and his associates in office fought us at every step. The position of President Hoover was in line with the declaration of the platform of his party adopted in 1932. That platform declared: "In contrast with the Republican policies and record, we contrast those of the Democrats as evidenced by the action of the House of Representatives under Democratic leadership and control, which includes:

"1. The issuance of fiat currency.

"2. Instructions to the Federal Reserve Board and the Secretary of the Treasury to attempt to manipulate commodity prices.

"3. The guaranty of bank deposits."

It should be noted that in the recent Republican platform adopted at Cleveland there was no repetition of the language quoted from the platform of 1932, nor any reference to the subject of bank-deposit insurance. This action corresponds conspicuously with the action of the American Bankers Association in its Chicago convention in September 1933 and later. That convention denounced the act providing for the insurance of deposits, but a year later and in all subsequent meetings there was no reference to their former declaration, nor any mention of the subject. It would seem that the happy results following this legislation, including the cessation of bank failures, should have been a source of genuine gratification to the bankers as well as it is to the people of the Nation.

It seems only fair, with the approaching national election, to call attention to these facts, and to the position of the candidate of the Republican Party chosen by the Cleveland convention. Not only does the declaration of the Republican platform of 1932 condemning deposit insurance stand unrevoked, but the candidate chosen by the Cleveland convention has a record on the subject which all who are interested in the protection of bank deposits should understand. In a message addressed to Senator Capper when the Banking Act of 1933 was before the Senate the distinguished Governor of Kansas stated:

"Pending banking bill extremely injurious to State banks and threatens their very existence. It is essential our dual banking system be preserved in order to best serve farm and community interests of Kansas. Urge your active opposition to the guaranty section, which should be entirely eliminated from bill." (CONGRESSIONAL RECORD, vol. 77, pt. 6, p. 5863, 73d Cong., 1st sess.)

In this connection let me say that the Deposit Insurance Act passed by the House in 1932 contained a specific provision for the protection of depositors in State banks upon terms of equality with those in member banks of the Federal Reserve System. The same provision was incorporated in the act of 1933, and is in the law today. Those of us who led the fight for the protection of depositors have directed our efforts in the interest of State banks as well as national banks. The simple fact is, the insurance of bank deposits saved the State and community banks of the Nation. It is well known that, as chairman of the Banking and Currency Committee of the House, I have fought for the preservation of State banks. This I will continue to do so long as I serve in Congress.

Governor Landon, in an address read for him by the bank commissioner of Kansas, before the State bank division of the American Bankers Association held in Chicago, September 6, 1933, said in part:

"* * * There is no question in my mind but that the guaranty of bank deposits is a greater blow to the ultimate welfare of the American people than the wildest inflation of the currency could possibly be.

"In my judgment the guaranty of bank deposits, if carried out in this country to its logical conclusion, will completely destroy the entire banking system of the Nation" Evidently the bankers of Kansas followed the Governor's advice. In that State more than 300 State banks declined to secure for their depositors the benefits of deposit insurance afforded by the Federal Deposit Insurance Corporation.

Under the provisions of the permanent act of 1935 State banks were permitted to withdraw from the Insurance Corporation and to be reimbursed all assessments paid by them, less their proportionate cost of the operation of the Corporation during the time of their membership. Only 32 State banks of more than 14,000 insured availed themselves of the privilege of withdrawing and they were repaid every dollar that they had paid to the Corporation. Their depositors enjoyed the benefits of deposit insurance for a period of nearly 2 years without any expense whatsoever. The State banks of Kansas that failed to join the Federal Deposit Insurance Corporation missed an opportunity to secure insurance for their depositors for nearly 2 years without a dollar of cost. Such is the record and such is the fallacy of the position of the distinguished Governor of Kansas, now the nominee of the Republican Party for President.

Governor Landon prior to his nomination for President by the Cleveland convention avowed a desire to take the people of the Nation into his confidence and to give expression of his views in connection with the platform of that convention. He did not hesitate to declare his devotion to the gold standard and his desire to return to that discredited and discarded system as soon as possible without unbearable injury to agriculture and demoralization of economic conditions. In the circumstances it is only fair to accredit to Governor Landon the same degree of sincerity and consistency with respect to his position on the question of bank-deposit insurance. Manifestly, Governor Landon subscribes to the views of his party as expressed in the national platform of 1932, and still adheres to his convictions disclosed in his telegram to Senator CAPPER, and in his address of September 6, 1933. I venture the opinion that the people of the United States will not look with favor upon any possibility of a return to the conditions under which they suffered prior to the passage of the act providing insurance for bank deposits.

During the last 12 years of Republican administration there were 11,457 bank failures in the United States, with deposits of five and one-half billion dollars, culminating in the complete collapse of the national banking structure at the close of President Hoover's administration in March 1933. Since that time there have been only 61 bank failures of insured institutions, with deposits of $14,868,000. The depositors in those institutions were promptly reimbursed, each one to the amount of his deposit not in excess of $5,000. Bank deposits have increased since the 4th of March 1933 approximately $14,000,000,000. The public is protected. The fears of depositors have vanished, and the dread of bankers unable to sleep at night because of the danger of frenzied withdrawals of deposits no longer exists. Bankers are free to employ their resources in support of trade and commerce along normal lines and to give the fullest measure of public service. Had this measure been enacted 5 years earlier millions of depositors would have been spared immeasurable suffering and distress. Such a measure would have been enacted had not the Government been under the control of short-sighted, selfish, and incompetent leadership, who opposed this, as they did every other constructive effort in the interest of the great body of our people. The insurance of bank deposits is an indispensable step in any program of restoration and recovery. Upon this achievement we are building and we are finding our way toward the light. If the people of the Nation desire a continuance of the protection that has been afforded, they have in their hands the power to preserve it. The issue will be determined by their ballots. There is one safe method and only one by which to save the benefits of the protection now enjoyed, and that is to elect to office at Washington those who favor this protection and who are at heart in sympathy with what has been accomplished.

POLITICS, PATRONAGE, AND CIVIC DUTY

Mr. ECKERT. Mr. Speaker, under leave to extend my remarks in the RECORD, I include the following from the speech of President Roosevelt on The Philosophy of Government, in which he says:

Government includes the art of formulating a policy and using the political technique to attain so much of that policy as will receive general support—persuading, leading, sacrificing, teaching always, for the greatest duty of a statesman is to educate.

Here is indicated the way of practical politics. Attention is called to the futility of seeking reforms that are not supported by public opinion and emphasizes the importance and necessity of education.

No thoughtful person can view the present conditions of the world without feeling intuitively that profound economic changes are in process of incubation. Before our very eyes we see wealth steadily concentrating in the hands of the few—the middle class being ruthlessly swept away and the great body of workers becoming more helpless and hopeless.

These conditions demand attention. The pernicious processes must be arrested. But imperative as is the need of halting the forces that are undermining the foundations of our economic structure, the task is impossible while ignorance and indifference hold sway among the masses. There must be enlightenment, for "social reform", as has well been said—

is not secured by noise and shouting; by complaints and denunciations; by the formation of parties or the making of revolutions; but by the awakening of thought and the progress of ideas. Until there be correct thinking there cannot be right action, and when there is correct thinking right action will follow.

Without right thinking the people will lack vision, and without vision they perish.

No greater task rests upon the leaders of thought than that of enlightened guidance so that citizens and voters may face in proper perspective the real problems of politics and government.

One of the problems that stand in need of discussion and clarification is that of political patronage. In the minds of many the thought is uppermost that the sine qua non for political activity is a Government job at the hands of the victorious party. And political workers become imbued with this thought quite naturally, since it has been the custom and practice for generations on the part of those who manage party affairs and seek to get control of government to offer the spoils of office as a lure to engage in political activity.

Ex-Senator Moses, discussing the question "What is the matter with the Republican Party?" boldly and frankly declared that it is in need of three things, namely: Money, patronage, and a boss. With money and patronage and a boss, preferably of the Mark Hanna type, declared this seasoned politician, the Republican Party could be rehabilitated so that it again would become a strong and formidable organization.

This is the ordinary but vulgar conception of politics. It is obvious that if this type of politics is given free rein, it must result in corrupting both the people and the Government. Those whose appraisement of politics rises no higher than that of ex-Senator Moses, of New Hampshire, will find fertile fields for plying their pernicious and vulgar brand of politics unless economic conditions will be reformed and improved so that opportunities to gain a livelihood at self-employment or in private industry will at least be as inviting and lucrative as that offered by political bosses. In fact, the party boss and the political jobber can only thrive under conditions of gross economic inequality.

In a country where one class is too rich to be shorn of its luxuries and another so poor that a few dollars on election day or a political job will seem more than any abstract consideration; in which the few roll in wealth and the many seethe with discontent, political power naturally passes into the hands of party bosses and political jobbers who buy and sell it as the Praetorians sold the Roman purple or into the hands of demagogues who will seize and wield it for a time only to be displaced by worse demagogues. But where there is anything like an equitable distribution of wealth, the trade of the political boss and the political jobber will be at a discount.

The antidote for the corruption and political jobbery that have found such a prominent place in American politics is in the development of a standard of civic duty that rests upon right, truth, and justice.

Civilizations in which social groups are bound together by the force of self-interest and the hope of reward from political bosses and jobbers cannot endure. Assistant Secretary of State Hon. Francis B. Sayre, in a commencement address before the Virginia Theological Seminary at Alexandria, Va., June 4, 1936, said:

Only as faiths and beliefs are foundationed upon truth will they be all-embracing and enduring. A civilization which is lacking in such fundamental faiths loses its cohesiveness and its power. The great central facts of life are not the selfishness and lusts and cruelties of petty men and small minds, not the suffering and the evil which seem at times predominant, but rather the never-ending, patient bravery, the constant reaching upward toward goodness, and the fundamental nobility of human nature.

In this spirit and in this spirit alone, not only as to individual conduct but as to social behavior as well, can we hope to overcome the social evils of our time and free politics and government from selfishness, corruption, and hypocrisy.

Amplifying this thought, I include under the general permission for Members to extend their remarks in the RECORD the following letter addressed to Rev. Dr. H. Reed Shepfer, pastor of Grace Lutheran Church, Rochester, Pa.:

JUNE 20, 1936.

Rev. H. REED SHEPFER,
Rochester, Pa.

MY DEAR DR. SHEPFER: Your letter in reference to local patronage received. Since you are a religious man and a minister of the gospel, I feel free to write you intimately, not only in relation to the context of your letter, but also about those deeper problems of politics and Government that are so closely related to the material and spiritual welfare of the people.

Addressing myself first to the subject matter of your letter, may I say that the selection of postmasters is really the duty of the President and the Senate. Under our system of party government, however, the practice of permitting Congressmen to recommend candidates for postmasters has ripened into a congressional prerogative, and so the opinion prevails that Members of Congress select the candidates for postmasters.

It happened that when I came to Washington I was advised by the leaders of the State Democratic organization that all Federal appointments were to be cleared through the Democratic organization; at the same time being advised that experience had proven this policy to be the most effective and practical in promoting party harmony and party solidarity. Whether for good or ill, whether we like it or not, under present political conditions party government seems inevitable. For the most part, throughout the years of our national life the party system of government prevailed and still prevails. It is conceivable that there may come a time when parties as such will have lost their hold in the affairs of government. Among a truly intelligent, just, and patriotic

people there would be no occasion for voters to separate into groups and array themselves against each other at election time, for in the last analysis their true interests are common. What is good for one is good for all, providing, of course, that no one wants any special privilege or favor.

The political struggles of the past and of the present have their root in selfishness, in greed, and in the will to want something at the expense of all the people. These may find expression in the wish for public office or public appointment, or governmental concessions such as franchises, tariffs, bounties, or other concessions of government. Whatever it may be, the thought is always uppermost to get something for little or no effort. If it shall ever come to pass that the people will learn that their highest interests will best be served by obeying the simple doctrines, "Honesty is the best policy" and "To live and let live", then political parties will disintegrate and in social and political matters act as one group. But until this happy condition comes to pass, we are bound to speak and function socially and politically through parties.

Hence it is not a theory, but a condition with which we are confronted; and, therefore, it would seem that the best policy to strengthen and solidify the party is through organization. And experience has shown that this can best be done by cooperating with and supporting the party organization, subject always, of course, to the condition that it function in the interest of all the people.

The Democratic Party is seeking to serve the people in the Nation and in the State and, in order that its work may not be interrupted, the party's commission must be renewed from time to time. We are on the eve of a very important national election. The outcome of the issues involved in the pending election is of vital concern to every man, woman, and child in the land. In the struggle impending privilege is battling for its life. No quarter will be granted. Every resource at the command of privilege will be invoked in the hope of regaining control of the Federal Government.

The New Deal program is, in essence, the battle against privilege. In its deeper meaning it has for its aim the abolition of private privilege in all its ramifications. The Democratic Party is pledged to restore to the American people economic freedom by establishing a social order based on the doctrine of equal rights to all, special privileges to none.

If every Democratic Member of Congress were to act independently and contrary to the rules and policies of the central organization, confusion and discord within the party would be inevitable. So long as the organization of the Democratic Party promotes policies and submits candidates for political appointments in which one can have confidence and faith, we ought to be happy to cooperate to the fullest extent. Patronage is of secondary importance. It occupies too large a place in the minds of the voters, and for the good of all it is well for us frequently to recur to the question, "What are parties and politics primarily concerned about?" In doing so we will regain our true balance as citizens.

Politics is the science of government and is charged with much more important matters than political patronage. Too many, I fear, harbor the notion that politics is a mere matter of political jobs, when, in truth, political positions are a mere incident to the main business in hand. Fundamentally, politics and government are concerned with the problem of human rights and human welfare. In the Declaration of Independence we are told that governments are instituted among men to secure their natural rights, and in the preamble to the Constitution of the United States we are reminded that our Federal Union was established to promote inter alia the general welfare.

Neither of these objectives has yet been achieved by the American people—in truth we seem to be farther removed from their enjoyment today than any time in our history. Today, want and misery, poverty and distress are encountered everywhere and unemployment is all but universal—all of which indicates that politics and government are not yet functioning effectively for the public good.

Dr. Nicholas Murray Butler, president of Columbia University, in a commencement address a few years ago, asked this challenging question:

"Why it is that with all the progress which the world is making in so many directions—science, art, letters, all forms of industry, transportation, commerce—why is it that there still exists so much want, so much of all that which for the want of a better name may be summed up under the word 'poverty'?"

The poverty of which Dr. Butler speaks is not due to the niggardliness of nature or nature's God. It is not due to the unwillingness of man to labor and produce wealth. On the contrary, man's power of production is multiplying with every new invention, and his willingness to labor is evidenced by his frantic appeals for work. Yet in spite of it all poverty persists and deepens with the passage of the years. Quoting again from the address of Assistant Secretary of State Hon. Francis B. Sayre:

"Millions of human beings are walking the streets of our great industrial cities, hungry and unable to find work. The demoralization that comes from idleness and public relief is eating into youth. Those who have succeeded in laying something by against sickness or old age are harassed with vanishing values and economic uncertainties. We are forced to mortgage unborn generations to care for present want. In the midst of abundance the world is multiplying poverty."

Upon reflection it is quite apparent to everyone that the problems involved in Dr. Butler's question must be solved and solved correctly if civilization is to endure. Hence those who are in positions of public trust and spiritual leadership are in duty bound to give these problems serious, conscientious, and intelligent consideration.

In view of this fact, is it not deplorable that so much time and thought are consumed in the consideration of comparatively inconsequential things of politics and which provoke and bring into action the baser emotions, for, after all, the subject of patronage sinks into insignificance when compared with the deeper problems of politics and government, problems which have in their keeping the rights and liberties of mankind. The millions of our fellow men that are suffering the pangs of poverty represent the problems of unemployment and the inequitable distribution of wealth. It is for us to find a rational and permanent solution of these problems. To fail in this task will only multiply the ugly conditions that now prevail in American politics and further menace the perpetuation of our free institutions. As has been well said—

"Where there is anything like an equal distribution of wealth—that is to say, where there is general patriotism, virtue, and intelligence—the more democratic the government the better it will be; but where there is gross inequality in the distribution of wealth the more democratic the government the worse it will be, for while rotten democracy may not in itself be worse than rotten autocracy, its effects upon national character will be worse. To give the suffrage to tramps, to paupers, to men to whom the chance of labor is a boon, to men who must beg, or steal, or starve, is to invoke destruction. To put political power in the hands of men embittered and degraded by poverty is to tie firebrands to foxes and turn them loose amid the standing corn; it is to put out the eyes of a Samson and to twine his arms around the pillars of national life."

Unless the benefits resulting from new inventions and material progress will be equitably diffused among the masses, the corruption of politics and government will become more and more menacing as the years go by. It is no light and trivial thing that in the richest and most self-reliant Nation of the world—a nation that boasts of its schools and universities, its churches and Christian virtues, there should be millions of unemployed and other millions on the border line of poverty, while the gulf between the House of Have and the House of Have Not widens with the passing of the years.

During the closing years of the last century students of social science were impressed with the gravity of the economic conditions and emphasized the importance of a satisfactory solution of the social problem. How much more pressing is this same problem today.

In the consideration of this perplexing problem, may I call your attention to the intimate relation between the secular and spiritual welfare of the people? The spiritual development of a people must keep pace with material progress. Quoting Assistant Secretary Sayre again:

"Further progress demands building anew upon spiritual foundations. The amazing and splendid advance in material progress of the last century must now be matched by spiritual progress and understanding. It is not that we must accept arbitrary, unreasonable, or fruitless religious dogmas or traditional moral codes. What our civilization needs is a mastery and a practical utilization of spiritual laws with as large a measure of success as our own generation's mastery and utilization of physical laws."

A thorough and intelligent analysis of the social problem reveals the fact that the moral precepts given to man for guidance of his individual conduct are applicable to his behavior as a citizen and member of society. The Golden Rule applies in the realm of civic behavior as well as to individual conduct—That we should do unto others as we would have others do unto us—that we should respect the rights of others as scrupulously as we would have our own rights respected is not a mere counsel of perfection for individuals, but it is the law to which we must conform our social institutions and national policies if we would secure the blessings of abundance and peace, is wise and sound counsel.

And Christ himself tells us "Seek ye first the kingdom of God and His righteousness and all these things shall be added unto us."

And again we are admonished that "As God's will be done in heaven, so in earth."

Hence the solution of the problems involved in Dr. Butler's question is to be found in those deeper truths that lie at the very root of true religion and constitute the hope of democracy.

The contemplation of these truths inspirit and inspire. They lift us up and beyond vulgar demagoguery and selfish politics. They impel us to center our hearts and our minds on those deeper problems of politics and government, the proper solution of which will bring about a new and fair division of the goods and right of the world, to the end that the Biblical injunction may be fulfilled:

"And they shall build houses and inhabit them; and they shall plant vineyards and eat the fruits of them. They shall not build and another inhabit; they shall not plant and another eat."

Under separate cover I am mailing you a copy of Progress and Poverty, which has been described by an eminent American as—

"A book that rests upon a granite pedestal of truth, face up, open for the thinking world to scan—a book matchless in logic, beautiful in diction, perfect in illustration, unchallenged and unchallengeable, unanswered, and unanswerable; an everlasting monument to the intellectual and moral integrity of the man who wrote it."

With kindest personal regards and best wishes, I am,

Very sincerely yours,

CHARLES R. ECKERT.

THE "RED RIDER"

Mrs. NORTON. Mr. Speaker, under leave to extend my remarks in the RECORD, I include the following statement of facts regarding the Sisson bill to repeal the "red rider."

The Sisson bill (H. R. 11375) to repeal the so-called "red rider" will be the first order of District business in the Seventy-fifth Congress, providing, of course, that I shall then be chairman of the committee.

Under the rules of the House such bills can be considered only on days set aside for action upon District legislation. And circumstances beyond the control of those in charge of the repeal measure have prevented action upon it at this session, as observers who have followed the matter closely are aware.

On May 11, the first District day after the repeal bill was duly reported out as approved by the District Committee, the House leadership urgently requested that it not be brought up for action that afternoon because consideration of it probably would have run over into the following day. On the next District day, May 25, the House met, but immediately adjourned out of respect to Congressman RANDOLPH PERKINS, who had died that morning. On what would have been the subsequent District day, June 8, Congress was in recess due to the Republican national convention. By June 22, the date for the next scheduled District day, Congress will either be in recess for the Democratic national convention or will be adjourned for the year.

This repeal bill in which all the school teachers of the country have shown a very great interest because of the far-flung threat it contains to personal liberty and religious freedom may seem at first glance to be a matter chiefly concerned with the District of Columbia and its educational system. However, it has become a national issue now and is regarded as such by the National Educational Association. The Capital City of the Nation should lead in setting the standard for education for the country. Therefore this ridiculous rider to the 1936 appropriation bill is of paramount importance to every sane, liberal American citizen. The aim of every educational system in the country is to keep our schools out of politics, and the Congress of the United States should take the lead in this objective. Therefore, when legislation aimed at dictatorship in our schools in Washington is permitted, it would undoubtedly lead to a very serious break-down in our much-desired freedom from political influence.

This statement is issued to give the facts of the matter as it now stands to the hundreds of parents and teachers who are supporting us faithfully in our efforts to expunge the malodorous "red rider" from the statute books of our Nation.

THE POTTERY INDUSTRY

Mr. CROWTHER. Mr. Speaker, no American industry has been so handicapped by the competition of cheaply produced foreign merchandise as has the pottery industry. Nearly all the countries of Europe and Asia have invaded the American market. Japan, however, is the chief offender, and the constantly increasing imports from that country are a continuing menace to the industry. For more than 20 years the tableware manufacturers have been struggling to hold 50 percent of the home market.

The tremendous difference in production costs practically nullifies the existing tariff rates. The pirating of designs and the copying of standard types of tableware all add to the competitive burden which domestic manufacturers must carry. As a result of a greatly depreciated currency, Japan still has a material exchange advantage. Competition is further enhanced by the governmental subsidies paid to Japanese producers.

Under the permission granted in the House, I include the following letter to the Tariff Commission from the tariff counsel of the United States Potters' Association, Mr. John E. Dowsing.

THE UNITED STATES POTTERS ASSOCIATION,
New York, May 19, 1936.

The UNITED STATES TARIFF COMMISSION,
Washington, D. C.

SIR: I wish again respectfully to refer to the application of The United States Potters Association under section 336 of the act of 1930, filed October 11, 1932, on which action by the Commission was postponed and the protest has now been pending close to 4 years, together with briefs and other data filed. In view of the Commission's letter, dated September 5, signed by the Honorable Thomas Walker Page, acting chairman, in which it is stated:

"The status of the Commission's pottery investigation has been discussed by the Commission recently, but it does not feel that any further steps in regard to the investigation should be taken at this time."

it is asked if the time is not now opportune that steps be taken and the complaint set for hearing and argument. Additional reasons to those set forth in the original complaint are:

(1) This protest was continued by the Commission to give attention to and investigation of a subsequent protest filed under the provisions of section 3 (e) of the National Industrial Recovery Act. This later protest, pending before the Commission 18 months to 2 years, was not decided or recommendations made owing to the decision of the Supreme Court in the Schecter case.

(2) The Commission, in its investigation (Report No. 102) of the complaint of the United States Potters Association under section 3 (e) National Industrial Recovery Act, found, as set forth in its conclusions on the result of its investigations:

"(a) Imports of household and kitchen pottery have been substantial throughout recent years, representing in 1933 and 1934 approximately one-third of the domestic consumption, and being equal to about one-half of the domestic production in terms of quantity."

(3) The Commission, in its Report No. 105, on Recent Developments in the Foreign Trade of Japan, gives the total imports into the United States from all countries for 8 months of 1935. The imports of pottery from Japan, according to the Commission's figures, are: Plain china and porcelain household table and kitchen articles, 83.9 percent of the total; decorated china and porcelain household table and kitchen articles, 88.1 percent of the total; plain earthenware and stoneware household table and kitchen articles, 85.5 percent of the total; decorated earthenware and stoneware household table and kitchen articles, 77.3 percent of the total.

(4) In the plain earthenware, undecorated, the increase in importations is shown as 6.1 percent of total imports in 1929 to 85.5 percent for 8 months of 1935.

(5) In the report of C. H. Stephan, Vice Consul, Nagoya, Japan, dated August 7, 1935, to the Department of Commerce, it is officially stated that the minimum wage paid in the Japanese pottery industry is: Clay workers, 37 cents for an 8½-hour day and decorators 38 cents for a 9½-hour day.

The minimum wage paid to domestic potters is 75 cents per hour with the decorators earning as high as $14 per day. The cheapest and poorest unclassified labor receives 49 cents per hour.

(6) Notwithstanding these definite and vital facts of the competing importations from Japan, the Commission made no recommendation in the matter of the potters' complaint.

(7) Although the Commission stated in its letter of May 1, 1934, with reference to the protest under section 336, that the question of ascertaining the foreign cost of production was "very difficult and perhaps not possible of solution" as a reason for postponing action pending decision in the matter of the later protest under section 3 (e), N. I. R. A., attention was directed to the fact, and again so directed that paragraph 2, subsection E of section 336 provided against such a contingency arising in giving the Commission authority to accept as evidence "the weighted average of the invoice prices or values for a representative period", etc., and, further:

"(C) Other relevant factors that constitute an advantage or disadvantage in competition, including advantages granted to the foreign producers by a government, person, partnership, corporation, or association in a foreign country."

(8) We believe the Commission is in possession of the knowledge of such factors to the advantage of the Japanese manufacturers of pottery competing with the domestic manufacturers, as depreciated yen; governmental subsidies to the manufacturers; governmental subsidies to the shipping; average wage of less than one-tenth that paid to the American potters; child labor; large household employment of old men, women, and children; average cost of Japanese ware 38 to 39 cents per dozen; average cost of freight from Japan to New York $0.35 per 100 pounds, while from East Liverpool, Ohio, it is $0.50 per 100 pounds; average landed cost, minus freight, from Japan $9.05 per gross, while average cost from East Liverpool, Ohio, minus freight, is $11.25 per gross.

The importations of competitive ware from Japan, both for consumption and warehouse, for 1935, were 8,696,602 dozens. For the month of January 1936, 652,302 dozens; for February, 614,489 dozens, indicating that the high mark of imports for the year 1935 will be equaled if not exceeded in 1936.

It is also respectfully submitted that the principle involved in the protest of the domestic potters under section 336 goes beyond that industry and affects other large industries, such as cotton-textile manufacturers, wool manufacturers, rubber manufacturers, etc. The depression has been capitalized by the Japanese here as well as in other countries as shown in the foreign trade increase of Japan, aided by the many favorable factors hereinbefore set forth. As is stated in an article by the New York Trust Co. in the May issue of Nations Business—

"Whether measured in the terms of the Japanese yen or in quantity, both exports and imports in 1934 were well above 1929 levels, while, on a gold basis, Japan had increased her share of world import trade from 2.80 percent to 3.31 percent, and of

world trade from 2.93 percent to 3.32 percent. In the past year, still further gains were registered and, with imports valued at 2,566,762,000 yen and exports at 2,547,615,000 yen, foreign trade was even greater than in the previous record year of 1925. The penetration of Japanese goods into new markets and their successful competition with the products of other exporting nations have aroused widespread interest—in some quarters decided concern.

"What Japan has done is to take advantage of depressed economic conditions throughout the world to offer relatively cheap goods which have had a special appeal because of reduced purchasing power. In some instances this has meant an invasion of markets of higher-priced goods; in others, it has created a market where none would otherwise exist."

The reduced purchasing power will be continued just as long as we permit our factories to be closed or working on part time, with millions of the unemployed walking the streets, while at the same time the industries and those holding jobs are taxed to provide a dole and for the creation of artificial employment; just as long as we permit our markets to be swamped with the coolie-labor products of Japan and European cheap-labor countries. In the pottery industry alone, its 20-odd thousands of normal employment, receiving 3 to 4 times that of the highest wages paid in the world for similar work and 10 to 20 times that paid in Japan, if permitted to be fully employed, would with their pay envelopes increase purchasing power to that extent. If 50 percent of the competitive pottery from Japan permitted to be dumped on our markets was added to the domestic production, there would not be an unemployed potter in the United States or an idle plant.

These cheap goods which have "created a market where none would otherwise exist" would, as previously, be taken care of by the higher-priced domestic merchandise, produced by American workmen under high-wage and living conditions existing nowhere else in the world. And this is applicable to all other industries. The high wages of one class of labor would purchase the products of another class of labor and thus form links in the chain of business recovery which would go far to reduce our unemployment and banish the depression.

Secretary Roper of the Department of Commerce, speaking in San Francisco on June 4, 1935, said:

"Certain of our importers are flocking to Japan on every steamer with samples of articles they want imitated by Japanese manufacturers, employing cheap labor with cheap living standards. Once they have established their contacts, they give blanket orders for unlimited quantities of the cheap imitations and then come home to slash prices against competitors trying to support American labor at an American wage sufficient to maintain our own living standards."

Are not all such relevant facts within the purview of subparagraph C, supra?

It is obvious that the only way in which the American potters and the twenty-odd thousands of labor can be employed and protected against the imports of low-cost-of-production ware from Japan, with the low living costs and other "relevant factors" is, as we claim, by the adoption of the American selling price as the basis for assessing duty. The determination of value in this country is easily ascertainable from the books of the American potters and all other desired data is at the service of the Commission. The Commission has at its disposal the Japanese invoices from which can be obtained "the weighted average of the invoice prices or values for a representative period."

The question involved of "like or similar" goods has been covered by oral argument and briefs, but we will be glad to submit additional brief and argument on this point, if desired.

We, therefore, respectfully urge the United States Tariff Commission to pass on our complaint under section 336, now pending within a few months of 4 years, and that it recommend duty be assessed upon importations of the competitive ware from Japan on the basis of the American selling price.

Respectfully,

THE UNITED STATES POTTERS ASSOCIATION,
By JOHN E. DOWSING,
Tariff Counsel, 535 Fifth Avenue, New York.

NATIONAL TRAINING SCHOOL FOR GIRLS

Mrs. NORTON. Mr. Speaker, under leave to extend my remarks in the RECORD, I include the following statement concerning National Training School for Girls:

At the meeting of the Committee on the District of Columbia held May 27, 1936, a subcommittee was appointed to visit the National Training School for Girls and investigate conditions there. Pursuant to the action of the committee Representative CARPENTER and I, Mr. HULL finding it impossible to join us because of important business, made an informal visit to the school Friday, June 19, and found conditions there very deplorable.

First in importance is the great fire hazard on account of old buildings and old-fashioned lock, controlled by levers, on the doors. This system of locking, however, we are informed by the superintendent, Dr. Smith, has recently been discontinued.

We found the buildings in a very unsanitary condition, particularly regarding toilets. Six toilets, no basins, running water in the corridor on each floor, no hot-water supply.

The kitchens are supplied with large coal ranges, no gas ever having been furnished, but we understand the W. P. A. is now taking care of this problem and gas pipes are being laid in the different buildings.

There are practically no recreational facilities. The class rooms are very meager. Employees are under civil service, but there are no trained workers or teachers of any subject.

The buildings are badly in need of cleaning and painting. There are old-fashioned caldrons for heating water in the laundry instead of a hot-water supply. There is no heat radiation in any of the bedrooms, only one or two steam coils in each corridor to supply heat.

The average offender serves 2 years. Many have been there as long as 7 years. At present there are 33 inmates. No commitments were made between July 1935 and January 1936. Federal offenders as well as District of Columbia offenders are committed to the training school.

There are in all four buildings and these contain 101 rooms. If a fire should break out in any one of these buildings, it would become a fire trap, as there would be little likelihood of the inmates being able to escape because of the antiquated system.

There is no equipment for vocational training of any kind to enable these girls to rehabilitate themselves when their term of commitment has expired; no sewing rooms, no domestic science equipment, no vocational work; in fact, nothing that is supposed to be part of the system of a training school for girls. Under these circumstances it is difficult to understand how any real good can be accomplished, as this school is merely a prison, instead of serving to assist girls who are sent there for correction. It must be borne in mind that most of these are very young girls, and it is a fact that a child born there was kept in the institution for 7 years.

At present, owing to the recent publicity given the training school, many alterations are in prospect and a much delayed appropriation of $100,000 which appears in the appropriation bill of 1937 will go far to bring about very much desired improvements.

We were happy to meet Dr. Carrie W. Smith, the superintendent, who conducted us through the institution and explained the great lack of facilities. We believe Dr. Smith is well qualified and will make a very good superintendent; we commend her for what she has tried to do and sincerely hope we shall be able to cooperate with her to bring about the very many changes that are absolutely necessary.

In conclusion may I say that the situation of the school is fine and nothing better could be desired. There are large grounds but no playgrounds. The grounds could be used for very definite recreational purposes which would help in building up the physical condition of the inmates. It is suggested that considerable work be done along this line. It must be borne in mind that these girls are not criminals; they have been sent to this institution for correction.

It is also suggested that there be a definite division between first offenders and girls who have previously been sent there.

It is also suggested that a comprehensive program be established toward rehabilitation, keeping in mind the necessity of preparing the inmates for work when they are released.

It is also suggested that since this report is too late to be presented to the District Committee this year, it having concluded its meetings, this matter be gone into very thoroughly when the Seventy-fifth Congress convenes.

I believe it would be safe to say that in no other city of this size in the Nation could be found so intolerable a condition as has been that of the National Training School for Girls in the District of Columbia.

MARY T. NORTON,
RANDOLPH CARPENTER.

INTEREST RATES ON FEDERAL LAND-BANK MORTGAGES SHOULD BE REDUCED

Mr. GILCHRIST. Mr. Speaker, 9 days ago a new issue amounting to $83,000,000 of consolidated Federal land-bank bonds was offered to the public for the purpose of refunding an old issue of approximately $83,125,000 of 4¼-percent individual bonds of the Federal land banks. These new consolidated bonds bear 3-percent interest and were offered at 100¼, and are callable in 9½ years, and are callable on January 1, 1946, and mature 10 years thereafter. Before noon of the day of the offering these new bonds were heavily oversubscribed. These facts should bring us to a consideration of the attitude of the Federal land-bank system with regard to the interest rates which are charged to farmers on land-bank mortgages. We recently had before us the Frazier-Lemke bill, which provided for the payment of interest at 1½ percent per annum, with amortization payments at an equal installment of 1½ percent per annum. The bill met defeat, although I believe it would have been of great benefit to the farmers of the country who are in distress and whose farms have been or are about to be taken away from them under foreclosures and sheriffs' sales.

At this time I do not care to call attention, except in a very brief and abstract way, to facts which show that the farmer still remains in submergence and that he is not yet on economic parity with other industries. Farm prices and farm lands have fallen. It is true that some improvement in prices

of farm products is noticeable over 1932. How much of this increase is due to agricultural legislation is a matter of doubt, but I am willing to give whatever credit is justly due to the laws which I have helped to pass here in Congress. But undoubtedly some of this increase—perhaps a major part of it—is due to other things, as, for example, the unprecedented drought which recently prevailed, and which served to raise the unit price of all farm products.

The last report as of May 15, 1936, issued by the Bureau of Agricultural Economics, shows that the ratio of prices received by farmers to the prices paid by him stands at 85 percent only, this comparison being based upon the standard formula of using the 5-year pre-war average from August 1909 to July 1914 as a base, and this figure does not take into consideration the enormous increase in the amount of taxes which the farmer is compelled to pay. He is not at parity, but on the contrary is competing in an economic race while carrying a handicap of 15 points. He is running, as it were, in a race with a 15-pound ball chained to his feet.

One of the things that will help him materially is to reduce farm-mortgage interest rates. Heretofore Farm Credit Administration rates have been 4½ percent and 5 percent and more. As early as April 1933 I offered an amendment to a bill pending on the floor of the House of Representatives which proposed to fix interest rates at 3½ percent upon Federal land-bank mortgages. This amendment was promptly beaten by a vote of the House taken at that time. Since that time Congressmen from the farm States have been pressing the matter. We were partially successful last year when we were able to fix the Federal land-bank mortgage interest rates at 3½ percent for 1 year only, but this law expires on the 1st of July 1936. A new bill, known as the Gillette bill, H. R. 10101, was introduced early in the present session and was referred to the Committee on Agriculture, of which I am a member. I had the honor of moving that the committee make a favorable report on the bill, and with the help of the chairman and others it came upon the floor of the House and was passed on May 4, 1936. It provided that these Federal land-bank mortgages should bear 3½ percent only until July 1, 1938, at which time the whole law will need to be rewritten. The Senate amended and passed this bill on June 1, and the House concurred in the Senate amendment and finally passed the bill as amended on June 16, 1936.

Those of us who were supporting the lower rates for farmers were compelled to accept the Senate amendment, although it was not entirely satisfactory because it restored the old contract high rates after July 1, 1937. However, the friends of the measure believed that they would be compelled to accept the Senate amendment or else that all legislation regarding the matter would fail because the Congress was about to adjourn and we felt that we could not get a conference committee between the House and the Senate to agree upon such a measure as we wanted and pass it before the final adjournment of the Seventy-fourth Congress scheduled for today.

I am stating these facts principally for the purpose of calling attention to the very imminent need to remedy this law and amend it again during the next succeeding or Seventy-fifth Congress when it meets in January. I do not hesitate to say that the farmers are entitled to this relief, and I am sorry that the lawmakers have seen fit to refuse to allow them a cheaper rate than 3½ percent and to refuse to allow even this rate to run for more than 1 year.

We must save our farm homes for those who raise the food that we eat. I believe that society does not have any moral right to eat bread unless it pays the cost of producing that bread and, in addition, allows a profit to the producer so that he will be put on an equal parity with men in all other industries. Reduction of interest rates on farm mortgages will help to accomplish this.

Now I charge that the Government of the United States is not doing its duty in this respect. It issues Federal Farm Mortgage Corporation bonds, which are really bonds of the Government itself, and these are issued at very low rates of interest. Then the Government turns around and acquires Federal land-bank bonds which bear high rates of interest. As a result of this transaction, the Government has made a big net profit amounting to the vast sum of $23,393,639, as shown by a report made by the Farm Credit Administration as of March 31, 1936, which has just been released during the past 2 days. And the Government can continue from time to time to float Federal Farm Mortgage Corporation bonds at very low rates. It has made profits heretofore and it will continue to make them hereafter. This profit is based upon the spread between the low rate which it pays upon its flotation of Mortgage Corporation bonds and the high rate which it receives from the consolidated Federal land-bank bonds.

I repeat that the Government acquires bonds of the Federal land banks which are secured by the farmer's mortgage and which are known as consolidated Federal land-bank bonds. These bonds draw interest as high as 4 percent and even more, and this high interest rate is paid to the Government. Then it turns around and, under the name of the Federal Farm Mortgage Corporation—which is really Uncle Sam—floats huge sums which bear interest at rates running from 1½ percent to 3 percent. There it is making a profit in no case less than 1 percent and in many cases more than 1 percent on these Farm Mortgage Corporation bonds, amounting in the aggregate to more than three-quarters of a billion dollars. Now, I submit that the Government has no right to exploit the farmers in such a way and that we must remedy the faults of this unjust practice. We did something toward a remedy last year, and we are now giving some help for next year. But the basic facts remain: Uncle Sam does not treat others like this and he must not be allowed to treat farmers in such a manner.

GOOD-BYE

Mr. SIROVICH. Mr. Speaker, under leave to extend my remarks in the RECORD I include the following:

MR. SPEAKER BYRNS, GOOD-BYE

(THE TRIBUTE OF AN OLD FRIEND)

Mr. Speaker Byrns, good-bye;
You've laid the gavel down;
Your race is run, but you have won
The goals of high renown.

Good-bye, old friend, good-bye;
Loved by your countrymen,
Long shall it be before they see
The like of you again.

Good-bye, old pal, good-bye;
Your worth shall never wane;
It may be best—you are at rest
From all of care or pain.

No points of order now;
Nor rulings, wise, to state;
No more your poise to quell the noise
Of strife and fierce debate.

No more the bells shall sound,
The quorum's need to tell;
No more the beat of hurried feet
In corridor and Well.

Tho' long your blood and life,
These things ye cease to know;
The voice was clear, you answered "Here!"—
Your last roll call, my Joe.

Mr. Speaker Byrns, good-bye;
You've laid the gavel down;
But in its place, by Heaven's grace,
You bear a deathless crown.

—*Anonymous.*

THE COMMUNISTS' WATERLOO

Mr. BLANTON. Mr. Speaker, the Communists of Russia, of the United States, and especially of Washington, D. C., are a disappointed, disgruntled, bedraggled bunch of thoroughly whipped agitators tonight. With the sine-die adjournment of this Congress they have met their Waterloo. Their plans went awry. Their strenuous intrigues and conspiring efforts met no success. They failed ignominiously.

COMMUNISM IN SCHOOLS STOPPED JULY 1, 1935

The law I got Congress to pass to prevent communism from being indoctrinated in the public schools of Washington became effective July 1, 1935. There was ample basis for passing such a law.

Early in my service here a teacher in the Western High School was suspended 1 week for trying to indoctrinate communism in her English class. Later, on May 3, 1924, 4 years after Dr. Frank W. Ballou became the $10,000-per-year superintendent of the Washington schools, it was necessary for Congress to pass a law to stop communism from being taught by his corps of teachers, Congressman Summers then declaring that he had spoken to a number of Members, and that it was an exception to find one who did not say that his children had come to him with complaints against teachers who were teaching "disrespect to the Holy Bible" and "that ours is an inferior form of government", which are doctrines of communism. That law expired July 1, 1926.

In 1928 the Board of Education conducted an investigation of communism, and the Washington Post in its issue of April 3, 1928, stated that Communist activities had been discovered in the Columbia High School, the MacFarland High School, the Central High School, and the Business High School.

On March 16, 1936, the Federation of Citizens Associations, embracing 63 different organizations of citizens in Washington, ascertained that a man who had been advertised by the Moscow University in Russia as having some connection with its summer school had been employed by the Board of Education to deliver lectures on so-called character education, but in fact was on the subject of "a new social order" which required the teacher's philosophy of education "to be changed fundamentally", he being paid $50 and expenses per lecture, out of funds furnished by Congress, and said Federation of Citizens Associations petitioned my subcommittee not to appropriate any more money for so-called character education, and to pass a law forbidding communism to be indoctrinated in the schools. It was upon such petition that we passed the law, which became effective July 1, 1935.

On November 12, 1935, said Federation of Citizens Associations appointed a committee, Hon. George E. Sullivan as chairman, Hon. Harry N. Stull, Mrs. George Corbin, and Mrs. Horace J. Phelps, to investigate communism and to eliminate subversive books from the schools.

On March 28, 1936, after an exhaustive investigation, said committee reported to said Federation of Citizens' Associations that there had been found "an abundance of antipatriotic and procommunistic matter in the schools, and also matter tending to "seriously affect and undermine fundamental morals of the pupils in the matter of sexual relations", and recommended that no more money should be appropriated for so-called character education, and that said law stopping communism should not be repealed. That committee report was adopted by the Federation of Citizens' Associations.

PROPER FACTUAL INSTRUCTION ALLOWED

The chief legal authority of the District of Columbia, Judge Prettyman, ruled that the said law we passed did not in any way prevent proper factual instruction, but that it prevented any and all attempts to indoctrinate communism.

COMMUNISTS DEMANDED REPEAL

We were not surprised when Communists demanded that this law be repealed. We knew they would not like it. We knew it interfered with their plans. We knew they would be angry. We knew they would attack us for passing the law. We knew such law would make us incur their everlasting enmity.

But in order to stop communism from being indoctrinated in the schools, we were willing to accept the consequences.

It was, however, a great surprise to us that lined up with the well-known Communists, and Communist newspapers of the country all clamoring for repeal, we found Superintendent Frank W. Ballou, the Board of Education, the Teachers Union—affiliated with the American Federation of Labor—the gentleman from Washington [Mr. ZIONCHECK], the gentleman from California [Mr. SCOTT], the gentleman from New York [Mr. SISSON], the gentleman from New York [Mr. MARCANTONIO], the gentleman from Texas [Mr. MAVERICK], the gentleman from Maine [Mr. BREWSTER], the gentleman from Indiana [Mr. SCHULTE], the gentleman from Maryland [Mr. KENNEDY], and the gentlewoman from New Jersey [Mrs. NORTON], chairman of the District Committee, aided and abetted by the five Washington newspapers and the National Education Association, and finally by the Member from Illinois [Mr. KELLER].

Notwithstanding the fact that at the time said law was passed it was read in the House by the Clerk and regularly passed without one voice being raised against it, and likewise was read in the Senate by the clerk there, and regularly passed by the Senate without a voice being raised against it, and was signed by President Franklin D. Roosevelt, who carefully studies every bill before he approves it, the abovenamed Representatives all claimed they did not know anything about its passage. They could justly blame no one but themselves for not knowing about business regularly passed by the House of Representatives.

THE "SISSY BILL"

The gentleman from New York [Mr. SISSON] introduced a bill to repeal said law, so that the 3,169 officers and teachers in Washington could teach what they pleased, and could lawfully indoctrinate communism if they desired. It was well nicknamed the "sissy bill."

For months efforts have been made to pass the "sissy bill." We have fought them back at every step. We have prevented them from passing it on a regular District day. We have opposed their efforts to get a special order. We have opposed their attempts to obtain a special rule. We have watched them on the House floor constantly for several months to prevent them from getting the repeal bill up under unanimous consent. We have watched a companion bill in the Senate and have arranged with Senators to stop its passage there.

And the "sissy bill" did not pass. The "sissy bill" is dead. It died with the sine-die adjournment.

A GREAT VICTORY FOR AMERICANS

Mr. Speaker, the burial of the "sissy bill" is a great victory for Americanism. For, by killing this bill, we still have a law that prevents the indoctrination of communism in our public schools.

We have won another victory for Americans. My subcommittee prevented any appropriation being made for so-called character education, which money amounting to about $80,000 per annum for the last 2 years, has been perverted and used for subversive purposes. Communism must be removed from our schools. Superintendent Ballou and his Board of Education must instruct the 3,169 officers and teachers that they must obey the law as construed by Corporation Counsel Prettyman. If they refuse to do so, we will find a proper and lawful way to place in charge a new superintendent of schools and a new Board of Education.

OPPOSITION FOR REELECTION

Because of their chagrin in being completely whipped in their efforts to repeal the law that prevents communism from being indoctrinated in the local schools, which all of the Washington papers except Hearst's have daily advocated, and because I have refused to obey the orders of the Washington Board of Trade and the five Washington newspapers, and have resisted their efforts to take out of the United States Treasury the sum of $17,000,000 under their old 60–40 steal and apply it to payment of the annual taxes of Washington people, who pay less taxes than any other people in the world, it is reported here that they have raised a large campaign fund, estimated to be $25,000, which is to be sent into my district in efforts to defeat me. I am deeply indebted to the Washington Herald for telling about it. Forewarned is forearmed. I am checking up on them and am watching them. I am going to know how they spend this money, who spends it, what it is spent for, and am going to see to it that a proper report of it is made under the Corrupt Practices Act. Things have come to a pretty pass when a man is to be punished for having done his duty. The following will show my attention to duty:

CERTIFICATE FROM TALLY CLERK

WASHINGTON, D. C., *June 20, 1936.*

I hereby certify that during this session of Congress, adjourning tonight, there have been a total of 136 roll calls in the House of Representatives, and that Congressman THOMAS L. BLANTON has answered each and all of said 136 roll calls.

HANS JURGENSEN, Jr.,
Tally Clerk, House of Representatives.

Notwithstanding the fact that Dr. Townsend and his leaders, who took from aged poor people about $1,250,000 they could ill afford to lose, said that "fires must be built under BLANTON, of Texas, and BANKHEAD, of Alabama", and that all precincts in our districts must be organized against us, I want to show that the man in Congress whom Dr. Townsend depended upon to introduce and pass his Townsend plan, Congressman MCGROARTY, who is a magnificent gentleman, and whom every Member in Congress loves, does not agree with the Washington Board of Trade and the five Washington newspapers:

LETTER FROM CONGRESSMAN JOHN STEVEN M'GROARTY, AUTHOR OF THE BILL FOR THE TOWNSEND OLD-AGE PENSION

HOUSE OF REPRESENTATIVES,
Washington, D. C., June 16, 1936.

Hon. THOMAS L. BLANTON,
House of Representatives.

MY DEAR COLLEAGUE: I have learned with much regret that certain interests are opposing you in your district for reelection to Congress. I trust that the people of your district will not permit themselves to be deceived by such opposition, which, in my judgment, is unwarranted and unwise.

I would think that your constituents have learned by this time of your value to them and to our country in your long service in Congress. I have watched you closely during the sessions of the Seventy-fourth Congress, and, as your fellow American, I would consider your defeat as really in the nature of a national calamity.

Watching you closely as I have done in all your actions and utterances, I do not hesitate to testify now not only to your honesty of purpose on all occasions but as to your outstanding ability as a legislator. God knows there are not too many men in public life possessed of your fearlessness and ability, and men of your caliber are needed now in Congress more than at any other time almost in our country's history.

While we have disagreed to some extent on the merits or wisdom of the Townsend old-age-pension plan, I am glad to state that I have found you candid and honest in your criticism, but at the same time sympathetic with the principle of old-age pensions.

Please accept my sincere good wishes for your success and believe me always to be,

Faithfully yours,

JOHN STEVEN MCGROARTY.

THE RAILROAD EMPLOYEES' PROTECTIVE AGREEMENT

Mr. MEAD. Mr. Speaker, 138 railroads and 20 standard railroad labor organizations reached an agreement recently which will provide financial protection for railroad employees whose jobs might be jeopardized through future railroad coordination and consolidations.

This agreement has been hailed as a national achievement by the President of the United States, the Secretary of Labor, Railroad Coordinator Eastman, William Green, president of the American Federation of Labor, labor spokesmen in Congress, and by leaders of labor throughout America, because it constitutes the first pact of its kind ever negotiated to cover an entire industry in adjusting the differences between employers and employees and in applying the principle of collective bargaining.

This victory for labor obviates the necessity for enactment of the Wheeler-Crosser bill, which has been strongly advocated in this session of Congress. In its provisions, it carries out the intent of the Wheeler-Crosser bill.

The 5-year agreement which has been reached voluntarily between the carriers and employee organizations requires that the railroads give 90 days' written notice to employees who are to be affected adversely by consolidations. Thirty days after the notice has been given, the company is to meet with the labor representatives to work out the situation. Disputes over the displacement of employees are to be handled through machinery set up in this agreement.

There will be no reduction in the compensation of an employee if, as a result of a consolidation, he is placed in a job affording a lower wage. Displaced employees will be given certain "allowances" which range from 60 percent of their wages for 5 years to those men who have 15 years or more service; to 2 months' full wages to men with 1 year's service. These men will hold full rights insofar as reemployment, hospitalization, and similar privileges are concerned.

In cases where the employee chooses to accept a lump-sum settlement he must give up his rights to reemployment, and so forth, but if he has from 5 to 15 years' service he will receive the equivalent of 1 year's full pay. Under this plan for those who have less than 5 years' service the lump-sum payment is progressively less.

Another important provision of the agreement provides that moving expenses and property losses sustained by transferred employees shall be borne by the carriers.

Especially vital to the agreement is the clause wherein the 138 carriers who signed the pact agree not to coordinate with any of those carriers which did not participate in the agreement. Several railroads, mostly from the southern part of the country, did not send representatives to the conference at which the agreement was reached. It is expected that these companies will shortly become parties to the agreement but in the meantime the signatories are bound not to coordinate with such companies until such time as they do definitely agree to the terms of the pact.

The cooperation which made possible the consummation of this agreement speaks well for labor's future and points the way for similar agreements in other industries.

It is an epoch-making agreement which blazes a new trail in the field of labor relations. The railroad representatives who cooperated in the consummation of this agreement are to be congratulated. The chief executives representing the Standard Labor Organization displayed a brand of statesmanship unrivaled in the annals of labor's progress.

PRESENT STATUS OF THE FIGHT FOR FEDERAL ANTILYNCHING LEGISLATION

Mr. LUDLOW. Mr. Speaker, it is to me a source of much regret that the Seventy-fourth Congress is adjourning without enacting a Federal law to curb the dreadful crime of lynching.

The satanic work done by lynching bees is enough to make the cheeks of every true American turn crimson with shame.

The utter heartlessness and cruel savagery so often exhibited by mobs in torturing their cringing victims must create envy and jealousy among the fiends of hell. Such acts as are committed when the devil takes control of a mob comprise the "perfect crime" against civilization.

The crime of lynching is the ugliest, the blackest, the foulest blot on civilization, and our failure to take effective steps to wipe it out is a burning national disgrace.

If we Members of Congress were actuated, as we should be, by the dictates of humanity; if we were controlled, as we should be, by the spirit and precepts of Christianity, we would do something to suppress this monstrous evil.

There is power in the Federal Government to handle this situation if Congress will enact the necessary statute applying penalties to communities that tolerate lynchings. If communities were made liable in damages for every such outrage against humanity, lynching would cease to be popular and lynchers would not go unwhipped of justice as often they now do, and there would be a rapid drop in the number of lynchings.

On the opening day of the recent session I introduced an antilynching bill, which would reach this evil with penalties so drastic that it would insure a discontinuance of such outrages. It was referred to the Judiciary Committee, along with a number of similar bills, all aimed at the crime of lynching.

When the session drew toward its close and it became apparent that the committee was not disposed to act on these bills, Walter White, secretary of the National Association for the Advancement of Colored People, wrote to me from New York as follows:

In our opinion, a declaration of party policy by the Democratic Party on antilynching legislation at this time would do more than any other single thing to check lynchings and to insure action by the Congress.

On the heels of his letter Mr. White came to Washington with a petition already prepared calling a caucus of Democratic Members of the House to consider the subject of antilynching legislation, and he asked me if I would sign it, to which I replied:

Certainly I will sign it, and I will do everything I can to support the petition, though I do not believe that sentiment is far enough developed that we can hope for favorable caucus action now.

I was the first Member he approached, and I was the first Member to sign the petition. In a letter to me, dated March 27 last, Mr. White said:

We are deeply grateful to you for your interest, and are especially appreciative of your being the first person to sign the petition to the leader of the caucus, and your cooperative spirit throughout.

The requisite number of signatures was secured and the caucus was held, but it failed to accomplish anything on account of lack of a quorum.

Thereupon we decided to avail ourselves of our parliamentary rights to file a discharge petition to discharge the Judiciary Committee from further control over antilynching legislation and to bring it before the House for debate and a vote. Discharge petition no. 32 was filed at the Speaker's desk by Representative GAVAGAN, of New York, to force a report on H. R. 5, Mr. GAVAGAN'S antilynching bill.

A discharge petition does not become effective unless or until it is signed by 218 Members of the House, a majority of Members of that body. After the required number of signatures is secured, 7 days must elapse before the bill can be taken up in the House. Two hundred and eighteen Members, the required number, signed the Gavagan petition, but Congress adjourned sine die before 7 days had elapsed and the bill never was brought up for a vote.

For my interest in antilynching legislation, and particularly for my active support of his discharge petition, I have been rewarded with a letter from Mr. GAVAGAN, which I treasure and which is as follows:

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, D. C., June 17, 1936.

Hon. LOUIS LUDLOW,
House of Representatives, Washington, D. C.

MY DEAR MR. LUDLOW: I wish to take this opportunity to express my appreciation for your cooperation in procuring the discharge of the Judiciary Committee on my antilynching bill (H. R. 5). Without your signature to this petition it would not have been possible to discharge the committee, and I wish you to know that I am very grateful.

No matter what honors may come to you in the future, I am quite certain that you will look back to your signature on this petition, seeking justice instead of mob rule, as one of your finest contributions to your country.

Again assuring you of my appreciation and esteem, I remain,
Sincerely yours,

JOSEPH A. GAVAGAN, M. C.,
Twenty-first District, New York.

Right is not going to be forever on the scaffold, and wrong is not going to be forever on the throne. Sometime the Congress of the United States will take this monstrous evil of lynching in hand and suppress it. I will be happy if I may contribute toward that end. If I am reelected to Congress I shall reintroduce my antilynching bill on the opening day of the next session, and I shall press it with all the vigor I can command for the earliest possible consideration.

BONDHOLDERS' INVESTIGATING COMMITTEE

Mr. COCHRAN. Mr. Speaker, the chairman from Illinois, Mr. SABATH, a few moments ago made a very interesting address to the House, in which he reviewed the activities of the so-called Bondholders' Investigating Committee, and during the period of that speech emphasized the fact that he would be unable to have considered before adjournment either of the two bills that he has introduced which we all hoped would correct the evils disclosed by his committee.

First, I want to take this occasion to commend not only Mr. SABATH but the entire personnel of the special investigating committee for its wonderful accomplishments. No one can deny that as a result of the disclosures operations by crooked bondholders' committees were checked; and that meant a saving of an unestimated amount to the people of this country, but it ran up into the hundreds of millions of dollars.

Every time that this committee is mentioned I think of the losses that my own constituents suffered. I happen to represent a class of people who are thrifty. They are not capitalists or great industrialists, but a hard-working class. They were attracted by the unusual high interest rate of the bonds that were sold for the construction of all types of buildings, and they purchased bonds from their meager savings. There was one outstanding group of American citizens of Polish descent who were induced by a clever salesman to invest in these bonds, and they lost every dollar that they invested. I feel confident that if we had a law such as Mr. SABATH and his committee now desire passed their life savings would not have been wiped out. We have other groups in St. Louis that have suffered—in fact, millions of dollars were lost in my city not only by the people of my district but by the people of adjoining districts, as it was a fertile field for the sale of bonds of this character during the period that the country was running wild. I merely mention this to show my intense interest in the welfare of this committee, but the real purpose of my remarks is to call the attention of the House to just what happened in regard to the appropriation of money to be used by this committee in furthering its investigation.

As I recall it, the committee received several appropriations.

As the members of the committee know, when an application was made for $50,000 additional the last time they applied for financial assistance, there was a group in the House that absolutely was opposed to the continuance of the committee. There were members of the Committee on Accounts that felt that the committee should make a final report without getting more money. The committee had shortly before held hearings in St. Louis, and I knew of the good work that was being done and therefore I was in favor of continuing the investigation. I took the position that this committee was not going to cost the Government of the United States a dollar, but on the contrary it would bring money to the Treasury because of the information furnished by this committee to the Treasury Department a large amount of additional income taxes would be collected which would far offset the small amount that the Congress had allocated to the committee for investigating purposes. Mr. SABATH introduced a resolution requesting $50,000. There was strong opposition to his resolution, but as he knows, I took the lead and made a fight for an additional appropriation. Mr. SABATH personally told me that if we could not get the $50,000 he would be willing, if necessary, to take $25,000, but it would cripple his investigation. I asked him if $35,000 would be helpful, saying, as there was a fight among members of the committee and there was strong opposition in the House, naturally it would be to his best interest to effect some kind of a compromise. He replied that he would be most happy if he could get the $35,000.

The Committee on Accounts held a hearing. Mr. SABATH, Mr. FULLER, of Arkansas; Mr. MCLEAN, of New Jersey; Mr. O'MALLEY, of Wisconsin; Mr. DIRKSEN, of Illinois, were among the members of his committee who appeared and testified. Every one of the members of his committee were asked the question if additional appropriation was made, would they be able to make a final and complete report. Their unqualified answer was "yes." That question was asked for the purpose of showing that this would be the last appropriation they would request.

When the committee voted on the resolution, one member, who everyone thought was sympathetic with the investigating committee, offered an amendment to reduce the amount to $10,000 additional, with the promise that no additional appropriation would be made. I personally offered an amendment to this amendment, providing for an appropriation of $35,000. After a heated discussion my amendment carried and I was ordered by the chairman to call up the resolution in the House.

A group was going to fight this resolution, but after I conferred with them and assured them that this would be the end and I was authorized by the chairman and members of the investigating committee to make the announcement, they agreed not to oppose the resolution. I controlled 1 hour of time on the resolution, and after opening the debate I yielded time to Mr. SABATH, Mr. FULLER, Mr. MCLEAN, and to Mr. DIRKSEN, all members of the investigating committee.

The RECORD will show that we all were questioned by Members of the House and were required to show that if the resolution passed we would not bring in another resolution appropriating additional money, and Mr. SABATH stated that the committee would make a complete and final report, as well as introduce bills to correct the evil.

I remember distinctly being asked by the minority leader, Mr. SNELL, if this would be the last appropriation, and when I replied that it would I was further required to state that I personally would oppose any effort to provide an additional sum. This was absolutely necessary in order to prevent opposition to the resolution, and now I cannot place myself in a position, Mr. Speaker, of making a promise to this House and then going back on that promise.

I merely wanted the RECORD to show that I approve of the investigation, that I supported the request of the committee for money to carry on its investigation, and feel that I was more responsible than any member of the Accounts Committee in securing favorable action on the last appropriation of $35,000.

Investigating committees many times bring no good results. The money that we have appropriated for this committee, however, has been very well spent and I predict now that some legislation will pass next session that will for all time curb this evil. In conclusion let me say there is a strong belief that the present Securities Act is so drawn that it will prevent many of the unethical practices which promoters have been engaging in and which were the subject of the investigation.

BENEFITS WHICH VARIOUS STATES EXTEND TO VETERANS AND THEIR DEPENDENTS

Mr. HOEPPEL. Mr. Speaker, I desire to bring before this body some very interesting data regarding the steps that have been taken by various States to assist veterans, widows, orphans, and so forth, with a view to providing other Members information which should be very useful to them in handling voluminous correspondence from such sources.

As a member of the Committee on Pensions and the Committee on World War Veterans' Legislation; as the founder of the Retired Men's News, a paper which enjoys a wide circulation among veterans throughout the Nation; and as one who has taken a leading part in veteran affairs by introducing various measures designed to assist those in these categories in many ways, I am naturally in receipt of more correspondence on this subject than is the average Member. Knowing that I am a veteran of two wars and that I am familiar with military administration as well as the Veterans' Administration, and because of my many years of service in the Regular Army as an enlisted man, other Members frequently refer to me letters that they receive from veterans. Consequently, the voluminous correspondence which I receive from all sources on this subject has prompted me to do considerable research in order to eliminate routine and insure prompt replies to all letters received.

Following is a list of veteran benefits provided by the several States, also a recapitulation of additional benefits regarding which information is frequently sought by Members for their constituents:

SOLDIERS' HOMES MAINTAINED BY STATES

California: Veterans of any war now admitted to the home. Additional funds have been appropriated for new building.

Connecticut: World War veterans now eligible for admission to State homes and the wives and dependent children receive a monetary allowance while they are domiciled at the home.

Idaho: Ex-service men of the World War now admitted to the State home.

Iowa: State home maintained for veterans, wives, and children.

Kansas: World War veterans now admitted to State home.

Michigan: World War veterans admitted to State home.

Minnesota: Benefits of State home extended to veterans of World War and their dependents under certain conditions.

Montana: Disabled veterans admitted to State home.

Nebraska: Soldiers and Sailors Home admits veterans of the World War who are disabled and incapable of earning a living. Their dependents are also admitted under certain conditions.

New Hampshire: Home maintained for care of disabled, needy, diseased, and aged veterans.

New Jersey: Veterans and widows admitted to State home.

New York: World War veterans now admitted to State home.

Ohio: Home maintained for such of the disabled veterans as are unable to earn a living.

Pennsylvania: Home maintained for disabled and indigent veterans of any war.

Rhode Island: Home for disabled, diseased, feeble, and indigent veterans.

South Dakota: Soldiers' Home at Hot Springs admits veterans who were incapacitated; also wives or widows who are over 60 years of age.

Washington: Any veterans, if 25 percent disabled and indigent and who has been a resident of the State 3 years or more, is eligible for domiciliary care and hospitalization at the State home.

HOSPITALIZATION

Michigan: The State pays $1 per day, and the county of which the veteran is a resident pays $2.10 additional per day, for treatment of all cases of tuberculosis. General hospitalization now under consideration by State authorities.

Nevada: State hospital provides separate quarters for treatment of shell shock and mental disorders.

New York: State hospital constructed for the sole purpose of caring for and treating veterans of the World War.

Oklahoma: Considerable funds available to cover cost of treatment of disabled veterans and their dependents.

Pennsylvania: State-aided hospitals treat all veterans who are awaiting Federal hospitalization.

Wisconsin: Hospitalization, medication, and surgical treatment provided at cost for veterans, who are given preference in admission.

HOME AND FARM PURCHASES

California: To enable veterans to purchase farms or homes the State enacted a law which enables veterans active in the service in time of war and who were residents of the State when they entered the service to select a home—maximum value, $5,000—or farm—maximum value, $7,500—in California, the State assisting the veteran in the purchase. The State buys the property for the veteran, accepting a down payment of 5 percent of the cost of the home, or 10 percent of the cost of the farm, as the case may be, amortizing the balance over a period of 20 years at 5-percent interest, in monthly or yearly installments, there being no taxes on the property thus acquired. Five percent of the cost is charged by the State for services rendered.

Colorado: State land settlement board assists veterans in settlement upon lands within the State for agricultural purposes.

Idaho: Ex-service men given preference in land grants.

Oregon: Land settlement commission provides useful employment and opportunity to acquire farm houses with profitable livelihood on the land for veterans.

EDUCATION OF THE DISABLED

California: State appropriation of $500,000 to aid veterans to continue their education, a maximum of $1,000 being allotted to individual veterans to cover payment of tuition and other fees or an amount for living expenses incident thereto, not to exceed $40 monthly.

Colorado: State educational loan board loans as much as $200 to veterans within the State for a period of 5 years, to be used for educational training in State institutions.

Connecticut: Education of blind veterans provided at expense of State.

New York: Vocational training of the disabled provided by the State. Outright grant of $500 each year to each blind veteran.

New Jersey: State law provides for rehabilitation of all veterans who are incapacitated.

South Carolina: All veterans granted free tuition in State college.

WELFARE WORK

Idaho: State welfare commission renders emergency assistance to disabled and destitute ex-service men and their dependents.

Illinois: Appropriation for care of indigents and all needy veterans.

Kansas: Destitute ex-service men and their wives, widows, or children under 14 provided with necessities of life at their own residences.

Maryland: State appropriation for temporary relief of veterans of all wars.

Massachusetts: Financial assistance given veterans and the widows and children of veterans.

Michigan: Financial assistance given veterans in emergency.

Minnesota: Department of soldier welfare for relief of disabled veterans and the dependents of veterans.

Nebraska: Endowment fund of $2,000,000 appropriated by the State to aid disabled and needy ex-service men and the wives, widows, or children of same.

New Hampshire: Needy ex-service men and dependents cared for in their own homes, if necessary, or at the State home.

New York: Liberal cash allowance for all sick or disabled veterans, residents of the State, and their dependents, provided they receive no assistance from the Federal Government.

Oklahoma: Soldiers' relief commission well supplied with appropriated funds for disabled veterans.

Pennsylvania: Large fund for direct relief of indigent veterans and their dependents.

South Dakota: Relief given sick and disabled veterans until they can be provided with vocational-training facilities or Federal hospitalization.

Vermont: Sum available to aid indigent and disabled veterans who are unable to avail themselves of the privileges of the State home.

Wisconsin: State aid given ex-service men, their wives, widows, or helpless children in emergency.

States	Burial allowance	Headstones	Free or reduced vending-peddling license	Discharge recording and record certification	Free notary service	Civil-service preference	Maximum tax exemptions		Financial aid to indigents	Relief provided for the children of veterans by the States

THE FEDERAL LAND-BANK SYSTEM—ITS OWNERSHIP AND CONTROL

Mr. GILCHRIST. Mr. Speaker, the farm-loan system, as organized under the act of 1916, was nonpartisan and cooperative. It was established after an American commission went abroad in 1913 to study European land-credit systems. The chairman of this commission was the late Senator Fletcher, of Florida. Upon its return the members filed their report with Congress, declaring that all successful European systems of farm credit strictly followed the cooperative principal of farmer ownership and farmer control. After 3 years of further study from 1913 to 1916, during which time the Governors of all of the States and prominent farm leaders were invited to advise the commission so that the European plan might be adapted to the different American conditions, the act was finally passed and it adopted these cooperative principles.

To preserve the nonpartisan character of the supervisory authority of the system a Farm Loan Board was provided, with the restriction that the President could not appoint more than one-half of such board from any one political party. This Board was given broad supervisory powers. Twelve Federal land banks were organized. Before the New

Deal came into power in 1933 the directors of these banks were chosen as follows: Three were appointed by the Federal Farm Loan Board, three were elected by national farm-loan associations, and a director at large was selected by the Farm Loan Board from the three highest nominees of all of the associations. In this manner and because of this set-up full recognition was given of the cooperative principle of management.

The most important cooperative units, of which there are now 5,000 in the United States, are the national farm-loan associations, in which full powers of local control were granted by the original Farm Loan Act. These associations have guaranteed all the loans of their neighboring farmer members. Each borrower has subscribed for 5 percent of the amount of his loan in the stock of his association, and the associations have in turn subscribed an equal amount of stock in the Federal land banks. Individual farmer borrowers own all of the stock of the national farm-loan associations. Their investment now amounts to $113,000,000.

But what happened in 1933 upon the coming into power of the present Democratic administration? The Farm Loan Board was abolished and all the powers for 17 years exercised by that Board were transferred to the Governor of the Farm Credit Administration, an appointee of the President. Before 1933 these national farm-loan associations elected four of the seven directors of each Federal land bank, but the New Deal legislation of 1933 permits them to elect only one out of the seven. Four are appointed by the Governor of the Farm Credit Administration, one is selected by the production-credit associations, and one by borrowers from banks for cooperatives, although neither of the last two named institutions own a dollar of stock in any Federal land bank. Furthermore, these national farm-loan associations, being cooperative organizations, are now required to sign contracts with the Federal land banks and the Farm Credit Administration stipulating that such associations shall at all times have and keep in office a secretary-treasurer satisfactory to the bank. Hence it will be seen that in place of a nonpartisan system we now have a perfect piece of machinery for absolute political control of this $2,000,000,000 institution upon which the farmers depend and for which they have subscribed over $100,000,000 in stock under the representation and belief that they would have the ordinary element of stock ownership, to wit, management control.

We now have what may well be made in a Republican administration a Republican farm-loan system and in a Democratic administration a Democratic farm-loan system. Let us look at the set-up. The President appoints the Governor of the Farm Credit Administration, who is given no definite term of office under the law, and who can be cashiered at any time. This Governor appoints a general agent to represent him in each Federal land bank. There is no such officer mentioned in any of the farm-credit legislation from 1916 to date, but nevertheless the agent is appointed. The Governor of the Farm Credit Administration, through his personal appointee, the general agent, and through the four directors of each land bank, directly appointed by him, and the two directors from institutions in which the Government owns at least 90 percent of the stock, has complete power over the policies and personnel of every Federal land bank. More than that, under this new contract, through which associations are required to select secretary-treasurers satisfactory to the bank, these associations may likewise be politically dominated by Washington.

I cannot say what the change from a nonpartisan to a partisan system has cost the farmers of the United States. The trained executives of the Federal land banks, with years of experience prior to the advent of the New Deal, have been forced to accept personnel from outside of their districts uninformed as to conditions and oftentimes theoretically instead of practically minded about farm-credit problems. These acts on the part of the present administration toward this credit system are wholly unjustified. The farmers in the eighth Federal land-bank district of Omaha, including my State of Iowa, have paid $21,000,000 for the stock of that bank, being 75 percent of the total capital stock, yet they are permitted to elect only one director, and the policies are under the complete control of a Washington bureau. This violates all cooperative principles and is in flagrant disregard of the ordinary rights of corporate stockholders.

Admittedly due to the conditions during the depression it became necessary or proper for the Government to advance funds so that these institutions could make loans to thousands of farmers throughout the country. Because of these advances it was proper for the Government to ask for a larger measure of control during the emergency if it were thought that the national farm-loan associations and Federal land banks were not competently officered and able to handle the larger problems. I do not believe that it is your judgment, as it is not mine, that a Government bureau can operate any more efficiently and economically than private organizations do. The best managers will come from the group whose money is invested in the enterprise. "For where your treasure is, there will your heart be also." But while the Government may have been justified in asking for greater control there is no reason why it should have acted differently in this case than in those cases where it bailed out banks, railroad companies, insurance companies, and so forth, through the Reconstruction Finance Corporation. It conditioned such aid upon representation upon the boards of these institutions but it did not destroy any of the rights of the stockholders and did not take away the normal powers of the directors. During the 17 years of operation of this system prior to 1933, the officers and directors of the national farm-loan associations and of the Federal land banks had demonstrated their ability to manage the system and they were at least entitled to the same consideration that the Government gave to these other private institutions which it also financed.

What did the Government put into the system? In January 1932, which was 14 months before the New Deal took over the control, Congress voted $125,000,000 as an additional capital stock subscription for the Federal land banks. At that time Congress showed its confidence in the management of these banks and associations by making no provisions whatever for restricting these local operations. Since 1933, additional advances have been made by the Government for surplus to take care of the moratorium and the extension of principal and interest payments. This amounts to about $100,000,000, which will be repaid as soon as payments are made on these postponed installments. Then again and through the Federal Farm Mortgage Corporation (which is really the Government itself) the Government has guaranteed $750,000,000 of bonds issued by such mortgage corporation, the proceeds of which were used to purchase Federal land-bank bonds. These practically Government issues were sold at a very low rate to take up Federal land-bank bonds, most of which bore a 4-percent rate. As a result of this transaction the Government has made a big net profit which amounts to the vast sum of $23,393,639 as shown by the report of March 31, 1936. There is no excuse for continued unreasonable centralized Washington control of the system because of this bond transaction. Federal land-bank 4-percent bonds were quoted in this morning's paper (June 20, 1936) at from 104⅛ (for the lowest issue) to 110 for the issue having the best market price. Whenever it sees fit the Government can therefore relieve itself of the guaranty upon the $750,000,000 obligation and realize a handsome profit of from about 5 to 10 points. And the Government can continue from time to time to float Federal Farm Mortgage Corporation bonds at very law rates. It has made profits heretofore and it will continue to make profits hereafter based upon the spread between the low rate which it pays upon its flotation of Mortgage Corporation bonds and the high rate which it receives from consolidated Federal land-bank bonds.

At the cost of repetition I call attention to the fact that the Government acquires the bonds of the land banks which are secured by farmers' mortgages and are known as consolidated Federal land-bank bonds. These bonds draw interest as high as 4 percent, and even more than this high interest rate is paid to the Government. Then it turns around

and under the name of the Federal Farm Mortgage Corporation—which is really Uncle Sam himself—floats huge sums which bear interest at rates running from 1½ percent to 3 percent. Therefore it is making a profit in no case less than 1 percent, and in many cases more than 1 percent, on these Farm Mortgage Corporation bonds amounting in the aggregate to more than three-quarters of a billion dollars. Now, I submit that the Government has no right to exploit the farmers in such a way.

I have never been able to find any detailed and specific and separate and comprehensive profit-and-loss statement from each of these several land banks. I asked Governor Meyers for such a report about 3 months ago, suggesting that Congress ought to be informed upon the question so as to be able to enact proper legislation. He replied that such information had never been given out. Now, in the closing days of this Congress and on yesterday, June 19, and after the time has gone by within which there is any chance of enacting new legislation—we will adjourn sine die today—there has come to my hands a letter dated June 18, 1936, from Mr. F. F. Hill, Deputy Governor of the Farm Credit Administration, as follows:

> In accordance with our letter to you of April 2, 1936, there is enclosed herewith a copy of the Farm Credit Quarterly of March 31, 1936, which has just been made available for distribution. I wish to call your particular attention to the profit-and-loss statement for the Federal land banks appearing on page 8, and a similar statement for the Federal Farm Mortgage Corporation which appears on page 11.

I am very grateful for this letter and for this information and thank Mr. Hill for it. But there is no attempt to show any profit-and-loss statement of any specific one of the 12 Federal land banks. This information would have been helpful if we could have had it sooner. For example, it would have helped us to get cheaper rates of interest for farmers. Some progress has been made along this line in the passage of H. R. 10101, notwithstanding the belated information and our lack of knowledge. But this bill was amended in the Senate and is inadequate and covers the situation for 1 year only. After July 1937 it compels the farmers to return to the old rates, which are too high and are indefensible.

The Republican national platform declares for the restoration of the system and for a decentralized nonpartisan control. The language is clear. We should put the authority again close to the people—close to the farmers who bought and paid for the stock in the banks and who at the time they borrowed the money had the right to run their associations upon the cooperative principle. They know how to do it in my section of the country. They have done it. In addition, they have successfully operated cooperative grain elevators, hog-shipping associations, creameries, and other cooperatives.

The attitude of the present administration toward the 650,000 farmers who are members of these national farm-loan associations can be explained in only one of three ways; (a) either this is a cold-blooded, determined effort to build a political system with complete power in the appointee of the President, (b) or else the administration now distrusts the ability of the farmers to run their own institutions, (c) or else it has neglected to give any thought to the matter.

Whatever may have been the cause for this ruthless destruction of the cooperative control principles of the Farm Loan Act, I protest that this system must not be made a political machine for the party in power and that the control of these institutions should not be removed from the men who built them and paid for them.

The Republican Party has assured these 650,000 farmers that their rights will be restored in the following clear statement from the platform adopted by the Cleveland convention.

> We propose * * * to provide for decentralized nonpartisan control of the Farm Credit Administration and the election by national farm-loan associations of at least one-half of each board of directors of the Federal land banks, and thereby remove these institutions from politics.

Surely the Government cannot complain of such a proposal.

I do not now make these comments out of any partisan spirit; but, on the other hand, I make them by way of constructive criticism and in the hope that the law will be properly amended by the Congress which is to be elected in November of this year. I want remedial legislation.

ROOSEVELT AND RECOVERY

Mr. JOHNSON of Texas. Mr. Speaker, under leave to extend my remarks in the RECORD, I submit the following in addition to the facts contained in my radio speech on Roosevelt and Recovery:

PAYMENT OF SOLDIERS' BONUS

During my service in Congress I consistently advocated and supported the payment of this just debt, and am glad that it has now been discharged. The payment of these certificates not only discharged a debt due to the World War veterans, but is a godsend to many who are in need at this time. Furthermore, it will equitably distribute throughout the country a large sum of money that will, in my judgment, materially aid in the recovery from the depression.

I have also supported legislation in behalf of disabled veterans and dependents of deceased veterans, and have spent much time in assisting veterans and their dependents in presenting their claims to the Veterans' Administration.

OLD-AGE PENSIONS

Under the Social Security Act the Federal Government, for the first time in history, provided funds for old-age pensions, thus giving just recognition to that class of aged and worthy citizens for many of whom there is always a depression.

The Federal Government contributes to the States not exceeding $15 per month to all persons 65 years of age or over, provided the State will match it with a like amount.

It has been erroneously charged that the Federal act requires a pauper's affidavit to be eligible for such pensions, but this is untrue. Each State passes its own laws prescribing what the financial condition of a person must be in order to receive a pension, and the amount thereof.

If pensions of less than $30 a month are paid in any State, or unjust restrictions of eligibility are imposed, the fault lies with the State and not the Federal Government, for the Federal act has left free and unrestricted the imposition of all requirements in obtaining pensions to the respective States.

While the legislation is not all that could be desired, it is a step in the right direction. Like any new law, especially upon a subject concerning which there has been no previous legislation, experience will doubtless demonstrate defects, and it can and will likely be liberalized.

I favor the payment of as large a measure of assistance to the aged as the Government can reasonably make without impairment of its solvency or undue inflation of prices.

NEUTRALITY LEGISLATION

Congress at the last session passed a temporary neutrality bill, which expired on February 29 of this year; but a few days prior thereto we passed another bill, strengthening the act previously passed and extending the date of its effectiveness until May 1, 1937.

This act is designed to keep our country from becoming involved in war between other countries.

Being a member of the Foreign Affairs Committee, which handled this legislation, I had much to do with its consideration and served as chairman of the subcommittee which drafted the bill. Time does not permit a discussion of this important measure, but it goes far in removing the causes that might involve us in war between other countries.

There is one question upon which the American people are agreed, and that is that we have had enough of war.

If the provisions of this neutrality law had been in effect, it would have contributed much toward keeping our country out of the World War.

REGULATION OF COTTON EXCHANGES

Another bill for which I voted (H. R. 6772) and which has, within the past few days passed both Houses and now awaits the President's signature, is a bill to amend the Grain Futures Act of 1922, so as to make that act applicable also to cotton futures.

The price of cotton has too long been controlled by the manipulation of professional brokers upon the futures market, and while there has been some restrictive legislation as to grain, the cotton-futures market has gone unregulated and uncontrolled.

While this act is not as drastic as I should like to have seen, yet it is a step in the right direction, and confers upon the Secretary of Agriculture, the Secretary of Commerce, and the Attorney General authority to fix limitations upon purely speculative trades and commitments. Hedging transactions are expressly exempted. It is designed specially for the purpose of preventing overspeculation and a type of racketeering by a few large professional traders who, by combination and collusion, have controlled the cotton-futures market to the detriment of the American farmer.

RURAL ELECTRIFICATION

This act, passed at the present session and approved by the President on May 20, creates the Rural Electrification Administration, whereby loans may be secured for rural electrification and the furnishing of electric energy to persons in rural areas. Nothing will add more to the comfort, satisfaction, and happiness of the rural population than the electrification of farm houses. The farmer can use electric power not only for illumination of his home but also in the operation of water pumps, feed grinders, milking machines, small motors for many uses, and refrigeration; and it will be a means not only for the saving of money but relieve also much of the drudgery of farm work.

COTTON-REDUCTION PROGRAM

The Government in a very short time made rental contracts with millions of cotton and wheat farmers.

In dealing with such a vast number the Government has doubtless made some mistakes and some injustices have been done individual farmers. The small farmers have in some instances been discriminated against, especially those who had theretofore reduced their acreage before the Government took charge of the reduction program.

Congress is in nowise to blame for these discriminations and injustices, for while they pass the laws, the administration of them is necessarily left to executive agencies, and frequently there are instances where the administration of a law is in conflict with the will and intention of Congress.

When one of the cotton-control bills passed the House I offered and secured the adoption of an amendment reading as follows:

The Secretary of Agriculture, in determining the manner of allotment to individual farmers, shall provide that farmers who have voluntarily reduced their cotton acreage shall not be penalized in favor of those farmers who have not done so.

Again, when the farm bill substituted for the A. A. A. passed the House at this session, I spoke in favor of and supported an amendment by my colleague from Texas [Mr. DIES], which was adopted, to wit:

In carrying out the provisions of the bill the Secretary shall in every practical manner protect the interest of small producers.

I likewise supported another amendment to this bill offered by the gentleman from Georgia [Mr. TARVER] designed to protect the interests of the tenant farmer, which was also adopted.

TEXAS CENTENNIAL

A notable victory for Texas was achieved in the passage of the bill appropriating $3,000,000 for participation of the Federal Government in the Texas Centennial.

My colleague, Mr. LANHAM, of Texas, and I were appointed by the Texas delegation as the steering committee in charge of the bill. It was referred to the Committee on Foreign Affairs, of which I am a member, and I directed the hearings there and succeeded in securing favorable action by the committee and was the author of the committee's report on the bill. And when the bill was debated in the House I participated therein and also had charge of the time consumed in debate.

With one exception this was the largest amount ever contributed by the Federal Government to any exposition held in this country. The amount was not excessive. The winning of Texas independence from Mexico was not sectional. The valorous men who composed that army and the statesmen who established the Republic of Texas came from nearly every State of the 24 which then comprised the Union. The Texas Centennial celebrates not only the winning of the independence of Texas but also a chapter in our history by which the United States, by the subsequent annexation of Texas and the war to make effective the annexation, acquired nearly one-third of its present domain.

RELIEF

The Government has spent vast sums of money in trying to assist the unemployed by creating Federal work for those upon relief. With the expenditure of such a large sum, many injustices have doubtless been done and many projects have been undertaken that were perhaps unwise, but these instances are the exception rather than the rule.

Congress has appropriated these funds upon the recommendation of the President, and the expenditure and administration thereof have of necessity been left to governmental agencies; and if abuses have occurred, either in the selection of projects or discrimination against men, these have not been the fault of Congress.

Aside from the Government work for relief of the unemployed, perhaps even more criticism has been directed against the distribution of funds to those strictly upon relief, but the expenditure of these funds differs from that of Federal work for the unemployed, for as to relief funds the Federal Government contributes to each of the States an amount to be expended by the States and the respective States select the personnel for the distribtion of these funds, and relief funds are handled by the State governments and their officials rather than by the Federal Government.

There are doubtless many who have received relief who are not entitled to it, and others who have been denied relief which should have been accorded; but Congress felt that the State governments, being closer to the citizens than the Federal Government, would be in better position to select the personnel for the administration of these funds, and hence delegated this authority and responsibility to the States, and any criticism as to expenditure thereof rests against the State governments rather than the Federal Government.

FEDERAL CONTRIBUTIONS AND LOANS MADE IN SIXTH CONGRESSIONAL DISTRICT OF TEXAS

The Federal Government has made cash contributions and loans in the eight counties comprising the Sixth Congressional District of Texas, which I have the honor to represent, in an aggregate amount of $34,304,501.54, itemized as follows:

Adjusted compensation paid World War veterans	$4,219,014.60
Farm rental and benefit payments and profits on cotton options to Mar. 1, 1936	13,186,022.03
Civilian Conservation Corps (approximately)	1,200,000.00
Home Owners' Loan Corporation	1,179,579.00
Public Works Administration	665,430.00
Works Progress Administration	1,025,428.40
12-cent cotton-loan program	2,912,489.22
Federal Housing Administration	212,939.51
Farm Credit Administration	6,726,847.00
Resettlement Administration	691,601.83
Reconstruction Finance Corporation	2,065,149.95
Post-office buildings (approximately)	220,000.00
Total	34,304,501.54

NEW FEDERAL BUILDING AT BUFFALO, N. Y.

Mr. MEAD. Mr. Speaker, under leave to extend my remarks in the RECORD, I include my remarks at the dedication of the new Federal building at Buffalo, N. Y., on May 29, 1936, as follows:

I am glad to be here to officiate at the laying of the cornerstone of our new Federal building. Buffalo now has three Federal buildings wherein are housed the activities of the Federal Government serving this area. The first of these buildings, known as the Post Office and Customs House, was erected in 1858. The site, which is located on the corner of Seneca and Washington Streets, was purchased for $45,000, and the building was erected at a cost to the Federal Government of $150,839. The present Post Office building was erected in 1901. The site cost the Federal Government $477,884, while the building was constructed at a cost of $1,554,598, the total cost of the building and site being $2,040,831.

This building, which will be a more beautiful edifice when it is completed and extended, will stand as a monument between an epoch that is past and the beginning of a new era in the

design and construction of modern buildings. It is fitting that we participate in ceremonies of this kind, for this building is dedicated to the uses of all our people. It is proper that these ceremonies be attended by distinguished and representative men and women of Buffalo and Erie County, as well as by representatives of the Federal departments whose agencies will be housed within its walls.

There will be housed under the roof of this building many Federal agencies now located in various buildings throughout our down-town district. The concentration of these agencies will improve the efficiency of the service and add to the convenience of our citizens.

We are grateful to the Congress for the action taken by that body which provided the funds for its erection. We are likewise grateful to the interdepartmental building committee for the great part they took in making this day a reality. We thank those who designed this beautiful building, and all who have had a part in its construction.

This building is typical of the power and the glory of our Nation, and marks the industrial and social progress of our city. Its location adds to the beauty of our civic center and makes more impressive the scene which greets the eye of our visitors.

The business interests of our Government are both large and complex. The happiness of our people is concerned with the intelligent, sympathetic, and efficient manner in which our business and our industry are directed. Business, in large measure, depends upon the attention to duty, as well as the loyalty, of those who are employed by the Government to carry on its work.

It is necessary that the rights of property be protected, and that same protection must be given whether the property rights be large or small. The vast industrial organization, the small business concern, or the home, or the rights of the individual to earn a livelihood must each be the concern of a wise and effective government. It is as important that the the duties and responsibilities associated with the ownership of property be observed as it is that the rights of property receive protection. The future of our people demands that these two principles go together, and that human rights, as well as property rights, go hand in hand in a well-organized society.

It is from here that equal and exact justice is dispensed to all. It is here that the powerful and authoritative arm of the Federal Government stands to protect the poor and the defenseless and to curb those who would become either arrogant or lawless.

The chambers of this building should never be barred to those who would dispense justice, nor to those who would suffer from an injustice. May those who rule, as well as those who judge in this edifice, rise up to that lofty vision of the fathers of our Republic, who visualized justice as being clothed with dignity, as being supported by loyalty, charity, and truth.

One cannot help being moved to patriotic impulses when ceremonies like this take place. Our minds turn in the direction of the great Federal Government and its agencies, which have meant so much to our people through the years of our Republic's existence. Our memory goes back to the great men and splendid women who founded our beloved country; to those sturdy pioneers who gave form and substance to our National and our State Governments; to those patriots who pledged their lives, their fortunes, and their sacred honor that the principles upon which this Government was founded might be given opportunity to prove their righteousness. It was the men and women supported by the leadership of Washington, of Jefferson, and of Jackson who established a government founded on high ideals, on sound laws, and with equal opportunity, the rich heritage of their descendants.

Here in this country democracy goes on, while all about us nations shaken with violent reactions have set up a dictatorship or welcomed back the monarchy of old. Here the rich and the poor, the farmer and the industrialist, every group and every section of our people are considered without discrimination of any kind, and it is they who constitute the primary concern of our great democratic institutions. Whenever we enter this building let it remind us of the power, the dignity, and the equality of these United States, and let those lasting principles which animate our Government serve the common welfare.

OUR CONSTITUTIONAL GOVERNMENT CALLS FOR THE ECONOMIC AND SOCIAL SECURITY OF ITS PEOPLE

Mr. SNYDER of Pennsylvania. Mr. Speaker, the economic and social security of our people and our Nation has been discussed during the last 2 years more than ever before in the history of the Nation.

It is only natural that when a people are oppressed that they become active on this subject. When they are prosperous they give little thought to economic security or social security.

When the people of a nation are prosperous it is sad to note that they neglect the institutions and make for social and economic security. For example, during the years 1920 to 1929, when money was cheap and plentiful, individuals and families neglected their homes; school boards and school authorities neglected to build for the future; municipalities, States, and even the Nation neglected to provide for a rainy day. As the result, when the rainy-day cyclone came in 1929 the structure in these institutions was not strong enough to withstand the momentum of the cyclone.

A nation is only prosperous and secure in proportion to the prosperity and security of the farmers and the little-home owners. The carelessness during the years from 1920 to 1929 and panic of 1929 to 1933 ruined tens of thousands of farmers and hundreds of thousands of home owners.

We are all happy in the fact that the Seventy-third and the Seventy-fourth Congresses, piloted by Franklin D. Roosevelt, set up a constructive series of legislative procedures that has brought hope and cheer to the hearts of our home owners and our farmers.

My belief in social security was put into action when I worked for and voted for the following measures in Congress:

(a) The Banking Act—only 4 failures as compared with some 1,300 under Hoover's administration.

(b) The Home Owners' Loan Act, saving thousands of homes from falling under the sheriff's hammer.

(c) Farm debts, refinancing—act establishing corporation to aid, giving aid to tens of thousands of farmers.

(d) National Securities Exchange Act (act designed to keep the swindlers from gold-bricking the people).

(e) Currency system; to protect act (an act that prevents international bankers and the like from cornering the money market and creating depressions and panics).

(f) Enlarging and enriching the Reconstruction Finance Corporation (we now give assistance to the little fellow).

(g) Old Age Security Act (making certain provisions for pensioning the old).

(h) Acts providing funds and set-ups, such as the C. C. C. camps; Public Works Administration activities; soil-conservation activities; home-building activities; farm-protection activities.

(i) Guffey-Snyder Coal Stabilization Act (giving labor certain rights in collective bargaining and wage adjustments).

(j) Railroad Pension Act and Wagner-Connery Labor Act.

(k) Legislation adjusting tariff to the effect that we now have a greater tariff income.

These, with other dovetailing acts, we put into effect. The results can be found all around you. All we have to do is close our eyes and think of the poverty and bread lines of 1932 and the early part of 1933 and we will know that something happened to bring about these wonderfully improved conditions. The thing that happened was your Congress and your President set up machinery at Washington that is functioning in the interests of the little-home owner, the farmer, the laborer, and the little-business man.

Mr. Speaker, my training and my teachings in life compel me to be a supporter of our constitutional form of government. I cannot and will not support any of these communistic or other "istic" phases of so-called government.

My people want an opportunity to work for a living. My people do not want hand-outs or doles. My record in Congress indelibly stamps me as fighting for legislation that will give every man an opportunity to go out and make an honest living and earn an honest wage. I stand for legislation that does not discriminate when it comes to race, creed, or conditions of servitude. In fact, this Roosevelt administration has done more to break down the barriers that for years caused class distinction than any other administration.

Our citizens of foreign extraction have received more consideration under this administration. The colored people have received more consideration under this administration. True, the antilynching law did not come before Congress, but I, for one, will support it when it does come up, if it is in the form that my colleague, Congressman MITCHELL of Illinois, now has the bill drawn.

The farmers, the laborers, and little-business men have received real substantial help through the measures enacted by the Seventy-third and the Seventy-fourth Congresses. These groups received promises for years and years, but never very much actual help until the Roosevelt administration started to function.

Youth, the young men and the young women, have received substantial help during this administration. At the beginning of 1933 some 4,000,000 boys and girls were walking the streets and highways and byways. Today we find less than 1,000,000 of these splendid young people idle on our streets.

No wonder that both the young and the old are enthusiastic about the New Deal program. In fact, it is not a New Deal; it is just the deal that our forefathers handed down to us, restored to a working basis, whereby human rights are on a level with all other rights of a free people. This is as it should be under our Constitution.

THE MACHINE, UNEMPLOYMENT, AND SHORTER HOURS

Mr. MEAD. Mr. Speaker, I want to discuss the biggest problem we have in America—in fact, the biggest problem in the world today. That problem is unemployment.

The cause of the problem is technological, and the by-products of the problem are deficits, taxes, communism, vice, crime, relief, and a hundred and one associated minor problems. Put the unemployed back to work and all these problems will diminish or vanish from our midst.

I hold that the natural resources of America are sufficient with our present manpower and our existing capital set-up to furnish all the necessities of life, including food, clothing, shelter, transportation, and the entertainment of our population. Our modern machine methods have made it possible for a part of our population to produce as much and more than we have been able to consume. Our problem is therefore to care for that portion of our population which under existing circumstances cannot be gainfully employed. Are they to starve to death? Will they be continued on made-work projects? Will we imitate England and assign a large portion of our citizens to a life of indolence on the dole? Or are we to provide for their employment in private enterprise?

Of all these methods I prefer private employment. I would have it provided for by a law which would compel a reduction in the work period commensurate with work opportunities available for our working population. If unemployment results from machine efficiency, then the only practical solution is in a reduction of the workday for the employees of America.

Every authority agrees that productive efficiency during the passing years has revolutionized the operating processes of industry. The driving urge was to produce a greater volume of goods at the expenditure of less human energy. The result has been more and more production with fewer and fewer men. There is no exception. It is true in every enterprise, as a survey of the roster of all industry will show.

A significant case of this character received the consideration of Congress recently—railroad workers, a short time ago numbering 2,000,000, now scarcely total 1,000,000, and with a further prospect of an early reduction of 150,000 more railroad employees, resulting from sweeping consolidation proposals made by Mr. Eastman, the former Railroad Transportation Coordinator.

Coal miners now average scarcely 3 days a week, despite the reduction in hours to 7 a day. The same situation is more or less true in all industry. Modern machines and mass-production methods have already reduced the workday and the workweek, but in most cases the workers have been denied their share in the fruits of these modern tendencies.

There is no more appropriate time for a serious consideration of this problem than at present. Industry can well afford in most instances to reduce the workday of those now gainfully employed. The Government cannot long continue the tremendous expenditures which now provide made work and home relief for millions of our people. The constant and steady upswing of business, the tremendous increase in profits, the rising tide of business expansion, make it compelling for us to increase the consuming power of our people lest this sudden boom be followed by another collapse.

Every authority of note tells the story of added industrial profits, of a sharp rise in dividend payments, of the unusual increase in industrial production, of the remarkable gains in the iron and steel industry, of the record-breaking sales in the motor industry. However, these gains cannot continue permanently unless consumer buying—the foundation of all these gains—is placed upon a parity with our increased productivity. Not only is it necessary, therefore, to relieve the problems which menace government and disturb industry but the elimination of our unemployment problem by shortening of the work period is essentially necessary if we are to avoid a repetition of the crash of 1929.

In his Baltimore speech to the youth of America the President of the United States charted the course which industry must follow—a reduction in the work period, an increase in the leisure time is the philosophy contained in that historic utterance. Its logic is strengthened and fortified by the presence of millions of men in our country rendered idle by the efficiency of machine productivity. However, captains of industry like Alfred P. Sloan, Jr., of General Motors, declare that unemployment will result from the application of the President's recommendations; and from the pen of that noted writer Walter Lippmann, we learn that the President's promise of better life with less work defies common sense.

Mr. Sloan, to further quote him, declared:

> That is like saying if we bake less cake, we will have less cake to eat.

While Lippmann, on the other hand, observes:

> They cannot eat more cake by eating less cake.

And then he adds:

> If the older people and the younger are to be supported in leisure, the others will have to provide their support.

And from these observations they raise a thesis charged with absurd deductions.

A sample of their absurdities is this statement made by Mr. Lippmann:

> If working less is the cure for unemployment, then total unemployment ought to produce the abundant life.

Carrying out the Sloan and Lippmann philosophy to the other extreme, the abundant life will result only in working our people from the cradle to the grave, with such leisure as will be theirs to be provided not here but hereafter.

Production is the cornerstone of well-being. No one denies it. Wages, profits, taxes—everything must be paid out of production. The more produced, the more there is for social distribution. Of course, the man who does not work must be kept by the man who does. There can be no exception to that rule. That lesson has come home to us during the last 6 years. The Nation is called upon to provide work relief and home relief through taxes for its unemployed ranging from ten to twenty million people. The situation results from economic maladjustment, throwing production and consumption grossly out of balance, creating the harrowing paradox of plenty causing poverty, with all of its devastating trail of related miseries.

To the ultimate solution of this grave situation, the President has successfully directed the Nation's industry. National wealth production—which dropped from its 1929 high of eighty-five billion to its 1932 low of thirty-eight billion—is now above the sixty-billion mark, with the continuance of its rising trend as certain as tomorrow's sun. It is plain enough to any observer whose reasoning is not distorted by partisan design or reactionary thinking that if the millions now unemployed, or on part-time jobs, could be given steady work on modern machines and on a 30-hour-week basis, America's wealth production would soon reach, and likely pass, the one-hundred-and-fifty-billion-a-year mark. Then would come health and leisure, free from care and grief. And then the added cost of Government as well as the added cost of caring for both our older and our younger folks would seem trifling in comparison with our increased national income.

Today there is no problem of production. To give willing workers a chance to produce—that is our main problem.

"Notwithstanding the reductions in hours of labor", reported the committee on economic changes, of which the Honorable Herbert Hoover was the chairman, "per capita productivity is nearly 60 percent greater than it was toward the close of the nineteenth century; the increase in per capita

productivity in manufacturing from 1922 to 1925 was 35 percent; the productivity of farm workers has increased at a rate probably never before equaled."

Since the report of the Hoover committee on economic changes, productive efficiency per unit of worker has been going forward at a constantly accelerating pace, with no end in sight. Call the roll of industry, one after another, and each presents a romance of industrial revolution, as old producing methods give way to new. Surplus and disposition of surplus is the only economic problem. Today, with production running steadily upward, the mills, mines, factories, and farms will not be able to employ more than 80 percent of the workers they required in predepression days.

With sufficient purchasing power, America has a potential productive capacity that defies the imagination. This carries with it a certain promise of higher living standards for the average man and woman than ever enjoyed before, and this on a basis of shorter labor hours than heretofore has met popular sanction.

Today we are caring for our older people, our younger folks, and many who are in between those periods of life. They all stand before us the victims of our machine productivity. President Roosevelt, having this in mind, indicates the manner by which this present, expensive, planless basis may give way in an orderly and progressive fashion to a more enlightened and equitable policy; a policy based upon a fair and just distribution of earnings, by reducing the work period and giving to every willing hand the inherent right to work. It is the course that progress must take. Man has perfected no better plan. Its simplicity recommends its application above every other device yet advocated. It necessitates no bureaucracy or governmental supervision. It substitutes a lesser number of days in the workweek than is now the case. It merely reduces the hours per day to a lesser number than is now in effect. The acceptance of this simple plan on the part of Government and industry solves the most important problem of the day. We control the machine or it ruins us.

RECIPROCAL ECONOMY OF SELF-HELP

Mr. CARTER. Mr. Speaker, cooperative self-help associations have proved in the last 3 years to be the best method through which to meet the problems arising out of unemployment and need.

The assistance given to these self-help groups on the part of the Federal Emergency Relief Administration has been small compared with the vast sums expended by the Administration for direct relief or work relief.

From July 1933 to October 31, 1935, the Administration extended grants to some 208 self-help cooperative groups amounting to $1,656,578. At the end of this period these groups reported assets in equipment and inventories of $1,145,595 besides a total value of $3,115,094 received by members in the form of goods and services. Concurrently a cumulative total of $2,279,396 in relief savings had been accomplished by these activities.

Participating in these 208 groups during this period were some 30,000 unemployed people, with their dependents, amounting to around 100,000 individuals. The activities of these self-helpers have resulted in the saving of crops that would otherwise have gone to waste. In their operations of trading labor and services many farmers, small manufacturers, and businessmen have been able to expand their operations by acquiring labor through trading their surplus produce and goods, for which there was no ready profitable cash market.

How far the benefits resulting from the unemployed trading their labor and services have reached outside of their own ranks would make an interesting research and would undoubtedly prove that the self-help, or reciprocal-economy cooperative could, if properly encouraged and directed, become a potent factor in national recovery from depression.

The self-help cooperative, when properly organized, becomes a center of hope and courage for its membership. Here the unemployed can always invest their labor and receive something in return for it without feeling that they are being pauperized by asking for relief. More than that—the cooperative becomes a recruiting ground for private business. In the trading operations members of the cooperative come in contact with farmers, manufacturers, and employers of every sort. The kind of men and women who would rather work for a living than go on relief also make the most desirable employees, and employers within the trading radius of a self-help cooperative soon learn that here is an excellent source of dependable labor. Thus the self-help cooperative becomes an asset to the employers of the community in which it is located as well as to the community itself by its reduction of relief costs.

In furnishing private business with dependable labor the self-help cooperative often loses its best and most valuable members. This of necessity tends to make the level of average efficiency of production in the cooperative low. They lose their best members who go on cash jobs when they have regained their courage and gotten into the swing of working for a living.

In spite of this handicap which would wreck most private enterprises the self-help cooperatives have proved successful.

The amounts invested in these enterprises by the Federal Government has been about a hundred dollars per worker. In comparison to this the investment considered necessary in private enterprise per worker is somewhere between $1,000 and $1,500. In the light of these facts the achievements of these struggling groups have been nothing short of phenomenal.

Our Government can well consider ways and means of turning the major portion of relief expenditures into the building of reciprocal economy.

Through the development of organized self-help a solution to the unemployment problem is being found by the unemployed themselves.

In Oakland, Calif., the self-help group known as the Unemployed Exchange Association, U. X. A. for short, has been operating since June 1932. This organization has hundreds of businessmen on its books with whom a brisk trade in labor, services, and commodities has been developing and increasing.

The relief saving to the county of Alameda amounted to more than $150,000 before this group received any aid in the form of grants from the F. E. R. A. With Federal grants plus trading operations of their own the U. X. A. has acquired and is operating a sawmill in the foothills of the Sierras above Oroville, Calif., and the organization is trading lumber to farmers in several counties, taking surplus produce in exchange. The U. X. A. has proved an incalculable asset to all the people of the communities in which it is operating.

In Santa Barbara, Calif., a younger self-help group organized after the reciprocal-economy pattern evolved by U. X. A. has been operating during 1935. This group has earned hundreds of tons of food for its participants and has become a real asset to Santa Barbara. The Santa Barbara County Cooperative Industries, group no. 1, has scores of businessmen and farmers on its books as trade agreements besides over a thousand members. It has been endorsed officially by the local chamber of commerce, the Bankers' Association clearing house, the county board of supervisors, the city council, the mayor, the superintendent of schools, the Parent-Teachers' Association, the Y. M. C. A., the City Teachers' Club, the Kiwanis Club, the Native Sons of the Golden West, and many other organized bodies, besides the majority of business and professional leaders individually.

The Santa Barbara group has the community of Santa Barbara united in its support and has proved that reciprocal economy is an acceptable application to unemployment and need.

In 28 States and 3 Territories organized self-help has proved superior in its effects to relief and work relief. Out of these efforts, made primarily by the people themselves, has grown a method which is known as reciprocal economy.

This is an orderly, constructive, understandable method which makes it possible for unemployed people to work for a living instead of going on relief. It has become a proved method, acceptable to organized business, organized labor; and it has proved to be an asset to Government in reducing relief expenditures, in expanding the usefulness of relief expenditures, and in eliminating in many cases the need for relief expenditures. This method may well be instituted as the proper and most effective method for our Government to apply relief funds through.

ALAMEDA NAVAL AIR STATION

Mr. CARTER. Mr. Speaker, legislation providing for the establishment of a naval air station at Alameda has passed both the Senate and House and is now pending before the President. I have no doubt but what he will sign this very important measure.

This matter was initiated November 6, 1935, when Admiral E. H. Campbell, United States Navy, commandant of the twelfth naval district, stationed at San Francisco, Calif., dispatched the following letter to the mayor of Alameda:

NOVEMBER 6, 1935.

Hon. HANS W. ROEBKE,
Mayor of Alameda, City Hall, Alameda, Calif.

DEAR MAYOR ROEBKE: The Navy Department has under consideration the establishment of an air station on San Francisco Bay for heavier-than-air craft—landplanes and seaplanes.

This will involve, first, the acquisition of a suitable site for the air station, to be followed by the development of the site acquired. Both of these depend upon favorable action by Congress.

Studies of available sites give high priority to the Alameda airport location, owned by the city of Alameda, and at the present time under lease by the city to the Curtiss-Wright Corporation.

As the representative in this area of the Navy Department, the commandant, twelfth naval district, has been directed by the Secretary of the Navy to contact the city officials of Alameda to ascertain whether the city is willing to convey to the Government for naval uses, at a nominal consideration, approximately 346 acres of land at Alameda, subject to leasehold and improvements of the Alameda Airport, Inc., said conveyance to be made as soon as the Navy Department secures authorizing legislation from Congress to purchase the leasehold and improvements and accept conveyance of this land.

In addition to the land under lease to the Alameda Airport, Inc., the Navy Department desires to acquire under similar conditions the adjoining approximately 500 acres of tideland and submerged land to the southward and westward, owned by the city of Alameda, which the commandant understands is free of encumbrances. It is the Navy Department's intention, when assured that this property can be acquired by the Government for naval uses, to present to Congress a program of development and construction for a first-class air base at the Alameda site.

The requirements of the new base will be such as to provide landplane facilities for the airplanes assigned to three carriers and seaplane facilities for two or more squadrons of large patrol planes, a total of approximately 300 airplanes. In addition, overhaul facilities would be required for the above aircraft and engines, barracks for approximately 2,000 enlisted men, docking facilities for 3 carriers and 1 or more large tenders. the total expenditures would involve several million dollars. Approximately 300 civilians would be employed, with a total annual pay roll of approximately $500,000; this in addition to the pay roll of enlisted men attached to the base and ships lying at the base.

It is proposed that the Government occupy the property immediately after congressional authorization and funds are provided for the acquisition of the leaseholds and improvements, and that development would proceed as fast as authority and funds permit.

Consideration of a location for a naval landplane and seaplane base on San Francisco Bay depends upon the early availability of sufficient land and adjacent water front to permit development as outlined above. The commandant is most interested in learning if the city of Alameda is favorable to conveying this property to the Government for the purpose set forth at a nominal consideration.

An early reply will be appreciated in order that the Navy Department may proceed with the necessary steps to secure legislative authority.

Yours sincerely,

E. H. CAMPBELL,
Rear Admiral, U. S. Navy,
Commandant, Twelfth Naval District.

Following the receipt of this letter, the city of Alameda called a special election on January 28, 1936, for the purpose of voting upon the proposition as to whether or not the city would deed for a nominal consideration 929 acres of land to the United States for the purpose of establishing a naval air station thereon. In due time identical bills were introduced having for their objects the establishment of this naval air station. On March 12, 1936, Adolphus Andrews, Acting Secretary of the Navy, reported on the House bill as follows:

[No. 523]

TO AUTHORIZE THE ACQUISITION OF LANDS IN THE CITY OF ALAMEDA, COUNTY OF ALAMEDA, STATE OF CALIFORNIA, AS A SITE FOR A NAVAL AIR STATION AND TO AUTHORIZE THE CONSTRUCTION AND INSTALLATION OF A NAVAL AIR STATION THEREON (H. R. 10708 AND H. R. 11039). MR. CARTER

NAVY DEPARTMENT,
Washington, March 12, 1936.

The CHAIRMAN, COMMITTEE ON NAVAL AFFAIRS,
House of Representatives, Washington, D. C.

MY DEAR MR. CHAIRMAN: The bills (H. R. 10708 and H. R. 11039) to authorize the acquisition of lands in the city of Alameda, county of Alameda, State of California, as a site for a naval air station and to authorize the construction and installation of a naval air station thereon, were referred to the Navy Department by your committee with request for comment and recommendation. It is noted that the two bills are similar in purpose but that the bill H. R. 11039 contains a more detailed description of the property in question.

The purpose of these bills is to authorize the Secretary of the Navy to acquire on behalf of the United States at a cost not to exceed $1, as a site for a naval air station, from the city of Alameda, Calif., a parcel of land containing approximately 95 acres of hard land and 884 acres of tide land, free from all encumbrances except a certain lease entered into by and between the city of Alameda and the Alameda Airports, Inc., a subsidiary of the Curtiss-Wright Corporation.

Both bills authorize the appropriation of the following sums:

"(a) Not to exceed $296,000 for the purpose of acquiring the Curtiss-Wright Corporation leasehold interest and all improvements of every kind and nature on said tract of land;

"(b) Four thousand dollars to be paid to the city of Alameda, Calif., to reimburse said city for the expenses of a special election held for the purpose of authorizing the city council of the city of Alameda to convey to the United States the above-described parcel of land for the above-specified purpose, and for incidental expenditures in connection with such conveyance; and

"(c) One million dollars to be used for any of the purposes as set forth in section 2 of this act."

A special election was called and ordered to be held in the city of Alameda, Calif., on Tuesday, January 28, 1936, for the purpose of submitting to the qualified electors the proposition to give, grant, convey, and alien forever to the United States of America the lands above mentioned for the aforesaid purposes. The total vote cast for and against the proposition was as follows:

For the proposition	8,284
Against the proposition	378

Thereafter on January 29, 1936, the city council adopted resolution no. 2035 authorizing and instructing the mayor of the city to make, execute, and deliver for and on behalf of said city a good and sufficient deed giving, granting, conveying, and alienating to the United States of America forever for use as a naval air base the lands above referred to—

"Provided, however, That at least $1,000,000 be expended for, or contracted to be expended in the actual work of development of said naval air base by December 31, 1939, otherwise said lands shall automatically revert back to said city of Alameda."

This project is of great importance to the efficiency of the Navy and was assigned the highest priority in the draft of the public works authorization bill recently submitted to Congress and introduced in the Senate on February 22, 1936, as S. 4073. It is possible, however, that the Navy Department may at some future date find it expedient to use this site not only as an air station but also for other purposes. The Navy Department therefore recommends that the bills be amended by inserting, after the words "naval air station" in line 5 of page 1, the words "or other naval purposes."

The Bureau of the Budget has advised that the bills, if amended as recommended, would not be in conflict with the program of the President.

The Navy Department recommends the enactment of the bill H. R. 11039 if amended as suggested.

Sincerely yours,

ADOLPHUS ANDREWS, *Acting.*

The Senate bill passed the Senate as originally introduced. The House bill was amended before leaving the Naval Affairs Committee of the House, and was further amended on the floor of the House, but the main purposes of the bill were not interfered with. The Secretary of the Navy and the Navy officials consider this project of great importance to the efficiency of the Navy, and it has been shown the highest priority in the draft of the public works authorization bill which was submitted to Congress.

This tract of land is located in the city of Alameda, on the eastern shore of San Francisco Bay. The Navy proposes to use this area primarily for a hydroplane base, but requires also a landing field for landplanes. There is already established on this area a modern first-class airport of landplanes consisting of an administration building, a hotel,

hangars, repair shop, warehouses, lighting equipment, and other facilities ordinarily found in connection with a modern airport. There are at present also facilities for the landing of hydroplanes. The Clipper ships, owned by the Pan-American Airways, use this area as their California terminal.

From the point of the view of the Navy, this tract of land is ideally located for facilities for both hydroplanes and the landplanes.

The citizens of Alameda are to be congratulated for their generosity in donating this area to the Government. The use of aircraft is, as one of the arms of our national defense, increasing each year, and this project is one of the most important units in the coast defense of the Pacific coast.

The Navy Department is anxious to begin construction at the earliest possible date on this undertaking, and I believe that the Congress of the United States should furnish ample funds to insure that this naval air station will be completed in the not distant future.

THE TWO-THIRDS RULE OF NOMINATING DEMOCRATIC CANDIDATES FOR THE PRESIDENCY SHOULD BE ABOLISHED

Mr. ROGERS of Oklahoma. Mr. Speaker, under leave to extend my remarks in the RECORD, I include my radio address on the two-thirds rule, as follows:

Good evening, ladies and gentlemen. I speak to you now from Washington, D. C., as Congressman at Large from Oklahoma. I am a Democrat. I subscribe to the principles of Jeffersonian democracy. Coming to you as a Representative in Congress from the great Southwest, it would be natural for me to concur with southern statesmen in their traditional espousal of the two-thirds rule for nominating candidates for the Presidency. However, my tenacious adherence to the tenets of social and governmental justice as laid down by Thomas Jefferson and my inherent inclination toward liberal democratic government impel me to vigorous opposition to the two-thirds rule. I favor complete abolishment of this rule.

I have not discussed the subject with my colleagues in the Congress. I was probably invited by the National Broadcasting Co. to speak to you this evening because I am one of the few southern Members of Congress who have broken the shackles of tradition and who privately and publicly are willing to throw off the curse that has jinxed the Democratic Party since 1832. I have heard that President Roosevelt and Jim Farley favor abrogating the two-thirds rule. This being true, those who hold similar views to mine will probably be in the ascendancy at the national Democratic convention scheduled during the week in Philadelphia. There is considerable talk that that convention will discard the two-thirds rule. At any rate, the question will give the Democrats something over which to fight. There will be no scrap over who will receive the nomination for the Presidency or the Vice Presidency. The platform undoubtedly will offer no opportunities for lively, spirited debate, because it assuredly will be, and properly so, a reiteration of the platform of 1932 and a pledge for the continuance of the broad social and economic program of the Roosevelt New Deal. The question of abrogating the two-thirds rule, then, should provide a morsel of raw meat over which the delegates can maintain the usual combatant color of Democratic conventions.

I am opposed to the two-thirds rule because I believe in majority rule. I cannot interpret the two-thirds rule to be Democratic Jeffersonian liberalism. With the two-thirds rule in vogue, we review political conventions of the Democratic Party over the past 100 years and find that too often the minority controlled the convention. A minority group may not be able to nominate a candidate, but it can prevent the nomination of a candidate of the majority. The Democratic conventions of 1912 and 1924 are typical examples. Champ Clark in the former and McAdoo in the latter are typical of the truth of this statement. Both had the majority of delegates at the conventions.

Any man or woman, with few technical exceptions, who receives a majority of popular votes is the person who is elected to office. This holds true from the Presidency down the line to the position of constable. We would not think of requiring a candidate for office to obtain two-thirds of the votes before he would be declared the winner. We would not think of restricting ourselves to the point where we required a Presidential candidate to obtain two-thirds of the electoral vote of the Nation before he could take the oath of office of the Chief Executive. We would not countenance a situation whereby a Governor of a State would have to secure two-thirds of the votes to be elected. We would condemn any private or public citizen who advocated the two-thirds rule in electing State representatives, county judges, county attorneys, or the clerk of school boards. Who would defend a man who argued that county commissioners or city commissioners must have two-thirds of the total vote before they could be elected? Without attempting in the least to diminish the home popularity of my colleagues in Congress, and with all due respect, let me ask the question: How many of them would have been serving in the Seventy-fourth Congress, which has just adjourned, if they had been required to practice the two-thirds rule? We do not practice these principles at home; why should we handicap our party and our Government in our quadrennial conventions? Why practice this religion on Sunday, as it were, and go home to sin the remainder of the week? Why must we deviate from a universal majority practice of nominating and electing our officeholders to the inconsistency of establishing undemocratic procedure in our Presidential conventions?

This question of the two-thirds rule is much graver than matter-of-fact, offhand thinking reveals. The machinery of our democratic form of government is political. Our oft-referred-to ship of state is a political offspring. Thanks to those great minds that drafted our Constitution and pursued the campaign for its ratification by the Original Thirteen Colonies, our form of government is fabricated with democratic elasticity. The two-thirds rule is the only inconsistency in that democracy. Undoubtedly its infamous results were not anticipated by our founding fathers. If they had been, doubtless prohibitive measures would have been invoked.

The two-thirds rule has oftentime been the pivotal cause for the turn in important events in our national life. Many times this rule has prohibited both the minority and the majority Presidential candidates from receiving the nomination. It has brought to the front several unknowns. The first so-called dark horse was James K. Polk, who was nominated in 1844. Van Buren was the leading candidate. He previously had made the statement that outlined his opposition to the annexation of Texas without Mexico's consent. The South became infuriated, and although Van Buren had a clear majority on the first ballot, the imperialistic attitude of the delegates swung them to Polk and eventually threw the United States into war with Mexico. The two-thirds rule brought about the nomination of Franklin Pierce. The undemocratic two-thirds rule was the cause of the nomination of James Buchanan, of Pennsylvania. The convention that nominated him held spirited arguments in the resolutions committee over the slavery question. Because of Buchanan's wont to straddle the issue, the platform pretended that the slavery question had been settled by the compromise of 1850.

Raymond Clapper, noted newspaper writer, says that the two-thirds rule indirectly caused the Civil War. In 1860 the rule prevented the nomination of Douglas, caused dissention in the Republican Party, and produced the nomination of Abraham Lincoln. Douglas would have been nominated by a majority in that convention. Able historians express the belief that he would have averted the strife of civil war.

The two-thirds rule weakens the Democratic Party. For nearly 40 years, with one exception, where the convention ballotted time after time and ballot after ballot, the strife of the convention left such wounds that the party and the nominee went home to certain defeat. Bitter factional strife has often foreshadowed defeat for the Democratic Party. There have been few victories when the convention was long and bitter.

Speaking of nominating unknowns, I once knew a school board who selected a superintendent whom they did not know because they did not like any of the other candidates. The board met on call of the chairman to select the superintendent for the ensuing year. The usual ballots were cast expressing the members' choice. When counted it was found that a man was elected superintendent that none of the board members knew. Each member explained that he voted for the unknown man because he did not like the other applicants.

This simple little example describes the spirit that often motivates delegates at our national political conventions when the two-thirds rule invokes dissension. Delegates become heated, and to assuage their wounds they will declare themselves, as history shows, for any unknown rather than join either the majority or the minority. This contemptible attitude has wrecked the party many times.

Friends of Andrew Jackson fell upon the two-thirds rule to keep Calhoun from receiving the nomination for the Vice Presidency. This was in 1832. The South, bitter over the question of slavery, looks upon the rule as assuring it a balance of power over the North and West.

Again I repeat that I am a Democrat. I sincerely believe in the rule of the majority. Ladies and gentlemen, the Civil War is over. The North and South are now united. The East, the West, the North, and the South are one. I am, therefore, vigorously opposed to the two-thirds rule because it will not permit a rule of the majority. I believe the Democratic Party should abolish this rule. I will not have an opportunity to present my views to the Democratic national convention in Philadelphia because I shall not attend the convention. My absence from the convention does not indicate, however, that I am taking a walk along with other Democrats who, according to the newspapers, are said to be walking. The Seventy-fourth Congress has just adjourned. Official business will keep me here a few days, after which I shall return to the good "Sooner" State of Oklahoma.

ERNEST LUNDEEN: HIS FIGHT FOR SOCIAL SECURITY—UNEMPLOYMENT INSURANCE—OLD-AGE PENSIONS—FARMER-LABOR—VETERANS

Mr. MORITZ. Mr. Speaker, I have an editorial recently published in the Minneapolis Labor Review entitled "Veterans Won't Forget LUNDEEN." The editorial states:

One man the veterans who are now receiving the bonus will not and should not forget is Farmer-Labor Congressman ERNEST LUNDEEN.

When the enemies of the Patman bill and even the author himself thought it was buried forever in committee, it was LUNDEEN who resurrected it through a petition for action and who kept hammering until names enough were obtained to compel Congress to act.

So, through the determination of this Farmer-Laborite, himself a veteran of the Spanish-American War, the bonus bill was kept alive and finally passed.

The bonus bill was not a grandstand measure with Congressman LUNDEEN. It was something to be worked for in silence of oblivion as well as when the bands were playing.

Just as he worked and worked until the bonus became a reality, so LUNDEEN will work until his measure for social security for all is enacted into law.

SOCIAL SECURITY A LIFETIME INTEREST

I am sure Congressman LUNDEEN will continue his fight until social security for all is written on the statute books of this country. We are determined to continue the fight for the Frazier-Lundeen social-security bill during the next Congress.

Congressman ERNEST LUNDEEN's interest in social security began long before the beginning of his public career. His Carleton commencement oration, delivered at Northfield, Minn., on June 12, 1901, is a brilliant expression of the same views he holds today. Few people can view their youthful expressions of thought delivered 35 years ago and say, "I need not change a word nor take a letter back."

"THE IRREPRESSIBLE CONFLICT"

Foreseeing the rising tide of monopoly and the Money Trust, LUNDEEN stated in his college oration:

Today we are face to face with forces which tomorrow may plunge our land into the horrors of war. Capital and labor, wealth and poverty are arrayed like armored giants, chafing for the battle. The struggle is irrepressible—inevitable. The love of the much and the more, the idealizing of power have made the hearts of men as steel ringing on steel in the great conflict for victory.

We forget the shadows, we ignore the stifled cry of the burdened millions—and we fail to better their condition. We boast of the telegraph and telephone, of steamship and railroad, of cheaper clothing and a wider range of food, but, fellow citizens, how much of this do the tenement dwellers of our great cities enjoy? What great avenues of progress are open to the 140,000 coal miners of Pennsylvania whose wages average $250 per year?

In this atmosphere of social discontent are latent forces of labor unions and strikes. Let their miseries increase a little more; let the capitalist entrench himself a little more securely, heap a few more indignities and wrongs upon these bending forms, and lo, behold a revolution which no government soldiery can ever suppress. When he wills it, the brawny arm of the laboring man can destroy monarchies, dethrone kings, and banish republics from the earth forever.

The pinnacles of our educational system may reflect in golden gleams, wealth, and wisdom, but if our foundations of granite begin to crumble a rush of winds will sweep away the worthless debris and leave mankind an opportunity to build better.

PARENTS AMERICAN PIONEERS

ERNEST LUNDEEN was born on a homestead near Beresford, S. Dak. His parents were from Småland, Sweden. He early learned the toils and hardships of pioneering on the Great Plains. His mother was one of those noble, pioneer women whose sturdy build and strength of character our great American artists have, fortunately, forever preserved. His father was a farmer-homesteader and a minister of the gospel, independent and progressive.

EDUCATION

After attending the Brooklyn district country school near Beresford, S. Dak., the grade schools of Harcourt, Iowa, and high school at Dayton, Iowa, ERNEST LUNDEEN went to Northfield, Minn., where he worked his way through Carleton College. Here he participated in many activities, including debate and oratory, the football team and field sports of all kinds. In the course of his studies, his debating and oratory, his mind was made fertile with ideas of social justice. His progressive views early brought him in contact with the cooperative movement. He was a director of a cooperative boarding house at Carleton College, which was known to be very successful in furnishing good, wholesome food at unbelievably low cost to students of Carleton.

LUNDEEN's education was interrupted by the Spanish-American War, when he enlisted as a volunteer of Company B, Twelfth Minnesota Volunteer Infantry. His service in the Spanish-American War convinced him that something was wrong with the method of handling food supplies, health, and sanitation during the war.

LABOR'S LAWYER

After attending the University of Minnesota law school and being admitted to the bar, LUNDEEN soon made a name for himself as a successful, progressive lawyer of Minneapolis, where he has been practicing for 30 years. He came to the defense of labor unions in the switchmen's strike when no other attorney in the Twin Cities could be found to face the attacks of reactionary elements. Railroad labor will always remember LUNDEEN's defense of labor's rights.

MINNESOTA LEGISLATURE

ERNEST LUNDEEN served two terms in the Minnesota State Legislature, 1911 to 1915, where he successfully piloted through such progressive measures as a bill to increase the value of human life from $5,000 to $7,500 in cases of death by wrongful act. This law paid millions of dollars to widows and orphans made dependent by accidental death of their husbands and fathers. He was an active leader in the field of workmen's compensation.

WORLD WAR DAYS

During the hectic days of the World War, when LUNDEEN first served in Congress, 1917 to 1919, his speeches and the bills he introduced show that he was a fighter for social security. Having rare ability to vision the future in spite of war hysteria, Congressman LUNDEEN had the courage and the foresight to speak out against ruthless destruction of our natural resources and the depletion of supplies needed at home. He protested to Congress and to the President against the huge exports of coal to foreign countries while our own people were in danger of freezing from the resulting shortage of coal.

SPONSORED SOCIAL LEGISLATION 19 YEARS AGO

In those hysterical days of the war and the months that followed the armistice, Congressman LUNDEEN sponsored social legislation in Congress. He introduced a resolution to create in the newly established Department of Labor a bureau of the unemployed, which was to alleviate the unemployment that far-thinking people knew would result from the war. Hearings were held by the Rules Committee of the House of Representatives on another Lundeen resolution, directing certain committees of the House to provide means of employment for veterans and the post-war army of the unemployed. This was in 1919.

The persecution LUNDEEN suffered as a result of his vote against America's entry into the World War and against conscription for foreign service only further impressed upon his mind the necessity of building an enlightened labor movement to combat the power and propaganda of moneyed interests. For many years he suffered persecution, disgrace, and poverty. He had the experience of having his home foreclosed and all his possessions, including his treasured books, thrown into the street during a rainstorm. Books in his library today still bear the mud-splash marks of foreclosure.

Experiences of this kind do not crush the spirit of a fighting American. They make his heart beat faster for those of his countrymen who suffer the same fate. They make him more determined than ever to expose the cause of such tragedies and to fight for social justice.

HISTORY OF FRAZIER-LUNDEEN SOCIAL-SECURITY BILL

With this background of active leadership in labor legislation and with these many years of personal experience in suffering hardships that spring from social insecurity, Congressman LUNDEEN came back to Washington in March 1933 demanding social security for all the people. Within the 14 years preceding his election to the Seventy-third Congress he had made two trips to Europe, visiting England, Sweden, Denmark, Finland, Germany, the Soviet Union, and other countries, taking special note of progress made by these countries in social security. He found that America, though a leader in other fields, was behind many countries of Europe in social-security legislation. From boyhood he had given much time

to reading, especially the works of American liberal and progressive leaders, and today he is constantly on the watch for new books, pamphlets, magazine and newspaper articles on social security.

The Lundeen unemployment, old-age, and social-security bill was first introduced as H. R. 7598 on February 2, 1934. It was again introduced the opening day of the Seventy-fourth Congress, January 3, 1935, as H. R. 2827. That session it was favorably reported out by the House Labor Committee.

The Frazier-Lundeen bill, embodying the same principles as the original Lundeen bill, but worked out in greater detail, was introduced on January 6, 1936, as H. R. 9680 and S. 3475. It provides an immediate Federal system of social insurance for all persons over the age of 18 who are unemployed through no fault of their own. The insurance is equal to prevailing local wages, but in no case less than $10 per week plus $3 for each dependent; nor more than $20 per week plus $5 for each dependent. The cost is borne by the Federal Treasury, and further funds necessary are raised by taxation on incomes, gifts, and inheritances over $5,000 a year.

Old-age pensions and health, accident, and maternity insurance are provided in like amounts.

Hearings were held on the bill in 1936 by the Senate Committee on Education and Labor. The Frazier-Lundeen bill is endorsed by thousands of labor unions, church and fraternal societies, and local and State governments. It was the first social-security measure before the American Congress, and it is the only adequate social-security measure before the American people today. I feel certain the voters of Minnesota will return ERNEST LUNDEEN to Congress, so that we may continue to work with him in our fight for real and adequate social security for all the people.

ENDORSED BY NATIONAL UNION FOR SOCIAL JUSTICE

Congressman LUNDEEN has been unanimously endorsed by the National Union for Social Justice for reelection to Congress from the Third Congressional District of Minnesota. The endorsing resolution reads:

Whereas ERNEST LUNDEEN, Congressman from the Third Congressional District of the State of Minnesota, has always been a leader in the struggle for a more just economic order; and

Whereas his record in the Minnesota Legislature and the Congress of the United States over a period of years has demonstrated his sincerity and courage in the battle for justice to the common man; and

Whereas his record for social-security legislation has been such that he has won national recognition; and

Whereas Congressman LUNDEEN has approved all of the 16 points in the program of the National Union for Social Justice: Now, therefore, be it

Resolved by the Third District Convention of the National Union for Social Justice of the State of Minnesota, That we recommend to our membership the candidacy of ERNEST LUNDEEN for Congressman for the said Third District and urge our members to do everything possible to secure his nomination and election.

FRAZIER-LEMKE BILL

An early signer of the petition to bring the Frazier-Lemke bill before the House for a vote, LUNDEEN has never forgotten that he was born on a farm. He votes with the great farm and farm-cooperative organizations, and he often quotes an inscription on a monument to those who lost their lives in a Minneapolis mill explosion:

Labor, wide as the earth, has its summit in heaven.

TOTAL OF APPROPRIATIONS, SEVENTY-FOURTH CONGRESS, SECOND SESSION—FUNDS FOR VETERANS, RELIEF AND EMPLOYMENT, SOCIAL SECURITY, AND ASSISTANCE TO AGRICULTURE PREDOMINATE

Mr. BUCHANAN. Mr. Speaker, the effect on the Public Treasury of the work of the session of Congress just closed has been frequently misrepresented by many who wish, for partisan political purposes, to discredit the efforts of the National Legislature and the Democratic administration. They cite you only an aggregate of all appropriations made during the session, including those which are of a permanent character and automatically continue without annual review by Congress. They make no attempt to analyze the total to indicate what part of that aggregate is payable from postal revenues and trust-fund receipts and not therefore a charge against the general funds, nor to indicate what portion is for the fiscal year just closed and a charge against that year, nor to what portion is primarily for the fiscal year 1937, which commences July 1, 1936. They would leave the impression that the entire total represents a single year's expenditures. It does not.

The work of the session, insofar as appropriations are concerned, was affected by two momentous incidents. The invalidation of the processing taxes by the decision of the Supreme Court necessitated the appropriation of approximately $300,000,000 for the payment of commitments and obligations that had been in good faith entered into by farmers prior to the decision of the Court and which otherwise would have been paid from processing-tax appropriations. The enactment of the Adjusted-Compensation Payment Act—soldiers' bonus—requires appropriations aggregating $2,249,587,375, including in that total the expenses of administration and audit. These two extraordinary and unexpected amounts make a total of approximately $2,550,000,000. The national problem of relief still continues, though the need is in lessened form, due to general improvement in business conditions. There is included for this purpose a total of $1,425,000,000, with an additional $308,000,000 to continue the laudable activities of emergency conservation work through the Civilian Conservation Corps.

A listing of the appropriations by the totals of the acts in which they are carried leaves the layman with little comprehension of the broad general purposes to be attained by those sums. An appropriate summary classification of all of the appropriations by their general purposes and according to fiscal years places a different understanding and light upon the aggregate.

The gross total of all appropriations for the session—being for the fiscal years 1936 and 1937 and previous years—including the revised estimate of the permanent appropriations and including estimated amounts under new indefinite appropriations, is $10,338,938,839.69. This figure contains some estimated calculations that will be subject to future adjustment. I shall include in my statement at this point the classification of this total, broken down by fiscal years and assembled from all appropriating acts and sources, to give a general 12-point view of this aggregate. I will in this connection state that these appropriations do not include the amount of $300,000,000 to be obtained from sales of P. W. A. securities and authorized to be used for making of grants for public-works projects. The table referred to is as follows:

TABLE A.—*Classification according to major objects and purposes of expenditure and by fiscal years of appropriations made during 74th Cong., 2d sess.*

Purpose	Fiscal year 1935 and prior fiscal years, judgments and audited claims	Fiscal year 1936	Fiscal year 1937	Total
Relief and work relief			$1, 425, 000, 000. 00	$1, 425, 000, 000. 00
Emergency conservation work (Civilian Conservation Corps)			308, 000, 000. 00	308, 000, 000. 00
General public works			[1] 365, 410, 000. 00	365, 410, 000. 00
Social-security program		[2] $42, 664, 500. 00	[3] 475, 253, 410. 00	517, 917, 910. 00

[1] Exclusive of general public works for Army, Navy, and Veterans' Administration. Includes the following: Tennessee Valley Authority, $39,900,000; roads (Agriculture), $68,000,000; Reclamation Service, $54,610,000; national-park and Indian reservation roads, $10,000,000; penal institutions, $2,550,000; Rio Grande flood control, rectification, and diversion (State), $3,800,000; public buildings (Treasury), $65,550,000; river and harbor construction (War), $120,750,000; miscellaneous, $250,000.

[2] Administration, investigation, and grants to States.

[3] Includes $210,253,410 for administration, investigation, and grants to States, and $265,000,000 for first annual premium to be paid into old-age reserve account for payment of Federal old-age benefits.

TABLE A.—*Classification according to major objects and purposes of expenditure and by fiscal years of appropriations made during 74th Cong., 2d sess.*—Continued

Purpose	Fiscal year 1935 and prior fiscal years, judgments and audited claims	Fiscal year 1936	Fiscal year 1937	Total
Veterans:				
Veterans' Administration			[4] $593, 727, 000. 00	$593, 727, 000. 00
Adjusted compensation payments (bonus)		[5] $2,249,178,375. 00	[6] 409, 000. 00	2, 249, 587, 375. 00
Total, veterans		2, 249, 178, 375. 00	594, 136, 000. 00	2, 843, 314, 375. 00
National defense:				
Navy		875, 431. 35	[7] 528, 102, 532. 00	528, 977, 963. 35
Army (military activities, War Department)		4, 340, 000. 00	[8] 387, 445, 754. 00	391, 785, 754. 00
Total, national defense		5, 215, 431. 35	915, 548, 286. 00	920, 763, 717. 35
Postal Service and Post Office Department		40, 507, 185. 42	780, 584, 589. 00	821, 091, 774. 42
Assistance to agriculture		[9] 304, 554, 552. 34	[10] 709, 166, 823. 04	1, 013, 721, 375. 38
Interest on public debt			[11] 805, 000, 000. 00	805, 000, 000. 00
Public-debt retirements (from ordinary receipts)			[11] 580, 125, 000. 00	580, 125, 000. 00
Trust funds			[11] 152, 775, 393. 00	152, 775, 393. 00
All other activities and expenses of Government		[12] 19, 426, 286. 14	[12] 563, 932, 632. 46	583, 358, 918. 60
Items for all agencies for 1935 and prior years—incurred expenses	$384, 412. 07			384, 412. 07
Judgments and audited claims	2, 075, 963. 87			2, 075, 963. 87
Grand total	2, 460, 375, 94	2, 661, 546, 330. 25	7, 674, 932, 133. 50	10, 338, 938, 839. 69
Less trust-fund appropriations payable from trust-fund receipts and that portion of postal appropriations capable of being met from postal revenues			[13] 857, 775, 393. 00	[13] 857, 775, 393. 00
Net appropriations chargeable against general fund	2, 460, 375. 94	2, 661, 546, 330. 25	6, 817, 156, 740. 50	9, 481, 163, 446. 69

[4] Includes public-works item of $4,000,000.
[5] Includes $2,237,000,000 for adjusted compensation payments, $5,500,000 for administrative expenses under Veterans' Administration and $6,678,375 for administrative expenses under Treasury Department.
[6] Expenses of audit of adjusted-compensation payments by General Accounting Office.
[7] Includes public works.
[8] Includes public works and excludes trust fund of $799,105.
[9] Includes $296,882,948.54 for payment of obligations and commitments incurred prior to Jan. 6, 1936, under the Agricultural Adjustment Act.
[10] Includes $112,027,202 for regular activities of Department of Agriculture and Farm Credit Administration, $440,000,000 for carrying into effect new Soil Conservation and Domestic Allotment Act, $109,139,621.04 for encouragement of exportation and domestic consumption of agricultural commodities and products thereof, etc. (30 percent "customs duties" fund), $48,000,000 for payments on account of reduction in interest on farm mortgages and extensions and deferments of farm mortgages. In addition to this sum, funds are made available, under the relief appropriation, for rural rehabilitation and for loans and relief to farmers and livestock growers. Of the $112,027,202, approximately 25 percent is of more direct benefit to the general public than to assisting agriculture but this approximate percentage amount is offset by a reappropriation of $21,364,000 (not included in the total of appropriations) for the elimination of diseased cattle.
[11] Estimated.
[12] Includes all other activities of Government not classified above, comprising mainly operating expenses of the legislative branch, the Executive Office and independent establishments, Departments of Commerce, Interior, Justice, Labor, State, and Treasury, nonmilitary activities of War Department (including maintenance of rivers and harbors); and contributions to maintenance of District of Columbia government and to funds for retirement of Federal employees.
[13] Consists of $152,775,393 trust-fund appropriations payable from trust-fund receipts and $705,000,000 estimated postal revenues. The remainder of above postal appropriations for 1937, $75,584,589, is a charge against general fund of the Treasury.

It will be noted from the foregoing table A that, after deducting the trust-fund appropriations chargeable against trust-fund receipts and that part of the Postal Service estimated to be met from postal revenues, there is a resultant total for the session chargeable against the general funds of $9,481,163,446.69. This sum segregated by fiscal years is as follows.

Fiscal year beginning July 1, 1936, and ending June 30, 1937	$6, 817, 156, 740. 50
Fiscal year beginning July 1, 1935, and ending June 30, 1936	2, 661, 546, 330. 25
Fiscal years prior to July 1, 1935	384, 412. 07
Judgments and audited claims	2, 075, 963. 87
	9, 481, 163, 446. 69

The sum of $2,661,546,330.25 for the fiscal year which began July 1, 1935, and ends June 30, 1936, consists principally of two amounts. The sum of $296,882,948.54 for the payment of commitments and obligations to farmers under the former Agricultural Adjustment Act and $2,249,178,375 for administration and payments under the Adjusted Compensation Payment Act constitute $2,546,061,323.54 of the 1936 total, leaving $115,485,006.71 for all other 1936 purposes.

The amount for the fiscal year 1937, which begins July 1, 1936, and ends June 30, 1937, is $6,817,156,740.50. This sum contains the new item of $308,000,000 for the Civilian Conservation Corps in carrying on emergency conservation work, heretofore financed from relief and emergency appropriations and now appearing for the first time as an annual appropriation item. There are also included for the first time on a complete fiscal year basis the necessary funds to carry into effect all phases of the new Social Securiy Act in the aggregate sum of $475,253,410. The outstanding item in the 1937 total is the sum of $1,425,000,000 for relief and work relief.

The necessity for relief appropriations is of temporary character during the emergency. It will lessen as business conditions improve and industry absorbs those whom this Government will not permit to starve when they cannot find work. Eliminating this sum of $1,425,000,000 from the total of $6,817,156,740.50 leaves $5,392,156,740.50 as a sum which approximately represents the general appropriations for the fiscal year 1937, exclusive of relief.

The total of $10,338,938,839.69 for all fiscal years at this session, stripped of the amounts for relief and work relief, the amounts chargeable to trust funds and postal revenues, the amount for the soldiers' bonus, and the amount for payment of obligations under the invalidated A. A. A., leaves a total for the session for all other purposes of $5,509,693,123.15.

RELIEF AND WORK RELIEF

The appropriation of $1,425,000,000 made at this session for relief and work relief is not indicative of the amount that will be available for expenditure for employment purposes in the fiscal year to commence on July 1, 1936. In addition to this sum there is the item of $308,000,000 for the employment of young men in the Civilian Conservation Corps, the sum of $369,410,000 for general public works of the Federal Government, which will furnish employment to labor, there will also be expended in the next fiscal year approximately $1,000,000,000 to be carried over from the Emergency Relief Appropriation Act of 1935—four billion eight hundred and eighty million act—which is obligated but not expended, and in addition there is made available the sum of $300,000,000 for grants for public-works projects under the Public Works Administration. These sums make a total of $3,402,410,000. To the sum of $300,000,000 for P. W. A. grants should be added such sum as will accompany such grants as P. W. A. loans. This amount is problematic, dependent upon the ability of States and local public agencies to obtain funds at lower rates of interest than Government rates for P. W. A. loans. There is also made available to the Rural Electrification Administration for electrification in rural areas the sum of $50,000,000 from funds of the R. F. C. to be loaned by the R. E. A. Taking all of these items into account, it is reasonable to anticipate that the total amount for employment purposes to be available in the fiscal year 1937 will be not less than $3,600,000,000.

EMERGENCY CONSERVATION WORK

The results obtained from the operations of the Civilian Conservation Corps, both as a benefit to the young men given employment and for relief to their dependents and as a distinct contribution toward the conservation of our natural resources, will win for that service a permanent place in the activities of our Government. The appropriation of $308,000,000 for such purposes in the fiscal year 1937 will furnish funds for a total authorized enrollment in the continental United States of not to exceed 350,000, and in addition will permit enrollment of about 9,000 Indians for work on Indian reservations and care for a limited number of enrollments in Alaska, Hawaii, Puerto Rico, and the Virgin Islands. The number of camps to be in operation in forests, national parks, on soil-conservation projects, and other phases of the work, will average not to exceed 2,066 during the year. Since the inception of this activity in 1933 a total of 1,560,000 men has been given employment, and the value of their services, translated into public-conservation permanent improvements, exceeds $600,000,000.

SOCIAL SECURITY

A total of appropriations for the session for this new program is $517,917,910, of which $42,664,500 is on account of the fiscal year just closed and $475,253,410 is for the fiscal year 1937. This latter sum is spread among the various agencies of the Government required by law to administer the various phases of the act. Of the sum of $475,253,410, representing a full fiscal-year program, the following are the component parts under the agencies of administration:

Social Security Board:		
Administrative expenses and investigation		$18,400,000
Grants to States for old-age assistance		85,000,000
Grants to States for unemployment-compensation administration		29,000,000
Grants to States for aid to dependent children		35,000,000
Grants to States for aid to blind		8,000,000
Collection of wage-record data, old-age-benefit payments		12,400,000
		187,800,000
Treasury Department:		
Annual premium, old-age reserve account	$265,000,000	
Administrative expenses	31,860	
Collection of taxes	5,801,550	
Grants to States for public health assistance	8,000,000	
Public-health research	1,320,000	
		280,153,410
Children's Bureau, Department of Labor:		
Administration and investigation	$299,000	
Grants to States for maternity and child-health services	2,820,000	
Grants to States for aid to crippled children	2,150,000	
Grants to States for child-welfare services	1,200,000	
		$6,469,000
Office of Education, Interior Department:		
Grants to States for vocational rehabilitation of persons disabled in industry		831,000
		475,253,410

ASSISTANCE TO AGRICULTURE

The situation with respect to aid to agriculture was complicated at the outset of the session by the invalidation of the processing taxes by the Supreme Court. This decision resulted in a loss of estimated revenue from that source of approximately $462,000,000 in the fiscal year 1936 and $547,000,000 in the fiscal year 1937, or a total between the two years in excess of a billion dollars. It became necessary to provide new taxes to support the agricultural program and to make new appropriations for aid to agriculture to replace those which had automatically occurred under the Agricultural Adjustment Act from the funds collected under the processing taxes.

With this change in the situation, the session just closed provided a total of $1,013,721,375.38 for assistance to agriculture through the various appropriating acts and under the permanent appropriations. This sum is divided between the fiscal year just closed and the new fiscal year. Of the total of $304,554,552.34 for the fiscal year 1936, the sum of $296,882,948.54 is required for making payments under obligations and commitments incurred under the Agricultural Adjustment Act prior to the Court decision on January 3, 1936. The total of $709,166,823.04 for the fiscal year 1937 comprises some funds for the regular activities of the Department of Agriculture which are of more direct general public benefit than they are of assistance to agriculture. However, there is not included in this total an item of reappropriation of $21,364,000 for elimination of diseased cattle which in practical effect will offset those nonagricultural activities. The items entering into the aggregate of $709,166,823.04 for the fiscal year ending June 30, 1937, are as follows:

Regular activities of the Department of Agriculture, exclusive of public roads	$108,027,202.00
Farm Credit Administration, administrative expenses	4,000,000.00
New Soil Conservation and Domestic Allotment Act (to replace A. A. A.)	440,000,000.00
Encouragement of exportation and domestic consumption of agricultural commodities and products thereof (30 per "customs duties" fund)	109,139,621.04
Reduction in interest on farm mortgages (through Federal land banks)	24,000,000.00
Extension and deferment of principal of farm mortgages (through Federal land banks)	24,000,000.00
	709,166,823.04

VETERANS

The amount provided for the fiscal year 1937 for regular activities of the Veterans' Administration is $593,727,000. In addition to this sum of direct appropriation there are items of reappropriation for this Administration for the next fiscal year totaling $42,000,000, which makes a total available sum of $635,727,000.

The amount carried for all phases of adjusted compensation payments is $2,249,587,375, and this sum is composed of the following parts:

Adjusted-compensation payments	$1,730,000,000
Amount representing face value of bonds required to be paid to Government life-insurance fund (estimated)	507,000,000
Administrative expenses, Treasury Department	6,678,375
Administrative expenses, Veterans' Administration	5,500,000
Auditing expenses, General Accounting Office	409,000
Total	2,249,587,375

GENERAL PUBLIC WORKS

The amounts provided under the general heading of "Public Works" are exclusive of public works carried under the Army, Navy, and Veterans' Administration. They include the following projects, which will furnish employment and at the same time accomplish desirable public improvement of a lasting nature:

Tennessee Valley Authority	$39,900,000
Federal-aid highways and national-forest roads	68,000,000
Reclamation projects	54,610,000
National-park and Indian-reservation roads	10,000,000
Penal institutions	2,550,000
Rio Grande diversion, rectification, and flood control	3,800,000
Public buildings, Treasury Department	65,550,000
Rivers and harbors, new construction (War Department)	120,750,000
Miscellaneous	250,000
Total	365,410,000

PUBLIC DEBT

The public debt at this date is approximately $34,000,000,000. It should be remembered, however, that of this sum nearly $2,000,000,000 is occasioned by the Adjusted Compensation Payment Act, without which the public debt would stand at approximately $32,000,000,000. The necessity for relief and recovery from the deplorable conditions of the depression has caused the increase in the debt. Some increase is inevitable during the coming fiscal year on account of continued need for relief and further payments on account of adjusted compensation to soldiers. There should be kept in mind in connection with this debt that there are recoverables which the Government has taken in the form of securities and investments in capital stock and otherwise which will approximate $4,500,000,000 as a credit against the debt. The interest estimated to be payable on the public debt during the coming fiscal year is $805,000,000. This is a large sum, but I would call attention to the fact that it is less by $250,000,000 than our interest bill in the fiscal year 1923, when the public debt was considerably less. When this debt is challenged as a burden upon business and the taxpayer, it is well to remember that it is less of a current burden by a quarter of a billion dollars than was the debt in the fiscal year 1923. Much of this difference in interest is due to the successful refinancing of the debt structure by the Treasury Department at lower rates of interest than those carried by the retired obligations.

THE BUDGET

The regular Budget for the fiscal year 1936 was thrown out of balance by the invalidation of the processing taxes by the Supreme Court and the enactment of the Adjusted Compensation Payment Act. Had it not been for those contingencies there would have been a surplus of regular receipts over regular expenditures. For the fiscal year 1937, it is my opinion that except for such expenditures as may be necessary to conclude the payments for adjusted compensation and provide for relief, the expenditures will otherwise be within the revenues.

APPROPRIATIONS AND BUDGET ESTIMATES

I shall append as part of my remarks two other tables. Table B is a general listing of all appropriations during the session by acts, including the revised permanent appropriations and the estimated new indefinite appropriations in annual acts. Table C is a listing of all appropriations and Budget estimates by acts during the session showing in comparative form the increase or decrease in the Budget estimates considered during the session.

From table C it will be noted that the grand total of all appropriations made during the session is $80,129,575.82 less than the grand total of all Budget estimates submitted to and considered by the Congress. This is a net decrease after allowing as credits against the Budget estimates all proper sums granted as reappropriations, indefinite appropriations, or contract authorizations, which otherwise would appear as reductions in Budget estimates or not appear as increases therein.

TABLE B.—*Total appropriations, 74th Cong., 2d sess., including permanent annual and indefinite appropriations*

REGULAR ANNUAL ACTS

Department of Agriculture and Farm Credit Administration appropriation act:		
Department of Agriculture:		
Roads	$68,000,000.00	
General agricultural activities	[1] 101,565,606.00	
Total	169,565,606.00	
Farm Credit Administration	4,000,000.00	
		[1] $173,565,606.00
District of Columbia appropriation act		43,523,910.00
Independent offices appropriation act:		
Veterans' Administration:		
Regular activities	[2] 593,727,000.00	
Adjusted-compensation payments (soldiers' bonus)	[3] 1,730,000,000.00	
Total	2,323,727,000.00	
Soil Conservation and Domestic Allotment Act	440,000,000.00	
All other independent offices, including Executive Office	[4] 126,024,905.00	
		[5] 2,889,751,905.00
Interior Department appropriation act		114,579,357.05
Legislative branch appropriation act		23,314,428.00
Navy Department and naval service appropriation act		526,546,532.00
State, Justice, Commerce, and Labor Departments appropriation act:		
Department of State	17,829,550.00	
Department of Justice and Judiciary	41,223,925.00	
Department of Commerce	35,257,220.00	
Department of Labor	[6] 21,784,700.00	
		[6] 116,370,395.00
Treasury and Post Office Departments appropriation act:		
Treasury Department	211,940,303.00	
Post Office Department	780,584,589.00	
		992,524,892.00

[1] In addition to this sum, there is an estimated indefinite appropriation of $500,000 (see footnote 10) under the migratory bird conservation fund and a reappropriation of $21,364,000 for the elimination of diseased cattle.
[2] In addition to this sum, there are reappropriations totaling $42,000,000.
[3] In addition to this sum, there is an estimated indefinite appropriation of $507,000,000. (See footnote 10).
[4] In addition to this sum there are reappropriations totaling $7,582,861.
[5] In addition to this sum, there are reappropriations totaling $49,582,861 and an indefinite appropriation estimated at $507,000,000. (See footnote 10.)
[6] In addition to this sum, there is an indefinite appropriation estimated at $1,675,000. (See footnote 10). This sum is exclusive of $81,800 for Bituminous Coal Labor Board, such sum being repealed by First Deficiency Act. The total of the act includes $275,000 for the Great Lakes Exposition under an independent commission.

TABLE B.—*Total appropriations, 74th Cong., 2d sess., including permanent annual and indefinite appropriations*—Continued

REGULAR ANNUAL ACTS—continued		
War Department appropriation act:		
Military activities	[7] $383,104,859.00	
Nonmilitary activities	189,341,985.00	
		$572,446,844.00
Total, regular annual appropriation acts		[8] 5,452,623,869.05
MISCELLANEOUS ACTS CONTAINING APPROPRIATIONS		
Estimated amount of appropriations carried in miscellaneous public acts and resolutions and private acts		3,000,000.00
SUPPLEMENTAL AND DEFICIENCY APPROPRIATION ACTS		
Supplemental Appropriation Act, fiscal year 1936:		
Payment of obligations and commitments entered into under the Agricultural Adjustment Act prior to Jan. 6, 1936	$296,882,948.54	
Administration and grants to States under Social Security Act, 1936	42,664,500.00	
Administrative expenses for payment of soldiers' bonus, 1936	12,178,375.00	
All other items, 1936 and prior years	16,506,639.10	
		368,232,462.64
First Deficiency Appropriation Act, fiscal year 1936:		
Relief and work relief, 1937	1,425,000,000.00	
Social Security Act, including administration, grants to States, and old-age reserve account, 1937	458,633,410.00	
Emergency conservation work (Civilian Conservation Corps), 1937	308,000,000.00	
Public buildings, under Treasury Department, 1937	65,550,000.00	
Tennessee Valley Authority, 1937	39,900,000.00	
Postal Service, 1936, account 40-hour week and increased business	40,506,250.00	
All other items, 1937 and 1936 and prior years	37,827,877.96	
		2,375,417,537.96
Total, deficiency and supplemental bills, and miscellaneous		2,746,650,000.60
Total, regular annual, deficiency, supplemental and miscellaneous		8,199,273,869.65
PERMANENT ANNUAL APPROPRIATIONS [9]		
Interest on the public debt	$805,000,000.00	
Public-debt retirement funds (from ordinary receipts)	580,125,000.00	
Trust funds	113,382,378.00	
Encouragement of exportation and domestic consumption of agricultural commodities and products thereof, etc. (equal to 30 percent of duties from customs for calendar year 1935)	109,139,621.04	
All other permanent appropriations	22,842,971.00	
Total, permanent annual appropriations		[9] 1,630,489,970.04
Total, regular, deficiency, supplemental, miscellaneous, and permanent		9,829,763,839.69
ESTIMATED AMOUNTS UNDER NEW INDEFINITE APPROPRIATIONS CARRIED IN REGULAR ANNUAL APPROPRIATION ACTS		
Adjusted-compensation payments (soldiers' bonus) amount representing face value of bonds required to be paid to Government life-insurance fund	$507,000,000.00	
U. S. Employment Service, Department of Labor	1,675,000.00	
Migratory-bird conservation fund, Department of Agriculture	500,000.00	
Total, new indefinite appropriations		[10] 509,175,000.00
Grand total		[11] 10,338,938,839.69

[7] In addition to this sum, there are reappropriations totaling $2,845,925.

[8] In addition to this sum, there are indefinite appropriations (see footnote 10), totaling $509,175,000 and reappropriations totaling $73,792,786.

[9] As revised by eliminating appropriations of processing taxes under the Agricultural Adjustment Act and collections under the Kerr Tobacco Act and adding the fund for encouragement of exportation and domestic consumption of agricultural commodities and products thereof, etc. (an amount equal to 30 percent of 1935 customs duties).

[10] Amounts estimated under indefinite appropriations in regular appropriation acts. In each of these instances indefinite appropriations were substituted for definite appropriations as requested in the Budget estimates.

[11] The First Deficiency Appropriation Act makes available the sum of $300,000,000 from the sale of securities now on hand or to be received by the Public Works Administration and the use of the receipts from such sales for making grants for public-works projects.

NEW INDEFINITE APPROPRIATIONS IN REGULAR ANNUAL ACTS				
Soldiers' bonus, migratory-bird conservation fund, and U. S. Employment Service	509,175,000.00	([12])	([12])	([12])
Grand total	10,338,938,839.69	[2] 10,499,530,987.51	[13] 80,462,572	−80,129,575.82

[2] Exclusive of $160,000,000 for the adjusted-compensation fund in regular annual estimates which was withdrawn after enactment of the Adjusted Compensation Payment Act (soldiers' bonus).

[3] Comprises reappropriations, $40,000,000 of which is in lieu of direct Budget estimates of that amount, not included in total appropriations.

[4] Indefinite appropriation included in total of appropriations. (See footnote 12.)

[5] Comprises reappropriations included in lieu of direct Budget estimates of that amount, not included in total of appropriations.

[6] Contract authorization substituted for direct Budget estimate of like amount, not included in total of appropriations.

[7] Exclusive of $81,800 for Bituminous Coal Labor Board repealed by First Deficiency Act. The grand total of the act includes $275,000 for Great Lakes Exposition Commission, not estimated for.

[8] Indefinite appropriation included in total of appropriations. (See footnote 12.)

[9] Comprises contract authorizations of $2,669,786 and reappropriations totaling $2,845,925, not included in total of appropriations.

[10] Of this amount, $509,175,000 is included in grand total of appropriations, and $80,462,572 comprises reappropriations and contract authorizations not included in total of appropriations.

[11] Contract authorization of $3,000,000 in lieu of Budget estimate of that amount, not included in total of appropriations.

[13] Budget estimates for this sum included above as follows: $507,000,000 in the item of $2,237,000,000 under Veterans' Administration, $1,675,000 under regular Budget estimates for Department of Labor, and $500,000 under regular Budget estimates for Department of Agriculture.

[12] Represents contract authorizations of $6,669,786 and reappropriations of $73,792,786 not included in total of appropriations, but credited against reduction in Budget estimates.

THE PEACE AMENDMENT

Mr. LUDLOW. Mr. Speaker, this is a report to the people of America on the progress of the peace amendment.

I deem it my duty to make this report to the thousands upon thousands of Americans who regard the peace amendment, introduced by me and known as House Joint Resolution No. 167, as the very best proposal that has been offered to keep our boys out of the slaughter pens of foreign wars.

The felicitous name "peace amendment" was given to my resolution by the magazine Good Housekeeping, because the editor of that magazine believes it would insure peace to America for ages to come.

There are, of course, peace proposals and peace proposals, some worthless, some with limited merit, and others highly meritorious.

After an exhaustive evaluation of all proposals, the magazine Good Housekeeping selected the resolution I have introduced as the most practical and meritorious of all and named it the "peace amendment." All signs indicate that the name will stick.

TEXT OF PEACE AMENDMENT

I think it is proper at this point to set forth the full text of the peace amendment. It proposes to amend the Constitution of the United States by adding a new article, as follows:

ARTICLE —

SECTION 1. Except in the event of an invasion of the United States or its Territorial possessions and attack upon its citizens residing therein, the authority of Congress to declare war shall not become effective until confirmed by a majority of all votes cast thereon in a Nation-wide referendum. Congress may by law provide for the enforcement of this section.

SEC. 2. Whenever war is declared the President shall immediately conscript and take over for use by the Government all the public and private war properties, yards, factories, and supplies, fixing the compensation for private properties temporarily employed for the war period at a rate not in excess of 4 per centum, based on tax values assessed in the year preceding the war.

A close scrutiny of this proposed constitutional amendment reveals its twofold purpose as follows:

1. Under its operation, unless the United States should be invaded or attacked, a declaration of war could not be made until the question has been submitted to all of the people of the country, women as well as men, and approved by a majority in a Nation-wide referendum. It is based on the philosophy that those who have to suffer and if need be, to die and to bear the crushing burdens of war shall have something to say as to whether war shall be declared.

2. The second objective of the amendment is to take the profit out of war. Take the profit out of war and there will be few wars.

WOULD KEEP OUR BOYS OUT OF FOREIGN WARS

Under this amendment, with all of the people allowed a vote on sending our boys to fight in foreign wars and with all prospects of war profits eliminated in advance, America would be on a firm and solid peace foundation. Our fine young men would be kept out of other peoples' wars. With profits gone glimmering, selfish interests would have no incentive to drag America into war. I firmly believe that with this amendment written into the Constitution, America would never enter another war except righteous wars of self-defense, if such should ever occur. At least 90 percent of the probability of our ever again becoming involved in any kind of a war would be removed.

We could then look forward to a long era of peace, when we of America may devote ourselves to a thorough job of attending to our own business; cultivating friendly relations with all of the nations of the world and interfering with none; showing once more some regard for the spiritual values; ordering our future course along lines of usefulness rather than destruction, and rehabilitating our happiness and prosperity while we strive to forget the sorrows and bind up the wounds of the last war.

The peace amendment was introduced on February 14, 1935. On June 19, 1935, elaborate hearings took place before the House Judiciary subcommittee no. 2. And I wish every friend of peace in America could read those hearings, which are most impressive, I think, showing the character and extent of the support back of the peace amendment.

After the resolution had been held in the committee more than a year, with no signs of committee action, I availed myself of my parliamentary rights and privileges and filed a discharge petition to bring the resolution out of the committee's control and before the House for debate and action. A discharge petition does not become effective unless, or until, it is signed by 218 Members of the House, a majority of the total membership. When the gavels pounded adjournment sine die on June 20, 72 Members of the House had signed the discharge petition to bring the peace amendment before the House.

These 72 Members, while far below the required number to make the petition effective, comprise a nucleus of a magnificent fighting force to carry on for the amendment in the next, or Seventy-fifth, Congress.

What are the forces that are lined up for the peace amendment? Its supporters are numbered not by the thousands or the hundreds of thousands, but by millions.

This proposal to give the people a chance to vote on a declaration of war and to take the profit out of war has penetrated deep into the consciousness of America, and down in the lower walks of life it finds a response of tremendous warmth and fervor, indicating a determination among the poor people of this country—the class that has never had a look-in when the war lords were setting the stage for war—that hereafter their sons shall not be used without their consent as cannon fodder in foreign wars.

FOUR EX-GOVERNORS SUPPORT PEACE AMENDMENT

It is to my mind most interesting and significant that among the 72 signers of my discharge petition 4 are Members who have been Governors of sovereign States. The Governor of a State comes into contact with all elements in his State; he knows what the people are talking about and thinking about; he is singularly equipped to interpret the spirit of the masses.

The four representatives who have held the highest executive positions in their States, who signed my petition and who are with me in this fight for humanity, are ex-Gov. Ralph O. Brewster of Maine, ex-Gov. Theodore Christianson of Minnesota, ex-Gox. Walter Pierce of Oregon, and ex-Gov. James G. Scrugham of Nevada.

SOME CHAMPIONS OF THE AMENDMENT

Among the many prominent individuals and groups supporting the peace amendment are the following:

1. Hon. Frank B. Kellogg, ex-Secretary of State and coauthor of the Kellogg-Briand Peace Pact.

2. Archbishops Michael J. Curley, Arthur J. Drossaerts, and John T. McNicholas and numerous bishops and priests of the Catholic Church.

3. The Church of the Disciples of Christ of America, hundreds of outstanding Protestant clergymen, and church conferences and organizations too numerous to mention.

4. Rabbis Stephen S. Wise, Edward L. Israel, Max C. Currick, Morris M. Feuerlicht, and Israel Goldstein and many other leaders of the Jewish people.

5. Maj. Gen. Smedley D. Butler, who knows from experience the meaning of war and on whom has been conferred for valorous service almost every known medal, including the Congressional Medal of Honor.

6. The American War Mothers by resolutions unanimously adopted at their annual convention in Washington, D. C., in 1935.

7. Gen. James E. Van Zandt, national commander of the Veterans of Foreign Wars, who says:

The legislation that you have introduced coincides in many ways with our thoughts to keep this country out of war, and as commander in chief of the Veterans of Foreign Wars of the United States, it is a pleasure to not only thank you for your interest in this matter but to congratulate you on the initiative you have taken in bringing this matter to the attention of the Congress of the United States.

8. The 21 brotherhoods of railroad men, comprising the largest group of organized labor in the world.

9. Fifty-six presidents of universities and colleges, including many of the country's most distinguished educators.

10. The magazine Good Housekeeping; Labor, the organ of the railroad brotherhoods; and many newspapers and periodicals in various States and cities.

11. The Federation of Womens' Clubs of the District of Columbia, the Womans' Christian Temperance Union, of Indiana, and various other States, and a great number of womens' organizations in all sections.

LEAST CONSPICUOUS OF GOD'S CREATURES

And beyond these whom I have here described are many other people, among the least conspicuous of God's creatures, people with hearts and feelings but devoid of education, who say in their letters, "This is the first time I have ever written to a Congressman, but I just had to let you know that I endorse all you are trying to do." There are times when the tongue cannot speak, and the pen cannot write, the language of the heart and many of these correspondents write falteringly, violating all rules of punctuation and spelling, but saying enough to make themselves articulate in their earnest, almost pathetic desire that there shall be no more wars and that the common people, who have to do the fighting and the suffering and the dying shall at least have something to say as to whether America shall enter future conflicts. The peace amendment already has established itself in the hearts of our countrymen as a great and righteous principle that should be recognized and vitalized in the form of an amendment to the Constitution of the United States.

Mr. Speaker, believing that the peace amendment I have proposed would keep our fine American boys out of the shambles in foreign countries and that it would protect our people from the pain and sorrow, the grief, the moral degradation, and the insufferable financial burdens that are inseparable from war; that it would promote the spiritual power and strength of America as a Nation consecrated to ideals of neighborliness and kindliness and that it would help to establish the kingdom of righteousness on earth, it is my purpose—provided I am reelected—to reintroduce the peace amendment on the opening day of the next Congress and to ask all of the friends of peace, everywhere, to rally with the enthusiasm of crusaders to its support.

COMMITTEE ON EXPENDITURES IN THE EXECUTIVE DEPARTMENTS SAVED GOVERNMENT HUNDREDS OF MILLIONS OF DOLLARS

Mr. COCHRAN. Mr. Speaker, as chairman of the Committee on Expenditures in the Executive Departments, I feel it is incumbent upon me to give a brief account to the House of the activities of this important committee.

Some 9 years ago the House abolished about 12 small committees on expenditures and adopted a resolution providing for one Committee on Expenditures in the Executive Departments composed of 21 members.

While a large number of bills are referred to the committee, the chief duty of the committee is to see that the moneys appropriated by the Congress of the United States to be spent by the executive departments is disbursed as the Congress intended and not as the officials of the executive departments might desire. We have no quarrel with any officials of the executive departments, but we do feel if the laws that Congress pass are not sufficient to carry out the purpose of a legislative act to the satisfaction of the administrative officer, then it is his duty to come to the Congress and ask for amendments and not take it upon himself to override the intent of the Congress.

I doubt if any committee of Congress receives as many complaints or as much information relative to the conduct of various Government officials and Government agencies as does our committee. I regret to say a large number of the communications that bring the complaints are anonymous, and naturally the committee does not give as much attention to such communications as it does to those where the writer signs his name and address where he might be located.

As chairman of the committee, acting for the committee, I investigate all complaints that come to the committee, and, where I feel I am justified, I take action immediately, not only during the period Congress is in session but while Congress is on vacation.

The committee has taken the position that the Office of the Comptroller General of the United States and the General Accounting Office were established by the Congress for the purpose of seeing that the Government agencies carry out the will of Congress.

It cannot be disputed that the Comptroller General of the United States is a representative of the Congress and not a representative of the executive branch of the Government.

The present Comptroller General, Hon. J. R. McCarl, who is just completing his 15-year term, and who cannot be reappointed under existing law, has been most helpful to the committee, cooperating in every way. His desire at all times to assist the committee when called on is most commendable. Many Government officials will rejoice over the fact that Mr. McCarl's term has expired. If they would stop, however, for a moment to realize he was only carrying out the duties imposed upon him, probably they would not be so critical in speaking of the manner in which he has conducted himself during the long period he has been in office. Mr. McCarl carried out the duties of his office without fear or favor.

The appointment of his successor is in my opinion the most important appointment President Roosevelt will have to make during his tenure of office.

It can be shown without question that the Committee on Expenditures in the Executive Departments during the present Congress has saved the Government of the United States hundreds of millions of dollars. It is not my purpose to review all the work that the committee has done, but I am going to call attention to two outstanding accomplishments.

Just before the convening of the present Congress, information reached me regarding Indian claims pending before the Court of Claims. These suits had resulted from Congress passing 114 resolutions setting aside the statute of limitations and permitting Indians or their representatives to sue the Government on claims growing out of treaties, acts of Congress, and Executive orders. There was no limitation, and some of these claims grow out of treaties that were ratified as far back as 1779. After making a thorough investigation of the situation I called a meeting of the committee and had the Assistant Attorney General, Hon. Harry W. Blair, who represents the Government in the Court of Claims in these suits, as well as two assistants and representatives from the Comptroller General present. The Assistant Attorney General, Mr. Blair, stated before the committee that while all the petitions in those suits had not been filed up to that date, the suits filed amounted in claims to over three and one-quarter billion dollars. In some of the resolutions the Government was permitted to offset the claim by showing gratuities and advances that had been made to the various tribes, but in the great majority of the cases this right was not extended to the Government. The Government apparently was helpless.

Our committee was told frankly if Congress did not act it would be impossible to estimate the amount that the Court of Claims would be required to allow the Indians as a result of these suits. The committee came to the conclusion that the only way the Treasury and the taxpayers could be protected was to have a law passed that would be retroactive and would extend to the Government the right to charge off gratuities and advances made to the tribes in all suits pending and in future suits unless the Congress specifically provided that such offsets should not be allowed. Acting under directions of the committee, I placed the matter before the Committee on Appropriations, and Chairman JAMES P. BUCHANAN, of Texas, of that committee, as well as many of his colleagues, both on the Democratic and Republican side, were not only amazed but alarmed over the situation. The suggestion of our committee was when the next deficiency bill was considered the Committee on Appropriations call the judges of the Court of Claims, the Attorney General, and the Comptroller General before them, who would confirm our

statement, and then add an amendment to the deficiency bill giving the Government the right to set off the claims of the Indians by showing gratuities and advances that had been made to the tribes. The Appropriations Committee followed this procedure, and as a result we now have the law on the statute books, and while, no doubt, the Indians will recover some money from the Government, the amount will be very small in comparison with the amount of the claims.

Since that amendment was adopted several of the cases have been tried and the court allowed gratuities and advances as a set-off and rendered judgments in favor of the Government. This has resulted in individual resolutions and bills being introduced amending the original Jurisdictional Act which would deny the Government the right to charge off the gratuities and advances. Many of those resolutions and bills passed the Senate without debate and were favorably reported by the Committee on Indian Affairs of the House. I called this to the attention of the members of our committee and was directed to oppose the passage of these bills when they were called up in the House. Acting under the instructions of the committee, I have stopped the passage of the bills, with the assistance of many members of my committee, as well as the assistance of many members of the Appropriations Committee, notably, Hon. JAMES P. BUCHANAN, chairman of the Committee on Appropriations; Hon. JOHN TABER, of New York; and Hon. ROBERT L. BACON, also of New York. We were likewise assisted by Hon. JESSE P. WOLCOTT, of Michigan; Hon. THOMAS A. JENKINS, of Ohio; and Hon. JOHN M. COSTELLO, of California.

As an example, here is what happened in the last 2 days of the Congress:

The California Indian claims bill was passed, but before it was passed I insisted upon two amendments. One sentence which struck out only four lines in the bill which appeared to be perfectly harmless would have cost the Government, according to the Bureau of the Budget and the Comptroller General of the United States, $15,000,000. This was stricken out, together with an entire section which would also have cost the Government many millions of dollars, if the bill were allowed to pass in the form it passed the Senate.

A second bill called up Saturday was defeated by my objections, and that bill would have extended to the Cherokee Indians certain privileges that would have cost the Government untold millions of dollars if it had been allowed to pass.

In both cases the Court of Claims has already acted upon the matter, as well as has the Supreme Court, and they have ruled against the Indians; but if the jurisdictional acts were changed as the bills provided, a new suit would have been instituted and there would have been nothing that the judges could have done but render an opinion in favor of the Indians and against the Government.

Our committee's contention is when these suits have once been tried and acted upon by the Court of Claims and the Supreme Court they should not be allowed to be returned to the courts.

I also want to emphasize the fact that our committee has taken into consideration the report of the Director of the Budget, who is the President's representative; and when he has opposed the bills, stating their passage would be in conflict with the President's financial program, we take it for granted he is speaking for the President in opposing the passage of resolutions and bills.

Special attention has been given by our committee to the Private and Consent Calendars.

Throughout the last session, a day or two before omnibus claim bills were passed, I briefed for the membership of the House the important measures to be voted upon. Many bills listed as unfair to the taxpayers were defeated and every bill the President vetoed, claims bills, had been opposed by me.

Take the so-called Russian shoe claim for $960,000 as an example. When the Congress sent that bill to the White House over my objection I sent a long letter to the Secretary of the Treasury and the Director of the Budget, calling their attention to the bill and proved beyond question by the reports of the State Department and the Comptroller General there was no moral or legal obligation to require the taxpayers to reimburse the claimant. Further, I was the one who advanced the argument that the same principle was involved as was involved in the suits against the Government growing out of the revaluation of the gold dollar.

I called at the Treasury and insisted an opinion be secured from the Attorney General. This was done and was included in the report when it was submitted to the President. The President vetoed the bill for that very reason and when the House sustained that veto only four members voted to override the veto. There is no reason why the Committee on Expenditures should be required to do this work, but someone must do it, and our committee felt it was a proper function for us to perform.

Every member of the committee of which I am chairman is entitled to just as much credit as I am in saving the Government hundreds of millions of dollars by stopping the passage of these bills, and they are likewise entitled to credit for the passage of the law which gave the Government the power to charge off gratuities and advances made to the Indians.

On scores of occasions, acting for the committee, I have called attention of executive officials of the various departments as well as to the President of the United States, to various cases where our committee felt the intent of Congress was not being lived up to in connection with the administration of various laws, especially appropriation laws. The committee's letters have resulted in action immediately and in almost every case proved beneficial to the Treasury and the taxpayers.

I am not going to take up any more time enumerating the work of the committee but in conclusion I want to take this opportunity to thank every member of the committee, Democrat and Republican, for their kindness to me as well as the whole-hearted cooperation which they have always given me, and I repeat that they are entitled to just as much credit as I have been given for protecting the Treasury and taxpayers of the country.

The membership of the Committee on Expenditures is as follows:

John J. Cochran, Missouri, chairman.
Allard H. Gasque, South Carolina.
Riley J. Wilson, Louisiana.
Will M. Whittington, Mississippi.
Glenn Griswold, Indiana.
Randolph Carpenter, Kansas.
Ben Cravens, Arkansas.
James L. Quinn, Pennsylvania.
John M. Houston, Kansas.
Simon M. Hamlin, Maine.
James A. O'Leary, New York.
Aubert C. Dunn, Mississippi.
Raymond S. McKeough, Illinois.
Don Gingery, Pennsylvania.
Merlin Hull (Progressive), Wisconsin.
Charles L. Gifford, Massachusetts.
Robert F. Rich, Pennsylvania.
John B. Hollister, Ohio.
Philip A. Goodwin, New York.
Clare E. Hoffman, Michigan.
B. W. Gearhart, California.
Frank M. Karsten, clerk.

LIBERALIZING THE DISCHARGE RULE

Mr. LUDLOW. Mr. Speaker, a movement of much more formidable character than it is generally believed to be is now under way looking toward a liberalization of the so-called discharge rule.

By "discharge rule" I refer to the parliamentary device under which a bill that is being smothered in committee may be retrieved from the committee pigeonhole and brought to the House for debate and a vote on its merits.

Under the discharge rule now in operation a discharge petition does not become effective unless, or until, it is

signed by 218 Members, or a majority of the Members of the House. Formerly the number of signers required was only 145, and it was much easier then to bring a bill out of an unfriendly committee and before the House for its judgment than it is under the terms of the existing rule.

During the last few days, just prior to the adjournment of Congress a liberal group has been organized in the House whose principal policy is to make it possible in the future for 145 Members to bring a bill or resolution out of Committee for the action of the House. The chairman of this group is Representative GERALD J. BOILEAU, the brilliant, able, aggressive, young Progressive from Wisconsin. The secretary of the group is Representative CHARLES G. BINDERUP, of Nebraska, a Democrat and a fine type of public servant. The organization began its existence with 68 Members, but the indications are that its membership will substantially increase about the time Congress reconvenes, when the fight will be on in earnest for amendment of the discharge rule.

Impartial students of legislative procedure are impressed by the arguments in favor of liberalizing the discharge rule. The necessity of doing this if popular government is to be exemplified in our lawmaking body is stressed and emphasized by reason of the fact that without the discharge rule there is now no provision whereby a bill or resolution shall be automatically reported to the House after it has lain in committee a certain length of time.

Many of our House committees are graveyards where worthy measures sleep the sleep of death simply because there is now no adequate machinery to bring these bills and resolutions out of committees for the judgment of the House. I, myself, have felt the injustice of the existing system. On February 14, 1935, I introduced a joint resolution proposing an amendment to the Constitution of the United States to provide a referendum vote on a declaration of war and to take the profit out of war.

Take the profit out of war and there will be few wars. The referendum part of my proposed constitutional amendment would give all of our people—women as well as men—a right to decide by their votes whether our boys shall be hurled into the hell pits of foreign wars. It is based on the philosophy that those who have to suffer and, if need be, to die, and to bear the crushing burdens and costs of war, shall have something to say as to whether war shall be declared.

I sincerely believe that my proposed constitutional amendment, if adopted, would keep America out of foreign wars, which it has no business to enter, and that it would keep America out of all wars except righteous wars of self-defense.

Millions of people all over America approved my peace amendment, believing it to be by all odds the best proposal that has been advanced to keep America at peace with the world and to protect our boys from being used as cannon fodder in foreign conflicts, and yet, although it had back of it the heart interest of millions of human beings, I did not succeed in getting it out of the committee. When Congress adjourns today it will have been in the committee 16 months and 6 days. Does not the history of that resolution vividly illustrate the necessity of some provision to bring bills out of committees that are determined to smother them?

If there had been some provision whereby a resolution must be reported adversely, if not favorably, after a certain length of time an opportunity would be afforded for the House to pass its judgment on my resolution, but there is no such provision. A committee is supposed to be but an instrumentality of the House, yet the existing system makes every committee a graveyard, where a small group may bury every bill and resolution that does not receive its approval.

Who is there in all America that will say that the righteous war referendum and anti-war-profits resolution I introduced was not entitled to receive the judgment of the House, whether that judgment be favorable or otherwise? I filed a discharge petition but Members became indifferent when they viewed the hopelessness of securing as many as 218 signatures and many frankly said to me:

If I thought there were any prospect of getting 218 signatures I would help you, but there is no such prospect.

Just one more instance showing how the existing discharge rule operates to kill worthy legislation. On February 5 last, Representative COCHRAN, of Missouri, introduced a bill to repeal the act creating the Federal Register.

That publication is absolutely worthless, but it costs the taxpayers $263,000 a year, or more than $1,000 every time it is issued. It is responsible for the creation of a bureau which increases our already top-heavy bureaucratic personnel and adds $38,000 a year to the Federal salary roll—and just that much additional distress to the taxpayers. Copies of the Federal Register are sent free to Members of Congress and other officials, and usually are dumped into wastebaskets without being removed from the wrappers.

The congressional committee to which Mr. COCHRAN'S repealing bill was referred had 5 months and 15 days to act on this meritorious measure before Congress adjourned, and when the session ends today it will take its place in the congressional graveyard. Meanwhile the taxpayers, groaning under their enormous burdens, are being soaked to the tune of $263,000 a year to pay for a worthless publication.

I am not one of those who believe in a discharge rule so wide open that small groups and blocs may continually harass the House leadership and unnecessarily consume the precious time of the House by dragging out of committee all sorts of freak measures and panaceas to be voted on, and possibly a rule giving that power to 145 Members is too lax.

Perhaps 165 Members would be nearer to the correct number. But one thing that is certain is that as long as committees can constitute themselves as censors to kill bills and resolutions that are sound in principle and supported by a great body of public opinion, just that long there will be an insistent demand that the discharge rule shall be liberalized.

I predict that when Congress reconvenes Mr. BOILEAU and his associates will make things exceedingly interesting for the Tories and Bourbons who believe that every committee should maintain a spacious graveyard and that all bills that are disapproved by the ruling powers should be killed in committee without benefit of clergy.

REGULATION OF MANUFACTURE, SALE, AND DISTRIBUTION OF INTOXICATING LIQUOR

Mr. COCHRAN. Mr. Speaker, for over a year there has been considerable agitation among the so-called professional drys of the United States for the return of prohibition, and, as one who advocated the repeal of the eighteenth amendment, I want to refer briefly to the situation that confronted us during the period of prohibition, as well as the situation that faces the country today.

While we have disposed of prohibition for the time being, I feel that anyone who has given serious thought to existing conditions cannot but agree with me when I say that it would be better for the Nation as a whole if we had stricter regulation of the liquor traffic.

It is my candid opinion, and I express it frankly, that unless there is stricter regulation we are going to see another battle waged in this country to reenact the eighteenth amendment.

We did progress, so far as this National Congress is concerned, during the session which has just closed, because we enacted legislation that will better protect the dry States of the Union. It is the duty of the Federal Government to see that the States that do not want liquor sold within their borders are fully protected. However, insofar as the traffic of alcoholic liquor in the States where it is permitted to be sold is concerned, the duty rests with the State and local officials to regulate and enforce the laws relative to the sale of intoxicants. The Federal Government has no control over the distribution of liquor in the so-called wet States. Its only power is the taxing power. That rests with the city and State officials, as well as the various State legislatures.

It seems to me it would be well for the various States to thoroughly investigate the enforcement of the liquor laws in all the States of the country with a view to enacting legislation that would be uniform after it had been disclosed what was the best method of sale and distribution.

Billions of dollars in taxes have accrued to the cities, States, and Federal Government since the repeal of the

eighteenth amendment. The loss in revenue to the Federal Government alone during the prohibition period was approximately $8,200,000,000. The records of investigating committees showed that over a period of years the drys spent $150,000,000 to bring about the enactment of the eighteenth amendment.

I am going to quote some official statistics to show just exactly what happened:

The complete statistical record of national prohibition enforcement, compiled from reports of the United States Treasury and the Department of Justice, covering nearly 14 years, shows:

Illicit stills and distilleries and liquor-making equipment seized	1,988,802
Number of persons arrested for violation of Federal prohibition laws	831,204
Number of persons permanently branded as criminals by conviction	761,320
Number of days of prison sentences imposed	65,673,520
Number of automobiles seized	86,573
Number of boats seized	1,615
Value of all property seized	$18,114,110.16
Gallons of distilled spirits seized	15,576,439.03
Gallons of malt liquor (beer) seized	70,261,665.35
Gallons of wine, cider, and pomace seized	50,103,896.72

In 1930 the United States Department of Justice officially estimated the quantity of unlawful liquor made in that year was:

Distilled spirits	gallons	73,386,718
Malt liquor (beer)	do	684,476,800
Wine	do	118,476,000

Thus, we see that in more than 13 years the Federal Government, at a direct cost of about $700,000,000 in appropriations for all enforcement activities, and a loss of $7,500,000,000 on the basis of present alcoholic beverage revenues, actually captured the equivalent—

Of one-fifth of the illicit distilled liquors made in the one prohibition year of 1930.

A little more than one-tenth of the illegal beer made in 1930.

And much less than one-half of the illegal wine—to say nothing of cider—made in 1930.

One Federal prohibition administrator had the honesty to admit to a Senate committee that prohibition agents captured not more than 1 illicit still in 10 in actual operation.

On the basis of his estimates then there must have been 20,000,000 illicit distilleries and other liquor-making equipment in operation during the prohibition era.

Result:

An increase in arrests for drunkenness in 502 cities and towns from 276,691 in 1920—the first prohibition year—to 705,544 in 1928, 711,526 in 1929, and 683,442 in 1930.

The crime, corruption, hypocrisy, and general demoralization wrought by prohibition cannot be reduced to statistics, because the enormous extent of it will never be known.

To achieve and perpetuate the constitutional amendment which produced these direful and amazing results, the professional prohibition organizations spent $150,000,000, and entailed upon the Government a combined direct and indirect expense of $8,200,000,000.

Mr. Speaker, we do not want this situation to return, but the beer and liquor industry should see the wisdom of enacting in the various wet States of the Union model laws for the sale and distribution of intoxicants. The sale and distribution of intoxicants should be taken out of politics; the youth of America should be protected as well as those who engage in overindulgence.

The fight to repeal the eighteenth amendment was based upon the desire for temperance and that can only be achieved by properly regulating the manufacture, sale, and distribution of intoxicating liquors. I cannot see how anyone can deny but that there is a great deal yet to be done before this objective is achieved.

BLOCK BOOKING AND BLIND SELLING—A REPORT

Mr. PETTENGILL. Mr. Speaker, because of the wide interest in the Pettengill-Neely block-booking and blind-selling bill and for the information of the many thousands of our citizens who have sponsored it, I wish to make a brief report on its legislative history in this Seventy-fourth Congress.

The Pettengill bill was referred to the Committee on Interstate and Foreign Commerce, and that committee ordered public hearings to be held by a subcommittee beginning March 9. The subcommittee was composed of myself as chairman, Mr. SADOWSKI, of Michigan; Mr. PEYSER, of New York; Mr. TERRY, of Arkansas; Mr. COOPER, of Ohio; and Mr. HOLMES, of Massachusetts.

The hearings continued up to March 26. Everybody was given full opportunity to be heard for and against, and a volume of 526 pages of testimony was the result.

Thereafter the subcommittee went into executive sessions on the bill and reported it favorably to the full committee, with the exception that the paragraph on blind selling was not recommended.

A majority of the subcommittee felt that with block booking prohibited, so that exhibitors would not be compelled to buy films in a block before they were produced, the paragraph on blind selling could be omitted on the theory that exhibitors would then have an opportunity, in many instances, to see a preview of films before becoming bound to produce them.

I did not favor the elimination of the blind-selling feature. I am simply reporting what the majority did.

This brought the bill before the full committee. I made an earnest effort to have them report it favorably. The opposition toward its consideration at this Congress was, however, too great.

A somewhat similar report can be made about the Neely bill in the Senate, which was identical with the Pettengill bill in the House. There also a subcommittee was named which considered hearings. The subcommittee reported it favorably to the full committee, and I am informed the full committee reported it favorably to the Senate. This gave us ground to hope the Senate would pass the bill and get it over to the House, but, in the rush of closing, it, with many other important bills—for example, the pure food and drugs bill—failed of enactment.

I wish a better report could be made. However, the resistance to the bill was formidable. It might be said also that important legislation seldom is enacted the first session it is introduced.

If I am returned to Congress, the bill will be reintroduced. The battle will go on. The matter of better movies and community freedom of choice is too important to be lost in the first engagement.

"We will fight it out on this line if it takes all summer."

Disappointing as is the situation to myself and the splendid men and women who gave their time, their effort, and their means to this struggle, we can, nevertheless, take comfort in two things: First, we did our duty by our country and our children as we saw it; and, second, the mere introduction of the bill and the battle that was made for it has unquestionably had a good effect on the motion-picture industry. That is apparent from common observation; and, second, it is testified to in private conversation by men prominent in the industry—even among those who fought the bill's passage. The proprieties forbid me to state names, but this is the fact.

The motion-picture industry is not unlike many others. There are men in it who may not wish any supervision or regulation by Government yet are fully aware of the men and practices which have given it a bad name and themselves wish to see improvement in the conditions under which films are produced and marketed.

The struggle for the enactment of the Pettengill-Neely bill has strengthened the hands of those in the industry as well as those outside it who recognize that it cannot defy public opinion and succeed.

"Say not the struggle naught availeth." It has already accomplished much good. The history of the movies, however, is that promises of self-regulation are a frail reed to rely upon.

I am happy to give credit to the fine support which the bill received. Among the 46 witnesses who personally appeared

before our subcommittee were Congressmen Connery, of Massachusetts; Culkin, of New York, and White, of Idaho; Mr. Fred Brenckman, of the National Grange; Stephen J. Cabot, Henry R. Atkinson, and Miss Katherine Lyford, of Boston, representing the Motion Picture Research Council; Miss Agnes G. Regan, executive secretary of the National Council of Catholic Women; Miss Jeannette Willensky, of Philadelphia, and P. J. Wood, of Columbus, representing independent groups of exhibitors; Mrs. Mary T. Bannerman and William H. Bristow, of Washington, representing the National Congress of Parents and Teachers; Miss Helen Atwater, of the American Home Economics Association; Miss Mary Winslow, of the National Women's Trade Union League; Canon W. C. Chase, of the International Reform Federation; Abram F. Myers, of Washington; H. A. Cole, of Texas; Sidney Samuelson, of New Jersey; and H. M. Richey, of Detroit, representing Allied States Association of Motion Picture Exhibitors, and many more. Mr. E. L. Kuykendall, president of the Motion Picture Theatre Owners of America, of Mississippi, did not defend block booking or the evils which have grown up under it, but felt that the remedy was a more liberal cancelation clause. In fact, while the bill was under consideration many conferences took place within the industry looking toward ways and means to meet the evils which the bill seeks to cure.

In addition, many thousands of letters and telegrams reached the members of the committee from all parts of the United States favoring the bill. Among the national organizations backing the bill are the following:

American Association of University Women.
